

**ROLL CALL ORDER FOR MEETING OF
April 2, 2024**

Cavanagh, Farber, Jones, Resnick, Roussell, Sprank, Wethal

Viewing and Participation Options

The public has the option to view and participate in the meeting in City Council Chambers or virtually. The meeting will be aired live on CityChannel Dubuque (Mediacom cable channels 8 and 117.2), streamed live and archived on the City's website at www.cityofdubuque.org/media, and streamed live on the City's Facebook page at www.facebook.com/cityofdubuque.

The public can provide in-person, audio, and written input during sections of the agenda where public input is accepted. For in-person input, please reference the instructions on speaking within Public Hearing section.

Virtual input options during the live meeting include:

- Log into GoToMeeting using the login links, phone numbers and access code below. This option includes audio input and written "chat" input. If you are participating via computer, indicate which item you would like to speak to in the Chat function, or note you would like to speak during the appropriate section. If you are participating via phone, indicate which item you would like to speak to during the appropriate section. All comments, whether audio or written, must be accompanied by a name and address.

Please join the meeting from your computer, tablet or smartphone.

- www.CityOfDubuque.org/VirtualMeeting
- You can also dial in using your phone.
- United States (Toll Free): 1 877 568 4106
United States: +1 (571) 317-3129
Access Code: 337-661-181

Additionally, written public input can be accepted prior to the meeting by:

- Contacting the City Council directly from the City's webpage at www.cityofdubuque.org/councilcontacts
- Through the City Clerk's Office email at ctyclerk@cityofdubuque.org

**CITY OF DUBUQUE, IOWA
CITY COUNCIL MEETING**

HOW TO USE THIS POLICY BUDGET DOCUMENT

PURPOSE

The Policy Budget defines goals and objectives for all City departments and activities, relates them to cost and resource requirements and attempts to establish measures for evaluating accomplishment. Specific improvement packages are developed and included in the Policy Budget for alternative funding and service levels. The Policy Budget document shows the budget by line item for each Department and provides a basis for fiscal control once the budget is adopted.

The Policy Budget emphasizes objectives, accomplishments, and alternative funding and service levels and is intended to keep the attention of the City Council and public on the major policy decisions involving what services the City government will provide, who will pay for them, and the implications of such decisions.

FORMAT

The Policy Budget is organized by Department/Division and provides detail for all activities that make up each Department/Division. Each Department/Division tab includes the following information:

- 1) **Department/Division Financial Summary:** The ***budget highlights*** portion of the Department Summary reflects total expenses for the maintenance level budget (cost to continue at the same level of service) and approved improvement packages for all activities within the Department by expenditure category (employee expense, supplies and services, machinery and equipment, and debt service), and the funding sources that pay those expenses. The property tax portion of the funding is reflected, noting the increase or decrease from the prior years adopted budget. For Departments which are self supporting (i.e. Water, Water Pollution Control, Refuse (part of Public Works), Media Service, Transit, Parking), the net operating surplus/deficit is reflected, noting the increase or decrease in the fund from the prior years adopted budget.

This summary displays all ***Improvement Packages*** submitted by Department/Division Managers, with a notation of whether they were recommended by the City Manager, and then approved by the City Council. Those noted with a 'YES' were added to the maintenance level budget and are reflected in the Department Funding Summary and those noted with a 'NO' were not approved.

And finally, this summary explains ***significant line item detail*** by expenditure category, notable revenue changes, and miscellaneous information regarding the maintenance level budget. These are the review notes prior to adding any improvement packages.

- 2) **Memo Addressing Budget Issue (optional):** If there is an important budget issue that needs further explanation, a memo will be provided.
- 3) **Department's Organizational Chart (optional):** Shows how a Department is structured. Usually included for larger more complex Departments.
- 4) **Department/Division's Highlights of Prior Year's Accomplishments and Future Initiatives:** This is a written narrative that highlights the Department's prior year accomplishments and what Departments plan on accomplishing in the near future.

- 5) **Department/Division's Goals and Performance Measures by Activity:** This is a written activity statement and a matrix for each activity which includes activity objectives, relationship to City Council Goals & Priorities, and key performance indicators (KPIs).. Performance measures are included for each activity to evaluate activities and ensure that the approved levels of funding yield the expected results. Icons for each KPI visually indicate how well an objective is doing and represent the following:

Goal Met	Goal in Progress	Goal Not Met
This goal has been met.	The goal has not been met but is showing signs of improvement.	This goal has not been met and is not currently showing signs of progress.

- 6) **Department/Division's Goals and Performance Measures by Activity:** This is a written narrative for each activity that explains the goal, describes the purpose, and explains the service objectives of each activity. Performance measures are included for each activity to evaluate activities and ensure that the approved levels of funding yield the expected results.
- 7) **Recommended Operating Revenue Budget by Department/Division:** This report reflects line item revenue detail at the Department/Division level (combines all activities for each line by fund). Two years actual revenues, prior year adopted revenues and the recommended revenue for the new budget year are reflected.
- 8) **Recommended Operating Expenditure Budget by Department/Division:** This report reflects line item expenditure detail at the Department/Division level (combines all activities for each line by fund). Expenses are grouped by category (employee expense, supplies and services, machinery and equipment, debt service, and transfers) and displays two years actual expenses, prior year adopted expenses and the recommended expense for the new budget year.
- 9) **Recommended Operating Expenditure Budget by Activity and Funding Source:** This report reflects expenses grouped by category (employee expense, supplies and services, machinery and equipment, debt service, and transfers) for each activity within the Department/Division, and displays two years actual expenses, prior year adopted expenses and the recommended expense for the new budget year.
- 10) **Personnel Complement at Department/Division and Activity Level:** These reports reflect positions budgeted at the Department/Division level and the Activity level, by funding source. Total Full Time Equivalents (FTE) and wages with longevity expense are shown for each position for two years prior year adopted FTE and expenses, and the recommended FTE and related expense for the new budget year.
- 11) **Capital Improvement Projects by Department/Division:** This report lists all Capital Improvement Project totals for two years actual expenses, prior year adopted expenses and the recommended expense for the new budget year.
- 12) **Five Year Capital Improvement Program Summary by Department/Division:** This report lists all Capital Improvement Projects budgeted in the new budget year and planned for the next four years.

Improvement Package Summary

1 of 9

This improvement level package request provides for adding one full-time Maintenance Technician position to the Park Division (1.00 FTE, GD-06). This position would be assigned to the Bee Branch Creek Greenway area. Staff have struggled to fill temporary positions for this particular activity in the Park Division. This new full-time staff position would be responsible for the daily maintenance of the Bee Branch Creek Greenway, including but not limited to: litter control, turf and irrigation maintenance, weed control, vandalism removal, snow removal and other general park maintenance items. The cost of the new Maintenance Technician position will be partially offset by eliminating 0.11 FTE from temporary Parks Groundskeeper positions and also eliminating 0.50 FTE from the temporary Landscape Crew Member positions. The cost of the new Maintenance Technician position would be \$80,137, and the savings from eliminating the positions is \$24,273, resulting in a net cost of \$55,864. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities.

Related Cost:	\$ 80,137	Stormwater Fund	Recurring	Recommend - No
Related Cost Savings:	\$ 4,377	Stormwater Fund	Recurring	
Related Cost Savings:	19,896	Tax Funds	Recurring	
Net Cost:	<u>\$ 55,864</u>			
Property Tax Impact:	\$ 0.022	0.13%		
Activity: Park Areas & Maintenance				

2 of 9

This improvement level package request provides for adding one full-time Maintenance Technician position to the Park Division (1.00 FTE, GD-06). This position would be assigned to the Park Areas and Maintenance activity of the Park Division. The Park division has struggled to hire temporary positions the last few years. This position would be responsible for all areas of park maintenance, including but not limited to: turf and irrigation maintenance, litter control, weed spraying, snow removal, general building maintenance, etc. This position would also assist with the maintenance of the three mini parks that will be constructed in 2024. This request eliminates 0.96 FTE from temporary Parks Groundskeeper positions to help partially offset the cost for the new full-time Maintenance Technician position. The cost of the new Maintenance Technician position would be \$80,137, and the savings from eliminating the positions is \$38,189, resulting in a net cost of \$41,948. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities.

Related Cost:	\$ 80,137	Tax Funds	Recurring	Recommend - No
Related Cost Savings:	\$ 38,196	Tax Funds	Recurring	
Net Cost:	<u>\$ 41,941</u>			
Property Tax Impact:	\$ 0.0165	0.10%		
Activity: Park Areas & Maintenance				

3 of 9

This improvement level request provides for 1510 additional hours for temporary Park Rangers during the park season (0.72 FTE). In 2015, two full-time Park Ranger positions (2.00 FTE) were eliminated and hours reduced for the temporary Park Rangers due to hiring freeze and budget cuts. Currently, there is one Park Ranger scheduled for evenings Monday through Thursday and two Park Rangers scheduled for evenings on Friday, Saturday and Sunday. They are unable to provide the level of service expected by the Leisure Services Department and an increase in required training has also reduced their amount of hours in the field. The increased hours would provide for two Park Rangers on Monday through Thursday evenings and additional daytime hours on Saturdays and Sundays. The hours would also decrease time needed by the Police Department to respond to calls that Park Rangers can handle. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities. Having adequate coverage from Park Rangers is an essential function of maintain parks.

Related Cost:	\$ 37,120	Tax Funds	Recurring	Recommend - No
Property Tax Impact:	\$ 0.0146	0.16%		
Activity: Parks Patrol				

4 of 9

This improvement package request provides for 4 additional desktop computers for the Park Division. Three computers would be for functional supervisors that do not have a desktop computer. An additional computer would be a multi-user computer for Park Division staff. With the Tyler Human Resources Management module, increased trainings, City emails and additional items required to perform work duties efficiently, desktop computers are needed as iPads are not sufficient. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities. Having adequate technology in the Park Division helps staff perform their duties.

Related Cost:	\$ 8,800	Tax Funds	Non-Recurring	Recommend - Yes
Property Tax Impact:	\$ 0.0035	0.04%		
Activity: Parks Area and Maintenance				

5 of 9

This improvement level request provides for the purchase of a utility vehicle for use at Veterans Memorial Park. After the Miracle League Complex was completed, new maintenance responsibilities were required for the Park Division. A utility vehicle assigned to the Greenhouse activity was moved to Veterans Memorial Park to efficiently perform the new responsibilities. This has resulted in a shortage of utility vehicles to perform efficiently as a department. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities. Having an additional utility vehicle will empower staff to maintain Veteran Memorial Park more efficiently.

Related Cost:	\$ 23,000	Tax Funds	Non-Recurring	Recommend - Yes
Property Tax Impact:	\$ 0.009	0.10%		
Activity: Park Areas & Maintenance				

6 of 9

This improvement level request provides for the purchase of a plate compactor and jumping jack compactor. The Park Division purchased a mini excavator in FY 2024 and has been using it regularly for projects. Staff have needed to rent a plate compactor and jumping jack for many of these projects. The purchase of these products will save on the costs of rental and also the availability of the equipment to complete projects in a timely manner. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities. Having the necessary equipment regularly available for use will allow staff to better maintain City parks.

Related Cost:	\$ 7,000	Tax Funds	Non-Recurring	Recommend - Yes
Property Tax Impact:	\$ 0.0028	0.03%		
Activity: Park Areas & Maintenance				

7 of 9

This improvement level request provides for the purchase of a dump trailer for the Forestry activity in the Park Division. The Forestry activity does not have a trailer. This trailer would allow for the Forestry team to transport trees and other supplies for tree plantings. It would assist with transport of stump grindings, topsoil and mulch and other debris and materials. The trailer would also be used to transport the Forestry skid steer for tree related projects. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities. Providing staff with adequate equipment empowers them to better maintain City parks.

Related Cost:	\$ 15,000	Tax Funds	Non-Recurring	Recommend - Yes
Property Tax Impact:	\$ 0.0059	0.07%		
Activity: Forestry				

8 of 9

This improvement level request provides for the purchase of a tow-behind prairie mower for the Park Division. This mower can mow at a height of up to 7 inches which is an ideal height for prairie maintenance. This piece of equipment would offset the cost of hiring a contractor to mow smaller prairie areas. This

request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities.

Related Cost:	\$ 4,000	Tax Funds	Non-Recurring	Recommend - Yes
Property Tax Impact:	\$ 0.0016	0.02%		
Activity:	Greenhouse			

9 of 9

This improvement level package provides for a remote-controlled mower for the Park Division. There are numerous steep slopes that the Park Division mows including turf and prairie areas. This mower would reduce the risk of injury from mowing these areas with staff on riding mowers. The mower would be remote operated by staff from a safe distance. This mower could also be used to mow storm water detention basins. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities. Providing staff with adequate equipment empowers them to maintain City parks using safer methods.

Related Cost:	\$ 70,000	Tax Funds	Non-Recurring	Recommend - Yes
Property Tax Impact:	\$ 0.0275	0.31%		
Activity:	Park Areas & Maintenance			

Significant Line Items

Employee Expense

1. FY 2025 employee expense reflects a 5.00% wage package increase.
2. The Iowa Public Employee Retirement System (IPERS) City contribution of 9.44% is unchanged from FY 2024 The employee contribution of 6.29% is unchanged from FY 2024.
3. The City portion of health insurance expense is unchanged from \$1,119 in FY 2024 to \$1,119 in FY 2025 per month, per contract, which results in an annual cost unchanged of \$— or 0.0%.
4. Five-Year Retiree Sick leave payout decreased from \$12,074 in FY 2024 to \$11,781 in FY 2025.
5. Overtime expense is unchanged from \$21,936 in FY 2024 to \$21,936 in FY 2025. FY 2023 actual was \$29,146.
6. Workers Compensation decreased from \$65,290 in FY 2024 to \$64,513 in FY 2025. FY 2023 actual was \$70,851.

Supplies & Services

7. Pay to Other Agency increased from \$50,000 in FY 2024 to \$60,000 in FY 2025. This line item represents the management agreement with Dubuque County for the EB Lyons Interpretive Center. The City pays the County 50% of expenses for staffing, utilities, and repairs. All of these costs at the EB Lyons center have increased, thus the City's payment to the County has increased.
8. General Liability Insurance increased from \$28,658 in FY 2024 to \$66,808 in FY 2025 based on information received from Iowa Communities Assurance Pool (ICAP).

9. Electricity increased from \$122,010 in FY 2024 to \$122,794 in FY 2025 based on FY 2023 actual of \$111,834. This line item represents electricity costs for park areas and facilities, as well as a portion of electricity expenses for the Leisure Services Bunker Hill administrative office.
10. Equipment Maintenance/Repair increased from \$47,636 in FY 2024 to \$48,191 in FY 2025. This line item represents miscellaneous parts, maintenance, and repairs for equipment such as mowers, utility vehicles, chainsaws, snowblowers, sweepers, chippers, and stump grinders.
11. Building Maintenance increased from \$179,759 in FY 2024 to \$213,503 in FY 2025 based on FY 2023 actual of \$201,079 plus expected price increases of 6%. This line item represents general maintenance at City Parks and facilities. Common maintenance items include plumbing, painting, electrical work, overhead door repairs, repairing water and sewer lines, maintenance of fences, gates, and playground equipment, repair of buildings and shelters, road maintenance, and playground turf and mulch maintenance. Industry-wide price increases have impacted the cost of parts and supplies used for maintaining facilities.
12. Vehicle Ops - Gasoline is unchanged from \$52,718 in FY 2024 to \$52,718 in FY 2025 based on FY 2024 budget. This line item represents fuel expenses for Park Division vehicles, machinery, and small equipment.
13. Vehicle Repairs - Internal increased from \$18,737 in FY 2024 to \$22,806 in FY 2025 based on a three year average of FY 2023, FY 2022, and FY 2021. This line item represents preventative maintenance and repairs to vehicles in the event of a breakdown or part failure.
14. Landscaping increased from \$88,022 in FY 2024 to \$97,131 in FY 2025 based on the FY 2023 Actual of \$95,061 plus expected cost increases of 2%. This line item represents expenses for landscaping and upkeep at City parks and facilities. Common expenses include dirt, seed, fertilizer, herbicides, mulch, and plants. Industry-wide price increases have impacted the cost of materials and supplies used for the upkeep of City parks.
15. Tree Maintenance is unchanged from \$84,500 in FY 2024 to \$84,500 in FY 2025. The FY 2023 Actual was \$71,436. This line item includes contracted tree and stump removal near power lines (\$10,000), ash tree treatment (\$4,500), and ash tree removal (\$45,000) and planting trees (\$25,000). Actual expenses in this line item fluctuate due to the tree maintenance needs. The FY 2023 actual reflects fluctuation and was relatively low. The FY 2022 actual was \$83,542.
16. Other Contractual Services decreased from \$51,600 in FY 2024 to \$44,920 in FY 2025. The FY 2023 Actual was \$56,215. This line item includes playground mulch installation, delivery and collection of green waste dumpsters, roundabout maintenance, contracted snow removal of new Chavenelle Trail, and Bee Branch hanging baskets. FY 2024 included a non-recurring improvement package for pollinators (\$10,000), contributing to the decrease. However, the decrease from the FY 2024 improvement packages is offset by an increase in the cost of hanging baskets for the Bee Branch.
17. Lawn Care Contract decreased from \$79,050 in FY 2024 to \$76,063 based on a three year average. This line item is variable each year due to mowing schedules and weather conditions. The FY 2023 Actual was \$70,899. This line item represents contracted lawn care services for smaller parks.
18. Property Insurance increased from \$43,562 in FY 2024 to \$59,716 in FY 2025 based on FY 2024 budget minus approximately 37%. FY 2023 Actual was \$34,510.
19. Equipment Maintenance Contracts decreased from \$28,667 in FY 2024 to \$25,617 in FY 2025 based on FY 2023 Actual. This line item represents contracts and fees for mobile radios, blue help stations, cash registers, and security alarms.

20. Stormwater utility expense increased from \$43,361 in FY 2024 to \$47,926 in FY 2025 based on FY 2023 actual of \$41,276 plus 16.11%.
21. Natural Gas utility expense increased from \$19,646 in FY 2024 to \$24,167 in FY 2025 based on FY 2023 actual.

Machinery & Equipment

22. Equipment replacement items are requested for \$447,310 for:

Parks Machinery and Equipment	
<u>Forestry</u>	
#4407 Dump Truck	\$ 70,000
#4409 Brush Chipper	\$ 60,000
Headsets	\$ 10,000

\$ 129,408	Total Park Annual Debt Service				

Revenue

24. Building/Land Leases increased from \$29,015 in FY 2024 to \$32,073 in FY 2025 based on the terms of the agreement. This line item represents rental of land at Murphy Park for a cell phone tower (\$28,164), as well as annual land leases with local organizations (\$850).
25. Camping Fees increased from \$89,118 in FY 2024 to \$110,401 in FY 2025 based on a three-year average of FY 2023, FY 2022, and FY 2021. The FY 2023 actual was \$127,457. FY 2022 and FY 2023 had very few closure days from to flooding from the Mississippi, resulting in being open most of the season.
26. Park Entrance Fees decreased from \$36,632 in FY 2024 to \$32,894 in FY 2025 based on a three-year average of FY 2023, FY 2022, and FY 2021. The FY 2023 actual was \$32,316. This line item represents park entrance fees for Eagle Point Park, which are charged on a per-vehicle basis.
27. Pavilion Fees increased from \$72,847 in FY 2024 to \$79,992 in FY 2025 based on a three-year average of FY 2023, FY 2022, FY 2021. The FY 2023 actual was \$84,634. This line item represents the rental of City pavilions and park facilities
28. Private Participant increased from \$131,639 in FY 2024 to \$140,609 in FY 2025. This line item includes the following:

	FY 2024	FY 2025	Change
Downtown Maintenance	\$ 10,674	\$ 11,208	\$ 534
Technology Park	\$ 23,803	\$ 24,545	\$ 742
Dubuque Industrial Center West	\$ 19,820	\$ 21,854	\$ 2,034
Chaplain Schmitt Island	\$ 27,552	\$ 27,552	\$ —
Veterans Memorial Pavers	\$ 49,790	\$ 55,450	\$ 5,660
Total Private Participant Revenue	\$ 131,639	\$ 140,609	\$ 8,970

Downtown Maintenance private participant represents payment from 8th Street and Main Street businesses for snow removal costs.

Technology Park and Dubuque Industrial Center West private participant represents the maintenance that is billed to the businesses. This is calculated by taking the previous Fiscal Year's expenses times the percentage of land. Estimated FY 2024 expense is \$139,287.

Chaplain Schmitt Island private represents payments from Dubuque Racing Association for maintenance of the Chaplain Schmitt pond project.

Veterans Memorial Pavers private participant represents purchases of memorial pavers at All Veterans Memorial on Chaplain Schmitt Island.

Miscellaneous

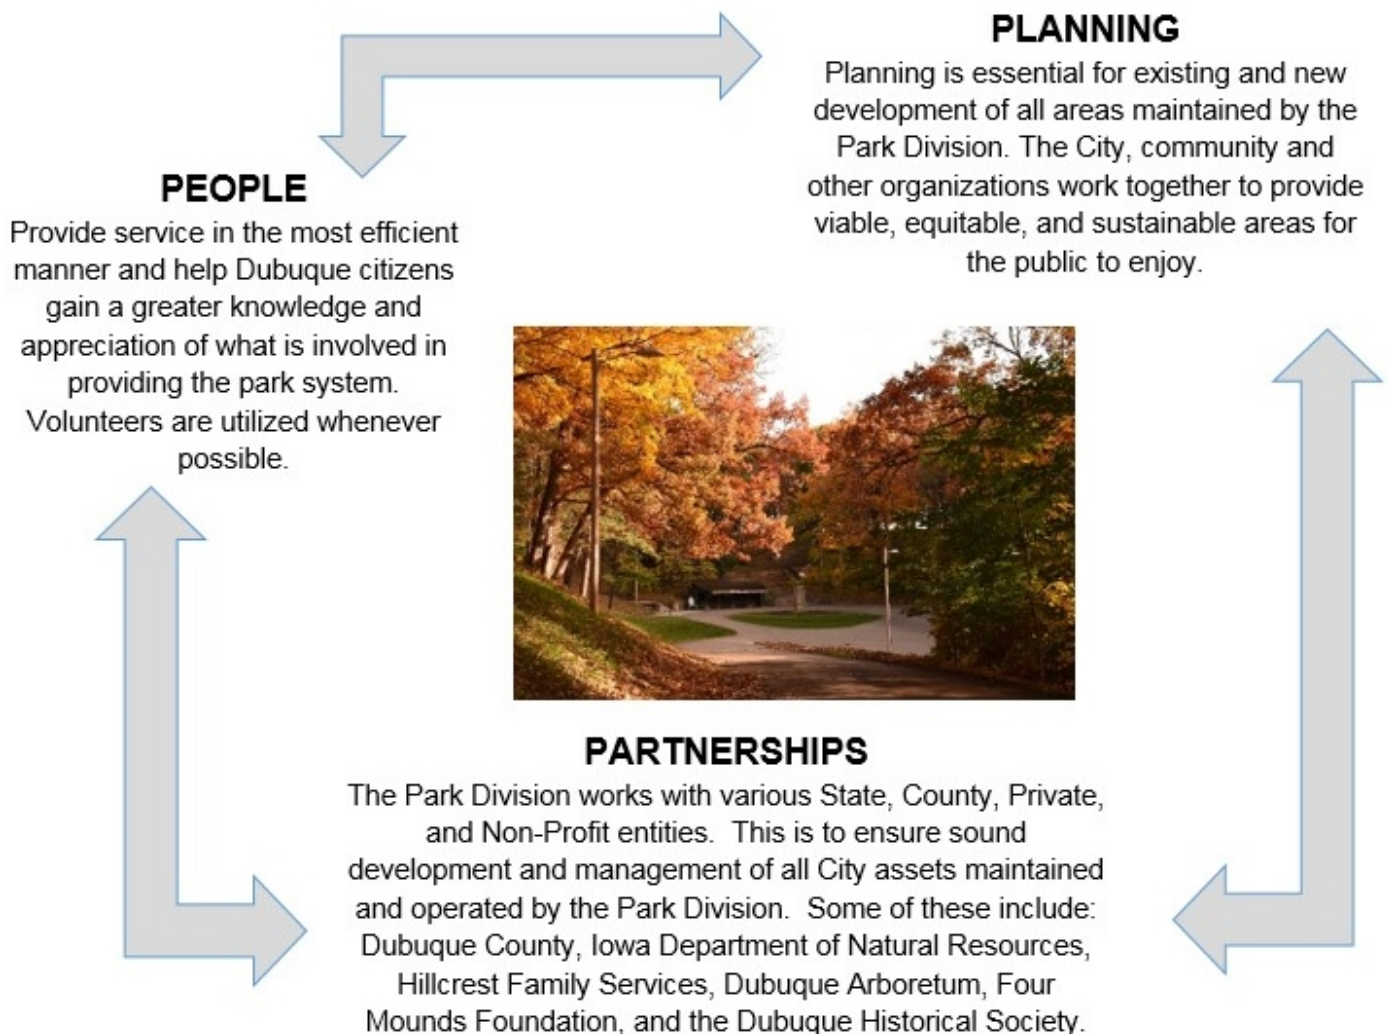

29. The Park Division budget for FY 2025 is 14.76% self-supporting versus 14.98% self-supporting in FY 2024.

LEISURE SERVICES PARKS DIVISION

The Parks Division enables and fosters full enjoyment of the parks, open spaces, and recreational facilities of Dubuque in a manner that demonstrates and fulfills the city's commitment to social equity, economic viability and environmental responsibility.

SUCCESS IS ABOUT PLANNING, PARTNERSHIPS AND PEOPLE LEADING TO OUTCOMES

LEISURE SERVICES PARKS DIVISION

	FY 2023	FY 2024	FY 2025
Full-Time Equivalent	38.39	39.59	39.59

Resources and Property Tax Support

The Park Division is supported by 39.59 full-time equivalent employees, which accounts for 64.35% of the department expense as seen below. Overall, the departments' expenses are expected to increase by 8.83% in FY 2025 compared to FY 2024.

Expenditures by Category by Fiscal Year

LEISURE SERVICES PARKS DIVISION Parks Maintenance

Mission & Services

Park Maintenance provides daily maintenance and security of all parks, park and building repairs and improvements, grounds maintenance, trail maintenance, emergency storm damage response/repair, park inspections, athletic field and court maintenance, snow removal, equipment and playground maintenance and maintenance of water features and irrigation systems. It also includes maintenance of all park equipment and vehicles. Also included is assistance with maintenance of Recreation facilities.

Areas include: Maintenance staff maintains 16 community parks, 6 neighborhood parks, 25 mini parks, 5 new parcels for park development and a Pet Park for a total of 974 acres. Other maintenance responsibilities include 3.4 miles of median strips, 12 miles of roadway, 5 miles of sidewalks, 27 miles of off-road paved multi-use trails and 40 other areas.

Park Maintenance Funding Summary

Supporting Documentation

Supporting Documentation

HOW TO USE THIS POLICY BUDGET DOCUMENT

PURPOSE

The Policy Budget defines goals and objectives for all City departments and activities, relates them to cost and resource requirements and attempts to establish measures for evaluating accomplishment. Specific improvement packages are developed and included in the Policy Budget for alternative funding and service levels. The Policy Budget document shows the budget by line item for each Department and provides a basis for fiscal control once the budget is adopted.

The Policy Budget emphasizes objectives, accomplishments, and alternative funding and service levels and is intended to keep the attention of the City Council and public on the major policy decisions involving what services the City government will provide, who will pay for them, and the implications of such decisions.

FORMAT

The Policy Budget is organized by Department/Division and provides detail for all activities that make up each Department/Division. Each Department/Division tab includes the following information:

- 1) **Department/Division Financial Summary:** The ***budget highlights*** portion of the Department Summary reflects total expenses for the maintenance level budget (cost to continue at the same level of service) and approved improvement packages for all activities within the Department by expenditure category (employee expense, supplies and services, machinery and equipment, and debt service), and the funding sources that pay those expenses. The property tax portion of the funding is reflected, noting the increase or decrease from the prior years adopted budget. For Departments which are self supporting (i.e. Water, Water Pollution Control, Refuse (part of Public Works), Media Service, Transit, Parking), the net operating surplus/deficit is reflected, noting the increase or decrease in the fund from the prior years adopted budget.

This summary displays all ***Improvement Packages*** submitted by Department/Division Managers, with a notation of whether they were recommended by the City Manager, and then approved by the City Council. Those noted with a 'YES' were added to the maintenance level budget and are reflected in the Department Funding Summary and those noted with a 'NO' were not approved.

And finally, this summary explains ***significant line item detail*** by expenditure category, notable revenue changes, and miscellaneous information regarding the maintenance level budget. These are the review notes prior to adding any improvement packages.

- 2) **Memo Addressing Budget Issue (optional):** If there is an important budget issue that needs further explanation, a memo will be provided.
- 3) **Department's Organizational Chart (optional):** Shows how a Department is structured. Usually included for larger more complex Departments.
- 4) **Department/Division's Highlights of Prior Year's Accomplishments and Future Initiatives:** This is a written narrative that highlights the Department's prior year accomplishments and what Departments plan on accomplishing in the near future.

- 5) **Department/Division's Goals and Performance Measures by Activity:** This is a written activity statement and a matrix for each activity which includes activity objectives, relationship to City Council Goals & Priorities, and key performance indicators (KPIs).. Performance measures are included for each activity to evaluate activities and ensure that the approved levels of funding yield the expected results. Icons for each KPI visually indicate how well an objective is doing and represent the following:

Goal Met	Goal in Progress	Goal Not Met
This goal has been met.	The goal has not been met but is showing signs of improvement.	This goal has not been met and is not currently showing signs of progress.

- 6) **Department/Division's Goals and Performance Measures by Activity:** This is a written narrative for each activity that explains the goal, describes the purpose, and explains the service objectives of each activity. Performance measures are included for each activity to evaluate activities and ensure that the approved levels of funding yield the expected results.
- 7) **Recommended Operating Revenue Budget by Department/Division:** This report reflects line item revenue detail at the Department/Division level (combines all activities for each line by fund). Two years actual revenues, prior year adopted revenues and the recommended revenue for the new budget year are reflected.
- 8) **Recommended Operating Expenditure Budget by Department/Division:** This report reflects line item expenditure detail at the Department/Division level (combines all activities for each line by fund). Expenses are grouped by category (employee expense, supplies and services, machinery and equipment, debt service, and transfers) and displays two years actual expenses, prior year adopted expenses and the recommended expense for the new budget year.
- 9) **Recommended Operating Expenditure Budget by Activity and Funding Source:** This report reflects expenses grouped by category (employee expense, supplies and services, machinery and equipment, debt service, and transfers) for each activity within the Department/Division, and displays two years actual expenses, prior year adopted expenses and the recommended expense for the new budget year.
- 10) **Personnel Complement at Department/Division and Activity Level:** These reports reflect positions budgeted at the Department/Division level and the Activity level, by funding source. Total Full Time Equivalents (FTE) and wages with longevity expense are shown for each position for two years prior year adopted FTE and expenses, and the recommended FTE and related expense for the new budget year.
- 11) **Capital Improvement Projects by Department/Division:** This report lists all Capital Improvement Project totals for two years actual expenses, prior year adopted expenses and the recommended expense for the new budget year.
- 12) **Five Year Capital Improvement Program Summary by Department/Division:** This report lists all Capital Improvement Projects budgeted in the new budget year and planned for the next four years.

Personnel - Authorized FTE	42.75	42.25	42.25	

Improvement Package Summary

1 of 8

This improvement package request provides funding to implement a Park Ambassador program at Comiskey park, which includes creating new temporary Park Ambassador positions (net increase of 0.37 FTEs, NA-25) as well as purchasing office equipment and supplies for the new positions.

The Park Ambassador program would provide dedicated staff to monitor the Comiskey Park facility, engage with the community, and work with supervisors and other departments to plan events and coordinate the indoor facility use for community organization meetings, evening programs, etc. This program would be established on a seasonal basis, and it would operate out of the Comiskey building from Memorial Day weekend through Labor Day, from Noon to 10:00pm each day. Staff would monitor 9 hours per day, 7 days a week for 14 weeks.

The Park Ambassador program would include one temporary Lead Park Ambassador position (0.42 FTEs, NA-25 F) and one temporary Assistant Park Ambassador position (0.42 FTE, NA-25 E). Combined, this amounts to a total of 0.84 FTEs in new Park Ambassador positions to be added to the Recreation Classes activity that would be necessary for the program (\$37,381 recurring cost).

However, in an effort to help offset new costs and reduce the number of new FTEs being requested, current temporary positions in the Adult Athletics activity of the Recreation budget would be restructured, resulting in a net reduction of 0.47 FTEs to help offset the increase of 0.84 FTEs. The restructure of the Adult Athletics activity would include the following changes to current positions and creates a recurring net savings of \$15,378:

- Temporary Groundskeeper Position (currently 0.75 FTEs) — reduce by 0.27 FTEs, recurring savings of \$10,743
- Temporary Scorekeeper Position (currently 0.35 FTEs) — eliminate the position, thus reducing 0.35 FTEs, recurring savings of \$10,180

- Temporary Field Supervisor Position (currently 0.43 FTEs) — increase by 0.15 FTEs, recurring cost of \$5,545

Considered as a whole, the addition of 0.84 FTEs in temporary Park Ambassador positions and the net reduction of 0.47 FTEs in the above positions results in a need to add 0.37 new FTEs to the Recreation budget. The cost of 0.84 FTEs in Park Ambassador positions is \$37,381, and the net savings due to the restructure of the positions would be \$15,378, resulting in a recurring cost of \$22,003 for the personnel costs (wages, Social Security, and IPERS only, does not include office equipment and supplies). The financial breakdown of the personnel changes is summarized below.

Changes in Personnel	Impact on FTEs	Impact on Personnel Costs
<u>RESTRUCTURE CURRENT POSITIONS</u>		
Reduce hours for Temporary Groundskeeper Position	(0.27)	\$(10,743)
Eliminate Temporary Scorekeeper Position	(0.35)	\$(10,180)
Increase hours for Temporary Field Supervisor Position	0.15	\$5,545
Subtotal (restructure current positions)	(0.47)	\$(15,378)
<u>CREATE NEW POSITIONS</u>		
Create 0.42 FTE for Lead Park Ambassador Position	0.42	\$21,855
Create 0.42 FTE for Assistant Park Ambassador Position	0.42	\$15,526
Subtotal (create new positions)	0.84	\$37,381
Net Total Impact on Budget (personnel costs, not including equipment)	0.37	\$22,003

In addition to the personnel costs in the table above, implementing the Park Ambassador Program would require the purchase of equipment and supplies in the Administration activity. This would include funds to furnish the office with standard equipment, including a computer (\$2,200), desk phone with extension/license (\$360), and a network printer (\$1,100). These items have a total non-recurring cost of \$3,660. General office supplies will also be needed (pens, paper, staples, etc.), which have a recurring cost of \$200. The expenses for equipment total \$3,660 non-recurring and \$200 recurring, resulting in a total cost of \$3,860 in FY 2025.

The combined costs of personnel (net cost of \$22,003 recurring) and equipment (\$3,660 non-recurring and \$200 recurring) provides a grand net total cost of \$25,863 for this package in FY 2025 after considering offsets.

This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation. The addition of a Park Ambassador program at Comiskey Park would enhance the park and recreation experience for the community.

2 of 8

This improvement level request provides sustainable, recurring funding for the recruitment and retention of temporary staff in Recreation and the Leisure Services Department. During FY 2023, the City faced a great challenge in finding the necessary temporary summer staff to maintain City services. Hiring was so much of a struggle that the City was not able to open both City Pools in the summer of 2022. The City Manager and Budget Staff identified \$25,000 available in the FY 2023 City budget that could be reallocated to fund a marketing campaign to recruit temporary summer staff. This campaign was very successful, and hiring levels allowed both City pools to open in the Summer of 2023. Additionally, the Recreation division identified separate year end savings of \$25,000 in FY 2023 that was approved to be carried over into FY 2024 to continue these recruitment and retention efforts. All of the funds that were reallocated to help with marketing were done so on a one-time, non-recurring basis. As hiring is still expected to be a challenge in future years, this request seeks to increase the Recreation advertising line item by \$25,000 on a recurring basis. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation. Having sufficient staffing levels is essential to providing City services and having well maintained, well operated park and recreation facilities.

Related Cost:	\$ 25,000	Tax Funds	Recurring	Recommend - No
Property Tax Impact:	\$ 0.0098	0.11%		

Activity: Administration

3 of 8

This improvement level request provides funding to continue the expansion of the scholarship program for the Leisure Services Department. Scholarships are offered to any Dubuque resident whose household qualifies based on income. The scholarships pay for any expense in the Recreation operating system such as registration fees, season passes, and facility rentals. In FY 2023, additional funding was identified elsewhere in the City Budget and approved to be reallocated to Recreation to increase the total number of scholarships available to families. This resulted in the department issuing over 300 scholarships of \$125 each to income-qualifying families. Additional FY 2023 year end savings in the Recreation Budget was then approved to be carried over into FY 2024 to not only increase the number of annual scholarships from 200 to 300, but also to increase the household allocation from \$125 to \$150. All of the funds that were reallocated to help with the scholarship program were done so on a one-time, non-recurring basis. This request for additional recurring funding in FY 2025 and beyond will allow the department to continue to offer 300 \$150 scholarships to income-qualifying families. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation. Providing scholarships to help residents participate in Recreation programming ensures that residents of varying socio-economic backgrounds can participate.

This package was requested as a recurring package for \$20,000 annually, however, this package is recommended as non-recurring for \$8,900.

Related Cost: \$ 8,900 Tax Funds Non-recurring **Recommend - Yes**
Property Tax Impact: \$ 0.0035 0.04%
Activity: Administration

4 of 8

This improvement level request provides for the addition of \$2,200 in education funding for the Lead Administrative Assistant position. This position has not previously been provided with education funds. However, with the scope of responsibilities, this funding is necessary. These opportunities are not only for professional development, but also expand awareness and idea generation to improve service quality/delivery in equity and to meet the ever changing dynamic of programming for the community. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities. Providing staff with educational opportunities empowers staff to expand their knowledge, leading to Diverse Arts, Culture, Parks and Recreation.

Related Cost: \$ 2,200 Tax Funds Recurring **Recommend - No**
Property Tax Impact: \$ 0.0009 0.01%
Activity: Administration

5 of 8

This improvement level request provides for a \$700 increase in education funding for two supervisor level positions and the addition of \$2,200 in education funding for the new Business Development Manager position. With the increase in travel costs and conference fees, this funding is necessary for the staff to attend high quality continuing education opportunities. These opportunities are not only for professional development, but also expand awareness and idea generation, to improve service quality and service delivery in equity, and to meet the ever changing dynamic of programming for the community. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities. Providing staff with educational opportunities empowers staff to expand their knowledge, leading to Diverse Arts, Culture, Parks and Recreation.

Related Cost \$ 3,600 Tax Funds Recurring **Recommend - No**
Property Tax Impact: \$ 0.0014 0.02%
Activity: Golf

6 of 8

This improvement level request provides for the installation of a network switch at the McAleece Park. The Information Technology department recommended the installation of a network switch at the McAleece concessions stand to provide data access, therefore allowing for the concession stand operations to eliminate the old cash registers and utilize the RecTrac software, which is similar to the other point of sale facilities within the department. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities. Network switches ensure that parks and recreation facilities are well connected and equipped for all needs.

Related Cost: \$ 11,000 Tax Funds Non-Recurring **Recommend - Yes**
Property Tax Impact: \$ 0.0043 0.05%
Activity: Administration

7 of 8

This improvement level request provides for additional golf course revenues through a \$10 increase on all season passes. This increase in golf revenue will help offset rising operating costs. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities. Ensuring the Golf program has sufficient financial resources ensures the sustainability of operations.

Related Revenue: \$ 1,960 Program Fees Recurring

Recommend - Yes

Property Tax Impact: \$ (0.0008) (0.01)%

Activity: Golf

8 of 8

This improvement level request is from St. Mark. St. Mark provides safe places for kids in the greater Dubuque area with out of school learning programs offered for at-risk students, grades Kindergarten through 5th grade. These programs fill a gap for working families and students that are struggling with academic and social emotional skills. St. Mark is implementing large strategic shifts to strengthen and deepen the impact of programs while also working toward program sustainability. City of Dubuque funding will come at a critical time to build greater capacity within St. Mark to expand the impact of for student's education in the community with the following strategies:

St. Mark has expanded our partnership with the Boys and Girls Club to offer our after school programs on-site at the Club. This expansion of our partnership will add additional resources for our families; such as providing a hot dinner before they go home and connecting them to a program they can attend beyond 5th grade. This approach to centralizing our program will increase efficiency of staffing and allow greater ability to create positive environments for students to thrive. Transportation is a critical element in actualizing this new approach, and has added a new expense to this program.

Reaching More Students: St. Mark has also witnessed the growth in the need for after school programs and anticipates reaching 10 additional students in the 2024-2025 Dubuque after school program. The cost per student for an entire school year is \$4,000, which includes the costs of staffing, transportation costs, enrichment, materials, etc. In particular, increased staffing costs are the highest need for St. Mark's program. The success of these programs and achieving desired outcomes is dependent on having passionate, caring staff to build relationships with students and families.

Sustaining Outcomes & Knowledge: Overall increasing our capacity will deepen social emotional strategies, maintain positive program culture, and sustain knowledge or best practice training and certifications. Request is \$40,000

Significant Line Items

Employee Expense

1. FY 2025 employee expense reflects a 5.00% wage package increase.
2. FY 2025 employee expense reflects a large increase over FY 2024 due to multiple factors. Most significantly, approved staffing changes in the Marina activity resulted in some FTEs being

reclassified to higher pay ranges, which was not reflected in the FY 2024 original budget. Another factor is the number of employees receiving longevity and/or step increases has increased from FY 2024 to FY 2025. Lastly, the FY 2025 budget reflects a step increase correction for one position.

3. Since May of 2021, three separate wage increase packages for the Leisure Services department have been approved by the City Council. These packages have impacted all temporary employees in the Leisure Services department, most of them being in the Recreation Division. The three wage increases packages resulted in a collective cost increase of \$231,166 in the Recreation Division before considering any offsets. The FY 2024 budget was the first year where the three wage increases packages were included in the original budget. When the year ends, Fiscal Year 2024 will be the first year since the onset of the COVID-19 pandemic that the Recreation Division year end actual expenses will reflect a year of full operations.
4. The Iowa Public Employee Retirement System (IPERS) City contribution of 9.44% is unchanged from FY 2024. The employee contribution of 6.29% is unchanged from FY 2024.
5. The City portion of health insurance expense is unchanged from \$1,119 in FY 2024 to \$1,119 in FY 2025 per month, per contract, which results in the annual cost being decreased \$1 or 0.0%.
6. Five-Year Retiree Sick leave payout increased from \$11,598 in FY 2024 to \$11,608 in FY 2025.
7. Workers Compensation increased from \$26,568 in FY 2024 to \$32,554 in FY 2025. The FY 2023 actual was \$29,816.

Supplies & Services

8. Sales Tax expense increased from \$47,123 in FY 2024 to \$48,125 in FY 2025 based on the FY 2023 actual of \$39,942 and an estimated increase in department operations compared to FY 2023. The FY 2023 actual was low and not an accurate reflection of a full year of Sales Tax expenses due to not having both City pools open during that time, therefore, the FY 2025 budget is increased over the FY 2023 actual. Sales tax is collected on eligible goods and services sold through the Recreation department. The sales tax collected is then paid to the State of Iowa, therefore, the expense is directly off-set by the revenue collected.
9. Electricity increased from \$97,326 in FY 2024 to \$99,559 in FY 2025 based on the FY 2023 actual of \$84,620 and accounting for increased department operations compared to FY 2023. The FY 2023 actual was low and not an accurate reflection of a full year of electricity expenses due to not having both City pools open during that time, therefore, the FY 2025 budget is increased over the FY 2023 actual.
10. Natural Gas decreased from \$44,847 in FY 2024 to \$34,270 in FY 2025. The FY 2023 actual was \$23,472. The FY 2023 actual was low and not an accurate reflection of a full year of natural gas expenses due to not having both City pools open during that time, therefore, the FY 2025 budget is increased over the FY 2023 actual. In FY 2024, Flora pool received a heater upgrade (cost of \$46,380) resulting in both City pools achieving more efficient heating operations. Because of the expected heating efficiencies and associated cost savings, the FY 2025 budget reflects a decrease compared to FY 2024.
11. Building Maintenance increased from \$56,412 in FY 2024 to \$59,795 in FY 2025. The FY 2023 actual was \$58,324. This line item represents payments towards swimming pool maintenance, golf course grounds maintenance, marina maintenance, and maintenance at Allison Henderson and Comiskey parks.

12. Other Vehicle Operations is unchanged from \$130,000 in FY 2024 to \$130,000 in FY 2025 based on FY 2024 budget. This expenditure represents fuel sold to boaters at the Port of Dubuque Marina and is offset by \$212,625 in revenue from the sale of fuel.
13. Chemicals is unchanged from \$57,458 in FY 2024 to \$57,458 in FY 2025. The FY 2023 actual was \$64,386. This line item is utilized for golf course and pool maintenance. This line includes items such as chlorine and other water treatment chemicals, fertilizer, pesticides, and anti-fungal products. New filter systems have been installed at both pools, therefore, FY 2025 chemical costs for the pools are expected to decrease as a result of improved efficiency of the filter systems.
14. Food Products increased from \$49,694 in FY 2024 to \$52,770 in FY 2025 based on expected sales. The FY 2023 actual was \$47,537. The FY 2023 actual was low due to the Port of Dubuque Marina store being closed to the public and not having both pools open. This line item represents food sold at concessions at recreation facilities. This expense is offset by the revenue from sales of this product.
15. Beer Products increased from \$51,146 in FY 2024 to \$53,146 in FY 2025 based on current year sales. The FY 2023 actual was \$59,615. Beer sales at the Port of Dubuque Marina store have been trending downward, while McAleece beer sales have been trending upwards. This line item represents alcohol sold at Recreation facilities. This budget is offset by the revenue from sales of this product.
16. Credit Card Charges increased from \$30,871 in FY 2024 to \$33,099 in FY 2025 based on a three year average. The FY 2023 actual was \$35,298. This line item includes golf operations credit card charges based off 2.5% of revenue (\$16,590), Port of Dubuque dock credit card charges based on 2% of fuel sales (\$6,065), and administration credit card charges for program registrations (\$10,444).
17. Program Materials is unchanged from \$66,811 in FY 2024 to \$66,811 in FY 2025. This line item is for concession supplies, bases, basketballs, volleyballs, softballs, nets, first-aid supplies, trophies, community engagement in Rec & Roll events, equity training, teen support, supplies for Miracle League and new senior programs, scholarships, and other playground equipment.
18. Merchandise decreased from \$39,808 in FY 2024 to \$37,908 in FY 2025 based on current demand for special order through the golf course. The FY 2023 actual was \$22,678. The FY 2022 actual was \$37,308. This line item represents golf merchandise sold at the Bunker Hill pro shop and boat merchandise sold at the Port of Dubuque Marina store. This line item is variable and actual expenses depend on how much inventory is purchased. Large inventory purchases in one year can lead to smaller inventory purchases the next year. This budget is offset by the revenue from the Pro Shop sales, golf fee revenue, event revenue, and certificates. The Port of Dubuque Marina store was close due to the COVID-19 pandemic and staffing issues, but the store reopened for the summer of 2023. The merchandise inventory at the Port of Dubuque Marina store has been evaluated and reduced to focus on items that sell well.
19. Officiating Services decreased from \$26,870 in FY 2024 to \$22,320 in FY 2025. The FY 2023 actual was \$20,520. This line item is used to hire officiating services for softball and basketball leagues. There has been a decline in softball and basketball participation since the pandemic.
20. Pay to Other Agency increased from \$171,624 in FY 2024 to \$173,051 in FY 2025. This increase is due to reallocation of funding between accounts with in the Community Development Block Grant allocation for Recreation. This line item represents payments to local partners to provide equitable programs and unique experiences for low-income youth and underrepresented populations. These include, but are not limited to: Community Development Block Grant services

(\$51,427); ice rental (\$50,000); AmeriCorps Playground Programs (\$25,000); Hills and Dales Senior Center operating grant (\$25,000); Therapeutic Recreation off-site rentals (\$1,624); and Recreation Classes (\$20,000), which includes art improvements, Rising Stars, ballroom dance, karate, Montessori cooperative classes, and Dubuque County Extension contracted classes.

21. Instructors decreased from \$89,227 in FY 2024 to \$85,727 in FY 2025. The FY 2023 actual was \$61,840. The FY 2023 actual is lower than budget levels due to this line item including recurring funds for an improvement package related to arts programming that have not yet been utilized. With increased staffing levels and a rekindled partnership, those funds will be used going forward. This line item represents after-school sports coaches, sports camps, LEAP program, dance instructors, and other recreational class/program instructors. The decrease from FY 2024 to FY 2025 is due to no longer paying swimming instructors out of this line item.
22. Advertising is unchanged from \$25,935 in FY 2024 to \$25,935 in FY 2025. The FY 2023 actual was \$25,949. This line item represents print and digital marketing for recreational programs and staff recruitment and retention, events, and classes, brochures and mailings, and radio and print advertisements.
23. General Liability Insurance increased from \$70,148 in FY 2024 to \$74,582 in FY 2025 based on information received from Iowa Communities Assurance Pool (ICAP).
24. Vehicle Operations - Diesel is unchanged from \$27,000 in FY 2024 to \$27,000 in FY 2025 based on the FY 2024 budget. The FY 2023 actual was \$29,475. This line item represent the purchase of diesel fuel, which is then sold at the Port of Dubuque Marina and is also used for City machinery at Bunker Hill Golf Course.
25. Equipment Rental decreased from \$44,004 in FY 2024 to \$43,164 in FY 2025. The FY 2023 actual was \$49,543. This line items includes expenses for the rental of portable restrooms (\$1,500) and golf carts that are leased for a period of three years (\$41,664). The decrease in FY 2025 is due to renting fewer portable restrooms.
26. Technology Services increased from \$33,358 in FY 2024 to \$35,977 in FY 2025. The FY 2023 actual was \$35,168. This line item includes various softwares including RecTrac (\$30,480), Team Sideline (\$699), copier support (\$220), and internet service for Port of Dubuque dock WiFi (\$2,058). This increase is due to adding expenses for iPad data plans to be utilized for the forthcoming Tyler Time and Attendance payroll system (\$2,520).

Machinery & Equipment

27. Equipment replacement items include (\$104,010):

Recreation Machinery and Equipment	
Administration	
Security Camera	\$ 2,100
Smart Phone	\$ 350
Desk Phones (6)	\$ 1,260
Debris Blower	\$ 8,000
Line Trimmer	\$ 500
Tee Mower	\$ 32,000
Greens Mower	\$ 45,000
Recreation Classes	
Sound System	\$ 1,000
Therapy	
Sound System	\$ 2,800
Recommended Improvement Packages	\$ 11,000
Total Equipment	<u>\$104,010</u>

Debt Service

28. FY 2025 Annual debt service is as follows (\$14,511):

Amount	Debt Series	Payment Source	Purpose	Final Payment Year	Call Date
\$ 1,170	2021A (2012E) G.O.	Sales Tax 20%	Recreation Improvements	2028	2028
\$ 13,341	2021A (2014B) G.O.	Sales Tax 20%	Recreation Improvements	2034	2028
<u>\$ 14,511</u>	Total Recreation Annual Debt Service				

Revenue

29. Total revenue for Golf Operations and Maintenance increased from \$984,911 in FY 2024 to \$1,034,881 in FY 2025.

- Golf Cart Rentals increased from \$246,700 in FY 2024 to \$281,000 in FY 2025 based on the FY 2023 season. The FY 2023 actual was \$281,042.
- Golf Beer Sales is unchanged from \$126,810 in FY 2024 to \$126,810 in FY 2025. The FY 2023 actual was \$125,092.
- Golf Liquor Sales increased from \$37,670 in FY 2024 to \$43,000 in FY 2025 based on the FY 2023 actual of \$43,627.
- Beverage/Ice is unchanged from \$26,110 in FY 2024 to \$26,110 in FY 2025 based on the FY 2023 actual of \$24,492 plus projected changes.
- Pro Shop Sales is unchanged from \$65,000 in FY 2024 to \$65,000 in FY 2025. The FY 2023 actual was \$64,809.
- Golf Fees increased from \$393,652 in FY 2024 to \$397,274 in FY 2025 based on the number of rounds played and passes sold during FY 2023. The FY 2023 actual was \$395,368.

- g. Golf event revenue increased from \$38,000 in FY 2024 to \$43,000 in FY 2025. The FY 2023 actual was \$41,958.
- 30. Swimming revenue increased from \$302,072 in FY 2024 to \$333,491 in FY 2025. FY 2025 revenues reflect rate increases approved in the spring of FY 2024. Daily admission fees increase \$1.00, all other swimming rates increased 5%.
 - a. Swimming Annual Passes decreased from \$73,834 in FY 2024 to \$61,359 in FY 2025. The FY 2023 actual was \$41,091. The FY 2023 actual is low and does not reflect full operations due to not having both pools open.
 - b. Flora Daily Fees increased from \$66,890 in FY 2024 to \$104,000 in FY 2025. The FY 2023 actual was \$74,630.
 - c. Sutton Daily Fees increased from \$22,610 in FY 2024 to \$40,500 in FY 2025. The FY 2023 actual was \$8,626, which was a low number due to Sutton pool not being open for all of FY 2023.
 - d. Pool Concessions decreased from \$51,000 in FY 2024 to \$32,340 in FY 2025 based on estimated gross sales at Flora and Sutton. The FY 2023 actual was \$27,321. Prior year actuals have never met budgeted levels, therefore, the FY 2025 budget was lowered to better reflect actuals.
 - e. Swim Lesson Registrations increased from \$66,412 in FY 2024 to \$76,856 in FY 2025 based on registration estimates. The FY 2023 actual was \$78,591.
- 31. Adult Athletics revenue increased from \$72,419 in FY 2024 to \$84,699 in FY 2025 and is based on FY 2024 participant numbers. FY 2025 revenues also reflect a 5% rate increases approved in the spring of FY 2024.
 - a. Adult Athletics Registration/Entry Fee increased from \$63,885 in FY 2024 to \$75,511 in FY 2025 due to a continued increase in volleyball team registrations, and a slight rebound of softball team registrations.
- 32. Youth Sports Registration/Entry Fee revenue increased from \$50,123 in FY 2024 to \$53,015 in FY 2025 and is based on FY 2024 participant numbers. FY 2025 revenues also reflect a 5% rate increases approved in the spring of FY 2024.
- 33. Port of Dubuque Marina revenue increased from \$259,479 in FY 2024 to \$264,628 in FY 2025. FY 2025 revenues also reflect a 5% rate increases approved in the spring of FY 2024.
 - a. Marina Fuel Sales is increased from \$202,500 in FY 2024 to \$212,625 in FY 2025. This line item is based on the expense budget. The FY 2023 actual was \$161,537.
 - b. Marina Dock Fees is increased from \$28,500 in FY 2024 to \$32,813 in FY 2025. This line item is based on the current year sales as well as the current interest in seasonal slip rentals. The FY 2023 actual was \$28,528.
 - c. Marina Beverage and Ice Sales decreased from \$5,775 in FY 2024 to \$3,465 in FY 2025. This decrease in revenue is offset in a decrease in the expense of purchasing inventory. The Marina store was reopened in May of 2023 with a more modest inventory due to inventory control. This line item is based on the current year's sales and a mark-up on the cost of the product. The FY 2023 actual was \$463 due to the store being closed to the public.

34. The following chart shows the history of property tax support for the Port of Dubuque Marina:

Port of Dubuque Marina Property Tax Support

***POD Marina opened June 2013**

-The decreases in property tax support funding in FY 17 through FY 19 reflects operational changes in staffing due to a frozen full-time Facilities Supervisor position, which was budgeted in the Marina and Recreation Administration activities. The Facilities Supervisor was replaced with temporary managerial staff.

-FY 20, FY 21, and FY 22 reflect a labor shortage with temporary positions, resulting in full-time staff supplementing the hours to maintain operations.

-The FY 24 Budget is based off full operations, including the vacant full-time position. The FY 25 budget is based off a better understanding of temporary staffing allocations, and the reallocation of the new full-time Business Development Manager out of the Marina activity and entirely in the Administration activity.

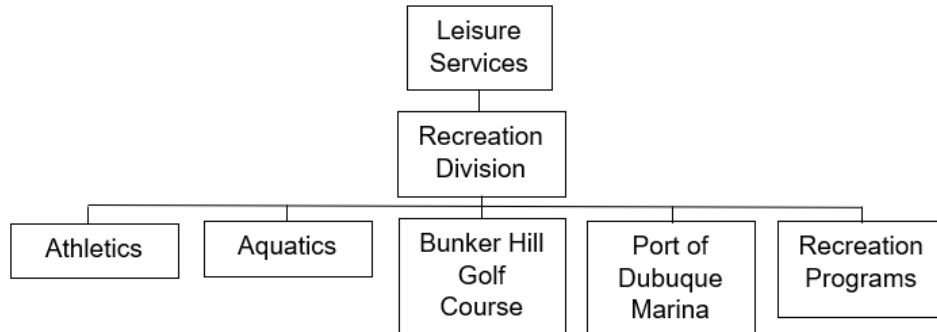

Miscellaneous

35. The FY 2025 percent self-supporting for the various Recreation Activities compared to FY 2024 percent self-supporting is as follows:

Activity	FY 2025	FY 2024
Adult Athletics	61.1 %	53.3 %
McAleece Concessions	119.3 %	138.2 %
Youth Programs	15.4 %	16.1 %
Therapeutic Recreation	18.2 %	22.2 %
Recreation Classes	50.8 %	49.4 %
Swimming	44.6 %	45.8 %
Golf	98.4 %	102.7 %
Port of Dubuque Marina	79.6 %	65.3 %

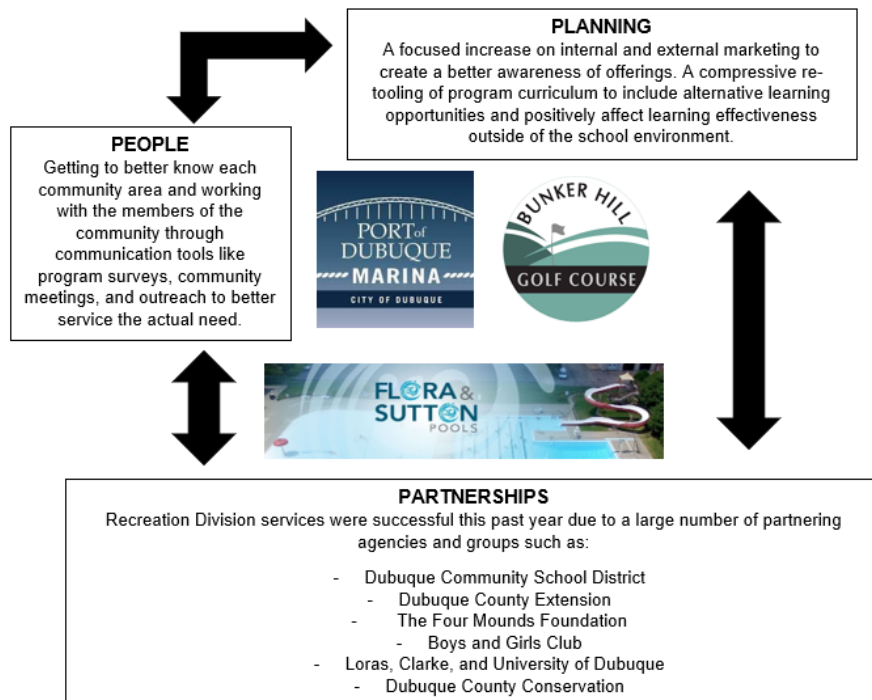

LEISURE SERVICES RECREATION DIVISION

The Recreation Division encourages community participation by providing equitable, progressive, accessible, and affordable opportunities through our parks, facilities, and recreation programming.

Vision: Creating equitable OPPORTUNITIES to enhance and improve the QUALITY OF LIFE for the residents of Dubuque.

SUCCESS IS ABOUT PLANNING, PARTNERSHIPS AND PEOPLE LEADING TO OUTCOMES

LEISURE SERVICES RECREATION DIVISION

	FY 2023	FY 2024	FY 2025
Full-Time Equivalent	42.75	42.25	42.25

Resources and Property Tax Support

The Recreation Division is supported by 42.25 full-time equivalent employees, which accounts for 61.11% of the department expense as seen below. Overall, the department's expenses are expected to increase by 5.88% in FY 2025 compared to FY 2024.

Expenditures by Category by Fiscal Year

RECREATION DIVISION

Recreation Programming

Mission & Services

The Recreation Division develops a variety of recreational activities and job opportunities to provide the citizens of Dubuque equitable, safe, wholesome, healthy and enjoyable use of leisure time. Recreation programs include early childhood enrichment programs for children ages 18 months to 6 years old, youth and adult programs such as swim, karate, dance, athletics and music, as well as therapeutic and neighborhood recreation programs.

LEISURE SERVICES RECREATION DIVISION Port of Dubuque Marina

Mission & Services

The Port of Dubuque Marina is a 78-slip transient marina drawing visitors to Dubuque from as far North as Minneapolis, Minnesota, as far South as Fort Lauderdale, Florida and many places in-between. The marina operates as a hotel on water, providing visiting boats with dock space, electricity, clean showers, laundry, guest Wi-Fi and concierge service from staff. From the marina, visitors are within walking distance of dining, lodging, a casino, shopping, entertainment, the National Mississippi River Museum & Aquarium and Dubuque's Mississippi Riverwalk. The marina amenities building operates as the guest check-in desk for visiting boaters, as well as a convenience store along the river.

MISSION STATEMENT

To provide the citizens of Dubuque with equitable, high-quality, and inclusive opportunities that will create impactful experiences.

WHAT WE DO

Administer Programs

- Youth & Adult Athletics
- Neighborhood
- Playgrounds
- Aquatics
- Therapeutic Recreation
- Early Childhood
- Golf
- Rec & Roll / Mobile Rec
- Active Adult

Value Partnerships

- Food Distribution
- Support Services
- Planning
- Programming
- Facilities
- City Departments
- Community Engagement

WHAT WE DO

Manage Facilities

- Flora & Sutton Pool
- Port of Dubuque Marina
- Bunker Hill Golf Course
- Allison Henderson
- Comiskey Park Building
- Multicultural Family Center
- Miracle League Complex
- Slattery Center

Provide Services

- Customer Service
- Scholarships
- Rentals

Marketing

- Advertising Sales
- Social Media
- Partnership Development
- Target
- Market Analysis

CREATING AN EQUITABLE COMMUNITY OF CHOICE

FRONTLINE HIGHLIGHTS

- **Employee Retention**
 - **59% of 2023 staff currently in onboarding process**
- **Employee Recruitment**
 - **32% (+100) increase in applications through 3/31**

PLANNING & PARTNERSHIP

- New Banner Advertising Program generates over \$23,000 in additional revenues
- Miracle League Partnership
 - Over \$300,000 spent on Complex improvements to date

“Seeing the joy from all participants. Everyone is a winner no matter their disability.”

“I love being able to sit back and watch our daughter play. We never get that opportunity.”

Supporting Documentation

HOW TO USE THIS POLICY BUDGET DOCUMENT

PURPOSE

The Policy Budget defines goals and objectives for all City departments and activities, relates them to cost and resource requirements and attempts to establish measures for evaluating accomplishment. Specific improvement packages are developed and included in the Policy Budget for alternative funding and service levels. The Policy Budget document shows the budget by line item for each Department and provides a basis for fiscal control once the budget is adopted.

The Policy Budget emphasizes objectives, accomplishments, and alternative funding and service levels and is intended to keep the attention of the City Council and public on the major policy decisions involving what services the City government will provide, who will pay for them, and the implications of such decisions.

FORMAT

The Policy Budget is organized by Department/Division and provides detail for all activities that make up each Department/Division. Each Department/Division tab includes the following information:

- 1) **Department/Division Financial Summary:** The ***budget highlights*** portion of the Department Summary reflects total expenses for the maintenance level budget (cost to continue at the same level of service) and approved improvement packages for all activities within the Department by expenditure category (employee expense, supplies and services, machinery and equipment, and debt service), and the funding sources that pay those expenses. The property tax portion of the funding is reflected, noting the increase or decrease from the prior years adopted budget. For Departments which are self supporting (i.e. Water, Water Pollution Control, Refuse (part of Public Works), Media Service, Transit, Parking), the net operating surplus/deficit is reflected, noting the increase or decrease in the fund from the prior years adopted budget.

This summary displays all ***Improvement Packages*** submitted by Department/Division Managers, with a notation of whether they were recommended by the City Manager, and then approved by the City Council. Those noted with a 'YES' were added to the maintenance level budget and are reflected in the Department Funding Summary and those noted with a 'NO' were not approved.

And finally, this summary explains ***significant line item detail*** by expenditure category, notable revenue changes, and miscellaneous information regarding the maintenance level budget. These are the review notes prior to adding any improvement packages.

- 2) **Memo Addressing Budget Issue (optional):** If there is an important budget issue that needs further explanation, a memo will be provided.
- 3) **Department's Organizational Chart (optional):** Shows how a Department is structured. Usually included for larger more complex Departments.
- 4) **Department/Division's Highlights of Prior Year's Accomplishments and Future Initiatives:** This is a written narrative that highlights the Department's prior year accomplishments and what Departments plan on accomplishing in the near future.

- 5) **Department/Division's Goals and Performance Measures by Activity:** This is a written activity statement and a matrix for each activity which includes activity objectives, relationship to City Council Goals & Priorities, and key performance indicators (KPIs).. Performance measures are included for each activity to evaluate activities and ensure that the approved levels of funding yield the expected results. Icons for each KPI visually indicate how well an objective is doing and represent the following:

Goal Met	Goal in Progress	Goal Not Met
This goal has been met.	The goal has not been met but is showing signs of improvement.	This goal has not been met and is not currently showing signs of progress.

- 6) **Department/Division's Goals and Performance Measures by Activity:** This is a written narrative for each activity that explains the goal, describes the purpose, and explains the service objectives of each activity. Performance measures are included for each activity to evaluate activities and ensure that the approved levels of funding yield the expected results.
- 7) **Recommended Operating Revenue Budget by Department/Division:** This report reflects line item revenue detail at the Department/Division level (combines all activities for each line by fund). Two years actual revenues, prior year adopted revenues and the recommended revenue for the new budget year are reflected.
- 8) **Recommended Operating Expenditure Budget by Department/Division:** This report reflects line item expenditure detail at the Department/Division level (combines all activities for each line by fund). Expenses are grouped by category (employee expense, supplies and services, machinery and equipment, debt service, and transfers) and displays two years actual expenses, prior year adopted expenses and the recommended expense for the new budget year.
- 9) **Recommended Operating Expenditure Budget by Activity and Funding Source:** This report reflects expenses grouped by category (employee expense, supplies and services, machinery and equipment, debt service, and transfers) for each activity within the Department/Division, and displays two years actual expenses, prior year adopted expenses and the recommended expense for the new budget year.
- 10) **Personnel Complement at Department/Division and Activity Level:** These reports reflect positions budgeted at the Department/Division level and the Activity level, by funding source. Total Full Time Equivalents (FTE) and wages with longevity expense are shown for each position for two years prior year adopted FTE and expenses, and the recommended FTE and related expense for the new budget year.
- 11) **Capital Improvement Projects by Department/Division:** This report lists all Capital Improvement Project totals for two years actual expenses, prior year adopted expenses and the recommended expense for the new budget year.
- 12) **Five Year Capital Improvement Program Summary by Department/Division:** This report lists all Capital Improvement Projects budgeted in the new budget year and planned for the next four years.

Improvement Package Summary

1 of 6

This improvement package request is to increase the City's financial support of the Administrative Assistant position in the Community Impact Division. The full-time Community Impact Division Administrative Assistant (1.00 FTE, GE-25) has been partially funded through a grant from Volunteer Iowa in the past (0.37FTE of the position has historically been funded through the Volunteer Iowa grant). In addition to being funded through this grant, the position is also funded by the Federal AmeriCorps grant, and also by the City General Fund. The exact proportion of the position that is funded by the City General Fund depends on how much of the position can first be funded through the Federal AmeriCorps grant. The Federal AmeriCorps grant allocation to the City varies each year, thus the support from the City's General Fund also varies each year. Most recently, the funding breakdown of this position has been 0.37 FTE through the Volunteer Iowa grant, 0.58 FTE through the Federal AmeriCorps grant, and 0.05 FTE through the City General Fund. The exact portion of any Community Impact Division position that can be funded through the AmeriCorps grant cannot usually be known until after budget adoption due to the timing of the grant approval from the Federal agency. The Federal grant that would cover this position in FY 2025 would not be approved until May of 2024, which is after the City's FY 2025 budget adoption, thus the precise proportion of the Federal grant that will cover this position in FY 2025 will not be certain until that time, though this budget is using estimations with the best available information.

Unfortunately, Volunteer Iowa lost federal funding, which means, through no fault of the Community Impact Division, the grant funding from Volunteer Iowa will not be available to the City in FY 2025, resulting in a funding shortage of 0.37 FTE for this position. In order to keep the position full-time and prevent service disruptions, the City will need to increase its funding for this position by 0.37 FTE to fill the gap created by the loss of the grant (+ \$27,626). It is critical that this position be able to continue to support the Fines and Fee and Diversion work and administratively support the establishment of necessary frameworks and best practices. Without this position, other staff would be overburdened with

administrative responsibilities, which hinders the capacity for sustainable, equitable, and effective service delivery. This request responds to the City Council Goal: Financially Responsible, High-Performance Organization. Ensuring the continuation of services is critical to being a high performing organization.

Related Cost:	<u>\$ 27,626</u>	Tax Funds	Recurring	Recommend - No
Property Tax Impact:	\$ 0.0109	0.12%		
Activity:	Non-Grant			

2 of 6

This improvement package request is for funding to cover the program materials needed to implement the AmeriCorps Program's Social-Emotional Learning curriculum on an annual basis. Each lesson in the curriculum requires materials that will need to be replenished on a regular basis due to the nature of materials being finite, and replacement for normal wear and tear or accidents (materials include paper, markers, yarn, tape, poster boards, etc.). Without these materials, youth will miss out on the key experiential learning that is the key piece of the lesson.

This package meets the City Council goals of Financially Responsible, High Performance City Organization: Sustainable, Equitable and Effective Service Delivery and Partnership for a Better Dubuque: Building our Community that is Viable, Livable, and Equitable. Through utilizing AmeriCorps grant funded programming, the City is able to support youth academic growth with a significant return on investment for our community. AmeriCorps funding provides great value for dollars spent and empowers the City to offer programming that otherwise would not be able to happen.

Related Cost:	<u>\$ 2,500</u>	Tax Funds	Recurring	Recommend - No
Property Tax Impact:	\$ 0.001	0.01%		
Activity:	Administration			

3 of 6

This improvement package request is to cover the cost of the VolunteerDBQ platform and provide supplemental marketing funds for the Volunteer DBQ initiative. The Office of Community Impact has fostered significant growth with the Volunteer DBQ initiative, supporting internal and external partners to utilize volunteers to address community needs. Work being done through VolunteerDBQ has been previously funded by the Volunteer Generation Fund through the Iowa Commission on Volunteer Service (Volunteer Iowa). Volunteer Iowa lost federal funding for the continuation of the Volunteer Generation Fund grant. There will no longer be funding available for the City's 2023-2026 Volunteer Generation Fund grant. This packages seeks to secure City funding to continue the Volunteer DBQ initiative. Improvement package 4 of 6 is an alternative proposal to continue the Volunteer DBQ initiative in the event that this specific package cannot be funded.

The grant covered the cost of the VolunteerDBQ.com Platform (through Galaxy Digital). The current platform offers a place for non-profits, government entities, and educational institutions to recruit volunteers, and for volunteers to easily seek opportunities. Without a platform, the volunteer initiative will lose significant momentum built for the last 3 years. This request seeks to purchase a new software platform instead of purchasing the current platform. The prospective new platform, BeWith.io, is completely customizable to programmatic efforts with better community engagement and data collection features that support non-profits and citizens to build strong and resilient community collaboration. This platform would provide a front-facing web portal experience that allows residents to easily access opportunities that is tied effectively to a back-end portal that can be used to collect data and customer information. Additionally, the platform includes an artificial intelligence concierge that provides reminders and information to residents. The platform is completely customizable to what the City would like to see

in the platform. The annual cost of the prospective new BeWith.io platform is \$11,000 (recurring). Improvement package 4 of 6 is an alternative scenario that opts to stick with the current software platform, which would instead have an annual cost of \$3,000 (recurring).

Marketing and volunteer recruitment funding is also requested, which would be used for printed marketing supplies and postage (\$5,000 recurring). Promoting the initiative will help it's success.

This package meets the City Council goals of Partnership for a Better Dubuque: Building our Community that is Viable, Livable, and Equitable, as well as Vibrant Community: Health & Safety, and Diverse Arts, Culture, Parks & Recreation: Experiences & Activities. Volunteering is a necessity for non-profit, governmental, and educational institutions in order to achieve outcomes with limited financial resources. Volunteering is also a proven means to increase the health and well-being of residents. Volunteering creates a sense of community and belonging, which is necessary to build a safe community that all people feel a part of.

Related Cost:	<u>\$ 16,000</u>	Tax Funds	Recurring	Recommend - Yes
Net Cost:	<u>\$ 16,000</u>			
Property Tax Impact:	\$ 0.0063	0.04%

4 of 6

This improvement package request is to cover the cost of the VolunteerDBQ platform and provide supplemental marketing funds for the Volunteer DBQ initiative. The Office of Community Impact has fostered significant growth with the Volunteer DBQ initiative, supporting internal and external partners to utilize volunteers to address community needs. Work being done through VolunteerDBQ has been previously funded by the Volunteer Generation Fund through the Iowa Commission on Volunteer Service (Volunteer Iowa). Volunteer Iowa lost federal funding for the continuation of the Volunteer Generation Fund grant. There will no longer be funding available for the City's 2023-2026 Volunteer Generation Fund grant. This packages seeks to secure City funding to continue the Volunteer DBQ initiative. Improvement package 3 of 6 is an alternative proposal to continue the Volunteer DBQ initiative in the event that this specific package cannot be funded.

The grant covered the cost of the VolunteerDBQ.com Platform (through Galaxy Digital). The current platform offers a place for non-profits, government entities, and educational institutions to recruit volunteers, and for volunteers to easily seek opportunities. Without the platform, the volunteer initiative will lose significant momentum built for the last 3 years. This proposal seeks funding to continue with the current software platform through Galaxy Digital, which has an annual cost of \$3,000 (recurring). Improvement package 3 of 6 is an alternative proposal that opts to upgrade to a new software platform, which would instead have an annual cost of \$11,000 (recurring).

Marketing and volunteer recruitment funding is also requested, which would be used for printed marketing supplies and postage (\$5,000 recurring). Promoting the initiative will help it's success.

This package meets the City Council goals of Partnership for a Better Dubuque: Building our Community that is Viable, Livable, and Equitable, as well as Vibrant Community: Health & Safety, and Diverse Arts, Culture, Parks & Recreation: Experiences & Activities. Volunteering is a necessity for non-profit, governmental, and educational institutions in order to achieve outcomes with limited financial resources. Volunteering is also a proven means to increase the health and well-being of residents. Volunteering creates a sense of community and belonging, which is necessary to build a safe community that all people feel a part of.

Related Cost:	<u>\$ 8,000</u>	Tax Funds	Recurring	Recommend - Yes
Net Cost:	<u>\$ 8,000</u>			
Property Tax Impact:	\$ 0.0031	0.02%		
Activity: Administration				

5 of 6

This improvement package request is for work from home equipment for Community Impact staff (5 employees). The nature of the office requires flexible work arrangements due to the varied location and times of meetings across town. Equipping staff with the ability to efficiently work remotely will increase productivity by allowing for flexibility. Currently, all staff are equipped with laptops for remote work, so this improvement package would be for the Monitors-only Work from Home setup. A work from home schedule will be developed to establish a system and normal procedures.

This package meets the City Council goals of Financially Responsible, High Performance City Organization: Sustainable, Equitable and Effective Service Delivery. Offering remote and flexible work opportunities help improve employee retention which contributes to long term efficiency. Equipping staff with flexible work equipment empowers them to work and stay connected under a variety of circumstances, which contributes to a high-performance organization.

Related Cost:	<u>\$ 4,250</u>	Tax Funds	Non-Recurring	Recommend - Yes
Property Tax Impact:	\$ 0.0017	0.01%		
Activity: Administration				

6 of 6

This improvement Package is for the attendance of Community Impact Staff (5 employees) to attend PolicyLink's 2024 Equity Summit. PolicyLink is a national research and action institute advancing racial and economic equity by 'Lifting Up What Works.' PolicyLink has been a strong collaborative partner with Cities and Counties for Fines and Fee Justice and a leader working towards the elimination of fines and fees. PolicyLink's Equity summits focuses on the significant achievements and strategic breakthroughs of the equity movement. The PolicyLink Summit convenes to position equity, the environment, and the economy on equal footing. This national summit defines the leading edge of practice, policy, and research over the last 20 years.

This package meets the City Council goal Partnership for a Better Dubuque: Building our Community that is Viable, Livable, and Equitable. Attendance to this conference would provide staff with the opportunity to identify best practices occurring in other communities and establish meaningful partnerships through networking opportunities.

Related Cost:	<u>\$ 9,700</u>	Tax Funds	Recurring	Recommend - No
Property Tax Impact:	\$ 0.0038	0.02%		
Activity: Administration				

Significant Line Items

Employee Expense

1. FY 2025 employee expense reflects a 5.00% wage package increase. Wage package increases have historically not applied to AmeriCorps member positions.

2. The Iowa Public Employee Retirement System (IPERS) City contribution of 9.44% is unchanged from FY 2024. The employee contribution of 6.29% is unchanged from FY 2024.
3. The City portion of health insurance expense is unchanged from \$1,119 in FY 2024 to \$1,119 in FY 2025 per month, per contract, which results in the annual cost being increased \$1 or —%.
4. Workers Compensation increased from \$14,344 in FY 2024 to \$16,790 in FY 2025. The FY 2023 actual was \$21,593.
5. The full-time AmeriCorps Coordinator position (1.00 FTE) has historically been partially funded through the AmeriCorps grant at approximately 0.90 FTE, the exact proportion varies depending on non-grant responsibilities. In FY 2025, due to the restructure of the Community Impact Division and all division employees being placed on the general employee wage plans, the step increase for this position is anticipated to be larger than available grant funding, resulting in an approximate 0.13 FTE increase in City funding for this position (+ \$12,960). The exact number would not be known until May 2024 when the final AmeriCorps grant application is approved by the federal AmeriCorps agency.

Supplies & Services

6. Association Dues decreased from \$2,317 in FY 2024 to \$250 in FY 2025. The FY 2024 budget included a timesheet monitoring fee from Volunteer Iowa, which was moved to the Payment to Other Agencies line item in FY 2025 to better organize the department's budget. In FY 2025, the this line item includes the America's Service Commissions fee.
7. Payments to Other Agencies decreased from \$13,633 in FY 2024 to \$11,045 in FY 2025. In FY 2025, this line item includes Volunteer Iowa monitoring fees (\$7,800), Volunteering Iowa timesheet fees (\$1,476), and the corporation fixed administrative share for the AmeriCorps program (\$1,769). This decrease is due to moving the cost of the America Learns data collection system and the Aperture student assessment system to the Technology Services line item in FY 2025.
8. Technology Services increased from \$13,227 in FY 2024 to \$23,140 in FY 2025. The FY 2023 actual was \$13,418. In FY 2025, this line item includes the America Learns data collection software, as well as Aperture student assessment system. The decrease from FY 2025 is due to a decrease in the number of licenses need for both systems.
9. Meetings and Conferences increased from \$12,405 in FY 2024 to \$15,000 FY 2025. The FY 2023 actual was \$10,717. This line item includes the AmeriCorps Regional Conference, the Iowa AmeriCorps Program Launch, the ICMA Conference, the Growing Sustainable Communities Conference, and the Iowa Women's Leadership Conference. This increase is due to now sending the Administrative Assistant position to the regional conference and the AmeriCorps launch event, which are covered by the AmeriCorps grant.
10. Mileage increased from \$4,300 in FY 2024 to \$6,500 in FY 2025. This line item represents mileage and metered parking reimbursements for staff members. Community Impact Division staff are not eligible for the Commuter Allowance, and meetings and events are frequently scheduled downtown. This requires staff to travel across town in personal vehicles, which is reimbursable. In FY 2025, the mileage budget for the Administrative Assistant position increased to match all other positions, and also to cover travel to out of town trainings required by the federal AmeriCorps agency (such as the AmeriCorps Program Launch and Regional Conference).

11. Telecommunications is unchanged from \$3,120 in FY 2024 to \$3,120 in FY 2025. This line item represents cell phone data plans for staff members with city-issued cell phones.

Machinery & Equipment

12. Equipment replacement items include (\$7,100):

Community Impact Machinery and Equipment	
<u>Administration</u>	
Smart Phone and Case (3)	\$ 1,050
Shoretel Desk Phone (5)	\$ 1,800
Recommended Improvement Packages	\$ 4,250
Total Equipment	\$ 7,100

Revenue

13. Federal Grants increased from \$290,798 in FY 2024 to \$410,000 in FY 2025. The FY 2023 actual was \$227,147. This line represents the federal AmeriCorps grant that the Community Impact Division receives and uses to fund the City of Dubuque AmeriCorps program. The FY 2025 amount is the anticipated amount for the next AmeriCorps grant, and the actual amount could be different once the grant is received. The AmeriCorps grant varies each year based on how much the federal AmeriCorps agency allows the City to request in federal funds for each AmeriCorps position, and also how much of the allocated federal funding the City is able to expend on services. The federal agency has distributed more funds over the past several years due to the American Rescue Plan Act. An increase in federal AmeriCorps funding is anticipated due to the federal agency increasing annual reimbursements to the City for each AmeriCorps full time employee (FTE) equivalent.
14. Private Contributions increased from \$207,400 in FY 2024 to \$254,837 in FY 2025. This line item represents both cash and in-kind matches to AmeriCorps grant made by local partners who utilize AmeriCorps services. In FY 2025, local matches include \$45,000 from the Dubuque Community School District, \$174,337 from the City of Dubuque, \$25,500 from Hillcrest Family Services, and \$10,000 from St. Mark Youth Enrichment Center. This increase in this line item is due to the amount of in-kind grant matching funds that the City is able to claim related to activities performed by administrative employees across the organization that provide supplemental services to the AmeriCorps grant.

LEISURE SERVICES OFFICE OF COMMUNITY IMPACT

	FY 2023	FY 2024	FY 2025
Full-Time Equivalent	5.00	5.00	5.00

Resources and Property Tax Support

The Office of Community Impact is supported by 5.00 full-time equivalent employees, which accounts for 89.93% of the department expense as seen below. Overall, the department's expenses are expected to increase by 13.66% in FY 2025 compared to FY 2024.

Expenditures by Category by Fiscal Year

LEISURE SERVICES

OFFICE OF COMMUNITY IMPACT

Mission & Services

The mission of the Office of Community Impact is to strengthen the bond between the City of Dubuque and its residents through community, connections, and compassion.

Branches of the Office of Community Impact include:

AmeriCorps is a national service program which awards communities federal funding to implement an AmeriCorps program in their community designed to meet a community's critical need. The City of Dubuque AmeriCorps Program focuses on the continually developing needs of youth across the community. The program is focused around fostering essential skills, AmeriCorps members spearhead programs that target self-awareness, social awareness, self-management, goal-directed behavior, relationship skills, personal responsibility, decision-making, and optimistic thinking. By prioritizing these critical attributes, the program aims to equip local youth with the necessary tools to navigate challenges, enhance well-being, and succeed academically and beyond.

VolunteerDBQ is a community service initiative focused on strengthening Dubuque's Volunteer Infrastructure in partnership with the United Way of the Dubuque Area Tri-States. Through this project, VolunteerDBQ supports local non-profits, educational institutions, and government entities to leverage volunteers to be able to meet critical needs in the community. VolunteerDBQ provides education, coaching and technical assistance in key volunteer management skills to equitably recruit and support volunteers.

Fines & Fee Reform and Diversion & Prevention stems from the City's equity initiative to address how civil and criminal fines disproportionately impact low-income citizens, people of color and other marginalized community members. Internally, this project focuses on identifying how fines and fees across the City are assessed, who is impacted, what are the outcomes for the citizen and what are the City's options. Fines and fees reform would work with non-city agencies as well to review fines, fees and barriers and bring forward best practices for the agencies to consider. This branch will work with VolunteerDBQ to utilize volunteer service as a diversion opportunity for low-income communities that are assessed a fee they are unable to pay. Additionally, the branches work together and identify opportunities to use volunteer service in the prevention of the inequitable assessment of a fee both inside and outside the city organization. An example of this would be the utilization of the DBQ Shovel Crew to clear sidewalks of low-income, physically-disabled Dubuque residents to prevent the assessment of a fine(s).

Why do these branches work together?

The Office of Community Impact, with its branches described above, is one of the many divisions and departments across the City of Dubuque working to address poverty in the Dubuque community. Poverty is a complex issue that permeates the economic, environmental, and social health of our community. There is no simple or single solution to address poverty for every single Dubuque community member. Due to this complexity, this division works together alongside community partners to find short and long-term solutions to address determinants of poverty and alleviate pain points that reinforce poverty with a focus on collaboration, capacity-building, and direct service activities.

Community Impact Funding Summary			
	FY 2023 Actual	FY 2024 Budget	FY 2025 Recomm'd
Expenditures	\$563,484	\$721,912	\$820,533
Resources	\$253,277	\$498,198	\$664,837

Office of COMMUNITY IMPACT

MISSION

To strengthen the bond between the City of Dubuque and its residents through **community**, **connection**, and **compassion**.

VISION

Dubuque is a thriving community where residents experience equitable outcomes through access to resources and opportunities to service - ***without*** barriers.

VALUES

Service: Residents have opportunities to serve in ***formal*** opportunities
-AmeriCorps, Volunteerism
or ***informal*** opportunities
-personal development, family/cultural support systems
without barriers.

Accountability: We will do what we say we will do.

Collective Impact: By working collaboratively with residents, organizations, and institutions, we can achieve direct-service-level and systems-level change.

CREATING AN EQUITABLE COMMUNITY OF CHOICE

- Social Emotional-Learning & Wellbeing
- Leveraging Federal, State, & Local Resources
- Public Service Workforce Development
- Financial Stewardship
- Meeting residents where they are at

A High-Performance Organization (and Community) with Engaged Employees and Residents that is Data-Driven and Outcome-Focused built on the five pillars of:

Resiliency

Sustainability

Equity

Transparency

Compassion

Through **Planning,
Partnerships,
& People**

PRIOR YEAR HIGHLIGHTS

Year 1 of 3 Social-Emotional Learning AmeriCorps Programming

- Combination of 2 AmeriCorps Grants
- First change in focus in 12 years

VolunteerDBQ Recruitment Campaign

- 2023 last year of VGF Grant
- Bus Wraps, Billboards & Banners

Diversion & Prevention

- Research on current practices
- Developing organizational relationships

FUTURE INITIATIVES

**Full Social Emotional Learning (SEL)
program roll-out to all DCSD
Elementary Schools**

**Recommendations for Diversion &
Prevention Services**

**Re-invigoration of Adopt-A-Spot
Program**

AmeriCorps Alumni Association

SOCIAL-EMOTIONAL LEARNING IMPACTS

Senate File 496 Impacts

- Delayed Implementation & Significant Programmatic Changes

Students Served Sept 23 - Present

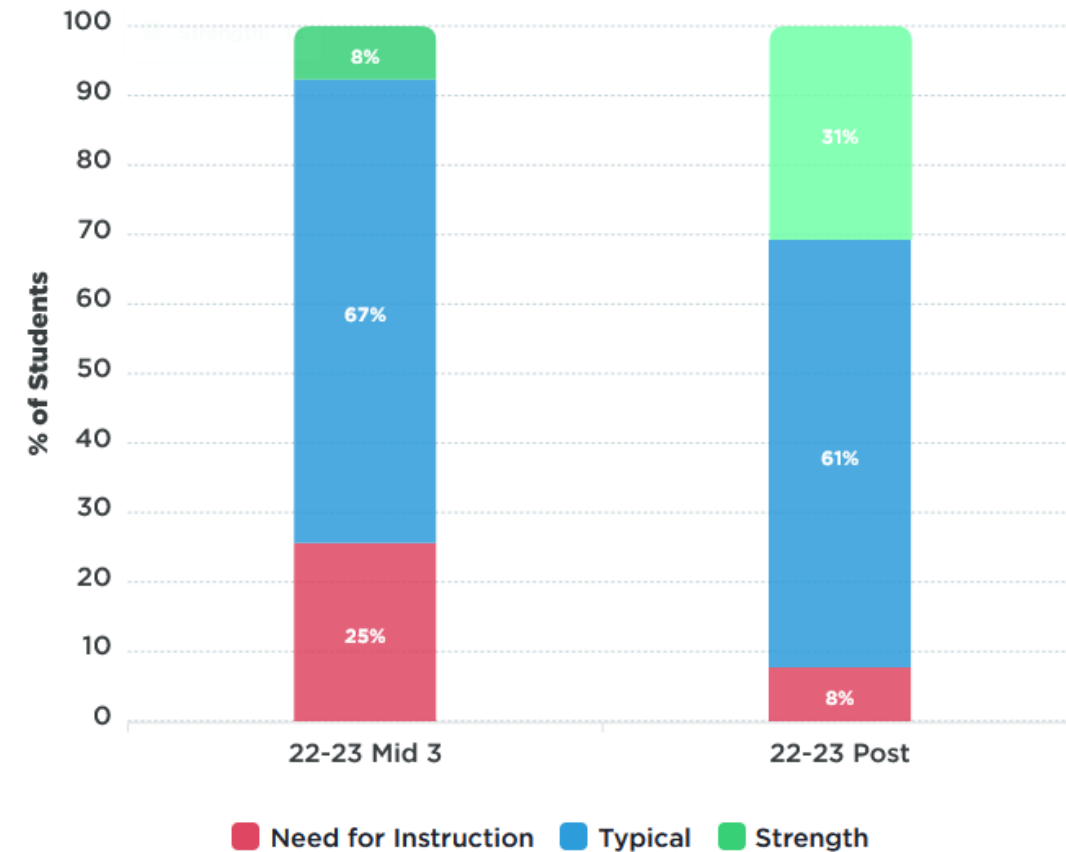

- K-5: 211
- Teens: 246

Growth & Development

- Relationship-focused
- 1-1 & Small Groups
- Meeting each child where they are at
- Using Strengths to improve areas of Need

Change in Students' Overall Social and Emotional Competence

Displays changes over time in the distribution of descriptive ranges for students

VolunteerDBQ

VolunteerDBQ.com - 2023 Recap

- 1,245 New Users
- 22 New Organizations
- 189 Opportunities
- 2,511 Volunteer Responses

Estimated Economic Impact of Volunteerism in Dubuque (2023)

Total Volunteer Hours	Value of an IA Volunteer Hour	
9,670.50	X	\$28.09 = \$271,644

Days of Caring 2023 Impact = \$121,615

Spartans Make a Difference Day 2023 Impact = \$136,686

DIVERSION & PREVENTION

Identifying Dubuque's Services

- Meeting with Key Contacts
 - Judges, Public Defenders, Jail Social Workers
- Mapping Current Processes

Identifying Pain Points, Gaps, & Opportunities

Researching Models

- Financial Impacts on Residents
- Cycle of Poverty & Harm
- Entry & Exit Points from Criminal Justice System

COMMUNITY IMPACT FY2025 REQUESTED PROPERTY TAX SUPPORT

\$155,696

**Net Property Tax
Support**

\$2.30

HOW TO USE THIS POLICY BUDGET DOCUMENT

PURPOSE

The Policy Budget defines goals and objectives for all City departments and activities, relates them to cost and resource requirements and attempts to establish measures for evaluating accomplishment. Specific improvement packages are developed and included in the Policy Budget for alternative funding and service levels. The Policy Budget document shows the budget by line item for each Department and provides a basis for fiscal control once the budget is adopted.

The Policy Budget emphasizes objectives, accomplishments, and alternative funding and service levels and is intended to keep the attention of the City Council and public on the major policy decisions involving what services the City government will provide, who will pay for them, and the implications of such decisions.

FORMAT

The Policy Budget is organized by Department/Division and provides detail for all activities that make up each Department/Division. Each Department/Division tab includes the following information:

- 1) **Department/Division Financial Summary:** The ***budget highlights*** portion of the Department Summary reflects total expenses for the maintenance level budget (cost to continue at the same level of service) and approved improvement packages for all activities within the Department by expenditure category (employee expense, supplies and services, machinery and equipment, and debt service), and the funding sources that pay those expenses. The property tax portion of the funding is reflected, noting the increase or decrease from the prior years adopted budget. For Departments which are self supporting (i.e. Water, Water Pollution Control, Refuse (part of Public Works), Media Service, Transit, Parking), the net operating surplus/deficit is reflected, noting the increase or decrease in the fund from the prior years adopted budget.

This summary displays all ***Improvement Packages*** submitted by Department/Division Managers, with a notation of whether they were recommended by the City Manager, and then approved by the City Council. Those noted with a 'YES' were added to the maintenance level budget and are reflected in the Department Funding Summary and those noted with a 'NO' were not approved.

And finally, this summary explains ***significant line item detail*** by expenditure category, notable revenue changes, and miscellaneous information regarding the maintenance level budget. These are the review notes prior to adding any improvement packages.

- 2) **Memo Addressing Budget Issue (optional):** If there is an important budget issue that needs further explanation, a memo will be provided.
- 3) **Department's Organizational Chart (optional):** Shows how a Department is structured. Usually included for larger more complex Departments.
- 4) **Department/Division's Highlights of Prior Year's Accomplishments and Future Initiatives:** This is a written narrative that highlights the Department's prior year accomplishments and what Departments plan on accomplishing in the near future.

- 5) **Department/Division's Goals and Performance Measures by Activity:** This is a written activity statement and a matrix for each activity which includes activity objectives, relationship to City Council Goals & Priorities, and key performance indicators (KPIs).. Performance measures are included for each activity to evaluate activities and ensure that the approved levels of funding yield the expected results. Icons for each KPI visually indicate how well an objective is doing and represent the following:

Goal Met	Goal in Progress	Goal Not Met
This goal has been met.	The goal has not been met but is showing signs of improvement.	This goal has not been met and is not currently showing signs of progress.

- 6) **Department/Division's Goals and Performance Measures by Activity:** This is a written narrative for each activity that explains the goal, describes the purpose, and explains the service objectives of each activity. Performance measures are included for each activity to evaluate activities and ensure that the approved levels of funding yield the expected results.
- 7) **Recommended Operating Revenue Budget by Department/Division:** This report reflects line item revenue detail at the Department/Division level (combines all activities for each line by fund). Two years actual revenues, prior year adopted revenues and the recommended revenue for the new budget year are reflected.
- 8) **Recommended Operating Expenditure Budget by Department/Division:** This report reflects line item expenditure detail at the Department/Division level (combines all activities for each line by fund). Expenses are grouped by category (employee expense, supplies and services, machinery and equipment, debt service, and transfers) and displays two years actual expenses, prior year adopted expenses and the recommended expense for the new budget year.
- 9) **Recommended Operating Expenditure Budget by Activity and Funding Source:** This report reflects expenses grouped by category (employee expense, supplies and services, machinery and equipment, debt service, and transfers) for each activity within the Department/Division, and displays two years actual expenses, prior year adopted expenses and the recommended expense for the new budget year.
- 10) **Personnel Complement at Department/Division and Activity Level:** These reports reflect positions budgeted at the Department/Division level and the Activity level, by funding source. Total Full Time Equivalents (FTE) and wages with longevity expense are shown for each position for two years prior year adopted FTE and expenses, and the recommended FTE and related expense for the new budget year.
- 11) **Capital Improvement Projects by Department/Division:** This report lists all Capital Improvement Project totals for two years actual expenses, prior year adopted expenses and the recommended expense for the new budget year.
- 12) **Five Year Capital Improvement Program Summary by Department/Division:** This report lists all Capital Improvement Projects budgeted in the new budget year and planned for the next four years.

Property Tax Support	495,969	704,539	680,512	(24,027)
Percent Increase (Decrease)				-3.4%
Personnel - Authorized FTE	5.05	5.49	5.49	

Significant Line Items

Employee Expense

1. FY 2025 employee expense reflects a 5.00% wage package increase.
2. The Iowa Public Employee Retirement System (IPERS) City contribution of 9.44% is unchanged from FY 2024. The employee contribution of 6.29% is unchanged from FY 2024.
3. The City portion of health insurance is unchanged from \$1,119 in FY 2024 to \$1,119 in FY 2025 per month, per contract, which results in the annual cost being unchanged.

Supplies & Services

4. Utilities Expense for the Multicultural Family Center decreased from \$62,215 in FY 2024 to \$31,483 in FY 2025 based on actuals from both FY 2023 and FY 2024. The FY 2023 actual was \$28,243. The expenses in this line item are paid out of the Engineering Department operating budget. FY 2025 includes electricity expense (\$25,000), gas expense (\$6,000), and stormwater expense (\$483). The overall decrease is due to FY 2023 actuals being lower than FY 2024 budget for all utilities.
5. Property Insurance and Maintenance for the Multicultural Family Center decreased from \$78,401 in FY 2024 to \$63,888 in FY 2025 based on both FY 2023 and FY 2024 actuals. The FY 2023 actual was \$27,562. In FY 2025, Property Insurance increased \$2,579 while Maintenance decreased \$15,200. The expenses in this line item are paid out of the Engineering Department operating budget. This line item includes property maintenance (\$28,000), janitorial supplies (\$4,000), fire suppression (\$5,813), HVAC maintenance (\$5,600), machine/equipment

maintenance (\$2,000), equipment maintenance contracts (\$2,361), building construction contract expense (\$8,000), and property insurance (\$8,114). The FY 2024 budget for the MFC was an estimated based on the best information available at the time. The FY 2023 actuals were lower than the FY 2024 budget, therefore, the budget is being reduced in FY 2025.

6. Payments to Other Agency increased from \$10,000 in FY 2024 to \$16,000 in FY 2025. This line item represents a grant match for AmeriCorps members placed at the Multicultural Family Center, which covers 6,400 hours of staff time. The match increased from \$1.56 per hour in FY 2024 to \$2.50 per hour in FY 2025 due to a cost of living increase. This increase was part of the AmeriCorps grant that was submitted and approved.
7. Technology Equipment Maintenance is increased from \$10,699 in FY 2024 to \$19,093 in FY 2025. This line item includes a contract for AV and sound equipment in the expanded Multicultural Family Center building. This contract covers expenses for labor but does not cover parts. This line item also includes Milestone licenses for cameras at the Multicultural Family Center that were approved in an FY 2022 Capital Improvement Project. The Milestone licenses for the cameras are new in FY 2025, leading to an increase.
8. Technology Contract increased from \$0 in FY 2024 to \$4,032 in FY 2025. This is a new line item in FY 2025, and it represents the maintenance and care contract for new security cameras at the Multicultural Family Center. The cameras were approved in an FY 2022 Capital Improvement Project. The maintenance and care contract for the cameras is a new expense for FY 2025.
9. Meetings and Conferences increased from \$8,000 in FY 2024 to \$8,850 FY 2025 based on expected cost of conference registration and travel. This line item funds attendance to conferences for three full-time Multicultural Family Center staff. Conferences include the Government Alliance on Race and Equity conference, the National Multiculturalism Conference, and various diversity, equity, and inclusion conferences.
10. IT Recharges is unchanged from \$3,699 in FY 2024 to \$3,699 in FY 2025. This line item represents recharges from the Information Technology departments. Departments are recharged for software and equipment.
11. Education Reimbursement decreased from \$3,515 in FY 2024 to \$3,500 in FY 2025. This line item includes trainings for staff, which includes professional development training and the Iowa Women Lead Change training.
12. Program Materials is increased from \$3,200 in FY 2024 to \$3,400 in FY 2025. This line item represents the purchase of weekly flowers for the Multicultural Family Center (\$3,200) as well as photo frames and printed photos (\$200). These items help create a visually inclusive environment at the Multicultural Family Center.
13. Office Supplies increased from \$2,000 in FY 2024 to \$2,500 in FY 2025. This line item represents printer, toner, and paper expenses for the computer lab at the Multicultural Family Center. The computer lab was recently opened to the public, resulting in expected usage during FY 2025.

Revenue

14. Meeting Room Fees increased from \$7,400 in FY 2024 to \$8,360 in FY 2025. This line item represents revenue received from renting out meeting rooms at the Multicultural Family Center. The revenue from meeting room rentals directly offsets the expense of having staff present to supervise when meeting rooms are being rented out.

LEISURE SERVICES RECREATION DIVISION

Multicultural Family Center (MFC)

	FY 2023	FY 2024	FY 2025
Full-Time Equivalent	5.05	5.49	5.49

Mission & Services

Our mission is to empower all families and community members of Dubuque to reach their potential and build unity through diversity, equity and inclusion. The Center serves as an inviting and inclusive place to stimulate connections and foster intercultural engagement. With the expansion to the MFC's physical space, the center will emphasize serving teen-aged populations in quality out-of-school enrichment programming that includes life skill development, social and emotional learning and post secondary career exploration training.

Multicultural Family Center Funding Summary			
	FY 2023 Actual	FY 2024 Budget	FY 2025 Recomm'd

HOW TO USE THIS POLICY BUDGET DOCUMENT

PURPOSE

The Policy Budget defines goals and objectives for all City departments and activities, relates them to cost and resource requirements and attempts to establish measures for evaluating accomplishment. Specific improvement packages are developed and included in the Policy Budget for alternative funding and service levels. The Policy Budget document shows the budget by line item for each Department and provides a basis for fiscal control once the budget is adopted.

The Policy Budget emphasizes objectives, accomplishments, and alternative funding and service levels and is intended to keep the attention of the City Council and public on the major policy decisions involving what services the City government will provide, who will pay for them, and the implications of such decisions.

FORMAT

The Policy Budget is organized by Department/Division and provides detail for all activities that make up each Department/Division. Each Department/Division tab includes the following information:

- 1) **Department/Division Financial Summary:** The ***budget highlights*** portion of the Department Summary reflects total expenses for the maintenance level budget (cost to continue at the same level of service) and approved improvement packages for all activities within the Department by expenditure category (employee expense, supplies and services, machinery and equipment, and debt service), and the funding sources that pay those expenses. The property tax portion of the funding is reflected, noting the increase or decrease from the prior years adopted budget. For Departments which are self supporting (i.e. Water, Water Pollution Control, Refuse (part of Public Works), Media Service, Transit, Parking), the net operating surplus/deficit is reflected, noting the increase or decrease in the fund from the prior years adopted budget.

This summary displays all ***Improvement Packages*** submitted by Department/Division Managers, with a notation of whether they were recommended by the City Manager, and then approved by the City Council. Those noted with a 'YES' were added to the maintenance level budget and are reflected in the Department Funding Summary and those noted with a 'NO' were not approved.

And finally, this summary explains ***significant line item detail*** by expenditure category, notable revenue changes, and miscellaneous information regarding the maintenance level budget. These are the review notes prior to adding any improvement packages.

- 2) **Memo Addressing Budget Issue (optional):** If there is an important budget issue that needs further explanation, a memo will be provided.
- 3) **Department's Organizational Chart (optional):** Shows how a Department is structured. Usually included for larger more complex Departments.
- 4) **Department/Division's Highlights of Prior Year's Accomplishments and Future Initiatives:** This is a written narrative that highlights the Department's prior year accomplishments and what Departments plan on accomplishing in the near future.

- 5) **Department/Division's Goals and Performance Measures by Activity:** This is a written activity statement and a matrix for each activity which includes activity objectives, relationship to City Council Goals & Priorities, and key performance indicators (KPIs).. Performance measures are included for each activity to evaluate activities and ensure that the approved levels of funding yield the expected results. Icons for each KPI visually indicate how well an objective is doing and represent the following:

Goal Met	Goal in Progress	Goal Not Met
This goal has been met.	The goal has not been met but is showing signs of improvement.	This goal has not been met and is not currently showing signs of progress.

- 6) **Department/Division's Goals and Performance Measures by Activity:** This is a written narrative for each activity that explains the goal, describes the purpose, and explains the service objectives of each activity. Performance measures are included for each activity to evaluate activities and ensure that the approved levels of funding yield the expected results.
- 7) **Recommended Operating Revenue Budget by Department/Division:** This report reflects line item revenue detail at the Department/Division level (combines all activities for each line by fund). Two years actual revenues, prior year adopted revenues and the recommended revenue for the new budget year are reflected.
- 8) **Recommended Operating Expenditure Budget by Department/Division:** This report reflects line item expenditure detail at the Department/Division level (combines all activities for each line by fund). Expenses are grouped by category (employee expense, supplies and services, machinery and equipment, debt service, and transfers) and displays two years actual expenses, prior year adopted expenses and the recommended expense for the new budget year.
- 9) **Recommended Operating Expenditure Budget by Activity and Funding Source:** This report reflects expenses grouped by category (employee expense, supplies and services, machinery and equipment, debt service, and transfers) for each activity within the Department/Division, and displays two years actual expenses, prior year adopted expenses and the recommended expense for the new budget year.
- 10) **Personnel Complement at Department/Division and Activity Level:** These reports reflect positions budgeted at the Department/Division level and the Activity level, by funding source. Total Full Time Equivalents (FTE) and wages with longevity expense are shown for each position for two years prior year adopted FTE and expenses, and the recommended FTE and related expense for the new budget year.
- 11) **Capital Improvement Projects by Department/Division:** This report lists all Capital Improvement Project totals for two years actual expenses, prior year adopted expenses and the recommended expense for the new budget year.
- 12) **Five Year Capital Improvement Program Summary by Department/Division:** This report lists all Capital Improvement Projects budgeted in the new budget year and planned for the next four years.

Improvement Package Summary

1 of 9

This improvement level package request provides for adding one full-time Maintenance Technician position to the Park Division (1.00 FTE, GD-06). This position would be assigned to the Bee Branch Creek Greenway area. Staff have struggled to fill temporary positions for this particular activity in the Park Division. This new full-time staff position would be responsible for the daily maintenance of the Bee Branch Creek Greenway, including but not limited to: litter control, turf and irrigation maintenance, weed control, vandalism removal, snow removal and other general park maintenance items. The cost of the new Maintenance Technician position will be partially offset by eliminating 0.11 FTE from temporary Parks Groundskeeper positions and also eliminating 0.50 FTE from the temporary Landscape Crew Member positions. The cost of the new Maintenance Technician position would be \$80,137, and the savings from eliminating the positions is \$24,273, resulting in a net cost of \$55,864. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities.

Related Cost:	\$ 80,137	Stormwater Fund	Recurring	Recommend - No
Related Cost Savings:	\$ 4,377	Stormwater Fund	Recurring	
Related Cost Savings:	19,896	Tax Funds	Recurring	
Net Cost:	<u>\$ 55,864</u>			
Property Tax Impact:	\$ 0.022	0.13%		
Activity: Park Areas & Maintenance				

2 of 9

This improvement level package request provides for adding one full-time Maintenance Technician position to the Park Division (1.00 FTE, GD-06). This position would be assigned to the Park Areas and Maintenance activity of the Park Division. The Park division has struggled to hire temporary positions the last few years. This position would be responsible for all areas of park maintenance, including but not limited to: turf and irrigation maintenance, litter control, weed spraying, snow removal, general building maintenance, etc. This position would also assist with the maintenance of the three mini parks that will be constructed in 2024. This request eliminates 0.96 FTE from temporary Parks Groundskeeper positions to help partially offset the cost for the new full-time Maintenance Technician position. The cost of the new Maintenance Technician position would be \$80,137, and the savings from eliminating the positions is \$38,189, resulting in a net cost of \$41,948. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities.

Related Cost:	\$ 80,137	Tax Funds	Recurring	Recommend - No
Related Cost Savings:	\$ 38,196	Tax Funds	Recurring	
Net Cost:	<u>\$ 41,941</u>			
Property Tax Impact:	\$ 0.0165	0.10%		
Activity: Park Areas & Maintenance				

3 of 9

This improvement level request provides for 1510 additional hours for temporary Park Rangers during the park season (0.72 FTE). In 2015, two full-time Park Ranger positions (2.00 FTE) were eliminated and hours reduced for the temporary Park Rangers due to hiring freeze and budget cuts. Currently, there is one Park Ranger scheduled for evenings Monday through Thursday and two Park Rangers scheduled for evenings on Friday, Saturday and Sunday. They are unable to provide the level of service expected by the Leisure Services Department and an increase in required training has also reduced their amount of hours in the field. The increased hours would provide for two Park Rangers on Monday through Thursday evenings and additional daytime hours on Saturdays and Sundays. The hours would also decrease time needed by the Police Department to respond to calls that Park Rangers can handle. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities. Having adequate coverage from Park Rangers is an essential function of maintain parks.

Related Cost:	\$ 37,120	Tax Funds	Recurring	Recommend - No
Property Tax Impact:	\$ 0.0146	0.16%		
Activity: Parks Patrol				

4 of 9

This improvement package request provides for 4 additional desktop computers for the Park Division. Three computers would be for functional supervisors that do not have a desktop computer. An additional computer would be a multi-user computer for Park Division staff. With the Tyler Human Resources Management module, increased trainings, City emails and additional items required to perform work duties efficiently, desktop computers are needed as iPads are not sufficient. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities. Having adequate technology in the Park Division helps staff perform their duties.

Related Cost:	\$ 8,800	Tax Funds	Non-Recurring	Recommend - Yes
Property Tax Impact:	\$ 0.0035	0.04%		
Activity: Parks Area and Maintenance				

5 of 9

This improvement level request provides for the purchase of a utility vehicle for use at Veterans Memorial Park. After the Miracle League Complex was completed, new maintenance responsibilities were required for the Park Division. A utility vehicle assigned to the Greenhouse activity was moved to Veterans Memorial Park to efficiently perform the new responsibilities. This has resulted in a shortage of utility vehicles to perform efficiently as a department. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities. Having an additional utility vehicle will empower staff to maintain Veteran Memorial Park more efficiently.

Related Cost:	\$ 23,000	Tax Funds	Non-Recurring	Recommend - Yes
Property Tax Impact:	\$ 0.009	0.10%		
Activity: Park Areas & Maintenance				

6 of 9

This improvement level request provides for the purchase of a plate compactor and jumping jack compactor. The Park Division purchased a mini excavator in FY 2024 and has been using it regularly for projects. Staff have needed to rent a plate compactor and jumping jack for many of these projects. The purchase of these products will save on the costs of rental and also the availability of the equipment to complete projects in a timely manner. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities. Having the necessary equipment regularly available for use will allow staff to better maintain City parks.

Related Cost:	\$ 7,000	Tax Funds	Non-Recurring	Recommend - Yes
Property Tax Impact:	\$ 0.0028	0.03%		
Activity: Park Areas & Maintenance				

7 of 9

This improvement level request provides for the purchase of a dump trailer for the Forestry activity in the Park Division. The Forestry activity does not have a trailer. This trailer would allow for the Forestry team to transport trees and other supplies for tree plantings. It would assist with transport of stump grindings, topsoil and mulch and other debris and materials. The trailer would also be used to transport the Forestry skid steer for tree related projects. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities. Providing staff with adequate equipment empowers them to better maintain City parks.

Related Cost:	\$ 15,000	Tax Funds	Non-Recurring	Recommend - Yes
Property Tax Impact:	\$ 0.0059	0.07%		
Activity: Forestry				

8 of 9

This improvement level request provides for the purchase of a tow-behind prairie mower for the Park Division. This mower can mow at a height of up to 7 inches which is an ideal height for prairie maintenance. This piece of equipment would offset the cost of hiring a contractor to mow smaller prairie areas. This

request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities.

Related Cost:	\$ 4,000	Tax Funds	Non-Recurring	Recommend - Yes
Property Tax Impact:	\$ 0.0016	0.02%		
Activity:	Greenhouse			

9 of 9

This improvement level package provides for a remote-controlled mower for the Park Division. There are numerous steep slopes that the Park Division mows including turf and prairie areas. This mower would reduce the risk of injury from mowing these areas with staff on riding mowers. The mower would be remote operated by staff from a safe distance. This mower could also be used to mow storm water detention basins. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities. Providing staff with adequate equipment empowers them to maintain City parks using safer methods.

Related Cost:	\$ 70,000	Tax Funds	Non-Recurring	Recommend - Yes
Property Tax Impact:	\$ 0.0275	0.31%		
Activity:	Park Areas & Maintenance			

Significant Line Items

Employee Expense

- 1. FY 2025 employee expense reflects a 5.00% wage package increase.
- 2. The Iowa Public Employee Retirement System (IPERS) City contribution of 9.44% is unchanged from FY 2024 The employee contribution of 6.29% is unchanged from FY 2024.
- 3. The City portion of health insurance expense is unchanged from \$1,119 in FY 2024 to \$1,119 in FY 2025 per month, per contract, which results in an annual cost unchanged of \$— or 0.0%.
- 4. Five-Year Retiree Sick leave payout decreased from \$12,074 in FY 2024 to \$11,781 in FY 2025.
- 5. Overtime expense is unchanged from \$21,936 in FY 2024 to \$21,936 in FY 2025. FY 2023 actual was \$29,146.
- 6. Workers Compensation decreased from \$65,290 in FY 2024 to \$64,513 in FY 2025. FY 2023 actual was \$70,851.

Supplies & Services

- 7. Pay to Other Agency increased from \$50,000 in FY 2024 to \$60,000 in FY 2025. This line item represents the management agreement with Dubuque County for the EB Lyons Interpretive Center. The City pays the County 50% of expenses for staffing, utilities, and repairs. All of these costs at the EB Lyons center have increased, thus the City's payment to the County has increased.
- 8. General Liability Insurance increased from \$28,658 in FY 2024 to \$66,808 in FY 2025 based on information received from Iowa Communities Assurance Pool (ICAP).

9. Electricity increased from \$122,010 in FY 2024 to \$122,794 in FY 2025 based on FY 2023 actual of \$111,834. This line item represents electricity costs for park areas and facilities, as well as a portion of electricity expenses for the Leisure Services Bunker Hill administrative office.
10. Equipment Maintenance/Repair increased from \$47,636 in FY 2024 to \$48,191 in FY 2025. This line item represents miscellaneous parts, maintenance, and repairs for equipment such as mowers, utility vehicles, chainsaws, snowblowers, sweepers, chippers, and stump grinders.
11. Building Maintenance increased from \$179,759 in FY 2024 to \$213,503 in FY 2025 based on FY 2023 actual of \$201,079 plus expected price increases of 6%. This line item represents general maintenance at City Parks and facilities. Common maintenance items include plumbing, painting, electrical work, overhead door repairs, repairing water and sewer lines, maintenance of fences, gates, and playground equipment, repair of buildings and shelters, road maintenance, and playground turf and mulch maintenance. Industry-wide price increases have impacted the cost of parts and supplies used for maintaining facilities.
12. Vehicle Ops - Gasoline is unchanged from \$52,718 in FY 2024 to \$52,718 in FY 2025 based on FY 2024 budget. This line item represents fuel expenses for Park Division vehicles, machinery, and small equipment.
13. Vehicle Repairs - Internal increased from \$18,737 in FY 2024 to \$22,806 in FY 2025 based on a three year average of FY 2023, FY 2022, and FY 2021. This line item represents preventative maintenance and repairs to vehicles in the event of a breakdown or part failure.
14. Landscaping increased from \$88,022 in FY 2024 to \$97,131 in FY 2025 based on the FY 2023 Actual of \$95,061 plus expected cost increases of 2%. This line item represents expenses for landscaping and upkeep at City parks and facilities. Common expenses include dirt, seed, fertilizer, herbicides, mulch, and plants. Industry-wide price increases have impacted the cost of materials and supplies used for the upkeep of City parks.
15. Tree Maintenance is unchanged from \$84,500 in FY 2024 to \$84,500 in FY 2025. The FY 2023 Actual was \$71,436. This line item includes contracted tree and stump removal near power lines (\$10,000), ash tree treatment (\$4,500), and ash tree removal (\$45,000) and planting trees (\$25,000). Actual expenses in this line item fluctuate due to the tree maintenance needs. The FY 2023 actual reflects fluctuation and was relatively low. The FY 2022 actual was \$83,542.
16. Other Contractual Services decreased from \$51,600 in FY 2024 to \$44,920 in FY 2025. The FY 2023 Actual was \$56,215. This line item includes playground mulch installation, delivery and collection of green waste dumpsters, roundabout maintenance, contracted snow removal of new Chavenelle Trail, and Bee Branch hanging baskets. FY 2024 included a non-recurring improvement package for pollinators (\$10,000), contributing to the decrease. However, the decrease from the FY 2024 improvement packages is offset by an increase in the cost of hanging baskets for the Bee Branch.
17. Lawn Care Contract decreased from \$79,050 in FY 2024 to \$76,063 based on a three year average. This line item is variable each year due to mowing schedules and weather conditions. The FY 2023 Actual was \$70,899. This line item represents contracted lawn care services for smaller parks.
18. Property Insurance increased from \$43,562 in FY 2024 to \$59,716 in FY 2025 based on FY 2024 budget minus approximately 37%. FY 2023 Actual was \$34,510.
19. Equipment Maintenance Contracts decreased from \$28,667 in FY 2024 to \$25,617 in FY 2025 based on FY 2023 Actual. This line item represents contracts and fees for mobile radios, blue help stations, cash registers, and security alarms.

20. Stormwater utility expense increased from \$43,361 in FY 2024 to \$47,926 in FY 2025 based on FY 2023 actual of \$41,276 plus 16.11%.
21. Natural Gas utility expense increased from \$19,646 in FY 2024 to \$24,167 in FY 2025 based on FY 2023 actual.

Machinery & Equipment

22. Equipment replacement items are requested for \$447,310 for:

Parks Machinery and Equipment	
<u>Forestry</u>	
#4407 Dump Truck	\$ 70,000
#4409 Brush Chipper	\$ 60,000
Headsets	\$ 10,000
<u>Park Patrol</u>

#4445 Utility Tractor w/ Cab	\$ 27,000
#4454 Utility Tractor w/ Cab	\$ 26,000
#4455 Gator	\$ 18,000
#4458 Front Deck Mower	\$ 36,000
#4480 John Deere 1200A	\$ 15,000
#4483 Gator HPX 4x4	\$ 18,000
21-inch Mowers	\$ 2,100
Network Switch	\$ 26,000
<u>Greenhouse</u>	
Desk Phone	\$ 210
<u>Veterans Memorial</u>	
Pavers	\$ 890
Recommended Improvement Packages	\$ 120,800
Total Equipment	<u>\$ 447,310</u>

Debt Service

23. FY 2025 Annual Debt Service Payments are as follows (\$129,408):

Amount	Debt Series	Source	Purpose	Final Payment Year	Call Date
\$ 6,197	2017A G.O.	Sales Tax 20%	Park Improvements	2030	2025
\$ 5,313	2019C G.O.	Sales Tax 20%	Park Improvements	2027	2026
\$ 9,071	2021A G.O.	Sales Tax 20%	Park Improvements	2041	2028
\$ 9,630	2021A G.O.	Sales Tax 20%	Park Improvements	2041	2028
\$ 13,660	2016C G.O.	Sales Tax 20%	Ham House Improv.	2036	2024
\$ 85,537	2019B G.O.	Sales Tax 20%	Skate Park	2039	2039
\$ 129,408	Total Park Annual Debt Service				

Revenue

24. Building/Land Leases increased from \$29,015 in FY 2024 to \$32,073 in FY 2025 based on the terms of the agreement. This line item represents rental of land at Murphy Park for a cell phone tower (\$28,164), as well as annual land leases with local organizations (\$850).
25. Camping Fees increased from \$89,118 in FY 2024 to \$110,401 in FY 2025 based on a three-year average of FY 2023, FY 2022, and FY 2021. The FY 2023 actual was \$127,457. FY 2022 and FY 2023 had very few closure days from to flooding from the Mississippi, resulting in being open most of the season.
26. Park Entrance Fees decreased from \$36,632 in FY 2024 to \$32,894 in FY 2025 based on a three-year average of FY 2023, FY 2022, and FY 2021. The FY 2023 actual was \$32,316. This line item represents park entrance fees for Eagle Point Park, which are charged on a per-vehicle basis.
27. Pavilion Fees increased from \$72,847 in FY 2024 to \$79,992 in FY 2025 based on a three-year average of FY 2023, FY 2022, FY 2021. The FY 2023 actual was \$84,634. This line item represents the rental of City pavilions and park facilities
28. Private Participant increased from \$131,639 in FY 2024 to \$140,609 in FY 2025. This line item includes the following:

	FY 2024	FY 2025	Change
Downtown Maintenance	\$ 10,674	\$ 11,208	\$ 534
Technology Park	\$ 23,803	\$ 24,545	\$ 742
Dubuque Industrial Center West	\$ 19,820	\$ 21,854	\$ 2,034
Chaplain Schmitt Island	\$ 27,552	\$ 27,552	\$ —
Veterans Memorial Pavers	\$ 49,790	\$ 55,450	\$ 5,660
Total Private Participant Revenue	\$ 131,639	\$ 140,609	\$ 8,970

Downtown Maintenance private participant represents payment from 8th Street and Main Street businesses for snow removal costs.

Technology Park and Dubuque Industrial Center West private participant represents the maintenance that is billed to the businesses. This is calculated by taking the previous Fiscal Year's expenses times the percentage of land. Estimated FY 2024 expense is \$139,287.

Chaplain Schmitt Island private represents payments from Dubuque Racing Association for maintenance of the Chaplain Schmitt pond project.

Veterans Memorial Pavers private participant represents purchases of memorial pavers at All Veterans Memorial on Chaplain Schmitt Island.

Miscellaneous

29. The Park Division budget for FY 2025 is 14.76% self-supporting versus 14.98% self-supporting in FY 2024.

LEISURE SERVICES PARKS DIVISION

The Parks Division enables and fosters full enjoyment of the parks, open spaces, and recreational facilities of Dubuque in a manner that demonstrates and fulfills the city's commitment to social equity, economic viability and environmental responsibility.

SUCCESS IS ABOUT PLANNING, PARTNERSHIPS AND PEOPLE LEADING TO OUTCOMES

PEOPLE

Provide service in the most efficient manner and help Dubuque citizens gain a greater knowledge and appreciation of what is involved in providing the park system. Volunteers are utilized whenever possible.

PLANNING

Planning is essential for existing and new development of all areas maintained by the Park Division. The City, community and other organizations work together to provide viable, equitable, and sustainable areas for the public to enjoy.

PARTNERSHIPS

The Park Division works with various State, County, Private, and Non-Profit entities. This is to ensure sound development and management of all City assets maintained and operated by the Park Division. Some of these include: Dubuque County, Iowa Department of Natural Resources, Hillcrest Family Services, Dubuque Arboretum, Four Mounds Foundation, and the Dubuque Historical Society.

LEISURE SERVICES PARKS DIVISION

	FY 2023	FY 2024	FY 2025
Full-Time Equivalent	38.39	39.59	39.59

Resources and Property Tax Support

The Park Division is supported by 39.59 full-time equivalent employees, which accounts for 64.35% of the department expense as seen below. Overall, the departments' expenses are expected to increase by 8.83% in FY 2025 compared to FY 2024.

Expenditures by Category by Fiscal Year

LEISURE SERVICES PARKS DIVISION Parks Maintenance

Mission & Services

Park Maintenance provides daily maintenance and security of all parks, park and building repairs and improvements, grounds maintenance, trail maintenance, emergency storm damage response/repair, park inspections, athletic field and court maintenance, snow removal, equipment and playground maintenance and maintenance of water features and irrigation systems. It also includes maintenance of all park equipment and vehicles. Also included is assistance with maintenance of Recreation facilities.

Areas include: Maintenance staff maintains 16 community parks, 6 neighborhood parks, 25 mini parks, 5 new parcels for park development and a Pet Park for a total of 974 acres. Other maintenance responsibilities include 3.4 miles of median strips, 12 miles of roadway, 5 miles of sidewalks, 27 miles of off-road paved multi-use trails and 40 other areas.

Park Maintenance Funding Summary			
	FY 2023 Actual	FY 2024 Budget	FY 2025 Recomm'd

Significant Line Items

Employee Expense

1. FY 2025 employee expense reflects a 5.00% wage package increase.
2. The Iowa Public Employee Retirement System (IPERS) City contribution of 9.44% is unchanged from FY 2024. The employee contribution of 6.29% is unchanged from FY 2024.
3. The City portion of health insurance is unchanged from \$1,119 in FY 2024 to \$1,119 in FY 2025 per month, per contract, which results in the annual cost being unchanged.

Supplies & Services

4. Utilities Expense for the Multicultural Family Center decreased from \$62,215 in FY 2024 to \$31,483 in FY 2025 based on actuals from both FY 2023 and FY 2024. The FY 2023 actual was \$28,243. The expenses in this line item are paid out of the Engineering Department operating budget. FY 2025 includes electricity expense (\$25,000), gas expense (\$6,000), and stormwater expense (\$483). The overall decrease is due to FY 2023 actuals being lower than FY 2024 budget for all utilities.
5. Property Insurance and Maintenance for the Multicultural Family Center decreased from \$78,401 in FY 2024 to \$63,888 in FY 2025 based on both FY 2023 and FY 2024 actuals. The FY 2023 actual was \$27,562. In FY 2025, Property Insurance increased \$2,579 while Maintenance decreased \$15,200. The expenses in this line item are paid out of the Engineering Department operating budget. This line item includes property maintenance (\$28,000), janitorial supplies (\$4,000), fire suppression (\$5,813), HVAC maintenance (\$5,600), machine/equipment

maintenance (\$2,000), equipment maintenance contracts (\$2,361), building construction contract expense (\$8,000), and property insurance (\$8,114). The FY 2024 budget for the MFC was an estimated based on the best information available at the time. The FY 2023 actuals were lower than the FY 2024 budget, therefore, the budget is being reduced in FY 2025.

6. Payments to Other Agency increased from \$10,000 in FY 2024 to \$16,000 in FY 2025. This line item represents a grant match for AmeriCorps members placed at the Multicultural Family Center, which covers 6,400 hours of staff time. The match increased from \$1.56 per hour in FY 2024 to \$2.50 per hour in FY 2025 due to a cost of living increase. This increase was part of the AmeriCorps grant that was submitted and approved.
7. Technology Equipment Maintenance is increased from \$10,699 in FY 2024 to \$19,093 in FY 2025. This line item includes a contract for AV and sound equipment in the expanded Multicultural Family Center building. This contract covers expenses for labor but does not cover parts. This line item also includes Milestone licenses for cameras at the Multicultural Family Center that were approved in an FY 2022 Capital Improvement Project. The Milestone licenses for the cameras are new in FY 2025, leading to an increase.
8. Technology Contract increased from \$0 in FY 2024 to \$4,032 in FY 2025. This is a new line item in FY 2025, and it represents the maintenance and care contract for new security cameras at the Multicultural Family Center. The cameras were approved in an FY 2022 Capital Improvement Project. The maintenance and care contract for the cameras is a new expense for FY 2025.
9. Meetings and Conferences increased from \$8,000 in FY 2024 to \$8,850 FY 2025 based on expected cost of conference registration and travel. This line item funds attendance to conferences for three full-time Multicultural Family Center staff. Conferences include the Government Alliance on Race and Equity conference, the National Multiculturalism Conference, and various diversity, equity, and inclusion conferences.
10. IT Recharges is unchanged from \$3,699 in FY 2024 to \$3,699 in FY 2025. This line item represents recharges from the Information Technology departments. Departments are recharged for software and equipment.
11. Education Reimbursement decreased from \$3,515 in FY 2024 to \$3,500 in FY 2025. This line item includes trainings for staff, which includes professional development training and the Iowa Women Lead Change training.
12. Program Materials is increased from \$3,200 in FY 2024 to \$3,400 in FY 2025. This line item represents the purchase of weekly flowers for the Multicultural Family Center (\$3,200) as well as photo frames and printed photos (\$200). These items help create a visually inclusive environment at the Multicultural Family Center.
13. Office Supplies increased from \$2,000 in FY 2024 to \$2,500 in FY 2025. This line item represents printer, toner, and paper expenses for the computer lab at the Multicultural Family Center. The computer lab was recently opened to the public, resulting in expected usage during FY 2025.

Revenue

14. Meeting Room Fees increased from \$7,400 in FY 2024 to \$8,360 in FY 2025. This line item represents revenue received from renting out meeting rooms at the Multicultural Family Center. The revenue from meeting room rentals directly offsets the expense of having staff present to supervise when meeting rooms are being rented out.

Multicultural Family Center (MFC)

	FY 2023	FY 2024	FY 2025
Full-Time Equivalent	5.05	5.49	5.49

Mission & Services

Our mission is to empower all families and community members of Dubuque to reach their potential and build unity through diversity, equity and inclusion. The Center serves as an inviting and inclusive place to stimulate connections and foster intercultural engagement. With the expansion to the MFC's physical space, the center will emphasize serving teen-aged populations in quality out-of-school enrichment programming that includes life skill development, social and emotional learning and post secondary career exploration training.

Improvement Package Summary

1 of 6

This improvement package request is to increase the City's financial support of the Administrative Assistant position in the Community Impact Division. The full-time Community Impact Division Administrative Assistant (1.00 FTE, GE-25) has been partially funded through a grant from Volunteer Iowa in the past (0.37FTE of the position has historically been funded through the Volunteer Iowa grant). In addition to being funded through this grant, the position is also funded by the Federal AmeriCorps grant, and also by the City General Fund. The exact proportion of the position that is funded by the City General Fund depends on how much of the position can first be funded through the Federal AmeriCorps grant. The Federal AmeriCorps grant allocation to the City varies each year, thus the support from the City's General Fund also varies each year. Most recently, the funding breakdown of this position has been 0.37 FTE through the Volunteer Iowa grant, 0.58 FTE through the Federal AmeriCorps grant, and 0.05 FTE through the City General Fund. The exact portion of any Community Impact Division position that can be funded through the AmeriCorps grant cannot usually be known until after budget adoption due to the timing of the grant approval from the Federal agency. The Federal grant that would cover this position in FY 2025 would not be approved until May of 2024, which is after the City's FY 2025 budget adoption, thus the precise proportion of the Federal grant that will cover this position in FY 2025 will not be certain until that time, though this budget is using estimations with the best available information.

Unfortunately, Volunteer Iowa lost federal funding, which means, through no fault of the Community Impact Division, the grant funding from Volunteer Iowa will not be available to the City in FY 2025, resulting in a funding shortage of 0.37 FTE for this position. In order to keep the position full-time and prevent service disruptions, the City will need to increase its funding for this position by 0.37 FTE to fill the gap created by the loss of the grant (+ \$27,626). It is critical that this position be able to continue to support the Fines and Fee and Diversion work and administratively support the establishment of necessary frameworks and best practices. Without this position, other staff would be over burdened with

administrative responsibilities, which hinders the capacity for sustainable, equitable, and effective service delivery. This request responds to the City Council Goal: Financially Responsible, High-Performance Organization. Ensuring the continuation of services is critical to being a high performing organization.

Related Cost:	<u>\$ 27,626</u>	Tax Funds	Recurring	Recommend - No
Property Tax Impact:	\$ 0.0109	0.12%		
Activity:	Non-Grant			

2 of 6

This improvement package request is for funding to cover the program materials needed to implement the AmeriCorps Program's Social-Emotional Learning curriculum on an annual basis. Each lesson in the curriculum requires materials that will need to be replenished on a regular basis due to the nature of materials being finite, and replacement for normal wear and tear or accidents (materials include paper, markers, yarn, tape, poster boards, etc.). Without these materials, youth will miss out on the key experiential learning that is the key piece of the lesson.

This package meets the City Council goals of Financially Responsible, High Performance City Organization: Sustainable, Equitable and Effective Service Delivery and Partnership for a Better Dubuque: Building our Community that is Viable, Livable, and Equitable. Through utilizing AmeriCorps grant funded programming, the City is able to support youth academic growth with a significant return on investment for our community. AmeriCorps funding provides great value for dollars spent and empowers the City to offer programming that otherwise would not be able to happen.

3 of 6

This improvement package request is to cover the cost of the VolunteerDBQ platform and provide supplemental marketing funds for the Volunteer DBQ initiative. The Office of Community Impact has fostered significant growth with the Volunteer DBQ initiative, supporting internal and external partners to utilize volunteers to address community needs. Work being done through VolunteerDBQ has been previously funded by the Volunteer Generation Fund through the Iowa Commission on Volunteer Service (Volunteer Iowa). Volunteer Iowa lost federal funding for the continuation of the Volunteer Generation Fund grant. There will no longer be funding available for the City's 2023-2026 Volunteer Generation Fund grant. This packages seeks to secure City funding to continue the Volunteer DBQ initiative. Improvement package 4 of 6 is an alternative proposal to continue the Volunteer DBQ initiative in the event that this specific package cannot be funded.

The grant covered the cost of the VolunteerDBQ.com Platform (through Galaxy Digital). The current platform offers a place for non-profits, government entities, and educational institutions to recruit volunteers, and for volunteers to easily seek opportunities. Without a platform, the volunteer initiative will lose significant momentum built for the last 3 years. This request seeks to purchase a new software platform instead of purchasing the current platform. The prospective new platform, BeWith.io, is completely customizable to programmatic efforts with better community engagement and data collection features that support non-profits and citizens to build strong and resilient community collaboration. This platform would provide a front-facing web portal experience that allows residents to easily access opportunities that is tied effectively to a back-end portal that can be used to collect data and customer information. Additionally, the platform includes an artificial intelligence concierge that provides reminders and information to residents. The platform is completely customizable to what the City would like to see

in the platform. The annual cost of the prospective new BeWith.io platform is \$11,000 (recurring). Improvement package 4 of 6 is an alternative scenario that opts to stick with the current software platform, which would instead have an annual cost of \$3,000 (recurring).

Marketing and volunteer recruitment funding is also requested, which would be used for printed marketing supplies and postage (\$5,000 recurring). Promoting the initiative will help it's success.

This package meets the City Council goals of Partnership for a Better Dubuque: Building our Community that is Viable, Livable, and Equitable, as well as Vibrant Community: Health & Safety, and Diverse Arts, Culture, Parks & Recreation: Experiences & Activities. Volunteering is a necessity for non-profit, governmental, and educational institutions in order to achieve outcomes with limited financial resources. Volunteering is also a proven means to increase the health and well-being of residents. Volunteering creates a sense of community and belonging, which is necessary to build a safe community that all people feel a part of.

5 of 6

This improvement package request is for work from home equipment for Community Impact staff (5 employees). The nature of the office requires flexible work arrangements due to the varied location and times of meetings across town. Equipping staff with the ability to efficiently work remotely will increase productivity by allowing for flexibility. Currently, all staff are equipped with laptops for remote work, so this improvement package would be for the Monitors-only Work from Home setup. A work from home schedule will be developed to establish a system and normal procedures.

This package meets the City Council goals of Financially Responsible, High Performance City Organization: Sustainable, Equitable and Effective Service Delivery. Offering remote and flexible work opportunities help improve employee retention which contributes to long term efficiency. Equipping staff with flexible work equipment empowers them to work and stay connected under a variety of circumstances, which contributes to a high-performance organization.

6 of 6

This improvement Package is for the attendance of Community Impact Staff (5 employees) to attend PolicyLink's 2024 Equity Summit. PolicyLink is a national research and action institute advancing racial and economic equity by 'Lifting Up What Works.' PolicyLink has been a strong collaborative partner with Cities and Counties for Fines and Fee Justice and a leader working towards the elimination of fines and fees. PolicyLink's Equity summits focuses on the significant achievements and strategic breakthroughs of the equity movement. The PolicyLink Summit convenes to position equity, the environment, and the economy on equal footing. This national summit defines the leading edge of practice, policy, and research over the last 20 years.

This package meets the City Council goal Partnership for a Better Dubuque: Building our Community that is Viable, Livable, and Equitable. Attendance to this conference would provide staff with the opportunity to identify best practices occurring in other communities and establish meaningful partnerships through networking opportunities.

Significant Line Items

Employee Expense

1. FY 2025 employee expense reflects a 5.00% wage package increase. Wage package increases have historically not applied to AmeriCorps member positions.

2. The Iowa Public Employee Retirement System (IPERS) City contribution of 9.44% is unchanged from FY 2024. The employee contribution of 6.29% is unchanged from FY 2024.
3. The City portion of health insurance expense is unchanged from \$1,119 in FY 2024 to \$1,119 in FY 2025 per month, per contract, which results in the annual cost being increased \$1 or —%.
4. Workers Compensation increased from \$14,344 in FY 2024 to \$16,790 in FY 2025. The FY 2023 actual was \$21,593.
5. The full-time AmeriCorps Coordinator position (1.00 FTE) has historically been partially funded through the AmeriCorps grant at approximately 0.90 FTE, the exact proportion varies depending on non-grant responsibilities. In FY 2025, due to the restructure of the Community Impact Division and all division employees being placed on the general employee wage plans, the step increase for this position is anticipated to be larger than available grant funding, resulting in an approximate 0.13 FTE increase in City funding for this position (+ \$12,960). The exact number would not be known until May 2024 when the final AmeriCorps grant application is approved by the federal AmeriCorps agency.

Supplies & Services

6. Association Dues decreased from \$2,317 in FY 2024 to \$250 in FY 2025. The FY 2024 budget included a timesheet monitoring fee from Volunteer Iowa, which was moved to the Payment to Other Agencies line item in FY 2025 to better organize the department's budget. In FY 2025, the this line item includes the America's Service Commissions fee.
7. Payments to Other Agencies decreased from \$13,633 in FY 2024 to \$11,045 in FY 2025. In FY 2025, this line item includes Volunteer Iowa monitoring fees (\$7,800), Volunteering Iowa timesheet fees (\$1,476), and the corporation fixed administrative share for the AmeriCorps program (\$1,769). This decrease is due to moving the cost of the America Learns data collection system and the Aperture student assessment system to the Technology Services line item in FY 2025.
8. Technology Services increased from \$13,227 in FY 2024 to \$23,140 in FY 2025. The FY 2023 actual was \$13,418. In FY 2025, this line item includes the America Learns data collection software, as well as Aperture student assessment system. The decrease from FY 2025 is due to a decrease in the number of licenses need for both systems.
9. Meetings and Conferences increased from \$12,405 in FY 2024 to \$15,000 FY 2025. The FY 2023 actual was \$10,717. This line item includes the AmeriCorps Regional Conference, the Iowa AmeriCorps Program Launch, the ICMA Conference, the Growing Sustainable Communities Conference, and the Iowa Women's Leadership Conference. This increase is due to now sending the Administrative Assistant position to the regional conference and the AmeriCorps launch event, which are covered by the AmeriCorps grant.
10. Mileage increased from \$4,300 in FY 2024 to \$6,500 in FY 2025. This line item represents mileage and metered parking reimbursements for staff members. Community Impact Division staff are not eligible for the Commuter Allowance, and meetings and events are frequently scheduled downtown. This requires staff to travel across town in personal vehicles, which is reimbursable. In FY 2025, the mileage budget for the Administrative Assistant position increased to match all other positions, and also to cover travel to out of town trainings required by the federal AmeriCorps agency (such as the AmeriCorps Program Launch and Regional Conference).

11. Telecommunications is unchanged from \$3,120 in FY 2024 to \$3,120 in FY 2025. This line item represents cell phone data plans for staff members with city-issued cell phones.

Machinery & Equipment

12. Equipment replacement items include (\$7,100):

Community Impact Machinery and Equipment	
<u>Administration</u>	
Smart Phone and Case (3)	\$ 1,050
Shoretel Desk Phone (5)	\$ 1,800
Recommended Improvement Packages	\$ 4,250
Total Equipment	\$ 7,100

Revenue

13. Federal Grants increased from \$290,798 in FY 2024 to \$410,000 in FY 2025. The FY 2023 actual was \$227,147. This line represents the federal AmeriCorps grant that the Community Impact Division receives and uses to fund the City of Dubuque AmeriCorps program. The FY 2025 amount is the anticipated amount for the next AmeriCorps grant, and the actual amount could be different once the grant is received. The AmeriCorps grant varies each year based on how much the federal AmeriCorps agency allows the City to request in federal funds for each AmeriCorps position, and also how much of the allocated federal funding the City is able to expend on services. The federal agency has distributed more funds over the past several years due to the American Rescue Plan Act. An increase in federal AmeriCorps funding is anticipated due to the federal agency increasing annual reimbursements to the City for each AmeriCorps full time employee (FTE) equivalent.
14. Private Contributions increased from \$207,400 in FY 2024 to \$254,837 in FY 2025. This line item represents both cash and in-kind matches to AmeriCorps grant made by local partners who utilize AmeriCorps services. In FY 2025, local matches include \$45,000 from the Dubuque Community School District, \$174,337 from the City of Dubuque, \$25,500 from Hillcrest Family Services, and \$10,000 from St. Mark Youth Enrichment Center. This increase in this line item is due to the amount of in-kind grant matching funds that the City is able to claim related to activities performed by administrative employees across the organization that provide supplemental services to the AmeriCorps grant.

LEISURE SERVICES OFFICE OF COMMUNITY IMPACT

	FY 2023	FY 2024	FY 2025
Full-Time Equivalent	5.00	5.00	5.00

Resources and Property Tax Support

The Office of Community Impact is supported by 5.00 full-time equivalent employees, which accounts for 89.93% of the department expense as seen below. Overall, the department's expenses are expected to increase by 13.66% in FY 2025 compared to FY 2024.

LEISURE SERVICES

OFFICE OF COMMUNITY IMPACT

Mission & Services

The mission of the Office of Community Impact is to strengthen the bond between the City of Dubuque and its residents through community, connections, and compassion.

Branches of the Office of Community Impact include:

AmeriCorps is a national service program which awards communities federal funding to implement an AmeriCorps program in their community designed to meet a community's critical need. The City of Dubuque AmeriCorps Program focuses on the continually developing needs of youth across the community. The program is focused around fostering essential skills, AmeriCorps members spearhead programs that target self-awareness, social awareness, self-management, goal-directed behavior, relationship skills, personal responsibility, decision-making, and optimistic thinking. By prioritizing these critical attributes, the program aims to equip local youth with the necessary tools to navigate challenges, enhance well-being, and succeed academically and beyond.

VolunteerDBQ is a community service initiative focused on strengthening Dubuque's Volunteer Infrastructure in partnership with the United Way of the Dubuque Area Tri-States. Through this project, VolunteerDBQ supports local non-profits, educational institutions, and government entities to leverage volunteers to be able to meet critical needs in the community. VolunteerDBQ provides education, coaching and technical assistance in key volunteer management skills to equitably recruit and support volunteers.

Fines & Fee Reform and Diversion & Prevention stems from the City's equity initiative to address how civil and criminal fines disproportionately impact low-income citizens, people of color and other marginalized community members. Internally, this project focuses on identifying how fines and fees across the City are assessed, who is impacted, what are the outcomes for the citizen and what are the City's options. Fines and fees reform would work with non-city agencies as well to review fines, fees and barriers and bring forward best practices for the agencies to consider. This branch will work with VolunteerDBQ to utilize volunteer service as a diversion opportunity for low-income communities that are assessed a fee they are unable to pay. Additionally, the branches work together and identify opportunities to use volunteer service in the prevention of the inequitable assessment of a fee both inside and outside the city organization. An example of this would be the utilization of the DBQ Shovel Crew to clear sidewalks of low-income, physically-disabled Dubuque residents to prevent the assessment of a fine(s).

Why do these branches work together?

The Office of Community Impact, with its branches described above, is one of the many divisions and departments across the City of Dubuque working to address poverty in the Dubuque community. Poverty is a complex issue that permeates the economic, environmental, and social health of our community. There is no simple or single solution to address poverty for every single Dubuque community member. Due to this complexity, this division works together alongside community partners to find short and long-term solutions to address determinants of poverty and alleviate pain points that reinforce poverty with a focus on collaboration, capacity-building, and direct service activities.

Community Impact Funding Summary			
	FY 2023 Actual	FY 2024 Budget	FY 2025 Recomm'd
Expenditures	\$563,484	\$721,912	\$820,533

Improvement Package Summary

1 of 8

This improvement package request provides funding to implement a Park Ambassador program at Comiskey park, which includes creating new temporary Park Ambassador positions (net increase of 0.37 FTEs, NA-25) as well as purchasing office equipment and supplies for the new positions.

The Park Ambassador program would provide dedicated staff to monitor the Comiskey Park facility, engage with the community, and work with supervisors and other departments to plan events and coordinate the indoor facility use for community organization meetings, evening programs, etc. This program would be established on a seasonal basis, and it would operate out of the Comiskey building from Memorial Day weekend through Labor Day, from Noon to 10:00pm each day. Staff would monitor 9 hours per day, 7 days a week for 14 weeks.

The Park Ambassador program would include one temporary Lead Park Ambassador position (0.42 FTEs, NA-25 F) and one temporary Assistant Park Ambassador position (0.42 FTE, NA-25 E). Combined, this amounts to a total of 0.84 FTEs in new Park Ambassador positions to be added to the Recreation Classes activity that would be necessary for the program (\$37,381 recurring cost).

However, in an effort to help offset new costs and reduce the number of new FTEs being requested, current temporary positions in the Adult Athletics activity of the Recreation budget would be restructured, resulting in a net reduction of 0.47 FTEs to help offset the increase of 0.84 FTEs. The restructure of the Adult Athletics activity would include the following changes to current positions and creates a recurring net savings of \$15,378:

- Temporary Groundskeeper Position (currently 0.75 FTEs) — reduce by 0.27 FTEs, recurring savings of \$10,743
- Temporary Scorekeeper Position (currently 0.35 FTEs) — eliminate the position, thus reducing 0.35 FTEs, recurring savings of \$10,180

- Temporary Field Supervisor Position (currently 0.43 FTEs) — increase by 0.15 FTEs, recurring cost of \$5,545

Considered as a whole, the addition of 0.84 FTEs in temporary Park Ambassador positions and the net reduction of 0.47 FTEs in the above positions results in a need to add 0.37 new FTEs to the Recreation budget. The cost of 0.84 FTEs in Park Ambassador positions is \$37,381, and the net savings due to the restructure of the positions would be \$15,378, resulting in a recurring cost of \$22,003 for the personnel costs (wages, Social Security, and IPERS only, does not include office equipment and supplies). The financial breakdown of the personnel changes is summarized below.

Changes in Personnel	Impact on FTEs	Impact on Personnel Costs
<u>RESTRUCTURE CURRENT POSITIONS</u>		
Reduce hours for Temporary Groundskeeper Position	(0.27)	\$(10,743)
Eliminate Temporary Scorekeeper Position	(0.35)	\$(10,180)
Increase hours for Temporary Field Supervisor Position	0.15	\$5,545
Subtotal (restructure current positions)	(0.47)	\$(15,378)
<u>CREATE NEW POSITIONS</u>		
Create 0.42 FTE for Lead Park Ambassador Position	0.42	\$21,855
Create 0.42 FTE for Assistant Park Ambassador Position	0.42	\$15,526
Subtotal (create new positions)	0.84	\$37,381
Net Total Impact on Budget (personnel costs, not including equipment)	0.37	\$22,003

In addition to the personnel costs in the table above, implementing the Park Ambassador Program would require the purchase of equipment and supplies in the Administration activity. This would include funds to furnish the office with standard equipment, including a computer (\$2,200), desk phone with extension/license (\$360), and a network printer (\$1,100). These items have a total non-recurring cost of \$3,660. General office supplies will also be needed (pens, paper, staples, etc.), which have a recurring cost of \$200. The expenses for equipment total \$3,660 non-recurring and \$200 recurring, resulting in a total cost of \$3,860 in FY 2025.

The combined costs of personnel (net cost of \$22,003 recurring) and equipment (\$3,660 non-recurring and \$200 recurring) provides a grand net total cost of \$25,863 for this package in FY 2025 after considering offsets.

This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation. The addition of a Park Ambassador program at Comiskey Park would enhance the park and recreation experience for the community.

2 of 8

This improvement level request provides sustainable, recurring funding for the recruitment and retention of temporary staff in Recreation and the Leisure Services Department. During FY 2023, the City faced a great challenge in finding the necessary temporary summer staff to maintain City services. Hiring was so much of a struggle that the City was not able to open both City Pools in the summer of 2022. The City Manager and Budget Staff identified \$25,000 available in the FY 2023 City budget that could be reallocated to fund a marketing campaign to recruit temporary summer staff. This campaign was very successful, and hiring levels allowed both City pools to open in the Summer of 2023. Additionally, the Recreation division identified separate year end savings of \$25,000 in FY 2023 that was approved to be carried over into FY 2024 to continue these recruitment and retention efforts. All of the funds that were reallocated to help with marketing were done so on a one-time, non-recurring basis. As hiring is still expected to be a challenge in future years, this request seeks to increase the Recreation advertising line item by \$25,000 on a recurring basis. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation. Having sufficient staffing levels is essential to providing City services and having well maintained, well operated park and recreation facilities.

Activity: Administration

3 of 8

This improvement level request provides funding to continue the expansion of the scholarship program for the Leisure Services Department. Scholarships are offered to any Dubuque resident whose household qualifies based on income. The scholarships pay for any expense in the Recreation operating system such as registration fees, season passes, and facility rentals. In FY 2023, additional funding was identified elsewhere in the City Budget and approved to be reallocated to Recreation to increase the total number of scholarships available to families. This resulted in the department issuing over 300 scholarships of \$125 each to income-qualifying families. Additional FY 2023 year end savings in the Recreation Budget was then approved to be carried over into FY 2024 to not only increase the number of annual scholarships from 200 to 300, but also to increase the household allocation from \$125 to \$150. All of the funds that were reallocated to help with the scholarship program were done so on a one-time, non-recurring basis. This request for additional recurring funding in FY 2025 and beyond will allow the department to continue to offer 300 \$150 scholarships to income-qualifying families. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation. Providing scholarships to help residents participate in Recreation programming ensures that residents of varying socio-economic backgrounds can participate.

This package was requested as a recurring package for \$20,000 annually, however, this package is recommended as non-recurring for \$8,900.

Related Cost: \$ 8,900 Tax Funds Non-recurring **Recommend - Yes**

Activity: Administration

4 of 8

This improvement level request provides for the addition of \$2,200 in education funding for the Lead Administrative Assistant position. This position has not previously been provided with education funds. However, with the scope of responsibilities, this funding is necessary. These opportunities are not only for professional development, but also expand awareness and idea generation to improve service quality/delivery in equity and to meet the ever changing dynamic of programming for the community. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities. Providing staff with educational opportunities empowers staff to expand their knowledge, leading to Diverse Arts, Culture, Parks and Recreation.

Related Cost: \$ 2,200 Tax Funds Recurring **Recommend - No**

5 of 8

This improvement level request provides for a \$700 increase in education funding for two supervisor level positions and the addition of \$2,200 in education funding for the new Business Development Manager position. With the increase in travel costs and conference fees, this funding is necessary for the staff to attend high quality continuing education opportunities. These opportunities are not only for professional development, but also expand awareness and idea generation, to improve service quality and service delivery in equity, and to meet the ever changing dynamic of programming for the community. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities. Providing staff with educational opportunities empowers staff to expand their knowledge, leading to Diverse Arts, Culture, Parks and Recreation.

6 of 8

This improvement level request provides for the installation of a network switch at the McAleece Park. The Information Technology department recommended the installation of a network switch at the McAleece concessions stand to provide data access, therefore allowing for the concession stand operations to eliminate the old cash registers and utilize the RecTrac software, which is similar to the other point of sale facilities within the department. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities. Network switches ensure that parks and recreation facilities are well connected and equipped for all needs.

Related Cost: \$ 11,000 Tax Funds Non-Recurring **Recommend - Yes**
Property Tax Impact: \$ 0.0043 0.05%
Activity: Administration

7 of 8

This improvement level request provides for additional golf course revenues through a \$10 increase on all season passes. This increase in golf revenue will help offset rising operating costs. This request supports the City Council Goal of Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities. Ensuring the Golf program has sufficient financial resources ensures the sustainability of operations.

Related Revenue: \$ 1,960 Program Fees Recurring

Recommend - Yes

8 of 8

This improvement level request is from St. Mark. St. Mark provides safe places for kids in the greater Dubuque area with out of school learning programs offered for at-risk students, grades Kindergarten through 5th grade. These programs fill a gap for working families and students that are struggling with academic and social emotional skills. St. Mark is implementing large strategic shifts to strengthen and deepen the impact of programs while also working toward program sustainability. City of Dubuque funding will come at a critical time to build greater capacity within St. Mark to expand the impact of for student's education in the community with the following strategies:

St. Mark has expanded our partnership with the Boys and Girls Club to offer our after school programs on-site at the Club. This expansion of our partnership will add additional resources for our families; such as providing a hot dinner before they go home and connecting them to a program they can attend beyond 5th grade. This approach to centralizing our program will increase efficiency of staffing and allow greater ability to create positive environments for students to thrive. Transportation is a critical element in actualizing this new approach, and has added a new expense to this program.

Reaching More Students: St. Mark has also witnessed the growth in the need for after school programs and anticipates reaching 10 additional students in the 2024-2025 Dubuque after school program. The cost per student for an entire school year is \$4,000, which includes the costs of staffing, transportation costs, enrichment, materials, etc. In particular, increased staffing costs are the highest need for St. Mark's program. The success of these programs and achieving desired outcomes is dependent on having passionate, caring staff to build relationships with students and families.

Sustaining Outcomes & Knowledge: Overall increasing our capacity will deepen social emotional strategies, maintain positive program culture, and sustain knowledge or best practice training and certifications. Request is \$40,000

Related Cost: \$ 40,000 Program Fees Recurring

Significant Line Items

Employee Expense

1. FY 2025 employee expense reflects a 5.00% wage package increase.
2. FY 2025 employee expense reflects a large increase over FY 2024 due to multiple factors. Most significantly, approved staffing changes in the Marina activity resulted in some FTEs being

reclassified to higher pay ranges, which was not reflected in the FY 2024 original budget. Another factor is the number of employees receiving longevity and/or step increases has increased from FY 2024 to FY 2025. Lastly, the FY 2025 budget reflects a step increase correction for one position.

3. Since May of 2021, three separate wage increase packages for the Leisure Services department have been approved by the City Council. These packages have impacted all temporary employees in the Leisure Services department, most of them being in the Recreation Division. The three wage increases packages resulted in a collective cost increase of \$231,166 in the Recreation Division before considering any offsets. The FY 2024 budget was the first year where the three wage increases packages were included in the original budget. When the year ends, Fiscal Year 2024 will be the first year since the onset of the COVID-19 pandemic that the Recreation Division year end actual expenses will reflect a year of full operations.
4. The Iowa Public Employee Retirement System (IPERS) City contribution of 9.44% is unchanged from FY 2024. The employee contribution of 6.29% is unchanged from FY 2024.
5. The City portion of health insurance expense is unchanged from \$1,119 in FY 2024 to \$1,119 in FY 2025 per month, per contract, which results in the annual cost being decreased \$1 or 0.0%.
6. Five-Year Retiree Sick leave payout increased from \$11,598 in FY 2024 to \$11,608 in FY 2025.
7. Workers Compensation increased from \$26,568 in FY 2024 to \$32,554 in FY 2025. The FY 2023 actual was \$29,816.

Supplies & Services

8. Sales Tax expense increased from \$47,123 in FY 2024 to \$48,125 in FY 2025 based on the FY 2023 actual of \$39,942 and an estimated increase in department operations compared to FY 2023. The FY 2023 actual was low and not an accurate reflection of a full year of Sales Tax expenses due to not having both City pools open during that time, therefore, the FY 2025 budget is increased over the FY 2023 actual. Sales tax is collected on eligible goods and services sold through the Recreation department. The sales tax collected is then paid to the State of Iowa, therefore, the expense is directly off-set by the revenue collected.
9. Electricity increased from \$97,326 in FY 2024 to \$99,559 in FY 2025 based on the FY 2023 actual of \$84,620 and accounting for increased department operations compared to FY 2023. The FY 2023 actual was low and not an accurate reflection of a full year of electricity expenses due to not having both City pools open during that time, therefore, the FY 2025 budget is increased over the FY 2023 actual.
10. Natural Gas decreased from \$44,847 in FY 2024 to \$34,270 in FY 2025. The FY 2023 actual was \$23,472. The FY 2023 actual was low and not an accurate reflection of a full year of natural gas expenses due to not having both City pools open during that time, therefore, the FY 2025 budget is increased over the FY 2023 actual. In FY 2024, Flora pool received a heater upgrade (cost of \$46,380) resulting in both City pools achieving more efficient heating operations. Because of the expected heating efficiencies and associated cost savings, the FY 2025 budget reflects a decrease compared to FY 2024.
11. Building Maintenance increased from \$56,412 in FY 2024 to \$59,795 in FY 2025. The FY 2023 actual was \$58,324. This line item represents payments towards swimming pool maintenance, golf course grounds maintenance, marina maintenance, and maintenance at Allison Henderson and Comiskey parks.

12. Other Vehicle Operations is unchanged from \$130,000 in FY 2024 to \$130,000 in FY 2025 based on FY 2024 budget. This expenditure represents fuel sold to boaters at the Port of Dubuque Marina and is offset by \$212,625 in revenue from the sale of fuel.
13. Chemicals is unchanged from \$57,458 in FY 2024 to \$57,458 in FY 2025. The FY 2023 actual was \$64,386. This line item is utilized for golf course and pool maintenance. This line includes items such as chlorine and other water treatment chemicals, fertilizer, pesticides, and anti-fungal products. New filter systems have been installed at both pools, therefore, FY 2025 chemical costs for the pools are expected to decrease as a result of improved efficiency of the filter systems.
14. Food Products increased from \$49,694 in FY 2024 to \$52,770 in FY 2025 based on expected sales. The FY 2023 actual was \$47,537. The FY 2023 actual was low due to the Port of Dubuque Marina store being closed to the public and not having both pools open. This line item represents food sold at concessions at recreation facilities. This expense is offset by the revenue from sales of this product.
15. Beer Products increased from \$51,146 in FY 2024 to \$53,146 in FY 2025 based on current year sales. The FY 2023 actual was \$59,615. Beer sales at the Port of Dubuque Marina store have been trending downward, while McAleece beer sales have been trending upwards. This line item represents alcohol sold at Recreation facilities. This budget is offset by the revenue from sales of this product.
16. Credit Card Charges increased from \$30,871 in FY 2024 to \$33,099 in FY 2025 based on a three year average. The FY 2023 actual was \$35,298. This line item includes golf operations credit card charges based off 2.5% of revenue (\$16,590), Port of Dubuque dock credit card charges based on 2% of fuel sales (\$6,065), and administration credit card charges for program registrations (\$10,444).
17. Program Materials is unchanged from \$66,811 in FY 2024 to \$66,811 in FY 2025. This line item is for concession supplies, bases, basketballs, volleyballs, softballs, nets, first-aid supplies, trophies, community engagement in Rec & Roll events, equity training, teen support, supplies for Miracle League and new senior programs, scholarships, and other playground equipment.
18. Merchandise decreased from \$39,808 in FY 2024 to \$37,908 in FY 2025 based on current demand for special order through the golf course. The FY 2023 actual was \$22,678. The FY 2022 actual was \$37,308. This line item represents golf merchandise sold at the Bunker Hill pro shop and boat merchandise sold at the Port of Dubuque Marina store. This line item is variable and actual expenses depend on how much inventory is purchased. Large inventory purchases in one year can lead to smaller inventory purchases the next year. This budget is offset by the revenue from the Pro Shop sales, golf fee revenue, event revenue, and certificates. The Port of Dubuque Marina store was close due to the COVID-19 pandemic and staffing issues, but the store reopened for the summer of 2023. The merchandise inventory at the Port of Dubuque Marina store has been evaluated and reduced to focus on items that sell well.
19. Officiating Services decreased from \$26,870 in FY 2024 to \$22,320 in FY 2025. The FY 2023 actual was \$20,520. This line item is used to hire officiating services for softball and basketball leagues. There has been a decline in softball and basketball participation since the pandemic.
20. Pay to Other Agency increased from \$171,624 in FY 2024 to \$173,051 in FY 2025. This increase is due to reallocation of funding between accounts with in the Community Development Block Grant allocation for Recreation. This line item represents payments to local partners to provide equitable programs and unique experiences for low-income youth and underrepresented populations. These include, but are not limited to: Community Development Block Grant services

(\$51,427); ice rental (\$50,000); AmeriCorps Playground Programs (\$25,000); Hills and Dales Senior Center operating grant (\$25,000); Therapeutic Recreation off-site rentals (\$1,624); and Recreation Classes (\$20,000), which includes art improvements, Rising Stars, ballroom dance, karate, Montessori cooperative classes, and Dubuque County Extension contracted classes.

21. Instructors decreased from \$89,227 in FY 2024 to \$85,727 in FY 2025. The FY 2023 actual was \$61,840. The FY 2023 actual is lower than budget levels due to this line item including recurring funds for an improvement package related to arts programming that have not yet been utilized. With increased staffing levels and a rekindled partnership, those funds will be used going forward. This line item represents after-school sports coaches, sports camps, LEAP program, dance instructors, and other recreational class/program instructors. The decrease from FY 2024 to FY 2025 is due to no longer paying swimming instructors out of this line item.
22. Advertising is unchanged from \$25,935 in FY 2024 to \$25,935 in FY 2025. The FY 2023 actual was \$25,949. This line item represents print and digital marketing for recreational programs and staff recruitment and retention, events, and classes, brochures and mailings, and radio and print advertisements.
23. General Liability Insurance increased from \$70,148 in FY 2024 to \$74,582 in FY 2025 based on information received from Iowa Communities Assurance Pool (ICAP).
24. Vehicle Operations - Diesel is unchanged from \$27,000 in FY 2024 to \$27,000 in FY 2025 based on the FY 2024 budget. The FY 2023 actual was \$29,475. This line item represent the purchase of diesel fuel, which is then sold at the Port of Dubuque Marina and is also used for City machinery at Bunker Hill Golf Course.
25. Equipment Rental decreased from \$44,004 in FY 2024 to \$43,164 in FY 2025. The FY 2023 actual was \$49,543. This line items includes expenses for the rental of portable restrooms (\$1,500) and golf carts that are leased for a period of three years (\$41,664). The decrease in FY 2025 is due to renting fewer portable restrooms.
26. Technology Services increased from \$33,358 in FY 2024 to \$35,977 in FY 2025. The FY 2023 actual was \$35,168. This line item includes various softwares including RecTrac (\$30,480), Team Sideline (\$699), copier support (\$220), and internet service for Port of Dubuque dock WiFi (\$2,058). This increase is due to adding expenses for iPad data plans to be utilized for the forthcoming Tyler Time and Attendance payroll system (\$2,520).

Machinery & Equipment

27. Equipment replacement items include (\$104,010):

Recreation Machinery and Equipment	
Administration	
Security Camera	\$ 2,100
Smart Phone	\$ 350
Desk Phones (6)	\$ 1,260
Debris Blower	\$ 8,000
Line Trimmer	\$ 500
Tee Mower	\$ 32,000
Greens Mower	\$ 45,000
Recreation Classes	
Sound System	\$ 1,000
Therapy	
Sound System	\$ 2,800
Recommended Improvement Packages	\$ 11,000
Total Equipment	<u>\$104,010</u>

Debt Service

28. FY 2025 Annual debt service is as follows (\$14,511):

Amount	Debt Series	Payment Source	Purpose	Final Payment Year	Call Date
\$ 1,170	2021A (2012E) G.O.	Sales Tax 20%	Recreation Improvements	2028	2028
\$ 13,341	2021A (2014B) G.O.	Sales Tax 20%	Recreation Improvements	2034	2028
<u>\$ 14,511</u>	Total Recreation Annual Debt Service				

Revenue

29. Total revenue for Golf Operations and Maintenance increased from \$984,911 in FY 2024 to \$1,034,881 in FY 2025.

- Golf Cart Rentals increased from \$246,700 in FY 2024 to \$281,000 in FY 2025 based on the FY 2023 season. The FY 2023 actual was \$281,042.
- Golf Beer Sales is unchanged from \$126,810 in FY 2024 to \$126,810 in FY 2025. The FY 2023 actual was \$125,092.
- Golf Liquor Sales increased from \$37,670 in FY 2024 to \$43,000 in FY 2025 based on the FY 2023 actual of \$43,627.
- Beverage/Ice is unchanged from \$26,110 in FY 2024 to \$26,110 in FY 2025 based on the FY 2023 actual of \$24,492 plus projected changes.
- Pro Shop Sales is unchanged from \$65,000 in FY 2024 to \$65,000 in FY 2025. The FY 2023 actual was \$64,809.
- Golf Fees increased from \$393,652 in FY 2024 to \$397,274 in FY 2025 based on the number of rounds played and passes sold during FY 2023. The FY 2023 actual was \$395,368.

- g. Golf event revenue increased from \$38,000 in FY 2024 to \$43,000 in FY 2025. The FY 2023 actual was \$41,958.
30. Swimming revenue increased from \$302,072 in FY 2024 to \$333,491 in FY 2025. FY 2025 revenues reflect rate increases approved in the spring of FY 2024. Daily admission fees increase \$1.00, all other swimming rates increased 5%.
- a. Swimming Annual Passes decreased from \$73,834 in FY 2024 to \$61,359 in FY 2025. The FY 2023 actual was \$41,091. The FY 2023 actual is low and does not reflect full operations due to not having both pools open.
 - b. Flora Daily Fees increased from \$66,890 in FY 2024 to \$104,000 in FY 2025. The FY 2023 actual was \$74,630.
 - c. Sutton Daily Fees increased from \$22,610 in FY 2024 to \$40,500 in FY 2025. The FY 2023 actual was \$8,626, which was a low number due to Sutton pool not being open for all of FY 2023.
 - d. Pool Concessions decreased from \$51,000 in FY 2024 to \$32,340 in FY 2025 based on estimated gross sales at Flora and Sutton. The FY 2023 actual was \$27,321. Prior year actuals have never met budgeted levels, therefore, the FY 2025 budget was lowered to better reflect actuals.
 - e. Swim Lesson Registrations increased from \$66,412 in FY 2024 to \$76,856 in FY 2025 based on registration estimates. The FY 2023 actual was \$78,591.
31. Adult Athletics revenue increased from \$72,419 in FY 2024 to \$84,699 in FY 2025 and is based on FY 2024 participant numbers. FY 2025 revenues also reflect a 5% rate increases approved in the spring of FY 2024.
- a. Adult Athletics Registration/Entry Fee increased from \$63,885 in FY 2024 to \$75,511 in FY 2025 due to a continued increase in volleyball team registrations, and a slight rebound of softball team registrations.
32. Youth Sports Registration/Entry Fee revenue increased from \$50,123 in FY 2024 to \$53,015 in FY 2025 and is based on FY 2024 participant numbers. FY 2025 revenues also reflect a 5% rate increases approved in the spring of FY 2024.
33. Port of Dubuque Marina revenue increased from \$259,479 in FY 2024 to \$264,628 in FY 2025. FY 2025 revenues also reflect a 5% rate increases approved in the spring of FY 2024.
- a. Marina Fuel Sales is increased from \$202,500 in FY 2024 to \$212,625 in FY 2025. This line item is based on the expense budget. The FY 2023 actual was \$161,537.
 - b. Marina Dock Fees is increased from \$28,500 in FY 2024 to \$32,813 in FY 2025. This line item is based on the current year sales as well as the current interest in seasonal slip rentals. The FY 2023 actual was \$28,528.
 - c. Marina Beverage and Ice Sales decreased from \$5,775 in FY 2024 to \$3,465 in FY 2025. This decrease in revenue is offset in a decrease in the expense of purchasing inventory. The Marina store was reopened in May of 2023 with a more modest inventory due to inventory control. This line item is based on the current year's sales and a mark-up on the cost of the product. The FY 2023 actual was \$463 due to the store being closed to the public.

34. The following chart shows the history of property tax support for the Port of Dubuque Marina:

Port of Dubuque Marina Property Tax Support

***POD Marina opened June 2013**

-The decreases in property tax support funding in FY 17 through FY 19 reflects operational changes in staffing due to a frozen full-time Facilities Supervisor position, which was budgeted in the Marina and Recreation Administration activities. The Facilities Supervisor was replaced with temporary managerial staff.

-FY 20, FY 21, and FY 22 reflect a labor shortage with temporary positions, resulting in full-time staff supplementing the hours to maintain operations.

-The FY 24 Budget is based off full operations, including the vacant full-time position. The FY 25 budget is based off a better understanding of temporary staffing allocations, and the reallocation of the new full-time Business Development Manager out of the Marina activity and entirely in the Administration activity.

Miscellaneous

35. The FY 2025 percent self-supporting for the various Recreation Activities compared to FY 2024 percent self-supporting is as follows:

Activity	FY 2025	FY 2024
Adult Athletics	61.1 %	53.3 %
McAleece Concessions	119.3 %	138.2 %
Youth Programs	15.4 %	16.1 %
Therapeutic Recreation	18.2 %	22.2 %
Recreation Classes	50.8 %	49.4 %
Swimming	44.6 %	45.8 %
Golf	98.4 %	102.7 %
Port of Dubuque Marina	79.6 %	65.3 %

LEISURE SERVICES RECREATION DIVISION

LEISURE SERVICES RECREATION DIVISION Port of Dubuque Marina

Mission & Services

The Port of Dubuque Marina is a 78-slip transient marina drawing visitors to Dubuque from as far North as Minneapolis, Minnesota, as far South as Fort Lauderdale, Florida and many places in-between. The marina operates as a hotel on water, providing visiting boats with dock space, electricity, clean showers, laundry, guest Wi-Fi and concierge service from staff. From the marina, visitors are within walking distance of dining, lodging, a casino, shopping, entertainment, the National Mississippi River Museum & Aquarium and Dubuque's Mississippi Riverwalk. The marina amenities building operates as the guest check-in desk for visiting boaters, as well as a convenience store along the river.

CITY of DUBUQUE, IOWA
RESIDENT'S GUIDE
to the
RECOMMENDED
FISCAL YEAR 2025 Budget

CITY MISSION STATEMENT

Dubuque city government is progressive and financially sound with residents receiving value for their tax dollars and achieving goals through partnerships. Dubuque city government's mission is to deliver excellent municipal services that support urban living; contribute to an equitable, sustainable city; plan for the community's future; and facilitate access to critical human services.

2038 VISION STATEMENT

Dubuque 2038 is a sustainable and resilient city, an inclusive and equitable community where ALL are welcome. Dubuque 2038 has preserved our Masterpiece on the Mississippi, has a strong, diverse economy and expanding connectivity. Our residents experience healthy living and active lifestyles; have choices of quality, affordable, livable neighborhoods; have an abundance of diverse, fun things to do; and are successfully and actively engaged in the community.

GOVERNMENT FINANCE OFFICERS ASSOCIATION

*Distinguished
Budget Presentation
Award*

PRESENTED TO

**City of Dubuque
Iowa**

For the Fiscal Year Beginning

July 01, 2023

Christopher P. Morill

Executive Director

Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to City of Dubuque, Iowa, for its Annual Budget for the fiscal year beginning July 1, 2023. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as a financial plan, as an operations guide, and as a communications device.

This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

This City of Dubuque has been awarded this honor for the past 18 years in a row.

CITY MANAGER'S BUDGET MESSAGE

BUDGET INTRODUCTION

Attached for your review is the Fiscal Year 2025
Recommended Budget.

The Budget and Fiscal Policy Guidelines are developed and adopted by City Council early in the budgeting process in order to provide targets or parameters within which the budget recommendation is to be formulated.

The budget recommendation presented by the City Manager may not meet all of these targets due to changing conditions and updated information during budget preparation. To the extent the recommended budget varies from the guidelines, an explanation is provided following the Budget Transmittal Message.

The following Fiscal Year 2025 Budget Transmittal Message is written in February as recommended by the City Manager to the Honorable Mayor and City Council.

A series of Budget Hearings take place following the presentation of the recommended budget, to allow for public input and analysis.

***This budget was presented on March 25, 2024
to the Honorable Mayor and City Council.***

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

SUBJECT: Fiscal Year 2024 Recommended Budget

DATE: March 22, 2024

It is my goal that the Fiscal Year (FY) 2025 budget recommendation will reflect the City Vision and Mission Statements as established by the Mayor and City Council and be responsive to the goals and priorities established by the Mayor and City Council in their August 2023 annual goal setting session. To enable staff to finalize the recommended budget, the City Council must first set the maximum property tax levy for FY2025 on March 7, 2024.

In August 2024 the Mayor and City Council met for their annual three-day strategic planning session and established the following:

2023 Vision Statement

Dubuque 2038 is a sustainable and resilient city, an inclusive and equitable community where ALL are welcome. Dubuque 2038 has preserved our Masterpiece on the Mississippi, has a strong, diverse economy and expanding connectivity. Our residents experience healthy living and active lifestyles; have choices of quality, affordable, livable neighborhoods; have an abundance of diverse, fun things to do; and are successfully and actively engaged in the community.

Mission Statement

Dubuque city government is progressive and financially sound with residents receiving value for their tax dollars and achieving goals through partnerships. Dubuque city government's mission is to deliver excellent municipal services that support urban living; contribute to an equitable, sustainable city; plan for the community's future; and facilitate access to critical human services.

Five-Year Goals: 2023-2025

- a. **Vibrant Community:** Healthy and Safe
- b. **Financially Responsible, High-Performance City Organization:** Sustainable, Equitable, and Effective Service Delivery
- c. **Robust Local Economy:** Diverse Businesses and Jobs with Economic Prosperity
- d. **Livable Neighborhoods and Housing:** Great Place to Live
- e. **Sustainable Environment:** Preserving and Enhancing Natural Resources
- f. **Connected Community:** Equitable Transportation, Technology Infrastructure, and Mobility
- g. **Diverse Arts, Culture, Parks, and Recreation Experiences and Activities**
- h. **Partnership for a Better Dubuque:** Building Our Community that is Viable, Livable, and Equitable

2023-2025 Top Priorities (in alphabetical order)

- a. Air Service: Future Strategy & Action Plan
- b. City Workforce Retention & Attraction
- c. Comprehensive Study of Fire Station Locations and Staffing
- d. Police Department Full Staffing
- e. Street Maintenance & Rehabilitation Program

2023-2025 High Priorities (in alphabetical order)

- a. Bee Branch Detention Basin Pump Replacement
- b. Catfish Creek Sanitary Sewer Project Pump Station
- c. Central Avenue Corridor Revitalization Plan
- d. Leveraging Federal & State Infrastructure Grant Programs
- e. RAISE Grant & Matching Funds for Construction (14th St. Railroad Overpass and Elm St. and 16th St. Corridor Complete Streets)

In March 2020 when the world shut down, the City of Dubuque's employees rose to the occasion and met the moment. We are so fortunate that the people who have chosen to come to work for the City of Dubuque understand that empathy is the glue that holds together a civil society. Recognizing the value of our current city workforce and the need to continue to recruit talented and committed employees the City Council chose as a top priority, "City Workforce Retention and Attraction." While this has been a consistent challenge since the pandemic across the city organization, the problem has been especially acute in the Police Department with a consistent vacancy rate of about 15 police officers.

This budget recommendation is built on:

1. City Council Goals & Priorities
2. Major Capital Improvement Projects
3. Leveraging Federal and State Grants
4. Public Safety
5. Streets

The prudent financial management by the Mayor and City Council is being recognized. Moody's Investors Service has upgraded the City of Dubuque, IA's issuer rating and outstanding general obligation bonds to Aa2 from Aa3, as well as its outstanding moral obligation SalesTax Increment Revenue Bonds, Senior Bond Series 2015A to A1 from A2.

The issuer rating was upgraded to Aa2 because the city has strong financial operations and ample revenue-raising flexibility, which has resulted in steadily improved available fund balance and cash. The city serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years. The city's local economy is likely to remain strong because of its mix of commercial and industrial industries, stable population and steady tax base growth. Resident wealth and income ratios are a little below rated peers, in part because of a large student population. Leverage is elevated and could grow further because of outstanding capital needs.

Fortunately, Dubuque is outperforming most of our peers across the state of Iowa and the Midwest. As you can see in the chart, the city has climbed out of a decades long hole, achieving growth that few other Midwest communities have experienced. To maintain and accelerate this momentum there must be continued investment. The good news for the city is that the federal government has decided to be a financial partner with local governments to spur growth and investment and the City of Dubuque is competing for those grant opportunities.

Reviewing the 5 year goals (2022-2027) for the Greater Dubuque Development Corporation (GDDC) you can see significant progress is being made. This is especially true in the areas of increasing Median Household Income and Construction Investment.

Median Household Income has increased from \$68,198 in 2021 to \$73,495 in 2023 (\$5,297, 7.8%).

The GDDC target for Construction Investment is \$1 billion by 2027 and only 18 months into the 5 year plan the amount of investment in Dubuque County alone is over \$400 million. At this pace the amount of investment over 5 years could hit \$1.4 billion in Dubuque County, and far exceed that total on a regional basis.

The Office of Shared Prosperity and Neighborhood Services reports that progress is being made on poverty prevention and reduction and Dubuque is again outperforming our peer cities in the State of Iowa, though the reduction of direct federal assistance to families caused a slight poverty uptick in 2022:

2018 and 2022 Poverty Rates by City

Percent Change in Poverty Rate 2018-2022

Cost Increases

Supply chain issues and rising prices for fuel, vehicles, equipment, construction materials, electronics, and more are impacting the operating expenses of many City departments. Like the private sector, the City is also facing significant challenges in filling staff vacancies and new positions as Iowa's workforce crisis continues to manifest itself through record low unemployment and significant employee turnover.

To enhance the City's employee retention and recruitment efforts and to respond to core inflation, I am recommending that non-bargaining unit employees receive a 5% wage increase. The Dubuque Police Protective Association (DPPA) 5 year contract was recently approved with a 5% wage cost in FY25. The City is still negotiating new agreements with the Operating Engineers and the Dubuque Professional Firefighters. The two Teamster unions have one more year on their contracts at a 3 % increase in FY25.

Non-bargaining unit employees (bargaining unit employees are generally similar) have averaged a **2.275%** annual wage increase over the last 10 years (FY2015-FY2024), including no wage increase in FY2021 at the beginning of the pandemic. The change in the Consumer Price Index over that 10 year period (calendar years 2014-2023) was **2.685%**.

Community Safety

In the area of public safety, the City will add two positions to the Fire Department, in addition to the ten positions that have been added over the last few years. There will also be a replacement of 4 major pieces of equipment at a cost of over \$2 million. This further enhances a Fire Department that, as an Insurance Services Office Class II Fire Department, is ranked in the top 3% of the over 48,000 Fire Departments in the United States. The Dubuque Fire Department is one of less than 300 Fire Departments internationally to receive accreditation by the Commission on Fire Accreditation International. It is no wonder that when asked to rate all of Dubuque's public services for 2020-2021, local CEOs, business owners, and top managers rated Dubuque's fire service #1 and its ambulance service #2. Using a scale with 1 being low and 7 high, the fire service scored an average of 6.36 and ambulance 6.19.

The City will also continue the aggressive deployment of security cameras, which is being made easier as ImOn Communications has committed to deploying fiber optic cable across the entire Dubuque community over the next three years with the goals of serving every home and business with fiber optics. The City Council approved in 2023 technology to police force multipliers with Automated Speed Enforcement and Automated License Plate Readers.

The City is committed to aggressively filling the many vacancies in the Police Department triggered, in part, by the hiring freeze during the economic crisis caused by the pandemic. The 6% wage increase in FY24 and the 5% wage increase in FY25 and the midyear pay boost for command staff will help with retention and recruitment.

The City and Dubuque County are partnering on two important projects. The first is a 50/50 split on the \$5 million in costs to move the 911 Emergency Communications Center to a new facility, and a 50/50 cost split on the \$3 million to replace the Police, Fire, 911, and Sheriffs Office operating software.

Road and Infrastructure

Following the opening of the Southwest Arterial in 2020, the opening of the new Highway 20 interchange at Swiss Valley Road in 2021, the reconstruction of Chavenelle Road, the reconstruction of North Cascade Road, the resurfacing and reconstruction of the Northwest Arterial, and the resurfacing of over 5 miles of streets by Public Works crews in 2023, the City will be further pursuing street improvements.

The Iowa Department of Transportation is beginning to study the eventual full reconstruction of the intersection of Highway 20 and the Northwest Arterial, including the closure of the southern leg of the intersection, to greatly improve traffic flow. They have submitted an over \$15 million project to the IDOT commission for consideration which includes an over \$5 million local match.

The City received a grant for an over \$3 million planning effort and has submitted an over \$37 million federal infrastructure grant application in 2024 to build a railroad overpass at 14th Street and improvements to Elm Street and 16th Street, with multiple intersection improvements all in the complete streets format.

In partnership with the US Army Corps of Engineers, the City will be improving the Mississippi River floodwall in the South Port of Dubuque to better protect the sanitary sewer force main from river traffic accidents.

The City will spend approximately \$50 million to improve the Catfish Creek Sanitary Sewer Shed, replacing and upsizing much of the 70-year-old sanitary sewer system and adding a major sanitary sewer lift station. This will allow the City to further eliminate polluting sanitary sewer overflows and be prepared for future growth to the West. The goal is to be eligible for tens of millions of dollars in federal infrastructure dollars to support this project.

The City will also be spending almost \$6 million to replace over 500 private lead service lines with a 49% Iowa Finance Authority forgivable loan program to assist low-income residents, with the 51% balance being absorbed by the City.

Economic Development

The City will be investing in the downtown, the Central Avenue corridor, the West End industrial parks, and improving Schmitt Island access.

The CIP includes over \$23 million to complete Five Flags Building improvements.

One dramatic success story for the Mayor and City Council is addressing the need for additional housing options. In 2022, the Greater Dubuque Development Corporation conducted a study that showed the City of Dubuque was short over 1,000 housing units. At the same time population growth is a top priority with a huge demand for workforce.

The Mayor and City Council adopted financial incentives in the summer of 2022 to encourage housing development. **The City of Dubuque currently has over 2,300 developable single family lots and multi-unit residential rental units that have either been completed, are under construction, or have been approved for development.**

Improved Customer Service

A significant customer service enhancement has been the move to automated collection of refuse carts. This will not only increase customer convenience, but it will improve the appearance of neighborhoods. The City refuse collection employees are currently required to handle people's trash, exposing them to fleas, bedbugs, viruses, and germs. They are also required to exit and enter the vehicle almost 700 times each day, over 3,000 times a week, and over 170,000 times a year. This is even in the winter, risking slipping on the ice and snow and constantly battering their feet, ankles, knees, hips and back.

Identifying and Funding Important Initiatives to Support Employees

In FY24 the Mayor and City Council approved the addition of some new City positions in the organization to advance important initiatives and meet existing needs. In FY2023, the City Council approved through amendment two new positions in the Human Resources Department and a Project Manager position in Leisure Services.

During the FY 2023 budget process the following recurring improvement packages creating new positions was approved:

- a. Full-Assistant FBO Supervisor at the Airport to ensure supervisory coverage for the Fixed Base Operations (FBO).
- b. Full-Time Secretary in AmeriCorps to assist as part of the creation of the new division.
- c. Full-Time Secretary in City Clerk's Office to serve as the main point of contact for all public inquiries.
- d. Full-Time Climate Action Coordinator in the City Manager's Office dedicated to implementing the 50% by 2030 Community Action and Resiliency Plan.

- e. Full-Time Grant Analyst in the City Manager's Office to address the continued need for grant management.
- f. Full-Time Public Safety Dispatcher in the Emergency Communication to cover forty hours of current part-time hours.
- g. Full-Time Utility Locator in Engineering to address the growing demand for locating buried City utilities.
- h. Seasonal Business Administration Intern in Engineering to assist the administrative staff with an ever-growing workload.
- i. Seasonal OSHA Intern in Engineering to update and customize the current department Construction Safety Manual.
- j. Seasonal Broadband Intern in Engineering to assist Traffic Operations Center staff with populating a database of broadband infrastructure.
- k. Seasonal Finance Intern to assist with large projects and ongoing work.
- l. Four Full-Time Firefighters to increase the number of personnel per shift, resulting in the ability to increase minimum staffing to 24 personnel each day, thereby staffing a third full-time ambulance crew.
- m. Three Full-Time Firefighters in increase the available personnel to cover various leave requirements and help reduce the need for overtime.
- n. Full-Time Confidential Account Clerk in Housing to help with administrative duties of the department.
- o. Full-Time Help Desk Technical Support in Information Services to provide assistance for the implementation of e-mail for additional uses, help in implementation of MFA for all, help address the need for backlog of service request tickets, aid in monthly on-boarding for technology additional WebQA user and backend support.
- p. Full-Time User Technology Specialist in Information Services to provide ERP support.
- q. Full-Time Chief Security Officer in Information Services to help improve cybersecurity, manage the on-going complexity of threats, and manage the network infrastructure (fiber, switches, routers).
- r. Full-Time maker Space Assistance at the Library to provide full-time coverage for Maker's Space.
- s. Full-Time Patrol Officer in Police added as part of the 20 officers by 2022.
- t. Seasonal Community Resource Officers in Police to help continue the success the program has had in both the value to the public and as a recruiting tool for the department.
- u. Full-Time Sanitation Driver in Public Works added due to the increase in lane miles to plow and employee turnover rate.
- v. Part-Time Secretary in Public Works added to help with coverage issues during lunch, vacation, and sick leave.
- w. Full-Time Landfill Equipment Operator in Public Works to support operations in the Agency's Regional Collection Center.
- x. Four Full-Time Bus Operators in Transportation Services to minimize employee turnover, associated, cost, and offer more consistency in schedules for residents.

In the FY2024 budget, the following personnel additions were made:

- a. two Police Officer positions were approved as part of the crisis intervention team and enhancements to the Secondary Responder Model.
- b. at the Fire Department, there was addition of a Firefighter position and an additional Administrative Assistant.
- c. In 911 Emergency Communications, there was the addition of a full-time Dispatcher position.
- d. at the Airport, more Fixed Based Operator Line Service hours
- e. in Housing, elimination of a part-time position and creation of a full-time Combination Inspector.
- f. an additional 910 hours of site supervision at the Multicultural Family Center.
- g. a new full-time Confidential Account Clerk in Leisure Services.
- h. upgrade of a part-time Circulation Lead Library Assistant to a full-time position at the Library.
- i. a Data Scientist position in Public Works.
- j. a part-time AmeriCorps Position in the Engineering Department.
- k. two intern positions in the Engineering Department,
- l. a full-time Water Distribution Maintenance Worker in the Water Department,
- m. elimination of a Water Meter Repair Worker.

- n. creation of a Water Meter Foreman position in the Water Department.
- o. the creation of the position of Assistant Water and Resource Recovery Manager position.
- p. creation of the Industrial Pretreatment Coordinator position at the Water and Resource Recovery Center.
- q. creation of a part-time intern position in the Public Works Department.

After approval of the FY24 budget there were other personnel changes as follows:

- a. added a civilian Fire Inspector
- b. Transportation added Laborer +1.0 FTE; eliminated part-time Laborers -0.55 FTE; increased Dispatcher from 0.1 FTE to 0.5 FTE; added 0.34 FTE to the Parking Meter Checker.
- c. Engineering added Engineering Technician +1.0 FTE; eliminated Lease Management Intern -0.25 FTE; added Confidential Account Clerk +1.0 FTE, three limited term Engineering Intern positions ended -0.32 each.
- d. Water & Resource Recovery Center had the addition of Maintenance Supervisor 0.25 FTE.
- e. Public Works eliminated Assistant Public Works Director -1.0 FTE; added Fleet Maintenance Procurement Specialist +1.0 FTE; eliminated Stock Clerk -1.0 FTE; part-time Administrative Assistant was changed to full-time +0.33 FTE; added Field Supervisor +1.0 FTE.
- f. Office of Prosperity and Neighborhood Support part-time Administrative Assistant was moved to full-time +0.34 FTE.
- g. Public Information Office eliminated Communications Assistant -0.50 FTE; added Communications Assistant +1.0 FTE. Airport eliminated Marketing Coordinator -0.70 FTE.
- h. The Finance Department eliminated Finance Director -1.0 FTE; eliminated Budget Director -1.0 FTE; added Finance Manager +1.0 FTE; added Budget Manager +1.0 FTE; eliminated Budget/Financial Analyst -1.0 FTE; eliminated Accountant -1.0 FTE; added Payroll Systems Analyst +1.0 FTE; added Project Manager 0.50 FTE, added Finance Intern positions 1.50 FTE.

In the FY25 budget, I am recommending the addition of 2 full-time positions in the Fire Department. There is an additional Captain to serve as a Field Training Officer/Safety Officer and a Bureau Chief position in EMS.

This will bring the City FY2025 full-time equivalent employee compliment to 776.22.

Opportunities for Grants and Forgivable Loans

The Biden Administration has successfully passed a large infrastructure bill, the Infrastructure Investment and Jobs Act, the Inflation Reduction Act, and is also showing success at increasing funding to individual federal departments and grant programs. Additionally, the Biden Administration has sent billions of dollars to the states for Governors to fund programs, some of which will lead to local government grant opportunities. This is creating a short window of time where communities across the country will be able to compete for grants and forgivable loans to fix age-old problems and to create new growth opportunities. The challenge will be to get these projects ready to compete for these grants and to identify a source for matching collars to be eligible for the grants. For instance, the Iowa Finance Authority (IFA) now offers low interest State Revolving Fund (SRF) loans at very low interest rates. With the new programs, up to 50% of those loans will be forgivable and IFA is creating a 90% forgivable loan program to replace lead water services lines.

The City of Dubuque has had tremendous success pursuing federal and state grants and now there are more opportunities than ever before. To be competitive for grants the City must invest in making projects "shovel ready" and must be prepared to budget for the local match required to receive the grants. While this is expensive for the city the benefits to the community by having important projects completed with mostly federal and state dollars is tremendous.

Teri Goodmann is the City of Dubuque Director of Strategic Partnerships. She is assisted by Technical Grant Analyst/Assistant Justin Thiltgen, Administrative Assistant Anne Schreyer and a host of other city employees and not-for-profit partners. Over the last 25 years the City has received or partnered with others to receive close to one billion dollars of Federal and State grants.

The City Manager's staff in the Office of Strategic Partnerships work to assist our city departments, community partners, and non-profits seek competitive grant funding at the state and federal levels. Other work includes advocacy for the city with county, state and federal elected officials and staff.

Specifically, staff in the Office of Strategic Partnerships coordinate the Dubuque community's efforts to secure federal funds available through the American Rescue Plan Act (ARPA), Bipartisan Infrastructure Law (BIL), and the Inflation Reduction Act (IRA) as well as state and private grant opportunities.

Much of the current work focuses on the historic number of grant opportunities available to local governments by the Biden Administration, including direct funding assistance through ARPA. All federal grants require a specific focus on resiliency and equity. The City's efforts are grounded in a series of three (3) community wide engagement sessions held by the City of Dubuque which outlined and explained the opportunities in the American Rescue Plan Act (ARPA), Bipartisan Infrastructure Law (BIL) and the Inflation Reduction Act (IRA). As a result of these civic discussions, City staff and community partners were prepared and organized to maximize the city's & community's chances to receive the greatest possible share of these recovery and reinvestment dollars.

Staff continue to convene and engage monthly, having included city staff and more than 180 individuals from more than 20 local organizations to identify, apply for, and secure grants to address local needs. As part of this process, staff continues to work with numerous community non-profit leaders to help them identify funding opportunities.

To understand the breadth of these efforts, consider all the Grant Topic Teams that have formed under staff leadership. There are over 30 teams specializing in different areas which include: Arts & Culture, Broadband Growth, Brain Health, Brownfield Revitalization, Child Care, Disaster Mitigation, Domestic Violence Prevention, Economic/Downtown Development & Historic Preservation, Education, Emergency Communications, Energy Infrastructure, Equity, Food & Food Systems, Health & Wellness, Housing, Immigration, Job Training, Law Enforcement & Diversion, Lead Service Line Replacement, Parks, Recreation, and Trails, Partnership on Nutrient Runoff, Surface Transportation, Sustainability, Transit Infrastructure, and Water Infrastructure.

Through tracking and analysis of grant data received by the City of Dubuque, its many partners, and community organizations, we can capture some of the impact of funding on the City of Dubuque and the broader community.

ARPA Funding

To City of Dubuque:

- a. Dubuque Regional Airport was awarded a grant from the Iowa Department of Transportation (IDOT) - Iowa Commercial Aviation Infrastructure Fund (ICAIF) for the construction of box hangar \$2,800,000.
- b. Dubuque Regional Airport received a grant from the Federal Aviation Administration (FAA) for Terminal & Airfield Improvements (+ solar array) \$1,300,000
- c. The Green & Healthy Homes program received funding from the U.S. Department of Housing and Urban Development (HUD) Healthy Homes Production Grant Program to identify and address health and safety hazards in low-income families' homes \$2,000,000.
- d. The Jule received a grant from the United States Department of Transportation (USDOT) to help with the Jule EV Implementation Project (Match/Joint Funds for Add. Project) \$1,073,000
- e. AmeriCorps received an AmeriCorps Partners in Learning Grant from the Iowa Commission on Volunteer Service for AmeriCorps Program Expansion \$282,006
- f. City of Dubuque - Five Flags were awarded a Shuttered Venue Operators Grant (SVOG) for economic recovery due to Covid-19 pandemic \$241,387.
- g. AmeriCorps was granted an AmeriCorps Creating Opportunities Grant from the Iowa Commission on Volunteer Service for AmeriCorps Program Expansion \$204,696
- h. The Dept. of Economic Development received American Rescue Plan Grants for Organizations from the Iowa Arts Council for a Communications and Grants Administration Assistant \$7,500
- i. The Dept. of Economic Development received funds from the Arts & Culture Marketing Grant (CARES Act) from the Iowa Arts Council for Communications Campaign/DBQ Arts & Culture Sector \$15,000

To Partners:

- a. Riverview Center received a Transitional Housing Assistance Grant from the Office on Violence Against Women, Dept. of Justice \$575,000
- b. 374 local businesses received Economic Injury Disaster Loans & Grants (EIDL) from the US Small Business Administration (SBA) \$19,805,500
- c. 30 local businesses received Restaurant Revitalization Funds (RRF) from the US Small Business Administration (SBA) \$4,240,794
- d. PHOENIX THEATRES DUBUQUE, LLC received a Shuttered Venue Operators Grant (SVOG) from the US Small Business Administration (SBA) \$989,658
- e. Dubuque County Historical Society received a Shuttered Venue Operators Grant (SVOG) from the US Small Business Administration (SBA) \$940,247
- f. Legion-Aires Drum and Bugle Corps received a Shuttered Venue Operators Grant (SVOG) from the US Small Business Administration (SBA) \$696,794
- g. The Grand Opera House received a Shuttered Venue Operators Grant (SVOG) from the US Small Business Administration (SBA) \$180,492
- h. Bell Tower Productions received a Shuttered Venue Operators Grant (SVOG) from the US Small Business Administration (SBA) \$72,335
- i. Dubuque Symphony Orchestra received a Shuttered Venue Operators Grant (SVOG) from the US Small Business Administration (SBA) \$62,087
- j. Dyersville Field of Dreams received a grant from the Iowa Economic Development Authority (IEDA) | Destination Iowa for Tourism & Economic Development (Stadium) \$12,500,000
- k. Dyersville Field of Dreams received a Tourism & Economic Development grant from Iowa's Water Infrastructure Fund (WIF) for Water Infrastructure & Connectivity \$11,000,000
- l. Cottingham & Butler, Inc. received a grant from Future Ready Iowa | 2022 Child Care Business Incentive Infrastructure and Slots Awards for the Cottingham & Butler Project Stork (182 new slots) \$3,000,000
- m. Dubuque Initiatives received a grant from Future Ready Iowa | 2022 Child Care Business Incentive Infrastructure and Slots Awards for the Dubuque Industrial Center West Multi-Employer Childcare Center Project (120 new slots) \$2,154,800
- n. Hills and Dales received a grant from the Iowa Economic Development Authority's (IEDA) Nonprofit Innovation Fund for the Autism Center for Youth \$1,250,000
- o. Dubuque/Jackson Counties Habitat for Humanity received a 2022 State HOME Grant from the Iowa Finance Authority (IFA) \$1,066,895
- p. Holy Family Catholic Schools: Saint Joseph the Worker Early Childhood received a grant from Future Ready Iowa | Child Care Challenge for Child Care Slots (creation/opening) \$850,000
- q. Dubuque Dream Center received a grant from Future Ready Iowa | Child Care Challenge for Child Care Slots (creation/opening) \$750,000
- r. Holy Family Catholic Schools: Holy Ghost Early Childhood Center received a grant from Future Ready Iowa | Child Care Challenge for Child Care Slots (creation/opening) \$750,000
- s. Hirshbach Motor Lines, Inc. received a grant from Future Ready Iowa | Child Care Challenge for Child Care Slots (creation/opening) \$630,000
- t. Romper Room Child Care Center received a Future Ready Iowa | Child Care Challenge grant for Child Care Slots (creation/opening) \$452,591
- u. Holy Family Catholic Schools: Our Lady of Guadalupe Early Childhood received a Future Ready Iowa | Child Care Challenge grant for Child Care Slots (creation/opening) \$345,000
- v. The Dept. Of Economic Development was awarded a grant from the Iowa Dept. of Cultural Affairs for Community Initiatives & Creative Projects \$205,000
- w. Voices received a grant from the Iowa Economic Development Authority (IEDA) for Accessible Restrooms \$100,000
- x. Aspire Home Daycare LLC received a Future Ready Iowa | Child Care Challenge grant for Child Care Slots (creation/opening) \$78,300
- y. Crescent Community Health Center received a grant from the Iowa Cancer Consortium for a Community Health Worker \$75,000
- z. Four Mounds Foundation received a grant from the Future Ready Iowa | 2022 Employer Innovation Fund for Job & Skills Training \$50,000
- aa. Friends of St. Mary's were awarded a grant from the Future Ready Iowa | 2022 Employer Innovation Fund for Job & Skills Training \$50,000

- ab. Stonehill Franciscan Services received a grant from the Future Ready Iowa | 2022 Employer Innovation Fund for Job & Skills Training \$46,000
- ac. Mercy Health Services-Iowa, Corp. received a grant from the Future Ready Iowa | 2022 Employer Innovation Fund for Job & Skills Training \$44,760
- ad. Heritage Works received an American Rescue Plan Humanities Grant for Heritage Works Job Support \$18,000
- ae. Dubuque County Historical Society received an American Rescue Plan Humanities Grant for the Mathias Ham Historic Site Programs and Expanded Marketing Campaign \$18,000
- af. Hills and Dales Child Development Center received a grant from the Future Ready Iowa | 2022 Employer Innovation Fund for Job & Skills Training \$16,165
- ag. Julien Dubuque International Film Festival was granted an American Rescue Plan Arts Grant – Organizations for JDIFF Contract Position Support \$15,000
- ah. Dubuque Museum of Art received an American Rescue Plan Arts Grant – Organizations to Diversify engagement, build equity, add capacity \$15,000
- ai. Heritage Center received an American Rescue Plan Arts Grant – Organizations for 2021-22 Live at Heritage Guest Artist Fee Subsidy \$10,000
- aj. Grand Opera House received an American Rescue Plan Arts Grant – Organizations for Contracted Artists \$7,500
- ak. Bell Tower Theater was awarded an American Rescue Plan Arts Grant – Organizations for Artist Stipends \$7,500
- al. Creative Adventure Lab, Inc. received an American Rescue Plan Arts Grant - Organizations for Supporting Staff and contract artists \$7,500.
- am. Dubuque Symphony Orchestra received an American Rescue Plan Arts Grant – Organizations for Dubuque Symphony Orchestra Holiday Concert \$7,500
- an. Aspire Home Childcare Network received a grant from the Future Ready Iowa | 2022 Employer Innovation Fund for Job & Skills Training \$5,800
- ao. Ellyn Holzhuter Daycare received a grant from the Future Ready Iowa | Child Care Challenge for Child Care Slots (creation/opening) \$5,621
- ap. Thomasin Ringler received an American Rescue Plan Arts Grant – Artists for Mammalia Series/ Public Metal Pours/Studio Exhibit \$5,000
- aq. Laura Konecne received an American Rescue Plan Arts Grant – Artists for Sculptural Pachypodium Vessels \$3,500
- ar. Northeast Iowa School of Music was awarded an American Rescue Plan Arts Grant – Organizations for Office Manager and Business Manager Support \$3,500
- as. Gail Chavenelle received an American Rescue Plan Arts Grant – Artists for Website for the Future \$2,500
- at. Amy Dunker received an American Rescue Plan Arts Grant – Artists for Rising Strong \$2,500
- au. Samantha Hilby-Beck was awarded an American Rescue Plan Arts Grant – Artists for Reengagement of Emerging Artist & Arts Educator \$2,500
- av. Dubuque Chorale received an American Rescue Plan Arts Grant – Organizations for Artistic Stipends for Two Piano Accompanists \$2,500
- aw. Rising Star Theatre Company received an American Rescue Plan Arts Grant - Organizations for Contracted Artists for 2021 Summer Programming \$2,000

BIL Funding

To City of Dubuque:

- a. 2022 RAISE Infrastructure Planning Grant from the United States Department of Transportation (USDOT) for 16th Street Overpass & Corridor, Elm Street Complete Streets, & Roundabouts \$2,280,000
- b. Dubuque Regional Airport was awarded a grant from the United States Department of Transportation (USDOT – FAA) for Solar Panels & Improvements with the General Aviation Terminal \$413,350
- c. Dubuque Metropolitan Area Transit was awarded a Safe Streets for All grant from the United States Department of Transportation (USDOT) for transportation safety planning \$394,186.
- d. The Transit Department was awarded a Low- or No-Emissions Bus Program (Second Round) grant from the United States Department of Transportation (USDOT) for EV Buses & Charging Station & Solar Panels \$2,359,072

- e. The Transit Department was awarded a US Dept. Of Transportation (USDOT) Areas of Persistent Poverty grant to study and analyze the Jule Services & Route Optimization \$225,000
- f. Dubuque Regional Airport was awarded an Airport Infrastructure Grant from the US Dept. Of Transportation (USDOT – FAA) for Reconstruction of the outdated transient aircraft parking apron \$2,600,000

IRA Funding

To City of Dubuque:

- a. The Dept. of Leisure Services was awarded a U.S. Dept. Of Agriculture (USDA) – Urban & Community Forestry Grant (UCF) IRA Grant to strengthen the city's tree canopy in the most vulnerable and historically disinvested census tracts. \$1,499,978

Misc. Regular Appropriations

To City of Dubuque:

- a. The City Planning Dept. received a grant from the Iowa Dept. of Cultural Affairs - Historical Resource Development Program for Dubuque's Black Heritage Survey \$30,000
- b. The City received a grant from the Iowa Finance Authority (IFA) Destination Iowa for the development of a Chaplain Schmitt Island Amphitheater \$3,000,000
- c. Received a grant from the Iowa Economic Development Authority/Iowa Tourism's Travel Iowa Partnership Program for Communications Campaign/DBQ Arts & Culture Sector \$10,000
- d. Received a grant from the United States Department of Transportation (USDOT) Via Community Project Funding (CPF) for Chaplain Schmitt Island Trail Connection \$615,000
- e. Local Arts Agencies for Subgranting Local Arts Agencies for Subgranting National Endowment for the Arts - Regular Appropriations \$500,000
- f. Dubuque Police received a COPS Hiring grant from the Department of Justice for Community Oriented Policing - Brain Health Trained Officers \$250,000
- g. Received a grant for the Granger Creek Lift Station from the Federal Emergency Management Agency (FEMA) Via Community Project Funding \$1,000,000
- h. Voices & Office of Shared Prosperity and Neighborhood Support (OSPNS) received a National Endowment for the Arts (NEA) Our Town Grant for Arts programming & placemaking \$50,000.
- i. Received an Economic Development Administration (EDA) grant from their Economic Adjustment Assistance (EAA) Program for Bee Branch Gates & Pumps \$7,700,000
- j. Dubuque Regional Airport received a Small Community Air Service Development Program (SCASDP) grant from the US Dept. Of Transportation (USDOT – FAA) to address solutions to renewing commercial air service \$1,500,000.

Totals to Date

Grants to the City of Dubuque (Applicant):	
\$33,384,233.00	
Grants/Funds received Community-Wide:	
ARPA Directed Allocated Funds: \$26,522,200	
County ARPA Funds to Community Organizations: \$15,743,338	
Total Federal, State, & Private Funds:	\$123,819,444
Total Federal, State, County, & Private Funds:	\$141,562,782

CITY PROPERTY TAX RATE

In the FY2022 City budget that was adopted by the Mayor and City Council in March 2021, there was a property tax rate reduction of 2.5%, which resulted in no increase in city property taxes for residential property, and a city property tax decrease for commercial property, industrial property, and multi-residential property.

In the FY2023 city budget the Mayor and City Council adopted a property tax rate reduction of 1.74% which resulted in a 2.96% increase for the average homeowner.

In the FY2024 (current year) city budget the Mayor and City Council adopted a property tax rate increase of 1.96% which resulted in 3% increase for the average homeowner.

In FY 2024, the City levied for \$26,623,300 in property tax revenue to support the general fund and in FY 2025 the budget guidelines would levy for \$28,223,480 in property tax revenue to support the general fund. The FY 2025 budget guidelines call for a 0.25% increase in the property tax rate, which increases the property tax rate from \$9.90135 in FY 24 to \$9.92638 in FY 25, which would be a 5.00% or \$40.75 tax increase for the average Dubuque residential property owner, an increase in property tax for commercial (25.55%, \$850.63), and an increase for industrial (3.89%, \$187.33).

	% Change	\$ Change
Property Tax Rate	0.25%	\$0.03
Property Tax Asking	6.01%	\$1,600,180
Average Residential Payment	5.00%	\$40.75
Average Commercial Payment	25.55%	\$850.63
Average Industrial Property	3.89%	\$187.33

While the City of Dubuque measures the impact of a change in the property tax rate by creating an average value for properties in different classifications that gets increased each year, the State of Iowa wants cities to look at the impact on a fixed value of a \$100,000 property. One thing the State of Iowa calculation does is show the impact on small businesses and smaller residential properties. The impact is different because the first \$150,000 of a commercial property gets the much greater residential rollback, in other words less of the value of the property is subject to property tax.

In the case of Dubuque, a commercial or a residential property with an assessed value of \$100,000 would have paid \$541 in FY2024 and will pay \$460 in FY2025, a decrease of \$81, or 14.97%.

Since 1989, the average homeowner has averaged an annual increase in costs in the City portion of their property taxes of 1.36%, or about \$8.41 a year. If the State had been fully funding the Homestead Tax Credit, the increase would have averaged approximately \$5.67 a year.

The City Council is only considering the FY2025 property tax rate. The FY2026 - 2029 tax rates are only projections. The future budget projections will be updated each year so that City Council will have an opportunity in the next year to change FY2026.

The City property tax rate projected in these budget guidelines and impact on the average residential property owner (\$196,508 assessed value) is as follows:

Fiscal Year	City Tax Rate	% Change in Tax Rate
FY 2025	\$9.92638	0.25%
FY 2026	\$10.4225	5.00%
FY 2027	\$10.9427	4.99%
FY 2028	\$11.4906	5.01%
FY 2029	\$12.0140	4.55%

Fiscal Year	"City" Property Tax Askings	% Change in Tax Askings	% Impact on Avg. Residential Property	\$ Impact on Avg. Residential Property
FY 2024	\$26,623,300			
FY 2025	\$28,223,480	+6.01 %	+5.00 %	\$ +40.75
FY 2026	\$30,412,815	+7.76 %	+5.00 %	\$ +42.78
FY 2027	\$32,565,753	+7.08 %	+4.99 %	\$ +44.85
FY 2028	\$34,877,739	+7.10 %	+5.01 %	\$ +47.24
FY 2029	\$37,192,096	+6.64 %	+4.55 %	\$ +45.12

The State's residential rollback factor will decrease from 54.6501% in 2024 to 46.3428% or a 15.20% decrease in FY 2025. The decrease in the residential rollback factor decreases the value that each residence is taxed on. This decreased taxable value for the average homeowner (\$87,169 taxable value in FY 2024 and \$91,067 taxable value in 2025) results in less taxes to be paid per \$1,000 of assessed value.

For the proposed Fiscal Year 2025 Budget, Dubuque has the LOWEST property tax rate as compared to the eleven largest cities in the state. The highest rate (Waterloo (FY25)) is 125.82% higher than Dubuque's rate, and the average is 58.25% higher than Dubuque. Dubuque's adopted FY 2025 property tax is \$9.93 (increase of 0.25% from FY 2024).

Fiscal Year 2025 City Property Tax Rate Comparison for Eleven Largest Iowa Cities

Rank	City	Tax Rate
11	Waterloo (FY25)	\$ 22.42
10	Sioux City (FY25)	\$ 18.16
9	Council Bluffs (FY25)	\$ 17.85
8	Des Moines (FY24)	\$ 17.56
7	Davenport (FY25)	\$ 16.61
6	Cedar Rapids (FY25)	\$ 16.47
5	Iowa City (FY25)	\$ 15.63
4	West Des Moines (FY24)	\$ 11.76
3	Ankeny (FY24)	\$ 10.53
2	Ames (FY25)	\$ 10.09
1	Dubuque (FY25)	\$ 9.93
	AVERAGE w/o Dubuque	\$ 15.71

Significant issues impacting the FY 2025 budget include the following:

- 1.
2. Homestead Exemption 65+
 - a. HF718 created new exemption
 - b. 3,398 Homeowners filed for exemption
 - c. FY25 \$3,250 in taxable value
 - d. FY26 \$6,500 in taxable value
 - e. FY2025 revenue reduction to City of \$113,017
3. Military Exemption
 - a. FY718 changed Military Credit to Exemption
 - b. Increased from \$1,852 to \$4,000
 - c. 1,937 Homeowners receive Military Exemption
 - d. FY2025 revenue reduction to City of \$76,918
4. Revaluation of Residential and Commercial
 - a. Average residential property value increased 23.2%
 - b. Average commercial property value increased 25%
5. Residential Rollback
 - a. Residential Rollback factor decreases from 54.65% in FY2024 to 46.34% in FY2025
 - b. Impacts taxable value of residential and commercial/industrial impacted due to two-tier assessment limitation on first \$150,000
6. Riverfront Property Lease Revenue
 - a. Riverfront Property Lease revenue increased \$212,448 due to consumer price index increase to a total of \$4,110,287
7. Local Option Sales Tax
 - a. Increased from \$12,528,806 in FY2024 to \$12,927,517 in FY2025. The FY2025 budget is based on FY2024 actual plus 3%.

- b. 50% to property tax relief, 50% to capital improvements (20% for maintenance of City buildings and 30% for street maintenance)
- 8. Hotel Motel Tax
 - a. Increased from \$2,925,996 in FY2024 to \$3,376,383 in FY2025. The FY2025 budget is based on FY2024 actual plus 3%.
- 9. July 2023: Moody's Upgrades City's Bond Rating
 - a. Moody's upgraded the City's outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1.
 - b. "Notable credit factors include strong financial operations and ample revenue-raising flexibility, which has resulted in steadily improved available fund balance and cash. The City serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years."
- 10. 5% for Dubuque Police Protective Association and non-represented employees
- 11. 3% for already approved collective bargaining agreements for Teamsters
- 12. Dubuque Professional Fire Fighters Association and International Union of Operating Engineers in contract negotiations
- 13. Estimated cost to General Fund = \$1,942,693
- 14. Fire: additional captain to serve in capacity of field training officer/safety officer (Starting Aug. 1, 2024)
 - a. Recurring cost of \$128,145
- 15. Fire: Bureau chief position for the EMS Division (Starting July 1, 2024)
 - a. Recurring cost of \$164,468. Non-recurring cost of \$4,650
- 16. Public Safety Software: \$3 million
 - a. Police Department, Fire Department, Emergency Communications, Dubuque County Sheriff's Department, volunteer fire departments, and other law enforcement agencies in Dubuque County.
 - b. Dubuque County contributing \$1.5 million.
- 17. State Funded Backfill on Commercial and Industrial Property Tax
 - a. Iowa Senate File 619 was signed into law by Governor Reynolds on June 16, 2021. The Bill provides that, beginning with the FY 2023 payment, the General Fund standing appropriation for commercial and industrial property tax replacement for cities and counties will be phased out in four or seven years, depending on how the tax base of the city or county grew relative to the rest of the state since FY 2014. Cities and counties where the tax base grew at a faster rate than the statewide average from FY 2014 through FY 2021 will have the backfill phased out over a four-year period from FY 2023 to FY 2026, while those that grew at a rate less than the statewide average will have the backfill phased out over an eight-year period from FY 2023 to FY 2030. The City of Dubuque's tax base grew at a rate less than the statewide average and will have a backfill phase out over an eight-year period from FY 2023 to FY 2030. **The FY 2025 State backfill for property tax loss is estimated to be \$808,254 for all funds (General Fund, Tort Liability Fund, Trust and Agency Fund, Debt Service Fund, and Tax Increment Financing Funds).**

b. House File 2552, Division 11, passed in the 2022 legislative session and signed by the Governor on May 2, 2022, repeals the Business Property Tax Credit (BPTC). In lieu of the BPTC, beginning with assessment year 2022, all commercial, industrial, and railroad properties will receive a property assessment limitation on the first \$150,000 of value of the property unit equal to the assessment limitation for residential property. The value of the property unit that exceeds \$150,000 receives the same ninety percent assessment limitation it has in the past.

The \$125 million fund will continue to be appropriated each year for reimbursements to counties. County auditors will file a claim for the first tier of the assessment limitations in September. Assessors will continue to provide the unit configuration for auditors as these definitions remain the same. Taxpayers are not required to file an application to receive the first \$150,000 of assessed value at the residential assessment limitation rate.

If the total for all claims is more than the appropriated amounts, the claims will be prorated, and the Iowa Department of Revenue will notify the county auditors of prorated percentage by September 30th. Lawmakers believe the new standing general fund will exceed the projected level of claims for fiscal years 2024 through 2029. Then in fiscal year 2030, the local government reimbursement claims will begin being prorated.

The projected backfill for Dubuque for the two-tier assessment limitation in Fiscal Year 2025 is estimated to be \$576,898.

18. Gaming Revenue.

- a. Gaming revenues generated from lease payments from the Dubuque Racing Association (DRA) are estimated to increase \$322,542 from \$7,083,037 in FY 2024 to \$7,405,579 in FY 2025 based on revised projections from the DRA. This follows a \$429,640 decrease from budget in FY 2024 and a \$2,283,349 increase from budget in FY 2023.
- b. February 2025 DRA distributions will be used in Fiscal Year 2025 to fund non-recurring improvement packages and stormwater fee grants. This is a change from past use of DRA distributions because all funds will be used for Fiscal Year 2025 operations.

19. Interest Revenue

- a. Interest revenue increased from \$1,500,016 in FY 2024 to \$1,718,055 in FY 2025. The FY 2025 budget is based on FY 2024 actual annualized.

20. Local Option Sales Tax Revenue

- a. Sales tax receipts are projected to increase 3.18% (\$398,711) over FY 2024 budget and 3.00% over FY 2024 actual of \$12,550,987 based on FY 2024 revised revenue estimate.

21. Hotel/Motel Tax Revenue

- a. Hotel/motel tax receipts are projected to increase 15.39% (\$450,387) over FY 2024 budget and 3.00% over FY 2024 re-estimated receipts of \$3,278,041.

22. Riverfront Property Lease Revenue

- a. Riverfront property lease revenue is projected to increase by \$212,448 in FY 2025 to \$4,110,287 due to the estimated consumer price index increase.

23. Franchise Fee Revenue

- a. Natural Gas franchise fees have been projected to increase three percent over FY 2023 actual of \$1,921,498. Also, Electric franchise fees are based on FY 2023 Actual of \$1,921,498 plus 9.8% based on Alliant Energy's interim rate increase.

24. Moody's Investors Service Change in Methodology

- a. **In July 2023, Moody's Investor Service upgraded the City's outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1. Notable credit factors include strong financial operations and ample revenue-raising flexibility, which has resulted in steadily improved available fund balance and cash. The City serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years.**
- b. In November of 2022, Moody's Investors Service ("Moody's") released a new rating methodology for cities and counties. Two significant changes result from the new methodology; cities are now assigned an issuer rating meant to convey the creditworthiness of the issuer as a whole without regard to a specific borrowing, and business-type enterprise funds are now being considered together with general fund revenues and balances in the determination of financial performance.

Under the new methodology, there are two metrics that contribute to financial performance. Available Fund Balance Ratio ("AFBR") = (Available Fund Balance + Net Current Assets/Revenue) and Liquidity Ratio ("LR") = (Unrestricted Cash/Revenue). For Aa credits, AFBR ranges from 25-35, and LR ranges from 30-40%.

The City was evaluated by Moody's under the old methodology in May of 2022 in connection to its annual issuance of bonds. At that time, Moody's calculated the City's AFBR to be 45.2%, and its LR to be 59.8%. The balances used in these calculations were likely elevated due to unspent ARPA funds. The change in methodology will now consider revenues and net assets from business-type activities in these calculations. As such, the City's general obligation rating will now be directly impacted by the financial performance of enterprise funds. Establishing rates and charges adequate to provide both debt service coverage and significant liquidity will be necessary to maintain the City's ratings.

- c. In May 2021, Moody's Investor Service upgraded the City's Water Enterprise's outstanding revenue bonds from A1 to A2 and affirmed the Aa3 credit rating on general obligation bonds. Notable credit factors include a sizable tax base, a wealth and income profile that is slightly below similarly rated peers, and increased financial position that will decline in fiscal years 2021 and 2022 and somewhat elevated debt and pension liabilities.

25. Fiscal Year 2024 Debt

- a. With the pledge of the \$1.1 trillion dollar federal infrastructure package and other opportunities to compete for grants, the City will need to spend money to prepare projects to be grant eligible and to provide matching funds to compete for grants.

The Fiscal Year 2025 CIP budget recommendation of \$88,753,825 is a 15.94% increase from the Fiscal Year 2024 CIP budget of \$76,554,143.

For several years, the Mayor and City Council had been taking advantage of the historically low interest rates and investing in City infrastructure and economic development and redevelopment. At the 2015 City Council Goal Setting, the Mayor and City Council adopted debt reduction as a High Priority. This recommended budget does not support the debt reduction policy due to the need to fund high priority projects.

The City will issue \$145,955,901 in new debt in the recommended five-year CIP, mostly for fire equipment replacement, fire station improvements, fire station expansion, airport improvements, Chaplain Schmitt Island Iowa Amphitheater, reimagine Comiskey, Federal Building renovations, solid waste collection vehicles, sanitary sewer improvements, water improvements, stormwater improvements, parking improvements, and renovation of Five Flags, for a total of \$145,955,901 of debt in FY 2025-2029. The City will retire \$130,165,376 of existing debt, only increasing the amount of City debt by \$15,790,525.

For Fiscal Year 2025, the use of the statutory debt limit would be 34.85%, and by the end of the recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2029, the City of Dubuque would be at 35.65% of the statutory debt limit.

In this budget recommendation, the Mayor and City Council are currently reviewing, projections out 10 years to Fiscal Year 2034 show the City of Dubuque at 20.47% of the statutory debt limit. This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.

In the extremely low interest rate environment prior to 2015, the City had been increasing the use of debt to accomplish the projects that need to be done. To have any success, a community must have a sound infrastructure. The Mayor and City Council has recognized the infrastructure issues Dubuque faces and has been responsive. While there was some criticism of City use of debt to deal with those infrastructure challenges, that criticism fails to recognize that not financing the needed infrastructure maintenance and improvements is also a form of debt that is passed down to future generations. This was a strategic decision by the City Council realizing **that infrastructure investment just gets more expensive over time for these reasons: a) the older a piece of infrastructure gets and the more it is allowed to deteriorate increases costs; b) the longer the wait to invest in infrastructure the costs are increased by inflation; and c) If the investment in infrastructure is not made in this interest rate environment this investment will eventually need to be made when interest rates could be potentially higher, thereby increasing costs.** However, beginning in FY 2016 the City Council at their 2015 Goal Setting Session debt reduction was adopted as a High Priority. So the amount of outstanding debt began to decrease. in Fiscal Year 2025 the City will be issuing more debt than is retired to be able to fund critical infrastructure projects. However, **in 2022 a fourth reason was created for considering using debt for infrastructure projects and that is the massive amount of federal grant money that is being made available. As already mentioned, most of these grants require matching dollars and most require that the engineering work already be financed and completed to make the projects shovel ready.**

The debt principal outstanding projected as of June 30, 2024, is currently \$257,000,705.
The breakdown of the debt principle outstanding as of June 30, 2024, is as follows:

Debt Obligation	6/30/2024 Principle Outstanding
General Obligation Essential Corporate Purpose	\$95,787,606
Less General Obligation Debt Subject to Annual Appropriation	(\$15,902,592)
Tax Increment Notes and Bonds	\$16,350,000
Economic Development TIF Rebate Agreements	\$6,104,789
Other Revenue-Backed Loans	\$2,940,485
Total Indebtedness Subject to Statutory Debt Limit of \$262,722,395	\$105,280,288
Percent of Statutory Debt Limit Used as of June 30, 2024	40.07 %
Revenue Bonds	\$135,817,825
Less Revenue Bonds Subject to Annual Appropriation	(\$13,956,032)
Add Debt Subject to Annual Appropriation	\$29,858,624
Total City Indebtedness as of June 30, 2024	\$257,000,705

Continued on the following page

The City will issue \$145,955,901 in new debt in the Recommended 5-year CIP, mostly for fire equipment replacement, fire station improvements, fire station expansion, airport improvements, Chaplain Schmitt Island Iowa Amphitheater, reimagine Comiskey, Federal Building renovations, solid waste collection vehicles, sanitary sewer improvements, stormwater improvements, water improvements, parking improvements, and renovation of Five Flags.

Project	FY 2025	FY 2026	FY 2027	FY 2028	FY 2029	Total
Fire Equipment Replacement (LOST)	\$ 969,342	\$ 1,248,060	\$ 804,000	\$ —	\$ —	\$ 3,021,402
Fire Station Expansion/Relocation (LOST)	\$ —	\$ —	\$ —	\$ 976,700	\$ 3,797,000	\$ 4,773,700
Fire Station Improvements (LOST)	\$ 1,320,900	\$ 225,000	\$ 370,000	\$ 250,000	\$ —	\$ 2,165,900
Fire Training Burn Tower Improvements (LOST)	\$ 466,676	\$ —	\$ —	\$ —	\$ —	\$ 466,676
Airport Improvements (LOST)	\$ 500,386	\$ 1,093,148	\$ 754,835	\$ 739,438	\$ 364,560	\$ 3,452,367
ABC Supply Building Deconstruction (GDTIF)	\$ 457,000	\$ —	\$ —	\$ —	\$ —	\$ 457,000
Reimagine Comiskey (GDTIF)	\$ —	\$ 1,697,000	\$ —	\$ —	\$ 733,000	\$ 2,430,000
Five Flags (GDTIF)	\$ —	\$ 2,800,000	\$ 1,300,000	\$ 6,400,000	\$ 8,972,000	\$ 19,472,000
Smart Parking System (GDTIF)	\$ 1,957,000	\$ 780,000	\$ —	\$ —	\$ —	\$ 2,737,000
Parking Ramp Major Maintenance Repairs (GDTIF)	\$ 6,053,000	\$ 1,240,000	\$ —	\$ —	\$ —	\$ 7,293,000
Federal Building Renovation (GDTIF)	\$ 533,000	\$ 383,000	\$ —	\$ —	\$ 4,695,000	\$ 5,611,000
Iowa Amphitheater on Schmitt Island (GDTIF)	\$ 285,000	\$ 5,499,961	\$ —	\$ —	\$ —	\$ 5,784,961
McFadden Farm - South Heacock Road (DICW)	\$ 2,274,963	\$ —	\$ —	\$ —	\$ —	\$ 2,274,963
Development of Graf Properties (DICW)	\$ —	\$ —	\$ 536,822	\$ —	\$ —	\$ 536,822
Development of McFadden Property -(DICW)	\$ —	\$ 4,214,772	\$ 2,163,178	\$ —	\$ —	\$ 6,377,950
Solid Waste Collection Vehicles - Refuse	\$ 873,700	\$ 585,840	\$ 400,000	\$ —	\$ —	\$ 1,859,540
Sanitary Sewer Projects	\$17,683,900	\$15,531,900	\$ 8,212,105	\$10,448,695	\$ 4,881,286	\$ 56,757,886
Stormwater Projects	\$ —	\$ 3,947,357	\$ 2,600,000			\$ 6,547,357
Water Projects	\$ 4,686,377	\$ 750,000	\$ 3,750,000	\$ 1,750,000	\$ 3,000,000	\$ 13,936,377
Water Forgivable SRF Debt	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —
Total New Debt	\$38,061,244	\$39,996,038	\$20,890,940	\$20,564,833	\$ 26,442,846	\$145,955,901

The City will retire \$124,211,508 of existing debt over the next five-years (FY25-FY29).

The following chart shows the net reduction of debt from Fiscal Year 2025 - Fiscal Year 2029:

Project	FY 2025	FY 2026	FY 2027	FY 2028	FY 2029	Total
New Debt	\$ 38,061,244	\$ 39,996,038	\$ 20,890,940	\$ 20,564,833	\$ 26,442,846	\$ 145,955,901
Retired Debt	-\$21,955,845	-\$23,328,969	-\$24,809,782	-\$25,965,305	-\$28,151,607	-\$124,211,508
Net Debt Increase (Reduction)	\$16,105,399	\$16,667,069	(\$3,918,842)	(\$5,400,472)	(\$1,708,761)	\$21,744,393

There was a 22.53% increase in assessed value effective January 1, 2023, which is the assessment the Fiscal Year 2025 statutory debt limit is based on. The statutory debt limit effective June 30, 2025 is \$321,926,120. **The City will be at 34.85% of statutory debt limit by June 30, 2025.** In FY 16 the City was at 86.13% of statutory debt limit, so **34.85% in Fiscal Year 2025 is a (51.69)% decrease in use of the statutory debt limit.**

The ten year history of the City's use of the statutory debt limit is as follows:

FY 15	FY 16	FY 17	FY 18	FY 19	FY 20	FY 21	FY 22	FY 23	FY24
83.87%	86.54%	66.06%	59.79%	52.90%	46.91%	43.51%	43.33%	39.36%	40.07%

The five year projection of the City's use of the statutory debt limit from Fiscal Year 2025–2029 including all planned debt issuances subject to the statutory limit and assuming a 2% growth in the City's assessed valuation beginning in Fiscal Year 2025 is as follows:

FY 25	FY 26	FY 27	FY 28	FY 29
34.85%	37.22%	35.31%	34.03%	35.65%

The following chart shows Dubuque's relative position pertaining to use of the statutory debt limit for Fiscal Year 2025 compared to the other cities in Iowa for Fiscal Year 2023 with a population over 50,000:

Fiscal Year 2023 Legal Debt Limit Comparison for Eleven Largest Iowa Cities

Rank	City	Legal Debt Limit (5%)	Statutory Debt Outstanding	Percentage of Legal Debt Limit Utilized
11	Des Moines	\$ 792,697,654	\$ 529,035,000	66.74 %
10	W. Des Moines	\$ 506,339,850	\$ 319,175,000	63.04 %
9	Cedar Rapids	\$ 652,295,825	\$ 366,140,000	56.13 %
8	Waterloo	\$ 216,437,019	\$ 115,999,161	53.59 %
7	Davenport	\$ 409,777,672	\$ 208,650,000	50.92 %
6	Sioux City	\$ 293,887,647	\$ 143,694,902	48.89 %
5	Dubuque (FY25)	\$ 321,926,120	\$ 112,190,028	34.85 %
4	Ankeny	\$ 395,854,796	\$ 104,450,000	26.39 %
3	Ames	\$ 275,808,881	\$ 65,175,000	23.63 %
2	Iowa City	\$ 362,419,812	\$ 63,795,000	17.60 %
1	Council Bluffs	\$ 321,835,908	\$ 50,776,645	15.78 %
	Average w/o Dubuque			42.27 %

Dubuque ranks as the fifth lowest of the use of statutory debt limit of the 11 cities in Iowa with a population over 50,000 and Dubuque is at the average of the other Cities. **The average (42.27%) is 21.30% higher than Dubuque (34.85%).**

Retired Debt Versus New Debt

The total City indebtedness as of June 30, 2025, is projected to be \$274,937,509 (34.85% of statutory debt limit). The total City indebtedness as of June 30, 2015, was \$295,561,181 (69.45% of statutory debt limit). **The City is projected to have \$22,808,589 more in debt as of June 30, 2025, this amount includes \$3.285 million issued for the Chaplain Schmitt Island - Iowa Amphitheater project which will be paid by the DRA.**

The combination of increased debt and increased utility rates partially reflects the movement to a more critical infrastructure funding strategy.

The following chart shows the amount of retired debt as compared to new debt. The new debt includes new debt issuances as well as draw downs on existing state revolving fund loans:

Retired Debt Versus New Debt (In Millions)

*In Fiscal Year 2020, the City had \$5,908,200 forgiven of the Bee Branch Upper Bee Branch Loan on June 30, 2020 which increased principal payments reflected.

**In Fiscal Year 2026, it is projected \$2,494,896 of SRF debt will be forgiven as part of the Private Lead Service Line Replacement project

Statutory Debt and Total Debt

In August 2015, the Mayor and City Council adopted a debt reduction strategy which targeted retiring more debt each year than was issued by the City. The recommended FY 2025 budget will achieve that target in FY 2027, FY 2028, and FY 2029. However, Fiscal Year 2025 and Fiscal Year 2026 will exceed the target due to issuing necessary debt for Five Flags, Water Lead Lines, PFAS, Chaplain Schmitt Island Iowa Amphitheater and other important projects leveraging grants and forgivable State Revolving Fund loans. **You can see that the Mayor and City Council have significantly impacted the City's use of the statutory debt limit established by the State of Iowa. In Fiscal Year 2015, the City of Dubuque used 90% of the statutory debt limit. In this budget recommendation, the Mayor and City Council are currently reviewing for Fiscal Year 2025, the use of the statutory debt limit would be 34.85%, and by the end of the recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2029, the City of Dubuque would be at 35.65% of the statutory debt limit. The 5-Year CIP includes \$3.285 in FY2025 and \$5.5M in FY2026 for the Chaplain Schmitt Island - Iowa Amphitheater which will be paid by the DRA. Projections out 10 years to Fiscal Year 2034 show the City of Dubuque at 20.47% of the statutory debt limit. This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.**

By the end of the Recommended 5-Year Capital Improvement Program (CIP) budget, the total amount of debt for the City of Dubuque would be \$286.28 million (35.65% of the statutory debt limit), **which includes \$285,000 in FY2025 and \$5.5M in FY2026 for the Chaplain Schmitt Island - Iowa Amphitheater which will be paid by the DRA. Projections out 10 years to Fiscal Year 2034 show the City of Dubuque at 20.47% of the statutory debt limit**, and the projection is to be at \$177.32 million (20.47% of statutory debt limit) within 10 years.

26. **General Fund Reserves**

- a. The City maintains a general fund reserve, or working balance, to allow for unforeseen expenses that may occur. Moody's Investor Service recommends a 30% General Fund Operating Reserve for "AA" rated cities.

In July 2023, Moody's Investor Service upgraded the City's outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1. Notable credit factors include strong financial operations and ample revenue-raising flexibility, which has resulted in steadily improved available fund balance and cash. The City serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years.

These credit ratings are affirmation of the sound fiscal management of the mayor and city council, but Dubuque in a strong position to capitalize on favorable financial markets, borrow at low interest rate when necessary, and make critical investments in the community.

In November of 2022, Moody's Investors Service ("Moody's") released a new rating methodology for cities and counties. Two significant changes result from the new methodology; cities are now assigned an issuer rating meant to convey the creditworthiness of the issuer as a whole without regard to a specific borrowing, and business-type enterprise funds are now being considered together with general fund revenues and balances in the determination of financial performance.

Under the new methodology, there are two metrics that contribute to financial performance. Available Fund Balance Ratio ("AFBR") = (Available Fund Balance + Net Current Assets/Revenue) and Liquidity Ratio ("LR") = (Unrestricted Cash/Revenue). For Aa credits, AFBR ranges from 25-35, and LR ranges from 30-40%.

The City was evaluated by Moody's under the old methodology in May of 2022 in connection to its annual issuance of bonds. At that time, Moody's calculated the City's AFBR to be 45.2%, and its LR to be 59.8%. The balances used in these calculations were likely elevated due to unspent ARPA funds. The change in methodology will now consider revenues and net assets from business-type activities in these calculations. As such, the City's general obligation rating will now be directly impacted by the financial performance of enterprise funds. Establishing rates and charges adequate to provide both debt service coverage and significant liquidity will be necessary to maintain the City's ratings.

In May 2021, Moody's Investor Service upgraded the City's Water Enterprise's outstanding revenue bonds from A1 to A2 and affirmed the Aa3 credit rating on general obligation bonds. Notable credit factors include a sizable tax base, a wealth and income profile that is slightly below similarly rated peers, and increased financial position that will decline in fiscal years 2021 and 2022 and somewhat elevated debt and pension liabilities.

These credit ratings are affirmation of the sound fiscal management of the mayor and city council, put Dubuque in a strong position to capitalize on favorable financial markets, borrow at low interest rate when necessary, and make critical investments in the community.

Fiscal Year	Fund Reserve (As percent of General Fund revenues)	New Moody's Methodology	Reason for change from previous Fiscal Year
FY 2018	23.81%		Increase due to capital projects not expended before the end of the FY and additional contributions to general fund reserve
FY 2019	29.06%		Increase due to capital projects not expended before the end of the FY.
FY 2020	31.24%		Increase due to freezing vacant positions and most capital projects due to the pandemic.
FY 2021	40.72%		Increase due to American Rescue Plan Act funds received (\$13.2 million), frozen positions and capital projects through Feb 2021.
FY 2022	49.16%	45.09%	Increase due to American Rescue Plan Act funds received (\$13.2 million), capital projects not expended before the end of the FY, and vacant positions.
FY 2023	50.18%	45.25%	Increase due to American Rescue Plan Act funds not spent (\$26.4 million), capital projects not expended before the end of the FY, and vacant positions.

**Fund Reserve as a Percent of General Fund and Enterprise Fund Revenue
New Moody's Methodology**

The City of Dubuque has historically adopted a general fund reserve policy as part of the Fiscal and Budget Policy Guidelines which is adopted each year as part of the budget process. During Fiscal Year 2013, the City adopted a formal Fund Reserve Policy which states the City may continue to add to the General Fund minimum balance of 10% when additional funds are available until 20% of Net General Fund Operating Cost is reached. During Fiscal Year 2024, the General Fund minimum balance was increased to 25%.

After all planned expenditures in FY 2024, the City of Dubuque will have a general fund reserve of 41.97% of general fund revenues as a percent of general fund revenues computed by the accrual basis or 40.21% of general fund, debt service, and enterprise fund revenues as computed by the accrual basis methodology now used by Moody's Investors Service. The general fund reserve cash balance is projected to be \$46,304,790 on June 30, 2024 as compared to the general fund reserve balance on an accrual basis of \$29,659,518. The general fund reserve balance on an accrual basis exceeds 27% in FY 2024, which is the margin of error used to ensure the City always has a general fund reserve of at least 25% as computed by Moody's Investors Service.

In Fiscal Year 2017, the City had projected reaching this consistent and sustainable 20% reserve level in Fiscal Year 2022. **In fact, the City met the 20% reserve requirement in FY 2017, five years ahead of schedule and has sustained a greater than 20% reserve.**

	FY2022	FY2023	FY2024	FY2025	FY2026	FY2027	FY2028	FY2029
Contribution	\$—	\$—	\$—	\$—	\$—	\$—	\$—	\$—
City's Spendable General Fund Cash Reserve Fund Balance	\$41,259,518	\$35,459,518	\$29,659,518	\$23,859,518	\$18,059,518	\$18,059,518	\$18,059,518	\$18,059,518
% of Projected Revenue (Moody's)	49.16%	50.18%	41.97%	33.76%	25.56%	25.56%	25.56%	25.56%

State Revolving Fund Sponsorship Projects and Green Project Loans

The City uses State Revolving Fund (SRF) loans for water and sanitary sewer projects whenever possible because of the **very low variable interest rate, currently at a rate of 2.43% with an annual servicing fee of 0.25%.**

In 2009, legislation was passed in Iowa that allows water utilities that issue debt through the Clean Water State Revolving Fund Program to sponsor and help finance other water quality improvement (CWSRF) projects within or outside its service limits. This new funding mechanism, called Water Resource Restoration Sponsored Projects, will provide cities, counties, local watershed organizations, watershed management authorities, county conservation boards, and soil and water conservation districts a funding source to construct improvements throughout a watershed that keep sediment, nutrients, chemicals and other pollutants out of streams and lakes.

Repayment of a standard Clean Water SRF (CWSRF) loan includes the repayment of the original loan amount, the principal, and the cost to finance the loan, interest, and fees. On a CWSRF loan with a sponsored project, the financing costs are reduced by the amount of the cost of the sponsored project improvements. Figure 1 shows a comparison between a standard CWSRF loan and a CWSRF loan with a sponsorship project. As shown, the total cost to the utility (the total of loan repayments) remains unchanged as the cost of funding for the sponsorship project is offset by a reduction in loan financing costs. In essence, two water quality projects are completed for the price of one.

Figure 1. Loan repayment comparison between a standard CWSRF loan and a CWSRF loan with a sponsorship project.

After three years of the State of Iowa being unsuccessful in completing one of these modified loans, the City of Dubuque had the first successful application for the state when, in April 2013, the City was awarded \$9.4 million of the interest paid on the Water and Resource Recovery Center to be used to reconstruct over 70 Green Alleys in the Bee Branch Watershed. The principal for the Water & Resource Recovery Center Upgrade was increased from \$64,885,000 to \$75,145,579 and the interest rate plus annual servicing fee was decreased from 3.25% to 2.00% to add the Green Alley sponsorship project. This reduction

allowed for increased proceeds **and resulted in a true interest cost of 1.96% and gross borrowing savings of \$11.4 million.**

The Federal Fiscal Years 2010, 2011, and 2012 State Revolving Fund capitalization grants included requirements for certain percentages of the funds to be allocated for green projects. Each green infrastructure project receives a portion of loan forgiveness not to exceed 30%. In June 2015, the City of Dubuque Upper Bee Branch Creek Restoration Project (Upper Bee Branch Project) qualified for a Green Project Loan from the CWSRF Program in the amount of \$29,541,000. The loan includes a principal forgiveness provision. The amount of the loan to be forgiven is 20% of the total loan disbursements made under the loan agreement. **The amount of the loan that was forgiven in June 2020 was \$5,908,200. The actual true interest cost for total funds received was not the 2.00% borrowing rate (1.75% interest and 0.25% administrative fee), but just 0.07% after reflecting the receipt of interest free funds (forgiven portion).**

Then, in August 2017, the City was awarded \$1.4 million in funding for improvements with the Catfish Creek Watershed through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Upper Bee Branch Creek Restoration Project. The funding for the \$1.4 million in improvements will come from the interest payments on the City's Upper Bee Branch SRF loan. The Upper Bee Branch Creek SRF loan principal was increased to \$30,941,000 and **the interest rate plus the annual servicing fee was reduced from 2.00% to 1.43%. On a gross basis, the borrowing costs for the new loan were \$1.38 million less than the original loan.**

In May 2018, the City was awarded \$1.0 million in funding for pervious green alley improvements with the Bee Branch Creek and Catfish Creek Watersheds through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Upper Bee Branch Creek Railroad Culverts Project. The funding for the \$1.0 million in improvements will come from the interest payments on the City's Upper Bee Branch Railroad Culvert SRF loan. The Upper Bee Branch Creek Railroad Culvert SRF loan principal was increased to \$17,387,000 and **the interest rate plus the annual servicing fee was reduced from 2.00% to 1.43%. On a gross basis, the borrowing costs for the new loan were \$1.05 million less than the original loan.**

In February 2019, the City was awarded \$276,300 in funding for Eagle Point Park Environmental Restoration through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Kerper Boulevard Sanitary Sewer Project. The funding for the \$276,300 in improvements will come from the interest payments on the City's Kerper Boulevard Sanitary Sewer SRF loan. The Iowa Finance Authority now requires that sponsorship projects are included in the initial loan amount so that the repayment schedule does not have to be adjusted. **On a gross basis, the borrowing costs for the new loan were \$278,000 less than if there was not a sponsorship project included.**

27. The Municipal Fire and Police Retirement System of Iowa Board of Trustees City contribution for Police and Fire retirement decreased from 22.98% percent in FY 2024 to 22.66% percent in FY 2025 (general fund savings of \$34,052 for Police and \$28,547 for Fire or a total of \$62,599).
28. The already approved collective bargaining agreements for Teamsters Local Union No. 120 Bus Operators and Teamsters Local Union No. 120 in FY 2025 include a 3.00% employee wage increase. A 5.00% wage increase is recommended for Dubuque Police Protective Association. The Dubuque Professional Fire Fighters Association and International Union of Operating Engineers are in contract negotiations. Non-represented employees include a 5.00% wage increase. Total cost of the estimated wage increase is \$1,942,693 to the General Fund.
29. The City portion of health insurance expense is projected to remain unchanged from \$1,119 per month per contract to \$1,119 per month per contract (based on 649 contracts) in FY 2025 (no

general fund impact). The City of Dubuque is self-insured, and actual expenses are paid each year with the City only having stop-loss coverage for major claims. In FY 2017, The City went out for bid for third party administrator and the estimated savings has resulted from the new contract and actual claims paid with there being actual reductions in cost in FY 2018 (19.42%) and FY 2019 (0.35%). In addition, firefighters began paying an increased employee health care premium sharing from 10% to 15% and there was a 7% increase in the premium on July 1, 2018. During FY 2019, the City went out for bid for third party administrator for the prescription drug plan and Fiscal Year 2022 included additional prescription drug plan savings. There was a decrease of \$639,758 in prescription drug cost in FY 2022. Based on FY 2024 actual experience, Fiscal Year 2025 is projected to have a 4.68% increase in health insurance costs. Estimates for FY 2026 increased 4.69%; FY 2027 were increased 4.70%; FY 2028 were increased 4.71%; and FY 2029 were increased 4.72%. The City portion of health insurance expense is projected to increase 3% in FY 2026; 3% in FY 2027; 3% in FY2028; and 3% in FY 2029.

30. The increase in property tax support for Transit from FY 2024 to FY 2025 is \$413,362, which reflects a decrease in Federal Transportation Administration Operating revenue (\$12,300); a decrease in Federal Transportation Administration Capital revenue (\$27,193), an increase in employee expense (\$104,098); increase in supplies and services (\$177,641); an increase in equipment replacements (\$49,262), a decrease in passenger fare revenue (\$50,415).
31. Electrical energy expense is estimated to increase 9.8% over FY 2023 actual expense based on the Alliant Energy interim rate increase.

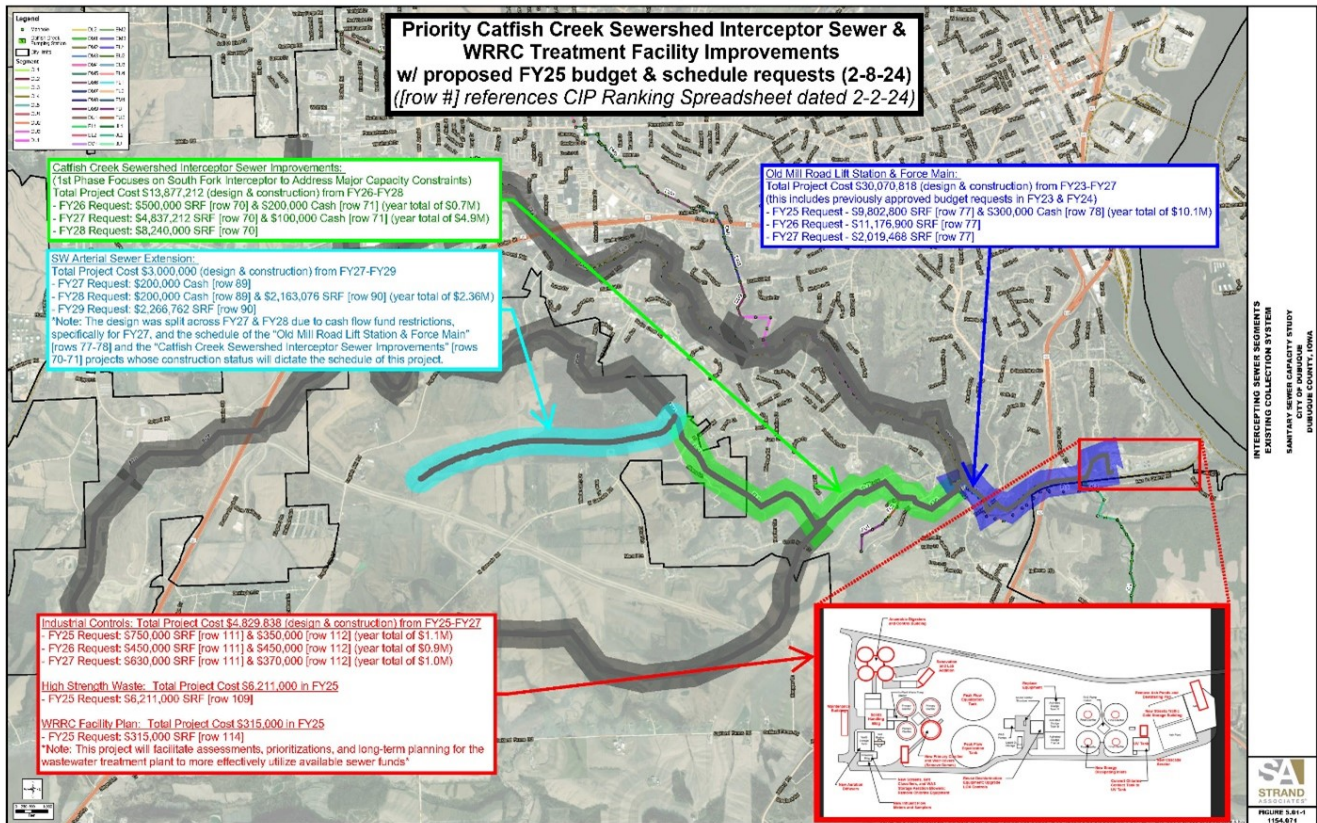

Capital Improvement Projects

The City is a partner with the Dubuque Racing Association (DRA) on redevelopment of Chaplain Schmitt Island. The DRA is doing over \$80 million in improvements to the Q Casino, including building a new Hilton hotel and adding a family entertainment zone. The City is building an over \$15 million outdoor amphitheater on Chaplain Schmitt Island, millions of dollars of trails and investing over \$2.5 million in replacement of sanitary sewer and an addition of a new sanitary sewer lift station.

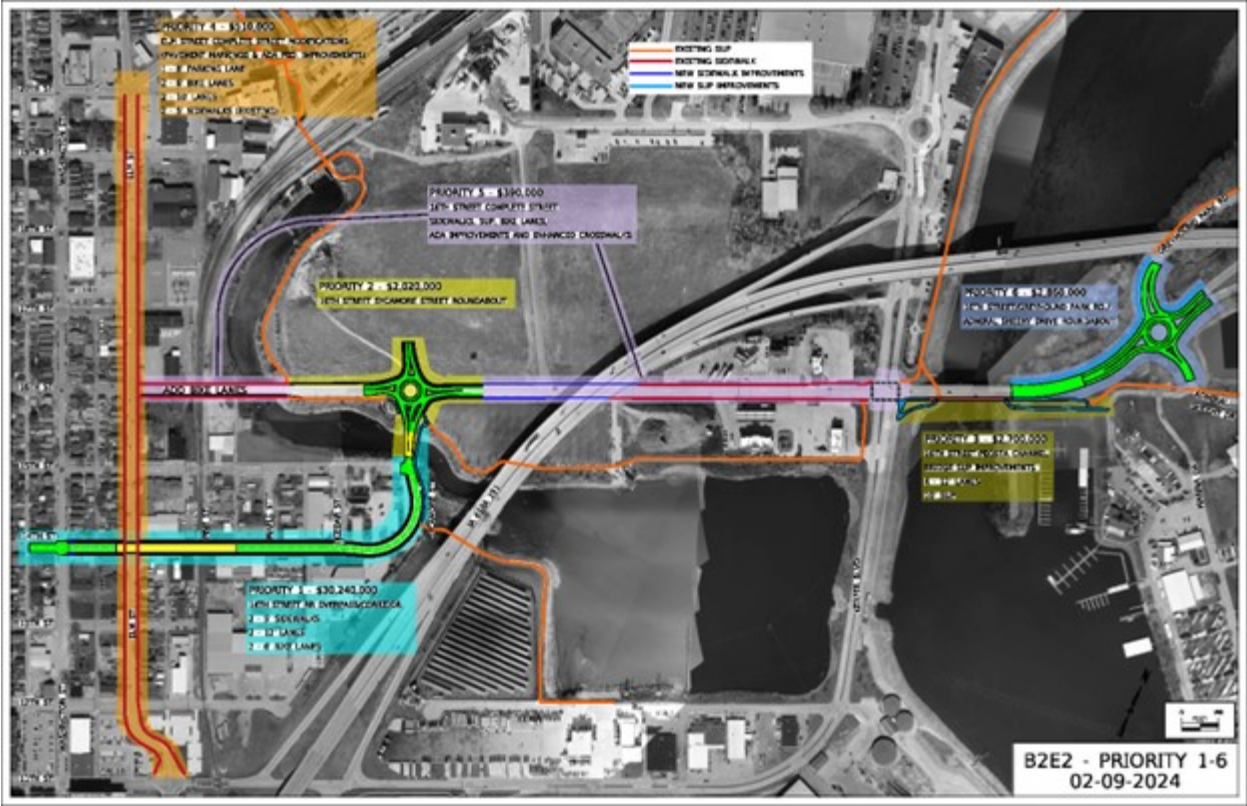

Complimentary to the Chaplain Schmitt Island project the city is planning an over \$40 million project to build a railroad overpass on 14th Street, which would include a complete street design on Elm Street and 16th Street, an added hike bike lane to the 16th Street bridge over Peosta Channel and roundabout on 16th Street at Sycamore Street and Admiral Sheehy Drive

The 5-year Capital Improvement Program (CIP) includes several major projects:

1. Catfish Creek Sewershed Interceptor Sanitary Sewer Improvements \$47 million total.
2. Water & Resource Recovery Center High Strength Waste \$6.2 million total

3. Water & Resource Recovery Center Industrial Controls Update \$3 million total
4. Water & Resource Recovery Center BOD Capacity Upgrades \$1.1 million total
5. Southwest Arterial Water Main Extension \$1.7 million total
6. Private Lead Water Service Line Replacement Project \$5.7 million total
 - a. Construction costs are 49% forgivable, whereas non-construction costs such as engineering services are non-forgivable per BIL Funds.
7. Source Water PFAS Reduction Project \$9.5 million total
8. Water Third Pressure Zone Connection (from Tanzanite Drive to Olympic Heights) \$2.0 million total
9. Kerper Blvd. Sanitary Sewer Lift Station Replacement \$1.5 million ARPA Grant (Total project cost = \$1.5 million)
10. Bee Branch Gate & Pump Replacement \$28.2 million total (\$8 million US EDA Grant)
11. 14th Street Overpass
 - a. \$25 million RAISE Grant
 - b. \$9.2 million DMATS
 - c. Support from Dubuque Racing Association
 - d. Total project cost = \$43 million)

Timeline of Public Input Opportunities

The Budget Office conducted community outreach using print and digital marketing and presentations.

- September:** City staff participated in City Life presentations on the budget process and attendees had the opportunity to prioritize real City projects.
- November:** The City Manager hosted an evening hybrid public budget input meeting. Participants could attend in person at the City Council Chambers or by phone or computer using GoToMeeting.

Open Budget

<https://dollarsandcents.cityofdubuque.org/>

During Fiscal Year 2016, the City launched a web based open data platform. The City of Dubuque's Open Budget application provides an opportunity for the public to explore and visually interact with Dubuque's operating and capital budgets. This application is in support of the five-year organizational goal of a financially responsible city government and high-performance organization and allows users with and without budget data experience, to better understand expenditures in these categories.

Open Expenses

<http://expenses.cityofdubuque.org/>

During Fiscal Year 2017, an additional module was added to the open data platform which included an interactive checkbook which will allow residents to view the City's payments to vendors. The final step will be adding performance measures to the open data platform to allow residents to view outcomes of the services provided by the City.

Balancing Act

During Fiscal Year 2019, the City of Dubuque launched a new interactive budget simulation tool called Balancing Act. The online simulation invites community members to learn about the City's budget process and submit their own version of a balanced budget under the same constraints faced by City Council, respond to high-priority budget input questions, and leave comments.

Taxpayer Receipt

During Fiscal Year 2019, the City launched an online application which allows users to generate an estimate of how their tax dollars are spent. The tool uses data inputted by the user such as income, age, taxable value of home, and percentage of goods purchased within City limits. The resulting customized receipt demonstrates an estimate of how much in City taxes the user contributes to Police, Fire, Library, Parks, and other city services. This tool is in support of the City Council goal of a financially responsible and high-performance organization and addresses a Council-identified outcome of providing opportunities for residents to engage in City governance and enhance transparency of City decision-making.

Enterprise Fund Utility Rates

	FY 2024 Rate	Recommended FY 2025 Rate	% Change
Water	\$35.82	\$40.14	12.00 %
Sanitary Sewer	\$50.28	\$54.78	9.00 %
Curbside Collection	\$15.83	\$17.25	9.00 %
Stormwater	\$10.00	\$11.50	15.00 %

Conclusion

If the City Council approves the budget recommendation, it will support continued investment in people, businesses, and organizations that are making a difference in our community, and continued investment in the infrastructure that must exist for Dubuque to continue to thrive.

This budget recommendation fits the original tax levy recommendation that was submitted. However, I respect the Mayor and City Council's right to lower the property tax rate through the budget process. Any reduction in resources would require a corresponding reduction in expenses.

There will be seven City Council special meetings prior to the adoption of the FY 2025 budget before the state-mandated deadline of April 15, 2024. I want to thank Chief Financial Officer Jennifer Larson, Assistant City Manager Cori Burbach, Public Information Officer Randy Gehl, Budget Manager Laura Bendorf, Budget/Financial Analyst Nathan Kelleher, Budget/Financial Analyst Robyn Hosch, Budget/Financial Analyst Joe Link, and Executive Assistant Stephanie Valentine for all their hard work and dedication in preparation of this budget recommendation.

CM024-013024

Rating Action: Moody's upgrades City of Dubuque, IA's issuer and GO to Aa2; Moral Ob. to A1

10 Jul 2023

New York, July 10, 2023 – Moody's Investors Service has upgraded the City of Dubuque, IA's issuer rating and outstanding general obligation unlimited tax (GOULT) bonds to Aa2 from Aa3, as well as its outstanding moral obligation Sales Tax Increment Revenue Bonds (Annual Appropriation Property Tax Supported), Senior Bond Series 2015A to A1 from A2. Moody's has also assigned a Aa2 to the city's Taxable General Obligation Corporate Purpose Bonds, Series 2023A with an proposed par amount of roughly \$6 million. Post-issuance, the city will have around \$85 million of outstanding GOULT debt.

RATINGS RATIONALE

The issuer rating was upgraded to Aa2 because the city has strong financial operations and ample revenue-raising flexibility, which has resulted in steadily improved available fund balance and cash. The city serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years. The city's local economy is likely to remain strong because of its mix of commercial and industrial industries, stable population and steady tax base growth. Resident wealth and income ratios are a little below rated peers, in part because of a large student population. Leverage is elevated and could grow further because of outstanding capital needs.

The absence of distinction between the Aa2 rating on the district's GOULT debt and the Aa2 issuer rating is based on the city's full faith and credit pledge with authority to raise ad valorem property taxes unlimited as to rate or amount.

The city's moral obligation bonds (Annual Appropriation Tax Supported, Series 2015A) are rated two notches below the city's issuer rating, which reflects the city's pledge to consider appropriating from its debt service levy to replenish the debt service reserve fund if it is drawn upon. The rating also considers the more essential nature of the financed projects (flood mitigation) and adequate coverage of pledged sales tax revenue.

RATING OUTLOOK

Moody's does not typically assign outlooks to local governments with this amount of debt.

FACTORS THAT COULD LEAD TO AN UPGRADE OF THE RATINGS

- Moderated debt burden and capital needs
- Continued economic activity that drives improvement in resident income and full value per capita ratios

FACTORS THAT COULD LEAD TO A DOWNGRADE OF THE RATINGS

- Substantial decline in reserves
- Significant increase in leverage

LEGAL SECURITY

The city's GOULT debt, including the current issuances, are backed by the city's unlimited taxing power. The city is required to levy ad valorem taxes upon all taxable property in the city without limit as to rate or amount sufficient to pay the debt service except to the extent that other monies are deposited in the debt service fund for such purposes.

**DIFFERENCES OF FISCAL YEAR 2025 RECOMMENDED BUDGET
FROM PROPOSED PROPERTY TAX DOLLARS RESOLUTION**

Tax Asking

The proposed property tax dollars resolution approved by the City Council on March 25, 2024 totaled \$26,836,670 (including the debt service levy of \$290,069). The recommended tax asking was unchanged from the proposed property tax dollars tax asking.

Property Tax Paid by Average Homeowner

The proposed property tax dollars resolution included a 5.00% increase for the average homeowner property tax payment for the City portion of their property tax bill assuming the Homestead Property Tax Credit is fully funded. The recommendation included in this budget provides a 5.00% increase.

Property Tax Paid by Average Commercial Property

The maximum property tax dollars resolution included a 25.55% increase for the average commercial property owner. The recommendation included in this budget is a 25.55% increase for the average commercial property owner.

Property Tax Paid by Average Industrial Property

The maximum property tax dollars resolution included a 3.89 percent tax increase for the average industrial property owner. The recommendation included in this budget is a 3.89% percent tax increase for the average industrial property owner.

Tax Rate

The Fiscal Year 2025 “City” portion of the tax rate is being increased by \$0.03 from the Fiscal Year 2024 rate of \$9.90135 to a tax rate of \$9.92638 per \$1,000 of taxable assessed valuation. The proposed property tax dollars resolution established by City Council included a rate of 9.92638. The recommendation included in this budget is a rate of \$9.92638 (0.25% more than FY 2024).

GUIDING PRINCIPLES OF THE MANAGEMENT PHILOSOPHY

Michael C. Van Milligen
Dubuque City Manager

1. PLAN YOUR WORK AND WORK YOUR PLAN

The plan needs to be driven by:

- *Engagement (employee, resident, customer)*
- *Data that focuses on outcomes*

2. INPUT-ORIENTED

Team members should take advantage of the valuable input that can be provided by residents and employees for department decision-making.

Themes for effective use of the guiding principles

- *Believe that people of all cultures and backgrounds provide valuable input*
- *Understand the benefits of receiving input from others*
- *Develop the processes that capitalize on the input of others, and work to remove barriers to participation*
- *Understand the benefits of empowering others*
- *Seek first to understand and then to be understood – Steven Covey*
- *Motivate staff and encourage employee initiative*

3. PROBLEM SOLVERS

Team members' approach to issues should be to focus on what can be done to solve the problem.

Themes for effective use of the guiding principles

- *Create processes that help others be more creative problem solvers*
- *Perceive problems as opportunities*
- *Look to others to help solve problems*
- *Develop an understanding of the various cultural approaches to conflict and learn skills to adapt*
- *Encourage risk-taking*
- *Practice flexibility and assume good intent from participants with whom you disagree*
- *Understand that bureaucracies function best in black and white issues, while most issues are varying shades of gray*

4. DEVELOP PARTNERSHIPS

Team members can be more effective by developing partnerships with other departments and outside organizations.

Themes for effective use of the guiding principles

- *Form teams around defined tasks*
- *Encourage employee involvement through problem-solving task forces*
- *Develop team processes for decision-making and setting goals and objectives*
- *Facilitate the group process and develop the ability to adapt to various communication styles*
- *Form partnerships that reflect the variety of backgrounds and interests in the community that we serve*

5. ACT WITH A SENSE OF URGENCY

Success is about Planning, Partnerships and People leading to desired outcomes.

Management Style: Socratic

In my opinion, the City Manager's job is multi-faceted in the work to create a viable, livable, and equitable community:

- 1) Most importantly, follow the policy direction of the Mayor and City Council.
- 2) Create a data-driven, outcome-focused, high-performance organization with engaged employees and residents including processes and resources that allow employees and partners to be successful.
- 3) Create an atmosphere for the successful investment of capital by private businesses, not-for-profits, and individuals, while not sacrificing community quality of life attributes.
- 4) By your actions let people know that you **care** with the goal of providing them **hope** that they can achieve their personal goals.

"Luck is when preparation meets opportunity."

Norman Vincent Peale

"The harder you work the luckier you get."

Al Van Milligen

*"You cannot control what other people do or say
just your reaction."*

*"Hard work and a good attitude are the key to success,
oh yeah, be nice."*

Hedwig Van Milligen

*"If I have seen further, it is by standing
on the shoulders of giants."*

Isaac Newton

"We are all equally ignorant, just about different things."

Will Rogers

*"Performance is not determined by your conditions,
but largely by your own actions."*

"This research project began with the premise that we live in an environment of chaos and uncertainty. But the environment doesn't determine why some companies thrive in chaos and why others don't. People do. People are disciplined fanatics. People are empirical. People are creative. People are productively paranoid. People lead. People build teams. People build organizations. People build cultures. People exemplify values, pursue purpose, and achieve big hairy audacious goals. Of all the luck we can get, people luck—the luck of finding the right mentor, partner, teammate, leader, friend—is one of the most important."

Jim Collins
Great by Choice

*"The conductor of an orchestra does not make a sound,
he depends, for his power, on his ability to make other people powerful."*

Benjamin Zander, Conductor, Boston Philharmonic

BUDGET PROCESS

OVERVIEW OF BUDGETING

INTRODUCTION

The review and adoption of the budget is the single most important thing that a City Council does each year. The budget sets the tempo, capabilities, commitments and direction of the city government for an entire year. It is the yardstick against which the city operations can be evaluated. But what is a budget?

The purpose of this narrative is to identify:

- a) what a budget is;
- b) why we prepare a budget;
- c) alternative types of budgets;
- d) major characteristics of the Dubuque budget system; and
- e) roles and responsibilities in preparing the annual budget.

WHAT IS A BUDGET?

A budget is several things:

1. The budget is a fiscal plan setting out anticipated revenue and expenditures for accomplishing a variety of services over a given time frame. The fiscal plan includes:
 - a) an explanation of the services, activities, programs and projects to be provided by the City to the residents;
 - b) the resultant expenditure requirements; and
 - c) the resources available for meeting the expenditure requirements.
2. The budget is a process concerned with the allocation of available resources among alternatives and competing departments, activities and programs. Cities rarely have enough money to be able to appropriate all the funds requested to all departments and activities and, as a result, there is considerable competition for whatever money is available. Budgeting, as a process, is concerned with developing an acceptable mix or balance between costs and services and represents the decisions made with respect to:
 - a) quality and quantity of activities and projects to be undertaken; and
 - b) financing of those activities and projects.
3. The budget is a policy document which:
 - a) establishes the authority to spend funds, and levy and collect property taxes;
 - b) represents a commitment to provide a specific level of service within a given amount of resources; and establishes criteria (objectives, measures and dollar limits) for evaluating and controlling expenditures, revenue collections and performance. Through the budget, policies are made, put into effect, and controlled.

4. The budget is a legal requirement. State law requires the City Manager to prepare the annual budget and the City Council to adopt the annual budget and certify it to the County Auditor by April 30th of each year preceding the beginning of the fiscal year on July 1st. The budget must be on a program - performance basis and show:
 - a) expenditures for each program;
 - b) income from sources other than property taxes; and
 - c) amount to be raised by the property taxation and the property tax rate expressed in dollars per thousand of assessed value.

The budget must also show comparisons between expenditures in each program and between levels of service.

WHY DO WE BUDGET? WHY IS IT IMPORTANT?

Why do we go through the agony and the work? There are several reasons:

1. To meet the legal requirement.
2. To establish spending and income-raising authority.
3. To establish a work program for the fiscal year (objectives) and present it to the public.
4. To manage and control resources and their use.
5. To assure the proper mix of costs and services.
6. To assure the most effective and efficient use of available resources.
7. To set the tempo and direction of the city government.
8. To prioritize policies and objectives.
9. To link dollars with results.

ALTERNATIVE TYPES OF BUDGETS

Line-Item Budget

The most commonly used budget format in local government today is the line-item budget. A line-item budget is one, which allocates money for specific expense items or objects of expenditure without reference to the purpose, activities or program they will serve. This type of budget lists expenditures by such categories as full-time salaries, overtime, office supplies, postage, travel, rental expense, maintenance of buildings and grounds, office furniture and equipment, etc. The principal advantage of a line-item budget is that it is easy to prepare and facilitates expenditure control. However, this form of budget tells very little about the purposes, activities and programs of the city it serves. For example, it shows the amount of money that has been budgeted for personnel, but it does not show the nature of the services such personnel are to provide.

Furthermore, the traditional line-item approach does not show comparative costs and benefits of competing programs, thus making it difficult for the City Council and management to evaluate individual activities and allocate resources. These characteristics limit its usefulness as a device for giving direction and purpose to public service activities and programs.

Program Budget

Local governments usually spend money to accomplish something more than purchasing goods and services. They are also concerned about programs, missions, or functions. A budget organized on the basis of its intended purpose is called a program budget. A program budget allocates money to functions or activities rather than to specific items of costs. A municipal budget of this type lists expenditures for such cost categories as protective services, leisure time opportunities, and administration.

Few, if any, budgets are prepared exclusively on a program basis. Instead, program costs are usually broken into line items.

The primary advantage of a program budget is that it shows the broad goals and purposes for which we are spending money and allows for setting priorities. The disadvantage is that it does not show the level of services that will be produced by the functions for which money has been allocated. This characteristic weakens its value as a tool for managing the quality and quantity of public service programs.

Performance Budgeting

Performance budgeting goes a step further than program budgeting by requiring the breakdown of service into workload or units of performance and the assigning of unit costs. A system of work measurement is used to evaluate productivity and effectiveness.

The principal advantage of the performance type budget is that it shows both the activities of the city and the service levels of those activities and their respective costs. Thus, it can be a useful tool for regulating in a positive way, both the quality and quantity of city services. This characteristic makes the performance type budget the most useful of those types mentioned so far. However, it is also the most difficult to prepare. There are three reasons for this. First, it is difficult to define the units by which the work of the department or an activity or program can be measured. Second, even when the work unit can be defined, it may not be easy to establish a system, which will supply a reliable measure of the work output. And third, it requires much thought and study to establish acceptable service levels for various activities and programs.

Zero Base Budgeting

Traditional budgeting, whether line-item or program-oriented, tends to focus on how much you spent last year as a beginning point for budget preparation. That is to say that it is incremental, it adds an increment on top of last year's spending level generally without challenge and without consideration of alternatives or trade-offs.

Zero Base Budgeting (ZBB) is a system whereby each activity or program, regardless of whether it is a new or existing program, must be justified in its entirety each time a new budget is formulated. Rather than using the previous year's budget as a base, ZBB assumes no base; all activities old and new must be explained and justified each year. The agency starts at zero.

ZBB measures the desirability, need and beneficiaries of services as well as the reasonableness of the proposed costs, alternatives to the activity, and trade-offs between partial achievement of goals and the ability to fund all proposed budget expenditures. ZBB accomplishes this by dividing all the

proposed activities or services of the governmental body into units of manageable size, subjecting them to detailed examination, and ranking them according to their importance.

Revenues are matched against the list of services according to their rank. High-priority services are funded first. If money runs out, the low-priority services are not funded.

The characteristics of ZBB can be summarized as follows:

1. Scrutiny of old or existing activities as closely as new or proposed activities;
2. Reallocation of resources from low-priority activities to high-priority activities;
3. Emphasis on alternatives (levels of expenditures and services and methods of providing services); and
4. Allowance for budget reduction or expansion in a planned, logical manner.

Dubuque Budget Approach

The budget system being utilized by the City of Dubuque incorporates aspects of each of the several budget alternative types discussed here. The major characteristics of our budget system are:

1. It has line items for control and fiscal management purposes.
2. It is organized by program, department and fund.
3. It attempts to identify, analyze, and articulate the fundamental purposes and objectives of the Dubuque City government. This approach is intended to place emphasis upon commitments, accomplishments, and activities performed rather than upon items purchased and to provide for the establishment of priorities. It attempts to identify, quantify, and analyze the demands on and accomplishments of organizational units in terms of established goals, objectives, and purposes. Are we achieving our goals and living up to our promises? This requires the establishment of workload and demand indicators and evaluation criterion. It is performance that counts.
4. It attempts to identify all costs of each department, activity, and program, including capital expenditure, debt service, and employee benefit costs. What does an activity or department really cost?
5. It presents alternative service and funding levels for all activities in the operating budget. The purpose is to provide the City Council with the widest possible range of alternatives to maximize their opportunity for making policy decisions, assigning priorities and allocating scarce resources to accomplish their policy objectives.

The City's budget approach involves the preparation of three budget documents. The **Policy Budget**, the **Capital Improvement Program (CIP) Budget**, and the **Resident's Guide**.

The **Policy Budget** includes the City department detail, by defining goals and objectives for all City departments and activities, relates them to cost and resource requirements and attempts to establish measures for evaluating accomplishment. Specific improvement packages are developed and included in the **Policy Budget** for alternative funding and service levels. The **Policy Budget** document shows the budget by line item for each Department and provides a

basis for fiscal control once the budget is adopted. The Policy Budget emphasizes objectives, accomplishments, and alternative funding and service levels and is intended to keep the attention of the City Council and public on the major policy decisions involving what services the City government will provide, who will pay for them, and the implications of such decisions.

The Capital Improvement Program (CIP) Budget represents the City of Dubuque's five year physical development effort, attempts to address a variety of needs, which the City must meet if it is to maintain its physical facilities, meet its service commitments and provide for its future development. The CIP Budget reflects the City's comprehensive plan and the goals and priorities established by the City Council. The first year of the five-year CIP Budget goes into the budget for the next year and deserves the most attention. The CIP Budget is updated each year so that City Council has the opportunity to change the next four years and add a new year.

The Resident's Guide pulls the entire budget together through visuals, narratives and summaries. It explains the budget, provides revenue, expenditure and personnel summaries and provides the City Council vision, goals and priorities on which the budget is based.

ROLES AND RESPONSIBILITIES

Budget preparation and administration is a shared responsibility between the City Council, City Manager, Finance Department, department managers, division managers, and supervisors. Each plays an important role in the fiscal management system and the quality of and satisfaction derived from the fiscal management system is a direct result of the efforts of the several participants. Lack of attention, failure to follow procedures and/or poor follow through at any level can undermine the best fiscal management system.

Let's look at the roles each plays.

City Council

In a very real sense, budget preparation and administration begins and ends with the City Council. The City Council has the following responsibilities:

1. Establish City goals and major performance objectives.
2. Approve guidelines for preparing the annual operating budget.
3. Establish through adoption of an annual budget what services and the level of services to be provided and how they will be financed.
4. Establish rules for the conduct of the City's fiscal operations.
5. Monitor progress toward achievement of objectives.
6. Require independent audit of fiscal records and transactions.

The City Manager

The City Manager is responsible to the City Council for the day-to-day operation and administration of the City government. In terms of fiscal management, the City Manager has the following responsibilities:

1. Develop policy guidelines for City Council review and adoption.
2. Develop Maximum Property Tax Levy Resolution for City Council review and adoption.
3. Prepare and submit an annual operating budget and a five-year Capital Improvement Budget premised upon Council guidelines and goals and major performance objectives.
4. Ensure the adopted budget is properly administered.
5. Supervise the performance of all contracts for work to be done by the City. Authorize and direct the purchase of all supplies and materials used by the City.
6. Keep Council fully advised on financial conditions of the City.
7. Establish rules for conduct of fiscal operations for which he is responsible.

Finance Department

The Finance Department becomes an extension of the City Manager's Office for purposes of performing the delegated responsibilities. The responsibilities of the Finance Department include the following:

1. Administer the approved budget on a day-to-day basis to see that funds are being expended for the purposes approved and that all claims are supported by proper documentation.
2. Supervise sale of bond issues.
3. Administer centralized payroll system.
4. Administer decentralized purchase order system.
5. Assist the City Manager's Office in preparing the budget.

Department Managers, Division Managers, and Supervisors

The critical role in the fiscal management system is performed by department managers and their division managers and supervisors. The fiscal management system will be only as good as they make it. Their role includes:

1. Responsibility for the efficient and effective operation of the activities and tasks under their direction. Line supervisors are expected to control costs and achieve results.
2. Responsibility for preparation of budget requests, which emphasize objectives and service levels as well as traditional line item explanations and justifications for various funding levels and development of measures for evaluating progress toward objectives. What is the level of accomplishment, which can be expected from various funding levels, and how do we measure it? It is absolutely essential in our approach to budget preparation that accomplishments, objectives, and estimated costs be established by those in the organization who know the most about it and can be held accountable. Those are the department managers and their division managers and supervisors.

3. Responsibility for recommending and explaining needs and opportunities for service changes; reductions as well as expansions.
4. Responsibility for providing the planned and approved service level within budget limitations.
5. Responsibility for day-to-day department and activity budget administration.

BUDGET CYCLE

The budget cycle is a sequence of events covering the life of a budget from beginning to end; from the City Manager's review of prior year accomplishments and future initiatives, to the City Council approval of the final budget amendment. The budget cycle is approximately twelve months long. The critical dates are spelled out in State law: April 30th is when the budget for the following fiscal year must be adopted by the City Council; and July 1st as the beginning of the fiscal year. Throughout the entire budget cycle, public input is encouraged to insure the adopted budget is resident-based. The budget cycle can be summarized as follows:

SPRING	City Council formulates negotiation strategy for collective bargaining.
JUNE JULY	City Manager recommends budget carryover amendment for City Council approval. City Manager , along with Department Managers, review fiscal year accomplishments and identify future initiatives for City Council consideration during goal setting.
AUGUST	City Council holds 2-day goal setting to develop Vision and Mission statements, identify 5 year goals and establish Policy agenda including Top Priorities for upcoming fiscal year and Management Agenda/special projects.
SEPTEMBER OCTOBER	City departments prepare Capital Improvement project information and budget requests for review by City Manager.
OCTOBER NOVEMBER DECEMBER	City departments prepare operating budget and other budget requests for review by City Manager. City Manager holds Public Input meetings to review issues and priorities for the capital budget and the operating budget.
JANUARY FEBRUARY	City Manager and Chief Financial Officer analyze, review and balance capital and operating budget requests and prepare final budget recommendation.
MARCH	City Manager presents draft Policy guidelines and Maximum Property Tax Resolution to City Council for City Council approval.
MARCH APRIL	City Council holds public meetings to review recommended budget by department. Meetings are held in the evening and are available for live viewing on City Channel Dubuque.

APRIL

City Council holds final public hearing on the recommended. The meeting is held in the evening and is available for live viewing on City Channel Dubuque.

City Council adopts budget and city staff certifies budget by April 30 in compliance with State law.

APRIL

MAY

Chief Financial Officer reviews budgeted revenues and expenses and recommends adjustments to more accurately reflect the anticipated revenues and expenses for the fiscal year ending June 30.

City Council reviews and approves an amended fiscal year budget and city staff certifies the budget amendments by May 31 in compliance with State law.

BUDGET AMENDMENT PROCESS

Budget estimates may be amended and increased as the need arises to permit appropriation and expenditure of unexpended cash balances on hand and unanticipated revenues. Such amendment may be considered and adopted at any time during the fiscal year covered by the budget (but prior to May 31) by filing the amendments and upon publishing them and giving notice of the public hearing in the manner required in the State Code. Within ten days of the decision or order of the City Council, the proposed amendment of the budget is subject to protest, hearing on the protest, appeal to the state appeal board, and review by that body. A local budget must be amended by May 31 of the current fiscal year-to allow time for a protest hearing to be held and a decision to be rendered before June 30.

Except as specifically provided elsewhere in the Iowa Administrative Code rules, all appropriation transfers between programs or funds are budget amendments and shall be prepared as provided in Iowa Code section 384.16. The program reference means any one of the following nine major areas of public service that the City Finance Committee requires cities in Iowa to use in defining its program structure: Public Safety, Public Works, Health & Social Services, Culture & Recreation, Community & Economic Development, General Government, Debt Service/Capital Improvement Projects, Business Type, and Non-Program.

BUDGET ACCOUNTING BASIS

The operating budget of the City of Dubuque is written so that available resources and anticipated expenditures are equal. The City's accounting and budget records for general governmental operations are maintained on a modified accrual basis, with the revenue being recorded when available and measurable and expenditures being recorded when the services or goods are received and the liabilities incurred. Accounting records for the Enterprise and Internal Service Funds are maintained on the accrual basis, while the budget records are maintained on the modified accrual basis.

Differences between budgetary policies and Generally Accepted Accounting Principles (GAAP) in the Enterprise and Internal Service Funds exist for several reasons. One reason is that existing procedures have worked well and continue to work well for administrative and control purposes. Some other reasons for differences between budget and GAAP are the treatment of interfund transfers, departmental capital outlay, debt service principal payments, and depreciation. The City's budgeting practices include interfund transfers as revenue and expenditures, while GAAP classifies interfund

transactions as other financing sources and uses. Also City management desires an operating statement budget line item for each anticipated cash outflow, including debt service and capital outlay. If the City budgeted the enterprise funds on a full accrual basis, capital outlay and debt service payments would not be reported in the operating statement.

Depreciation expense, which is recognized in the accounting records, is not budgeted. Not providing for depreciation in the budget is a policy decision that has not adversely affected the funds.

FUND ACCOUNTING BASIS

The accounts of the City are organized on the basis of funds and groups of accounts, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts, which comprise its assets, liabilities, equities, revenues and expenditures or expenses.

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Employee Benefits Fund* is used to account for pension and related employee benefit costs for those employees paid wages from the General Fund.

The *Community Development Fund* is used to account for the use of Community Development Block Grant funds as received from federal and state governmental agencies.

The *Street Construction Fund* is used to account for the resources and costs related to street capital improvements.

The *General Construction Fund* is used to account for the resources and costs related to nonassignable capital improvements.

The City reports the following major proprietary funds:

The *Sewage Disposal Works Fund* is used to account for the operations of the City's sewage disposal works and services.

The *Water Utility Fund* is used to account for the operations of the City's water facilities and services.

The *Stormwater Utility Fund* is used to account for the operations of the City's stormwater services.

The *Parking Facilities Fund* is used to account for the operations of the City-owned parking ramps and other parking facilities.

The *America's River Project* is used to account for the construction of all projects covered by the Vision Iowa Grant, including all matching funds.

The City reports the following non-major governmental funds:

Airport Construction Fund - This fund is used to account for the resources and costs related to airport capital improvements.

Sales Tax Construction Fund - This fund is used to account for the resources and costs related to capital improvements financed through the local option sales tax.

Road Use Tax Fund - This fund is used to account for state revenues allocated to the City for maintenance and improvement of City streets.

Section VIII Housing Fund - This fund is used to account for the operations of federal Section VIII existing, voucher, and moderate rehabilitation projects.

Tort Liability Fund - This fund is used to collect a special property tax levy which is then transferred to the General Fund. The General Fund accounts for the administration and payment of damage claims against the City.

Special Assessments Fund - This fund is used to account for the financing of public improvements that are deemed to benefit primarily the properties against which special assessments are levied and to accumulate monies for the payment of principal and interest on the outstanding long-term debt service.

Tax Increment Financing Fund - This fund is used to account for the receipt of property taxes, for the payment of projects within the tax increment financing district, and for the payment of remaining principal and interest costs on the tax increment financing districts' long-term debt service.

Cable TV Fund - This fund is used to account for the monies and related costs as set forth in the cable franchise agreement between the City of Dubuque and the cable franchisee.

Library Expendable Gifts Trust - This fund is used to account for contributions given to the library to be spent for specific purposes.

IFA Housing Trust- This fund is used to account for funds received under the Iowa Finance Authority State Housing Trust Fund Program.

Debt service fund – This fund is used to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources and special assessment bond principal and interest from special assessment levies when the government is obligated in some manner for the payment.

Ella Lyons Peony Trail Trust Fund - This fund is used for dividends and maintenance cost related to the City Peony Trail, per trust agreement.

Library Gifts Trust Fund - This fund is used to account for testamentary gifts to the City

The City reports the following non-major proprietary funds:

Refuse Collection Fund - This fund is used to account for the operations of the City's refuse collection services.

Transit System Fund - This fund is used to account for the operations of the City's bus and other transit services.

Governmental Fund Types (Budgetary)

Governmental funds are those through which most governmental functions of the City are financed. The acquisition, use, and balances of the City's expendable financial resources and the related liabilities (other than those in proprietary funds) are accounted for through governmental funds. The measurement focus is upon determination of changes in financial position. The following are the City's governmental fund types:

- **The General Fund** is the principal operating fund of the City and accounts for all financial transactions not accounted for in other funds. The general operating expenditures, fixed charges, and capital improvement costs that are not paid through other funds are financed through revenues received by the General Fund.
- **Special Revenue Funds** are used to account for revenues derived from specific taxes, governmental grants, or other revenue sources, which are restricted to finance particular functions or activities of the City. The City's special revenue funds include such funds as Road Use Tax, Community Development, UDAG Repayments, Section 8 Housing, Lead Paint Grant, State Rental Rehab, Cable TV, Special Assessment, Expendable Library Gifts Trust, Tort Liability, Employee Benefits, and TIF funds.
- **Debt Service Funds** are used to account for the accumulation of resources for, and the payment of, principal, interest, and other related costs of the City's general obligation debt. The City uses this fund to pay some of the debt service paid from other funds with the revenue transferred in.
- **Permanent Funds** are used to account for resources that are legally restricted to the extent that only the earnings, and not principal, may be used for purposes that support the reporting of governmental programs. The City's permanent funds include: Lyons Peony Trust and Library Gifts Trusts.
- **Capital Improvement Funds** are used to account for financial resources segregated for the acquisition or construction of major capital facilities. (Even if a capital project fund is used, not all capital acquisitions need be accounted for in the fund). For example, the routine purchases of capitalizable items (e.g., police vehicles, copy equipment) are typically budgeted and reported in the General Fund or other governmental fund.

Proprietary Fund Types (Budgetary)

The City also has proprietary fund types, which are different from governmental fund types in that their focus is on the determination of net income or loss. The revenue from these funds is assumed to be adequate to fund the operation of the funds. The City's proprietary funds are as follows:

- **Enterprise Funds** are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through use charges or where the periodic determination of net income or loss is deemed appropriate. The City's enterprise funds include Water, Sewer, Stormwater, Refuse/Solid Waste, Transit, Parking and America's River Project.
- The **Internal Service Fund** accounts for the financing of goods and/or services provided by one department or agency to other departments or agencies of the City, or to other governmental units, on a cost reimbursement basis. The City's Internal Service Funds include Engineering Service, Garage Service, General Service and Stores/Printing.

Self-Insurance Funds (Non-Budgetary)

- The **Self Insurance Funds** are considered Internal Service Funds, are not budgeted, but are summarized in the audited financial statements. These include Health Insurance Reserve and Workers' Compensation Insurance Reserve.

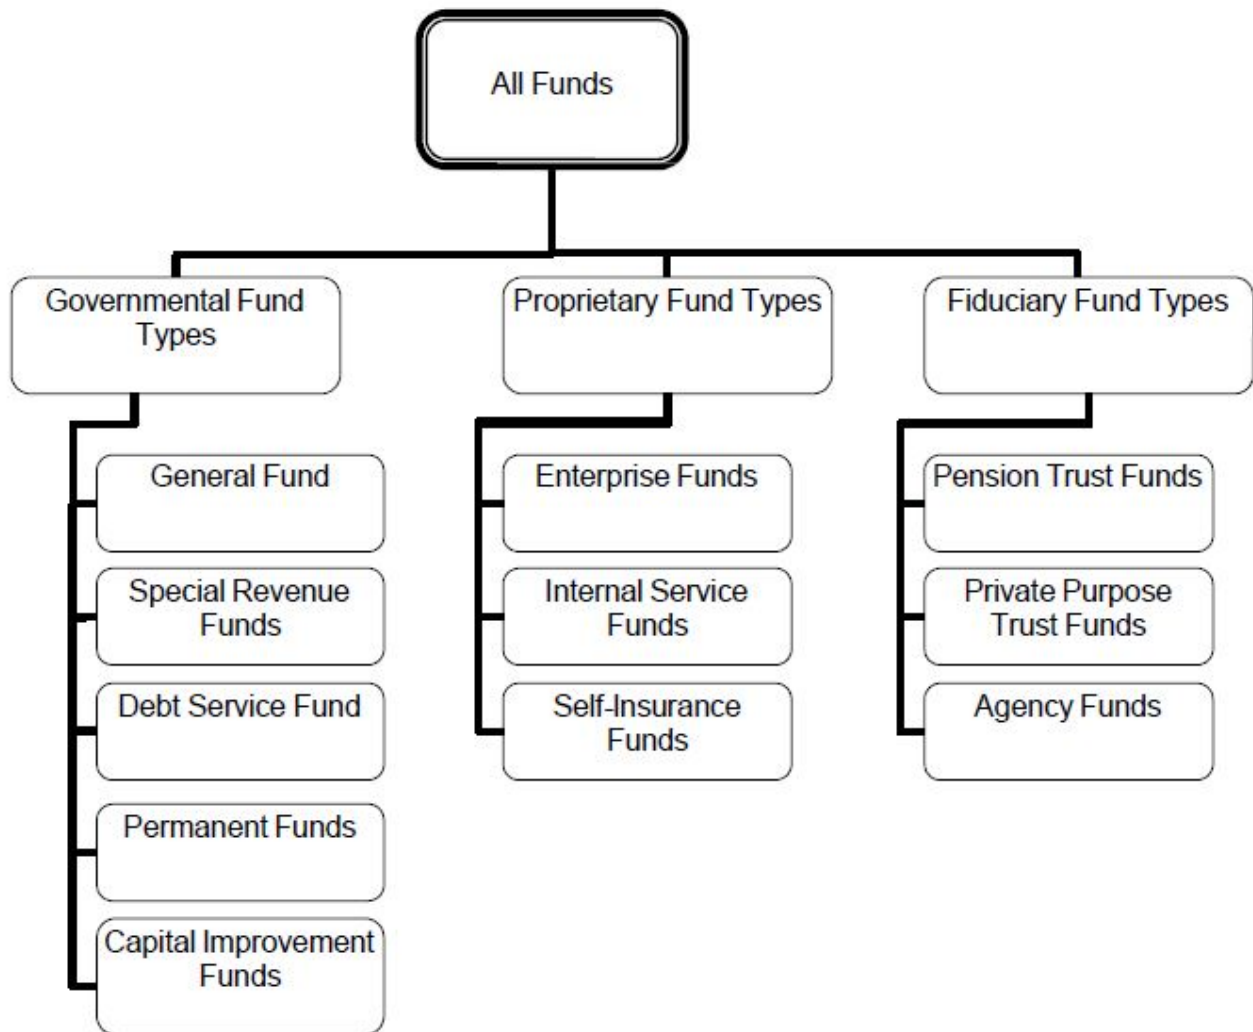

Fiduciary Fund Types (Non-Budgetary)

The City also has fiduciary fund types, which account for assets in a trustee or custodial capacity:

- **Pension Trust Funds** account for assets of pension plans held by a government in a trustee capacity. The City of Dubuque has no such funds.
- **Private Purpose Trust Funds** account for trust arrangements, including those for escheat property, where principal and income benefit individuals, private organizations, or other governments. The major use of private purpose funds is for escheat property. The City has no such funds.
- **Agency Funds** account for those assets held solely in a custodial capacity by the City as an agent for individuals, private organizations, other governmental units, and/or other funds. The City's Agency Funds include the Cable Equipment Fund (monies received from Mediacom through the Cable Franchise Agreement for distribution), Dog Track Bond Depreciation (monies held for dog track infrastructure needs), and the Dubuque Metropolitan Area Solid Waste Agency General and DNR Planning. These funds are not budgeted.

FUND - DEPARTMENT RELATIONSHIP

The various funds are grouped by type in the budget. The following fund types are used by the City:

The following table shows each City department and its associated funds.

		Special Revenue													Construction				Enterprise							Internal Service			Perm- anent	Debt

KEY TERMS FOR UNDERSTANDING DUBUQUE'S BUDGET

Program

Programs are presented as general statements, which define a major purpose of City government. Each program is divided into several departments and activities representing a separate and significant segment of the program of which it is an integral part. The state budget law requires that the budget be certified on a program basis. The City of Dubuque uses the following nine programs:

1. **Public Safety:** Police Department, Emergency Communication Center, Fire Department, Disaster Services, Health Services-Animal Control activity, Public Works-Flood Control activity, Building Services-Inspection activities.
2. **Public Works:** Airport Department, Public Works Department, Engineering Department.
3. **Health and Social Services:** Human Rights Department, Health Services Department, Purchase of Services
4. **Culture and Recreation:** Parks Division, Recreation Division, Civic Center Division, Conference Center, Library Department, City Manager-Arts and Cultural Affairs activity.
5. **Community and Economic Development:** Economic Development Department, Housing and Community Development Department, Planning Services, Purchase of Services, City Manager-Neighborhood Development activity.
6. **General Government:** Building Services-City Hall/Annex Maintenance, City Council, City Manager, City Clerk, Finance Department, Cable TV Division, Legal Department, Information Services Department.
7. **Debt Service and Capital Projects** in programs 1-6 for governmental funds.
8. **Business Type (includes business type operating, capital and debt service):** Water Department, Water Pollution Control Department, Parking Division, Transit Division, Public Works-Landfill activities and Garage internal service fund activities, Engineering-Sewer and Stormwater activities, Finance-Utility Meter Reads activity and Stores internal service fund activities.
9. **Non-Program:** City Manager-Health and Worker's Compensation Insurance Reserve fund activities and Public Works-Dubuque Metropolitan Area Solid Waste activities.

* Prior to Fiscal Year 2004, the State of Iowa, City Finance Committee changed the number of programs from 4 to 9 on the expenditure side.

Operating Budget

The Operating Budget represents the various recurring activities and services provided by the several departments in the City government. The Operating Budget provides those services normally associated with the City government (e.g., police, fire, street maintenance, recreation) and involves expenditures which benefit the current fiscal year. (That is, items purchased are used up during the current fiscal period.) Expenditures in the Operating Budget are for such categories as Employee Expense, Supplies and Services, and Debt Service. Funding of the Operating Budget includes property taxes, shared state and federal revenues, fees, fines, licenses, permits, user charges and cash balances.

Capital Budget

The Capital Budget represents major "permanent" capital improvement projects requiring the nonrecurring expenditures of public funds for the acquisition of property or easement, construction, renovation or replacement of a physical asset of the City and any studies, engineering or surveys which are an integral part thereof. The Capital Budget is multi-year in scope, is updated annually and includes project-funding information. The first year of the Capital Budget (or Capital Improvement Program) is included with the Operating Budget for the same year to arrive at a total or gross budget amount. Capital budget financing comes primarily from bond proceeds, state and federal grants, Road Use Tax funds, Dubuque Racing Association profit distribution, and utility depreciation funds.

Expenditure Category

Expenditure category or classification is the basis for classifying and codifying costs. Categories of expense include: (a) Employee Expense; (b) Supplies and Services; (c) Capital Outlay (Machinery and Equipment); (d) Debt Service; and (e) Capital Improvements. Categories of expense consist of various expense accounts. For example, Employee Expense is divided into expense accounts such as full-time, part-time & seasonal employees, overtime pay, holiday pay, social security expense and health insurance. Supplies and Services include accounts such as postage, telephone expense, office supplies, dues and memberships, utility expense - electricity, motor vehicle expense - fuel, library books, and architectural services.

Revenue Category

Revenue category or classification is a basis for classifying and codifying revenue. There are eight major categories of revenue, each divided into specific revenue items.

The eight major categories of revenue are as follows:

1. Taxes
2. Licenses and permits
3. Use of Money and Property
4. Intergovernmental Revenue
5. Charges for services
6. Special Assessments
7. Miscellaneous Revenue
8. Other Financing Sources

An example of the specific revenue items would include the following items in the licenses and permits revenue category: business licenses, cigarette licenses, beer permits, building permits, plumbing permits, heating permits, etc.

Alternative Budget Levels

The Dubuque budget system utilizes a variation of the zero-based budget (ZBB) approach utilizing three alternative funding or budget levels: Maintenance Budget Level, Base Budget Level and Improvement Level.

Each alternative funding level includes specific objectives to be accomplished (service levels to be offered) and associated costs. The budget decision becomes one of selecting alternatives, which maximize the achievements of City objectives according to established priorities within the context of limited resources and City Council policy.

BUDGET IN BRIEF

BUDGET IN BRIEF

The City Council will approve the fiscal year 2025 operating and capital budgets on April 11, 2024. The recommended FY 25 budget is balanced and includes a 5.00% property tax increase to the average homeowner for the City portion of their taxes.

The keys to the City of Dubuque's financial success include a continued growth in assessed property valuation (5.72% in FY 25); efficient operation with a 9.55% increase in the City's workforce since the 1980's; increased use of Federal and State grants; diversified revenue streams; minimal property tax supported debt; increased public and private partnerships; entrepreneurial City Council policy decisions; and caring residents, committed elected officials, hard-working not-for-profits, and talented city employees.

The City's five-year capital improvement plan (CIP) continues to allocate funding for the maintenance and refurbishment of city facilities. The approved five-year CIP totals \$354,260,757.

This budget in brief is intended to provide the residents of Dubuque with an overview of the approved operating and capital budgets. Throughout this document, you will find **highlighted sections** noting the location of detailed information in the approved budget document. Detailed information related to the approved budget can also be found on the City's website at www.cityofdubuque.org.

Fee Increases for Fiscal Year 2025

Various fee increases will be implemented beginning on July 1, 2024. These fee increases are intended to provide additional revenues to maintain and expand the level of service in various areas. The following is a summary of the increased fees:

Water, Sewer, & Stormwater Increases - Fee increases for water, sewer, and stormwater will be effective July 1, 2024: sewer rates will increase by \$4.68 per month for an average residential customer, water rates will increase by \$3.00 per month for an average residential customer; solid waste collection rates will increase by \$1.55 per month for an average residential customer; and stormwater rates will increase \$1.00 per month per standard family unit (SFU) equivalent.

Recreation Fee Increases - Golf fee increases to maintain 100% self-support guideline: \$10 increase on all season passes.

Housing Permit Fee Increases - Create a minimum fee for demolition permits to cover the cost of demolition administration: \$75 for a garage with no utilities, \$150 for single and two family dwellings, and \$250 for all others. Also create minimum permit fees to cover the cost of inspections and administration for permits: \$50 for buildings, mechanical, electrical, and plumbing permits. \$10 increase of the permit issuance fee.

FY25 RECOMMENDED BUDGET

The City's recommended budget provides estimated revenues and expenditures for programs and services to be provided during the fiscal year from July 1, 2024 through June 30, 2025. A separate capital budget includes appropriations for infrastructure related to projects, such as roads, buildings, and equipment that may require more than one fiscal year to complete or to acquire.

OPERATING & CAPITAL BUDGET SUMMARY					
OPERATING	\$	174,810,144	CAPITAL	\$	88,753,825
General Fund	\$	88,382,931	General Fund	\$	3,060,000
Special Revenue Funds	\$	20,826,974	Special Revenue Funds	\$	2,912,559
Debt Service Fund	\$	13,597,492	Capital Projects Funds	\$	48,623,937
Enterprise Funds	\$	41,643,688	Enterprise Funds	\$	33,051,123
Internal Service Funds	\$	5,213,104	Internal Service Funds	\$	165,986
Trust & Agency Funds	\$	5,145,955	Trust & Agency Funds	\$	940,220

APPROPRIATED BUDGET BY FUND

The City's total appropriated operating budget of \$174.8 million is made up of the general, special revenue, debt service, enterprise, internal service, and trust and agency funds. A complete self-contained budget, including both revenues and expenses, is prepared for each of these funds.

FY25 Operating Appropriations by Fund

Transfers from one fund to another, such as a transfer from the general fund to a capital project fund to offset costs of a capital project, are shown as an expense (or transfer) for the entity fund providing the funding and as revenue to the fund receiving the transfer. In order to determine the actual amount of expenditures authorized by the budget, the transfer amount must be excluded.

All funds are balanced in fiscal year 2025. The City's general fund is balanced in 2025.

Utility funds are balanced in fiscal year 2025 as a result of rate increases.

For additional information on the amount of funding included for each fund, total funding by department, and detailed information on reserves, see the Financial Summaries section

How General Fund Money is Spent

The general fund is the operating fund of the City for general service departments. The general fund has an operating budget of \$88.4 million and a capital budget of \$3.1 million. This fund encompasses the bulk of activities that are traditionally considered basic governmental services such as public safety, culture & recreation, health & social services, and general government.

42.1 %	PUBLIC SAFETY	(animal control, building inspections, crime prevention, emergency management, flood control, fire police, etc.)
18.5 %	CULTURE & RECREATION	(AmeriCorps, arts & cultural affairs, civic center, conference center, library, marina, parks, recreation, etc.)
15.8 %	GENERAL GOVERNMENT	(city attorney & legal services, city clerk, city council, city hall & general buildings, city manager, finance, information services, etc.)
9.1 %	PUBLIC WORKS	(airport, maintenance of streets, bridges, and sidewalks, snow removal, street cleaning, street lighting, traffic control, etc.)
6.5 %	COMMUNITY & ECONOMIC DEVELOPMENT	(economic development, housing and community development, neighborhood development, planning and zoning, etc.)
3.3 %	TRANSFERS OUT	(to funds other than General Fund)
3.2 %	CAPITAL PROJECTS	(City infrastructure improvements or major equipment purchases)
1.3 %	HEALTH & SOCIAL SERVICES	(community health, health regulation and inspection, human rights, etc.)
0.1 %	DEBT SERVICE	(government capital projects, tax-increment financing [TIF] capital projects)

GENERAL FUND REVENUE & EXPENDITURES**General Fund Operating Sources****General Fund Operating Uses****SPECIAL REVENUE FUNDS**

The special revenue funds have an operating budget of \$20.8 million and a capital budget of \$2.9 million. Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes. The City's special revenue funds include: Employee Benefits; Community Development; Road Use Tax; Section 8 Housing; Tort Liability; Special Assessments; Tax Increment Financing; HUD Disaster Relief; Housing Trust; Cable TV; and Library Expendable Gifts.

Special Revenue Operating Sources**Special Revenue Operating Uses**

Special Revenue Funds budgets are shown in the Financial Summaries section.

DEBT SERVICE FUND

The debt service fund has an operating budget of \$13.6 million. The debt service fund is used to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources and special assessment bond principal and interest from special assessment levies when the government is obligated in some manner for the payment.

Debt Service Sources

Debt Service Uses

Additional information on the Debt Service Fund is shown in the Debt Summaries section.

ENTERPRISE FUNDS

Enterprise funds are expected to be self-supporting and expected to be funded entirely from user fees for services. Except for Transit, no tax revenues are used for these activities in the FY 2025 budget. A transfer from the general fund to the Transit fund is budgeted to fund transit operations in the City. Each utility transfers revenue to the general fund for general government services. Transfers from the utilities in FY 2025 to support general government services total \$9,005,404.

- Sewer Utility \$2,258,392
- Stormwater Utility \$1,982,609
- Parking \$348,163
- Water Utility \$2,148,495
- Solid Waste \$1,670,833
- Landfill \$596,912

Enterprise Funds budgets are shown in the Financial Summaries section.

INTERNAL SERVICE FUNDS

Internal service funds provide goods or services to other department within the City, with full costs to be recovered. An example of this would be the City's Garage Service. These expenses are included in both the department budget providing the service, as well as in the budget of the department receiving the service. To avoid double counting, the appropriated budget includes only the budgets for the departments receiving internal services (Engineering Service \$2,213,502 and Garage Service \$2,996,941).

STAFFING CHANGES

The City of Dubuque has 776.22 (FTE) employees budgeted in FY 2025. This represents a net increase of 7.20 FTE's from FY 2024. Since 1981, the city has minimized the number of positions added. The recommended budget provides funding for a net increase of 7.20 FTE's related to general fund departments. Funding has been changed to include the following changes to FTE's:

- The Fire Department had the following changes: added a civilian Fire Inspector +1.0 FTE; added Bureau Chief +1.0 FTE; added Fire Captain +1.0 FTE.
- Airport had the following change: eliminated Marketing Coordinator -0.70 FTE.
- Transportation had the following changes: added Laborer +1.0 FTE; eliminated part-time Laborers -0.55 FTE; increased Dispatcher from 0.1 FTE to 0.5 FTE; added 0.34 FTE to the Parking Meter Checker.
- Engineering had the following changes: added Engineering Technician +1.0 FTE; eliminated Lease Management Intern -0.25 FTE; added Confidential Account Clerk +1.0 FTE, three limited term Engineering Intern positions ended -0.32 each.
- Water & Resource Recovery Center had the following changes: addition of Maintenance Supervisor 0.25 FTE.
- Public Works had the following changes: eliminated Assistant Public Works Director -1.0 FTE; added Fleet Maintenance Procurement Specialist +1.0 FTE; eliminated Stock Clerk -1.0 FTE; part-time Administrative Assistant was changed to full-time +0.33 FTE; added Field Supervisor +1.0 FTE, eliminated Maintenance Supervisor -1.0 FTE, added Lead Landfill Operator.
- Human Resources had the following changes: added a temporary Scanning Intern +0.25 FTE.
- Office of Prosperity and Neighborhood Support had the following change: part-time Administrative Assistant was moved to full-time +0.34 FTE.
- Public Information Office had the following changes: eliminated Communications Assistant -0.50 FTE; added Communications Assistant +1.0 FTE.
- The Finance Department had the following changes: eliminated Finance Director -1.0 FTE; eliminated Budget Director -1.0 FTE; added Finance Manager +1.0 FTE; added Budget Manager +1.0 FTE; eliminated Budget/Financial Analyst -1.0 FTE; eliminated Accountant -1.0 FTE; added Payroll Systems Analyst +1.0 FTE; added Project Manager 0.50 FTE, added Finance Intern positions 1.50 FTE.

Total FTEs FY 2024	769.02
Fire: Fire Captain	+1.00
Fire: Bureau Chief	+1.00
Fire: Fire Inspector	+1.00
Airport: Market Coordinator	-0.70
Transportation: Laborer	+0.45

HOW IS THE BUDGET FUNDED?Property Taxes

General fund, transit, payroll benefit costs, and general liability insurance expenses are supported by property tax dollars. The property tax rate for fiscal year 2025 is \$9.92637 per \$1,000 of taxable valuation. It is estimated that a total of \$28,223,481 will be received from property taxes in FY 2025. This is a increase from fiscal year 2024. For FY 2025 there is a 5.00% or \$40.75 property tax increase for the City portion of property taxes paid by the average homeowner.

Other Taxes

Other taxes that the City collects include local option sales tax, hotel/motel tax, and tax on agricultural land. In 2025, approximately \$12,927,516 will be received in local option sales tax. This increased 3.18% over FY 2024. Of this amount, 50% is for property tax relief (\$6,463,758), 20% is for City facilities maintenance (\$2,585,503), and 30% is for special assessment relief (\$3,878,255). In 2025 approximately \$3,376,383 will be received in hotel/motel tax. By resolution, 50% of this amount is to be used for promotion and encouragement of tourism and convention business and the remaining 50% goes into the General Fund for property tax relief.

Licenses and Permits

Fees from licenses include business, beer, liquor, cigarette, dog, cat, bicycle, housing, and other miscellaneous. Fees from permits include building, electrical, mechanical, plumbing, refuse hauling, excavation, subdivision inspection, swimming pool inspection, animal impoundments, and other miscellaneous. The City estimates \$2,375,397 in licenses and permits in FY 2025. Also included are cable TV franchise fees (5%) and utility franchise fees (5% gas & 5% electric). The FY 2025 projection for cable franchise fees is \$508,342 and utility franchise fee projection is \$0. The utility franchise fees are all used for property tax relief.

Use of Money and Property

This category includes interest and investment earnings collected, rent received from City owned property, and lease revenue, which is estimated at \$19,143,084 in FY 2025. The gaming related leases generate the most revenue. The lease with the Dubuque Racing Association (DRA) includes collection of 1.5% of coin-in (1% prior to 1/1/22), 4.8% of gross revenue from table games, 0.5% of sports wagering, and a distribution of profit from the DRA of 50%. Diamond Jo also pays a parking lease. City Council's policy is to use 100% of the DRA distribution of profit to support the Capital Improvement Budget and the total received from DRA operating and taxes is split 100% for property tax relief and —% for capital projects. Gaming leases are projected to be \$7,405,579 in FY 2025. Riverfront leases are expected to generate \$4,110,287 in FY 2025.

Intergovernmental Revenue

Intergovernmental revenues are projected to increase 24.49% from FY 2024. The city is estimated to receive \$49,923,475 in Federal and State grants, State Road Use Tax Funds, and County Contributions. Prior years included large increases due to American Rescue Plan Act Funds.

Charges for Services

This includes revenue from charges for services for Water, Sewer, Stormwater, Solid Waste, Transit, Parking and Landfill. Rate increases have been incorporated into all utilities (as shown on the "Fact Sheet" under the Budget Overviews tab). Rate increases were necessary due to a combination of operating costs rising, additional capital projects to support additional debt service and to meet revenue bond covenants. Utility charges are projected to be \$54,604,851. Other charges for services include copy charges, sales of maps and publications, street, sidewalk, and curb repairs, special Police services, Library services, Recreation programs, etc. Other charges for services are estimated at \$4,034,034 in FY 2025.

Special Assessments

Special assessments are an additional tax levied on private property for public improvements that enhance the value of the property. In FY 2025, special assessment revenue is estimated at \$3,000.

Miscellaneous Revenue

This category includes internal charges for services, proceeds from bonds, and revenues of a non-recurring nature. Miscellaneous revenues are estimated at \$47,920,111 in FY 2025.

RECOMMENDED CAPITAL IMPROVEMENT PLAN

The City of Dubuque's Capital Improvement Plan (CIP) represents the City's five-year plan for capital improvements and totals \$354,260,757. Appropriations of funding are made on an annual basis. The capital budget is therefore the first year of the five-year CIP. The approved capital budget for fiscal year 2025 totals \$88,753,825.

The recommended CIP reflects the City's comprehensive plan and the goals and priorities established by the City Council. Funding required to meet the capital needs for FY 2025 totals \$88.8 million. Approximately 42.88% (\$38.1 million) of this will be provided by issuance of new debt, primarily for sewer utility related projects (\$17.7 million) and Greater Downtown TIF related projects (\$9.3 million). Another funding source representing approximately 11.95% of total sources is operating receipts. Operating receipts come from current year revenues and essentially represent the amount of "cash" or pay as you go financing provided by each enterprise operation.

A major focus of the capital budget and capital improvement plan is the maintenance and refurbishment of existing city facilities. To this end, significant resources are dedicated for these types of projects including, Bee Branch Creek Watershed, Airport, Fire facilities, Civic Center, Grand River Center and Street, Sanitary and Water Improvements.

The following page provides a listing of some of the highlighted projects in the fiscal year 2025 capital budget.

The Capital Budget in the Resident's Guide includes a summary by department of all projects planned through FY 2029.

FY25 RECOMMENDED CAPITAL BUDGET HIGHLIGHTS

Department	Project Title	Total City Investment FY2025-FY2029
Police	Public Safety Software	\$ 3,000,000
Fire	Bunk Room Remodel	\$ 1,395,000
Fire	Outdoor Warning Siren Repair/Replace	\$ 159,080
Fire	Fire Station Expansion	\$ 4,773,700
Fire	Training Burn Tower Improvements - County Training Facility	\$ 466,676
Fire	2026 Fire Engine Replacement 1907	\$ 700,000
Fire	2026 Ambulance Replacement (1914)	\$ 400,000
Fire	2027 Fire Engine Replacement (1905)	\$ 750,000
Parks	Low/Mod Income Park Improvements	\$ 750,000
Parks	Reimagine Comiskey	\$ 3,417,000
Parks	Riverfront Pavilion Restoration	\$ 118,000
Parks	Washington Community Gateway	\$ 114,000
Civic Center	Five Flags Building Improvements	\$ 23,454,000
Recreation	Sutton Pool - Operational Projects	\$ 65,000
Conference Center	Roof Restoration	\$ 1,427,000
Conference Center	Public Restroom Remodels	\$ 770,000
Ice Center	New Northwest Corner Service Bar	\$ 241,500
Water	Water Meter Replacement Program	\$ 1,212,650
Water	Water Main Replacement Consent	\$ 971,000
Water	Private Lead Line Replacement	\$ 467,850
Water	Source Water PFAS Reduction Project	\$ 3,050,000
Water	Source Water PFAS Reduction Project - Granular Activated Carbon Filter Rehabilitation	\$ 6,500,000
W&RRC	Southwest Arterial Water Main Extension - Highway 20 to English Mill Pump Station	\$ 1,618,527
W&RRC	Water Storage Maintenance Program	\$ 2,500,000
W&RRC	BOD Capacity Upgrades	\$ 1,150,000
W&RRC	High Strength Waste Receiving and Storage	\$ 6,211,100
W&RRC	Industrial Controls Upgrade	\$ 3,000,000
Airport	Reconstruct Taxiway A	\$ 22,518,062
Airport	Terminal Building Modification	\$ 5,000,000
Airport	Taxiway D Extension	\$ 2,940,000
Airport	Taxiway J Improvements	\$ 3,820,600

Department	Project Title	Total City Investment FY2025-FY2029
Airport	Reconstruct General Aviation Apron	\$ 2,000,000
Public Works	Curb Ramp Program	\$ 2,750,000
Public Works	58,000 Gross Vehicle Weight (GVW) Dump Truck Replacement	\$ 1,426,000
Public Works	Solid Waste Collection Vehicles	\$ 3,406,547
Engineering	General Sanitary Sewer Replacement	\$ 1,575,800
Engineering	Cedar and Terminal Street Lift Station and Force Main Assessment and Improvements	\$ 4,850,000
Engineering	Old Mill Road Lift Station & Force Main	\$ 23,299,169
Engineering	Catfish Creek Sewershed Interceptor Sewer Improvements	\$ 13,877,212
Engineering	South West Arterial Interchange Sewer Extension	\$ 4,829,838
Engineering	Schmitt Island Sanitary Improvements	\$ 2,640,000
Engineering	Bee Branch Creek Gate & Pump Replacement	\$ 16,838,991
Engineering	Flood Control Maintenance Facility	\$ 3,781,000
Engineering	7th Street Extension to Pine Street	\$ 1,100,000
Engineering	Dubuque Industrial Center McFadden Farm - South Heacock Road Construction	\$ 4,647,776
Engineering	14th St Overpass	\$ 39,220,000
Engineering	US 20 - Northwest Arterial Intersection Operational and Capacity Improvements	\$ 5,497,000
Engineering	Development of McFadden Properties - Grading	\$ 8,943,178
Engineering	Development of Graft Properties	\$ 2,217,000
Engineering	Iowa Amphitheater on Schmitt Island	\$ 8,784,961
Engineering	STREETS Traffic Control Project Phase 2	\$ 2,423,500
Engineering	Federal Building Renovation	\$ 9,681,950
Economic Development	Greater Downtown Housing Creation Grant Program	\$ 2,000,000
Transportation	Transit Vehicle Replacement	\$ 4,013,947
Transportation	Smart Parking System	\$ 2,737,000
Transportation	Parking Ramp Major Maintenance Repairs	\$ 10,602,000
Housing	Assistance for Homeownership	\$ 5,143,523
Housing	Washington Neighborhood Home Purchase Program	\$ 1,587,370

COMMUNITY INFORMATION

Dubuque is Iowa's oldest city and is among the oldest settlements west of the Mississippi River. The first permanent settler to the area was French-Canadian fur trader Julien Dubuque. When he arrived in 1785, the Mesquakie (Fox) Indians occupied the region which included an abundant amount of lead mines. On June 1, 1833, the land was opened for settlement by the United States government under the Black Hawk Purchase Treaty and came to be known as the city of Dubuque.

Dubuque has long been a historical and cultural center with its numerous historic sites, architectural Historic Districts with well-preserved buildings and homes, a revitalized main street, history and art museums, live theaters, ballet troupes, a symphony, three private colleges, two seminaries, a Bible college, libraries and a local history research center, recreational and sports venues, beautiful parks, a state park and nature interpretive center, miles of hiking and biking trails and the great Mississippi River.

Recent recognitions include being named an Iowa Thriving Community for using innovative solutions to enhance housing offerings to residents of all income levels, one of the 100 Best Communities for Young People, the Most Livable Small City in the US, an Iowa Great Place, an All-America City five times between 2007 and 2019, and a LEED- Certified City (Leadership in Energy and Environmental Design). Dubuque scored 100 out of 100 on the 2021 Municipal Equality Index, issued by the Human Rights Campaign (HRC), based on the inclusiveness of its laws, policies, and services for lesbian, gay, bisexual, transgender, and queer (LGBTQ) residents. Dubuque is truly a "Masterpiece on the Mississippi."

ACCORDING TO THE 2022 AMERICAN COMMUNITY SURVEY (ACS), THE CITY OF DUBUQUE'S DEMOGRAPHICS INCLUDE THE FOLLOWING:

AGE

HOUSING

Total Housing Units: 27,271
 Occupied Housing Unites: 25,198
 Housing Occupancy: 92.4%
 Owner-Occupied: 64.8%
 Renter-Occupied: 35.2%

INCOME

Median Household Income: \$63,520
 Median Family Income: \$83,093
 Families in poverty: 10.4%
 Individuals in poverty: 13%
 Children in poverty: 15.7%

RACE

POPULATION

Total Population: 59,315
 Female Population: 51.2%
 Male Population: 48.8%
 Average Household Size: 2.20
 Family Households: 59.1%
 Non-Family Households: 40.9%
 Average Family Size: 2.87
 Median Age: 37.9 years

DUBUQUE'S LOCATION

Situated at the intersection of Iowa, Illinois, and Wisconsin, the community of Dubuque stands among the Mississippi River bluffs as a metropolitan service area for seven surrounding counties.

Dubuque is connected by four-lane highways to Davenport, Des Moines, Madison and Minneapolis. The majority of the way to Chicago is also four-lane highway. Dubuque is centrally located amongst several major metropolitan areas.

The Dubuque Regional Airport is the second-busiest airport in Iowa and serves travelers with seasonal service through Avelo Airlines and unscheduled service on Sun Country Airlines. Local and transient general aviation aircraft of all types take advantage of a great central location including the University of Dubuque Aviation Flight Program, Civil Air Patrol, Experimental Aircraft Association, and Key City Flyers, to name a few

Land Area: 33.0 square miles
Riverfront shoreline: 8.8 miles

Current Land Use

A review of existing land use within the Dubuque city limits (as of 2017) shows a balance of development among commercial, industrial, and institutional uses. (See Figure 9-2)

- ❑ Residential uses, separated as single-family and multi-family categories when combined are 5,355 acres, or 31% of Dubuque's total land area.
- ❑ Large swaths of agricultural land, particularly in the western portion of Dubuque, total 3,529 acres. Many of these agricultural properties were annexed into the city with the intent of being developed for another use in the future.
- ❑ An Existing Land Use Map can be found in Figure 9.1.

Current Zoning

Existing land use and current zoning are similar, but not the same. Within the city limits of Dubuque, land is 100% zoned -- including vacant land. Most land is zoned for its current use, but not always.

- ❑ Using the same broad categories examined for existing land use, the most prevalent zoning is 8,105 acres (48%) of single-family residential (which includes the small amount of two-family residential).
- ❑ The rest of the current zoning in Dubuque is divided about equally among agricultural with 3,067 acres (18%), commercial at 2,629 acres (15%), and industrial with 2,253 acres (13%). Multi-family zoning encompasses only 636 acres (4%) and institutional only 314 acres (2%).
- ❑ A breakdown of current zoning is shown in Figure 9.3. A current zoning map can be found in the Appendix.

FIGURE 9.2

❑ Current Land Use in Acres

10% Open Space (1,777 Acres)	9% Industrial (1,438 Acres)
27% Single Family (4,661 Acres)	21% Agricultural (3,529 Acres)
4% Multi Family (694 Acres)	8% Institutional (1,286 Acres)
9% Commercial (1,507 Acres)	12% Vacant (2,110 Acres)

Total Acres: 17,003

(Note: Total Acres excludes roads and river.)

FIGURE 9.3

❑ Current Zoning in Acres

18% Agricultural (3,067 Acres)	15% Commercial (2,629 Acres)
48% Single Family (8,105 Acres)	13% Industrial (2,253 Acres)
4% Multi Family (636 Acres)	2% Institutional (314 Acres)

Total Acres: 17,003

(Note: Total Acres excludes roads and river.)

SERVICES PROVIDED BY THE CITY OF DUBUQUE

Airport	Library
Ambulance & EMS	Licenses & Permits

Human Rights	Wastewater

RECREATION OPPORTUNITIES

53 parks with 1,246 acres
31 park shelters
15 tennis courts
9 pickle ball courts
6 combination volleyball/pickle ball courts
22 restroom buildings
4 accessible fishing piers
3 skate parks
1 pet park
288 units of play equipment
1 disc golf course
1 in-line hockey rink
10 softball fields
1 all-inclusive baseball field
1 baseball field
4,500 street trees
56 miles of on/off street trails
1,000 picnic tables
7 basketball courts
4 half basketball courts
2 amphitheaters
17 horseshoe pits

CULTURAL AMENITIES

In Dubuque there are over 45 non-profit arts and cultural organizations that provide year-round cultural programming in Dubuque and the surrounding area. Dubuque is home to a world-class Symphony Orchestra and Arboretum, two Smithsonian Affiliates - the Dubuque Museum of Art and the National Mississippi River Museum and Aquarium, the Julien Dubuque International Film Festival (JDIFF), multiple community theater groups including Grand Opera House, Bell Tower, Rising Star and Fly By Night. There are on average over 125 special events throughout the year from community festivals to outdoor music venues to parades and neighborhood events.

WORKFORCE

Today there are over 12,000 employees working in downtown Dubuque. Dubuque leads the State in downtown rehabilitation and development with over \$1.1 billion of public and private investment since 1985.

According to the latest data from Iowa Workforce Development (January 2024), Dubuque's employment is at 60,300. Dubuque County's unemployment rate for January 2024 is 3.7% while Iowa's rate was 3% and the nation's is 3.7%.

The top ten employers in the area employ less than 22% of the total workforce. Peninsula Gaming Co. LLC, the greatest revenue source among all taxpayers, contributes approximately 2% of the City's taxable valuation.

EMPLOYMENT BY INDUSTRY

City of Dubuque Mayor and City Council Non-profit & Partner Board Representation

As elected officials, the Mayor and City Council serve as a City Council Representative on a number of local, not-for-profit and partner organizations. Appointments are made at the request of the organization or are included in the organization's Bylaws or Articles of Incorporation. These appointments are affirmed every year by the City Council at an official meeting.

Area Council of Governments
Dubuque County Conference Board
Convention & Visitor's Bureau
County Resource Enhancement and Protection Act (REAP) Committee
Dubuque County Early Childhood Board
Dubuque County Emergency Management Commission
Dubuque Initiatives
Dubuque Main Street
Dubuque Metropolitan Area Solid Waste Agency
National League of Cities AI Advisory Committee
Dubuque Metropolitan Area Transportation System (DMATS)
Dubuque Racing Association
Dubuque County Examining Board
Four Mounds Foundation
Friends of the Mines of Spain Advisory Board
Greater Dubuque Development Corporation (GDDC)
Pre-Disaster Mitigation Plan Committee (PDMP)
River Valley Initiative Foundation Board of Directors
Federal Communications Commission Intergovernmental Advisory Committee

City of Dubuque Boards and Commissions

Individuals serving on Boards and Commissions play an important role in advising the City Council on matters of interest to our community and its future. The City Clerk's Office accepts applications for any Board or Commission at any time, and the application stays active for one year from the date of receipt in the Clerk's Office. Applicants must be a resident of the City of Dubuque. Some boards and commissions may require compliance with the State of Iowa Gender Balance Law.

LOOKING AHEAD

Over the course of three sessions in August, City Council members affirmed the 15-year vision statement and mission statement and identified eight five-year goals for the city.

They also identified top and high priorities for a 2023-2025 policy agenda as well as in-progress projects and capital projects for 2023-2025.

FIVE-YEAR GOALS: 2023 - 2025

- **Vibrant Community:** Healthy and Safe
- **Financially Responsible, High-Performance City Organization:** Sustainable, Equitable, and Effective Service Delivery
- **Robust Local Economy:** Diverse Businesses and Jobs with Economic Prosperity
- **Livable Neighborhoods and Housing:** Great Place to Live
- **Sustainable Environment:** Preserving and Enhancing Natural Resources
- **Connected Community:** Equitable Transportation, Technology Infrastructure, and Mobility
- **Diverse Arts, Culture, Parks, and Recreation Experiences and Activities**
- **Partnership for a Better Dubuque:** Building Our Community that is Viable, Livable, and Equitable

2038 VISION STATEMENT

Dubuque 2038 is a sustainable and resilient city, an inclusive and equitable community where ALL are welcome. Dubuque 2038 has preserved our Masterpiece on the Mississippi, has a strong, diverse economy and expanding connectivity. Our residents experience healthy living and active lifestyles; have choices of quality, affordable, livable neighborhoods; have an abundance of diverse, fun things to do; and are successfully and actively engaged in the community.

MISSION STATEMENT

Dubuque city government is progressive and financially sound with residents receiving value for their tax dollars and achieving goals through partnerships. Dubuque city government's mission is to deliver excellent municipal services that support urban living; contribute to an equitable, sustainable city; plan for the community's future; and facilitate access to critical human services.

POLICY AGENDA

TOP PRIORITIES & HIGH PRIORITIES

Policy agenda items are issues that need direction or a policy decision by the City Council, or need a major funding decision by the City Council, or issues that need City Council leadership in the community or with other governmental bodies. The policy agenda is divided into top priorities and high priorities.

2023 - 2025 TOP PRIORITIES *(in alphabetical order)*

- Air Service: Future Strategy & Action Plan
- City Workforce Retention & Attraction
- Comprehensive Study of Fire Station Locations and Staffing
- Police Department Full Staffing
- Street Maintenance & Rehabilitation Program

2023 - 2025 HIGH PRIORITIES *(in alphabetical order)*

- Bee Branch Detention Basin Pump Replacement
- Catfish Creek Sanitary Sewer Project Pump Station
- Central Avenue Corridor Revitalization Plan
- Leveraging Federal & State Infrastructure Grant Programs
- RAISE Grant & Matching Funds for Construction (14th St. Railroad Overpass and Elm St. and 16th St. Corridor Complete Streets)

MANAGEMENT IN PROGRESS & MAJOR PROJECTS

Under each City Council goal are items listed as **MANAGEMENT IN PROGRESS** and **MAJOR PROJECTS**. Each goal contains management in progress items and some City Council goals also have major projects associated.

Management in progress are items that are underway and budgeted. Staff is implementing and providing updates to City Council.

Major projects are projects that are underway and budgeted. Staff is implementing and providing updates to City Council.

VIBRANT COMMUNITY

MANAGEMENT IN PROGRESS

- Comprehensive Police Transparency: Annual Report
- Diversity, Equity, and Inclusion City Action Plan: Departmental Action Plans
- Emergency Communications Accreditation
- Emergency Communications Center: Reassess Funding, Relocation to 2900 Chavenelle
- Equitable Fines and Fees Reform
- Fire/Police Culture Action Plan: Development and Implementation
- Food Insecurity: Report and City Actions
- Historic Federal Building: Police Satellite Location
- License Plate Reader Cameras: Installation
- Traffic and Security Cameras Deployment

FINANCIALLY-RESPONSIBLE, HIGH-PERFORMANCE CITY ORGANIZATION

MANAGEMENT IN PROGRESS

- Downtown City Facilities/Workspace Analysis and Plan
- Enterprise Asset Management System
- Enterprise Resource Planning (ERP) Software Implementation
- Federal and State Legislative Advocacy Agenda and Priorities for 2024
- Human Resource Information System/Payroll: RFP and Implementation
- Human Resources Modernization
- Organizational Culture: Continuous Improvement

MAJOR PROJECTS

- Data Center Relocation
- Engine House #1 Remodel Project

ROBUST LOCAL ECONOMY

MANAGEMENT IN PROGRESS

LIVABLE NEIGHBORHOODS & HOUSING

MANAGEMENT IN PROGRESS

- Imagine Dubuque: Annual Update Report
- Multicultural Family Center Youth Programs Expansion
- Multi-Tiered Housing Inspection Program
- Neighborhood Associations Toolkit
- Safe Housing: Housing Inspection Program Enhancements and Software
- Truck Route Ordinance
- Unified Development Code Update

SUSTAINABLE ENVIRONMENT

MANAGEMENT IN PROGRESS

- Electric Bus Implementation
- Electric Fuel Excise Rate Ordinance Adoption
- Emerald Ash Borer Response
- Odor Reduction Analysis and Report
- Pollinator Habitat in Park System
- Sewer System Infrastructure Asset Master Plan

MAJOR PROJECTS

- Lead Water Service Line Replacement
- Supervisory Control And Data Acquisition (SCADA) System Overhaul
- Water Main Extensions – Southwest Arterial

CONNECTED COMMUNITY

MANAGEMENT IN PROGRESS

- Central Avenue Traffic Corridor Study
- Community Broadband Expansion Project
- Neighborhood Speeding Mitigation: Direction and Enforcement
- Roundabout Policy
- Smart Parking and Mobility Study
- Traffic Signal Synchronization/STREETS Program

MAJOR PROJECTS

- Fiber Connections to Additional City Locations Project
- Chaplain Schmitt Island Trail Connector Project
- Connection to Data Center Project
- East/West Corridor Roundabouts: Environmental Clearance
 - a. University/Pennsylvania: Design
 - b. University/Asbury: Design
 - c. University/Loras: Design
- Kerper Boulevard Roundabout Project
- RAISE Planning Grant for Design
 - a. Elm and 16th Street Project
 - b. 14th Street Overpass Project
- Southwest Arterial Intelligent Transportation System (ITS) Project

DIVERSE ARTS, CULTURE, PARKS, & RECREATION EXPERIENCES & ACTIVITIES

MANAGEMENT IN PROGRESS

- Arts and Culture Master Plan: Revised Community Engagement Strategy Adoption
- Arts Operating Grants Review and Funding
- Comiskey Park Upgrades: Phase 2
- Comprehensive Parks Master Plan

MAJOR PROJECTS

- Eagle Valley Subdivision Park
- English Ridge Subdivision Park
- Five Flags Center Short-Term Improvements
- Jackson Park Restrooms
- Westbrook Subdivision Park

PARTNERSHIP FOR A BETTER DUBUQUE

REVENUE CATEGORY EXPLANATIONS

PROPERTY TAXES

All property taxes collected for the City are levied on the assessed valuation of real and personal property as determined by the City Assessor. For Fiscal Year 2025, the total tax collection of \$28,223,481 is a 6.01% increase as compared to FY 2024. The total tax collection includes \$10,276 for agricultural land. The overall levy is made up of five parts as described below.

GENERAL LEVY HISTORY

The **General Levy** for the general fund is limited by the State of Iowa to \$8.10 per \$1,000 of assessed valuation in any tax year, except for specific levies authorized outside the limit. The City of Dubuque general levy for FY 2025 is just \$3.00259, which is down from \$3.31230 the year before. The General Levy is certified with the State of Iowa at \$8.10 by moving eligible Employee Trust & Agency expenses (allowable in the Trust & Agency Levy) into the General Levy.

The State of Iowa requires this shift to maximize the General Levy first. Also, 50% of the one cent local option sales tax and 100% of the gaming revenues (taxes and lease) is applied for property tax relief which has created a savings in the total City tax rate of \$5.17/\$1,000 valuation.

Outside of the General Fund levy, a **Transit Levy** can be used without the vote of the electors to fund the operations of a municipal transit system. This levy may not exceed 95 cents/\$1,000 valuation. The levy is collected in the General Fund, and then transferred to the Transit Fund. The FY 2025 levy of 0.691180 cents will generate \$1,961,488 which is a 18.53% decrease from FY 2024.

TORT LIABILITY LEVY HISTORY

The **Trust and Agency Levy** is available for payroll benefit costs (as defined by the City Finance Committee) including Retirement (IPERS), Municipal Fire and Police Retirement (MFPSI), Police Pensions, Social Security/Medicare, Police and Fire medical costs, Health Insurance, Worker's Compensation, Life Insurance, and Unemployment. The total payroll benefit costs allowable in this levy are \$16.0 million. The trust and agency levy has increased to \$5.594 in FY 2025.

TRUST & AGENCY LEVY HISTORY

DEBT SERVICE LEVY HISTORY

The final portion of the levy is for **Debt Service**. This levy is restricted to General Obligation (GO) bond debt and judgments. The City of Dubuque has a GO bond issuance for the replacement of fire trucks and an ambulance issued in FY 2011 for \$1,355,500 and a franchise fee judgment bond issued in FY 2016 for \$2,800,000 with debt service abated by the debt service levy of \$290,069 in FY 2025.

OTHER TAXES

Local Option Sales Tax (LOST)

Beginning April 1, 1988, an additional 1% local option sales tax is applied to all goods and services delivered within the City of Dubuque, to which the State of Iowa sales tax already applies. This was approved by the voters in February of 1988. Of the total received, 50% of the funds are marked for property tax relief; 20% for City facilities maintenance (upkeep of City-owned property, transit equipment, riverfront and wetland development, and economic development); and 30% for special assessment relief (street special assessments and the maintenance and repair of streets). Annually the State sends the City an estimate of the amount of local option sales tax it will receive monthly for the year. The amount is 95% of the estimated collection and then in November, the City will receive an adjustment to actual for the prior year. This estimate along with actual receipt and sales growth trends, are used to budget. The budget for FY 2025 3.18% compared to FY 2024, which reflects increased sales growth due to online sales.

Impact of Local Option Sales Tax on City's Share of Property Tax Paid by the Average Homeowner

In FY 2025 approximately \$6,463,758 will be generated for property tax relief. This translates into a reduction of the City share of property tax paid by the Average Homeowner of \$187.37. This chart illustrates the amount the total levy would have to be if the Local Option Sales Tax had not been approved.

Hotel/Motel Tax

Beginning in November of 1991, a referendum was passed to increase hotel/motel tax from 5% to 7% (limit). This tax is levied upon the occupancy of any room furnished by a hotel/motel in the City. By Resolution, 50% of the hotel/motel tax is to be used for promotion and encouragement of tourism and convention business. City Council's policy is to provide 50% of the past 4 quarters actual receipts to the Convention & Visitors Bureau (CVB) in the next fiscal year's budget. The remaining 50% goes into the General Fund for property tax relief. Additional commitments include, 25% of actual hotel/motel tax paid by the Grand Harbor Hotel and Water Park be returned to them.

Hotel/motel tax has increased gradually over the years until FY 2004, when a 35% increase was realized. This was due to the addition of several new hotel/motels in Dubuque. FY 2025 is budgeted with an increase of 15.39% over FY 2024, which reflects the actual trend.

Other Taxes

Other taxes include tax on agricultural land (state levy limit is \$3.00375), military service, county monies & credits, gaming taxes (Greyhound Park and Casino para-mutual and slot machine tax and Diamond Jo riverboat tax on bets), mobile home tax, and tax increment property tax revenues.

LICENSES AND PERMITS

Fees from licenses include business, beer, liquor, cigarette, dog, cat, bicycle, housing, and other miscellaneous. Fees from permits include building, electrical, mechanical, plumbing, refuse hauling, excavation, subdivision inspection, swimming pool inspection, animal impoundments, and other miscellaneous.

Also included are cable TV franchise fees (5%) and utility franchise fees (5% gas and 5% electric) – with an increase of 15.85% in FY 2025. The Fiscal Year 2025 projection for Cable Franchise Fees is \$508,342. The Utility Franchise Fees FY 2025 projection is \$6,903,981, all for property tax relief.

USE OF MONEY AND PROPERTY

This category includes interest and investment earnings collected, rent received from City owned property, and lease revenue. The gaming related leases generate the most revenue. In 1984, the residents of Dubuque approved a referendum allowing dog racing. In 1987, this expanded to include riverboat gaming and in 1994 slot machines at the dog track. The Greyhound Park and Casino expanded with a bigger and better facility and in June 2005, slot machines were added to go from 600 to 1,000 and in March 2006, table games were added.

Effective April 1, 2004 the lease with the Dubuque Racing Association (DRA) was revised to collect 1% of coin-in and unadjusted drop from .5% previously, and its end date changed from 2009 to 2018. The City receives a distribution of profit from the DRA annually that was previously split 40% to the City, 30% to local charities and 30% retained by the DRA. A lease amendment in FY 2010 changed this split to 50% City / 50% Charities / DRA. In addition, this lease amendment changed the unadjusted drop from .5% for table games to 4.8 percent of adjusted gross receipts.

On December 14, 2021, an amended lease took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in. The amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the \$10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. In addition, the distribution of net profit is now split three ways between the City, charities, and the Schmitt Island Master Plan Implementation from a two-way split between the City and charities. The amended lease has an expiration date of December 31, 2055. The change in market share and changes in the lease agreement impacts the City's lease payment from the DRA. The new lease effective 1/1/22 requires the DRA to pay the City 1.5 percent of coin in from slot machines (previously 1 percent), 4.8 percent of gross revenue from table games, and 0.5 percent of sports wagering. Diamond Jo admissions are also collected through their lease.

City Council policy is to use 100% of the DRA distribution of profit to support the Capital Improvement budget, however in Fiscal Year 2024 100% of DRA distribution of profit is used for the operating budget. \$210,055 will be used to offset the new State legislation which reduced the residential rollback and reduced City resources by \$627,000, \$291,349 will be used for the purchase of Solid Waste tipper carts, and the balance will be used for non-recurring improvement packages. This is a change from past use of DRA distributions because all funds will be used for FY 2025 operations. City Council policy for the total received from the DRA operating lease and taxes, and the Diamond Jo admissions and taxes, is to split it 100% for property tax relief in the General Fund and 0% to support the Capital Improvement program.

Impact of Gaming Revenues on City's Share of Property Tax Paid by the Average Homeowner

In 2025, 100% of the total or approximately \$7,405,579 is projected to be generated and reduce the amount paid by the average homeowner by \$216.87. This chart illustrates the total the average homeowner would have to pay without the contribution of gaming revenue. FY 2025 and beyond gaming projections include the impact of video gaming terminals in Illinois and planned casino in Rockford.

INTERGOVERNMENTAL REVENUE

Intergovernmental revenues include Federal grants and reimbursements, State grants and reimbursements, State shared revenues, and County or other local grants and reimbursements. Many of these revenues are construction project related and thus significantly increase and decrease with the timing of projects. Federal and State grants received by the City are listed on the 'Summary of How Budgeted Expenditures are Funded by Source of Income' under the Financial Summaries tab.

In FY 03/04, the State of Iowa discontinued State shared recurring revenues (liquor tax, personal property tax replacement, municipal assistance, and state funded monies and credits) due to a budget crisis at the State level. This caused a shortfall of \$1,051,625 in the City of Dubuque's General Fund. Then in FY 04/05 the bank franchise tax was eliminated by the State causing a shortfall of \$145,000. This was addressed by making cuts, shifting funding and increasing revenues by adding a 2% gas and electric franchise fee.

The Iowa Department of Transportation (IDOT) provides annual projections on the amount of Road Use Tax Funds the City of Dubuque will receive over the next five years based on a per capita amount. The State Road Use Tax Fund consist of revenues from fuel tax, vehicle registration fees, use tax, driver's license fees and other miscellaneous sources and is distributed to cities on a per capita basis. It should be noted that in FY 2010, the Iowa Department of Revenue increased Road Use Tax Funds (RUT) as a result of higher vehicle registration fees passed into law in 2008. The gas tax was increased ten cents beginning in February 2015. The city is estimated to receive \$43,870,059 for FY 2025-2029.

CHARGES FOR SERVICES

Utility Charges

This includes revenue from charges for services for Water, Sewer, Stormwater, Solid Waste, and Landfill. Rate increases have been incorporated in all utilities (as listed on the “Fact Sheet” under the Budget Overviews tab). Rate increases were necessary due to a combination of operating costs rising (fuel, gas/ electric, supplies), additional capital projects, to support additional debt service, and to meet revenue bond covenants.

Other Charges for Services

This includes revenue from all charges for current services exclusive of utilities, such as:

General Government - Copy charges, sale of maps and publications, zoning adjustment fees, sub plat review fees, plan check fees, and temporary use fees.

Highways/Streets/Sanitation – Street, sidewalk, and curb repairs, engineering and inspection fees, and weed cutting charges.

Public Safety – Special Police services and ambulance fees.

Municipal Enterprises – Library services, transit services, airport charges and fuel sales, and parking meters and lot collections.

Recreation – Recreation programs, golf course fees, aquatics, and park fees.

SPECIAL ASSESSMENTS

Special Assessments are an additional tax levied on private property for public improvements that enhance the value of the property. Principal and interest payments received on special assessments are included in this revenue category.

MISCELLANEOUS REVENUE

Internal Charges

These are the charges for labor, equipment, materials, printing, and messenger service which City departments pay to internal services departments or to other City departments.

Proceeds from Bonds

This includes proceeds from sale of bonds for the principal, premium, and accrued interest.

Miscellaneous Revenue

This includes revenues of a non-recurring nature which are not assigned above.

Transfers

This is for the transfer of money between City funds.

REVENUE HIGHLIGHTS

REVENUE PROJECTIONS

The revenue projection process starts with five year projections calculated on all tax levied funds (General, Transit, Debt, Tort, and Trust & Agency). Prior year's actual and current year-to-date amounts are used to project both the current year and next four year's revenues. Information received from the State, County, and Iowa League of Municipalities is utilized to project recent trends and anticipated amounts. The City Manager and the Chief Financial Officer review estimates, with input from the Chief Human Resources Officer, to make informed judgments on all revenues city wide. The Budget and Fiscal Policy Guidelines are recommended to City Council for adoption.

The Departments then submit their estimates and the Chief Financial Officer, Budget Manager, and Budget Analysts review all details, discuss with Departments, make appropriate adjustments and prepare the Budget Financial Summary for their Department. Budget Hearings begin with the City Manager, Assistant City Manager, Chief Financial Officer, Budget Manager, Budget Analysts, and each Department. At the Hearings, reviews are completed of Department revenues, expenses, and ending fund balances or property tax support change to determine if fees and charges need to be adjusted. Many funds have a restricted or a minimum fund balance required for cash flow or other purposes. Fund balances above the restricted amounts are used to fund nonrecurring expenses.

WHERE THE MONEY COMES FROM FY 2025 RECOMMENDED TOTAL BUDGET

Total Recommended Budget \$263,563,969

*Excludes Transfers

The major resource assumptions used in preparing the Fiscal Year 2025 recommended budget include the following:

a. Cash Balance. Unencumbered funds or cash balances of \$200,000 will be available in FY 2025 and each succeeding year to support the operating budget.

b. Interest Revenue. Interest revenue increased from \$1,500,016 in FY 2024 to \$1,718,055 in FY 2025. The FY 2025 budget is based on Fiscal Year 2024 year-to-date annualized.

b. Sales Tax Revenue. By resolution, 50% of sales tax funds must be used in the General Fund for property tax relief in FY 2025. Sales tax receipts are projected to increase 3.18% (\$398,711) over FY 2024 budget and 3.00% over FY 2024 actual of \$12,550,987 based on FY 2024 revised revenue estimate, which included no reconciliation payments from the State of Iowa in this time period, and then an increase at an annual rate of 2.00% percent per year beginning in FY 2026. The following chart shows the past four years of actual sales tax funds and projected FY 2025 for the General Fund:

Sales Tax Funds	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025
PY Q4	\$ 380,549	\$ 419,551	\$ 475,037	\$ 451,920	\$ 465,478
Quarter 1	\$ 1,252,896	\$ 1,361,526	\$ 1,177,196	\$ 1,545,777	\$ 1,592,150
Quarter 2	\$ 1,274,904	\$ 1,425,968	\$ 1,522,885	\$ 1,596,422	\$ 1,644,314
Quarter 3	\$ 1,072,643	\$ 1,211,388	\$ 1,443,097	\$ 1,515,252	\$ 1,560,710
Quarter 4	\$ 839,102	\$ 950,069	\$ 1,110,593	\$ 1,166,123	\$ 1,201,107
Reconciliation	\$ 805,052	\$ 945,466	\$ 371,388	\$ —	\$ —
Total	\$ 5,625,146	\$ 6,313,968	\$ 6,100,196	\$ 6,275,494	\$ 6,463,759
% Change	+18.56%	+10.91%	-3.39%	+2.87%	+3.00%

c. Hotel/Motel Tax Revenue. Hotel/motel tax receipts are projected to increase 15.39% (\$450,387) over FY 2024 budget and 3.00% over FY 2024 re-estimated receipts of \$3,278,041, and then increase at an annual rate of 3.00% per year.

d. FTA Revenue. Federal Transportation Administration (FTA) transit operating assistance decreased from \$570,300 in FY 2024 to \$558,000 in FY 2025. The FY 2025 budget is based on the revised FY 2024 budget received from the FTA. Federal operating assistance is based on a comparison of larger cities. Previously the allocation was based on population and population density.

e. Ambulance Revenue. Ambulance Ground Emergency Medical Transport Payments increased from \$2,324,377 in FY 2024 to \$2,401,917 in FY 2025. GEMT is a federally-funded supplement to state Medicaid payments to EMS providers transporting Medicaid patients which began in FY 2023. Fiscal Year 2024 is based on the first four months of FY2023. Fiscal Year 2025 is projected using the 3-year average for both growth rate and actual cost per transport. The call volume projection of 1,256 for FY 2025 is based on a 5% increase from FY 2024 (1,194) based on year-to-date performance. The actual rate of reimbursement for Medicaid increased from \$1,596 in FY 2024 to \$1,911 in FY 2025 based on the pre-audited cost report for FY 2023. This line item is offset by GEMT Pay to Other Agency expense for local match of \$800,631 resulting in net revenue of \$1,601,286.

Ambulance Fees increased from \$1,917,275 in FY 2024 (\$349 per call) to \$2,074,232 in FY 2025 (\$361 per call). FY 2023 actual was 1,717,551. In FY 2025, it is currently estimated that there will be 5,746 calls with \$361 per call average. The FY25 ambulance revenue projection is based on the FY24 actual transport volume of 1,795 for the first four months multiplied by 3 to equal 5,385. It is then multiplied by 6.7% to get the 5,746 projected Fiscal Year 2025 number. The 3-year average for the percentage of growth in transport volume (including the 9.6% for FY24) is 6.7% per year.

f. Miscellaneous Revenue. Miscellaneous revenue has been estimated at 2% growth per year over budgeted FY 2024.

g. Building Fee Revenue. Building fees (Building Permits, Electrical Permits, Mechanical Permits and Plumbing Permits) are anticipated to increase \$78,213 from \$853,817 in FY 2024 to \$932,030 in FY 2025.

h. DRA Revenue.

Gaming revenues generated from lease payments from the Dubuque Racing Association (DRA) are estimated to increase \$322,542 from \$7,083,037 in FY 2024 to \$7,405,579 in FY 2025 based on revised projections from the DRA. This follows a \$2,283,319 increase from budget in FY 2023 and a \$43,621 increase from budget in FY 2022.

The following is a ten-year history of DRA lease payments to the City of Dubuque:

Fiscal Year	DRA Lease	\$ Change	%
FY 2025 Projected	\$7,405,579	\$793,713	12.0%
FY 2024 Revised	\$6,611,866	-\$471,171	-6.7%
FY 2024 Budget	\$7,083,037	-\$108,438	-1.5%
FY 2023 Actual	\$7,191,475	\$583,944	8.8%
FY 2022 Actual	\$6,607,531	\$2,645,535	66.8%
FY 2021 Actual	\$3,961,996	-\$1,187,192	-23.1%
FY 2020 Actual	\$5,149,188	\$293,177	6.0%
FY 2019 Actual	\$4,856,011	\$18,879	0.4%
FY 2018 Actual	\$4,837,132	-\$195,083	-3.9%
FY 2017 Actual	\$5,032,215	-\$155,297	-3.0%
FY 2016 Actual	\$5,187,512	-\$158,104	-3.0%
FY 2015 Actual	\$5,345,616	-\$655,577	-10.9%
FY 2014 Actual	\$6,001,193	-\$819,090	-12.0%

The Diamond Jo payment related to the revised parking agreement increased from \$597,905 in FY 2024 to \$624,377 in 2025 based on estimated Consumer Price Index adjustment.

i. DRA Gaming.

The split of gaming revenues from taxes and the DRA lease (not distributions) in FY 2025 remains at a split of 100% operating and 0% capital. When practical in future years, additional revenues will be moved to the capital budget from the operating budget.

The following shows the annual split of gaming taxes and rents between operating and capital budgets from FY2020– FY2025:

j. Diamond Jo Revenue. The Diamond Jo Patio lease (\$25,000 in FY 2025) and the Diamond Jo parking privileges (\$624,377 in FY 2025) have not been included in the split with gaming revenues. This revenue is allocated to the operating budget.

k. Residential Rollback. The residential rollback factor will decrease from 54.65% in 2024 to 46.34% or a (15.20)% decrease in FY 2025. The rollback has been estimated to remain the same from Fiscal Years 2026 through 2029.

The percent of growth from revaluation is to be the same for agricultural and residential property; therefore, if one of these classes has less than 3% growth for a year, the other class is limited to the same percent of growth. A balance is maintained between the two classes by ensuring that they increase from revaluation at the same rate. In FY 2025, agricultural property had less growth than residential property which caused the rollback factor to decrease.

Residential property was revalued by the City Assessor by neighborhood for the January 1, 2023 property assessments, which impacts the Fiscal Year 2025 budget. The average residential property value increased 23.20%. This revaluation of residential property resulted in the taxable value for the average homeowner calculation to increase from \$159,503 to \$196,508 (+23.20%).

The decrease in the residential rollback factor decreases the value that each residence is taxed on. This decreased taxable value for the average homeowner (\$87,169 taxable value in FY 2024 and \$91,067 taxable value in 2025) results in more taxes to be paid per \$1,000 of assessed value. In an effort to keep property taxes low to the average homeowner, the City calculates the property tax impact to the average residential property based on the residential rollback factor and property tax rate. In a year that the residential rollback factor increases, the City recommends a lower property tax rate than what would be recommended had the rollback factor remained the same.

The residential rollback in Fiscal Year 1987 was 75.6481 percent as compared to 46.3428 percent in Fiscal Year 2025. The rollback percent had steadily decreased since FY 1987, which has resulted in less taxable

value and an increase in the City's tax rate. However, that trend began reversing in FY 2009 when the rollback reached a low of 44.0803 percent. If the rollback had remained at 75.6481 percent in FY 2024, the City's tax rate would have been \$7.04 per \$1,000 of assessed value instead of \$9.90 in FY 2024.

I. State Equalization Order/Property Tax Reform. There was not an equalization order for commercial or industrial property in Fiscal Year 2025. The Iowa Department of Revenue is responsible for "equalizing" assessments every two years. Also, equalization occurs on an assessing jurisdiction basis, not on a statewide basis.

Commercial property was revalued by the City Assessor for the January 1, 2023 property assessments, which impacts the Fiscal Year 2025 budget. The average commercial property value increased 25%. This revaluation of commercial property resulted in the taxable value for the average commercial calculation to increase from \$432,475 to \$540,594 (+25%).

Commercial and Industrial taxpayers previously were taxed at 100 percent of assessed value; however due to legislative changes in FY 2013, a 95% rollback factor was applied in FY 2015 and a 90% rollback factor will be applied in FY 2016 and beyond. The State of Iowa backfilled the loss in property tax revenue from the rollback 100% in FY 2015 through FY 2017 and the backfill was capped at the FY 2017 level in FY 2018 and beyond. **The FY 2025 State backfill for property tax loss is estimated to be \$808,254 for all funds (General Fund, Tort Liability Fund, Trust and Agency Fund, Debt Service Fund, and Tax Increment Financing Funds).**

Senate File 619 was signed into law by Governor Reynolds on June 16, 2021. The Bill provides that beginning with the FY 2023 payment, the General Fund standing appropriation for commercial and industrial property tax replacement for cities and counties will be phased out in four or seven years, depending on how the tax base of the city or county grew relative to the rest of the state since FY 2014. Cities and counties where the tax base grew at a faster rate than the statewide average from FY 2014 through FY 2021 will have the backfill phased out over a four-year period from FY 2023 to FY 2026, while those that grew at a rate less than the statewide average will have the backfill phased out over a seven-year period from FY 2023 to FY 2029. The City of Dubuque's tax base grew at a rate less than the statewide average and will have a backfill phase out over a seven year period from FY 2023 to FY 2029. **Beginning in FY 2023, the backfill will be eliminated over a eight year period.**

The projected reduction of State backfill revenue to only the general fund is as follows:

Fiscal Year	State Backfill Reduction
2025	-\$113,840
2026	-\$113,840
2027	-\$113,840
2028	-\$113,840
2029	-\$113,840
Total	-\$569,200

Business Property Tax Credit Law Changes and Implementation of Two-Tier Assessment Limitations

From FY 2015 through FY 2023, commercial, industrial and railroad properties were eligible for a Business Property Tax Credit. The Business Property Tax Credit was deducted from the property taxes owed and the credit was funded by the State of Iowa. The average commercial and industrial properties (\$540,594 Commercial / \$632,952 Industrial) received a Business Property Tax Credit from the State of Iowa for the City share of their property taxes of \$148 in FY 2015, \$693 in FY 2016, \$982 in FY 2017, \$959 in FY 2018, \$843 in FY 2019, \$861 in FY 2020, \$779 in FY 2021, \$780 in FY 2022, and \$722 in FY 2023.

House File 2552, Division 11 passed in the 2022 legislative session and signed by the Governor on May 2, 2022 repeals the Business Property Tax Credit (BPTC). In lieu of the BPTC, beginning with assessment year 2022, all commercial, industrial, and railroad properties will receive a property assessment limitation on the first \$150,000 of value of the property unit equal to the assessment limitation for residential property. The value of the property unit that exceeds \$150,000 receives the same ninety percent assessment limitation it has in the past.

The \$125 million fund will continue to be appropriated each year for reimbursements to counties. County auditors will file a claim for the first tier of the assessment limitations in September. Assessors will continue to provide the unit configuration for auditors as these definitions remained the same. Taxpayers are not required to file an application to receive the first \$150,000 of assessed value at the residential assessment limitation rate.

If the total for all claims is more than the appropriated amounts, the claims will be prorated and the Iowa Department of Revenue will notify the county auditors of prorated percentage by September 30th. Lawmakers believe the new standing general fund will exceed the projected level of claims for fiscal years 2024 through 2029. Then in fiscal year 2030, the local government reimbursement claims will begin being prorated.

The projected backfill for Dubuque for the two-tier assessment limitation in Fiscal Year 2025 is estimated to be \$576,898.

m. Multi-Residential Property Class/Eliminated State Shared Revenue.

Beginning in FY 2017 (July 1, 2016), new State legislation created a new property tax classification for rental properties called multi-residential, which requires a rollback, or assessment limitations order, on multi-residential property which will eventually equal the residential rollback. Multi-residential property includes apartments with 3 or more units. Rental properties of 2 units were already classified as residential property.

The State of Iowa did not backfill property tax loss from the rollback on multi-residential property. The rollback occurred as follows:

Fiscal Year	Rollback %	Annual Loss of Tax Revenue
FY 2017	86.25%	\$331,239
FY 2018	82.50%	\$472,127
FY 2019	78.75%	\$576,503
FY 2020	75.00%	\$691,640
FY 2021	71.25%	\$952,888
FY 2022	67.50%	\$752,366
FY 2023	63.75%	\$662,821
FY 2024	54.65%	\$1,186,077
Total		\$5,625,661

This annual loss in tax revenue of \$1,186,077 from multi-residential property was not backfilled by the State. From Fiscal Year 2017 through Fiscal Year 2024 the City lost \$5,625,661 in total, meaning landlords paid that much less in property taxes. The state did not require landlords to charge lower rents or to make additional investment in their property.

In Fiscal Year 2024, the multi-residential property class was eliminated and is reported with the residential property class going forward.

State Shared Revenue Eliminations

In addition, the State of Iowa eliminated the:

- a. Machinery and Equipment Tax Replacement in FY 2003 (-\$200,000)
- b. Personal Property Tax Replacement in FY 2004 (-\$350,000)
- c. Municipal Assistance in FY 2004 (-\$300,000)
- d. Liquor Sales Revenue in FY 2004 (-\$250,000)
- e. Bank Franchise Tax in FY 2005 (-\$145,000)
- f. Alcohol License Revenue in FY 2023 (-\$85,000)

The combination of the decreased residential rollback, State funding cuts and increased expenses has forced the City's tax rate to increase since 1987 when the residents passed a referendum to establish a one percent local option sales tax with 50% of the revenue going to property tax relief.

n. Taxable Value. FY 2025 will reflect the following impacts of taxable values of various property types:

Property Type	Percent Change in Taxable Value
Residential (Includes Multi-Residential)	+5.29 %
Commercial	+25.87 %
Industrial	+6.79 %
Overall	+5.71 %

*Overall taxable value increased 5.71% percent after deducting Tax Increment Financing values

Assessed valuations were increased 2 percent per year beyond FY 2025.

o. Riverfront Property Lease Revenue. Riverfront property lease revenue is projected to increase by \$212,448 in FY 2025 to \$4,110,287 due to the estimated consumer price index increase.

p. Franchise Fees. Natural Gas franchise fees have been projected to increase three percent over FY 2023 actual of \$1,921,498. Also, Electric franchise fees are based on FY 2023 Actual of \$1,921,498 plus 9.8% based on Alliant Energy's interim rate increase. The franchise fee revenues are projected to increase 4% from FY 2026 through FY 2029.

The City provides franchise fee rebates to gas and electric customers who are exempt from State of Iowa sales tax. Franchise fee rebates are provided at the same exemption percent as the State of Iowa sales tax exemption indicated on the individual gas and or electric bill. To receive a franchise fee rebate, a rebate request form must be completed by the customer, the gas and/or electric bill must be attached, and requests for rebates for franchise fees must be submitted during the fiscal year in which the franchise fees were paid except for June. Natural Gas franchise fee rebates have been projected to increase 29% over 2024 budget of \$78,500 and Electric franchise fee rebates have been projected to increase 45.24% over 2024 budget of \$581,855.

The franchise fee charged on gas and electric bills increased from 3% to 5%, the legal maximum, on June 1, 2015.

q. Property Tax Rate. For purposes of budget projections only, it is assumed that City property taxes will continue to increase at a rate necessary to meet additional requirements over resources beyond FY 2025.

r. Police & Fire Protection. FY 2025 reflects the thirteenth year that payment in lieu of taxes is charged to the Water and Sanitary Sewer funds for Police and Fire Protection. In FY 2025, the Sanitary Sewer fund is charged 0.43% of building value and the Water fund is charged 0.62% of building value, for payment in lieu of taxes for Police and Fire Protection. This revenue is reflected in the General Fund and is used for general property tax relief.

EXPENDITURE HIGHLIGHTS

EXPENDITURE PROJECTIONS

The expenditure projection process starts with 5 year projections calculated on all tax levied funds (General, Transit, Debt, Tort, and Trust & Agency). Prior year actual's and current year-to-date amounts are used to project both the current year and next four year's revenues. The City Manager and the Chief Financial Officer review estimates, with input from the Chief Human Resources Officer, to make informed judgments on expenditure trends and economic conditions. The Budget and Fiscal Policy Guidelines are recommended to City Council for adoption.

The Departments then submit their estimates and the Chief Financial Officer, Budget Manager, and Budget Analysts review all detail, discuss with Departments, make appropriate adjustments and prepare the Budget Financial Summary for their Department. Budget Hearings begin with the City Manager, Assistant City Manager, Chief Financial Officer, Budget Manager, Budget Analysts, and each Department. At the Hearings, reviews are completed of Department revenues, expenses, and ending fund balances or property tax support change to determine if fees and charges need to be adjusted. Many funds have a restricted or a minimum fund balance required for cash flow or other purposes. Fund balances above the restricted amounts are used to fund nonrecurring expenses.

HOW THE MONEY IS SPENT RECOMMENDED FY2025 BUDGET

TOTAL RECOMMENDED BUDGET \$263,563,969

*Excludes transfers and non-program expense for self-insurance, Metro Landfill accounts & Agency Fund accounts

The major requirement assumptions used in preparing the Fiscal Year 2025 Recommended Budget include the following:

Employee Expense (\$+4,761,155/ +6.16% over FY 2024 Adopted Budget)

a. Pension Systems.

- The **Municipal Fire and Police Retirement System of Iowa (MFPRSI)** Board of Trustees City contribution for Police and Fire retirement decreased from 22.98% percent in FY 2024 to 22.66% percent in FY 2025 (general fund savings of \$34,052 for Police and 29,219 for Fire or a total of \$63,271).
- The **Iowa Public Employee Retirement System (IPERS)** City contribution is unchanged from the FY 2024 contribution rate of 9.44% (no general fund impact). The IPERS employee contribution is unchanged from the FY 2024 contribution rate of 6.29% (which does not affect the City's portion of the budget). The IPERS rate is anticipated to increase 1 percent each succeeding year.

b. Collective Bargaining. The already approved collective bargaining agreements for Teamsters Local Union No. 120 Bus Operators and Teamsters Local Union No. 120 in FY 2025 include a 3.00% employee wage increase. A 5.00% wage increase is recommended for Dubuque Police Protective Association. The Dubuque Professional Fire Fighters Association and International Union of Operating Engineers are in contract negotiations. Non-represented employees include a 5.00% wage increase. Total cost of the estimated wage increase is \$1,942,693 to the General Fund.

c. Health Insurance. The City portion of health insurance expense is projected to remain unchanged from \$1,119 per month per contract to \$1,119 per month per contract (based on 651 contracts) in FY 2025 (no general fund impact). The City of Dubuque is self-insured, and actual expenses are paid each year with the City only having stop-loss coverage for major claims. In FY 2017, The City went out for bid for third party administrator and the estimated savings has resulted from the new contract and actual claims paid with there being actual reductions in cost in FY 2018 (19.42%) and FY 2019 (0.35%). In addition, firefighters began paying an increased employee health care premium sharing from 10% to 15% and there was a 7% increase in the premium on July 1, 2018. During FY 2019, the City went out for bid for third party administrator for the prescription drug plan and Fiscal Year 2022 included additional prescription drug plan savings. There was a decrease of \$639,758 in prescription drug cost in FY 2022. Based on FY 2024 actual experience, Fiscal Year 2025 is projected to have a 4.68% increase in health insurance costs. Estimates for FY 2026 were increased 4.69%; FY 2027 were increased 4.70%; FY 2028 were increased 4.71%; and FY 2029 were increased 4.72%. The City portion of health insurance expense is projected to increase 3% in FY 2026; 3% in FY 2027; 3% in FY2028; and 3% in FY 2029.

d. Five-Year Retiree Sick Leave Payout. FY 2013 was the first year that eligible retirees with at least twenty years of continuous service in a full-time position or employees who retired as a result of a disability and are eligible for pension payments from the pension system can receive payment of their sick leave balance with a maximum payment of 120 sick days, payable bi-weekly over a five-year period. The sick leave payout expense budget in the General Fund in FY 2024 was \$290,242 as compared to FY 2025 of \$283,061, based on qualifying employees officially giving notice of retirement.

e. 50% Sick Leave Payout. Effective July 1, 2019, employees over the sick leave cap can convert 50% of the sick leave over the cap to vacation or be paid out. The 50% sick leave payout expense budget in the General Fund in FY 2024 was \$119,167 as compared to FY 2025 of \$124,908, based on FY 2023 actual with an increase of 5%.

f. Parental Leave. Effective March 8, 2019, employees may use Parental leave to take paid time away from work for the birth or the adoption of a child under 18 years old. Eligible employees receive their regular base pay (plus longevity) and benefits for twelve weeks following the date of birth, adoption event or foster-to-adopt placement. If both parents are eligible employees, each receive the leave benefit. There is no parental leave expense budgeted in the General Fund based on departments covering parental leave with existing employees and not incurring additional cost for temporary help.

Supplies and Service (\$+6,770,372 / +13.03% over 2024 Adopted Budget)

g. Supplies & Services. General operating supplies and services are estimated to increase 2% over actual in FY 2023. A 2% increase is estimated in succeeding years.

h. Electricity. Electrical energy expense is estimated to increase 9.8% over FY 2023 actual expense based on the Alliant Energy interim rate increase, then 2% per year beyond.

i. Natural Gas. Natural gas expense is estimated to have no increase over FY 2023 actual then 2% per year beyond.

j. Travel Dubuque. The Dubuque Area Convention and Visitors Bureau contract will continue at 50% of actual hotel/motel tax receipts.

k. Equipment & Machinery. Equipment costs for FY 2025 are estimated to increase 30.89% over FY 2024 budget, then remain constant per year beyond.

l. Debt Service. Debt service is estimated based on the tax-supported, unabated General Obligation bond sale for fire truck and franchise fee litigation settlement.

m. Unemployment. Unemployment expense in the General Fund increased from \$27,653 in FY 2024 to \$33,922 in FY 2025 based on estimated premium for FY 2025.

n. Motor Vehicle Fuel. Motor vehicle fuel is estimated to decrease 9.33% under the FY 2024 budget, then increase 2.0% per year beyond.

o. Motor Vehicle Maintenance. Motor vehicle maintenance is estimated to increase 5% from the FY 2024 budget, then increase 2.0% per year and beyond.

p. Public Transit. The increase in property tax support for Transit from FY 2024 to FY 2025 is \$413,362, which reflects a decrease in Federal Transportation Administration Operating revenue (\$12,300); a decrease in Federal Transportation Administration Capital revenue (\$27,193), an increase in employee expense (\$104,098); increase in supplies and services (\$177,641); an increase in equipment replacements (\$49,262), a decrease in passenger fare revenue (\$50,415).

p. Public Transit (continued):

The following is a ten-year history of the Transit subsidy:

Fiscal Year	Amount	% Change
FY25 Projected	\$1,961,488	26.70 %
FY 2024 Budget	\$1,548,127	(1.52)%
FY 2023 Actual	\$1,571,981	(1.83)%
FY 2022 Actual	\$1,601,290	(2.09)%
FY 2021 Actual	\$1,635,441	4.94 %
FY 2020 Actual	\$1,558,460	(0.82)%
FY 2019 Actual	\$1,571,307	(0.10)%
FY 2018 Actual	\$1,572,825	34.10 %
FY 2017 Actual	\$1,172,885	24.41 %
FY 2016 Actual	\$942,752	(13.20)%
FY 2015 Actual	\$1,086,080	30.33 %
FY 2014 Actual	\$833,302	(20.19)%

q. Shipping & Postage. Postage rates for FY 2025 are based on FY 2023 actual expense. A 3.0 percent increase is estimated in succeeding years.

r. Insurance. Insurance costs are estimated to change as follows:

- Workers Compensation including Excess Workers Compensation for Police and Fire is increasing 16% based on the modification factor and actual payroll. As the City's payroll increases, it directly reflects the cost of workers' compensation coverage.
- General Liability is increasing 46.86% based on net city budget increase, total fleet size increase, public officials elected/full time and part time staff increase, significant increase in auto physical damage values, and increased receipts.
- Damage claims is decreasing 18% based on a three year average.
- Property insurance is increasing 47.96% based on a hard property insurance market.

s. Housing. The Housing Choice Voucher subsidy payment from the General Fund is estimated to decrease \$89,031 in FY 2025. The City of Dubuque is authorized to use up to 1,108 vouchers; however, the annual budget provided by the U.S. Department of Housing and Urban Development (HUD) only supports approximately 900 vouchers. The city is utilizing 880 vouchers as of October 2023. HUD has based the Section 8 administrative fees for FY 2025 on the number of vouchers held in FY 2024 which has increased the amount of administrative revenue received by the Section 8 program in FY 2025, however administrative expenses also increased.

t. Media Services Fund. The Media Services Fund no longer funds Police and Fire public education, Information Services, Health Services, Building Services, Legal Services, and City Manager's Office due to reduced revenues from the cable franchise. This is due to Mediacom's conversion from a Dubuque franchise to a state franchise in October 2009 which changed the timing and calculation of the franchise fee payments. Effective June 2020, Mediacom will no longer contribute to the Public, Educational, and Governmental Access Cable Grant (PEG) Fund, and after the balance in that fund is expended, the City will be responsible for all City Media Service equipment replacement costs. Other jurisdictions will need to plan accordingly.

u. Greater Dubuque Development Corporation. Greater Dubuque Development Corporation support of \$836,135 is budgeted to be paid mostly from Dubuque Industrial Center Land Sales in FY 2025, with \$26,500 for True North strategy paid from the Greater Downtown TIF. In FY 2026 and beyond Greater Dubuque Development Corporation will be paid from the Greater Downtown TIF and Dubuque Industrial Center West land sales.

Capital Outlay (\$946,680 / 18.91% over FY 2024 Adopted Budget)

- a. Equipment costs for FY 2025 are estimated to decrease (41.10)% under FY 2024 budget, then remain constant per year beyond.

Debt Service (\$1,085,619 / 4.23% under FY 2024 Adopted Budget)

- b. Debt service is estimated based on the tax-supported, unabated General Obligation bond sale for fire truck and franchise fee litigation settlement.

*These projections do not include any anticipated tax burden shifts as a result of state-issued equalization orders or rollback factors. The projections for the cost of municipal services are based on average water usage of 6,000 gallons per month and assessed value on the home in FY 2025 of \$196,508 (before rollback). State increased property taxes to the average homeowner by underfunding the Homestead property tax credit. FY 2020-2025 residential property tax projections assume Homestead property tax credit funded 100%,

which has happened since FY 2014. The Utility Franchise Fee for gas and electric is calculated for all years using the FY 2015 electric gas rates for average residential customers.

RATES AND COMPARISONS

Water Rate Comparison for Largest Iowa Cities with Water Softening

Rank	City	Water Rate (6,000 Gallons/ residence avg.)
1	West Des Moines (FY24)	\$44.21
2	Des Moines (FY24)	\$41.92
3	Cedar Rapids (FY25)	\$41.91
4	Dubuque (FY25)	\$39.06
5	Iowa City (FY25)	\$37.48
6	Ames (FY25)	\$36.49
7	Council Bluffs (FY24)	\$32.40
	Average w/o Dubuque	\$39.07

Dubuque's water is some of the best in the world! The highest rate (West Des Moines (FY24)) is 13% higher than Dubuque's rate, and the average is 0.02% higher than Dubuque.

Sanitary Sewer Rate Comparison for Eleven Largest Iowa Cities

Rank	City	Sanitary Sewer Rate (Based on 6,000 Gallons/ month)
11	Des Moines (FY25)	\$60.08
10	Davenport (FY25)	\$58.83
9	Dubuque (FY25)	\$54.82
8	Ankeny (FY25)	\$53.29
7	Sioux City (FY25)	\$50.30
6	West Des Moines (FY25)	\$42.77
5	Cedar Rapids (FY25)	\$41.78
4	Ames (FY25)	\$39.70
3	Iowa City (FY25)	\$38.72
2	Council Bluffs (FY25)	\$36.66
1	Waterloo (FY24)	\$36.26
	Average w/o Dubuque	\$45.84

The highest rate (Davenport (FY25)) is 10% higher than Dubuque's rate, and the average is 16% lower than Dubuque.

**Solid Waste Collection Rate Comparison for Eleven Largest Iowa Cities
(Refuse and Recycling Combined in Monthly Rate)**

Rank	City	Solid Waste Monthly Rate
11	Ames (FY25)	\$29.83
10	Cedar Rapids (FY25)	\$22.64
9	Ankeny (FY25)	\$22.64
8	Iowa City (FY25)	\$21.50
7	Council Bluffs (FY25)	\$21.00
6	Waterloo (FY25)	\$19.00
5	Dubuque (FY25)	\$17.25
4	Sioux City (FY25)	\$16.64
3	West Des Moines (FY25)	\$15.70
2	Des Moines (FY25)	\$15.66
1	Davenport (FY25)	\$15.09
	Average w/o Dubuque	\$20.19

The highest rate (Ames (FY25)) is 97.68% than Dubuque's rate, and the average is 34% higher than Dubuque.

Stormwater Rate Comparison for the Largest Iowa Cities with Stormwater Fees

Rank	City	Stormwater Rate
10	Des Moines (FY25)	\$17.60
9	Dubuque (FY25)	\$10.50
8	West Des Moines (FY25)	\$9.40
7	Cedar Rapids (FY25)	\$8.08
6	Ankeny (FY25)	\$6.50
5	Iowa City (FY25)	\$5.50
4	Ames (FY25)	\$5.20
3	Waterloo (FY25)	\$5.00
2	Davenport (FY25)	\$3.24
1	Sioux City (FY25)	\$2.80
	Average w/o Dubuque	\$7.04

The highest rate (Des Moines (FY25)) is 68% higher than Dubuque's rate, and the average is 33% lower than Dubuque.

2	Ames (FY25)	\$10.09
1	Dubuque (FY25)	\$9.93
	AVERAGE w/o Dubuque	\$15.71

Dubuque has the LOWEST property tax rate as compared to the eleven largest cities in the state. The highest rate (Waterloo (FY24)) is 125.82% higher than Dubuque's rate, and the average is 58.25% higher than Dubuque. Dubuque's adopted FY 2025 property tax is \$9.93 (increase of 0.25% from FY 2024)

*Includes the transit tax levy adopted by the Des Moines Area Regional Transit Authority for comparability.

VALUATION GROWTH

History of Taxable Debt Valuation (in millions)

The FY 2025 budget is based upon a 11.33% increase (\$354,251,583) to the taxable debt valuation for the City. Without Tax Increment Financing there is a 5.72% increase in the taxable valuation for all other levies (General Fund property tax levy). The total taxable debt valuation of \$3,480,398,093 is made up of the following components:

Valuation by Class of Property	Taxable Debt Valuation	Percentage of Valuation	Change from Prior Year
Residential & Ag property	\$2,010,812,092	57.78 %	5.29 %
Ag Land & building	\$3,420,763	0.10 %	0.83 %
Commercial property	\$1,261,323,432	36.24 %	25.87 %
Multi-residential property	\$0	— %	#DIV/0!
Industrial property	\$151,729,110	4.36 %	6.79 %
Railroad bridge	\$4,630,123	0.13 %	17.41 %
Other	\$569,131	0.02 %	(10.32)%
Utilities	\$70,003,729	2.01 %	(1.79)%

Ag Land & building	\$(18,669,524)	(0.54)%	405.96 %
Total	\$3,480,398,093	100 %	11.33 %
Tax Increment Financing (TIF)	\$(642,510,783)		45.47 %
Taxable Levy	<u><u>\$2,837,887,310</u></u>		<u><u>5.72 %</u></u>

Utilities - Excise Tax

Legislation in FY 2001 changed the taxation of utilities from a property tax to an excise tax. The City's tax rate/\$1,000 is first calculated on a valuation which includes utilities, then those calculated rates are used against a valuation figure with utilities removed. The excise tax makes up the difference in each levy.

Rollback

The growth in the valuation for the City of Dubuque continues to be impacted by the State of Iowa rollback adjustment. The State adjusts taxable valuations based upon a formula using the growth of the value of agricultural land. In the late 1980's the rollback was 80.6%, meaning only 80.6% of the value was taxable. For FY 2025 the State issued rollback for residential property is 46.34%.

Comparison for Eleven Largest Iowa Cities
Taxable Value per Capita

Rank	City	Taxes Per Capita	Tax Rate	2020 Census Population	Taxable Value With Gas & Electric
11	West Des Moines	\$1,335.24	\$11.7612	68,723	7,802,051,483
10	Council Bluffs	\$1,029.89	\$17.8547	62,799	3,622,350,906
9	Waterloo	\$978.03	\$22.4161	67,314	2,936,953,535
8	Cedar Rapids	\$972.39	\$16.4662	137,710	8,132,302,429
7	Iowa City	\$943.53	\$15.6331	74,828	4,516,211,809
6	Davenport	\$892.37	\$16.6106	101,724	5,464,903,091
5	Ankeny	\$887.65	\$10.5264	67,887	5,724,677,117
4	Des Moines	\$877.04	\$17.5600	214,133	10,695,002,088
3	Sioux City	\$863.16	\$18.1645	85,797	4,076,985,134
2	Dubuque	\$579.01	\$9.9264	59,667	3,480,398,093
1	Ames	\$543.88	\$10.0900	66,427	3,580,601,650
	AVERAGE w/o Dubuque	\$932.32	\$15.71	94,734	5,655,203,924

Dubuque is the SECOND LOWEST taxes per capita as compared to the eleven largest cities in the state. The highest (West Des Moines) is 130.61% higher than Dubuque's taxes per capita, and the average is 71.42% higher than Dubuque.

FISCAL YEAR 2025

SUMMARY OF ALL DECISION (IMPROVEMENT) PACKAGES WITH PROPERTY TAX IMPACT

There were 136 improvement level decision packages requested in Fiscal Year 2025, of which 64 were recommended for funding.

The recurring general fund expenditures total \$369,553 and will also impact future budget years. The non-recurring general fund expenditures total \$518,807. In FY2025, DRA Distribution funding is being used to fund the non-recurring improvement packages in the General Fund. The remaining improvement packages adopted for funding from non-property tax support total \$813,272.

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
RECURRING DECISION PACKAGE COSTS		GENERAL FUND			
Airport	Only \$60,000 is currently budgeted to advertising, which all goes towards the State of Iowa Air Service Grant expenses. \$10,000 is needed to cover the general advertising costs of the Airport for the whole year. This money is especially needed now with all the recent service changes. Historically, the advertising budget was much larger but was lowered to help in the efforts of budgetary cuts in the City as a whole.	R	\$ 10,000		\$ 10,000
City Manager's Office	The creation of a permanent Climate Action Coordinator position, which currently exists as a limited-term position. The limited term position was budgeted to run through FY 2025 and the new permanent position being requested for FY 2025 is at the same pay range and FTE status, this would have a net cost of \$0 in FY 2025 (FY25 has non recurring savings). The additional, recurring cost of funding this position beyond the original limited-term timeframe would not be present until FY 2026.	R	\$ 85,254	\$ 55,202	\$ 30,052
City Manager's Office	Professional development for the City Manager's Office Administrative Assistants (two positions). If approved, this package would allow each Administrative Assistant to travel to one annual training event such as the Office Dynamics Annual Conference, the Laserfiche Empower Conference, or the funding could be broken up for attendance to smaller local educational seminars.	R	\$ 6,000	\$ 3,885	\$ 2,115
City Manager's Office	Additional hours for the Part-Time Office Assistant position in the City Manager's Office. This position is currently budgeted for 10 hours per week (0.25 FTE, NA-38). In an effort to reduce the work load of the current administrative staff in the City Manager's Office	R	\$ 4,834	\$ 806	\$ 4,028
City Manager's Office	Establishing an annual tree voucher program. This funding would be used to pay for the vouchers used to pay for trees at local nurseries as well as space rental for annual learning sessions.	R	\$ 10,000	\$ 6,475	\$ 3,525
City Manager's Office	Host a "City Academy", a full day of professional development for all City staff. The event would build off of the existing City employee luncheon held annually during Public Service Recognition Week.	R	\$ 75,000	\$ 48,563	\$ 26,437
Community Impact	Increase the City's financial support of the Administrative Assistant position by 0.37 FTE. Volunteer Iowa lost federal funding, which means through no fault of the Community Impact Division, the grant funding from Volunteer Iowa will not be available in FY 25	R	\$ 27,626		\$ 27,626
Community Impact	Funding to cover the program materials needed to implement the AmeriCorps Program's Social-Emotional Learning curriculum on an annual basis.	R	\$ 2,500		\$ 2,500

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Community Impact	Secure City funding to continue the Volunteer DBQ initiative. VolunteerDBQ has been previously funded by the Volunteer Generation Fund through the Iowa Commission on Volunteer Service. This packages seeks to secure City funding to continue the Volunteer DBQ initiative. This proposal would utilize the current/ existing software. There is an alternative proposal to upgrade to a different software.	R	\$ 8,000		\$ 8,000
Community Impact	Secure City funding to continue the Volunteer DBQ initiative. VolunteerDBQ has been previously funded by the Volunteer Generation Fund through the Iowa Commission on Volunteer Service. This packages seeks to secure City funding to continue the Volunteer DBQ initiative. This proposal would upgrade to a different software. There is an alternative proposal that would utilize/keep the current software.	R	\$ 16,000		\$ 16,000
Community Impact	The attendance of Community Impact Staff (5 employees) to attend PolicyLink's 2024 Equity Summit.	R	\$ 9,700		\$ 9,700
Conference Center (Grand River Center)	This improvement package request provides for the addition of 10 cameras in the public areas of GRC. No security cameras are in the public space, entrances or exits. This project includes cameras, cabling and installation.	R	\$ 2,700		\$ 2,700
Economic Development	An intern (0.25 FTE, NA-38) to work 10 hours per week in order to update and manage the website domain and email hosting for the alltogetherdubuque.com webpage. In 2021, the City received a \$10,000 Iowa Tourism grant which was used, along with a \$5,000 match from the Arts & Cultural Affairs budget, to create the branding and website design with the intent to highlight Creatives and their work as well as to provide the community access to art in Dubuque. This aligns with the City's Arts and Culture Master Plan.	R	\$ 10,236	\$ 6,628	\$ 3,608
Economic Development	Purchase of 3 additional brochure holders to be placed on the 3 existing Art on the River kiosks, additional printing costs for the brochures and translation services. These holders are for the purpose of adding new brochures in Spanish with the intent to be more inclusive of Dubuque's diverse population.	R	\$ 2,500		\$ 2,500
Economic Development	Increase stipend paid to artists who are chosen to display sculptures on the riverfront. Raising the stipend will directly affect the ability of artists to secure materials, resulting in an increased number of diverse and minority artist participants	R	\$ 2,200		\$ 2,200
Economic Development	Additional \$187,000 to sponsor 20 Dream Center students for an entire year of programming which would impact children of low-income and working families. The City recently funded a \$276,000 funding gap for capital improvements and a \$15,000 planning grant for those improvements. The City currently funds a \$63,000 contracted service agreement.	R	\$ 187,000		\$ 187,000
Economic Development	Provide \$37,000 in additional funding to the Fountain of Youth. The funding will be a continuation of the Partners in Change and Real Talk programming. This funding will assist with providing services to the low income populations of Dubuque and the surrounding communities. The City currently funds a \$63,000 contracted service agreement.	R	\$ 37,000		\$ 37,000
Engineering	Establish a program to vacate two to three parcels of City property each year. The intent of this package is to reduce the City's liability with all vacant parcels	R	\$ 15,000	\$ 10,000	\$ 5,000

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Engineering	Funding to allow complex or expedited development site plan review work to be outsourced to outside engineering consultants. The Engineering Department sometimes lacks enough available technical staff to complete reviews within a specifically requested timeframe.	R	\$ 50,000		\$ 50,000
Engineering	Engineering and Housing to hold a joint annual meeting intended for area contractors for the purpose of educating attendees on updates to building codes and specifications. Split up among the general fund, Stormwater, and Sanitary Sewer.	R	\$ 1,666		\$ 1,666
Engineering	The addition of one full-time HVAC Technician position (1.00 FTE, OE-16) to provide HVAC repair, Boiler repair, and Backflow testing services to all city Departments. Contractors are currently used for this work, and if funded, the need for contracts would decrease significantly. The expense of the position would be offset by cost saving from hiring contracts less frequently, and the true cost savings would be realized in future years.	R	\$ 93,910		\$ 93,910
Fire	Additional captain (+1.0 FTE, F-05) to serve in the capacity of field training officer/ safety officer for the 1st shift. The position would work under an assistant chief to coordinate and deliver hands-on fire and EMS training. The position will also serve in the capacity of safety officer for each shift, responding on all significant fire and EMS incidents. Recommended to start August 1, 2024.	R	\$ 128,145		\$ 128,145
Fire	Additional captain (+1.0 FTE, F-05) to serve in the capacity of field training officer/ safety officer for the 2nd shift. The position would work under an assistant chief to coordinate and deliver hands-on fire and EMS training. The position will also serve in the capacity of safety officer for each shift, responding on all significant fire and EMS incidents.	R	\$ 138,622		\$ 138,622
Fire	Additional captain (+1.0 FTE, F-05) to serve in the capacity of field training officer/ safety officer for the 3rd shift. The position would work under an assistant chief to coordinate and deliver hands-on fire and EMS training. The position will also serve in the capacity of safety officer for each shift, responding on all significant fire and EMS incidents.	R	\$ 138,622		\$ 138,622
Fire	Grow the department's EMS Division to provide support for an expanding service by adding (1.0 FTE, GE-50) Bureau Chief position. Approximately 80% of the department's 8,000 incidents are EMS-related. The previous structure of managing the EMS Division with one member is beyond capacity.	R	\$ 164,468		\$ 164,468
Fire	Securing contract for clearing snow over 2". Crews will continue to maintain regular snow/ice removal and salting for minimal events. Establishing a regular contract will reduce the impacts of manual snow removal for heavier days and to allow crews to continue providing emergency response throughout the shift day.	R	\$ 6,000		\$ 6,000
Fire	Uniform purchases for our Administrative Assistant and our Lead Administrative Assistant.	R	\$ 600		\$ 600

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Health	To provide an overnight heating or cooling center with staffing in the event of extreme heat or extreme cold weather events. During the summer of 2023, the need of an overnight cooling center was assessed during two different high-heat events. The money would be used towards the activation of ten cooling or warming centers from 9PM-7AM and would pay for a worker at GE- 32 and security from the Police Department at P-02 (with overtime for both positions factored in) as well as rent for Five Flags Majestic Room, cleanup costs and water/ice.	R	\$ 19,289		\$ 19,289
Health	Reimburse hunters for deer license tags for every adult doe harvested, including their first doe harvested. This is a change from the current practice of only one per season. The cost of the first deer license is \$28.50 and additional licenses are \$15 each. The cost for the current pilot program is estimated at \$2,325.	R	\$ 3,500		\$ 3,500
Health	\$1,500 annual budget for overtime incurred by the hourly account clerk. There is currently \$0 budgeted for overtime, and the account clerk must receive comp time if they need to work over 40 hours in any given week. Continuously building up comp time, then using comp time for these positions is not sustainable because then vacation time cannot be used due to workload.	R	\$ 1,500		\$ 1,500
Health	to fund the purchase of 6 new live traps. Approximately one-third of trap requests cannot be fulfilled currently. The estimated revenue for trap rental is \$480 per year. This project assists in removing barriers associated with low-income communities and contributes towards the evaluation of fines, fees, and rate structure. The revenue generated could be directly allocated to the low-income portion of our community.	R		\$ 480	\$ (480)
Health	\$5,000 towards a low-cost rabies vaccination, which would be administered at the time of spay/neuter during the Humane Society's neuter clinics. This amount would fund the total amount of vaccinations for approximately 200 pets at \$20 each or could fund half of the rabies vaccination costs for 400 pets at \$10 each. This project assists in removing barriers associated with low-income communities and contributes towards the evaluation of the fines, fees, rate structure.	R	\$ 5,000		\$ 5,000
Housing	Implement a minimum fee for demolition permits - \$75 for garage with no utilities, \$150 for single and 2-family dwellings, and \$250 for all others. This improvement package is required to cover the cost of an inspection and administration for demolition permits	R		\$ 2,504	\$ (2,504)
Housing	Set minimum permit fee amounts of \$50 for building, mechanical, electrical, and plumbing permits. This package would also increase the issuance fee for all permit types from \$10 to \$20 (note the issuance fee is included in the \$50 minimum permit fee). This improvement package is required to cover the cost of inspections and administration for these permit types	R		\$ 78,884	\$ (78,884)
Housing	Twelve (12) licenses of Bluebeam software. This software provides robust, user-definable markup tools and templates to improve the quality and consistency of interactions with developers, contractors and property owners. The software provides proven online collaboration tools which can be used to track, organize and output review comments for plan review documentation.	R	\$ 4,272		\$ 4,272

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Housing	Increased financial assistance to ensure the Four Mounds HEART program is able to continue to provide youth with opportunities to learn trade skills in a classroom and in-field format, as well as continue to assist in creating affordable housing options in Dubuque. The program has expanded to include adults, so more money is needed.	R	\$ 15,000		\$ 15,000
Housing	Increased financial assistance to ensure Community Solutions of Eastern Iowa is able to continue to provide and answer the homeless hotline. In FY23, the hotline received 3,216 calls, with 473 persons placed on the referral list for services.	R	\$ 44,000		\$ 44,000
Housing	Implement a square-footage-based value calculation for all new construction and additions based on the published International Code Council's building square-footage-valuation tables. It is anticipated to be a zero or near zero dollar change and the intent is to establish an equitable method for establishing valuations.	R	\$ —		\$ —
Human Resources	Human Resources staff to attend new conferences and attain new certifications that have not previously been budgeted for.	R	\$ 7,000	\$ 4,533	\$ 2,467
Human Resources	Increase the amount of annual funding available through the City's Tuition Reimbursement Program. We can anticipate that for the coming year, we will have insufficient funding to accept more than one additional applicant.	R	\$ 36,900	\$ 6,151	\$ 30,749
Human Resources	Purchase a Human Resources Information System (HRIS), which is a software solution that includes all aspects of managing the employee database and directory, applicant tracking, benefits administration, payroll processes, work scheduling/time and attendance, leaves tracking, compliance protocols, customizable insight reports, employee self-service, performance management, and HR processes accessible and managed on mobile apps. Also has a non recurring portion	R	\$ 165,000	\$ 27,506	\$ 137,495
Information Technology	This improvement package is for the creation of a new User Technology Specialist under the Information Technology (IT) department (1.00 FTE, GE-29). As the City organization continues to grow, so does the demand for IT infrastructure and support services. There is an alternative proposal to upgrade an existing position to this new position.	R	\$ 78,036		\$ 78,036
Information Technology	This alternative proposal seeks to upgrade a current Help Desk Support Technician position (1.00 FTE, GE-27) with a new User Technology Specialist position (1.00 FTE, GE-29), resulting in no change in FTEs to the Information Technology Department. There is an alternative proposal to instead create a new position instead of replacing an existing one.	R	\$ 8,117		\$ 8,117
Information Technology	New End Point Management Software that will bring together several pieces of software that we currently use under one umbrella: Asset Management, Patch Management, Software Deployment, App Management, Data Loss Prevention, Ransomware Protection, Mobile Device Management, BitLocker Management, Remote Access and Troubleshooting, OS Imaging and Deployment, as well as others	R	\$ 5,800		\$ 5,800
Information Technology	Ongoing training and education budget for the Senior Network/System Administrator and the Chief Information Technology Security Officer. Investing in the education and training of staff is essential for the ongoing security and resilience of our organization.	R	\$ 20,000		\$ 20,000

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Information Technology	Send the Chief Information Officer from the IT department to the International Association of Chiefs of Police Conference. The Chief of Police, who has attended this conference in the past, has recommend the Chief Information Officer attend this conference due to the conference's emphasis on technology related content.	R	\$ 2,100		\$ 2,100
Information Technology	Provide for ongoing training and education for the Enterprise Applications Team. As technology rapidly evolves, it is essential for us to stay up to date with the latest trends, tools, and skills to provide innovation and the best possible service to the city staff	R	\$ 10,000		\$ 10,000
Information Technology	This improvement package is for a city-wide audio/visual (A/V) maintenance contract.	R	\$ 20,000		\$ 20,000
Legal	For the creation of a full-time Assistant City Attorney I position (1.0 FTE, GE-37) within the City Attorney's Office. Creation of this position will facilitate a succession plan for the individual to become familiar with the organization and processes in the City. The goal is to grow and develop the individual hired to take on more responsibility and duties, allowing for efficiencies and reduced response times and better balanced workload for the City Attorney's Office.	R	\$ 127,265	\$ 77,105	\$ 50,160
Library	An annual programming budget for the Carnegie-Stout Public Library Maker Space. The Maker Space has seen an 89% growth in programming attendance.	R	\$ 6,000		\$ 6,000
Library	Eliminate a part-time Information Technology Intern position (0.50 FTE, NA-28) and replace it with a part-time Library Assistant position (0.50 FTE, GE-25).	R	\$ 10,076		\$ 10,076
Library	This improvement request is for a part time (.50 FTE, GE-28) Marketing Coordinator position to be added to Administration activity and the General Fund. This position currently exists, but is paid out of the Library Trust fund.	R	\$ 38,918		\$ 38,918
Office of Equity and Human Rights	A program to be created for the public and will consist of four, two-hour sessions offered twice a year in English, one time a year in Spanish, and one time a year in Marshallese. These sessions would include both a presentation and and space for discussion on topics such as diversity, equity, inclusion, justice, knowing your rights, discrimination, emotional intelligence, and leadership	R	\$ 8,750		\$ 8,750
Parks	General fund savings portion of this package, other portion in Stormwater. Adding one full-time Maintenance Technician position (1.00 FTE, GD-06) assigned to the Bee Branch Creek Greenway area. Partially offset by eliminating 0.11 FTE from temporary Parks Groundskeeper positions and also eliminating 0.50 FTE from the temporary Landscape Crew Member positions.	R	\$ (19,896)		\$ (19,896)
Parks	Adding one full-time Maintenance Technician position to the Park Division (1.00 FTE, GD-06) assigned to the Park Areas and Maintenance activity. Eliminates 0.96 FTE from temporary Parks Groundskeeper positions to help partially offset the cost for the new full-time Maintenance Technician position.	R	\$ 41,941		\$ 41,941
Parks	This improvement level request provides for 1510 additional hours for temporary Park Rangers during the park season (0.72 FTE).	R	\$ 37,120		\$ 37,120

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Planning	Four licenses of Bluebeam software in conjunction with Housing. This software provides robust, user-definable markup tools and templates to improve the quality and consistency of interactions with developers, contractors and property owners.	R	\$ 1,300	\$ 217	\$ 1,083
Planning Services	Additional meeting room fees for the Development Review Team (DRT). The DRT has outgrown its space (Conference Room A) and needs a larger location. The request is to use the Jule Operating Training Center (JOTC). The JOTC has free parking, ADA accessibility, virtual meeting room capability, and a large space to conduct a meeting without being overcrowded.	R	\$ 1,200	\$ 677	\$ 523
Planning Services	Purchase of a computer tablet with a case/keyboard and data plan to be used by the Planning Technician (PT). This would allow access of necessary info during meetings, reducing copying (paper waste), ability to attend meetings remotely, and take photos/videos that helps with documenting inspections for use in staff reports for the Zoning Board of Adjustment and Zoning Advisory Commission.	R	\$ 360	\$ 203	\$ 157
Planning Services	Sending the Assistant Planner to Leadership Dubuque. By participating in Leadership Dubuque, the Assistant Planner will learn more about our community resources, government, businesses, and educational opportunities along with the impact of economic development on the community, enhance leadership skills, exchange ideas and experiences, both formally and informally, meet and build relationships with other leaders from many different segments of our society, and develop new business contacts within and through the group	R	\$ 1,525	\$ 860	\$ 665
Planning Services	Increase fees for flood plain permit, minor and simple site plans, sign permit reviews, temporary use permits, and zoning letters to accurately reflect the cost of service after deep analysis of current costs. These changes will create an additional \$1,380 in revenue each year.	R		\$ 1,380	\$ (1,380)
Public Information Office	The addition of 1.00 FTE (GE-33) GIS Developer. This position is essential for creating, customizing, and maintaining GIS applications, and will work with all city departments. These applications require a significant amount of customization, keeping the GIS Coordinator/Analyst from other duties.	R	\$ 100,509	\$ 56,707	\$ 43,802
Public Information Office	The addition of 1.00 FTE (GE-30) GIS Applications Specialist. The number of GIS application and data requests continues to rise as GIS further embeds itself as a mission critical resource. Neither the GIS Coordinator/Analyst or GIS Applications Specialist can keep up with the needs of all departments.	R	\$ 87,698	\$ 49,479	\$ 38,219
Public Information Office	The addition of a 1.00 FTE (GE-30) GIS Data Analyst to the GIS (Geographic Information System) Office. This position will manage and analyze spatial data for all city departments, reducing redundancy and improving efficiency. Data analysis continues to demand more time	R	\$ 87,698	\$ 49,479	\$ 38,219
Public Works	Maintenance Supervisors and Equipment Operator II's to receive their OSHA Workplace Safety certification to increase safety in the field and on-the-job. Four certifications per year will ensure all employees in these positions can complete the certification within 3 years and repeat the certification every 3 years.	R	\$ 1,798		\$ 1,798

Budget Overviews

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Public Works	Equity perspective training for department staff and allows for training to be specific to where each employee is in their Diversity, Equity, Inclusion, & Belonging (DEIB) journey.	R	\$ 15,000		\$ 15,000
Recreation	Implement a Park Ambassador program at Comiskey park, which includes creating new temporary Park Ambassador positions (net increase of 0.37 FTEs after offsets, NA-25) as well as purchasing office equipment and supplies. Net reduction of 0.47 FTEs in various temporary positions to help offset.	R	\$ 22,203		\$ 22,203
Recreation	As hiring is still expected to be a challenge in future years, this request seeks to increase the Recreation advertising line item by \$25,000 on a recurring basis.	R	\$ 25,000		\$ 25,000
Recreation	The addition of \$2,200 in education funding for the Lead Administrative Assistant position. This position has not previously been provided with education funds.	R	\$ 2,200		\$ 2,200
Recreation	A \$700 increase in education funding for two supervisor positions and \$2,200 in education funding for the new Business Development Manager. Funding is necessary for the staff to attend high quality continuing education opportunities due to increased travel costs.	R	\$ 3,600		\$ 3,600
Recreation	Additional golf course revenues through a \$10 increase on all season passes. This increase is golf revenue will help offset rising operating costs.	R	\$ —	\$ 1,960	\$ (1,960)
Recreation	St. Mark has witnessed growth in the need for after school programs and anticipates reaching 10 additional students in the 2024-2025 Dubuque after school program. City of Dubuque funding will come at a critical time to build greater capacity within St. Mark	R	\$ 40,000		\$ 40,000
TOTAL GENERAL FUND RECURRING PACKAGES			\$2,319,362	\$ 489,684	\$1,829,679

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
NON-RECURRING DECISION PACKAGE COSTS					GENERAL FUND
Airport	For 2 additional aircraft baggage carts. Currently, we only have 5 baggage carts for 737 aircraft, with up to 189 passengers on each flight. If there is a delay in departure, staff need to unload a cart that has already been loaded in order to be able to use it.	N	\$ 15,000		\$ 15,000
City Manager's Office	Fund the extension of the current ViDL Solutions department manager training to all City staff.	N	\$ 93,000	\$ 15,503	\$ 77,497
City Manager's Office	Funding to update the 2011 Urban Forest Evaluation. To assess the remainder to the city, funding is requested to include a city-wide assessment.	N	\$ 37,500	\$ 24,281	\$ 13,219
City Manager's Office	Outreach, education, and empowerment activities related to the Climate Action Plan (CAP), specifically focusing on energy equity in buildings and housing.	N	\$ 18,750	\$ 3,126	\$ 15,624
City Manager's Office	Establishing bike infrastructure policies, executing a cross-departmental implementation agenda, and creating and executing an alternative transportation education and communication campaign.	N	\$ 26,450	\$ 17,126	\$ 9,324
City Manager's Office	Partner with the local realty board to bring in a trainer to provide Green Designation training for local realtors. Sustainability staff would work with the local board of realtors to localize the information and talk about the resources available	N	\$ 6,958	\$ 4,505	\$ 2,453
City Manager's Office	The creation of a permanent Climate Action Coordinator position, which currently exists as a limited-term position. The limited term position was budgeted to run through FY 2025 and the new permanent position being requested for FY 2025 is at the same pay range and FTE status, this would have a net cost of \$0 in FY 2025 (FY25 has non recurring savings). The additional, recurring cost of funding this position beyond the original limited-term timeframe would not be present until FY 2026.	N	\$ —	\$ —	\$ —
Community Impact	Work from home equipment for Community Impact staff (5 employees).	N	\$ 4,250		\$ 4,250
Conference Center (Grand River Center)	This improvement package request provides for the addition of 10 cameras in the public areas of GRC. No security cameras are in the public space, entrances or exits. This project includes cameras, cabling and installation.	N	\$ 27,300		\$ 27,300
Economic Development	Purchase of 3 additional brochure holders to be placed on the 3 existing Art on the River kiosks, additional printing costs for the brochures and translation services. These holders are for the purpose of adding new brochures in Spanish with the intent to be more inclusive of Dubuque's diverse population.	N	\$ 1,650		\$ 1,650
Engineering	Upgrade an existing small car to a pickup truck. For the functional use of vehicles in the Engineering Department, a pickup truck will provide the most versatility.	N	\$ 17,000		\$ 17,000
Engineering	The addition of one full-time HVAC Technician position (1.00 FTE, OE-16) to provide HVAC repair, Boiler repair, and Backflow testing services to all city Departments. Contractors are currently used for this work, and if funded, the need for contracts would decrease significantly. The expense of the position would be offset by cost saving from hiring contracts less frequently, and the true cost savings would be realized in future years.	N	\$ 2,912		\$ 2,912

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Fire	Additional computer for new Bureau Chief position. Grow the department's EMS Division to provide support for an expanding service by adding (1.0 FTE, GE-50) Bureau Chief position. Approximately 80% of the department's 8,000 incidents are EMS-related. The previous structure of managing the EMS Division with one member is beyond capacity.	N	\$ 4,650		\$ 4,650
Fire	Purchase of pre-plan software that is integrated with CAD (computer aided dispatch) software. Currently, the pre-plan information is created as separate, manually-created files stored separate from the response files. Year 1 cost with implementation is \$8,650, year 2 is \$8,242, year 3 is \$8,654 followed by a 5% increase in price each year moving forward.	N	\$ 8,650		\$ 8,650
Fire	Upgrade the advanced airway equipment from traditional, hand-held laryngoscopes to the advanced video laryngoscope technology. The move to video laryngoscopes provides enhanced visualization and increase the success rates of field intubation and securing a patent airway for our patients.	N	\$ 7,816		\$ 7,816
Fire	Seal the floor in the basement of Fire Station 6. The funding will also allow the floor to be painted and flake applied which will brighten and clean the space for firefighters to continue to utilize.	N	\$ 9,500		\$ 9,500
Fire	A 48" lawn mower at Fire Station 2 for the regular upkeep of the land around the station. The mower will reduce the workload and improve ergonomics with landscaping requirements throughout the year.	N	\$ 11,000		\$ 11,000
Fire	Neighborhood graphics to be placed on the back of each suppression vehicle to acknowledge and recognize the specific neighborhoods they represent.	N	\$ 1,000		\$ 1,000
Health Services	A stand-up desk unit for an Environmental Sanitarian. The Environmental Sanitarian spends several hours of the day in a sitting position at the computer writing reports and attending meetings and often multi hour-long trainings. The ability to stand at your desk offers great relief to your back and shoulders and adds to productivity and alertness and overall physical well-being	N	\$ 463		\$ 463
Health Services	purchase six chairs to accompany an existing conference table in the Economic Development office. Health Services often has business owners bringing in food license applications and blueprints. Due to the volume of paperwork needed, there is a need for space to spread them out. We also need a spot that will seat 7 people for staff meetings.	N	\$ 3,000		\$ 3,000
Health Services	to fund the purchase of 6 new live traps. Approximately one-third of trap requests cannot be fulfilled currently. The estimated revenue for trap rental is \$480 per year. This project assists in removing barriers associated with low-income communities and contributes towards the evaluation of fines, fees, and rate structure. The revenue generated could be directly allocated to the low-income portion of our community.	N	\$ 700		\$ 700
Housing	Two 55" digital plan review tables. Digital plan review tables streamline the plan review process by allowing inspectors to navigate, annotate, and share plans swiftly and efficiently. When used with Bluebeam software, immediate updates ensure that all team members work with the most current version of the plan, eliminating potential delays and confusion.	N	\$ 33,400		\$ 33,400

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Housing	Provide for (1) City of Dubuque logo hardhat and a hi-visibility jacket for each building inspector. This will help identify the building inspectors to the contractors and create a more professional appearance for our department.	N	\$ 700		\$ 700
Human Resources	A temporary Scanning Clerk position (0.50 FTE, GE-25A). This position was funded through a non-recurring improvement package in the FY 2022 budget, but the position was not filled, and the funds were not carried over to future fiscal years.	N	\$ 25,350	\$ 4,226	\$ 21,124
Human Resources	Non-Recurring portion of purchase a Human Resources Information System (HRIS), which is a software solution that includes all aspects of managing the employee database and directory, applicant tracking, benefits administration, payroll processes, work scheduling/time and attendance, leaves tracking, compliance protocols, customizable insight reports, employee self-service, performance management, and HR processes accessible and managed on mobile apps. Also has a recurring portion	N	\$ 75,750	\$ 12,628	\$ 63,122
Information Technology	Computer and Technology Portion of this package. This improvement package is for the creation of a new User Technology Specialist under the Information Technology (IT) department (1.00 FTE, GE-29). As the City organization continues to grow, so does the demand for IT infrastructure and support services. There is an alternative proposal to upgrade an existing position to this new position.	N	\$ 3,300		\$ 3,300
Information Technology	Enhance employee well-being and increase productivity by providing ergonomically designed chairs and standing desks to the staff or the new office that the Information Technology department is moving to in 2024.	N	\$ 20,000		\$ 20,000
Information Technology	Replace the old model emergency radio in the Information Technology (IT) department that is at the end of it's useful life with the current model that is being used by Police and Fire.	N	\$ 5,110		\$ 5,110
Legal	The creation of a full-time Assistant City Attorney I position (1.0 FTE, GE-37) within the City Attorney's Office. Creation of this position will facilitate a succession plan for the individual to become familiar with the organization and processes in the City. The goal is to grow and develop the individual hired to take on more responsibility and duties, allowing for efficiencies and reduced response times and better balanced workload for the City Attorney's Office.	N	\$ 127,265	\$ 97,729	\$ 29,536
Library	This improvement request is for a one-time upgrade to improve virtual meeting technology in the Library's Eigler Auditorium. The current set up for the Auditorium is not ideal for hybrid in-person/virtual meetings.	N	\$ 13,000		\$ 13,000
Office of Equity and Human Rights	Billboard rental in the North End that targets minority and low-income residents to advertise the existence of the department and how/why to file a discrimination complaint. There has been a 44% decrease in inquiries since 2019, and data would be collected to track the billboard's effectiveness.	N	\$ 5,800		\$ 5,800
Parks	4 additional desktop computers for the Park Division. Three computers would be for functional supervisors that do not have a desktop computer. An additional computer would be a multi-user computer for Park Division staff.	N	\$ 8,800		\$ 8,800

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Parks	A utility vehicle for use at Veterans Memorial Park, there is a shortage of utility vehicles to perform efficiently as a department..	N	\$ 23,000		\$ 23,000
Parks	Purchase of a plate compactor and jumping jack compactor. Staff have needed to rent a plate compactor and jumping jack for many of these projects.	N	\$ 7,000		\$ 7,000
Parks	Purchase of a dump trailer for the Forestry activity in the Park Division. The Forestry activity does not have a trailer.	N	\$ 15,000		\$ 15,000
Parks	Purchase of a tow-behind prairie mower for the Park Division. This piece of equipment would offset the cost of hiring a contractor to mow smaller prairie areas.	N	\$ 4,000		\$ 4,000
Parks	Purchase a remote-controlled mower. There are numerous steep slopes that staff mow including turf and prairie areas. This mower would reduce the risk of injury from mowing these areas with staff on riding mowers.	N	\$ 70,000		\$ 70,000
Planning Services	Additional laptop for staff who need to work remotely for work because of illness/Covid, conference attendances, board/commission presentations, etc. Section 9.12 notes that approved telecommuters will be provided the tools and applications for access to city technology resources, and City employees cannot use personal devices.	N	\$ 2,400	\$ 400	\$ 2,000
Planning Services	Purchase of City of Dubuque shirts. The embroidered polo/shirts help clearly identify Planning Staff at public meetings/events and help clearly identify the Zoning Enforcement Officer as a city official with inspecting property and interacting with the public.	N	\$ 480	\$ 80	\$ 400
Planning Services	Sending the Planning Technician to Dale Carnegie training which will help develop and build on confidence and personal leadership competence, strengthen skills in relating to others and build inclusivity, enhance skills to communicate logically, clearly, and concisely, energize and engage listeners, learn to listen with empathy, develop leadership skills to be more flexible and innovative, inspire and motivate others to action, and empower them to control attitudes and reduce stress so they can be at their optimum best.	N	\$ 2,350	\$ 1,326	\$ 1,024
Police	To conduct a building and space study. The City is currently leasing space through maintenance agreements and cost/space sharing, and in 1971, the Police Department had only half the employees they have today. There is currently no place to take citizens for a private conversation. To help with the problem, SRO's have moved, and E911 is moving out of the building.	N	\$ 50,000		\$ 50,000
Public Information Office	Computer and iPad for the addition of 1.00 FTE (GE-33) GIS Developer. This position is essential for creating, customizing, and maintaining GIS applications, and will work with all city departments. These applications require a significant amount of customization, keeping the GIS Coordinator/Analyst from other duties.	N	\$ 4,795	\$ 2,705	\$ 2,090

Budget Overviews

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Tax Impact
Public Information Office	Computer and iPad for the addition of 1.00 FTE (GE-30) GIS Applications Specialist. The number of GIS application and data requests continues to rise as GIS further embeds itself as a mission critical resource. Neither the GIS Coordinator/Analyst or GIS Applications Specialist can keep up with the needs of all departments.	N	\$ 4,795	\$ 2,705	\$ 2,090
Public Information Office	Computer and iPad for the addition of a 1.00 FTE (GE-30) GIS Data Analyst to the GIS (Geographic Information System) Office. This position will manage and analyze spatial data for all city departments, reducing redundancy and improving efficiency. Data analysis continues to demand more time	N	\$ 4,795	\$ 2,705	\$ 2,090
Public Information Office	Office space remodeling to accommodate new GIS (Geographic Information System) Office positions. The current GIS staff setup does not allow for additional staffing, nor collaboration space for project management.	N	\$ 25,000	\$ 14,105	\$ 10,895
Public Works	Hire a consultant to review departmental plans, policies, and procedures to combat systematic inequities	N	\$ 17,500		\$ 17,500
Public Works	A current employee to receive an applicator's license and certification and provides funding for an off-road, slide-in applicator for the Port of Dubuque in accordance with the United States Army Corps of Engineers Engineering Technical Letter (110-2-583), which requires the removal of unacceptable growth within the "vegetation-free zone."	N	\$ 12,000		\$ 12,000
Public Works	Conversion of all computers in Public Works to be switched to laptop setups. This would occur through attrition and would allow office staff to collaborate, train and present more easily.	N	\$ 800		\$ 800
Public Works	Replacement of the arts & culture sculpture at the Municipal Services Center that was moved a number of years ago. Public Works would like to replace this sculpture from the Art on the River program to support local artists and arts and culture in the community	N	\$ 15,000		\$ 15,000
Recreation	Computer & technology portion of this package. Implement a Park Ambassador program at Comiskey park, which includes creating new temporary Park Ambassador positions (net increase of 0.37 FTEs after offsets, NA-25) as well as purchasing office equipment and supplies. Net reduction of 0.47 FTEs in various temporary positions to help offset.	N	\$ 3,660		\$ 3,660
Recreation	The installation of a network switch at the McAleece Park. The Information Technology department recommended the installation	N	\$ 11,000		\$ 11,000
Recreation	Funding to continue the expansion of the scholarship program for the Leisure Services Department. This request for additional recurring funding in FY 2025 and beyond will allow the department to continue to offer 300 \$150 scholarships to income-qualifying families. Requested as recurring for \$20,000. Recommended as non-recurring for \$8,900.	N	\$ 8,900		\$ 8,900
TOTAL GENERAL FUND NON-RECURRING PACKAGES			\$ 898,499	\$ 203,150	\$ 695,349
TOTAL RECURRING AND NON-RECURRING TAX SUPPORTED			\$3,217,861	\$ 692,834	\$2,525,028

**SUMMARY OF ALL DECISION (IMPROVEMENT) PACKAGES FOR
NON-PROPERTY TAX FUNDS**

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Impact
WRRC	Three tablet computers, a Wi-Fi router, and laboratory information management software to transition from paper-based recordkeeping to digital. This will help in streamlining laboratory operations, accelerating access to vital operational data, and improving responsiveness to clients, including the Water Department.	N	\$ 17,000		\$ 17,000
WRRC	Two additional vehicles dedicated to conducting facility inspections for the City's Industrial Pretreatment and FOG (fats, oils, and grease) programs. The establishment of the new position of Industrial Pretreatment Coordinator requires an additional vehicle, and the position of Environmental Coordinator currently uses a vehicle that was scheduled to be traded in and was temporarily retained to meet transportation needs.	N	\$ 75,000		\$ 75,000
WRRC	Purchase of a compact track loader and attachments, including light materials bucket, pallet forks, angle broom, rotary cutter, and snow pusher. This improvement replaces an existing 1994 John Deere 410D backhoe/loader and provides increased functionality to the W&RRC, including moving snow, sweeping hard surfaces, mowing rough areas, and moving bulk materials and debris.	N	\$ 90,000		\$ 90,000
WRRC	An electric scissors lift with a minimum platform height of 32 feet, intended to replace an existing single vertical mast boom lift. The inclusion of the scissors lift is aimed at eliminating the need for rental units and providing our plant staff with the means to easily conduct maintenance on rooftop HVAC units, yard lighting and cameras, as well as indoor lighting and ventilation equipment.	N	\$ 30,000		\$ 30,000
WRRC	Cleaning the four anaerobic digesters on a rolling basis, allowing each to be cleaned once every four years. Periodic cleaning of the anaerobic digesters is essential for preventing operational issues, maintaining efficiency, and ensuring compliance with environmental regulations. Regular maintenance helps extend the lifespan of the digesters, promotes consistent biogas production, and reduces the likelihood of undesirable side effects such as foaming and odors.	R	\$ 75,000		\$ 75,000
WRRC	Purchase of chemicals to be used at the Water Resource & Recovery Center to reduce odor emissions and the formation of struvite within the waste stream. An ongoing analysis determined that dosing the waste stream with hydrogen peroxide and ferric chloride could reduce hydrogen sulfide (H ₂ S), the most prevalent odor-causing compound in wastewater, and struvite.	R	\$ 462,000		\$ 462,000
WRRC	Increasing tipping fees charged for hauling and disposing high strength waste, septage, and FOG (fats, oils, and grease). The fee increases will help offset the cost of providing the requisite infrastructure to handle and treat the waste without causing compliance issues with the Clean Water Act (CWA) permit requirements.	R	\$ —	\$ 346,956	\$ (346,956)
Subtotal Sanitary Sewer Fund			\$ 794,952	\$ 346,956	\$ 447,996

Public Works	Deploying 15,000, 64-gallon carts for all customers who do not have a city-issued 96-gallon recycling cart, with a smaller option provided for those who cannot physically wheel a larger cart. If approved, The Recycling Partnership (TRP), a national non-profit, would contribute \$250,000, covering approximately 37% of the estimated \$675,000 cost of carts. It is also estimated that this change can cut costs by about \$30,000 every year.	N	\$ 675,000	\$ 250,000	\$ 425,000
Public Works	Deploying 15,000, 64-gallon carts for all customers who do not have a city-issued 96-gallon recycling cart, with a smaller option provided for those who cannot physically wheel a larger cart. If approved, The Recycling Partnership (TRP), a national non-profit, would contribute \$250,000, covering approximately 37% of the estimated \$675,000 cost of carts. It is also estimated that this change can cut costs by about \$30,000 every year.	R	\$ —	\$ 30,000	\$ (30,000)
Subtotal Solid Waste Fund			\$ 675,899	\$ 280,000	\$ 395,899
Landfill Fund					
Public Works	Purchase of a three-quarter-ton standard cab truck with a salt box and plow blade for maintaining the roadways and parking lots at the Customer Convenience Center.	N	\$ 85,000		\$ 85,000
Public Works	Smart phone for use by the Environmental Technician and the monthly services costs associated with the purchase. The Environmental Technician is the primary contact for businesses wishing to schedule disposal of e-scrap and very small quantity generator waste, for mobile collection events, and residents who have questions related to household hazardous material and e-scrap disposal.	N	\$ 350		\$ 350
Public Works	Smart phone for use by the Environmental Technician and the monthly services costs associated with the purchase. The Environmental Technician is the primary contact for businesses wishing to schedule disposal of e-scrap and very small quantity generator waste, for mobile collection events, and residents who have questions related to household hazardous material and e-scrap disposal.	R	\$ 624		\$ 624
Public Works	A litter collection vehicle, which would be utilized to collect windblown litter along the landfill cells portable and permanent fencing, along Airborne Road, and other areas on-site. Staff has researched several options and has determined that an off-road capable, four-wheel drive vehicle that allows the operator to remain in the cab while collecting the litter via a controller-operated vacuum provides the most operational flexibility and increases operator safety.	N	\$ 120,000		\$ 120,000

**SUMMARY OF ALL DECISION (IMPROVEMENT) PACKAGES FOR
NON-PROPERTY TAX FUNDS**

Department	Description	R/N	ADDL Expense	ADDL Revenue	Net Impact
Public Works	With the volume of non-commercial customers accessing the agencies services expected to increase when the Customer Convenience Center tentatively opens in Spring 2025, staff is requesting funding to hire a consultant to evaluate the current staffing allocations and determine if additional staffing is needed immediately or what service level increases should trigger staffing additions or reallocation.	N	\$ 25,000		\$ 25,000
Public Works	The Solid Waste Agency Administrator and the Solid Waste Facility Supervisor to attend one of the two Badger SWANA (Solid Waste Association of North America) events in Wisconsin each year. With approximately 20-30% of the Agency's municipal solid waste tonnage coming from the state of Wisconsin, staff attendance at the event would provide educational and networking opportunities to understand the future plans for waste in Wisconsin, which would benefit multiple operational aspects of the facility.	R	\$ 1,400		\$ 1,400
Public Works	Purchase of a towed roller compactor which would be utilized to smooth out temporary access roads and drop-off areas within the active landfill cell to improve overall access and convenience for customers/haulers. In addition, the roller would be used in other off-road areas of the landfill as needed to reduce pooling of water and improve drainage.	N	\$ 55,000		\$ 55,000
Public Works	Development of a landfill utility worker apprenticeship program. The Landfill has been unable to recruit a diverse and qualified workforce for entry-level positions. The program will be developed by creating local partnerships with Iowa Works, NICC, union representatives and landfill field staff to take full advantage of training grants provided for this type of program. The program will provide the apprentice the education and experience opportunities necessary to prepare them to operate heavy equipment and the handling and package of hazardous materials and e-scrap used with typical Landfill operations. (1) Use of fund balance will be used to pay for projects in the City's five-year Capital Improvement Program.

(2) The Tax Increment & Reserve Fund use of fund balance will be used to pay pay for projects in the City's five-year Capital Improvement Program and to repay internal loans for developing the City's industrial parks / technology parks.

(3) The UDAG Repayments Fund use of fund balance will be used for Economic Development initiatives.

(4) Section 8 Fund use of balance is reserved for housing assistance payments.

(5) Cable TV & Equipment Fund use of fund balance will be used for future capital projects.

(6) Expendable Library Gift Trusts Fund use of fund balance will be used for programs and speakers at the Library.

(7) Increase in fund balance is required to maintain the operating reserve requirement of 10% of operating expenditures.

(8) Stormwater Operation Fund use of fund balance represents spending down cash balance due to debt being issued for the Bee Branch project at a much slower timeline which reduced debt service costs and increased fund balance.

(9) Refuse Collection Fund use of fund balance will be used for future capital projects.

(10) Service Fund Charges addition to fund balance will be used to purchase equipment in future years.

(11) Salt Operations Fund addition to fund balance will be used to fund future capital purchases.

(12) Passenger Facility Charge Fund balance will be used to pay for debt issued for the new Airport terminal project.

(13) Customer Facility Charge Fund balance will be used to pay for parking lot improvements at the Airport.

(14) Expendable Police Gift Trusts Fund use of fund balance will be used for maintenance of 1948 Stylemaster and canine expenses.

(15) Veteran's Memorial Fund balance will be used for maintenance of the Veteran's Memorial.

DISTRIBUTION OF COMMUNITY DEVELOPMENT FUNDS

This page intentionally left blank.

FY 25 ANNUAL PLAN Pre-Allocation

FOR USE OF PROGRAM YEAR 2024

COMMUNITY DEVELOPMENT BLOCK GRANT

(CDBG) FUNDS

**For Inclusion in the Fiscal Year 2025 City Budget.
This document is subject to revision due to projected allocation amount.**

***Contingency Provision:** If Actual Allocation is higher than Pre-Allocation, funds up to 280,000 will go toward Emri Apartments. If Actual Allocation is lower than Pre-Allocation, funds will be taken from Housing Rehab Services and Staff.

PREPARED BY THE CITY OF DUBUQUE HOUSING & COMMUNITY DEVELOPMENT
DEPARTMENT

**CITY OF DUBUQUE, IOWA
FY 2025 ANNUAL ACTION PLAN
FOR THE USE OF PROGRAM YEAR 2024
COMMUNITY DEVELOPMENT BLOCK GRANT FUNDS**

The City of Dubuque distinguishes between four different but complementary areas of program development in its overall CDBG program: Housing Development, Economic Development, Neighborhood and Community Development and Planning & Administration. The following description of activities summarizes the projects to be completed in the FY 2025 Annual Action Plan with the use of CDBG funds.

RESOURCES

CDBG Projected Entitlement FY 2024 **\$1,031,452**

Program Income **\$108,142**

Program income projects are based on forecast for loan repayments based on the loan portfolio and program income generated from CDBG funded programs.

TOTAL RESOURCES **\$1,139,594**

PLANNING AND ADMINISTRATION **\$254,000**

CDBG regulations limit expenditure on planning and administrative funds to 20% of the current year program income plus the current entitlement. The proposed resources for administration support the plan's current requirements.

CDBG Planning, Monitoring, & Budgeting **\$144,909**

Staff support for general management. Oversight and coordination of the Community Development Block Grant program; assures compliance with federal regulations and reporting requirements.

Housing & Community Development Administration **\$109,091**

On-going staff support for general management, oversight, and coordination of the Community Development Block Grant housing programs.

Priority:	High
Objective/Outcome:	Suitable Living Environment/ Sustainability (SL3)

ECONOMIC DEVELOPMENT PROGRAMS **\$50,000**

Microenterprise Assistance Program **\$50,000**

This project creates a microenterprise assistance program that assists low- and moderate-income business owners with mentoring, professional development, and eligible business expenses.

Location:	Citywide
Proposed Accomplishments:	10 Businesses
Priority:	High
Objective/Outcome:	Economic Opportunities/Accessibility

HOUSING DEVELOPMENT PROGRAMS **\$544,130**

Area Residential Care: Penn Community Living Home Remodel		\$41,025
This project provides funding to update the Penn Community Living Home in a residential-unit building that serves primarily low- and moderate- income individuals.		
National Objective:	Low - and Moderate-Income Housing	
Location:	Penn Community Living Home	
Proposed Accomplishments:	1 Housing unit	
Priority:	High	
Objective/Outcome:	Suitable Living Environment/Sustainability (DH2)	
Dubuque Housing LLC: Emri Apartments		\$77,527
This project provides funding for acquisition of real property to develop Emri Apartments primarily low- and moderate- income individuals.		
National Objective:	Low - and Moderate-Income Housing	
Location:	Penn Community Living Home	
Proposed Accomplishments:	1 Housing unit	
Priority:	High	
Objective/Outcome:	Suitable Living Environment/Sustainability (DH2)	
First Time Home Buyer Program		\$50,000
Provides loans to assist low- and moderate-income families to purchase their first homes. These funds are used to cover the "entry costs" of homeownership - down payments and closing costs.		
National Objective:	Low - and Moderate-Income Housing	
Location:	Citywide	
Proposed Accomplishments:	10 Households	
Priority:	High	
Objective/Outcome:	Decent Housing/Affordability (DH2)	
Homeowner Rehabilitation		\$125,000
Provides low-interest loans to qualified low- and moderate- income homeowners for the rehabilitation of substandard housing units.		
National Objective:	Low - and Moderate-Income Housing	
Location:	Citywide	
Proposed Accomplishments:	10 Housing Units	
Priority:	High	
Objective/Outcome:	Decent Housing/Affordability (DH2)	
Housing Rehabilitation Services and Staff		\$150,578
On-going staff support, including program management, technical assistance, loan packaging and inspection, for the City's rehabilitation loan program.		
Priority:	High	
Objective/Outcome:	Decent Housing/Accessibility (DH1)	
Lead Hazard Reduction (Lead & Healthy Homes Grant Match)		\$100,000
Provides activities in support of efforts to reduce lead paint hazards in housing, including assessment and lead paint reduction or abatement, with forgivable loans to low- and moderate- income residents. This assistance is for the Lead and Healthy Homes grant awarded in 2021.		
National Objective:	Low - and Moderate-Income Housing	
Location:	Citywide	
Proposed Accomplishments:	20 Housing units	
Priority:	High	
Objective/Outcome:	Decent Housing/Sustainability (DH3)	

NEIGHBORHOOD and COMMUNITY DEVELOPMENT PROGRAMS \$141,464

Public Services activities are restricted to 15% of the previous year program income and the current year entitlement. Public Service activities in this plan represent 15% of the proposed expenditures.

Neighborhood Recreation Programs \$132,754

Targeted and enhanced recreation offered in the City's older low- and moderate-income neighborhoods to meet the needs of at-risk youth, promote self-esteem, and build community. Activities include after-school programs, open gym, basketball league, music lessons, mobile recreation, scholarships, and summer day camp.

National Objective:	Low and Moderate-Income Benefit
Location:	City wide
Proposed Accomplishments:	5,730 persons
Priority:	High
Objective/Outcome:	Suitable Living Environment/Accessibility (SL1)

Zoning Inspection/Enforcement \$8,710

This project provides funding for inspection/enforcement staff services to low/mod income areas for zoning ordinance infractions and to provide support for neighborhood clean-up efforts.

National Objective:	Low and Moderate-Income Benefit
Location:	Low/Mod Residential Areas
Proposed Accomplishments:	45 Housing Units
Objective/Outcome:	Decent Housing/Sustainability (DH3)

PUBLIC FACILITIES \$150,000**Low-Mod Area Park Updates \$150,000**

New playground equipment at low- and moderate- income area parks based on community input.

National Objective:	Low- and Moderate-Income Benefit
Location:	Low- and Moderate Residential Areas
Proposed Accomplishments:	Park Design/Community Input
Priority:	High
Objective/Outcome:	Suitable Living Environment/Accessibility (SL1)

Grand Total: CDBG Funding Proposed for FY 2024 \$1,139,594

DEBT MANAGEMENT

This page intentionally left blank.

DEBT SERVICE FUND

The Debt Service Fund is a legally-required fund. The fund administers the payments for all of the City's general obligation debt. Revenue bonds, other than those from tax increment revenues, are administered in the enterprise fund that is securing the debt.

For the majority of projects funded through general obligation debt, the City usually issues twenty-year general obligation bonds. In Fiscal Year 2025, there is anticipated to be an additional \$15,690,967 in general obligation debt issued that would apply against the statutory debt limit, and \$12,967,709 in principal retired will be applied against the statutory debt limit.

In fiscal year 2025, debt service expense related to general obligation bonds that counts against the statutory debt limit will decrease 13.03% under fiscal year 2024 in the debt service fund. New general obligation bond debt which counts against the statutory debt limit planned to be issued (non-enterprise fund) in fiscal year 2025 is as follows:

Project	Amount of Debt Issue	FY 2025 Debt Service
Fire Equipment Replacement (LOST)	969,342	—
Fire Station Improvements (LOST)	1,320,900	—
Fire Training Burn Tower Improvements (LOST)	466,676	—
Airport Improvements (LOST)	500,386	—
ABC Supply Building Deconstruction (GDTIF)	457,000	—
Smart Parking System (GDTIF)	1,957,000	—
Parking Ramp Major Maintenance Repairs (GDTIF)	6,053,000	—
Federal Building Renovation (GDTIF)	533,000	—
Iowa Amphitheater on Schmitt Island (GDTIF)	285,000	—
McFadden Farm - South Heacock Road (DICW)	2,274,963	—
Solid Waste Collection Vehicles - Refuse	873,700	—
GRANDTOTAL	15,690,967	—

The new debt issued in fiscal year 2025 will be issued in April, which delays principal payments until fiscal year 2026.

The debt service property tax levy finances the bond and interest payments that are not being secured from other revenue sources. The levy rate for debt service will increase by 0.06 to 0.08334 in Fiscal Year 2025. The debt service property tax levy represents the repayment of bonds related to the Fire Department pumper truck replacement and the franchise fee litigation judgment bond.

Funding sources other than property taxes are also used to repay general obligation debt. The City's general obligation debt is also funded by other revenues including water, sewer and tax increment financing. One percent of the City's general obligation debt service is funded from the debt service property tax levy. Other revenues being used to repay debt service are shown as transfers in.

Statutory Debt Limit

In August 2015, the Mayor and City Council adopted a debt reduction strategy which targeted retiring more debt each year than was issued by the City. The recommended FY 2025 budget will achieve that target in FY 2027, FY 2028, and FY 2029. However, Fiscal Year 2025 and Fiscal Year 2026 will exceed the target due to issuing necessary debt for Five Flags, Water Lead Lines, PFAS, Chaplain Schmitt Island Iowa Amphitheater and other important projects leveraging grants and forgivable State Revolving Fund loans. **You can see that the Mayor and City Council have significantly impacted the City's use of the statutory debt limit established by the State of Iowa. In Fiscal Year 2015, the City of Dubuque used 90% of the statutory debt limit. In this budget recommendation, the Mayor and City Council are currently reviewing for Fiscal Year 2025, the use of the statutory debt limit would be 34.85%, and by the end of the recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2029, the City of Dubuque would be at 35.65% of the statutory debt limit. The 5-Year CIP includes \$3.285 in FY2025 and \$5.5M in FY2026 for the Chaplain Schmitt Island - Iowa Amphitheater which will be paid by the DRA. Projections out 10 years to Fiscal Year 2034 show the City of Dubuque at 20.47% of the statutory debt limit.** This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.

The City uses debt to fund some capital projects; therefore, the City's change in debt levels since the implementation of the debt reduction strategy has impacted City operations. By implementing the debt reduction strategy and decreasing the amount of debt issued each year, the number of Capital Improvement Projects that can be selected for funding each year has decreased. Prior to the implementation of the debt reduction strategy, a higher number of Capital Improvement Projects were selected for funding, as the City was issuing more debt at the time.

The following chart shows Dubuque's relative position pertaining to use of the statutory debt limit for Fiscal Year 2025 compared to the other cities in Iowa for Fiscal Year 2023 with a population over 50,000:

Fiscal Year 2023 Legal Debt Limit Comparison for Eleven Largest Iowa Cities

Rank	City	Legal Debt Limit (5%)	Statutory Debt Outstanding	Percentage of Legal Debt Limit Utilized
11	Des Moines	\$ 718,164,068	\$ 584,079,175	81.33 %
10	Sioux City	\$ 268,884,360	\$ 146,463,622	54.47 %
9	Waterloo	\$ 204,491,592	\$ 123,519,127	60.40 %
8	Davenport	\$ 386,405,519	\$ 202,220,000	52.33 %
7	Cedar Rapids	\$ 619,108,725	\$ 334,460,000	54.02 %
6	W. Des Moines	\$ 468,115,757	\$ 239,455,000	51.15 %
5	Dubuque (FY24)	\$ 262,722,395	\$ 106,837,518	40.67 %
4	Ankeny	\$ 354,600,527	\$ 110,000,000	31.02 %
3	Ames	\$ 259,576,468	\$ 62,570,000	24.10 %
2	Council Bluffs	\$ 309,959,314	\$ 59,243,902	19.11 %
1	Iowa City	\$ 350,967,316	\$ 65,775,000	18.74 %

**STATUTORY DEBT CAPACITY
FISCAL YEAR 2025 RECOMMENDED BUDGET**

The Iowa Constitution (Article XI, Section 3) stipulates that the debt of a community may not exceed five percent of the **Actual Assessed Value** of Taxable Property (debt levy) within the city or town.

General Obligations, TIF debt (bonds, notes and rebates), and leases paid from the general fund are included as indebtedness of the City under the statutory debt limit.

January 1, 2023	
FY 2025	
ASSESSED VALUE OF REAL PROPERTY	\$ 6,010,651,582
Less Exemptions	<u>\$ (18,669,524)</u>
Subtotal	\$ 5,991,982,058
UTILITIES ASSESSED VALUE	\$ 446,540,351
TOTAL ASSESSED VALUE OF TAXABLE PROPERTY	\$ 6,438,522,409
June 30, 2025	
STATUTORY DEBT (5% OF TOTAL ASSESSED VALUE)	\$ 321,926,120
Less Outstanding G.O. Debt, TIF Debt & Lease Obligations paid from General Fund	\$ 112,190,028
STATUTORY DEBT CAPACITY	<u><u>\$ 209,736,093</u></u>
PERCENT OF LEGAL DEBT MARGIN UTILIZED	34.85 %

Total Debt Outstanding

By the end of the Recommended 5-Year Capital Improvement Program (CIP) budget, the total amount of debt for the City of Dubuque would be \$286.28 million (35.65% of the statutory debt limit), **which includes \$285,000 in FY2025 and \$5.5M in FY2026 for the Chaplain Schmitt Island - Iowa Amphitheater which will be paid by the DRA. Projections out 10 years to Fiscal Year 2034 show the City of Dubuque at 20.47% of the statutory debt limit, and the projection is to be at \$177.32 million (20.47% of statutory debt limit) within 10 years.**

Total Debt (In Millions)

General Obligation Debt Per Capita reflects all general obligation bonds, both tax supported and enterprise fund supported. The decrease in G.O. Debt Per Capita is related to the City Council debt reduction strategy which targeted retiring more debt each year than was issued by the City.

Retired Debt Versus New Debt

The total City indebtedness as of June 30, 2025, is projected to be \$274,937,509 (34.85% of statutory debt limit). The total City indebtedness as of June 30, 2015, was \$295,561,181 (69.45% of statutory debt limit). **The City is projected to have \$22,808,589 more in debt as of June 30, 2025, this amount includes \$3.285 million issued for the Chaplain Schmitt Island - Iowa Amphitheater project which will be paid by the DRA.**

The combination of increased debt and increased utility rates partially reflects the movement to a more critical infrastructure funding strategy.

The following chart shows the amount of retired debt as compared to new debt. The new debt includes new debt issuances as well as draw downs on existing state revolving fund loans:

Retired Debt Versus New Debt (In Millions)

*In Fiscal Year 2020, the City had \$5,908,200 forgiven of the Bee Branch Upper Bee Branch Loan on June 30, 2020 which increased principal payments reflected.

**In Fiscal Year 2026, it is projected \$2,494,896 of SRF debt will be forgiven as part of the Private Lead Service Line Replacement project

Bond Rating

The City's General Obligation Debt ratings with Moody's Investors Service is Aa2. **In July 2023, Moody's Investor Service upgraded the City's outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1.**

Credit Strengths:

- Strong financial operations and ample revenue-raising flexibility
- City serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years

Credit Challenges:

- Full value per capita and median family income trail medians for the rating category
- Elevated leverage

Moody's Investors Service Rating Scale

FY 2025 Moody's Investors Service Bond Ratings Comparison for Iowa Cities

Ranking	City	Rating
1	Iowa City	AAA
	West Des Moines	AAA
	Cedar Falls	AAA
	Clive	AAA
2	Cedar Rapids	Aa1
	Ames	Aa1
	Ankeny	Aa1
	Urbandale	Aa1
	Marion	Aa1
3	Dubuque	Aa2
	Des Moines	Aa2
	Davenport	Aa2
	Waterloo	Aa2
	Sioux City	Aa2
	Bettendorf	Aa2
	Council Bluffs	Aa2

In July 2023, Moody's Investor Service upgraded the City's outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1. Notable credit factors include strong financial operations and ample revenue-raising flexibility, which has resulted in steadily improved available fund balance and cash. The City serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years.

In November of 2022, Moody's Investors Service ("Moody's") released a new rating methodology for cities and counties. Two significant changes result from the new methodology; cities are now assigned an issuer rating meant to convey the creditworthiness of the issuer as a whole without regard to a specific borrowing, and business-type enterprise funds are now being considered together with general fund revenues and balances in the determination of financial performance.

Under the new methodology, there are two metrics that contribute to financial performance. Available Fund Balance Ratio ("AFBR") = (Available Fund Balance + Net Current Assets/Revenue) and Liquidity Ratio ("LR") = (Unrestricted Cash/Revenue). For Aa credits, AFBR ranges from 25-35, and LR ranges from 30-40%.

The City was evaluated by Moody's under the old methodology in May of 2022 in connection to its annual issuance of bonds. At that time, Moody's calculated the City's AFBR to be 45.2%, and its LR to be 59.8%. The balances used in these calculations were likely elevated due to unspent ARPA funds. The change in methodology will now consider revenues and net assets from business-type activities in these calculations. As such, the City's general obligation rating will now be directly impacted by the financial performance of enterprise funds. Establishing rates and charges adequate to provide both debt service coverage and significant liquidity will be necessary to maintain the City's ratings.

CAPITAL BUDGET

This page intentionally left blank.

CAPITAL IMPROVEMENTS PROGRAM (CIP)

The City's five-year Capital Improvement Program (CIP), contained in a separate document, is used to plan for major changes to the City's infrastructure and other capital improvements. Departments propose projects in the fall, and a draft of the CIP is developed before operational budgets are submitted. The CIP by department is reviewed with the operating budgets during budget hearings with City Council in February. The CIP is approved in March with the operating budget.

The CIP document has a page for every project and the format includes description of the project, City Council Goals & Priority outcome, funding restrictions, effect on operations, and relationship to other projects. The CIP recommendation reflects the City's comprehensive plan and the goals and priorities established by City Council.

The FY 2025 recommended capital projects are incorporated into the budget as capital programs. They are found at the end of each applicable program section. Projects which have an effect on operations are noted. The City's CIP policies are shown in the Policy Budget documents.

The five-year CIP recommended through the current year (Fiscal Year 2024) budget process covered Fiscal Year 2024 through 2028 and is \$298,808,622. The recommended five-year CIP for the upcoming budget process (Fiscal Year 2025) will cover Fiscal Year 2025 through 2029 and is \$354,260,757. This is a \$43,024,415, or 16.82% increase.

The Fiscal Year 2025 CIP budget recommendation of \$88,753,825 is a 15.94% increase from the Fiscal Year 2024 CIP budget of \$76,554,143.

For several years, the Mayor and City Council had been taking advantage of the historically low interest rates and investing in City infrastructure and economic development and redevelopment. At the 2015 City Council Goal Setting, the Mayor and City Council adopted debt reduction as a High Priority. This recommended budget does not support the debt reduction policy due to the need to fund high priority projects.

While the City will issue \$145,955,901 in new debt in the recommended five-year CIP, mostly for fire equipment replacement, fire station improvements, fire station expansion, airport improvements, Chaplain Schmitt Island Iowa Amphitheater, reimagine Comiskey, Federal Building renovations, solid waste collection vehicles, sanitary sewer improvements, water improvements, stormwater improvements, parking improvements, and renovation of Five Flags, for a total of \$145,955,901 of debt in FY 2025-2029. **The City will retire \$130,165,376 of existing debt, increasing the amount of City debt by \$15,790,525.**

For Fiscal Year 2025, the use of the statutory debt limit would be 34.85%, and by the end of the recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2029, the City of Dubuque would be at 35.65% of the statutory debt limit.

In this budget recommendation, the Mayor and City Council are currently reviewing, projections out 10 years to Fiscal Year 2034 show the City of Dubuque at 20.47% of the statutory debt limit. This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.

In the extremely low interest rate environment prior to 2015, the City had been increasing the use of debt to accomplish the projects that need to be done. To have any success, a community must have a sound infrastructure. The Mayor and City Council has recognized the infrastructure issues Dubuque faces and has been responsive. While there was some criticism of City use of debt to deal with those infrastructure challenges, that criticism fails to recognize that not financing the needed infrastructure maintenance and

improvements is also a form of debt that is passed down to future generations. This was a strategic decision by the City Council realizing that infrastructure investment just gets more expensive over time for these reasons: a) the older a piece of infrastructure gets and the more it is allowed to deteriorate increases costs; b) the longer the wait to invest in infrastructure the costs are increased by inflation; and c) If the investment in infrastructure is not made in this low interest rate environment this investment will eventually need to be made when interest rates are higher, thereby increasing costs. However, beginning in FY 2016 the City Council at their 2015 Goal Setting Session debt reduction was adopted as a High Priority. So the amount of outstanding debt began to decrease. in Fiscal Year 2025 the City will be issuing more debt than is retired to be able to fund critical infrastructure projects. However, in 2022 a fourth reason was created for considering using debt for infrastructure projects and that is the massive amount of federal grant money that is being made available. As already mentioned, most of these grants require matching dollars and most require that the engineering work already be financed and completed to make the projects shovel ready.

The debt principal outstanding projected as of June 30, 2024, is currently \$257,000,705. The breakdown of the debt principle outstanding as of June 30, 2024, is as follows:

Debt Obligation	6/30/2024 Principle Outstanding
General Obligation Essential Corporate Purpose	\$95,787,606
Less General Obligation Debt Subject to Annual Appropriation	(\$15,902,592)
Tax Increment Notes and Bonds	\$16,350,000
Economic Development TIF Rebate Agreements	\$6,104,789
Other Revenue-Backed Loans	\$2,940,485
Total Indebtedness Subject to Statutory Debt Limit of \$262,722,395	\$105,280,288
Percent of Statutory Debt Limit Used as of June 30, 2024	40.07 %
Revenue Bonds	\$135,817,825
Less Revenue Bonds Subject to Annual Appropriation	(\$13,956,032)
Add Debt Subject to Annual Appropriation	\$29,858,624
Total City Indebtedness as of June 30, 2024	\$257,000,705

The City will issue \$145,955,901 in new debt in the Recommended 5-year CIP, mostly for fire equipment replacement, fire station improvements, fire station expansion, airport improvements, Chaplain Schmitt Island Iowa Amphitheater, reimagine Comiskey, Federal Building renovations, solid waste collection vehicles, sanitary sewer improvements, stormwater improvements, water improvements, parking improvements, and renovation of Five Flags.

Project	FY 2025	FY 2026	FY 2027	FY 2028	FY 2029	Total

The City will retire \$124,211,508 of existing debt over the next five-years (FY25-FY29).

The following chart shows the net reduction of debt from Fiscal Year 2025 - Fiscal Year 2029:

Project	FY 2025	FY 2026	FY 2027	FY 2028	FY 2029	Total
New Debt	\$ 38,061,244	\$ 39,996,038	\$ 20,890,940	\$ 20,564,833	\$ 26,442,846	\$ 145,955,901
Retired Debt	-\$21,955,845	-\$23,328,969	-\$24,809,782	-\$25,965,305	-\$28,151,607	-\$124,211,508
Net Debt Increase (Reduction)	\$16,105,399	\$16,667,069	-\$3,918,842	-\$5,400,472	-\$1,708,761	\$21,744,393

Capital improvement activities have been established in the City's budget to separate CIP projects and project expense (i.e. Storm Sewer Capital Improvement Activity, Street Capital Improvement Activity, Park Capital Improvement Activity) from operating expense (i.e. supplies, insurance salaries). The State of Iowa budget law requires that a city's budget be prepared and certified on a program basis. This means that each activity must fall under one of the State-mandated budget program areas.

Table 1 below shows a summary of the five-year CIP by State Program. This is an increase of \$55,452,135 from the FY 2024-2028 total CIP budget of \$298,808,622.

TABLE 1 - FISCAL YEAR 2025-2029 CIP CAPITAL IMPROVEMENT PROGRAM

CITY OF DUBUQUE, IOWA

Fiscal Year 2025-2029 Capital Improvement Program (CIP)

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

Attached is the Fiscal Year 2025-2029 Capital Improvement Program (CIP). State law requires that a five-year CIP be adopted by the City Council after a public hearing. The required CIP public hearing will be held April 11, 2024, at the same time as the public hearing on the Fiscal Year 2025 Operating Budget.

The CIP, as the plan for the City's physical development effort, attempts to address a variety of needs that the City must meet if it is to maintain its physical facilities, meet its service commitments and provide for its future development. The CIP adoption reflects the City's comprehensive plan and the goals and priorities established by the City Council and are shown in each of the State mandated budget program areas.

With the pledge of the \$1.1 trillion dollar federal infrastructure package and other opportunities to compete for grants, the City will need to spend money to prepare projects to be grant eligible and to provide matching funds to compete for grants.

The Fiscal Year 2025 CIP budget recommendation of \$88,753,825 is a 15.94% increase from the Fiscal Year 2024 CIP budget of \$76,554,143.

For several years, the Mayor and City Council had been taking advantage of the historically low interest rates and investing in City infrastructure and economic development and redevelopment. At the 2015 City Council Goal Setting, the Mayor and City Council adopted debt reduction as a High Priority. This recommended budget does not support the debt reduction policy due to the need to fund high priority projects.

While the City will issue \$145,955,901 in new debt in the recommended five-year CIP, mostly for fire equipment replacement, fire station improvements, fire station expansion, airport improvements, Chaplain Schmitt Island Iowa Amphitheater, reimagine Comiskey, Federal Building renovations, solid waste collection vehicles, sanitary sewer improvements, water improvements, stormwater improvements, parking improvements, and renovation of Five Flags, for a total of \$145,955,901 of debt in FY 2025-2029. **The City will retire \$130,165,376 of existing debt, increasing the amount of City debt by \$15,790,525.**

For Fiscal Year 2025, the use of the statutory debt limit would be 34.85%, and by the end of the recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2029, the City of Dubuque would be at 35.65% of the statutory debt limit.

In this budget recommendation, the Mayor and City Council are currently reviewing, projections out 10 years to Fiscal Year 2034 show the City of Dubuque at 20.47% of the statutory debt limit. This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.

In the extremely low interest rate environment prior to 2015, the City had been increasing the use of debt to accomplish the projects that need to be done. To have any success, a community must have a sound infrastructure. The Mayor and City Council has recognized the infrastructure issues Dubuque faces and has been responsive. While there was some criticism of City use of debt to deal with those infrastructure challenges, that criticism fails to recognize that not financing the needed infrastructure maintenance and improvements is also a form of debt that is passed down to future generations. This was a strategic decision

by the City Council realizing that infrastructure investment just gets more expensive over time for these reasons: a) the older a piece of infrastructure gets and the more it is allowed to deteriorate increases costs; b) the longer the wait to invest in infrastructure the costs are increased by inflation; and c) If the investment in infrastructure is not made in this low interest rate environment this investment will eventually need to be made when interest rates are higher, thereby increasing costs. However, beginning in FY 2016 the City Council at their 2015 Goal Setting Session debt reduction was adopted as a High Priority. So the amount of outstanding debt began to decrease. in Fiscal Year 2025 the City will be issuing more debt than is retired to be able to fund critical infrastructure projects. However, in 2022 a fourth reason was created for considering using debt for infrastructure projects and that is the massive amount of federal grant money that is being made available. As already mentioned, most of these grants require matching dollars and most require that the engineering work already be financed and completed to make the projects shovel ready.

The debt principal outstanding projected as of June 30, 2024, is currently \$257,000,705. The breakdown of the debt principle outstanding as of June 30, 2024, is as follows:

Debt Obligation	6/30/2024 Principle Outstanding
General Obligation Essential Corporate Purpose	\$95,787,606
Less General Obligation Debt Subject to Annual Appropriation	(\$15,902,592)
Tax Increment Notes and Bonds	\$16,350,000
Economic Development TIF Rebate Agreements	\$6,104,789
Other Revenue-Backed Loans	\$2,940,485
Total Indebtedness Subject to Statutory Debt Limit of \$262,722,395	\$105,280,288
Percent of Statutory Debt Limit Used as of June 30, 2024	40.07 %
Revenue Bonds	\$135,817,825
Less Revenue Bonds Subject to Annual Appropriation	(\$13,956,032)
Add Debt Subject to Annual Appropriation	\$29,858,624
Total City Indebtedness as of June 30, 2024	\$257,000,705

The City will issue \$145,955,901 in new debt in the Recommended 5-year CIP, mostly for fire equipment replacement, fire station improvements, fire station expansion, airport improvements, Chaplain Schmitt Island Iowa Amphitheater, reimagine Comiskey, Federal Building renovations, solid waste collection vehicles, sanitary sewer improvements, stormwater improvements, water improvements, parking improvements, and renovation of Five Flags.

Project	FY 2025	FY 2026	FY 2027	FY 2028	FY 2029	Total

Solid Waste Collection Vehicles - Refuse	\$ 873,700	\$ 585,840	\$ 400,000	\$ —	\$ —	\$ 1,859,540
Sanitary Sewer Projects	\$ 17,683,900	\$ 15,531,900	\$ 8,212,105	\$ 10,448,695	\$ 4,881,286	\$ 56,757,886
Stormwater Projects	\$ —	\$ 3,947,357	\$ 2,600,000			\$ 6,547,357
Water Projects	\$ 4,686,377	\$ 750,000	\$ 3,750,000	\$ 1,750,000	\$ 3,000,000	\$ 13,936,377
Total New Debt	\$ 38,061,244	\$ 39,996,038	\$ 20,890,940	\$ 20,564,833	\$ 26,442,846	\$ 145,955,901

The City will retire \$124,211,508 of existing debt over the next five-years (FY25-FY29).

The following chart shows the net reduction of debt from Fiscal Year 2025 - Fiscal Year 2029:

Project	FY 2025	FY 2026	FY 2027	FY 2028	FY 2029	Total
New Debt	\$ 38,061,244	\$ 39,996,038	\$ 20,890,940	\$ 20,564,833	\$ 26,442,846	\$ 145,955,901
Retired Debt	-\$21,955,845	-\$23,328,969	-\$24,809,782	-\$25,965,305	-\$28,151,607	-\$124,211,508
Net Debt Increase (Reduction)	\$16,105,399	\$16,667,069	(\$3,918,842)	(\$5,400,472)	(\$1,708,761)	\$21,744,393

There was a 22.53% increase in assessed value effective January 1, 2023, which is the assessment the Fiscal Year 2025 statutory debt limit is based on. The statutory debt limit effective June 30, 2025 is \$321,926,120. **The City will be at 34.85% of statutory debt limit by June 30, 2025.** In FY 16 the City was at 86.13% of statutory debt limit, so **34.85% in Fiscal Year 2025 is a (51.69)% decrease in use of the statutory debt limit.**

The ten year history of the City's use of the statutory debt limit is as follows:

FY 15	FY 16	FY 17	FY 18	FY 19	FY 20	FY 21	FY 22	FY 23	FY24
83.87%	86.54%	66.06%	59.79%	52.90%	46.91%	43.51%	43.33%	39.36%	40.07%

The five year projection of the City's use of the statutory debt limit from Fiscal Year 2025–2029 including all planned debt issuances subject to the statutory limit and assuming a 2% growth in the City's assessed valuation beginning in Fiscal Year 2025 is as follows:

FY 25	FY 26	FY 27	FY 28	FY 29
34.85%	37.22%	35.31%	34.03%	35.65%

The following chart shows Dubuque's relative position pertaining to use of the statutory debt limit for Fiscal Year 2025 compared to the other cities in Iowa for Fiscal Year 2023 with a population over 50,000:

Fiscal Year 2023 Legal Debt Limit Comparison for Eleven Largest Iowa Cities

Rank	City	Legal Debt Limit (5%)	Statutory Debt Outstanding	Percentage of Legal Debt Limit Utilized
11	Des Moines	\$ 792,697,654	\$ 529,035,000	66.74 %
10	W. Des Moines	\$ 506,339,850	\$ 319,175,000	63.04 %
9	Cedar Rapids	\$ 652,295,825	\$ 366,140,000	56.13 %
8	Waterloo	\$ 216,437,019	\$ 115,999,161	53.59 %
7	Davenport	\$ 409,777,672	\$ 208,650,000	50.92 %
6	Sioux City	\$ 293,887,647	\$ 143,694,902	48.89 %
5	Dubuque (FY25)	\$ 321,926,120	\$ 112,190,028	34.85 %
4	Ankeny	\$ 395,854,796	\$ 104,450,000	26.39 %
3	Ames	\$ 275,808,881	\$ 65,175,000	23.63 %
2	Iowa City	\$ 362,419,812	\$ 63,795,000	17.60 %
1	Council Bluffs	\$ 321,835,908	\$ 50,776,645	15.78 %
	Average w/o Dubuque			42.27 %

Percent of Legal Debt Limit Utilized

Dubuque ranks as the fifth lowest of the use of statutory debt limit of the 11 cities in Iowa with a population over 50,000 and Dubuque is at the average of the other Cities. **The average (42.27%) is 21.30% higher than Dubuque (34.85%).**

Retired Debt Versus New Debt

The total City indebtedness as of June 30, 2025, is projected to be \$274,937,509 (34.85% of statutory debt limit). The total City indebtedness as of June 30, 2015, was \$295,561,181 (69.45% of statutory debt limit). **The City is projected to have \$22,808,589 more in debt as of June 30, 2025, this amount includes \$3.285 million issued for the Chaplain Schmitt Island - Iowa Amphitheater project which will be paid by the DRA.**

The combination of increased debt and increased utility rates partially reflects the movement to a more critical infrastructure funding strategy.

The following chart shows the amount of retired debt as compared to new debt. The new debt includes new debt issuances as well as draw downs on existing state revolving fund loans:

Retired Debt Versus New Debt (In Millions)

*In Fiscal Year 2020, the City had \$5,908,200 forgiven of the Bee Branch Upper Bee Branch Loan on June 30, 2020 which increased principal payments reflected.

**In Fiscal Year 2026, it is projected \$2,494,896 of SRF debt will be forgiven as part of the Private Lead Service Line Replacement project

Statutory Debt and Total Debt

In August 2015, the Mayor and City Council adopted a debt reduction strategy which targeted retiring more debt each year than was issued by the City. The recommended FY 2025 budget will achieve that target in FY 2027, FY 2028, and FY 2029. However, Fiscal Year 2025 and Fiscal Year 2026 will exceed the target due to issuing necessary debt for Five Flags, Water Lead Lines, PFAS, Chaplain Schmitt Island Iowa Amphitheater and other important projects leveraging grants and forgivable State Revolving Fund loans. **You can see that the Mayor and City Council have significantly impacted the City's use of the statutory debt limit**

established by the State of Iowa. In Fiscal Year 2015, the City of Dubuque used 90% of the statutory debt limit. In this budget recommendation, the Mayor and City Council are currently reviewing for Fiscal Year 2025, the use of the statutory debt limit would be 34.85%, and by the end of the recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2029, the City of Dubuque would be at 35.65% of the statutory debt limit. The 5-Year CIP includes \$3.285 in FY2025 and \$5.5M in FY2026 for the Chaplain Schmitt Island - Iowa Amphitheater which will be paid by the DRA. Projections out 10 years to Fiscal Year 2034 show the City of Dubuque at 20.47% of the statutory debt limit. This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.

By the end of the Recommended 5-Year Capital Improvement Program (CIP) budget, the total amount of debt for the City of Dubuque would be \$286.28 million (35.65% of the statutory debt limit), **which includes \$285,000 in FY2025 and \$5.5M in FY2026 for the Chaplain Schmitt Island - Iowa Amphitheater which will be paid by the DRA. Projections out 10 years to Fiscal Year 2034 show the City of Dubuque at 20.47% of the statutory debt limit**, and the projection is to be at \$177.32 million (20.47% of statutory debt limit) within 10 years.

Total Debt (In Millions)

General Fund Reserves

The City maintains a general fund reserve, or working balance, to allow for unforeseen expenses that may occur. Moody's Investor Service recommends a 30% General Fund Operating Reserve for "AA" rated cities.

In July 2023, Moody's Investor Service upgraded the City's outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1. Notable credit factors include strong financial operations and ample revenue-raising flexibility, which has resulted in steadily improved available fund balance and cash. The City serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years.

In November of 2022, Moody's Investors Service ("Moody's") released a new rating methodology for cities and counties. Two significant changes result from the new methodology; cities are now assigned an issuer rating meant to convey the creditworthiness of the issuer as a whole without regard to a specific borrowing, and business-type enterprise funds are now being considered together with general fund revenues and balances in the determination of financial performance.

Under the new methodology, there are two metrics that contribute to financial performance. Available Fund Balance Ratio ("AFBR") = (Available Fund Balance + Net Current Assets/Revenue) and Liquidity Ratio ("LR") = (Unrestricted Cash/Revenue). For Aa credits, AFBR ranges from 25-35, and LR ranges from 30-40%.

The City was evaluated by Moody's under the old methodology in May of 2022 in connection to its annual issuance of bonds. At that time, Moody's calculated the City's AFBR to be 45.2%, and its LR to be 59.8%. The balances used in these calculations were likely elevated due to unspent ARPA funds. The change in methodology will now consider revenues and net assets from business-type activities in these calculations. As such, the City's general obligation rating will now be directly impacted by the financial performance of enterprise funds. Establishing rates and charges adequate to provide both debt service coverage and significant liquidity will be necessary to maintain the City's ratings.

In May 2021, Moody's Investor Service upgraded the City's Water Enterprise's outstanding revenue bonds from A1 to A2 and affirmed the Aa3 credit rating on general obligation bonds. Notable credit factors include a sizable tax base, a wealth and income profile that is slightly below similarly rated peers, and increased financial position that will decline in fiscal years 2021 and 2022 and somewhat elevated debt and pension liabilities.

These credit ratings are affirmation of the sound fiscal management of the mayor and city council, put Dubuque in a strong position to capitalize on favorable financial markets, borrow at low interest rate when necessary, and make critical investments in the community.

Fiscal Year	Fund Reserve (As percent of General Fund revenues)	New Moody's Methodology	Reason for change from previous Fiscal Year
FY 2018	23.81%		Increase due to capital projects not expended before the end of the FY and additional contributions to general fund reserve
FY 2019	29.06%		Increase due to capital projects not expended before the end of the FY.
FY 2020	31.24%		Increase due to freezing vacant positions and most capital projects due to the pandemic.
FY 2021	40.72%		Increase due to American Rescue Plan Act funds received (\$13.2 million), frozen positions and capital projects through Feb 2021.
FY 2022	49.16%	45.09%	Increase due to American Rescue Plan Act funds received (\$13.2 million), capital projects not expended before the end of the FY, and vacant positions.
FY 2023	50.18%	45.25%	Increase due to American Rescue Plan Act funds not spent (\$26.4 million), capital projects not expended before the end of the FY, and vacant positions.

**Fund Reserve as a Percent of General Fund and Enterprise Fund Revenue
New Moody's Methodology**

The City of Dubuque has historically adopted a general fund reserve policy as part of the Fiscal and Budget Policy Guidelines which is adopted each year as part of the budget process. During Fiscal Year 2013, the City adopted a formal Fund Reserve Policy which states the City may continue to add to the General Fund minimum balance of 10% when additional funds are available until 20% of Net General Fund Operating Cost is reached. During Fiscal Year 2024, the General Fund minimum balance was increased to 25%.

After all planned expenditures in FY 2024, the City of Dubuque will have a general fund reserve of 41.97% of general fund revenues as a percent of general fund revenues computed by the accrual basis or 40.21% of general fund, debt service, and enterprise fund revenues as computed by the accrual basis methodology now used by Moody's Investors Service. The general fund reserve cash balance is projected to be \$46,304,790 on June 30, 2024 as compared to the general fund reserve balance on an accrual basis of \$29,659,518. The general fund reserve balance on an accrual basis exceeds 27% in FY 2024, which is the margin of error used to ensure the City always has a general fund reserve of at least 25% as computed by Moody's Investors Service.

In Fiscal Year 2017, the City had projected reaching this consistent and sustainable 20% reserve level in Fiscal Year 2022. **In fact, the City met the 20% reserve requirement in FY 2017, five years ahead of schedule and has sustained a greater than 20% reserve.**

	FY2022	FY2023	FY2024	FY2025	FY2026	FY2027	FY2028	FY2029
Contribution	\$—	\$—	\$—	\$—	\$—	\$—	\$—	\$—
City's Spendable General Fund Cash Reserve Fund Balance	\$41,259,518	\$35,459,518	\$29,659,518	\$23,859,518	\$18,059,518	\$18,059,518	\$18,059,518	\$18,059,518
% of Projected Revenue (Moody's)	49.16%	50.18%	41.97%	33.76%	25.56%	25.56%	25.56%	25.56%

State Revolving Fund Sponsorship Projects and Green Project Loans

The City uses State Revolving Fund (SRF) loans for water and sanitary sewer projects whenever possible because of the **very low variable interest rate, currently at a rate of 2.43% with an annual servicing fee of 0.25%.**

In 2009, legislation was passed in Iowa that allows water utilities that issue debt through the Clean Water State Revolving Fund Program to sponsor and help finance other water quality improvement (CWSRF) projects within or outside its service limits. This new funding mechanism, called Water Resource Restoration Sponsored Projects, will provide cities, counties, local watershed organizations, watershed management authorities, county conservation boards, and soil and water conservation districts a funding source to construct improvements throughout a watershed that keep sediment, nutrients, chemicals and other pollutants out of streams and lakes.

Repayment of a standard Clean Water SRF (CWSRF) loan includes the repayment of the original loan amount, the principal, and the cost to finance the loan, interest, and fees. On a CWSRF loan with a sponsored project, the financing costs are reduced by the amount of the cost of the sponsored project improvements. Figure 1 shows a comparison between a standard CWSRF loan and a CWSRF loan with a sponsorship project. As shown, the total cost to the utility (the total of loan repayments) remains unchanged as the cost of funding for the sponsorship project is offset by a reduction in loan financing costs. In essence, two water quality projects are completed for the price of one.

Figure 1. Loan repayment comparison between a standard CWSRF loan and a CWSRF loan with a sponsorship project.

After three years of the State of Iowa being unsuccessful in completing one of these modified loans, the City of Dubuque had the first successful application for the state when, in April 2013, the City was awarded \$9.4 million of the interest paid on the Water and Resource Recovery Center to be used to reconstruct over 70 Green Alleys in the Bee Branch Watershed. The principal for the Water & Resource Recovery Center Upgrade was increased from \$64,885,000 to \$75,145,579 and the interest rate plus annual servicing fee was decreased from 3.25% to 2.00% to add the Green Alley sponsorship project. This reduction

allowed for increased proceeds **and resulted in a true interest cost of 1.96% and gross borrowing savings of \$11.4 million.**

The Federal Fiscal Years 2010, 2011, and 2012 State Revolving Fund capitalization grants included requirements for certain percentages of the funds to be allocated for green projects. Each green infrastructure project receives a portion of loan forgiveness not to exceed 30%. In June 2015, the City of Dubuque Upper Bee Branch Creek Restoration Project (Upper Bee Branch Project) qualified for a Green Project Loan from the CWSRF Program in the amount of \$29,541,000. The loan includes a principal forgiveness provision. The amount of the loan to be forgiven is 20% of the total loan disbursements made under the loan agreement. **The amount of the loan that was forgiven in June 2020 was \$5,908,200. The actual true interest cost for total funds received was not the 2.00% borrowing rate (1.75% interest and 0.25% administrative fee), but just 0.07% after reflecting the receipt of interest free funds (forgiven portion).**

Then, in August 2017, the City was awarded \$1.4 million in funding for improvements with the Catfish Creek Watershed through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Upper Bee Branch Creek Restoration Project. The funding for the \$1.4 million in improvements will come from the interest payments on the City's Upper Bee Branch SRF loan. The Upper Bee Branch Creek SRF loan principal was increased to \$30,941,000 and **the interest rate plus the annual servicing fee was reduced from 2.00% to 1.43%. On a gross basis, the borrowing costs for the new loan were \$1.38 million less than the original loan.**

In May 2018, the City was awarded \$1.0 million in funding for pervious green alley improvements with the Bee Branch Creek and Catfish Creek Watersheds through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Upper Bee Branch Creek Railroad Culverts Project. The funding for the \$1.0 million in improvements will come from the interest payments on the City's Upper Bee Branch Railroad Culvert SRF loan. The Upper Bee Branch Creek Railroad Culvert SRF loan principal was increased to \$17,387,000 and **the interest rate plus the annual servicing fee was reduced from 2.00% to 1.43%. On a gross basis, the borrowing costs for the new loan were \$1.05 million less than the original loan.**

In February 2019, the City was awarded \$276,300 in funding for Eagle Point Park Environmental Restoration through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Kerper Boulevard Sanitary Sewer Project. The funding for the \$276,300 in improvements will come from the interest payments on the City's Kerper Boulevard Sanitary Sewer SRF loan. The Iowa Finance Authority now requires that sponsorship projects are included in the initial loan amount so that the repayment schedule does not have to be adjusted. **On a gross basis, the borrowing costs for the new loan were \$278,000 less than if there was not a sponsorship project included.**

In FY2025, the State of Iowa is ending the sponsored project program.

The five-year CIP adopted through the current year (Fiscal Year 2024) budget process covered Fiscal Year 2024 through 2028 and is \$298,808,622. The recommended five-year CIP for the upcoming budget process (Fiscal Year 2025) will cover Fiscal Year 2025 through 2029 and will be \$354,260,757. This is a \$55,452,135 (18.56%) increase.

FY 2024-2028 Capital Improvement Program (CIP) compared to the FY 2025-2029 Capital Improvement Program is as follows:

	FY 2024	FY 2025	FY 2026	FY 2027	FY 2028	FY 2029	Total
FY24 CIP	\$76,554,143	\$71,087,769	\$75,520,844	\$42,209,517	\$33,436,349	—	\$298,808,622
FY25 CIP	—	\$88,753,825	\$107,070,406	\$54,228,354	\$50,987,905	\$53,220,267	\$354,260,757
\$ Difference	—	+\$17,666,056	+\$31,549,562	+\$12,018,837	+\$17,551,556	—	\$55,452,135
% Change	—	+24.85%	+41.78%	+28.47%	+52.49%	—	18.56%

Further information about the changes to capital improvement projects can be found on pages 7-8.

Fiscal Year 2025 will be the eighteenth fiscal year that the Stormwater Fund is recommended to be fully funded by stormwater user fees. The General Fund will continue to provide funding for the stormwater fee subsidies that provide a 50% subsidy for the stormwater fee charged to property tax exempt properties, low-to-moderate income residents, and a 75% subsidy for the stormwater fee charged to residential farms. The FY 2025 Stormwater User Fee is proposed to increase from \$10.00 per SFU to \$11.50 per SFU, a 15.00% increase.

	Rate Per Single Family Unit (SFU)
Fiscal Year 2021 - Adopted Per Ordinance 21-20	\$ 8.29
Fiscal Year 2022 - Adopted Per Ordinance 10-21	\$ 8.85
Fiscal Year 2023 - Adopted Per Ordinance 13-22	\$ 9.00
Fiscal Year 2024 - Adopted Per Ordinance 14-23	\$ 10.00
Fiscal Year 2025 - Recommended	\$ 11.50

The Stormwater Utility was formed on July 1, 2003, to update and expand the City's aging infrastructure, comply with the National Pollution Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) permit, and implement the various elements of the 2001 Drainage Basin Master Plan Stormwater Management Plan (amended in 2013), which outlined improvements in both the Catfish Creek and Bee Branch watersheds. The flood mitigation improvements in the Catfish Creek Watershed have been completed. The improvements in the Bee Branch Watershed are part of the multi-phased, fiscally responsible, holistic Bee Branch Watershed Flood Mitigation Project which will mitigate flooding, improve water quality, stimulate investment, and enhance the quality of life. The City's has been able to garner support from local, state, and federal partners with over \$169 million in outside funding to help offset the cost of the overall \$250 million project. Since 2001, the City has made steady progress on the various phases of the project.

The phases of the Bee Branch Watershed Flood Mitigation Project are as follows:

Phas	Description	Status
1	Carter Road Detention Basin	Complete
2	West 32nd Street Detention Basin	Complete
3	Historic Millwork District	Complete
4	Lower Bee Branch Creek Restoration	Complete
5	Flood Mitigation Gate & Pump Replacement	Under Design
6	Impervious Surface Reduction	1/3 of alleys converted to "Green Alleys"
7	Upper Bee Branch Creek Restoration/Railroad	Complete
8	22nd Street Storm Sewer Improvements	Complete from Elm Street to N. Main
9	Flood Mitigation Maintenance Facility	Site Cleanup/Preparation
10	North End Storm Sewer Improvements	Initiate Design in 2028
11	Water Plant Flood Protection	Initiate Design in 2024
12	17th Street Storm Sewer Improvements	Complete from Elm St. to Heeb St.

Each of the 12 phases provides some incremental benefit. But the risk of flash flooding remains until all improvements are implemented. But it is also true that with the completion of each subsequent phase, the threat of flash flood damage is lessened and the resulting damage will be mitigated. When complete, it is expected to prevent an estimated \$582 million in damages over its 100-year design life.

When the City Council adopted Ordinance 21-12 (passed and approved on March 7, 2012), they established that the stormwater utility fee would increase to \$9.00 per month on July 1, 2016 in order to fund the operational and capital costs of the public stormwater management system, including improvements such as the Bee Branch Creek Restoration Project. But later in 2012, the Iowa General Assembly created the Flood Mitigation Program which provides funding for flood mitigation projects undertaken by local governments such as the City of Dubuque. Managed by the Iowa Flood Mitigation Board, the funding source established involves taking a portion of the incremental growth of State sales tax revenue collected within a city and diverting from the State General Fund to cities approved for the funding. Having updated the Drainage Basin Master Plan in the fall of 2013, which outlined the improvements associated with the 12-phase Bee Branch Watershed Flood Mitigation Project, the City was successful in securing \$98.5 million in State sales tax increment funding. With the infusion of funding, the City Council adopted Ordinance 16-14 (passed and approved on March 5, 2014) establishing that the stormwater utility fee did not reach \$9.00 per month until July 1, 2021, five years later than later than previously scheduled.

The CIP budget reflects the **Dubuque Five-Year (2025-2029) City Council Goals and 2023-2025 Policy Agenda, established by the City Council August, 2023.**

Dubuque Five-Year City Council Goals

Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity
Vibrant Community: Healthy and Safe
Livable Neighborhoods and Housing: Great Place to Live
Financially Responsible, High Performance City Organization: Sustainable, Equitable, and Effective Service Delivery
Sustainable Environment: Preserving and Enhancing Natural Resources
Partnership for a Better Dubuque: Building our Community that is Viable, Livable, and Equitable
Diverse Arts, Culture, Parks, and Recreation Experiences and Activities
Connected Community: Equitable Transportation, Technology, Infrastructure, and Mobility

Policy Agenda 2023 - 2025

Top Priority (in alphabetical order)

- Air Service future Strategy and Action Plan
- City Workforce Retention and Attraction
- Comprehensive Study of Fire Station Locations and Staffing
- Police Department Full Staffing
- Street Maintenance and Rehabilitation Program

High Priority

- Bee Branch Detention Basin Pump Replacement
- Catfish Creek Sanitary Sewer Project Pump Station
- Central Avenue Revitalization Plan
- Leveraging Federal and State Infrastructure Grant Programs
- RAISE Grant and Matching Funds for Construction (14th St. Railroad Overpass and Elm St. and 16th St. Corridor Complete Streets)

Attachment 3 provides a summary of these projects organized by City Council's five-year goals and Fiscal Year 2025 priorities reflect how these goals are addressed.

Finally, **Attachment 4** provides detail on the source of funds and highlights important points about the 5-year CIP Program.

CIP FORMAT

The format for the Fiscal Year 2025-2029 CIP is substantially the same as previous fiscal years. First, an index referencing the 2025-2029 Capital Improvement Budget follows the budget message. The index identifies each capital improvement first by city department and then by all applicable State programs as a subcategory under each department. The index serves as a quick reference for each CIP, and the far right hand column shows the page number of each project. Secondly, a separate project page is provided to show the detail for each individual project. These projects pages are also arranged first by city department and then by State program as a subcategory within each department.

As in previous CIP budget documents, each detailed project page identifies the city department, the state program, project title, account code (consisting of program number, department number, fund and capital project number), and total project cost. The project page then shows any funds expended for the project in Fiscal Year 2023 and the adopted budget in Fiscal Year 2024. In Section A of the project form entitled "Expenditure Items", project costs are shown by major expenditure item (i.e., Design and Engineering, Land and Right-of-Way Purchase, Construction and Other Expense). In Section B, entitled "Project Financing", the project funding is presented by major revenue source (i.e., General Fund, Sales Tax Fund, Water Depreciation Fund, Sanitary Sewer Construction Fund, and Road Use Tax Fund). In Section C, entitled "Impact – Operations," the dollar impact on operations in terms of greater or lesser operating costs and/or greater or lesser revenue is provided when available. Lastly, there is a narrative section, which provides a description of the project, a justification for the project and, where appropriate, how it relates to other projects or plans. A small map may also be provided to further identify the location of the project.

Each detailed project page identifies the budget for each fiscal year in the next five years. There is a sixth column labeled "2030". This column is included to show that the project does not end in the next five years and that additional budget will be needed to fully complete the project. The "2030" column will show the total remaining estimate for the project, unless the project is annual. This column could also be known as "Beyond Fiscal Year 2029." If a project is annual, the "2030" column will only show one years worth of budget.

Lastly, there is a section in the detailed project pages called "First Year Submitted". This information represents the year the capital improvement project was first submitted for consideration. This is not the first year that the capital project was adopted for funding, but instead represents the first year a staff member identified a need for the project and created a CIP to present to the City Manager.

CONCLUSION

The Capital Improvement Program represents the City of Dubuque's commitment to a maintenance and physical development plan for the next five years. The first year of the five-year CIP goes into the budget for next year and deserves the most attention. As you know, the CIP is updated each year so that City Council will have an opportunity in the next year to change Fiscal Year 2026 through Fiscal Year 2029 projects, as well as to add projects for Fiscal Year 2030.

A ranking system was established in Fiscal Year 2019 to more readily identify capital projects that directly meet City Council Goals and Priorities and address City needs. This ranking process also included several collaborative meetings with staff to determine which projects should be recommended for funding with the limited resources available. There are many capital projects that have been added to meet City Council Goals and Priorities and address City needs (\$127,924,873). Those new projects that appear in the five-year CIP are as follows:

Department	New Project	Total CIP
Police	Public Safety Software	\$ 3,000,000
Fire	Station 6 Roof Replacement & Stairwell Addition	\$ 193,000
Fire	Training Burn Tower Improvements- County Training Facility	\$ 466,676

Department	New Project	Total CIP
Fire	Wireless Headsets	\$ 53,822
Fire	Fire Station Generators	\$ 100,000
Fire	Community AED Implementation	\$ 33,500
Fire	2026 Fire Engine Replacement #1907	\$ 700,000
Fire	2026 Ambulance Replacement #1914	\$ 400,000
Fire	2027 Fire Engine Replacement #1905	\$ 750,000
Fire	Portable Radio Replacements	\$ 185,000
Parks	AY McDonald Park Pavilion Installation	\$ 200,000
Parks	Eagle Point Park- Riverfront Pavilion Restoration	\$ 118,000
Parks	Ham House Improvements	\$ 75,000
Parks	Murphy Park- Bennett Pavilion Roof Replacement	\$ 165,000
Parks	Pebble Cove Park Development	\$ 295,000
Parks	Storybook Zoo Playground Replacement	\$ 165,000
Parks	Second Dog Park Planning	\$ 60,000
Parks	Bunker Building Remediation	\$ 400,000
Civic Center	Boiler Replacement	\$ 410,000
Recreation	Bunker Hill Golf Course- Material Storage Renovation	\$ 15,000
Recreation	Bunker Hill Golf Course- Tree Removal & Replacement	\$ 10,000
Conference Center	Parking Island & Venue Landscape Renovations	\$ 48,500
Conference Center	Replace Clouds	\$ 98,000
Conference Center	Dishwasher & Water Softener Replacement	\$ 181,000
Conference Center	Public Restroom Remodels	\$ 770,000
Ice Center	Locker Room Ventilation Replacement	\$ 396,375
Ice Center	TPO Roof Replacement	\$ 181,125
Ice Center	Northwest Corner Service Bar	\$ 241,500
Water	Water Distribution Master Plan	\$ 50,000
Water	Cla-Val Link2Valves Maintenance Program	\$ 29,887
Water	Creek Crossing Restoration	\$ 134,230
Water	Leak Detection Correlator Replacement	\$ 25,000
Water	Maintenance of Public Water Mains During Stone Retaining Wall Repair	\$ 60,000
Water	Southwest Arterial Water Main Extension- Hwy 20 to English Mill Pump	\$ 1,618,527
Water	Vehicle 4904 Utility Truck with Crane Replacement	\$ 90,000
Water	Vehicle 4907 Utility Truck with Tommy Gate/Snow Plow Replacement	\$ 85,000
Water	Vehicle 4911 Tandem Dump Truck Replacement	\$ 174,000
Water	Water Main Relocation for Sanitary Sewer Manhole Project	\$ 80,000
Water	Water Storage Maintenance Program	\$ 2,500,000
Water & Resource Recovery Center	BOD Capacity Upgrades	\$ 1,150,000
Water & Resource Recovery Center	Nutrient Reduction Improvements	\$ 68,654
Water & Resource Recovery Center	Facility Management Plan Update	\$ 315,000
Water & Resource Recovery Center	High Strength Waste Receiving & Storage	\$ 6,626,467

Department	New Project	Total CIP
Water & Resource Recovery Center	Industrial Controls Upgrade	\$ 3,000,000
Airport	Terminal Building Modification	\$ 5,000,000
Airport	Terminal Building Exit Lane Modification	\$ 300,000
Airport	Update Airport Pavement Management System	\$ 100,000
Airport	Westside Airfield Development	\$ 100,000
Airport	Taxiway D Extension	\$ 2,940,000
Airport	Taxiway J Improvements	\$ 3,820,600
Airport	Reconstruct General Aviation Apron	\$ 2,000,000
Public Works	Backhoe Loader Purchase	\$ 206,000
Public Works	Solid Waste Collection Vehicles	\$ 4,616,972
Public Works	Fuel Island Rehabilitation	\$ 80,000
Public Works	Sign Truck, Crane, Welder Replacement	\$ 275,000
Public Works	Aerial Bucket Truck Replacement #3230	\$ 318,000
Public Works	Combination Jet/Vac Sewer Maintenance Truck Replacement	\$ 450,000
Public Works	Landfill Alternative Energy	\$ 50,000
Public Works	Landfill Permit Renewal	\$ 55,204
Public Works	Landfill Organics Management	\$ 75,000
Public Works	Landfill Plan Updates	\$ 27,061
Public Works	Landfill Title V Emission Permit Renewal	\$ 20,000
Public Works	Landfill Waste Minimization Grant	\$ 475,000
Public Works	Landfill Website Redesign	\$ 20,000
Public Works	Landfill Cell 10 Permitting	\$ 400,005
Public Works	Landfill Detention Basin Cleanout	\$ 50,005
Public Works	Landfill Tarpomatic Replacement	\$ 70,000
Public Works	Landfill Half Ton Truck Replacement	\$ 50,000
Public Works	Landfill UTV Replacement	\$ 30,000
Public Works	Landfill Batwing Replacement	\$ 34,869
Engineering	Storm Sewer Outlet Repairs	\$ 153,000
Engineering	Cedar Cross Road Storm Sewer Construction	\$ 292,000
Engineering	24th Street Pervious Paver Stabilization	\$ 153,000
Engineering	Auburn & Custer Storm Sewer Reconstruction	\$ 153,000
Engineering	Rockdale Road Storm Sewer Extension	\$ 153,000
Engineering	Sylvan Drive Storm Sewer Construction	\$ 153,000
Engineering	Bennett Street Storm Sewer Improvements	\$ 153,000
Engineering	Trygg Storm Sewer Extension Project	\$ 153,000
Engineering	Carter Road and Westmore Storm Sewer Extension	\$ 153,000
Engineering	Loras & Locust Intersection Reconstruction	\$ 153,000
Engineering	Sanitary Sewer Extensions to Unsewered Developments	\$ 925,000
Engineering	Auburn & Custer Sanitary Sewer Reconstruction	\$ 127,470
Engineering	Southgate Sanitary Sewer Reconstruction	\$ 205,000
Engineering	SWA Middle Interchange Sewer Extension	\$ 4,829,838
Engineering	Schmitt Island Sanitary Improvements	\$ 2,640,000
Engineering	Pavement Management Program	\$ 55,000

Department	New Project	Total CIP
Engineering	14th Street Overpass	\$ 39,244,386
Engineering	Auburn & Custer Pavement	\$ 500,000
Engineering	Wildwood Drive Bridge Replacement	\$ 475,000
Engineering	Highway 20-Northwest Arterial Intersection Operational/Capacity Improv	\$ 5,497,000
Engineering	Central Avenue Corridor Streetscape Master Plan Implementation	\$ 461,736
Engineering	Development of Graf Properties	\$ 2,217,000
Engineering	3rd Street Overpass Sidewalk Replacement	\$ 150,000
Engineering	Decorative Concrete Maintenance Program	\$ 250,000
Engineering	Bee Branch Creek Trail: 16th to 19th	\$ 1,336,103
Engineering	Port of Dubuque Security Camera Expansion	\$ 20,000
Engineering	Speed Shields	\$ 49,000
Engineering	ABC Building Supply Deconstruction	\$ 457,000
Engineering	Iowa Amphitheater on Schmitt Island	\$ 8,784,961
Engineering	Incremental Development & Small Business Storefront Coaching	\$ 150,000
Engineering	STREETS Traffic Control Project Phase 1	\$ 359,201
Engineering	STREETS Traffic Control Project Phase 2	\$ 2,473,500
Engineering	Multicultural Family Center- Ruby Sutton Building HVAC Replacement	\$ 40,000
Engineering	Multicultural Family Center- Basement Rehabilitation	\$ 30,000
Engineering	Old Engine House Building Envelope Stabilization	\$ 40,700
Engineering	Downtown Bike Lockers	\$ 45,000
Economic Development	Greater Downtown Housing Creation Grant Program	\$ 2,000,000
Economic Development	Small Business Grant Administration	\$ 60,000
Transit	Vehicle Replacement	\$ 4,013,947
Housing	Lead & Healthy Homes Grant	\$ 1,148,500
Housing	Penn Community Living Home Remodel	\$ 41,025
Housing	Acquisition of Land for Emri Apartments	\$ 77,527
City Manager's Office	Downtown Urban Renewal Area Non-Profit Weatherization Improve	\$ 150,000
Information Technology	Network Switch Replacement	\$ 120,000
TOTAL		\$ 127,924,873

The Capital Improvement requests that were previously funded in the five-year CIP that are not included in this five-year CIP total \$3,044,104. To put these back into the five-year CIP, other projects will need to be removed, property taxes would need to be raised and/or more debt would need to be issued. Of those removed, \$1,599,604 are identified as deferred maintenance items, delineated with an asterisks below. The removed CIPs are as follows:

Department	Existing Project Not Funded	Total CIP
Parks	All Parks- Renovate Water Systems	\$ 71,500 *
Parks	All Parks- Replace Trash Cans	\$ 140,000
Parks	EB Lyons Center- Stain, Patio, Ridge Beam	\$ 60,000 *
Parks	Eagle Point Park- Concrete Improvements	\$ 30,000
Parks	Replace Roof on Eagles View Pavilion	\$ 45,000 *
Parks	Replace Roof on Terrace Room	\$ 38,000 *
Parks	Eagle Point Park- Rest Room Renovation	\$ 55,000 *
Parks	Flora Park- Pave Wilbright, Pool, Tennis Court, Lots	\$ 85,000 *
Parks	Madison Park- Renovate Pavilion	\$ 44,000 *
Parks	Madison Park- Flag Pole	\$ 30,000
Parks	Murphy Park- Replace Roof on Rest Room Building	\$ 16,000 *
Parks	Valentine Park- Land Acquisition	\$ 120,000
Parks	Veterans Park- Pickleball Improvements	\$ 50,000
Parks	Ash Tree Removal and Tree Replacement	\$ 450,000 *
Parks	Ecological Restoration	\$ 30,000
Parks	Street Tree Program	\$ 150,000
Parks	Retaining Walls	\$ 50,000
Parks	Resurface Tennis courts	\$ 412,000 *
Parks	Replace Interpretive Signs	\$ 16,000 *
Parks	Drinking Fountains	\$ 80,000
Parks	Greenhouse-Replace Lexan	\$ 100,000
Parks	Town Clock Lighting	\$ 20,000
Recreation	Sutton Pool Zero Depth Survey & Remediation	\$ 40,000 *
Recreation	Flora Pool Water Slide Assessment & Repairs	\$ 50,000 *
Conference Center	Paint Exterior Metal	\$ 110,000
Conference Center	Overhead Door Replacement	\$ 76,000 *
Library	Water Pipe Replacement	\$ 116,104 *
Airport	Terminal Geothermal Heat Pump Replacements	\$ 40,000
Airport	Perimeter Fence Improvements	\$ 25,000
Engineering	Riverfront Leasehold Improvements	\$ 96,000
Engineering	Public Electric Vehicle Chargers	\$ 250,000
Engineering	Federal Building Parking Lot Replacement and Foundation Drainage Improvements	\$ 45,000
Engineering	Materials Testing Lab Renovation	\$ 25,000 *
Engineering	City Annex Window Replacement	\$ 78,500
Total		\$ 3,044,104
<i>Total Deferred Maintenance</i>		<i>\$ 1,599,604</i>

As is the case every year, there were new projects requested that were not able to be included in whole or in part in this five year CIP (\$14,387,131). Of those \$3,372,800 are identified as deferred maintenance, delineated with an asterisks below. CIP requests that were not funded include:

Department	New Project Not Funded	Total CIP
Parks	Eagle Point Park- Accessible Walkway to Log Cabin Pavilion	\$781,000
Parks	Eagle Point Park- Renovate Log Cabin Pavilion	\$40,000 *
Parks	Eagle Point Park- Clear Trees from Bluff	\$50,000
Parks	FDR Park- Native Landscape Installation	\$18,000
Parks	Flora Park- Replace Lights on Tennis Courts	\$112,000 *
Parks	Ham House Masonry	\$125,000 *
Parks	Hilltop Park- Replace Play Unit	\$139,500 *
Parks	Miller Riverview Park- Quick Connects for Pedestals	\$55,000
Parks	Rustic Point Park Development	\$295,000
Parks	Silver Oaks Park Development	\$295,000
Parks	Veterans Park Frisbee Golf Course Improvements	\$30,000
Parks	Greenhouse Shop Roof Replacement	\$65,000 *
Parks	Highway 20 Irrigation	\$25,000
Parks	Parks Fleet Automated Vehicle Location	\$50,000
Parks	Grandview Avenue Boulevard Landscape Renovation Plan	\$55,000
Parks	North Fork Trail Park Development	\$295,000
Parks	South Pointe Park Development	\$150,000
Parks	Jefferson Park Playground Replacement	\$165,000
Parks	Highway 20 Trees/Invasives Removal	\$55,000
Parks	Allison Henderson Storm Water Project	\$27,500
Parks	Paint Light Poles	\$20,000 *
Parks	Chaplain Schmitt Island- Landscaping	\$50,000
Parks	Chaplain Schmitt Island- Entrance Sign	\$72,500
Parks	Forestry Building- Replace Roof	\$65,000
Parks	Marshall Park- Replace Play Unit	\$153,000 *
Parks	Miller Riverview Park- Pave Secondary Roads & Concrete Campsites	\$220,000 *
Parks	Teddy Bear Park- Play Equipment	\$153,000 *
Parks	Maintenance Headquarters- Wash Bay	\$25,000
Parks	Paint Railings	\$70,000 *
Parks	Install and/or Replace Park Name Signs	\$105,000 *
Parks	Granger Creek Nature Trail- Asphalt Trail	\$420,000
Parks	Roosevelt Park Redevelopment	\$38,000
Parks	EB Lyons Center- Roof Rehabilitation	\$60,000
Parks	Eagle Point Park Trail Project- Invasive Remediation	\$70,200
Parks	Eagle Point Park- Light Trolley Line Trail	\$155,000
Parks	Eagle Point Park- Native American Room Restoration	\$122,000
Parks	Eagle Point Park- Develop Wading Pool Replacement Plans	\$422,000
Parks	Usha Park Development	\$127,000
Parks	Valentine Park Pavilion Installation	\$86,000
Parks	Valley High Park- Replace Play Unit	\$153,000 *
Parks	Installation of Flag Poles in Community Parks	\$99,000
Parks	Re-landscape Locust Street Connector	\$30,000

Department	New Project Not Funded	Total CIP
Parks	Irrigation to Planters and Flower Beds	\$150,000
Parks	Greenhouse- Remove Trees on Hillside	\$25,000
Parks	Welcome Sign East	\$75,000
Parks	Welcome Sign North	\$75,000
Civic Center	Standby Emergency Generator Replacement- 5th Street	\$199,500
Civic Center	Marquee Replacement	\$115,500 *
Civic Center	Recirculating Pump Replacement	\$37,000 *
Recreation	Flora and Sutton Swimming Pools Annual Maintenance	\$165,000 *
Recreation	Flora and Sutton Water Playground Replacements	\$315,000 *
Recreation	Flora and Sutton Renovate Locker Rooms	\$726,000 *
Recreation	Bunker Hill #7 Fairway Fencing	\$15,000 *
Recreation	Bunker Hill- Sand Trap Repair/Removal	\$50,000
Recreation	Bunker Hill Golf Course- Range Project	\$107,200
Recreation	POD- Signage Replacement	\$20,000
Recreation	Marina- Dock Fuel & Electrical System Rehabilitation	\$50,000 *
Recreation	Comiskey Building Restroom Expansion	\$112,500
Recreation	Multicultural Family Center 2nd Floor Renovation for City Office Space	\$1,331,000
Conference Center	Repaint Exhibit Hall Airwalls	\$42,500 *
Conference Center	Paint Bridge	\$50,000 *
Conference Center	Paint Interior Rooms and Areas	\$122,500 *
Conference Center	Window Panel Replacements	\$19,800
Conference Center	Replace Exterior Building Sign	\$47,500 *
Conference Center	Rekey Grand River Center	\$20,000
Conference Center	HVAC Commissioning	\$105,000 *
Conference Center	Emergency Light Conversion	\$10,000 *
Ice Center	Water Heater Replacements	\$26,250 *
Ice Center	ASME Storage Tank Replacement	\$11,550 *
Library	Rear Exterior Painting	\$36,750
Library	Refrigerant Leak Detection System Upgrade	\$18,000
Library	Boiler Exhaust Stack Rehabilitation	\$163,500 *
Library	Bookdrop Waterproofing	\$50,000
Library	Server Room Mini Split Replacement	\$47,600
Airport	Construct Land Side Storage Lot	\$123,000
Airport	Terminal Apron Lighting Conversion	\$43,000
Airport	Additional Terminal Parking	\$2,278,825
Engineering	Schmitt Island Trail Network Expansion	\$785,000
Engineering	Bee Branch Greenway Fitness Loop	\$202,500
Engineering	Bee Branch Greenway Park Signage	\$94,000
Engineering	MOB Mobility Improvements	\$144,000
Engineering	Highway 151 Bridge Gateway Lighting	\$142,000
Engineering	Schmitt Island Preliminary Redevelopment Planning	\$260,000
Engineering	City Hall Elevator Replacement	\$240,800
Engineering	Old Engine House- Playground Safety Fence	\$15,000 *
Transportation Services	JOTC and Intermodal Landscaping	\$50,000
Information Technology	Mitel Phone Replacement	\$70,656

Department	New Project Not Funded	Total CIP
Information Technology	Wireless Access Point Controller Upgrade	\$40,000
Information Technology	Microsoft 365 Assessment	\$15,000
	Total	\$14,387,131
	<i>Total Deferred Maintenance</i>	<i>\$3,372,800</i>

Notable FY2025 Capital Improvement Projects

Department	Project Title	Total City Investment FY2025-FY2029	Page
Police	Public Safety Software	\$3,000,000	1
Fire	Bunk Room Remodel	\$1,395,000	5
Fire	Outdoor Warning Siren Repair/Replace	\$159,080	8
Fire	Fire Station Expansion	\$4,773,700	9
Fire	Training Burn Tower Improvements - County Training Facility	\$466,676	14
Fire	2026 Fire Engine Replacement 1907	\$700,000	20
Fire	2026 Ambulance Replacement (1914)	\$400,000	21
Fire	2027 Fire Engine Replacement (1905)	\$750,000	22

Engineering	Federal Building Renovation	\$9,681,950	250
Economic Development	Greater Downtown Housing Creation Grant Program	\$2,000,000	259
Transportation	Transit Vehicle Replacement	\$4,013,947	267
Transportation	Smart Parking System	\$2,737,000	269
Transportation	Parking Ramp Major Maintenance Repairs	\$10,602,000	272
Housing	Assistance for Homeownership	\$5,143,523	273
Housing	Washington Neighborhood Home Purchase Program	\$1,587,370	275

The CIP budget is the product of the hard work of a large number of people. It begins with department and division managers and their staff who prepared, ranked and updated the CIP requests. It extends to Boards and Commissions who review staff's recommendations and make modifications and establish priorities.

I wish to express my thanks to all who were involved in preparing the Fiscal Year 2025-2029 version of the City's Capital Improvement Program. Special thanks go to Chief Financial Officer, Jennifer Larson; Budget Manager, Laura Bendorf; Budget/Financial Analysts, Nathan Kelleher, Joe Link, and Robyn Hosch; Executive Assistant, Stephanie Valentine; Administrative Assistant Mia Burbach; and Finance Confidential Account Clerk, Kaia Humpal. I am proud of the work completed by City staff and the end-result. I hope after you have had an opportunity to review this document that you feel it is responsive to your priorities.

FISCAL YEARS 2025-2029 CIP SOURCE OF FUNDS

To finance the CIP projects, a variety of funding sources are used. The following table shows the source of funds for each year of the 5 year CIP.

SOURCE OF FUNDS IN CAPITAL BUDGET	2025	2026	2027	2028	2029	TOTAL	PERCENT
Current Revenue							
Rental Dwelling Rehab Loan Repayments	20,000	20,000	20,000	20,000	20,000	100,000	0.03 %
Homeownership Loan Repayments	4,000	5,000	5,000	5,000	5,000	24,000	0.01 %
Historic Preservation Loan Repayments	7,000	7,000	7,000	—	—	21,000	0.01 %
Washington Neighborhood Loan Repayments	30,000	30,000	30,000	30,000	30,000	150,000	0.04 %
Insurance and Other Reimbursements	10,000	10,000	10,000	10,000	10,000	50,000	0.01 %
County Reimbursement	1,500,000	—	—	—	—	1,500,000	0.42 %
Golf Revenue	10,000	35,000	—	20,000	—	65,000	0.02 %
Subtotal Current Revenue	1,581,000	107,000	72,000	85,000	65,000	1,910,000	0.54 %
Cable TV	2,800	7,720	2,800	9,200	3,720	26,240	0.01 %
Internal Service Funds-City Garage	165,986	83,120	9,400	—	6,720	265,226	0.07 %

The State Mandated Budget Program Areas and the City Departments/Activities that fall under each of these areas are as follows:

Public Safety – Includes Police, Emergency Communication Center, Fire, Disaster Services, Health Services: Animal Control, Public Works:

Flood Control, Housing: Code Inspection and Construction Services

Public Works – Includes Airport, Public Works, Engineering

Health and Social Services – Office of Equity and Human Rights, Health Services, Purchase of Services

Culture and Recreation – Parks, Civic Center, Conference Center, Ice Center, Recreation, AmeriCorps, Multicultural Family Center, Library, City Manager: Arts and Cultural Affairs

Community and Economic Development - Economic Development, Housing and Community Development, Planning Services,

Purchase of Services, City Manager: Office of Shared Prosperity and Neighborhood Support

General Government – Engineering: Facilities Management: City Hall/Annex Maintenance/Grand River Center Maintenance, City Council, City Manager, Public Information, Human Resources, Sustainability, City Clerk, Finance, Media Services, Legal, Information Services

Business Type – Water, Water Resource & Recovery Center, Parking, Transit, Public Works: Landfill, Refuse, Salt Operations, Engineering: Sewer, Stormwater

FISCAL YEAR 2025 - 2029 CIP BUDGET HIGHLIGHTS BY CITY COUNCIL GOALS & PRIORITIES
CITY COUNCIL POLICY AGENDA

The City Council Policy Agenda includes items that require major policy direction decision and/or funding. It includes the City Council's Top and High Priorities.

VIBRANT COMMUNITY: HEALTHY & SAFE

Priority: Police Department Full Staffing

Priority classification: Top Priority

CIP projects supporting this Priority: This priority is supported through the proposed FY25 Police Operating Budget.

FINANCIALLY RESPONSIBLE, HIGH-PERFORMANCE CITY ORGANIZATION: SUSTAINABLE, EQUITABLE, AND EFFECTIVE SERVICE DELIVERY

Priority: City Workforce Retention and Attraction

Priority classification: Top Priority

CIP projects supporting this Priority: This priority is supported through the proposed FY25 Human Resources and City Managers Office operating budgets as well as the efforts of all City departments.

Priority: Leveraging Federal & State Infrastructure Grant Programs

Priority classification: High Priority

CIP projects supporting this Priority: Public Lead Line Water Main Replacement (59), Bee Branch Gate & Pump Replacement Project (146), 14th Street Overpass (199), Trail Planning (218), Bee Branch Creek Trail: 16th to 9th (219), Transportation Services Vehicle Replacement (266).

ROBUST LOCAL ECONOMY: DIVERSE BUSINESSES & JOBS WITH ECONOMIC PROSPERITY

Priority: Air Service Future Strategy and Action Plan

Priority classification: Top Priority

CIP projects supporting this Priority: This priority is supported through the proposed FY25 Airport operating budget and CIPs located on pg 89-99.

LIVABLE NEIGHBORHOODS & HOUSING: GREAT PLACE TO LIVE

Priority: Comprehensive Study of Fire Station Locations & Staffing

Priority classification: Top Priority

CIP projects supporting this Priority: Fire Station Expansion/Relocation (9)

Priority: Central Avenue Revitalization Plan

Priority classification: High Priority

CIP projects supporting this Priority: Central Ave Corridor Streetscape Master Plan Implementation Improvements 11th – 22nd St (204), Street Light Replacement and New Installation (227), Traffic Signal Mastarm Retrofit (229), Greater Downtown Housing Creation Grant Program (258), Downtown Rehabilitation Grant Program (261), Central Avenue Housing Forgivable Loan (263)

SUSTAINABLE ENVIRONMENT: PRESERVING & ENHANCING NATURAL RESOURCES

Priority: Bee Branch Detention Basin Pump Replacement

Priority classification: High Priority

CIP projects supporting this Priority: Bee Branch Gate & Pump Replacement Project (Phase 5 of Bee Branch Watershed Flood Mitigation Project) 146

Priority: Catfish Creek Sanitary Sewer Project Pump Station

Priority classification: High Priority

CIP projects supporting this Priority: Catfish Creek Sewershed Interceptor Sewer Improvements (183), Old Mill Road Lift Station & Force Main (182), South West Arterial Middle Interchange Sewer Extension (187), Sanitary Sewer Extensions – Existing Development, Pre-annexation and Annexation Agreements (165)

CONNECTED COMMUNITY: EQUITABLE TRANSPORTATION, TECHNOLOGY, INFRASTRUCTURE & MOBILITY

Priority: Street Maintenance & Rehabilitation Program

Priority classification: Top Priority

CIP projects supporting this Priority: Asphalt Milling Program (100), ADA Curb Ramp Program (101), Curb Replacement Program (102), Concrete Street Section Repair Program (103), Pavement Management Program (190), Street Construction General Repairs (191), Pavement Rehabilitation - Concrete Street Repair, Mill and Asphalt Resurfacing (194), Pavement Preservation Joint Sealing (195),

Priority: RAISE Grant & Matching Funds for Construction (14th St Railroad Overpass and Elm St and 16th St Corridor Complete Streets)

Priority classification: High Priority

CIP projects supporting this Priority: 14th Street Overpass (199), Bee Branch Creek Trail: 16th to 9th (219), Traffic Signal Interconnect Conduit Replacement (230), Traffic Signal Controller Replacement (231),

DIVERSE ARTS, CULTURE, PARKS AND RECREATION EXPERIENCES & ACTIVITIES (none)

PARTNERSHIP FOR A BETTER DUBUQUE: BUILDING OUR COMMUNITY THAT IS VIABLE, LIVABLE & EQUITABLE (none)

MANAGEMENT IN PROGRESS AND MAJOR PROJECTS:

The following are projects that were identified as the 2023 - 2025 Management in Progress and Major Projects by the City Council and are included in the 2025 CIP budget according to one of the Council's goals.

2023 - 2025 Management in Progress

Management in Progress are items that were previously a City Council Goal and are now in the implementation phase. These items are included in the existing FY 2024 and proposed FY 2025 Operating budgets unless noted for additional funding. The items are identified under their corresponding City Council Goal:

Vibrant Community: Healthy & Safe

- Comprehensive Police Transparency Annual Report (Public Safety Software, 1)
- Diversity, Equity and Inclusion City Action Plan: Departmental Action Plans
- Emergency Communications Accreditation (Public Safety Software, 1)
- Emergency Communication Center
- Equitable Fines and Fees Reform
- Fire/Police Culture Action Plan: Development and Implementation – Education and Corrective Measures
- Food Insecurity: Report with Findings and Options, Direction, City Actions and Funding (including Food Desert and Grocery Store Attraction)
- Historic Federal Building: Police Satellite Location (Federal Building Renovation, 249)
- License Plate Reader Cameras: Installation
- Traffic and Security Cameras Deployment: Implementation and Upgrade, Fiber Project (APRA Funding) (Traffic Signal Interconnect Conduit Replacement 230, Traffic Signal Controller Replacement 231, Street Camera Installation 233, ITS Traffic Control Equipment, 241)

Financially Responsible, High Performance City Organization: Sustainable, Equitable, and Effective Service Delivery

- Downtown City Facilities/Workspace Analysis and Plan
- Enterprise Asset Management System: Direction and Funding (including ADA) (ADA Compliance and Facilities Management Consulting, 255)
- Enterprise Resource Planning (ERP) Software Implementation
- Federal and State Legislative Advocacy Agenda and Priorities for 2024
- Human Resource Information System/Payroll: RFP and Implementation
- Human Resources Modernization: One Position
- Organizational Culture Continuous Improvement
 - a) Performance Reviews
 - b) Exit Interviews

Robust Local Economy: Diverse Business & Jobs with Economic Prosperity

- Childcare Initiative Strategy and City Actions
- City Economic Development and Incentives: Policies, Processes, and Practices (Greater Downtown Housing Creation Grant Program 258), Small Business Grant Administration 259, Downtown Rehabilitation Grant Program -Includes Central Avenue, Historic Millwork District, and Washington Neighborhood 261, Central Avenue Housing Forgivable Loan 263, Low Income Small Business Grant 264, Incremental Development and Small Business Storefront Establishment Coaching 225)
- Developers Round Table
- Development Process Streamlining
- Field of Dreams Stadium: Next Steps for City
- Job Fair: Implementation and Report
- Low/Moderate Income Small Businesses Grants (Low Income Small Business Grant, 264, Small Business Grant Administration, 259)

- Minority- and Women- Business Enterprise Procurement Policy, Process Revision, and Recruitment (Incremental Development and Small
- Business Storefront Establishment, 225)
- Poverty Prevention and Reduction Plan Implementation (Incremental Development and Small Business Storefront Establishment, Coaching, 225, Small Business Grant Administration, 259)
- River Cruise Infrastructure: Environmental Studies/Permitting
- Sports Tourism Development: Response to Opportunities

Livable Neighborhoods: Great Place to Live

- Imagine Dubuque: Annual Update Report
- Multicultural Family Center Youth Programs Expansion
- Multi-Tiered Housing Inspection Program
- Neighborhood Associations Toolkit
- Safe Housing: Housing Inspection Program Enhancements and Software
- Truck Route Ordinance
- Unified Development Code Update

Sustainable Environment: Preserving & Enhancing Natural Resources

- Electric Bus Implementation: Transit Vehicle Replacement (266)
- Electric Fuel Excise Rate Ordinance Adoption
- Emerald Ash Borer Response
- Odor Reduction Analysis and Report: BOD Capacity Upgrades 84, W&RRC Facility Management Plan Update 86, High Strength Waste Receiving and Storage, 87, Industrial Controls Upgrade, 88)
- Industrial Center Native Plantings (33)
- Sewer System Infrastructure Asset Master Plan

Connected Community: Equitable Transportation, Technology, Infrastructure & Mobility

- Central Avenue Traffic Corridor Study
- Community Broadband Expansion Project: Traffic Signal Interconnect Conduit Replacement (230), Traffic Signal Network Communications Program (240), Grandview Street Light Replacement (243), INET Fiber Replacement Buildout (244), Fiber Optic Conduit – Misc (246), Fiber Infrastructure Management System (247), Broadband Acceleration & Universal Access (248)
- Neighborhood Speeding Mitigation: Direction and Enforcement
- Roundabout Policy
- Smart Parking and Mobility Study: Smart Parking System (268)
- Traffic Signal Synchronization/STREETS Program: STREETS Traffic Control Program Phase 1 (238), STREETS Traffic Control Program Phase 2 (239)

Diverse Arts, Culture, Parks, and Recreation Experiences and Activities

- Arts and Culture Master Plan: Revised Community Engagement Strategy Adoption
- Arts Operating Grants Review and Funding
- Comiskey Park Upgrades: Phase 2: Reimagine Comiskey Phase 2 (26)
- Comprehensive Parks Master Plan

Partnership For A Better Dubuque: Building Our Community That Is Viable, Livable, & Equitable

- City Life in Spanish: Implementation

Major Projects

Major Projects are projects that are underway and budgeted. Staff is implementing and providing updates to City Council. These items are included in the existing FY 2024 and proposed FY 2025 Operating budgets unless noted for additional funding. The items are identified under their corresponding City Council Goal:

Vibrant Community: Healthy & Safe

(none)

Financially Responsible, High Performance City Organization: Sustainable, Equitable, and Effective Service Delivery

- Data Center Relocation
- Engine House No 1 Remodel Project

Robust Local Economy: Diverse Business & Jobs with Economic Prosperity

- (none)

Livable Neighborhoods: Great Place to Live

(none)

Sustainable Environment: Preserving & Enhancing Natural Resources

- Lead Water Service Line Replacement : Private Lead Line Replacement (65)
- Supervisory Control And Data Acquisition (SCADA) System Overhaul: SCADA & Comms Improvements (62), Lift Station Upgrades (81)
- Water Main Extensions – Southwest Arterial: Southwest Arterial Water Main Extension (75), Dubuque Industrial Center Crossroads Sanitary Sewer Extension (166), Southwest Arterial Middle Interchange Sewer Extension (187)

Connected Community: Equitable Transportation, Technology, Infrastructure & Mobility

- Fiber Connections to Additional City Locations Project: Engineering Traffic CIPs (245-248)
- Chaplain Schmitt Island Trail Connector Project
- East/West Corridor Roundabouts
- Kerper Boulevard Roundabout Project
- RAISE Planning Grant for Design: 14th St Overpass (199), Bee Branch Creek Trail: 16th to 9th (219)
- SW Arterial ITS Project

Diverse Arts, Culture, Parks and Recreation Experiences and Activities

- Eagle Valley Subdivision Park: Construction
- English Ridge Subdivision Park: Construction
- Five Flags Short-Term Improvements: Five Flags Building Improvements (37)
- Jackson Park Restrooms: Completion
- Westbrook Subdivision Park

Partnership For A Better Dubuque: Building Our Community That Is Viable, Livable, & Equitable

(None)

Source of Funds and Important Details

The Fiscal Year 2025-2029 CIP presents a financial plan that reflects a \$290,069 general fund property tax levy supported annual debt service for the FY 2010 purchase of a replacement pumper truck (\$1,035,000) and the FY 2016 franchise fee litigation settlement judgment bond (\$2,800,000). No other borrowings included in the Fiscal Year 2025-2029 CIP utilize a debt service levy. It is anticipated that other borrowing from non-utility funds can be minimized by using other sources of funds such as future DRA annual distributions of operating surplus and sales tax revenue.

The following important details are about the source of funds:

UTILITIES

Stormwater

The Stormwater Utility was formed on July 1, 2003, to update and expand the City's aging infrastructure, comply with the National Pollution Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) permit, and implement the various elements of the 2001 Drainage Basin Master Plan (amended in 2013), which outlined improvements in both the Catfish Creek and Bee Branch watersheds. The City has been able to garner support from local, state, and federal partners with over \$163 million in outside funding to help offset the cost of the overall \$254 million project. Since 2001, the City has made steady progress on the various phases of the project.

When the City Council adopted Ordinance 21-12 (passed and approved on March 7, 2012), they established that the stormwater utility fee would increase to \$9.00 per month on July 1, 2016 in order to fund the operational and capital costs of the public stormwater management system, including improvements such as the Bee Branch Creek Restoration Project. But later in 2012, the Iowa General Assembly created the Flood Mitigation Program which provides funding for flood mitigation projects undertaken by local governments such as the City of Dubuque. Managed by the Iowa Flood Mitigation Board, the funding source established involves taking a portion of the incremental growth of State sales tax revenue collected within a city and diverting from the State General Fund to cities approved for the funding. Having updated the Drainage Basin Master Plan in the fall of 2013, which outlined the improvements associated with the 12-phase Bee Branch Watershed Flood Mitigation Project, the City was successful in securing \$98.5 million in State sales tax increment funding. With the infusion of funding, the City Council adopted Ordinance 16-14 (passed and approved on March 5, 2014) establishing that the stormwater utility fee did not reach \$9.00 per month until July 1, 2021, five years later than later than previously scheduled.

The City has been able to provide stormwater management services within the rate structure established by Ordinance 16-14. Due to the uncertain economic impacts of the COVID-19 pandemic, there was no increase in FY2021 as part of the City's Coronavirus relief response. With some minor adjustments to planned Capital Improvement Program projects, reducing some budgets and delaying a few others, the City was able to delay the planned increases for a year such that the rate did not reach \$9.00 per month until FY 2023, six years later than previously scheduled.

The recommended Fiscal Year 2025-2029 Capital Improvement Program Budget includes \$16,838,991 for the Flood Mitigation Gate & Pump Replacement as part of the Bee Branch Creek Restoration Project (Phase 5 of the Bee Branch Watershed Flood Mitigation Project). Additional funding was provided for the project in the Fiscal Year 2024 Capital Improvement Program Budget.

The recommended Fiscal Year 2025-2029 Capital Improvement Program Budget includes \$225,000 for engineering and design in Fiscal Year 2025 and \$3,556,000 for construction in Fiscal Year 2028 for the

Flood Control Maintenance Facility as part of the Bee Branch Creek Restoration Project (Phase 9 of the Bee Branch Watershed Flood Mitigation Project).

The recommended Fiscal Year 2025-2029 Capital Improvement Program Budget includes \$650,000 for the North End Storm Sewer Improvements as part of the Bee Branch Creek Restoration Project (Phase 10 of the Bee Branch Watershed Flood Mitigation Project).

Fiscal Year 2025 will be the eighteenth fiscal year that the Stormwater Fund is recommended to be fully funded by stormwater user fees. The General Fund will continue to provide funding for the stormwater fee subsidies that provide a 50% subsidy for the stormwater fee charged to property tax exempt properties, low-to-moderate income residents, and a 75% subsidy for the stormwater fee charged to residential farms. The FY 2025 Stormwater User Fee is proposed to increase from \$10.00 per SFU to \$11.50 per SFU, a 15.00% increase.

	Rate Per Single Family Unit (SFU)
Fiscal Year 2021 - Adopted Per Ordinance 21-20	\$ 8.29
Fiscal Year 2022 - Adopted Per Ordinance 10-21	\$ 8.85
Fiscal Year 2023 - Adopted Per Ordinance 13-22	\$ 9.00
Fiscal Year 2024 - Adopted Per Ordinance 14-23	\$ 10.00
Fiscal Year 2025 - Recommended	\$ 11.50

Water

Water revenue represents a portion of the monthly water bill that goes for maintenance, repair, replacement and improvement of the Eagle Point Water Plant and water distribution system on a pay-as-you-go basis for all projects except the major extensions. The annual payment to the depreciation fund in Fiscal Year 2024 is \$1,000,000. The Fiscal Year 2025-2029 CIP anticipates \$1,072,600 in Fiscal Year 2025, \$1,487,377 in Fiscal Year 2026, \$1,526,450 in Fiscal Year 2027, \$1,809,380 in Fiscal Year 2028, and \$1,780,990 in Fiscal Year 2029.

Water State Revolving Fund Loans will be used to finance sewer projects in FY 2025-2029 as follows: \$4,686,377 FY 2025; \$750,000 FY 2026; \$3,750,000 FY 2027; \$1,750,000 FY 2028; and \$3,000,000 FY 2029. The debt service related to the total 13,936,377 State Revolving Fund Loans over the 5-years will be paid from water fees and offset by reduced payments to Depreciation (Construction Fund). The SRF loans issued for the construction portion of the Public Lead Lines is 49% forgivable, a total of \$2,494,896 is estimated to be forgiven over the 5-year CIP. The State Revolving Fund Loans support SCADA & Communications Infrastructure Improvement Project, Private Lead Line Water Main Replacements, Public Lead Line Water Main Replacement, Source Water PFAS Reduction Project Deep Well, Source Water PFAS Reduction Project Granular Filter, Third Pressure Zone Connection (from Tanzanite Drive to Olympic Heights Pump Station), and South West Arterial Water Main Extension (Highway 20 to English Mill Rd Pump Station).

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager's Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager's Office, Legal, Planning, Economic Development, City Clerk's Office and Workforce Development recharged expenses based upon each enterprise fund's percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Water Fund's share of the City's administrative overhead is 18.75%. In FY 2025, the Water Fund will support 17.88% of administrative overhead.

The water fees in FY 2025 are recommended to increase 12.0%; 12.0% for capital needs.

Sewer

Sewer revenue represents a portion of the monthly sewer bill that goes for the maintenance, repair, replacement and improvement of the Water & Resource Recovery Center Plant; lift stations, and sewer lines on a pay-as-you-go basis. The annual payment to the depreciation fund in Fiscal Year 2024 was \$1,800,000. The Fiscal Year 2025-2029 CIP anticipates \$6,693,560 in Fiscal Year 2025, \$1,515,470 in Fiscal Year 2026, \$1,682,782 in Fiscal Year 2027, \$1,904,491 in Fiscal Year 2028 and \$2,214,982 in Fiscal Year 2029.

Sanitary Sewer State Revolving Fund Loans will be used to finance sewer projects in FY 2025-2029 as follows: \$17,683,900 FY 2025; \$15,531,900 FY 2026; \$8,212,105 FY 2027; \$10,448,695 FY 2028; and \$4,881,286 FY 2029. The debt service related to the total \$56,757,886 State Revolving Fund Loans over the 5-years will be paid from sewer fees and offset by reduced payments to Depreciation (Construction Fund). The State Revolving Fund Loans support such projects as Abbott & Cottage Reconstruction, Catfish Creek Sewer Shed Interceptor Sewer Improvements, CCTV Inspection Cleaning and Assessment, Cedar & Terminal Street Lift Station & Force Main Assessment and Improvements, Cooper Place and Maiden Lane Reconstruction, Harvard Sanitary Sewer Reconstruction, Outfall Manhole Reconstruction, Old Mill Road Lift Station & Force Main, Sanitary Sewer Extensions to Existing Developments, Southwest Arterial Middle Interchange Sewer Extension, W&RRC Bar Screen Replacement, W&RRC Industrial Controls Upgrade, W&RRC High Strength Waste, and W&RRC Biochemical Oxygen Demand Capacity Upgrades.

The sewer fees in FY 2025 are recommended to increase 9.0%; 9.0% for capital needs.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager's Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager's Office, Legal, Planning, Economic Development, City Clerk's Office and Workforce Development recharged expenses based upon each enterprise fund's percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Sanitary Sewer Fund's share of the City's administrative overhead is 18.75%. In FY 2025, the Sanitary Sewer Fund will support 18.35% of the administrative overhead.

Parking

Parking revenue represents three primary sources: (a) the balance of prior year depreciation funds set aside for the maintenance and repair of parking ramps; (b) future payments to the depreciation fund for repair and maintenance of the parking system (there are no budgeted payments to the depreciation fund in future years due to using existing cash balance); and (c) interest income.

A \$10 million Greater Downtown TIF borrowing is anticipated in FY 2025-2029 for smart parking, parking ramp major maintenance, and other downtown projects. New debt service will be paid from the Greater Downtown TIF fund.

The Greater Downtown TIF will support parking related projects in the downtown as follows: \$8,288,000 in FY 2025; \$2,075,500 in FY 2026; \$1,374,500 in FY 2027; \$1,019,500 in FY 2028; and \$1,032,000 in FY 2029.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager's Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager's Office, Legal, Planning, Economic Development, City Clerk's Office and Workforce Development recharged expenses based upon each enterprise fund's percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Parking Fund's share of the City's administrative overhead is 6.93%. In FY 2025, the Parking Fund will support 2.75% of the administrative overhead.

Solid Waste Collection Activities

Solid waste collection activities revenue represents a portion of the monthly refuse bill that goes for the purchase of solid waste collection vehicles. The annual payment to the depreciation fund in Fiscal Year 2024 was \$325,000. The Fiscal Year 2025-2029 CIP anticipates \$192,212 in FY 2025, \$1,840 in FY 2026; \$40,750 in FY 2027; \$451,500 in FY 2028; and \$818,854 in FY 2029.

The Solid Waste Collection will support solid waste related debt for solid waste collection vehicles as follows: \$873,700 in FY 2025; \$585,840 in FY 2026; \$400,000 in FY 2027; \$— in FY 2028 ; \$— in FY 2029.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager's Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager's Office, Legal, Planning, Economic Development, City Clerk's Office and Workforce Development recharged expenses based upon each enterprise fund's percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Solid Waste Fund's share of the City's administrative overhead is 18.75%. In FY 2025, the Solid Waste Fund will support 18.64% of the administrative overhead.

The solid waste collection fees in FY 2025 are recommended to increase 9.00%.

GENERAL FUND

The current revenue amount of \$1,910,000 (0.54% of CIP Total) during the five-year period represents \$65,000 in golf funds for improvements to the Bunker Hill Golf Course, \$21,000 in Historic Preservation Loan repayments, \$100,000 in Rental Dwelling Rehab Repayments, \$150,000 in Washington Neighborhood Loan Repayments, \$50,000 in insurance and other reimbursements, and \$24,000 in repayments to the Homeownership Loan Program.

LOCAL OPTION SALES TAX (LOST)

The local option Sales and Services Tax approved by the voters on February 2, 1988, provided that 20 percent of the proceeds would be used for: (a) the upkeep of City-owned property such as sidewalks, steps, storm sewers, walks, curbs, traffic signals and signs, bridges, and buildings and facilities; (b) transit equipment such as buses; (c) riverfront and wetland developments; and (d) economic development projects. This portion of the Sales and Services Tax shows up on the CIP Source of Funds Summary as "Sales Tax (20%)" totals \$2,802,994 and represents 0.79% of the total CIP.

The local option Sales and Services Tax approved by the voters on February 2, 1988, provided that 30 percent of the proceeds would be used to: (a) reduce street special assessments by at least 75 percent; and (b) maintain and repair streets. This portion of the Sales and Services Tax shows up on the CIP Source of Funds Summary as "Sales Tax/Street Projects (30 percent)" and totals \$21,437,655, or 6.05% of the total CIP.

GAMING

DRA payments represent 0% in FY 2025 of the projected gaming taxes, rent, and admissions from the race track, slots and riverboat operations (\$0 or 0.00% of the total CIP) over the five-year period. When practical in future years, additional revenues will be moved to capital from operating. To the extent that there is any revenue shortfall in future years, capital projects will be eliminated or deferred. DRA distribution revenue projections (\$3,949,369 or 1.11% of the total CIP) are discounted consistent with the adopted budget guidelines by 5% in FY 2027, 10% in FY 2028 and 15% in FY 2029. **In Fiscal Year 2025, all DRA Distribution is diverted to the operating budget instead of being used in the capital budget. This was also done in Fiscal Year 2024 and is a change in practice.**

On December 14, 2021, an amended lease took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in. The amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the \$10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. In addition, the distribution of net profit is now split three ways between the City, charities, and the Schmitt Island Master Plan Implementation from a two-way split between the City and charities. The amended lease has an expiration date of December 31, 2055.

In calendar year 2023, gross gaming revenues were down -9.7% for the DRA and the Diamond Jo was up +3.6% as compared to calendar year 2022. Gross gaming revenue for DRA was impacted by construction disruption as the property underwent redevelopment starting in September 2023. In calendar year 2023, the DRA showed increases, up +15.6%, in sports betting revenue, hotel room revenue, food and beverage sales, entertainment sales and other revenue as compared to calendar year 2022. This resulted in calendar year 2023 total gross revenue being down at -5.0% as compared to calendar year 2022.

FEDERAL FUNDING

Community Development Block Grant (CDBG)

The Fiscal year 2025-2029 CIP anticipates that Community Development Block Grant (CDBG) funds will be \$593,552 in FY 2025; \$375,000 in 2026; \$375,000 in FY 2027; \$375,000 in FY 2028; and \$375,000 in FY 2029 (0.59% of the total CIP). CDBG is budgeted at the same funding level as FY 2024.

Federal Aviation Administration (FAA)

The FAA funding of \$33,761,295 (9.53% of the total CIP) provides 90 percent match on most airfield related improvements. The Fiscal Year 2025-2029 budget includes Extend Runway 18/36, Reconstruct Taxiway A, Terminal Building Modification, Taxiway J Improvements, Taxiway D Extension, Westside Airfield Development, Reconstruct General Aviation Apron, and the Pavement Condition Study.

Federal American Rescue Plan Act Funds (0.50% of Total CIP)

Federal American Rescue Plan Act Funds awarded in FY 2022 with funding budgeted as follows: \$1,765,000 in FY 2025. The Fiscal Year 2025-2029 budget includes Terminal Building Modification, Terminal Building Exit Lane Modification, and Public Safety Software.

Federal Assistance

Federal Assistance funding of \$32,900,000 (9.29% of the total CIP) includes EDA, EPA, Infrastructure grants, and other federal grants. The Fiscal Year 2025-2029 budget includes Bee Branch Creek Gate & Pump Replacement, 14th St Overpass, and Bee Branch Creek Trail 16th to 9th. Implementation.

Federal STP Funds

Federal STP Funds funding of \$14,412,398 (4.07% of the total CIP) includes DMATS funds for STREETS Traffic Control Project Phase 2 and US Highway 20 - Northwest Arterial Intersection Operational and Capacity Improvements.

STATE FUNDING

Road Use Tax

Road Use Tax Funds (RUTF) of \$89,543 (0.03% of the total CIP) over five years represents the balance of annual payments not required for support of the operating budget and funds that had been reserved to finance high priority transportation projects. The Iowa Department of Transportation (IDOT) provides annual projections on the amount of RUTF the City of Dubuque will receive over the next five years based on a per capita amount. The State Road Use Tax Fund consist of revenues from fuel tax, vehicle registration fees, use tax, driver's license fees and other miscellaneous sources and is distributed to cities on a per capita basis. It should be noted that in FY 2010, the Iowa Department of Revenue increased Road Use Tax Funds (RUT) as a result of higher vehicle registration fees passed into law in 2008. The gas tax was increased ten cents beginning in February 2015. The city is estimated to receive \$43,870,059 for FY 2025-2029.

Sales Tax Increment Revenue

The City secured a \$98.5 million grant through the State of Iowa Flood Mitigation program funded by 70% of the sales tax increment revenue received from the State of Iowa's 5% portion of sales tax received from sales in the City of Dubuque. This revenue will fund the debt service payable on Sales Tax increment Revenue bonds and Iowa Finance Authority State Revolving Fund Loans issued for the Flood Mitigation project known as the Bee Branch Watershed Project. In the five year capital program, \$4,181,000 of sales tax increment revenue will fund pay-as-you-go projects related to the Bee Branch Watershed project.

Other State Grants (2.23% of Total CIP)

State funding includes Iowa Department of Transportation Funding for street projects and trails and Historic Preservation Surveys and Regulations of \$7,901,926 are anticipated over the five-year program.

Iowa Finance Authority funding of \$1,149,870 is anticipated over the five-year program for the Housing Department's Housing Trust Fund to provide permanently affordable housing or assistance to nonprofit organizations providing the same.

TAX INCREMENT FINANCING (TIF)

Dubuque Industrial Center West TIF District

In FY 2006 and 2007, Tax Increment Financing (TIF) funds were committed towards abatement of the 20 year G.O. Bond issue for a Dubuque Industrial Center West (DICW) expansion and Chavenelle Road extension project, thereby delaying payback to the general fund for prior year development costs. In FY 2007, the TIF assessed values increased, allowing for additional increment for projects and cost recovery to continue. In FY 2017, the TIF assessed values increased again from a commercial 12% state equalization order.

The FY 2025-2029 CIP includes \$1,857,500 in land sale proceeds to provide funding for the new campaign by the Greater Dubuque Development Corporation to improve the economy in Dubuque, \$20,000 for native plantings, \$876,987 to provide funding for Development Dubuque Industrial Center: Crossroads, and \$9,549,065 to provide funding for Dubuque Industrial Center McFadden Farm development.

Annexation Initiatives

As annexation and development continues, the City has taken the following initiatives to provide services to annexed areas:

Additional Police Officers (Operating Budget)

With the Police Department's crime strategy, Territory Accountability Design, in full implementation, the department projected the need to increase Dubuque's current six patrol territories to seven as new areas of the city are developed. To add a seventh territory, five additional police officers were needed.

Partly in response to this need, the Police Department developed a Sworn Officer Plan which proposed the addition of 15 sworn police officers over a five-year period, with the first five (four Police Officers and one Police Corporal acting as a Section 8 Investigator) approved in December 2007, four more were approved in FY 2009, three more were approved in FY 2010, two more were approved in FY 2011 and one more was approved in FY 2012. The plan's staff increases created sufficient staffing to establish an additional patrol territory. In FY 2019, an additional sworn police officer was added, an existing position was promoted to Captain and one Corporal position was eliminated in order to create a Specialty Unit Commander. The Fiscal Year 2020 budget approved the expansion of the Dubuque Police Department School Resource Officer Program. To spread the expenses over time, three SRO's were to have been added over three consecutive years: Fiscal Year 2020, Fiscal Year 2021, and Fiscal Year 2022 budget. However, the expansion was frozen in FY21 due to the pandemic causing the final position and was added in FY23 instead of FY22 as originally planned. The Dubuque Community School District (DCSD) will still gradually pay 50% of the salary of the existing SRO Lieutenant, and the DARE Officer. This DCSD payment will be implemented in increments of 45% of 50% reimbursement in year 1, or Fiscal Year 20, 75% of 50% reimbursement in year 2, or Fiscal Year 21, and 100% of 50% reimbursement in year 3, or Fiscal Year 22. In Fiscal Year 2024, two Crisis Intervention Team Officers are recommended.

Fire Station and Additional Firefighters/Paramedics

An additional west end fire station is currently projected to be designed in FY 2028 and built in FY 2029. In fact, this might not be an additional station but might be a relocation of the Grandview fire station. This station would be approximately 10,000 square feet and house two response apparatus, plus storage for other reserve units. The City of Dubuque currently has an annexation study and not an annexation plan. However, addition of this fire station and associated ambulance and firefighting response capability and capacity positions the City will develop an annexation plan and begin the process of annexation in the near future. The City Development Board, that approves annexation expects services to be provided within 3 years of annexation. For a new station, operating costs include insurance, utilities, equipment, maintenance, furniture, and the cost

of twelve new employees. In FY2020, one (1) new employee was added, one (1) additional new employee was added in FY 2021 as well. The position that was to be added in FY2022 was delayed. In FY2023, 4 new employees were added. In FY2024, one new firefighter was added. In FY 2025 and additional EMS Captain and an additional EMS Bureau Chief are recommended, and the remaining employees will be added in future years to reach a total of 12 new positions. In addition, 3 firefighter/paramedic positions were added in FY2023 to provide one additional staff member on each of the three duty shifts. The additional ambulance for the additional fire station was purchased in FY2023. The current minimum staffing per shift is 22, with 28 personnel assigned to cover leave. The additional personnel will reduce the need for overtime as each shift will have more positions available to cover vacations and other leave.

Additional Snow Plow Drivers and Snow Plow Route (Operating Budget)

Dubuque's expansion also increased the number of streets and roads that must be maintained by the City's Public Works Department. In order to maintain the current level of street maintenance, street cleaning, and snow and ice control to all areas of the city, the Public Works Department was approved for the addition of a snow plow driver in FY 2009 and another is expected to be requested in a future year. Two drivers are needed to staff a route 24 hours a day in a snow event. The Public Works Department plans to create another snowplow route with these two employees as annexation and development dictates. In the warm months, this position will be assigned to the Leisure Services Department to maintain City parks and landscaping in the Washington Neighborhood, Port of Dubuque, Iowa Street and the Locust Street connector. In Fiscal Year 2009, the Public Works Department also began using Refuse, Recycling and Yard Waste Collection employees at the end of their collection routes and on overtime to assist in snow removal duties. The City has also developed a plan to use personnel and equipment from other City departments to go from 22 pieces of snow removal equipment to 32 pieces of snow removal equipment in a snow storm that exceeds 5 inches. With the recommendation to eliminate full-time positions in the Engineering Department and create one part-time position, there will be less opportunity to supplement the snow plowing effort.

Water and Sanitary Sewer Service

The City is in the process of extending sanitary sewers and water service into new development areas or recently annexed areas as part of pre-annexation agreements. Requests have been received for sanitary sewer and water service on North Cascade Road near Highway 20 and for water service further North on John F. Kennedy Road.

In 2003, a new water main was activated from Highway 20 north on the east side of the Northwest Arterial to John F. Kennedy Road then west to a new 1.25 million gallon water tower located at the Dubuque Soccer Complex. By constructing this tower and with this water main extension in the fourth pressure zone of the City's water distribution system, it allowed growth to take place for residential, commercial and industry to the west of the community.

To date, both sanitary sewer and water service have been extended through the Dubuque Industrial Center West, along Seippel Road to the north edge of the Callahan subdivision. Additional funds are available to extend water and sewer service to the 643 acres annexed and to other areas under consideration for annexation. The City has spent in excess of \$2 million to replace much of the North Fork Catfish Creek Sanitary Sewer Line. The City extended the Granger Creek Interceptor sewer and the public water main from the Technology Park South along highway 151/61 to the north side of the Dubuque Regional Airport. The Granger Creek sanitary sewer and water main extension provided immediate sanitary sewer and water services to the Dubuque Regional Airport and portions of the annexation areas that are adjacent to the highway 151/61 corridor.

Greater Downtown TIF District

This district was formally the Downtown and Ice Harbor TIF districts but now have been combined to the Greater Downtown TIF district. Many projects, which are City Council priorities, are able to move forward due to the availability of Greater Downtown TIF revenue due to continued growth to further sustain a rejuvenated downtown and port of Dubuque. The following are projects included in the FY 2025-2029 CIP:

Washington Community Gateway (page 34) – This project (\$114,000) provides for developing the vacant lot at 1401 Elm Street as a Washington Community Gateway. The City purchased this property in 2014. The structure has been removed, and the lot is currently grass. This project would provide for such amenities as three flag poles, park lighting, security cameras, a welcome sign to the Washington neighborhood and a drinking fountain.

ABC Supply Building Deconstruction (page 223) – This project (\$457,000) provides for hazardous material remediation and structure deconstruction of a former city-owned leased property along Highway 151 near the South Port. This funding would support the deconstruction of the former ABC Supply building whose lease expired in December 2018. Clearing this site of the existing outdated and obsolete structure will help to prepare it for redevelopment.

Reimagine Comiskey (page 26) – This project (\$3,417,000) provides for funding related to phases 2-4 of the Re-Imagine Comiskey park redevelopment. Phase 1 was completed in FY23. Phases 2-4 includes an additional basketball court, a large turf field, parking lot, additional sidewalks, lighting and pavilions. The construction of a basketball court and parking lot would happen in FY26, and the installation of a large turf field, additional sidewalks, lighting and pavilions would happen in FY29.

Downtown Urban Renewal Area Non-Profit Weatherization Improvements Assistance (page 285) – This program (\$150,000) provides funding for matching grants to assist non-profits in the Greater Downtown TIF area to make energy efficiency improvements to their buildings, including weatherization measures, HVAC system upgrades, alternative energy sources, and other work to decrease their utility bills. This reduction in annual operating costs will allow non-profits to invest more funds in achieving their organization's mission. Energy efficiency improvements not only result in financial savings to the organization but will also help to meet the 50% by 2030 Community Climate Action & Resiliency Plan goals approved by City Council in 2013.

Five Flags Building Improvements (page 37) - This project (\$23,454,000) provides for improvements to the building (arena, theater, lobby areas, exterior) and its equipment. This would be used on the current facility at its current footprint in its current state. The building is in need of air wall replacement, wood window repairs, painting of the steel exterior, resealing the ballroom floor, remodeling/upgrading concession stands, carpet and tile replacement, locker shower upgrades, stage dimmer light replacement, dressing room upgrades, elevator upgrades, placement, refurbishing the stage floor, restoration of theater seats, painting walls and ceilings, satellite ticket booth, theater counter weight and grid system, roof repairs, lighting upgrades and retrofits and other building needs. Equipment replacement needs include the sound system, floor scrubber, tables and portable chairs, water fountains, popcorn popper, concert lighting, pipe and drape, follow spots, lighting consoles, masking equipment, scoreboard and other equipment replacements. New equipment necessary for a venue doing the level of business of Five Flags include wireless internet, technology upgrades, and more. All projects listed have been submitted previously as individual projects with the oldest project continuously submitted since 2003. The majority have been cut from the budget for 12-13 years. Civic Center opened its doors in 1979, alongside the restored theater with a \$3.7 million bond. Additional upgrades and renovations were completed in 2005 for just over \$2.0 million.

Grand River Center Public Restroom Remodels (page 50) - This project (\$770,000) funds a comprehensive remodel and renovation of all public bathrooms for a better guest experience. The current design of these facilities has become outdated and is in need of a look that matches the rest of our venue and better meets the expectations of the guests of today. This project aims to revitalize the appearance of the restrooms and upgrade the existing fixtures, many of which have remained untouched since the facility's initial opening in 2003.

Grand River Center Dishwasher and Water Softener Replacement (page 49) - This project (\$181,000) funds a dishwasher and water softener replacement, as they are original to the venue and reached its industry-standard lifespan. After running dishes through the current dishwasher, they are coming back spotted which leads to concerns when placed in front of the guests.

Replace Carpet at Grand River Center (page 45) - This project (\$65,000) provides for replacing the carpet in various rooms and areas throughout the Grand River Center. Higher use areas of the convention center are on a ten-year replacement cycle. The carpeting establishes a new, fresh look to the room. FY29 will replace the spine carpet, with plans to budget more money in the future to replace carpet in other areas.

Roof Restoration at Grand River Center (page 46) - This project (\$1,427,000) provides for restoration of the Grand River Center roof. The roof was installed in 2002. Restoration is critical in order to avoid very expensive damage if it began leaking. The budget in FY 2025 is for patching with full replacement in FY 2029.

Five Flags Boiler Replacement (page 38) - This project (\$410,000) funds the replacement of three, 2 million BTU boilers which provide heating for the arena. The current boiler system was installed in 2006 and has a replacement schedule of 20 years. Future boilers are more energy efficient, helping to reduce future costs.

Port of Dubuque Flood Wall Dubuque Welcome Sign (page 44) - This project (\$33,000) is for the design, development, and installation of an 8-foot by 200-foot "Welcome to Dubuque" sign located on the flood wall near the Ice Harbor flood gates. There is currently no signage along the river to let patrons know that they have either arrived or are passing by Dubuque. Such a sign on the wall would not only be a welcoming visual for those visiting on cruise ships or other vessels but can create awareness on the river that this is an area they may approach in order to visit the City. This sign could also indirectly filter boat traffic into the Port of Dubuque Marina to dock and/or fuel. Included in this project would be the purchase and installation of solar lighting with a 5-year replacement cost of \$3,500.

Smart Parking System (page 268) - This project (\$2,737,000) funds the replacement of the City's obsolete parking gate equipment at city parking garages and lots, curbside parking meters, and installation of a parking lot occupancy count system at lots without gate equipment. As part of this project, head end parking management software, cyber-secure payment software, expanded broadband connections, available parking space electronic message boards, and a customer-friendly parking app will be deployed. The new smart parking system will provide parking customers with on-demand space availability and thus maximize traveler convenience, reduce travel time, maximize parking revenues, and help to reduce congestion in the downtown area.

Municipal Parking Lot Maintenance (page 269) - This project (\$225,500) provides for maintaining the surface of 14 off-street municipal parking lots. This project also includes signage, landscaping, and screening improvements to surface lots. Lots include: Lot 2 (9th and Bluff); Lot 3 (5th and Bluff); Lot 5 (City Hall Lot); Lot 6 (Library Lot); Lot 7 (3rd and Main); Lot 10 (5th and Main); Lot 12 (4th and Central); Crescent Community Health Center Parking Lot; Lot 4 (12th and Bluff); Port of Dubuque Surface Lot; Federal Building Parking Lot; Elm Street Parking Lot; Ice Harbor Drive Parking Lot; and Lot 9 (3rd and Locust). The funding for maintenance of municipal parking lots provides for pavement crack sealing, repairs, line striping, and seal coating surfaces.

Ramp Major Maintenance (page 271) - This program (\$10,602,000) funds major renovation work needed at the Iowa, Locust, 5th Street, Five Flags, 10th and Central, and Intermodal ramps. Funding will address structural repair items and needed mechanical, electrical and plumbing repairs.

Downtown Rehab Grant Program - Includes Central Avenue, Historic Millwork District and Washington Neighborhood (page 261) – This program (\$1,000,000) grants for rehabilitation and adaptive reuse of buildings in the Greater Downtown Urban Renewal District. Tax increment proceeds are used to capitalize the pool of funds for these grants. This grant program provides a 1:1 match for eligible expenses for improvements to façades, as well as accompanying costs for financial consulting, planning and design work for the project. Potential projects identified at this time are 1700 Block of Central (multiple buildings) and 3000 Jackson. In addition, we typically receive requests for 5-6 smaller projects annually. This grant program receives the most inquiries and interest of all Economic Development's programs. The program promotes the redevelopment of the downtown, maintains its historic appeal, and complements grant/loan programs provided by our partners at Dubuque Main Street. Revitalization of the Central Avenue Corridor is a top priority of City Council, which is one area where this program can be used.

Port of Dubuque Parking Lot Resurfacing (page 267) - This project (\$225,000) funds the resurfacing of the Port of Dubuque Parking lot, which is adjacent to the McGraw-Hill Building. This parking lot has reached the end of its useful life and is in major need of repair.

Street Camera Installation (page 233) - This project (\$115,000) funds the equipment, installation and software license for the placement of fixed cameras to be installed near roadways, alleys and signalized intersections throughout the City of Dubuque. Currently, the Traffic Operations Center has communication lines throughout the City along major and minor arterials, city streets and near signalized intersections. Engineering uses these cameras to remotely monitor and adjust traffic operations. Over the last few years, Engineering and Police have worked together using these cameras to aid the police in accident and crime investigations on a daily basis, making them an integral part of public safety. These funds would also be available to add fiber optics communications lines to areas in need of cameras and to replace existing cameras as they age and as technology advances. Each camera costs approximately \$2,500.

Street Light Replacement and New Installation (page 227) - This project (\$25,000) provides for a replacement program of the existing 30-foot white streetlights and some traffic signals located in downtown Dubuque. The project would replace all remaining white poles and install lighting controllers with meters. In certain cases, these would be replaced with historical streetlights. Many of the streetlights in the downtown area were installed in the early 1950's. These are the white, 30-foot style found along Central, Main, Iowa, Locust and Bluff Streets. Many of these streetlights utilize a direct burial style feed and unique service panel which makes it very difficult and costly to maintain. This project would also fund LED replacement luminaries throughout the City. This program would promote the use of highly efficient, long-life LED street lighting throughout the City of Dubuque which saves energy and operating expenses. Current locations of interest include the Port of Dubuque Riverwalk, Bridge Lighting locations and miscellaneous subdivision locations. This project also initiates a scheduled replacement of older streetlights throughout the City and will also include the installation of new streetlights when conditions warrant. In many older subdivisions, the entire light fixture, base, pole, and conduits need replacing. Currently there are around 60 lights in 24 locations outside of the downtown lights that are in need of replacement. Average cost of reconstruction is around \$1,500 to \$2,000 each.

Central Avenue Corridor Streetscape Master Plan Implementation Improvements (page 204) - This project (\$15,536) aims to implement recommendations outlined in the adopted Central Avenue Streetscape Master Plan along Central Avenue between 11th and 22nd Streets, as well as potential recommendations from the traffic study currently underway for the Central and White Street corridors. These funds are intended to be flexible, whether that be for design, construction, amenities (such as transit stops, moveable amenities, and beautification efforts) or other needed improvements. This project would utilize complete street concepts and standards to accommodate pedestrians, bicyclists, transit, and other motor vehicles in the corridor. Special attention would be made to creating a sense of

place for this corridor. This project is identified in the comprehensive plan and was a City Council 2022-2024 High Priority.

Federal Building Renovation (page 249) - This project (\$9,681,950) requests additional funding to complete needed renovations to the Historic Federal Building. In 2008, significant updates were completed to improve its overall condition and to ensure it remained as a historic structure anchoring downtown. Now, 14 years later, this historic building requires additional funding to ensure it remains in solid condition. Due to the COVID-19 pandemic, funding over the past two fiscal years has been reduced from this capital improvement project budget. The listed funding request attempts to replenish building components currently in deferred maintenance status and address emerging concerns.

City Annex Roof Replacement Project (page 252) - This project (\$26,500) replaces the back roof on City Hall Annex. The current condition of the roof is poor and is well past the intended service life. Replacement is needed to ensure the building remains water tight and protects the Information Technology equipment housed within the building. Funding is requested in FY25 to complete replacing the last section of roof following the main roof replacement in FY24.

City Hall Tuck Pointing and Foundation Wall Repairs (page 250) - This project (\$75,000) is being requested to address the deteriorating condition of the northern and western foundation walls of City Hall. The west building facade is showing signs of deterioration due to accelerated cracking of bricks and loss of mortar in certain joints. Over the past decade, high moisture content in the lower west facade bricks has been observed.

Multicultural Family Center- Ruby Sutton Building HVAC Replacement (page 253) - This project (\$40,000) replaces the existing HVAC units that are more than 20 years old, which provide conditioned air to the Ruby Sutton building portion of the Multicultural Family Center. The Multicultural Family Center operates year-round providing services to all parts of the community. These units are at an age where they are becoming unreliable. If a unit fails in the summer, hot internal building temperatures may result in disruptions to on-going programs or city staff working in the building.

Multicultural Family Center- Basement Rehabilitation (page 254) - This project (\$30,000) funds the demolition of the partition walls in the basement of the Ruby Sutton Multicultural Family Center building and install modernized storage systems to create more functional storage space. The storage systems are needed to remove several safety concerns that exist in this cramped space.

Downtown Bike Lockers (page 257) - This project (\$45,000) funds the installation of 4-5 weatherproof bike lockers per year at the downtown building facilities. In the past two years, more city employees are biking to work and are parking their bikes inside the building of their assigned work space. On bad weather days, bikes are bringing additional rain and snow into the buildings that can increase risk of slip-and-fall incidents. Bikes stored haphazardly in hallways can also interfere with emergency egress walkways. Some bikers can own bikes costing as much as \$10,000 and, thus, are reluctant to store them in the open air at exterior bike racks. Weatherized bike lockers will provide riders with the needed protection and security to allow bikes not to be stored indoors.

South Port Redevelopment Concept Plan (page 220) - This project (\$60,000) funding will be used to support the planning and design of additional contamination clean-up efforts in the South Port to maximize the redevelopment potential of the area. In the recent past, the City has developed a master plan for this area that includes several updates, yet no redevelopment has materialized. The ongoing United States Environmental Protection Agency Multipurpose Grant will clean up two contaminated sites that are prime for redevelopment; however, the grant funds will not be enough to fully complete the needed remediation. City staff are planning to apply for a \$2 million USEPA clean-up grant in FY25 that will primarily happen in FY26. An additional benefit to cleaning-up the South Port will be improved

accessibility to the south port levee trail. This project directly supports the implementation of the Imagine Dubuque Plan.

Iowa Amphitheater on Schmitt Island (page 224) - This project (\$5,784,961) provides for a match to the Destination Iowa grant that would construct the Iowa Amphitheater on Chaplain Schmitt Island in the location of the former dog kennels for the greyhounds. This project relates to the City Council top priority goal of Chaplain Schmitt Island Master Plan Implementation.

Incremental Development and Small Business Storefront Establishment Coaching (page 225) - This project (\$150,000) funds a hired consultant that will work directly with people primarily living in the Washington, North End, and Point neighborhoods. Over a 12-month period, the consultant will be tasked with training small developers, helping citizens establish a self-supporting ecosystem that strengthens their own neighborhoods, and helping local residents get the kind of development they want in their neighborhoods. The coaching format is facilitated through regular group gatherings of those going through the coaching process to build community along with offering one-on-one coaching and mentorship to help review project scopes, zoning code complexities, financing plans, business plans, and designs. For inexperienced small developers, it can be easy to get stuck when unanticipated challenges arise. The key to this program is that it breaks down the basics to give new small developers confidence, knowledge, and support to translate their idea into viable projects and to follow those projects through to completion. The consultant team will be comprised of experienced urban developers with the expertise of redeveloping complex, historic buildings, and neighborhood revitalization type projects.

14th Street Overpass (page 199) - This project (\$2,441,709) provides funding for the planning, design, and construction of a multimodal transportation corridor for proposed improvements to the Elm Street corridor, the 16th Street corridor, the Kerper Boulevard corridor, Chaplain Schmitt Island corridor, and the proposed 14th Street Railroad (vehicular and pedestrian) Overpass bridge project. This improvement will connect vulnerable neighborhoods and low-income residents with economic opportunities, recreational amenities and key community resources. The proposed project will also provide for the elimination of an existing at-grade rail crossing conflict on 14th Street and will provide for the planning and design of a proposed vehicular and pedestrian overpass bridge. Additionally, the project will focus on multimodal transportation corridors with “complete streets” and proposed roundabout intersections along the Elm Street and 16th Street corridors. Lastly, the project would include the design of an improved pedestrian/bike shared-use path along Kerper Boulevard and adjacent to the existing 16th Street Peosta Channel bridge to Chaplain Schmitt Island and strategically plan a roundabout at Captain Sheehy Drive on Chaplain Schmitt Island.

Small Business Grant Administration (page 259) - This project (\$60,000) provides \$5,000 grants to eligible business owners for eligible costs to support and expand their business. The Small Business Grant program began in 2019, which is related to the Low-to-Moderate-Income Small Business Grants Program. The City currently has a contract with the Fountain of Youth to administer the program.

Green Space HMD (page 262) - This project (\$300,000) funds green space in the area north of the Intermodal Parking Ramp and west of the Intermodal Center, per the Historic Millwork District Master Plan. These funds will support an initial step of removing the temporary parking lot and seeding the area. Further planning is needed to identify the exact use and design of this area (to be determined during an updating of the Master Plan through public engagement).

Central Avenue Housing Forgivable Loan (page 263) - This project (\$750,000) aims to accelerate the creation of affordable downtown housing options by creating a more flexible program for projects that propose the rehabilitation of more than one building and a minimum of 4 units. The City Council has prioritized the revitalization of the Central Avenue Corridor, and the Comprehensive Plan calls for encouraging multi-family development near jobs/walkable and mixed-use areas. The program is

currently proposed for use along the Central Avenue Corridor between 11th Street and 22nd Street. For this program, a unit could be considered eligible, even if recently occupied, if the project involves a substantial rehabilitation of the unit and buildings. The program provides a loan, forgivable at the 10-year mark, if the developer has maintained the terms of the agreement. Projects cannot discriminate based on the tenant's source of income.

Greater Downtown Housing Creation Grant Program (page 258) - This project (\$2,000,000) provides grants and loans for rehabilitation and adaptive reuse of buildings in the Greater Downtown Urban Renewal District. Tax increment proceeds are used to capitalize the pool of funds for these grants. The program provides grants of \$10,000 for each new housing unit created in the District. The program creates affordable, quality rental housing units for our workforce in areas well-served by public transit. All projects must commit to accepting all sources of income for otherwise eligible tenants. Potential projects identified at this time are: 1195 Central (14 units); 1700 Block of Central (34 units); 3000 Jackson (75 units); 799 Main (36 units); 801 Jackson (113 units). In addition, we typically receive requests for 5-6 smaller projects (10-20 units) annually. Providing housing incentives is a high priority of the City Council.

Washington Neighborhood Home Purchase Program (page 274) - This project (\$287,500) supports and encourages homeownership in the Washington Neighborhood. The program operates under the oversight of the Housing Trust Fund Committee and is capitalized by annual grants received from the Iowa Finance Authority (IFA). IFA requires a match for the program, and the City provides IFA Trust Match from the Greater Downtown TIF (GDTIF) funds. The primary purpose is to complement homebuyer programs by providing loans to low-to-moderate income homeowners and buyers in the Washington Neighborhood. Homebuyer loans are offered on a sliding scale. Households earning less than 30% of median income (MI) are eligible for \$25,000; less than 50% MI are eligible for \$20,000; less than 80% MI are eligible for \$15,000. All loans are 0% interest and have a monthly payment of \$60 per month until paid in full or it is no longer their principal place of residence. Homeowners are eligible for up to \$25,000 for the rehabilitation of their property. The new boundaries are 11th Street to 32nd Street and Elm Street to Central Avenue.

Downtown ADA Assistance (page 278) - This project (\$150,000) funds the City of Dubuque Downtown Urban Renewal District ADA Assistance Program. The program supports residents and businesses to ensure facilities in the Downtown Urban Renewal Area are fully accessible and inclusive to all persons regardless of abilities. This includes parking lots, retail and wholesale stores, restaurants, cafes, taverns, gas stations, public buildings, lodging, schools, parks, and entertainment venues. The program is designed to assist businesses with the cost of becoming ADA compliant. Qualified applicants can receive up to 50% of the cost of the project from the City of Dubuque, at a maximum amount of \$5,000 per property.

ADA Compliance and Facilities Management Consulting (page 255) - This project (\$100,000) is for consulting services related to ADA Compliance Phase II and further implementation of the City's ADA compliance application, called InVision Facilities Management. In Phase I, we were able to have the floor plans of 2 city buildings added to InVision Facilities Management, as well as buildings and pavilions located in parks. In the second phase, we will add additional building footprints and work with a consultant to fully implement the application and possibly tie it into GIS software. The funding for this phase is spread out over three years. This project is listed in the City Council's Goals & Priorities Management Agenda, under ADA Compliance Funding Phase II and InVision Facility Management Software Implementation.

North Cascade Housing TIF District

In FY 2014 the City created the first housing TIF district in the Timber Hyrst subdivision off of North Cascade Road. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income

residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area.

Assistance for Homeownership (page 272) - This project (\$526,239) provides for acquisition activities where the City may purchase abandoned, derelict buildings and houses; or it may purchase housing subject to mortgage foreclosure actions in order to secure City funds previously loaned as part of rehabilitation activities or other housing to accomplish the goals. Certain improvements will be made to the properties in order to make them marketable for resale. In this manner, neighborhood conditions are improved, dwellings are resold to responsible owners and City dollars are returned to the revolving fund.

English Ridge Housing TIF District

In FY 2015 the City created a housing TIF district in the English Ridge subdivision off of Stone Valley Drive. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area.

Assistance for Homeownership (page 272) - This project (\$1,382,267) provides for acquisition activities where the City may purchase abandoned, derelict buildings and houses; or it may purchase housing subject to mortgage foreclosure actions in order to secure City funds previously loaned as part of rehabilitation activities or other housing to accomplish the goals. Certain improvements will be made to the properties in order to make them marketable for resale. In this manner, neighborhood conditions are improved, dwellings are resold to responsible owners and City dollars are returned to the revolving fund.

South Pointe Housing TIF District

In FY 2017 the City created a housing TIF district in the South Pointe subdivision off of Highway 151 South. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area.

Assistance for Homeownership (page 272) - This project (\$1,751,473) provides for acquisition activities where the City may purchase abandoned, derelict buildings and houses; or it may purchase housing subject to mortgage foreclosure actions in order to secure City funds previously loaned as part of rehabilitation activities or other housing to accomplish the goals. Certain improvements will be made to the properties in order to make them marketable for resale. In this manner, neighborhood conditions are improved, dwellings are resold to responsible owners and City dollars are returned to the revolving fund.

Rustic Point Housing TIF District

In FY 2017 the City created a housing TIF district in the Rustic Point subdivision off of Derby Grange Road. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area.

Assistance for Homeownership (page 272) - This project (\$604,544) provides for acquisition activities where the City may purchase abandoned, derelict buildings and houses; or it may purchase housing subject to mortgage foreclosure actions in order to secure City funds previously loaned as part of rehabilitation activities or other housing to accomplish the goals. Certain improvements will be made to the properties in order to make them marketable for resale. In this manner, neighborhood conditions are improved, dwellings are resold to responsible owners and City dollars are returned to the revolving fund.

MISCELLANEOUS SOURCES

Private Participation (0.41% of Total CIP)

Private contributions represents the non-City share of the cost of several projects including private participation, fund raising, loans, grants and future resource allocation of City funds. Private participation funds included in the five year CIP include: Boyd Gaming contribution for the Port of Dubuque Ramp Maintenance (\$449,015); Street Lighting and Traffic Signal Knockdown insurance reimbursements (\$50,000); Dubuque County contribution for new public safety software (\$1,500,000); Canadian Pacific Kansas City Southern (CPKC) Railroad contribution for 14th Street Overpass project (\$1,000,000); and IDOT reimbursement for the Pavement Marking program (\$125,000).

Special Assessments (0.16% of Total CIP)

Special Assessments represent that portion of street and sanitary sewer improvement projects anticipated to be assessed to benefiting property owners. The \$580,000 amount breaks down: (a) \$370,000 for sanitary sewer special assessments, and (b) \$210,000 for sidewalk lien special assessments.

Cable TV (0.01% of Total CIP)

It is anticipated that Cable TV funds will be used in the five-year CIP of \$26,240 for computer replacements.

1. Budget number does not include Traffic Signalization Maintenance, Fiber Optic Improvements, Sidewalk, Trail, Retaining Wall, or Miscellaneous Improvements.

POLICY GUIDELINES

This page intentionally left blank.

CITY OF DUBUQUE

BUDGET & FISCAL POLICY GUIDELINES

FISCAL YEAR 2025

Operating Budget Guidelines

The Policy Guidelines are developed and adopted by City Council during the budgeting process to provide targets or parameters within which the budget recommendation will be formulated, in the context of the City Council Goals and Priorities established in August 2023. The final budget presented by the City Manager may not meet all these targets due to changing conditions and updated information during budget preparation. To the extent the recommended budget varies from the guidelines, an explanation will be provided in the printed budget document. By State law, the budget that begins July 1, 2024 must be adopted by April 30, 2024. Though House File 718 extended the budget certification date to April 30, Iowa Code chapter 76, relating to the imposition of debt service tax levies, has not been amended. Since the City of Dubuque has a debt service levy, it must adopt and file the budget with the county before April 15 to be effective for the fiscal year beginning July 1 of the same year. If filed April 15 or after, the taxes will not be imposed until the next successive fiscal year.

A. RESIDENT PARTICIPATION

GUIDELINE

To encourage resident participation in the budget process, City Council will hold seven special meetings in addition to the budget public hearing for the purpose of reviewing the budget recommendations for each City department and requesting public input following each departmental review.

The budget will be prepared in such a way as to maximize its understanding by residents. Copies of the recommended budget documents will be accessed via the following:

- a. The City Clerk's office, located in City Hall (printed)
- b. The government documents section at the Carnegie Stout Public Library (printed)
- c. On the City's website at www.cityofdubuque.org/budget (digital)

Opportunities are provided for resident input prior to formulation of the City Manager's recommended budget and will be provided again prior to final Council adoption, both at City Council budget special meetings and at the required budget public hearing.

Timeline of Public Input Opportunities

The Budget Office conducted community outreach using print and digital marketing and presentations.

- **September:** Budget Staff presented at City Life
- **November:** The City Manager hosted an evening public budget input meeting. Participants could attend in person at the City Council Chambers.

Open Budget

dollarsandcents.cityofdubuque.org

During Fiscal Year 2016, the City launched a web based open data platform. The City of Dubuque's Open Budget application provides an opportunity for the public to explore and visually interact with Dubuque's operating and capital budgets. This application is in support of the five-year organizational goal of a financially responsible city government and high-performance organization and allows users with and without budget data experience, to better understand expenditures in these categories.

During Fiscal Year 2017, an additional module was added to the open data platform which included an interactive checkbook which will allow residents to view the City's payments to vendors. The final step will be adding performance measures to the open data platform to allow residents to view outcomes of the services provided by the City.

Balancing Act

During Fiscal Year 2019, the City of Dubuque launched a new interactive budget simulation tool called Balancing Act. The online simulation invites community members to learn about the City's budget process and submit their own version of a balanced budget under the same constraints faced by City Council, respond to high-priority budget input questions, and leave comments.

Taxpayer Receipt

During Fiscal Year 2019, the City launched an online application which allows users to generate an estimate of how their tax dollars are spent. The tool uses data inputted by the user such as income, age, taxable value of home, and percentage of goods purchased within City limits. The resulting customized receipt demonstrates an estimate of how much in City taxes the user contributes to Police, Fire, Library, Parks, and other city services. This tool is in support of the City Council goal of a financially responsible and high-performance organization and addresses a Council-identified outcome of providing opportunities for residents to engage in City governance and enhance transparency of City decision-making.

B. SERVICE OBJECTIVES AND SERVICE LEVELS

GUIDELINE

The budget will identify specific objectives to be accomplished during the budget year, July 1 through June 30, for each activity of the City government. The objectives serve as a commitment to the citizens from the City Council and City organization and identify the level of service which the citizen can anticipate.

C. TWO TYPES OF BUDGET DOCUMENTS TO BE PREPARED

GUIDELINE

Two types of budget documents will be prepared for public dissemination. The recommended City operating budget for Fiscal Year 2025 will consist of a Recommended City Council Policy Budget that is a collection of information that has been prepared for department hearings and a Residents Guide to the Recommended FY 2025 Budget. These documents will be available in mid-March.

1. **Recommended City Council Policy Budget** The purpose of this documents is to focus attention on policy decisions involving what services the City government will provide, who will pay for them, and the implications of such decisions. The document will emphasize objectives, accomplishments and associated costs for the budget being recommended by the City Manager.

The Recommended City Council Policy Budget will include the following information for each department:

- Highlights of prior year's accomplishments and Future Year's Initiatives
- A financial summary
- A summary of improvement packages requested and recommended
- significant line items
- Capital improvement projects in the current year and those recommended over the next five years
- Organizational chart for larger departments and major goals, objectives and performance measures for each cost center within that department
- Line item expense and revenue financial summaries.

2. The Residents Guide This section of the Recommended FY 2025 Budget will be a supplementary composite of tables, financial summaries and explanations. It will include the operating and capital budget transmittal messages and the adopted City Council Budget Policy

Guidelines. Through graphs, charts and tables it presents financial summaries which provide an overview of the total operating and capital budgets.

D. ADOPT A BALANCED BUDGET

GUIDELINE

The City will adopt a balanced budget in which expenditures will not be allowed to exceed reasonable estimated resources. The City will pay for all current expenditures with current revenues

E. BALANCE BETWEEN SERVICES AND TAX BURDEN

GUIDELINE

The budget should reflect a balance between services provided and the burden of paying taxes and/or fees for those services. It is not possible or desirable for the City to provide all the services requested by individual residents. The City must consider the ability of residents to pay for services in setting service levels and priorities.

F. MAINTENANCE EXISTING LEVEL OF SERVICE

GUIDELINE

To the extent possible with the financial resources available, the City should attempt to maintain the existing level of services. As often as reasonably possible, each service should be tested against the following questions:

- a. Is this service truly necessary?
- b. Should the City provide it?
- c. What level of service should be provided?
- d. Is there a better, less costly way to provide it?
- e. What is its priority compared to other services?
- f. What is the level of demand for the service?
- g. Should this service be supported by property tax, user fees, or a combination?

G. IMPROVE PRODUCTIVITY

GUIDELINE

Continue efforts to stretch the value of each tax dollar and maximize the level of City services purchased with tax dollars through continual improvements in efficiency and effectiveness. Developing innovative and imaginative approaches for old tasks, reducing duplication of service effort, creative application of new technologies, and more effective organizational arrangements are approaches to this challenge.

H. USE OF VOLUNTEERS

DISCUSSION

To respect residents who must pay taxes, the City must seek to expand resources and supplement service-delivery capacity by continuing to increase direct resident involvement with service delivery. Residents are encouraged to assume tasks previously performed or provided by City government. This may require the City to

change and expand the approach to service delivery by providing organizational skills and training and coordinating staff, office space, meeting space, equipment, supplies and materials rather than directly providing more expensive full-time City staff. Activities in which residents can continue to take an active role include: Airport, Arts & Cultural Affairs, Engineering, Library, Recreation, Parks, Public Works, Five Flags Center, and Police.

GUIDELINE

Future maintenance of City service levels may depend partially or largely on volunteer resident staffs. Efforts shall continue to identify and implement areas of City government where (a) volunteers can be utilized to supplement City employees to maintain service levels (i.e., Airport, Arts & Cultural Affairs, Engineering, Library, Recreation, Parks, Public Works, Five Flags Center, and Police) or (b) service delivery can be adopted by to non-government groups and sponsors -- usually with some corresponding financial support.

I. RESTRICTIONS ON INITIATING NEW SERVICE**GUIDELINE**

New service shall only be considered: (a) when additional revenue or offsetting reduction in expenditures is proposed; or (b) when mandated by state or federal law.

J. SALARY INCREASES OVER THE AMOUNT BUDGETED SHALL BE FINANCED FROM BUDGET REDUCTIONS IN THE DEPARTMENT(S) OF THE BENEFITING EMPLOYEES**DISCUSSION**

The recommended budget includes salary amounts for all City employees. However, experience shows that budgeted amounts are often exceeded by fact finder and/or arbitrator awards. Such "neutrals" do not consider the overall financial capabilities and needs of the community and the fact that the budget is carefully balanced and fragile. Such awards have caused overdrawn budgets, deferral of necessary budgeted expenditures, expenditure of working balances and reserves, and have generally reduced the financial condition or health of the City government. To protect the financial integrity of the City government, it is recommended the cost of any salary adjustment over the amount financed in the budget is paid for by reductions in the budget of the department(s) of the benefiting employees.

The City has five collective bargaining agreements. The current contracts expire as follows:

Bargaining Unit	Contract Expires
Teamsters Local Union No. 120	June 30, 2025
Teamsters Local Union No. 120 Bus Operators	June 30, 2025
Dubuque Professional Firefighters Association	June 30, 2024
Dubuque Police Protective Association	June 30, 2024
International Union of Operating Engineers	June 30, 2024

GUIDELINE

Salary increases over the amount budgeted for salaries shall be financed from operating budget reductions in the department(s) of the benefiting employees.

K. THE AFFORDABLE CARE ACT**GUIDELINE**

The Affordable Care Act is a health care law that aims to improve the current health care system by increasing access to health coverage for Americans and introducing new protections for people who have health insurance. The Affordable Care Act (ACA) was signed into law on March 23, 2010. Under the ACA, employers with more than 50 full-time equivalent employees must provide affordable "minimum essential coverage" to full-time equivalent employees. The definition of a full-time equivalent employee under the Affordable Care Act is any employee that works 30 hours per week or more on average over a twelve-month period (1,660 hours or more). There is a twelve-month monitoring period for part-time employees. If a part-time employee meets or exceeds 30 hours per week on average during that twelve-month period, the City must provide health insurance. On July 2, 2013, the Treasury Department announced that it postponed the employer shared responsibility mandate for one year. Based on the initial requirements of the Affordable

Health Care Act, the Fiscal Year 2014 budget provided for insurance coverage effective February 1, 2014 for several part-time employees. In addition, the Fiscal Year 2014 budget provided for making several part-time positions full-time on June 1, 2014. Due to the delay of the employer shared responsibility mandate for the Affordable Health Care Act, the City delayed providing insurance coverage for eligible part-time employees and delayed making eligible part-time positions full-time until January 1, 2015. The Standard Measurement Period was delayed from January 1, 2013 through December 31, 2013 to December 1, 2013 through November 30, 2014 with the first provision of health insurance date being January 1, 2015.

The impact of the Affordable Care Act on the City of Dubuque included changing nine part-time positions to full-time (Bus Operators (4), Police Clerk Typist (1), Building Services Custodians (3), and Finance Cashier (1) in Fiscal Year 2016. In addition, nine part-time positions were offered health insurance benefits due to working more than 1,560 hours (Bus Operators (4), Golf Professional, Assistant Golf Professional, Golf Maintenance Worker, Parks Maintenance Worker, and Water Meter Service Worker).

The number of these part-time positions with health insurance benefits has been reduced as employees in these positions accept other positions or leave employment with the City of Dubuque. As of February 28, 2024, there is one part-time position with health insurance benefits that remains which includes the Golf Professional.

L. BALANCE BETWEEN CAPITAL AND OPERATING EXPENSES

GUIDELINE

The provision of City services in the most economical and effective manner requires a balance between capital (with emphasis upon replacement of equipment and capital projects involving maintenance and reconstruction) and operating expenditures. This balance should be reflected in the budget each year.

M. USER CHARGES

DISCUSSION

User charges or fees represent a significant portion of the income generated to support the operating budget. It is the policy that user charges or fees be established when possible so those who benefit from a service or activity also help pay for it. Municipal utility funds have been established for certain activities, which are intended to be self-supporting Enterprise Funds. Examples of utility funds operating as Enterprise Funds include Water User Fund, Sewer User Fund, Stormwater User Fund, Refuse Collection Fund, and Parking Fund. In other cases, a user charge is established after the City Council determines the extent to which an activity must be self-supporting. Examples of this arrangement are fees for swimming, golf, recreation programs, and certain inspection programs such as rental inspections and building permits.

The Stormwater User Fund is fully funded by stormwater use fees. The General Fund will continue to provide funding for the stormwater fee subsidies which provide a 50% subsidy for the stormwater fee charged to property tax exempt properties and low-to-moderate income residents and a 75% subsidy for residential farms. The General Fund will also continue to provide funding for the refuse, water, and sanitary sewer fee subsidies which provide a 50% subsidy for the fees charged to low-to-moderate income residents.

GUIDELINE

User fees and charges should be established where possible so that those who utilize or directly benefit from a service, activity or facility also help pay for it.

User fees and charges for each utility enterprise fund (Water User Fund, Sewer User Fund, Stormwater User Fund, Refuse Collection Fund, and Parking Fund) shall be set at a level that fully supports the total direct and indirect cost of the activity, including the cost of annual depreciation of capital assets, the administrative overhead to support the system and financing for future capital improvement projects.

Activity	Percent Self-Supporting			
	FY 2022	FY 2023	FY 2024	FY 2025
Adult Athletics	68.8%	70.7%	53.3%	61.1%
McAleece Concessions	119.6%	118.7%	116.4%	119.3%
Youth Sports	20.2%	13.3%	15.2%	15.4%
Therapeutic & After School	76.0%	80.2%	22.2%	18.2%
Recreation Classes	76.0%	65.2%	50.1%	50.8%
Swimming	36.9%	43.6%	41.5%	44.6%
Golf	112.5%	108.2%	102.7%	98.4%
Port of Dubuque Marina	89.4%	86.4%	65.3%	79.6%
Park Division	21.3%	16.8%	15.0%	14.8%
Library	1.4%	1.2%	1.3%	1.0%
Airport	101.1%	100.0%	93.5%	95.5%
Building Inspections	156.6%	124.4%	100.5%	96.9%
Planning Services	53.7%	50.5%	60.8%	71.2%
Health Food/ Environmental Inspections	71.8%	63.3%	39.4%	37.0%
Animal Control	69.8%	68.3%	56.7%	53.9%
Housing - General	71.0%	69.5%	93.9%	108.4%
Federal Building	70.5%	69.8%	58.9%	67.5%

N. ADMINISTRATIVE OVERHEAD RECHARGES

DISCUSSION

While the Enterprise Funds have contributed to administrative overhead, the majority has been provided by the General Fund. This is not reasonable and unduly impacts property taxes, which causes a subsidy to the Enterprise Funds. Prior to FY 2013, the administrative overhead was charged by computing the operating expense budget for each enterprise fund and dividing the result by the total City-wide operating expense budget which resulted in the following percentages of administrative overhead charged to each enterprise fund: Water 5.32%; Sanitary Sewer 4.84%; Stormwater 0.55%; Solid Waste 2.83%; Parking 1.71%; and Landfill 2.71%. The adopted Fiscal Year 2013 budget changed the administrative overhead to be more evenly split between the general fund and enterprise funds and is phased in over many years.

The Fiscal Year 2018 administrative overhead formula was recommended modified. The modification removed Neighborhood Development, Economic Development and Workforce Development from all recharges to utility funds. In addition, the Landfill calculation is modified to remove GIS and Planning.

In Fiscal Year 2025, the general fund is recommended to support \$8,925,598 in administrative overhead using the recharge method adopted in Fiscal Year 2013 and revised in Fiscal Year 2018.

GUIDELINE

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Planning, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

When the overhead recharges are fully implemented, the split of the cost of administrative overhead excluding Engineering will be as follows:

The implementation percent of the administrative overhead recharges in Fiscal Year 2024 as compared to Fiscal Year 2025 is as follows:

O. OUTSIDE FUNDING

DISCUSSION

The purpose of this guideline is to establish the policy that the City should aggressively pursue outside funding to assist in financing its operating and capital budgets.

However, the long-term commitments required for such funding must be carefully evaluated before any agreements are made. Commitments to assume an ongoing increased level of service or level of funding once the outside funding ends must be minimized.

GUIDELINE

To minimize the property tax burden, the City of Dubuque will make every effort to obtain federal, state and private funding to assist in financing its operating and capital budgets. However, commitments to guarantee a level of service or level of funding after the outside funding ends shall be minimized. Also, any matching funds required for capital grants will be identified.

P. GENERAL FUND OPERATING RESERVE (WORKING BALANCE)

DISCUSSION

An operating reserve or working balance is an amount of cash, which must be carried into a fiscal year to pay operating costs until tax money, or other anticipated revenue comes in. Without a working balance, there would not be sufficient cash in the fund to meet its obligations and money would have to be borrowed. Working balances are not available for funding a budget; they are required for cash flow (i.e., to be able to pay bills before taxes are collected). Moody's Investor Service recommends a factor of 30 percent for "AA" rated cities.

In July 2023, Moody's Investor Service upgraded the City's outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1. Notable credit factors include strong financial operations and ample revenue-raising flexibility, which has resulted in steadily improved available fund balance and cash. The City serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years.

In November of 2022, Moody's Investors Service ("Moody's") released a new rating methodology for cities and counties. Two significant changes result from the new methodology; cities are now assigned an issuer rating meant to convey the creditworthiness of the issuer as a whole without regard to a specific borrowing, and business-type enterprise funds are now being considered together with general fund revenues and balances in the determination of financial performance.

Under the new methodology, there are two metrics that contribute to financial performance. Available Fund Balance Ratio ("AFBR") = (Available Fund Balance + Net Current Assets/Revenue) and Liquidity Ratio ("LR") = (Unrestricted Cash/Revenue). For Aa credits, AFBR ranges from 25-35, and LR ranges from 30-40%.

The City was evaluated by Moody's under the old methodology in May of 2022 in connection to its annual issuance of bonds. At that time, Moody's calculated the City's AFBR to be 45.2%, and its LR to be 59.8%. The balances used in these calculations were likely elevated due to unspent ARPA funds. The change in methodology will now consider revenues and net assets from business-type activities in these calculations. As such, the City's general obligation rating will now be directly impacted by the financial performance of enterprise funds. Establishing rates and charges adequate to provide both debt service coverage and significant liquidity will be necessary to maintain the City's ratings.

In May 2021, Moody's Investor Service upgraded the City's Water Enterprise's outstanding revenue bonds from A1 to A2 and affirmed the Aa3 credit rating on general obligation bonds. Notable credit factors include a sizable tax base, a wealth and income profile that is slightly below similarly rated peers, and increased financial position that will decline in fiscal years 2021 and 2022 and somewhat elevated debt and pension liabilities.

These credit ratings are affirmation of the sound fiscal management of the mayor and city council, put Dubuque in a strong position to capitalize on favorable financial markets, borrow at low interest rate when necessary, and make critical investments in the community.

Fiscal Year	Fund Reserve (As % of General Fund revenues)	New Moody's Calculation	Reason for change from previous FY
FY 2014	14.87%		
FY 2015	14.87%		Unchanged
FY 2016	17.52%		Increase due to capital projects not expended before the end of the FY and increase in general
FY 2017	20.09%		Increase due to capital projects not expended before the end of the FY and additional contributions to general fund reserve
FY 2018	23.81%		Increase due to capital projects not expended before the end of the FY and additional contributions to general fund reserve
FY 2019	29.06%		Increase due to capital projects not expended before the end of the FY.
FY 2020	31.24%		Increase due to freezing vacant positions and most capital projects due to the pandemic.
FY 2021	40.72%		Increase due to American Rescue Plan Act funds received (\$13.2 million), frozen positions and capital projects through Feb 2021.
FY 2022	49.16%	45.09 %	Increase due to American Rescue Plan Act funds not spent (\$13.2 million), capital projects not expended before the end of the FY, and vacant
FY 2023	50.18%	45.25 %	Increase due to American Rescue Plan Act funds not spent (\$13.2 million), capital projects not expended before the end of the FY, and vacant

The City of Dubuque has historically adopted a general fund reserve policy as part of the Fiscal and Budget Policy Guidelines which are adopted each year as part of the budget process. During Fiscal Year 2013, the City adopted a formal Fund Reserve Policy. Per the policy for the General Fund, the City will maintain a minimum fund balance of at least 20 percent of the sum of (a) annual operating expenditures not including interfund transfers in the General Fund less (b) the amounts levied in the Trust and Agency fund and the Tort Liability Fund ("Net General Fund Operating Cost"). The City may increase the minimum fund balance by a portion of any operating surplus above the carryover balance of \$200,000 that remains in the General Fund at the close of each fiscal year. The City continued to add to the General Fund minimum balance when additional funds were available until 20 percent of Net General Fund Operating Cost was reached in Fiscal Year 2017. **During Fiscal Year 2024, the General Fund minimum balance was increased to 25 percent.**

After all planned expenditures in FY 2024, the City of Dubuque will have a general fund reserve of 41.97% of general fund revenues as a percent of general fund revenues computed by the accrual basis or 40.21% of general fund, debt service, and enterprise fund revenues as computed by the accrual basis methodology now used by Moody's Investors Service. The general fund reserve cash balance is projected to be \$19,981,754 on June 30, 2024 as compared to the general fund reserve balance on an accrual basis of \$29,659,518. The general fund reserve balance on an accrual basis exceeds 27% in FY 2024, which is the margin of error used to ensure the City always has a general fund reserve of at least 25% as computed by Moody's Investors Service.

GUIDELINE

The guideline of the City of Dubuque is to maintain a General Fund working balance or operating reserve of 25% (27% to maintain a margin of error of 2%) in FY 2025 and beyond. In Fiscal Year 2017, the City had projected reaching this consistent and sustainable 20% reserve level in Fiscal Year 2023. **In fact, the City met the 20% reserve requirement in FY 2017, five years ahead of schedule and has sustained a greater than 20% reserve.**

General Fund Reserve Projections:

Fiscal Year	Contribution	City's Spendable General Fund Cash Reserve	% of Projected Revenue	Moody's New Methodology
FY2017	\$600,000	\$14,172,661	20.09 %	
FY2018	\$1,700,000	\$16,460,491	23.81 %	
FY2019	\$1,050,000	\$20,945,090	29.06 %	
FY2020	\$	\$21,744,160	31.24 %	
FY2021	\$	\$31,089,468	40.72 %	
FY2022	\$	\$41,259,518	49.16 %	45.09 %
FY2023	\$	\$35,459,518	50.18 %	45.25 %
FY2024	\$	\$29,659,518	41.97 %	40.21 %
FY2025	\$	\$23,859,518	33.76 %	35.17 %
FY2026	\$	\$18,059,518	25.56 %	30.14 %
FY2027	\$	\$18,059,518	25.56 %	30.14 %
FY2028	\$	\$18,059,518	25.56 %	30.14 %
FY2029	\$	\$18,059,518	25.56 %	30.14 %

* Capital projects and large equipment purchases that are not completed in the year budgeted will temporarily increase the amount of fund balance remaining at the end of the fiscal year. After resources are allocated to the next fiscal year to complete unfinished capital projects and equipment purchases, **any amount of general fund reserve balance over 27% creates resources for additional capital projects or other mid-year expenses.**

Q. USE OF UNANTICIPATED, UNOBLIGATED, NONRECURRING INCOME

DISCUSSION

Occasionally, the City receives income that was not anticipated and was not budgeted. Often, this money is non-recurring and reflects a one-time occurrence which generated the unanticipated increase in income.

Non-recurring income generally will not be spent on recurring expenses. This would result in a funding shortfall in the following budget year before even starting budget preparation. However, eligible non-recurring expenditures would include capital improvements and equipment purchases.

GUIDELINE

Nonrecurring unobligated income shall generally only be spent for nonrecurring expenses. Capital improvement projects and major equipment purchases tend to be nonrecurring expenditures.

R. USE OF "UNENCUMBERED FUND BALANCES"

DISCUSSION

Historically, 100% of a budget is not spent by the end of the fiscal year and a small unencumbered balance remains on June 30th. In addition, income sometimes exceeds revenue estimates or there are cost savings resulting in some unanticipated balances at the end of the year. These amounts of unobligated, year-end balances are "carried over" into the new fiscal year to help finance it.

The FY 2024 General Fund budget, which went into effect July 1, 2023, anticipated a "carryover balance" of \$200,000 or approximately 2 percent of the General Fund. For multi-year budget planning purposes, these guidelines assume a carryover balance of \$200,000 in FY 2025 through FY 2029.

GUIDELINE

Carryover General Fund balance shall generally be used to help finance the next fiscal year budget and reduce the demand for increased taxation. The available carryover General Fund balance shall be anticipated not to exceed \$200,000 for FY 2024 and beyond through the budget planning period. Any amount over that shall usually be programmed in the next budget cycle as part of the capital improvement budgeting process.

T. PROPERTY TAX DISCUSSION

I. ASSUMPTIONS - RESOURCES

1. Local, Federal and State Resources

a. Cash Balance. Unencumbered funds or cash balances of \$200,000 will be available in FY 2025 and each succeeding year to support the operating budget.

b. Interest Revenue. Interest revenue increased from \$1,500,016 in FY 2024 to \$1,718,055 in FY 2025. The FY 2025 budget is based on Fiscal Year 2024 year-to-date annualized.

b. Sales Tax Revenue. By resolution, 50% of sales tax funds must be used in the General Fund for property tax relief in FY 2025. Sales tax receipts are projected to increase 3.18% (\$398,711) over FY 2024 budget and 3.00% over FY 2024 actual of \$12,550,987 based on FY 2024 revised revenue estimate, which included no reconciliation payments from the State of Iowa in this time period, and then an increase at an annual rate of 2.00% percent per year beginning in FY 2026. The following chart shows the past four years of actual sales tax funds and projected FY 2025 for the General Fund:

Sales Tax Funds	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025
PY Q4	\$ 380,549	\$ 419,551	\$ 475,037	\$ 451,920	\$ 465,478
Quarter 1	\$ 1,252,896	\$ 1,361,526	\$ 1,177,196	\$ 1,545,777	\$ 1,592,150
Quarter 2	\$ 1,274,904	\$ 1,425,968	\$ 1,522,885	\$ 1,596,422	\$ 1,644,314
Quarter 3	\$ 1,072,643	\$ 1,211,388	\$ 1,443,097	\$ 1,515,252	\$ 1,560,710
Quarter 4	\$ 839,102	\$ 950,069	\$ 1,110,593	\$ 1,166,123	\$ 1,201,107
Reconciliation	\$ 805,052	\$ 945,466	\$ 371,388	\$ —	\$ —
Total	\$ 5,625,146	\$ 6,313,968	\$ 6,100,196	\$ 6,275,494	\$ 6,463,759
% Change	+18.56%	+10.91%	-3.39%	+2.87%	+3.00%

c. Hotel/Motel Tax Revenue. Hotel/motel tax receipts are projected to increase 15.39% (\$450,387) over FY 2024 budget and 3.00% over FY 2024 re-estimated receipts of \$3,278,041.38, and then increase at an annual rate of 3.00% per year.

d. FTA Revenue. Federal Transportation Administration (FTA) transit operating assistance decreased from \$570,300 in FY 2024 to \$558,000 in FY 2025. The FY 2025 budget is based on the revised FY 2024 budget received from the FTA. Federal operating assistance is based on a comparison of larger cities. Previously the allocation was based on population and population density.

e. Ambulance Revenue. Ambulance Ground Emergency Medical Transport Payments increased from \$2,324,377 in FY 2024 to \$2,401,917 in FY 2025. GEMT is a federally-funded supplement to state Medicaid payments to EMS providers transporting Medicaid patients which began in FY 2023. Fiscal Year 2024 is based on the first four months of FY2023. Fiscal Year 2025 is projected using the 3-year average for both growth rate and actual cost per transport. The call volume projection of 1,256 for FY 2025 is based on a 5% increase from FY 2024 (1,194) based on year-to-date performance. The actual rate of reimbursement for Medicaid increased from \$1,596 in FY 2024 to \$1,911 in FY 2025 based on the pre-audited cost report for

FY 2023. This line item is offset by GEMT Pay to Other Agency expense for local match of \$800,631 resulting in net revenue of \$1,601,286.

Ambulance Fees increased from \$1,917,275 in FY 2024 (\$349 per call) to \$2,074,232 in FY 2025 (\$361 per call). FY 2023 actual was 1,717,551. In FY 2025, it is currently estimated that there will be 5,746 calls with \$361 per call average. The FY25 ambulance revenue projection is based on the FY24 actual transport volume of 1,795 for the first four months multiplied by 3 to equal 5,385. It is then multiplied by 6.7% to get the 5,746 projected Fiscal Year 2025 number. The 3-year average for the percentage of growth in transport volume (including the 9.6% for FY24) is 6.7% per year.

f. Miscellaneous Revenue. Miscellaneous revenue has been estimated at 2% growth per year over budgeted FY 2024.

g. Building Fee Revenue. Building fees (Building Permits, Electrical Permits, Mechanical Permits and Plumbing Permits) are anticipated to increase \$78,213 from \$853,817 in FY 2024 to \$932,030 in FY 2025.

h. DRA Revenue.

Gaming revenues generated from lease payments from the Dubuque Racing Association (DRA) are estimated to increase \$322,542 from \$7,083,037 in FY 2024 to \$7,405,579 in FY 2025 based on revised projections from the DRA. This follows a \$2,283,319 increase from budget in FY 2023 and a \$43,621 increase from budget in FY 2022.

The following is a ten-year history of DRA lease payments to the City of Dubuque:

Fiscal Year	DRA Lease	\$ Change	%
FY 2025 Projected	\$7,405,579	\$793,713	12.0%
FY 2024 Revised	\$6,611,866	-\$471,171	-6.7%
FY 2024 Budget	\$7,083,037	-\$108,438	-1.5%
FY 2023 Actual	\$7,191,475	\$583,944	8.8%
FY 2022 Actual	\$6,607,531	\$2,645,535	66.8%
FY 2021 Actual	\$3,961,996	-\$1,187,192	-23.1%
FY 2020 Actual	\$5,149,188	\$293,177	6.0%
FY 2019 Actual	\$4,856,011	\$18,879	0.4%
FY 2018 Actual	\$4,837,132	-\$195,083	-3.9%
FY 2017 Actual	\$5,032,215	-\$155,297	-3.0%
FY 2016 Actual	\$5,187,512	-\$158,104	-3.0%
FY 2015 Actual	\$5,345,616	-\$655,577	-10.9%
FY 2014 Actual	\$6,001,193	-\$819,090	-12.0%

The Diamond Jo payment related to the revised parking agreement increased from \$597,905 in FY 2024 to \$624,377 in 2025 based on estimated Consumer Price Index adjustment.

i. DRA Gaming.

The split of gaming revenues from taxes and the DRA lease (not distributions) in FY 2025 remains at a split of 100% operating and 0% capital. When practical in future years, additional revenues will be moved to the capital budget from the operating budget.

The following shows the annual split of gaming taxes and rents between operating and capital budgets from FY2020– FY2025:

j. Diamond Jo Revenue. The Diamond Jo Patio lease (\$25,000 in FY 2025) and the Diamond Jo parking privileges (\$624,377 in FY 2025) have not been included in the split with gaming revenues. This revenue is allocated to the operating budget.

2. Property Taxes

k. Residential Rollback. The residential rollback factor will decrease from 54.65% in 2024 to 46.34% or a (15.20)% decrease in FY 2025. The rollback has been estimated to remain the same from Fiscal Years 2026 through 2029.

The percent of growth from revaluation is to be the same for agricultural and residential property; therefore, if one of these classes has less than 3% growth for a year, the other class is limited to the same percent of growth. A balance is maintained between the two classes by ensuring that they increase from revaluation at the same rate. In FY 2025, agricultural property had less growth than residential property which caused the rollback factor to decrease.

Residential property was revalued by the City Assessor by neighborhood for the January 1, 2023 property assessments, which impacts the Fiscal Year 2025 budget. The average residential property value increased 23.20%. This revaluation of residential property resulted in the taxable value for the average homeowner calculation to increase from \$159,503 to \$196,508 (+23.20%).

The decrease in the residential rollback factor decreases the value that each residence is taxed on. This decreased taxable value for the average homeowner (\$87,169 taxable value in FY 2024 and \$91,067 taxable value in 2025) results in more taxes to be paid per \$1,000 of assessed value. In an effort to keep property taxes low to the average homeowner, the City calculates the property tax impact to the average residential property based on the residential rollback factor and property tax rate. In a year that the

residential rollback factor increases, the City recommends a lower property tax rate than what would be recommended had the rollback factor remained the same.

The residential rollback in Fiscal Year 1987 was 75.6481 percent as compared to 46.3428 percent in Fiscal Year 2025. The rollback percent had steadily decreased since FY 1987, which has resulted in less taxable value and an increase in the City's tax rate. However, that trend began reversing in FY 2009 when the rollback reached a low of 44.0803 percent. If the rollback had remained at 75.6481 percent in FY 2024, the City's tax rate would have been \$7.04 per \$1,000 of assessed value instead of \$9.90 in FY 2024.

I. State Equalization Order/Property Tax Reform. There was not an equalization order for commercial or industrial property in Fiscal Year 2025. The Iowa Department of Revenue is responsible for "equalizing" assessments every two years. Also, equalization occurs on an assessing jurisdiction basis, not on a statewide basis.

Commercial property was revalued by the City Assessor for the January 1, 2023 property assessments, which impacts the Fiscal Year 2025 budget. The average commercial property value increased 25%. This revaluation of commercial property resulted in the taxable value for the average commercial calculation to increase from \$432,475 to \$540,594 (+25%).

Commercial and Industrial taxpayers previously were taxed at 100 percent of assessed value; however due to legislative changes in FY 2013, a 95% rollback factor was applied in FY 2015 and a 90% rollback factor will be applied in FY 2016 and beyond. The State of Iowa backfilled the loss in property tax revenue from the rollback 100% in FY 2015 through FY 2017 and the backfill was capped at the FY 2017 level in FY 2018 and beyond. **The FY 2025 State backfill for property tax loss is estimated to be \$808,254 for all funds (General Fund, Tort Liability Fund, Trust and Agency Fund, Debt Service Fund, and Tax Increment Financing Funds).**

Senate File 619 was signed into law by Governor Reynolds on June 16, 2021. The Bill provides that beginning with the FY 2023 payment, the General Fund standing appropriation for commercial and industrial property tax replacement for cities and counties will be phased out in four or seven years, depending on how the tax base of the city or county grew relative to the rest of the state since FY 2014. Cities and counties where the tax base grew at a faster rate than the statewide average from FY 2014 through FY 2021 will have the backfill phased out over a four-year period from FY 2023 to FY 2026, while those that grew at a rate less than the statewide average will have the backfill phased out over a seven-year period from FY 2023 to FY 2029. The City of Dubuque's tax base grew at a rate less than the statewide average and will have a backfill phase out over a seven year period from FY 2023 to FY 2029. **Beginning in FY 2023, the backfill will be eliminated over a eight year period.**

The projected reduction of State backfill revenue to only the general fund is as follows:

Fiscal Year	State Backfill
2025	-\$113,840
2026	-\$113,840
2027	-\$113,840
2028	-\$113,840
2029	-\$113,840
Total	-\$569,200

Business Property Tax Credit Law Changes and Implementation of Two-Tier Assessment Limitations

From FY 2015 through FY 2023, commercial, industrial and railroad properties were eligible for a Business Property Tax Credit. The Business Property Tax Credit was deducted from the property taxes owed and the credit was funded by the State of Iowa. The average commercial and industrial properties (\$540,594 Commercial / \$632,952 Industrial) received a Business Property Tax Credit from the State of Iowa for the

City share of their property taxes of \$148 in FY 2015, \$693 in FY 2016, \$982 in FY 2017, \$959 in FY 2018, \$843 in FY 2019, \$861 in FY 2020, \$779 in FY 2021, \$780 in FY 2022, and \$722 in FY 2023.

House File 2552, Division 11 passed in the 2022 legislative session and signed by the Governor on May 2, 2022 repeals the Business Property Tax Credit (BPTC). In lieu of the BPTC, beginning with assessment year 2022, all commercial, industrial, and railroad properties will receive a property assessment limitation on the first \$150,000 of value of the property unit equal to the assessment limitation for residential property. The value of the property unit that exceeds \$150,000 receives the same ninety percent assessment limitation it has in the past.

The \$125 million fund will continue to be appropriated each year for reimbursements to counties. County auditors will file a claim for the first tier of the assessment limitations in September. Assessors will continue to provide the unit configuration for auditors as these definitions remained the same. Taxpayers are not required to file an application to receive the first \$150,000 of assessed value at the residential assessment limitation rate.

If the total for all claims is more than the appropriated amounts, the claims will be prorated and the Iowa Department of Revenue will notify the county auditors of prorated percentage by September 30th. Lawmakers believe the new standing general fund will exceed the projected level of claims for fiscal years 2024 through 2029. Then in fiscal year 2030, the local government reimbursement claims will begin being prorated.

The projected backfill for Dubuque for the two-tier assessment limitation in Fiscal Year 2025 is estimated to be \$576,898.

m. Multi-Residential Property Class/Eliminated State Shared Revenue.

Beginning in FY 2017 (July 1, 2016), new State legislation created a new property tax classification for rental properties called multi-residential, which requires a rollback, or assessment limitations order, on multi-residential property which will eventually equal the residential rollback. Multi-residential property includes apartments with 3 or more units. Rental properties of 2 units were already classified as residential property.

The State of Iowa did not backfill property tax loss from the rollback on multi-residential property. The rollback occurred as follows:

Fiscal Year	Rollback %	Annual Loss of Tax Revenue
FY 2017	86.25%	\$331,239
FY 2018	82.50%	\$472,127
FY 2019	78.75%	\$576,503
FY 2020	75.00%	\$691,640
FY 2021	71.25%	\$952,888
FY 2022	67.50%	\$752,366
FY 2023	63.75%	\$662,821
FY 2024	54.65%	\$1,186,077
Total		\$5,625,661

This annual loss in tax revenue of \$1,186,077 from multi-residential property was not backfilled by the State. From Fiscal Year 2017 through Fiscal Year 2024 the City lost \$5,625,661 in total, meaning landlords paid that much less in property taxes. The state did not require landlords to charge lower rents or to make additional investment in their property.

In Fiscal Year 2024, the multi-residential property class was eliminated and is reported with the residential property class going forward.

State Shared Revenue Eliminations

In addition, the State of Iowa eliminated the:

- a. Machinery and Equipment Tax Replacement in FY 2003 (-\$200,000)
- b. Personal Property Tax Replacement in FY 2004 (-\$350,000)
- c. Municipal Assistance in FY 2004 (-\$300,000)
- d. Liquor Sales Revenue in FY 2004 (-\$250,000)
- e. Bank Franchise Tax in FY 2005 (-\$145,000)
- f. Alcohol License Revenue in FY 2023 (-\$85,000)

The combination of the decreased residential rollback, State funding cuts and increased expenses has forced the City's tax rate to increase since 1987 when the residents passed a referendum to establish a one percent local option sales tax with 50% of the revenue going to property tax relief.

n. Taxable Value. FY 2025 will reflect the following impacts of taxable values of various property types:

Property Type	Percent Change in Taxable Value
Residential (Includes Multi-Residential)	+5.29 %
Commercial	+25.87 %
Industrial	+6.79 %
Overall	+5.71 %

*Overall taxable value increased 5.71% percent after deducting Tax Increment Financing values

Assessed valuations were increased 2 percent per year beyond FY 2025.

o. Riverfront Property Lease Revenue. Riverfront property lease revenue is projected to increase by \$212,448 in FY 2025 to \$4,110,287 due to the estimated consumer price index increase.

3. Fees, Tax Rates & Services

p. Franchise Fees. Natural Gas franchise fees have been projected to increase three percent over FY 2023 actual of \$1,921,498. Also, Electric franchise fees are based on FY 2023 Actual of \$1,921,498 plus 9.8% based on Alliant Energy's interim rate increase. The franchise fee revenues are projected to increase 4% from FY 2026 through FY 2029.

The City provides franchise fee rebates to gas and electric customers who are exempt from State of Iowa sales tax. Franchise fee rebates are provided at the same exemption percent as the State of Iowa sales tax exemption indicated on the individual gas and or electric bill. To receive a franchise fee rebate, a rebate request form must be completed by the customer, the gas and/or electric bill must be attached, and requests for rebates for franchise fees must be submitted during the fiscal year in which the franchise fees were paid except for June. Natural Gas franchise fee rebates have been projected to increase 29% over 2024 budget of \$78,500 and Electric franchise fee rebates have been projected to increase 45.24% over 2024 budget of \$581,855.

The franchise fee charged on gas and electric bills increased from 3% to 5%, the legal maximum, on June 1, 2015.

q. Property Tax Rate. For purposes of budget projections only, it is assumed that City property taxes will continue to increase at a rate necessary to meet additional requirements over resources beyond FY 2025.

r. Police & Fire Protection. FY 2025 reflects the thirteenth year that payment in lieu of taxes is charged to the Water and Sanitary Sewer funds for Police and Fire Protection. In FY 2025, the Sanitary Sewer fund is charged 0.43% of building value and the Water fund is charged 0.62% of building value, for payment in lieu of taxes for Police and Fire Protection. This revenue is reflected in the General Fund and is used for general property tax relief.

II. ASSUMPTIONS – REQUIREMENTS

a. Pension Systems.

- The **Municipal Fire and Police Retirement System of Iowa (MFPRSI)** Board of Trustees City contribution for Police and Fire retirement decreased from 22.98% percent in FY 2024 to 22.66% percent in FY 2025 (general fund savings of \$34,052 for Police and 29,219 for Fire or a total of \$63,271).
- The **Iowa Public Employee Retirement System (IPERS)** City contribution is unchanged from the FY 2024 contribution rate of 9.44% (no general fund impact). The IPERS employee contribution is unchanged from the FY 2024 contribution rate of 6.29% (which does not affect the City's portion of the budget). The IPERS rate is anticipated to increase 1 percent each succeeding year.

b. Collective Bargaining. The already approved collective bargaining agreements for Teamsters Local Union No. 120 Bus Operators and Teamsters Local Union No. 120 in FY 2025 include a 3.00% employee wage increase. A 5.00% wage increase is recommended for Dubuque Police Protective Association. The Dubuque Professional Fire Fighters Association and International Union of Operating Engineers are in contract negotiations. Non-represented employees include a 5.00% wage increase. Total cost of the estimated wage increase is \$1,942,693 to the General Fund.

c. Health Insurance. The City portion of health insurance expense is projected to remain unchanged from \$1,119 per month per contract to \$1,119 per month per contract (based on 651 contracts) in FY 2025 (no general fund impact). The City of Dubuque is self-insured, and actual expenses are paid each year with the City only having stop-loss coverage for major claims. In FY 2017, The City went out for bid for third party administrator and the estimated savings has resulted from the new contract and actual claims paid with there being actual reductions in cost in FY 2018 (19.42%) and FY 2019 (0.35%). In addition, firefighters began paying an increased employee health care premium sharing from 10% to 15% and there was a 7% increase in the premium on July 1, 2018. During FY 2019, the City went out for bid for third party administrator for the prescription drug plan and Fiscal Year 2022 included additional prescription drug plan savings. There was a decrease of \$639,758 in prescription drug cost in FY 2022. Based on FY 2024 actual experience, Fiscal Year 2025 is projected to have a 4.68% increase in health insurance costs. Estimates for FY 2026 were increased 4.69%; FY 2027 were increased 4.70%; FY 2028 were increased 4.71%; and FY 2029 were increased 4.72%. The City portion of health insurance expense is projected to increase 3% in FY 2026; 3% in FY 2027; 3% in FY2028; and 3% in FY 2029.

d. Five-Year Retiree Sick Leave Payout. FY 2013 was the first year that eligible retirees with at least twenty years of continuous service in a full-time position or employees who retired as a result of a disability and are eligible for pension payments from the pension system can receive payment of their sick leave balance with a maximum payment of 120 sick days, payable bi-weekly over a five-year period. The sick leave payout expense budget in the General Fund in FY 2024 was \$290,242 as compared to FY 2025 of \$283,061, based on qualifying employees officially giving notice of retirement.

e. 50% Sick Leave Payout. Effective July 1, 2019, employees over the sick leave cap can convert 50% of the sick leave over the cap to vacation or be paid out. The 50% sick leave payout expense budget in the General Fund in FY 2024 was \$119,167 as compared to FY 2025 of \$124,908, based on FY 2023 actual with an increase of 5%.

f. Parental Leave. Effective March 8, 2019, employees may use Parental leave to take paid time away from work for the birth or the adoption of a child under 18 years old. Eligible employees receive their regular base

pay (plus longevity) and benefits for twelve weeks following the date of birth, adoption event or foster-to-adopt placement. If both parents are eligible employees, each receive the leave benefit. There is no parental leave expense budgeted in the General Fund based on departments covering parental leave with existing employees and not incurring additional cost for temporary help.

g. Supplies & Services. General operating supplies and services are estimated to increase 2% over actual in FY 2023. A 2% increase is estimated in succeeding years.

h. Electricity. Electrical energy expense is estimated to increase 9.8% over FY 2023 actual expense based on the Alliant Energy interim rate increase, then 2% per year beyond.

i. Natural Gas. Natural gas expense is estimated to have no increase over FY 2023 actual then 2% per year beyond.

j. Travel Dubuque. The Dubuque Area Convention and Visitors Bureau contract will continue at 50% of actual hotel/motel tax receipts.

k. Equipment & Machinery. Equipment costs for FY 2025 are estimated to increase 30.89% over FY 2024 budget, then remain constant per year beyond.

l. Debt Service. Debt service is estimated based on the tax-supported, unabated General Obligation bond sale for fire truck and franchise fee litigation settlement.

m. Unemployment. Unemployment expense in the General Fund increased from \$27,653 in FY 2024 to \$33,922 in FY 2025 based on estimated premium for FY 2025.

n. Motor Vehicle Fuel. Motor vehicle fuel is estimated to decrease 9.33% under the FY 2024 budget, then increase 2.0% per year beyond.

o. Motor Vehicle Maintenance. Motor vehicle maintenance is estimated to increase 5% from the FY 2024 budget, then increase 2.0% per year and beyond.

p. Public Transit. The increase in property tax support for Transit from FY 2024 to FY 2025 is \$413,362, which reflects a decrease in Federal Transportation Administration Operating revenue (\$12,300); a decrease in Federal Transportation Administration Capital revenue (\$27,193), an increase in employee expense (\$104,098); increase in supplies and services (\$177,641); an increase in equipment replacements (\$49,262), a decrease in passenger fare revenue (\$50,415).

p. Public Transit (continued):

The following is a ten-year history of the Transit subsidy:

Fiscal Year	Amount	% Change
FY25 Projected	\$1,961,488	26.70 %
FY 2024 Budget	\$1,548,127	(1.52)%
FY 2023 Actual	\$1,571,981	(1.83)%
FY 2022 Actual	\$1,601,290	(2.09)%
FY 2021 Actual	\$1,635,441	4.94 %
FY 2020 Actual	\$1,558,460	(0.82)%
FY 2019 Actual	\$1,571,307	(0.10)%
FY 2018 Actual	\$1,572,825	34.10 %
FY 2017 Actual	\$1,172,885	24.41 %
FY 2016 Actual	\$942,752	(13.20)%
FY 2015 Actual	\$1,086,080	30.33 %
FY 2014 Actual	\$833,302	(20.19)%

q. Shipping & Postage. Postage rates for FY 2025 are based on FY 2023 actual expense. A 3.0 percent increase is estimated in succeeding years.

r. Insurance. Insurance costs are estimated to change as follows:

- Workers Compensation including Excess Workers Compensation for Police and Fire is increasing 16% based on the modification factor and actual payroll. As the City's payroll increases, it directly reflects the cost of workers' compensation coverage.
- General Liability is increasing 46.86% based on net city budget increase, total fleet size increase, public officials elected/full time and part time staff increase, significant increase in auto physical damage values, and increased receipts.
- Damage claims is decreasing 18% based on a three year average.
- Property insurance is increasing 47.96% based on a hard property insurance market.

s. Housing. The Housing Choice Voucher subsidy payment from the General Fund is estimated to decrease \$89,031 in FY 2025. The City of Dubuque is authorized to use up to 1,108 vouchers; however, the annual budget provided by the U.S. Department of Housing and Urban Development (HUD) only supports approximately 900 vouchers. The city is utilizing 880 vouchers as of October 2023. HUD has based the Section 8 administrative fees for FY 2025 on the number of vouchers held in FY 2024 which has increased the amount of administrative revenue received by the Section 8 program in FY 2025, however administrative expenses also increased.

t. Media Services Fund. The Media Services Fund no longer funds Police and Fire public education, Information Services, Health Services, Building Services, Legal Services, and City Manager's Office due to reduced revenues from the cable franchise. This is due to Mediacom's conversion from a Dubuque franchise to a state franchise in October 2009 which changed the timing and calculation of the franchise fee payments.

Effective June 2020, Mediacom will no longer contribute to the Public, Educational, and Governmental Access Cable Grant (PEG) Fund, and after the balance in that fund is expended, the City will be responsible for all City Media Service equipment replacement costs. Other jurisdictions will need to plan accordingly.

u. Greater Dubuque Development Corporation. Greater Dubuque Development Corporation support of \$836,135 is budgeted to be paid mostly from Dubuque Industrial Center Land Sales in FY 2025, with \$26,500 for True North strategy paid from the Greater Downtown TIF. In FY 2026 and beyond Greater

Dubuque Development Corporation will be paid from the Greater Downtown TIF and Dubuque Industrial Center West land sales.

PROPERTY TAX IMPACT

The recommended Fiscal Year 2025 property tax rate increased 1.90% and will have the following impact:

	FY 2025	FY 2024	% Change	\$ Change
Property Tax Rate	\$9.926375	\$9.901351	0.25%	\$0.03
Average Residential Payment	\$855.82	\$815.07	5.00%	\$40.75
Average Commercial Payment	\$4,179.49	\$3,328.86	25.55%	\$850.63
Average Industrial Property	\$5,004.59	\$4,817.26	3.89%	\$187.33

Historical Impact on Tax Askings and Average Residential Property Tax Rates

The following is a historical City tax rate comparison. The average percent change in tax rate from 1987–2025 is -0.94%. The average annual change over the last five years is -0.78%.

The following pages show historical and projected property tax impacts.

Historical Impacts on Tax Askings & Average Residential Property Tax Rates:

The following page shows historical City tax rates and % change in tax rate:

Fiscal Year	City Tax Rate	% Change in Tax Rate
FY 1987	14.5819	
FY 1988	13.9500	-4.33%
FY 1989	11.8007	-15.41%
FY 1990	11.6891	-0.95%
FY 1991	12.2660	+4.94%

FY 2029	"City" Property Tax	\$1,035.81	+4.55%	\$+45.12

* Denotes year of State-issued equalization orders.

^ Impact to average homeowner if the State funds the Homestead Property Tax Credit at 62%.

(1) The FY 2006 property tax calculation considers the 6.2% valuation increase for the average residential homeowner as determined by the reappraisal.

(2) Offsets the impact of the State reduced Homestead Property Tax Credit in FY 2005 & 2006.

(3) The City adopted a budget in FY 2011 and 2012 that provided no increase to the average homeowner. The State of Iowa underfunded the Homestead Property Tax Credit in both years costing the average homeowner an additional \$18.59 in FY 2012 and \$11.51 in FY 2013. This provided no additional revenues to the City, as this money would have come to the City from the State if they appropriated the proper amount of funds.

Homestead Property Tax Credit

The Homestead Property Tax Credit was established by the state legislature to reduce the amount of property tax collected. The intent of the credit was to be a form of tax relief and provide an incentive for home ownership. The State Homestead Property Tax Credit works by discounting the tax collected on the first \$4,850 of a property's taxable value. This has no impact on what the City receives from property tax collections, but provides tax relief for the average homeowner.

Beginning FY 2004, the State of Iowa did not fully fund the State Homestead Property Tax Credit resulting in the average homeowner paying the unfunded portion. Again, this has no impact on what the City receives, however as a result has caused the average homeowner to pay more taxes.

FY 2029	"City" Property Tax	\$3,889.43	\$0.00	+\$169.43	+4.55%

(1) The FY 2006 property tax calculation considers the 19.9% valuation increase for industrial property as determined by the reappraisal.

(2) The Business Property Tax Credit was \$148 and rollback to 95% in FY 2015.

(3) The Business Property Tax Credit was \$693 and rollback to 90% in FY 2016.

(4) The Business Property Tax Credit was \$982 and rollback to 90% in FY 2017.

(5) The Business Property Tax Credit was \$959 and rollback to 90% in FY 2018.

(6) The Business Property Tax Credit was \$843 and rollback to 90% in FY 2019.

(7) The Business Property Tax Credit was \$861 and rollback to 90% in FY 2020.

(8) The Business Property Tax Credit was \$779 and rollback to 90% in FY 2021.

(9) The Business Property Tax Credit was \$780 and rollback to 90% in FY 2022.

(10) The Business Property Tax Credit was \$722 and rollback to 90% in FY 2022.

(11) From FY 2015 through FY 2023, commercial, industrial and railroad properties were eligible for a Business Property Tax Credit. The Business Property Tax Credit was deducted from the property taxes owed and the credit was funded by the State of Iowa. Beginning in FY 2024, all commercial, industrial, and railroad properties will receive a property assessment limitation on the first \$150,000 of value of the property unit equal to the assessment limitation for residential property. The value of the property unit that exceeds \$150,000 receives the same ninety percent assessment limitation it has in the past. The \$125 million fund will continue to be appropriated each year for reimbursements to counties. County auditors will file a claim for the first tier of the assessment limitations in September. Assessors will continue to provide the unit configuration for auditors as these definitions remained the same. Taxpayers are not required to file an application to receive the first \$150,000 of assessed value at the residential assessment limitation rate. Lawmakers believe the new standing general fund will exceed the projected level of claims for fiscal years 2024 through 2029. Then in fiscal year 2030, the local government reimbursement claims will begin being prorated. The projected backfill for Dubuque for the two-tier assessment limitation in Fiscal Year 2024 is estimated to be \$587,446.

FY 2023	"City" Property Tax	\$4,521.00	\$721.73	\$-35.11	-0.77%
FY 2024	"City" Property Tax	\$4,817.26		\$+296.26	+6.55%
FY 1989-2024 Average Change				\$-59.94	-0.88%
2020-2024 Average Change				\$-10.53	-0.16%

*Net of Business Property Tax Credit

The average annual dollar change in industrial property taxes from 1989-2024 is a decrease of \$59.94. The average annual dollar change over the last five years is a decrease of \$10.53.

Projected impact on average industrial property:

PROJECTED		CITY TAX CALCULATION	BUSINESS PROPERTY TAX CREDIT (11)	DOLLAR CHANGE	PERCENT CHANGE
FY 2025	"City" Property Tax	\$5,004.59	\$0.00	+\$187.33	+3.89%
FY 2026	"City" Property Tax	\$4,940.95	\$0.00	-\$63.64	-1.27%
FY 2027	"City" Property Tax	\$5,187.55	\$0.00	+\$246.60	+4.99%
FY 2028	"City" Property Tax	\$5,447.29	\$0.00	+\$259.74	+5.01%
FY 2029	"City" Property Tax	\$5,695.39	\$0.00	+\$248.10	+4.55%

(1) The FY 2006 property tax calculation considers the 19.9% valuation increase for industrial property as determined by the reappraisal.

(2) The Business Property Tax Credit was \$148 and rollback to 95% in FY 2015.

(3) The Business Property Tax Credit was \$693 and rollback to 90% in FY 2016.

(4) The Business Property Tax Credit was \$982 and rollback to 90% in FY 2017.

(5) The Business Property Tax Credit was \$959 and rollback to 90% in FY 2018.

(6) The Business Property Tax Credit was \$843 and rollback to 90% in FY 2019.

(7) The Business Property Tax Credit was \$861 and rollback to 90% in FY 2020.

(8) The Business Property Tax Credit was \$779 and rollback to 90% in FY 2021.

(9) The Business Property Tax Credit was \$780 and rollback to 90% in FY 2022.

(10) The Business Property Tax Credit was \$722 and rollback to 90% in FY 2023.

(11) From FY 2015 through FY 2023, commercial, industrial and railroad properties were eligible for a Business Property Tax Credit. The Business Property Tax Credit was deducted from the property taxes owed and the credit was funded by the State of Iowa. Beginning in FY 2024, all commercial, industrial, and railroad properties will receive a property assessment limitation on the first \$150,000 of value of the property unit equal to the assessment limitation for residential property. The value of the property unit that exceeds \$150,000 receives the same ninety percent assessment limitation it has in the past. The \$125 million fund will continue to be appropriated each year for reimbursements to counties. County auditors will file a claim for the first tier of the assessment limitations in September. Assessors will continue to provide the unit configuration for auditors as these definitions remained the same. Taxpayers are not required to file an application to receive the first \$150,000 of assessed value at the residential assessment limitation rate. Lawmakers believe the new standing general fund will exceed the projected level of claims for fiscal years 2024 through 2029. Then in fiscal year 2030, the local government reimbursement claims will begin being prorated. The projected backfill for Dubuque for the two-tier assessment limitation in Fiscal Year 2024 is estimated to be \$587,446.

IMPACT ON MULTI-RESIDENTIAL PROPERTY - EXAMPLE

ACTUAL – HISTORICAL		CITY TAX CALCULATION	DOLLAR CHANGE	PERCENT CHANGE
FY 2015	"City" Property Tax	\$2,349.34		
FY 2016	"City" Property Tax	\$2,225.69	\$-123.65	-5.26%
FY 2017	"City" Property Tax	\$2,160.39	\$-65.30	-2.93%
FY 2018	"City" Property Tax	\$2,015.48	\$-144.91	-6.71%
FY 2019	"City" Property Tax	\$1,870.21	\$-145.27	-7.21%
FY 2020	"City" Property Tax	\$1,737.92	\$-132.29	-7.07%
FY 2021	"City" Property Tax	\$1,896.65	\$+158.73	+9.13%
FY 2022	"City" Property Tax	\$1,751.66	\$-144.99	-7.64%
FY 2023	"City" Property Tax	\$1,625.55	\$-126.11	-7.20%
FY 2024	"City" Property Tax	\$1,419.97	\$-205.58	-12.65%
Average FY 2016-FY 2024			\$-103.26	-5.28%

Beginning in FY 2017 (July 1, 2016), new State legislation created a new property tax classification for rental properties called multi-residential, which requires a rollback, or assessment limitations order, on multi-residential property which will eventually equal the residential rollback. Multi-residential property includes apartments with 3 or more units. Rental properties of 2 units were already classified as residential property.

The State of Iowa will not backfill property tax loss from the rollback on multi-residential property. The rollback will occur as follows:

Fiscal Year	Rollback %	Annual Loss of Tax Revenue
FY 2017	86.25%	\$331,239
FY 2018	82.50%	\$472,127
FY 2019	78.75%	\$576,503
FY 2020	75.00%	\$691,640
FY 2021	71.25%	\$952,888
FY 2022	67.50%	\$752,366
FY 2023	63.75%	\$662,821
FY 2024	54.65%	\$1,186,077
Total		\$5,625,661

This annual loss in tax revenue of \$1,186,077 from multi-residential property in FY 2024 and beyond will not be backfilled by the State. From Fiscal Year 2017 through Fiscal Year 2024 the City will lose \$5,625,661 in total, meaning landlords will have paid that much less in property taxes. The state did not require landlords to charge lower rents or to make additional investment in their property.

In Fiscal Year 2024, the multi-residential property class was eliminated and is reported with the residential property class.

HISTORY OF INCREASES IN PROPERTY TAX ASKINGS

Year	Tax Askings	% Change in Tax Askings	Impact on Homeowner**
FY 1989	\$10,918,759	-12.00%	-11.40%

Average FY 1989-2024		+2.61%	+0.85%

**Does not reflect State unfunded portion of Homestead Credit.

IMPACT ON TAX ASKINGS AND AVERAGE RESIDENTIAL PROPERTY

To maintain the current level of service based on the previous assumptions would require the following property tax asking increases:

Fiscal Year	"City" Property Tax Askings	% Change in Tax Askings	% Impact on Avg. Residential Property	\$ Impact on Avg. Residential Property
FY 2025	\$28,223,480	+6.01%	+2.94%	\$+23.25
FY 2026	\$30,412,815	+7.76%	+5.00%	\$+40.75
FY 2027	\$32,565,753	+7.08%	+5.00%	\$+42.78
FY 2028	\$34,877,739	+7.10%	+4.99%	\$+44.85
FY 2029	\$37,192,096	+6.64%	+5.01%	\$+47.24

GUIDELINE

The recommended guideline is a 5.00% or \$40.75 increase for the average residential property owner. A one percent increase in the tax rate will generate approximately \$280,987.

These guidelines include \$370,033 for recurring funded by property taxes and \$518,808 for non-recurring improvement packages funded by FY2025 DRA Distribution and sanitary sewer administrative overhead when applicable.

There are \$3,217,861 in general fund improvement package requests.

Iowa House File 718 passed during the 2023 legislative sessions, replaces previous changes made through Iowa Senate File 634 passed during the 2019 legislative sessions, makes changes to Iowa city and county budgets and taxes for Fiscal Year 2025 and later. Additional steps have been added to the budget approval process. The City of Dubuque is specifically impacted by the following steps of this new legislation:

1. Limits the General Fund levy by constraining growth by 2% or 3% each year, depending on the trigger hit:

Non-TIF taxable growth under 3%, no reduction

Non-TIF taxable growth over 3% but less than 6%, 2% reduction factor applied

Non-TIF taxable growth over 6%, 3% reduction factor is applied

The City of Dubuque Non-TIF taxable growth for FY2025 is 5.71%, the General Fund levy is constrained by a growth reduction factor of 2%. The General Fund levy for FY2025 is \$7.94118 instead of the maximum levy of \$8.10.

Although the City is restricted to \$7.94118 in the General Fund levy, the City has the flexibility to levy up to \$15.2 million or a levy rate of \$5.35681 in the Special Revenue Levies for employee benefits. In Fiscal Year 2024, the Special Revenue levy was \$0.91356 and totaled \$2.4 million. Any reduction in the General Fund levy can be shifted to the Special Revenue levies.

2. March 15: Cities must file a report with Iowa Department of Management containing information specified by new law to be contained in mailings.
3. March 20: County Auditor must send each property owner or taxpayer with the county by regular mail an individual statement with the specified information broken out by political subdivision comprising the taxpayer's district.

4. Taxpayer Statements must include:
 - Total Current Year Tax Rate and Dollars
 - Combined effective property tax rate for the city calculated using the sum of the current fiscal year's actual property tax certified for levy of all of city's levies
 - Proposed Budget Year Tax Rate and Dollars
 - If the Proposed Budget Property Tax Dollars exceed the current fiscal year's actual property tax dollars, a detailed statement of the major reasons for the increase, including the specific purposes or programs for which the city is proposing an increase
 - An example comparing the amount of property taxes on a residential property with an actual value of \$100,000 in the current fiscal year and such amount on the residential property using the proposed property tax dollars for the budget year, including the percentage difference in such amounts.
 - An example comparing the amount of property taxes on a commercial property with an actual value of \$100,000 in the current fiscal year and such amount on the commercial property using the proposed property tax dollars for the budget year, including the percentage difference in such amounts.
 - The city's percentage of total property taxes certified for levy in the owner's or taxpayer's taxing district in the current fiscal year amount all taxing authorities.
 - The date, time, and location of the city's public hearing on the information contained in the statements.
 - Information on how to access the city's internet site, the city's statements, and other budget documents for prior fiscal years.
5. Public hearing on proposed property tax amounts for the budget year and new taxpayer statements.
 - In addition to public hearing to adopt the budget.
 - Replaces maximum property tax dollars public hearing held in prior years.
 - Must be separate from any other meeting of City Council, including any other meeting or hearing related to the budget.
 - City Council can decrease, but not increase, the proposed property tax amount to be included in the budget.
6. Budget Certification deadline to Iowa Department of Management is April 30th instead of March 31st.
 - If City has a debt service levy, budget must be adopted by April 15th.

CAPITAL IMPROVEMENT BUDGET GUIDELINES

U. INTEGRATION OF CAPITAL RESOURCES

GUIDELINE

To obtain maximum utilization, coordination and impact of all capital improvement resources available to the City, state and federal block and categorical capital grants and funds shall be integrated into a comprehensive five-year Capital Improvement Program (CIP) for the City of Dubuque.

V. INTEGRITY OF CIP PROCESS

GUIDELINE

The City shall make all capital improvements in accordance with an adopted Capital Improvement Program (CIP). If conditions change and projects must be added and/or removed from the CIP, the changes require approval by the City Council.

W. RENOVATION AND MAINTENANCE

GUIDELINE

Capital improvement expenditures should concentrate on renovating and maintaining existing facilities to preserve prior community investment.

X. NEW CAPITAL FACILITIES

GUIDELINE

Construction of new or expanded facilities which would result in new or substantially increased operating costs will be considered only if:

- 1) their necessity has been clearly demonstrated
- 2) their operating cost estimates and plans for providing those operating costs have been developed
- 3) they can be financed in the long term; and
- 4) they can be coordinated and supported within the entire system.

Y. COOPERATIVE PROJECTS

GUIDELINE

Increased efforts should be undertaken to enter mutually beneficial cooperative capital improvement projects with the county, school district and private groups. Examples include cost-sharing to develop joint-use facilities and cost-sharing to improve roads and bridges are examples.

Z. USE OF GENERAL OBLIGATION BONDS

DISCUSSION

The Iowa Constitution limits the General Obligation debt of any city to 5% of the actual value of the taxable property within the city. The Iowa legislature has determined that the value for calculating the debt limit shall be the actual value of the taxable property prior to any "rollback" mandated by state statute.

On October 15, 2012, the City Council adopted a formal Debt Management Policy for the City of Dubuque. Prior to adoption of the formal policy, the City had already been practicing much of the policy, although the formal policy included some new additions. The most significant components of the Debt Management Policy include an internal policy of maintaining the City's general obligation outstanding debt at no more than

95% (except as a result of disasters) of the limit prescribed by the State constitution as of June 30th of each year. It is projected as of June 30, 2024 the City will be at 40.07%. City will not use short-term borrowing to finance operating needs except in the case of an extreme financial emergency which is beyond its control or reasonable ability to forecast. Currently there is no such debt, and none will be recommended in this process.

Bond Financing Stipulations

- Recognizing that bond issuance costs (bond counsel, bond rating, and financial management fees) add to the total interest costs of financing:
- Bond financing should not be used if the aggregate cost of projects to be financed by the bond issue is less than \$500,000
- City will consider long-term financing for the construction, acquisition, maintenance, replacement, or expansion of physical assets (including land) only if they have a useful life of at least six years
- City shall strive to repay 20 percent of the principal amount of its general obligation debt within five years and at least 40 percent within ten years.
- The City shall strive to repay 40 percent of the principal amount of its revenue debt within ten years.

Debt Service Payments

Total annual debt service payments on all outstanding debt of the City shall not exceed 20% of total annual receipts across all the City's funds. As of June 30, 2024, it is projected the City will be at 11.7%.

Internal Reserve

It shall be the goal of the City to establish an internal reserve equal to maximum annual debt service on future general obligation bonds issued that are to be abated by revenues and not paid from ad-valorem property taxes in the debt service fund. This shall begin with debt issued after July 1, 2013. This reserve shall be established by the fund or revenue source that expects to abate the levy, and shall be carried in said fund or revenue source on the balance sheet as a restricted reserve. This reserve is established where required by bond covenants. This internal reserve would be implemented by adding the cost of the reserve to each debt issuance.

In July 2023, Moody's Investor Service upgraded the City's outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1. Notable credit factors include strong financial operations and ample revenue-raising flexibility, which has resulted in steadily improved available fund balance and cash. The City serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years.

In November of 2022, Moody's Investors Service ("Moody's") released a new rating methodology for cities and counties. Two significant changes result from the new methodology; cities are now assigned an issuer rating meant to convey the creditworthiness of the issuer as a whole without regard to a specific borrowing, and business-type enterprise funds are now being considered together with general fund revenues and balances in the determination of financial performance.

Under the new methodology, there are two metrics that contribute to financial performance. Available Fund Balance Ratio ("AFBR") = (Available Fund Balance + Net Current Assets/Revenue) and Liquidity Ratio ("LR") = (Unrestricted Cash/Revenue). For Aa credits, AFBR ranges from 25-35, and LR ranges from 30-40%.

The City was evaluated by Moody's under the old methodology in May of 2022 in connection to its annual issuance of bonds. At that time, Moody's calculated the City's AFBR to be 45.2%, and its LR to be 59.8%. The balances used in these calculations were likely elevated due to unspent ARPA funds. The change in methodology will now consider revenues and net assets from business-type activities in these calculations. As such, the City's general obligation rating will now be directly impacted by the financial performance of enterprise funds. Establishing rates and charges adequate to provide both debt service coverage and significant liquidity will be necessary to maintain the City's ratings.

In May 2021, Moody's Investor Service upgraded the City's Water Enterprise's outstanding revenue bonds from A1 to A2 and affirmed the Aa3 credit rating on general obligation bonds. Notable credit factors include a sizable tax base, a wealth and income profile that is slightly below similarly rated peers, and increased financial position that will decline in fiscal years 2021 and 2022 and somewhat elevated debt and pension liabilities.

General Obligation Debt

Fiscal Year 2024 Debt

FY 2024 Debt Limit: The FY 2022 assessable value of the community for calculating the statutory debt limit is \$5,254,447,903, which at 5%, indicates a total General Obligation debt capacity of \$262,722,395.

Based on Outstanding G.O. debt (including tax increment debt, remaining payments on economic development TIF rebates, and general fund lease agreement) on June 30, 2024 will be \$105,280,288 (40.67% of the statutory debt limit) leaving an available debt capacity of \$155,884,878 (59.33%). In FY 2023 the City was at 36.48% of statutory debt limit, so 40.67% in FY 2024 is a 3.32% increase in use of the statutory debt limit.

It should be noted that most of the City of Dubuque's outstanding debt is not paid for with property taxes (except TIF), but is abated from other revenues. Exceptions include one issuance for the replacement of a Fire Pumper truck in the amount of \$1,410,000 with debt service of \$81,400 in FY 2024 and one issuance for the franchise fee litigation settlement in the amount of \$2,800,000 with debt service of \$140,000 in FY 2024. Included in the debt is \$6,104,789 of property tax rebates to businesses creating and retaining jobs and investing in their businesses.

Statutory Debt Limit

Fiscal Year	Statutory Debt Limit	Amount of Debt Subject to Statutory Debt Limit	% Debt Limit Used
2023	\$259,297,290	\$94,587,818	36.48%
2024	\$262,722,395	\$105,280,288	40.67%

FY24 Statutory Debt Limit Used (as of June 30th)

The City also has debt that is not subject to the statutory debt limit. This debt includes revenue bonds. Outstanding revenue bonds payable by water, sewer and stormwater fees on June 30, 2024 will have a balance of \$135,817,825. The total City indebtedness as of June 30, 2024, is projected to be \$257,000,705. The total City indebtedness as of June 30, 2023, was \$235,162,051. **In FY 2024, the City will have a projected \$21,838,654 or (0.18)% more in debt.** The City is using debt to accomplish necessary projects.

The following chart shows Dubuque's relative position pertaining to use of the statutory debt limit for Fiscal Year 2023 compared to the other cities in Iowa for Fiscal Year 2023 with a population over 50,000:

Fiscal Year 2023 Legal Debt Limit Comparison for Eleven Largest Iowa Cities

Rank	City	Legal Debt Limit (5%)	Statutory Debt Outstanding	Percentage of Legal Debt Limit Utilized
11	Des Moines	\$ 792,697,654	\$ 529,035,000	66.74 %
10	W. Des Moines	\$ 506,339,850	\$ 319,175,000	63.04 %
9	Cedar Rapids	\$ 652,295,825	\$ 366,140,000	56.13 %
8	Waterloo	\$ 216,437,019	\$ 115,999,161	53.59 %
7	Davenport	\$ 409,777,672	\$ 208,650,000	50.92 %
6	Sioux City	\$ 293,887,647	\$ 143,694,902	48.89 %
5	Dubuque (FY25)	\$ 321,926,120	\$ 112,190,028	34.85 %
4	Ankeny	\$ 395,854,796	\$ 104,450,000	26.39 %
3	Ames	\$ 275,808,881	\$ 65,175,000	23.63 %
2	Iowa City	\$ 362,419,812	\$ 63,795,000	17.60 %
1	Council Bluffs	\$ 321,835,908	\$ 50,776,645	15.78 %
	Average w/o Dubuque	\$ 422,735,506	\$ 196,689,071	42.27 %

Percent of Legal Debt Limit Utilized

Dubuque ranks as the fifth lowest of the use of statutory debt limit of the 11 cities in Iowa with a population over 50,000 and Dubuque is below the average of the other Cities.

FY24 Total Debt (In Millions)

By the end of the Fiscal Year 2024 5-Year Capital Improvement Program (CIP) budget the total amount of debt for the City of Dubuque would be \$236.8 million (35.65% of the statutory debt limit) and the projection is to be at \$197.7 million (23.17% of statutory debt limit) within 10 years.

Part of the City's FY 2014 debt was in the form of a grant from the Iowa Flood Mitigation Program. Through a new state program, the City is able to issue \$28.25 million in revenue bonds payable from the 5 percent State Sales Tax increment for projects in the Bee Branch Watershed allowing the City to complete the Bee Branch Creek Restoration, construct permeable alleys, replace the Bee Branch flood gates, complete North End Storm Sewers, construct a Flood Control Maintenance Facility, install Water Plant Flood Control and complete 17th Street Storm Sewer over the next twenty years.

The FY 2025-2029 Capital Improvement Program is currently being reviewed and balanced, so there are no revised Fiscal Year 2025 debt projections yet.

As we approach the preparation of the FY 2025-2029 Capital Improvement Program (CIP) the challenge is not the City's capacity to borrow money but (a) how to identify, limit, and prioritize projects which justify the interest payments and; (b) how to balance high-priority projects against their impact on the property tax rate.

GUIDELINE

There are many high priority capital improvement projects which must be constructed during the FY 2025 - FY 2029 period. The potential of partially forgivable State Revolving Fund Loans and an increase in grant funding may impact the need to borrow for projects. As in the past, debt will be required on several major capital projects, including the Bee Branch Watershed Project, Airport Improvements, Park Improvements, Sidewalk and Street Improvements, Sanitary Sewer Fund, Parking Fund, and Water Fund. Borrowings will also include smaller projects and equipment replacements such as Park developments and Public Works equipment. These smaller borrowings will be for a term not exceeding the life of the asset and not less than six years in accordance to the Debt Management Policy. Alternative sources of funds will always be evaluated (i.e. State Revolving Loan Funds) to maintain the lowest debt service cost.

AA. ROAD USE TAX FUND

DISCUSSION

Actual Road Use Tax Fund receipts are as follows:

The FY 2024 budget was based on receiving \$8,430,000 in Road Use Tax funds. In FY 2024, 100% of the Road Use Tax income is in the operating budget. The State of Iowa increased the gas tax 10 cents per gallon in FY 2016.

Since the State of Iowa has not revised the Road Use Tax Fund revenues since 2016, the revenues are beginning to offer challenges to funding local activities.

GUIDELINE

It is preferable to shift Road Use Tax funds to the capital budget for street maintenance and repair to reduce the need to borrow funds for routine street maintenance and improvements. This shift cannot occur until there are increased revenues or reduced expense that would allow this shift without a property tax impact.

BB. COMMERCIAL AND INDUSTRIAL DEVELOPMENT

GUIDELINE

Current City, commercial and industrial development efforts should be continued to (a) preserve current jobs and create new job opportunities and (b) enlarge and diversify the economic base. Financing these efforts and programs should continue to be a high priority.

CC. HOUSING

GUIDELINE

To maintain an adequate supply of safe and decent housing, the City should strive to preserve existing single family and rental housing that is not substandard and provide opportunities for development of new housing, including owner occupied, within the City's corporate limits for all residents, particularly for people of low and moderate income. Workforce rental housing is becoming increasingly important and the City provides incentives for building rehabilitations. In 2023, the City Council adopted housing incentive programs through the use of Tax Abatement and Tax Increment Financing.

The City of Dubuque currently has over 2,200 units either completed or being initiated to help fill the housing shortage in Dubuque.

DD. SALES TAX

GUIDELINE

Sales Tax revenue shall be used according to the following split:

Sales Tax 50%: Property Tax Relief

Sales Tax 30%:

- (a) The reduction by at least 75% of street special assessments.
- (b) The maintenance and repair of streets.

Sales Tax 20%:

- (a) The upkeep of City-owned property such as sidewalks, steps, storm sewers, walls, curbs, traffic signals and signs, bridges, buildings, and facilities (e.g. Airport, Five Flags Center, Library, Law Enforcement Center, City Hall, Fire Stations, Parks, and Swimming Pools).
- (b) Transit equipment, such as buses
- (c) Riverfront and wetland development
- (d) Economic Development Projects

EE. NET CASH PROCEEDS (SURPLUS DISTRIBUTION) FROM THE DUBUQUE RACING ASSOCIATION

DISCUSSION

The contract with the Dubuque Racing Association calls for distribution at the end of its fiscal year, December 31st, of 50 percent of its net cash operating funds to the City of Dubuque. In early-February, the City receives payment of proceeds to be distributed. These proceeds are then allocated for capital improvements, with the highest priority given to reducing the City's annual borrowing.

The Dubuque Racing Association provides the City with projections of future distributions. Since gaming is a highly volatile industry, the estimates are discounted prior to including them in the City's Five-Year CIP.

The February 2025 DRA distributions will be used in Fiscal Year 2025 will be used to fund the stormwater fee grants and for non-recurring improvement packages. This is a change from past use of DRA distributions because all funds will be used for Fiscal Year 2025 operations. A change from past use of DRA distributions, 0% of the February 2025 projections of operating surplus have been anticipated as resources to support the Fiscal Year 2025 capital improvement projects. The estimates received from the DRA will be reduced by 5 percent for FY 2027 resources, 10 percent for FY 2028, and 15 percent for FY 2029 resources, to provide a margin of error in case the estimates are not realized.

GUIDELINE

\$519,518 of February 2025 DRA distributions will be used for FY2025 non-recurring improvement packages and \$519,484 will be used for FY2025 stormwater fee grants . This is a change from past use of DRA distributions because all funds will be used for Fiscal Year 2025 operations. In Fiscal Year 2026 and beyond, the City anticipates distribution of a significant amount of net cash proceeds for use in the Capital Improvement Program. These amounts will be budgeted in the Five-Year CIP in the year they are received and will be used to reduce required General Obligation borrowing. The three out-years will be discounted by 5 percent, 10 percent, and 15 percent respectively.

FF. EMPHASIS ON INITIATIVES THAT REDUCE FUTURE OPERATING BUDGET EXPENSE

GUIDELINE

Capital improvement expenditures that will reduce future maintenance and operating expense will receive priority funding and these types of initiatives will be encouraged in all departments and funding sources as a means of maximizing the use of available resources. This emphasis reflects fiscally responsible long-range planning efforts.

GG. USE OF GAMING-RELATED RECEIPTS

DISCUSSION

On December 14, 2021, an amended lease took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in. The amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the \$10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. In addition, In addition, the distribution of net profit is now split three ways between the City, charities, and the Schmitt Island Master Plan Implementation from a two-way split between the City and charities. The amended lease has an expiration date of December 31, 2055.

The following shows the historical split of DRA gaming taxes and rents between the City's operating and capital budgets:

Notable Changes:

***FY 2004** A new lease took effect with the Dubuque Racing Association for lease of the Dubuque Greyhound Park and Casino. This new lease was negotiated after the FY 2005 budget was approved and raised the lease payment from ½% of coin-in to 1% of coin-in. This new lease and the expansion of gaming at Dubuque Greyhound Park and Casino, from 600 gaming positions to 1,000 gaming positions, effective August 1, 2005, provided additional revenues to the City of Dubuque.

****FY 2009** The Diamond Jo expanded to a land-based barge casino facility and increased to 1,100 slots on December 1, 2008. This expansion was projected to decrease the Q gaming market and correspondingly the coin-in by just over 21 percent. Based on the projected market share loss, the City did not receive a distribution of cash flows from the Dubuque Racing Association (DRA) in Fiscal Years 2009 and 2010.

*****FY 2010** The operating portion of the split now includes the debt service required on the 2002 general obligation bonds for the America's River Project that was previously considered as part of the capital portion of the DRA lease. Debt obligations are considered a continuing annual expense and are more accurately reflected as part of the operating portion of the DRA lease.

******FY 2011** DRA distributions restarted in FY 2011 instead of the projected year of FY 2012.

*******FY 2016** A reduction in revenue in the Greater Downtown TIF urban renewal area resulted in reduced revenues to make debt payments and it was necessary for the general fund to support \$84,104 in FY 2015 and \$78,242 in FY 2016 of debt service payments, which were funded by reducing the amount of gaming revenues from taxes and DRA lease that goes to capital recommended in FY 2016.

*******FY 2021** A lease amendment took effect with the Dubuque Racing Association for the lease of the Q Casino. This lease amendment added a payment equal to ½% of monthly sports wagering conducted on Q Sportsbook retail or Q advance deposit sports wagering internet site.

*******FY 2022** A lease amendment took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in. The

amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the \$10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. In addition, the amended lease has an expiration date of December 31, 2036.

The change in market share and changes in the lease agreement impacts the City's lease payment from the DRA. The lease agreement with the City of Dubuque (effective 1/1/22) requires the DRA to pay the City 1.5 percent of coin-in from slot machines, 4.8 percent of gross revenue from table games, and 0.5 percent of sports wagering.

*******FY 2023** A lease amendment took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment extended the termination date from 2036 to 2055. The amendment allows \$1.5 million of cash reserve fund as a down payment of a construction loan in FY23.

*******FY 2024** A lease amendment took effect with the Dubuque Racing Association for Lot 1 of Chaplain Schmitt Island which contains the area where the casino, existing hotel and restaurant, and the new hotel are located. This lease amendment consolidates separate leases for the casino and hotel/restaurant into a single lease, adds a consumer price index escalator on the lease payment related to the hotel and restaurant, establishes a debt payment reserve fund of \$7 million over five years, clarifies responsibility for environmental issues, and allows usage of \$3 million of funds in the cash reserve fund by the DRA for downpayment on construction improvements.

In calendar year 2023, gross gaming revenues were down -9.7% for the DRA and the Diamond Jo was up +3.6% as compared to calendar year 2022. Gross gaming revenue for DRA was impacted by construction disruption as the property underwent redevelopment starting in September 2023. In calendar year 2023, the DRA showed increases, up +15.6%, in sports betting revenue, hotel room revenue, food and beverage sales, entertainment sales and other revenue as compared to calendar year 2022. This resulted in calendar year 2023 total gross revenue being down at -5.0% as compared to calendar year 2022.

The current Dubuque market is approximately \$123.6 million annually in 2023 down from the \$126 million market in 2022 and up from the \$120 million market in 2019 (pre COVID). DRA share of the market was 37.8% in 2023 (impacted by construction disruption), 41.1% in 2022, 41.2% in 2021 and 41.2% in 2019. The DRA has projected a +5% increase in gross gaming revenue and a +2.7% increase in total gross revenue for calendar year 2024. The DRA gaming projections include growth in gaming revenues over the next five years with a growth rate of +8.1% in FY 2025, a growth rate of 1.1% in FY 2026, a growth rate of 1.0% in FY 2027, and a growth decline of -1.0% in FY 2028. Two key factors to note for the five-year forecast budget are 1.) it is derived from the feasibility study done by the consultants Global Market Advisers and 2.) it takes into consideration potential disruption caused by construction, the opening of remodeled or new assets on our campus and potential new competition in calendar year 2027/2028.

During 2022, Iowa passed legislation that put a moratorium on new casino licenses for a two-year period. This law came as Linn County (Cedar Rapids) was preparing to get a casino license approved by the IRGC. Our five-year budget forecast that Linn County will pursue a casino license after the moratorium expires and a new casino will be operational in calendar year 2027/2028.

During 2019, Illinois passed legislation regarding six additional casinos, Sports Betting, and increased Video Lottery Terminals (VLT) throughout the state. The casino license issued for Rockford will be the closest. The Rockford City Council voted on October 7, 2019, to certify the Hard Rock Casino as the city's choice for a new casino. On November 10, 2021, Hard Rock Casino Rockford opened its temporary casino which includes 635 slot machines and Electronic Table Games. The Hard Rock Casino's permanent \$310M casino and hotel is currently under construction and is scheduled to open in late August 2024. The new 189,000 square-foot casino will include 1,300 slot machines, 44 table games, restaurants, live concert venue, retail stores and a 250-room hotel.

Ho-Chunk Nation is planning on the construction of \$405 million casino and hotel resort in Beloit Wisconsin. Currently this no date set for when the project will start. Once started, construction will last approximately 18 to 24 months.

The 50¢ per patron tax previously received from the Diamond Jo was replaced by a \$500,000 fixed payment based on their revised parking agreement which expires June 16, 2029.

GLOSSARY

This page intentionally left blank.

Glossary

28E Agreement: Chapter 28, Section E of the Iowa Code which establishes intergovernmental agreements for two or more governmental agencies to cooperate on an issue/activity.

Accounting System: Records and procedures which are used to record, classify, and report information on the financial status and operations of an entity.

Accrual Basis of Accounting: A basis of accounting in which transactions are recognized at the time they are incurred, as opposed to when cash is received or spent.

Activity: A specific type of work or group of tasks performed by one or more organized units of the government. An example would be Street Maintenance.

Ad Valorem Taxes: Commonly referred to as property taxes, are levied on both real and personal property according to the property's valuation and tax rate.

Allot: To divide an appropriation into amounts which may be encumbered or expended during an allotment period.

Alternatives: This term means other possible activities or uses of funding besides those already decided upon or being considered. It also suggests the comparison between two or more possible approaches toward fulfilling the same purpose, goal or objective.

Amortization: The gradual elimination of an asset or liability, such as a bond premium, over a specified period of time.

Annualize: Taking changes that occurred mid- year and calculating their cost for a full year, for the purpose of preparing an annual budget.

Appropriation: A legal authorization to incur obligations and to make expenditures for specific purposes.

Assessed Valuation: A value established for real property for use as a basis for levying property taxes.

Assessment Ratio: The ratio at which the tax rate is applied to the tax base.

Assets: Resources owned or held by the City which has a monetary value.

Attrition: A method of achieving a reduction in personnel by not refilling the positions vacated through resignation, reassignment, transfer, retirement, or means other than layoffs.

Audit: Examination by an independent party of the City's financial books, records, accounts, funds, and securities for purposes of determining evidence of the accuracy and correctness of financial statements and ensuring management has effectively and efficiently performed responsibilities.

Authorized Positions: Employee positions which are authorized in the adopted budget to be filled during the year.

Balanced Budget: Occurs when planned expenditures equal anticipated revenues.

Base Budget: Cost of continuing the existing levels of service in the current budget year.

Glossary

Bond Funds: Resources derived from issuance of bonds for specific purposes and related Federal project grants used to finance capital expenditures.

Bond Rating: A rating (made by an established bond rating company) from a schedule of grades indicating the probability of timely repayment of principal and interest on bonds issued. City of Dubuque has an Aa2 rating from Moody's Investor Services.

Bond: A long-term promise to pay a sum of money (the face amount of the bond) on a specific date(s) (the bond maturity date) at a specified interest rate.

Bonding Capacity - Debt Capacity: The State limit for general obligation debt is 5% of assessed valuation.

Bond Refinancing: The payoff and re-issuance of bonds, to obtain better interest rates and/or bond conditions.

Budget: A plan of financial operation and estimated expenditures for a specific period of time, and the monies to be used to finance the expenditures. The City of Dubuque Operating Budget is a plan for the period from July 1 through June 30.

Budget Amendment: Any change in expenditure budgets, which result in a net increase or decrease in the total dollar amount budgeted at the fund level.

Budgetary Basis: This refers to the basis of accounting used to estimate financing sources and uses in the budget. This generally takes one of three forms: GAAP, cash, or modified accrual.

Budget Calendar: The schedule of key dates or milestones, which the City follows in the preparation and adoption of the budget.

Budget Carryover: Funds unused during a financial year which are transferred to the budget for the following year.

Budgetary Control: The control or management of a government in accordance with the approved budget for the purpose of keeping expenditures within the limitations of available appropriations and resources.

Budget Document (Program and Financial Plan): The official written statement prepared by the City staff reflecting the decisions made by the Council in their budget deliberations.

Budget Message: The City Manager's summary of the salient issues of the budget he is recommending to the City Council for their adoption. The message highlights the City Manager's views of the major aspects of the budget and provides the city Council with an overview of the major fiscal policies incorporated in the recommended budget, or which may impact future recommended budgets.

Capital Assets: Asset of significant value and having a useful life of several years. Capital assets are also called fixed assets.

Capital Expenditures: Purchases of building, improvements other than buildings, machinery, and equipment with a value over \$500 and a useful life in excess of one year.

Capital Improvements: Expenditures related to the acquisition, expansion or rehabilitation of an element of the government's physical plant; sometimes referred to as infrastructure.

Capital Improvement Program (CIP): A long- range plan for providing the capital outlays necessary to insure that adequate services are provided to the residents of the City. The plan includes improvements to, or the acquisition of, structural improvements and major equipment purchases.

Capital Improvement Projects: The specific projects that make up the Capital Improvements Program. The projects involve the construction, purchase, or renovation of city facilities or property. They are generally nonrecurring major improvements to the City's physical plant, which necessitate long-term financing and are permanent in nature.

Capital Outlay: Expenditures for fixed assets, such as equipment, remodeling, minor building improvements, and vehicles, that are funded from the operating budget. Since long-term financing is not necessary and expenditures of this type are of such recurring character, these items are not part of the Capital Improvement Program.

Capital Project: A major expenditure for a public improvement that is of such magnitude as to be considered a part of the City's five-year Capital Improvement Program. Such expenditures typically include City infrastructure construction projects, and would normally have an estimated useful life of a minimum of 10-15 years. Capital projects are summarized in the City's Operating Budget and detailed in the City's Capital Improvement Program document.

Capital Projects Funds: These funds account for the financial resources to be used for the acquisition and/or construction of major facilities (usually over \$10,000), other than those financed by proprietary funds. Each year the City appropriates money for the work to be completed that fiscal year; fund balances are designated for the completion of the projects over a period of years. Examples are fire stations, streets, water and sewer lines, etc. These funds use the modified accrual basis of accounting. Revenues are recognized in Capital Projects Funds when they become measurable and available to finance expenditures for the current period (such as when bonds are sold). Expenditures are recognized when the related liability is incurred.

Capital Reserve: An account used to segregate a portion of the government's equity to be used for future capital program expenditures. The amount of capital reserve is roughly equal to the government's annual equipment depreciation and an amount identified as being needed for future capital acquisition.

Cash: For purposes of our financial management system, cash refers to money, revenue, or fund balances available in the City treasury for financing an activity or project.

Cash Basis of Accounting: The basis of accounting under which revenues are recorded when received in cash and expenditures are recorded when paid.

Clearing Account: An intermediary account used to initially accumulate direct expenditures for subsequent charging to other officially reported accounts. These accounts are used in situations in which allocations are made to the reporting accounts on a percentage basis, and usually involve the ultimate distribution of expenses to a number of different accounts.

Collective Bargaining Agreement: A legal contract between the employer and a verified representative of a recognized bargaining unit for specific terms and conditions of employment (e.g., hours, working conditions, salary, fringe benefits, and matters affecting health and safety of employees.)

Commission of Accreditation for Law Enforcement Agencies (CALEA): Credentialing authority (accreditation), based in the United States, whose primary mission is to accredit public safety agencies, namely law enforcement agencies, training academies, communications centers, and campus public safety agencies.

Commodities: Items or supplies needed for routine maintenance and operations. They include cleaning, maintenance and office supplies, repair materials, minor equipment, and tools.

Community Development Block Grant (CDBG): A grant that is funded by the federal government through the Housing and Urban Development agency to the State of Iowa and then administered through the Iowa Department of Economic Development.

Community Orientated Policing Services (COPS): component of the U.S. Department of Justice responsible for advancing the practice of community policing by the nation's state, local, territorial, and tribal law enforcement agencies through information and grant resources.

Comprehensive Annual Financial Report:

(CAFR) the financial report of a state, municipal or other governmental entity that complies with the accounting requirements promulgated by the Government Accounting Standards Board (GASB). GASB provides standards for the content of a CAFR in its annually updated publication *Codification of Governmental Accounting and Financial Reporting Standards*. A CAFR is compiled by a state, municipal or other governmental accounting staff and audited by an external American Institute of Certified Public Accountants (AICPA) certified accounting firm utilizing GASB requirements. It is composed of three sections: introductory, financial and statistical. It combines the financial information of fund accounting and enterprise authorities accounting.

Constant or Real Dollars: The presentation of dollar amounts adjusted for inflation to reflect the real purchasing power of money as compared to a certain point in time in the past.

Consumer Price Index: A statistical description of price levels provided by the U.S. Department of Labor. The index is used as a measure of the increase in the cost of living (i.e. economic inflation).

Contingency Funds: A reserve of monies set aside within the General Fund for emergency or unexpected expenditures. This is also called the Emergency Reserve.

Contractual Services: Services rendered to a government by private firms, individuals, or other governmental agencies. Examples include utilities, rent, maintenance agreement, and professional consulting services.

Cost-of-living Adjustment (COLA): an increase in salaries to offset the adverse effect of inflation on compensation.

Debt Retirement/Redemption: The expenditure of funds for the retirement of all, or a portion of, the principal amount of a long-term financial obligation of the City.

Debt Service Fund: The fund which accounts for the payment of interest and principal on all general obligation debt other than that payable from special assessments and revenue debt issued for a governmental enterprise.

Dedicated Tax: A tax levy to support a specific government program or purpose.

Deferred Compensation: Income deferred until retirement age.

Glossary

Deficit: the excess of an entity's liabilities over its assets or the excess of expenditures or expenses over revenues during a single accounting period.

Department: The basic organizational unit of government which is functionally unique in its delivery of services.

Depreciation: Expiration in the service life of capital assets attributable to wear and tear, deterioration, action of the physical elements, inadequacy or obsolescence.

Development-related fees: Those fees and charges generated by building, development and growth in a community. Included are building and street permits, development review fees, and zoning, platting and subdivision fees.

Direct Revenues: Revenues earned by a specific General Fund division in the course of performing their assigned duties.

Disbursement: The expenditure of monies from an account.

Distinguished Budget Presentation Awards Program: A voluntary awards program administered by the Government Finance Officers Association to encourage governments to prepare effective budget documents.

Division: A major administrative organizational unit of the City which indicates overall management responsibility of one or more activities.

Employee (or Fringe) Benefits: Contributions made by a government to meet commitments or obligations for employee fringe benefits. Included are the government's share of costs for Social Security and the various pension, medical, and life insurance plans.

Encumbrances: Obligations in the form of purchase orders, contracts or salary commitments that are chargeable to an appropriation and for which a part of the appropriation is reserved by an accounting entry.

Enterprise Fund: Those funds established to finance and account for acquisition, operation and maintenance of governmental operations which are predominantly self-supporting by user charges. Such operations must be run in a manner similar to private business. Examples are the Water Utility Operation and Solid Waste Collection.

Entitlements: Payments to which local governmental units are entitled, pursuant to an allocation formula determined by the agency providing the monies, usually the state or the federal government.

Expenditures: Funds spent in accordance with budgeted appropriations on goods and services obtained.

Expense: Charges incurred (whether paid immediately or unpaid) for operations, maintenance, interest or other charges.

Federal Emergency Management Agency (FEMA): Coordinates the federal government's role in preparing for, preventing, mitigating the effects of, responding to, and recovering from all domestic disasters, whether natural or man-made, including acts of terror.

Glossary

Fiscal Policy: A government's policies with respect to revenues, spending, and debt management as these relate to government services, programs and capital investment. Fiscal policy provides an agreed-upon set of principles for the planning and programming of government budgets and their funding.

Fiscal Year (FY): The 12-month period to which the operating budget applies, and the period of time at the end of which the government determines its financial condition. For the City of Dubuque, this is July 1 through June 30.

Fixed Assets: Assets of a long-term character, which are intended to be held or used, such as land, buildings, machinery, furniture and other equipment.

Full Faith and Credit: A pledge of a government's taxing power to repay debt obligations.

Full-Time Equivalent (F.T.E.): A measure of authorized personnel calculated by equating 2,088 hours of work per year with the F.T.E. of one position.

Function: A group of related activities aimed at accomplishing a major service or regulatory program for which a government is responsible (e.g. public safety).

Fund: An accounting term referring to a group of accounts recording all financial resources together with correspondence liabilities, which has a distinct balance and is used to segregate specific activities and functions from those of other groups of accounts.

Fund Balance: The balance that remains in a fund on a given date after all expenditures have been made. This balance shows the fund equity.

General Fund: The fund used to account for all financial resources and liabilities that are not required to be accounted for in another fund.

General Obligation Bonds: Bonds backed by the full faith and credit of the issuing government. Repayment of these bonds is based on the government's ability to tax its residents for such purposes.

General Revenues: Revenues deposited in the General Fund and shared by the General Fund divisions.

Generally Accepted Accounting Principles (GAAP): Accounting principles that are commonly used in preparing financial statements and generally accepted by the readers of those statements.

Geographic Information System (GIS): System designed to capture, store, manipulate, analyze, manage, and present spatial or geographic data.

Global Positioning System (GPS): Satellite-based radio navigation system owned by the United States Government and operated by the United States Air Force. It is a global navigation satellite system that provides geolocation and time information to a GPS receiver anywhere on or near the Earth where there is unobstructed line of sight to four or more GPS satellites.

Goal: A desirable end, condition, accomplishment and/or development, the attainment of which may never be fully realized, towards which organizational effort is expended according to assigned responsibilities, available resources and prepared plans. Goals are attained by means of objectives. Goals are broadly stated and useful in evaluating resource allocation decisions. For example, the Goal for the Park Areas and Maintenance Activity of the Park Division of Leisure Services Department is to develop and maintain safe, clean, functional and attractive park and recreational facilities to meet the passive and active leisure time needs for all residents and visitors.

Glossary

Government Accounting Standards Board (GASB): They are the authoritative source of GAAP for state and local government.

Governmental Funds: Funds generally used to account for tax-supported activities. There are five different types of governmental funds: the general fund, special revenue funds, debt service funds, capital project funds, and permanent funds.

Grant: A contribution by a government or other organization to support a particular function. Grants may be classified as either operational or capital, depending upon the grantee.

Improvement Package: One or more objectives of an activity, which represents a standalone alternative or decision. For example, the Base Level Increment of a particular activity may have twelve objectives. Some of these objectives may be interrelated and the twelve objectives may represent only four choices or stand alone improvement packages. You may have one improvement package with one objective, two improvement packages with four objectives each and one improvement package with three objectives. The important thing is that the improvement package includes one or more stand alone objectives and is not dependent upon the approval of any other improvement package.

Indirect Cost: A cost necessary for the functioning of the organization as a whole, but which cannot be directly assigned to one service.

Infrastructure: The physical assets of a government (e.g. streets, water, sewer, public buildings, and parks).

Interfund Transfers: A transfer from a fund receiving the revenue, to a fund through which the authorized expenditure is to be made. An example would be a transfer of revenue from the Road Use Tax Fund to the Street Construction Fund.

Intergovernmental Revenue: Funds received from federal, state and other local government sources in the form of grants, shared revenues, and payments in lieu of taxes.

Internal Service Charges: Goods or services provided by one department to others within the same government or to other governments, on a user fee basis, with full costs to be recovered. An example of this would be the City's Garage Service.

International City/County Management Association (ICMA): Advances professional local government through leadership, management, innovation, and ethics. Provides member support; publications; data and information; peer and results-orientated assistance; and training and professional development to over 11,000 city, town, and county managers, their staffs, and other individuals and organizations throughout the world.

Iowa Communities Assurance Pool (ICAP): The organization the City holds membership to cover its liability insurance.

Iowa Department of Natural Resources (IDNR): Agency that manages fish and wildlife programs, ensures the health of Iowa's forests and prairies, and provides recreational opportunities in Iowa's state parks. The DNR carries out state and federal laws that protect air, land and water through technical assistance, permitting and compliance programs. The IDNR also encourages the enjoyment and stewardship of natural resources among Iowans through outreach and education.

Glossary

Iowa Department of Transportation (IDOT): Agency that is responsible for the organization, construction, and maintenance of the primary highway system. Located in Ames, IA, the IDOT is also responsible for licensing drivers and programming and planning for aviation, rail and public transit.

Iowa Economic Development Authority (IEDA): Mission is to strengthen economic and community vitality by building partnerships and leveraging resources to make Iowa the choice for people and business. Two main divisions, business development and community development. IEDA administers several state and federal programs to meet its goal of assisting individuals, communities and businesses.

Iowa League of Cities (ILC): Through membership services, research, publications, trainings and other collaborations, the Iowa League of Cities provides guidance and serves as the resource for member cities.

Iowa Municipal Finance Officers Association (IMFOA): An association of city clerks and municipal finance officers in Iowa. The purpose of IMFOA is to conduct regular instructional and informational meetings, as often as deemed necessary by the Board of Directors, for the purpose of educating municipal officers in the keeping of public records and for any other purpose deemed to be in the best interest of the public.

Lapsing Appropriation: An appropriation made for a certain period of time, generally for the budget year. At the end of the specified period, and unexpected or unencumbered balance lapses or ends, unless otherwise provided by law.

Levy: The amount of taxes, assessments or service charges imposed by a government. The maximum General Fund property tax levy allowed in Iowa is \$8.10 per \$1,000 of assessed valuation. Other levies may be imposed in addition to this.

Liabilities: Debts or other legal obligations arising out of transactions in the past, which must be liquidated, renewed, or refunded at some future date. This term does not include encumbrances.

Line-item Budget: A budget prepared along departmental lines that focuses on what is to be bought.

Local Option Sales Tax: A tax approved by a majority of the City's registered voters, which collects revenue according to a percentage of the value of goods and services delivered within the corporate limits. In Dubuque, the local option sales tax applies to those goods and services to which the State of Iowa sales tax applies.

Long-term Debt: Debt with maturity of more than one year after the date of issuance.

Major Fund: Governmental fund or enterprise fund reported as a separate column in a governmental entity's basic fund financial statements and subject to a separate opinion in the independent auditor's report.

Mill: The property tax rate which is based on the valuation of property. A tax rate of one mill produces one dollar of taxes on each \$1,000 of assessed property valuation.

Modified Accrual Accounting: The accrual basis of accounting modified to the governmental fund type spending measurement focus. Under it, revenues are recognized when they become both “measurable” and “available to finance expenditures of the current period.” Expenditures are recognized when the related fund liability is incurred except for: (1) prepaid insurance and similar items; (2) accumulated unpaid vacation, sick pay, and other employee benefit amounts which need not be recognized in the current period, but for which larger-than-normal accumulations must be disclosed in the notes to the financial statements; and (3) principal and interest on long-term debt which are generally recognized when due.

Municipal Fire and Police Retirement System of Iowa (MFPRSI): Provides pension benefits for municipal police officers and fire fighters in Iowa. MFPRSI is a defined benefit public retirement system created by Iowa statute.

Net Budget: The legally adopted budget less all interfund transfers and interdepartmental charges.

Nominal Dollars: The presentation of dollar amounts not adjusted for inflation. Adjusting for inflation would be done to reflect the real purchasing power of money today.

Non-Major Fund: Funds are considered non-major funds if they are less than 10% of Borough assets, liabilities, revenues and expenditures.

Object of Expenditure: An expenditure classification, referring to the lowest and most detailed level of classification, such as electricity, office supplies, asphalt, and furniture.

Objective: A statement of results to be accomplished during the fiscal year in support of the broader goal. Objectives are major steps towards accomplishing established goals. An Objective should state the result to be achieved or accomplished, the time frame, the cost and the action step.

Obligations: Amounts which a government may be legally required to meet out of its resources. They include not only actual liabilities, but also encumbrances not yet paid.

Operating Budget: The City’s financial plan that outlines proposed expenditures for the coming fiscal year and estimates the revenues which will be used to finance them.

Operating Expenses: Those expenses from a fund which are directly related to accomplishing the fund’s primary functions. Payroll would be one example of an operating expense.

Operating Revenues: Funds that the government receives as income to pay for ongoing operations. It includes such items as taxes, fees from specific services, interest earnings, and grant revenues. Operating revenues are used to pay for day-to-day services.

Other Post-Employment Benefits (OPEB): All types of post-employment benefits not offered as an integral part of a pension plan, as well as all forms of post-employment health care.

Output Indicator: A unit of work accomplished, without reference to the resources required to do the work (e.g. number of permits issued, number of refuse collections made, or number of burglary arrests made). Output indicators do not reflect the effectiveness or efficiency of the work performed.

Pay-as-you-go Basis: A term used to describe a financial policy by which capital outlays are financed from current revenues rather than through borrowing.

Pay Plan: Classifications and corresponding salary ranges of positions within the City government.

PILOT: Payment in lieu of taxes. These are payments, primarily from enterprise fund operations, that reimburse the general fund for the property tax that would have been paid if the enterprise funds were for-profit companies.

Performance Budget: A budget wherein expenditures are based primarily upon measurable performance of activities and work programs.

Performance Indicators: Specific quantitative and qualitative measures of work performed as an objective of specific departments or programs.

Performance Measures: Numbers that transmit some information about the quality or quantity of services provided by the City government. The primary reasons for attempting to measure performance are to (1) Provide information for making better decisions; (2) Report on progress made toward established objectives; (3) Improve performance, suggest improvements and change priorities; and (4) Serve as an early warning device by indicating problem areas when they first begin to develop.

Permanent Fund: Fund for resources that are restricted to the extent that only earnings, and not principal, may be used for the benefit of the state or its citizenry. Permanent funds include endowments where the funds or property donated to the City are required by contract, agreement, or trust instrument to be maintained in tact.

Personal Services: A General Fund expenditure category that includes all wages and benefits paid to employees.

Post-Employment Benefits: Payments made directly to former employees or their beneficiaries, or to third parties on their behalf as compensation for services rendered while they were still active employees.

Prior-Year Encumbrance: Obligations from previous fiscal years in the form of purchase orders, contracts or salary commitments which are chargeable to an appropriation, and for which a part of the appropriation is reserved. They cease to be encumbrance when the obligations are paid or otherwise terminated.

Program: A grouping of related work tasks or activities into a large organizational unit. An example of a program is the Public Safety Program.

Program Budget: A budget which allocates money to the functions or activities of a government rather than to specific items of cost or to specific departments.

Program Performance Budget: A method of budgeting whereby the services provided to the residents are broken down in identifiable service programs or performance units. A unit can be a department, a division, or a work group. Each program has an identifiable service or output and objectives to effectively provide the service. The effectiveness and efficiency of providing the service by the program is measured by performance indicators.

Program Revenue (Income): Revenues earned by a program, including fees for services, license and permit fees, and fines.

Glossary

Property Taxes: An ad valorem tax levied on both real and personal property according to the property's valuation and the tax rate.

Proprietary Funds: Funds that focus on the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. There are two types of proprietary funds: enterprise funds and internal service funds.

Public Transit Fund: This fund is a subfund of the General Fund, and is used to account for the receipt and disbursement of property taxes generated by the levy authorized under Section 384.12(19) of the Code of Iowa. The purpose of the levy is to aid Jule Transit.

Purchasing Card (P-Card): This is the City's procurement card program of credit cards for individual City employees.

Purpose: A broad statement of the goals, in terms of meeting public service needs, that a department is organized to meet.

Refunding: The issuance of long term debt in exchange for, or to provide funds for, the retirement of long-term debt already outstanding. Refunding is essentially the "refinancing" of long-term debt.

Reserves: Amounts used to hold certain portions of a fund or types of assets as unappropriated for expenditures, or as legally set aside for a specific purpose.

Resolution: A special or temporary order of a legislative body; and order of a legislative body requiring less legal formality than an ordinance or statute.

Resources: Total amounts available for appropriation including estimated revenues, fund transfers, and beginning balances.

Revenue: Funds that the government receives as income. It includes such items as tax payments, fees from specific services, receipts from other governments, fines, forfeitures, shared revenues, and interest income.

Revenue Bonds: Bonds which are repaid in both principal and interest from the earnings of an enterprise fund operation. Storm Water Utility Revenue Bonds would be one example.

Revitalize Iowa's Sound Economy: (RISE) grant that is funded by the Iowa Department of Transportation for the purpose of providing infrastructure for economic development projects.

Risk Management: The identification and control of risk and liabilities incurred by a local government to conserve resources from accidental loss.

Road Use Tax Fund: This fund accounts for the receipt of state revenues, allocated to the City by the State under a formula, for expenditure within the City for street maintenance/improvement/supervision.

Rollback: The State of Iowa annually adjusts the rollback percentage which is the percentage of the residential assessed valuation which is taxable.

Service Lease: A lease under which the lessor maintains and services the asset.

Glossary

Service Level: Services or products which comprise actual or expected output of a given program. Focus on results, not measures of workload.

Services and Charges: A category of expenditures used for the purchase of services provided by individuals, businesses or agencies that are not in the direct employ of the City.

Sinking Funds: These funds are used to accumulate monies in order to have adequate amounts available to make required periodic debt service payments. Sinking funds are used in enterprise funds that have outstanding long- term debt.

Source of Revenue: Revenues are classified according to their source or point of origin.

Special Assessment: A levy against a property to pay for all or part of the cost of an improvement benefiting that property.

Special Revenue Funds: Special revenue funds are used to account to the proceeds of specific revenue sources that are legally restricted to expenditures for particular purposes.

Subsidy: Financial aid given to a governmental unit by another governmental unit.

Supplies and Services: Expendable materials and operating supplies necessary to conduct departmental operations.

Target Budget: Desirable expenditure levels provided to departments in developing the coming year's recommended budget. Based on the prior year's adopted budget, excluding one- time expenditures, projected revenues, and reserve requirements.

Tax Increment Financing Funds: These funds are used to account for receipt of property taxes allocated to various tax increment financing districts and used to pay the principal and interest on tax increment debt, as well as to make major infrastructure expenditures.

Tax Levy: The resultant product when the tax rate per \$1,000 is multiplied by the tax base.

Tax Rate: The amount of tax stated in terms of a unit of the tax base, for example, dollars per \$1,000 of assessed valuation.

Taxes: Compulsory charges levied by a government for the purpose of financing services performed for the common benefit of the people. This term does not include specific charges made against particular persons or property for current or permanent benefit, such as special assessments.

Tort Liability: A tort is a wrong against an individual or property that is neither a crime nor a violation of contract. A court could find the City liable or responsible when a tort occurs on City property, as a result of the actions of a City employee, or the function of a City operated activity. The City levies a special tax to purchase tort liability and to cover the cost of tort damages for which the City is found responsible.

Transfers: Involves the movement of money between City funds.

Trust and Agency Funds: Funds used to account for assets held by the government in a trustee capacity, for individuals or other groups associated with the government. Agency monies or assets are held by a government. Agency monies or assets are held by a government acting as an agent acting as an agent for others, i.e. Landfill.

Glossary

Unamortized Premium and Discount: when bonds are sold, the difference in the price above par or face value (premium) or below par (discount) is recognized over the life of the bonds. The amount of the premium or discount not yet recognized is called the unamortized premium or discount.

Unencumbered Balance: The amount of an appropriation that is neither expended nor encumbered. It is essentially the amount of money still available for future purposes.

Unreserved Fund Balance: The portion of a fund's balance that is not restricted for a specific purpose and is available for general appropriations.

User Charges: The payment of a fee for direct receipt of a public service by the party benefiting from the service.

Variable Cost: A cost that increases/decreases with increases/decreases in the amount of service provided such as the payment of a salary.

Valuation: The official value established for various properties within set State guidelines, for taxation purposes. The assessed valuation of property is that portion of the property's value upon which taxes are levied.

Working Cash: Excess of readily available assets over current liabilities or cash on hand equivalents which may be used to satisfy cash flow needs.

Workload Indicator: A unit of work to be done (e.g. number of permit applications received, the number of households receiving refuse collection service, or the number of burglaries to be investigated).

Work Years: The amount of personnel resources required for a program expressed in terms of the "full-time equivalent" number of employees. One "work year" is equal to one full-time, year round employee. For most categories, this equals 2,088 hours per year (40 hours per week times 52 weeks). The number of hours a part-time employee is budgeted to work during the year is divided by 2,088 to arrive at the equivalent number of "work years" for the position.

CITY OF DUBUQUE, IOWA

Fiscal Year 2025-2029 Capital Improvement Program (CIP)

TO: The Honorable Mayor and City Council Members

FROM: Michael C. Van Milligen, City Manager

Attached is the Fiscal Year 2025-2029 Capital Improvement Program (CIP). State law requires that a five-year CIP be adopted by the City Council after a public hearing. The required CIP public hearing will be held April 11, 2024, at the same time as the public hearing on the Fiscal Year 2025 Operating Budget.

The CIP, as the plan for the City's physical development effort, attempts to address a variety of needs that the City must meet if it is to maintain its physical facilities, meet its service commitments and provide for its future development. The CIP adoption reflects the City's comprehensive plan and the goals and priorities established by the City Council and are shown in each of the State mandated budget program areas.

With the pledge of the \$1.1 trillion dollar federal infrastructure package and other opportunities to compete for grants, the City will need to spend money to prepare projects to be grant eligible and to provide matching funds to compete for grants.

The Fiscal Year 2025 CIP budget recommendation of \$88,753,825 is a 15.94% increase from the Fiscal Year 2024 CIP budget of \$76,554,143.

For several years, the Mayor and City Council had been taking advantage of the historically low interest rates and investing in City infrastructure and economic development and redevelopment. At the 2015 City Council Goal Setting, the Mayor and City Council adopted debt reduction as a High Priority. This recommended budget does not support the debt reduction policy due to the need to fund high priority projects.

While the City will issue \$145,955,901 in new debt in the recommended five-year CIP, mostly for fire equipment replacement, fire station improvements, fire station expansion, airport improvements, Chaplain Schmitt Island Iowa Amphitheater, reimagine Comiskey, Federal Building renovations, solid waste collection vehicles, sanitary sewer improvements, water improvements, stormwater improvements, parking improvements, and renovation of Five Flags, for a total of \$145,955,901 of debt in FY 2025-2029. **The City will retire \$130,165,376 of existing debt, increasing the amount of City debt by \$15,790,525.**

For Fiscal Year 2025, the use of the statutory debt limit would be 34.85%, and by the end of the recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2029, the City of Dubuque would be at 35.65% of the statutory debt limit.

In this budget recommendation, the Mayor and City Council are currently reviewing, projections out 10 years to Fiscal Year 2034 show the City of Dubuque at 20.47% of the statutory debt limit. This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.

In the extremely low interest rate environment prior to 2015, the City had been increasing the use of debt to accomplish the projects that need to be done. To have any success, a community must have a sound infrastructure. The Mayor and City Council has recognized the infrastructure issues Dubuque faces and has been responsive. While there was some criticism of City use of debt to deal with those infrastructure challenges, that criticism fails to recognize that not financing the needed infrastructure maintenance and improvements is also a form of debt that is passed down to future generations. This was a strategic decision by the City Council realizing that infrastructure investment just gets more expensive over time for these reasons: a) the older a piece of infrastructure gets and the more it is allowed to deteriorate increases costs; b) the longer the wait to invest in infrastructure the costs are increased by inflation; and c) If the investment in infrastructure is not made in this low interest rate environment this investment will eventually need to be made when interest rates are higher, thereby increasing costs. However, beginning in FY 2016 the City Council at their 2015 Goal Setting Session debt reduction was adopted as a High Priority. So the amount of outstanding debt began to decrease. In Fiscal Year 2025 the City will be issuing more debt than is retired to be able to fund critical infrastructure projects. However, in 2022 a fourth reason was created for considering using debt for infrastructure projects and that is the massive amount of federal grant money that is being made available. As already mentioned, most of these grants require matching dollars and most require that the engineering work already be financed and completed to make the projects shovel ready.

The debt principal outstanding projected as of June 30, 2024, is currently \$257,000,705. The breakdown of the debt principle outstanding as of June 30, 2024, is as follows:

Debt Obligation	6/30/2024 Principle Outstanding
General Obligation Essential Corporate Purpose	\$95,787,606
Less General Obligation Debt Subject to Annual Appropriation	(\$15,902,592)
Tax Increment Notes and Bonds	\$16,350,000
Economic Development TIF Rebate Agreements	\$6,104,789
Other Revenue-Backed Loans	\$2,940,485
Total Indebtedness Subject to Statutory Debt Limit of \$262,722,395	\$105,280,288
Percent of Statutory Debt Limit Used as of June 30, 2024	40.07 %
Revenue Bonds	\$135,817,825
Less Revenue Bonds Subject to Annual Appropriation	(\$13,956,032)
Add Debt Subject to Annual Appropriation	\$29,858,624
Total City Indebtedness as of June 30, 2024	\$257,000,705

The City will issue \$145,955,901 in new debt in the Recommended 5-year CIP, mostly for fire equipment replacement, fire station improvements, fire station expansion, airport improvements, Chaplain Schmitt Island Iowa Amphitheater, reimagine Comiskey, Federal Building renovations, solid waste collection vehicles, sanitary sewer improvements, stormwater improvements, water improvements, parking improvements, and renovation of Five Flags.

Project	FY 2025	FY 2026	FY 2027	FY 2028	FY 2029	Total

Water Projects	\$ 4,686,377	\$ 750,000	\$ 3,750,000	\$ 1,750,000	\$ 3,000,000	\$ 13,936,377
Water Forgivable SRF Debt	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —
Total New Debt	\$ 38,061,244	\$ 39,996,038	\$ 20,890,940	\$ 20,564,833	\$ 26,442,846	\$ 145,955,901

The City will retire \$124,211,508 of existing debt over the next five-years (FY25-FY29).

The following chart shows the net reduction of debt from Fiscal Year 2025 - Fiscal Year 2029:

Project	FY 2025	FY 2026	FY 2027	FY 2028	FY 2029	Total
New Debt	\$ 38,061,244	\$ 39,996,038	\$ 20,890,940	\$ 20,564,833	\$ 26,442,846	\$ 145,955,901
Retired Debt	-\$21,955,845	-\$23,328,969	-\$24,809,782	-\$25,965,305	-\$28,151,607	-\$124,211,508
Net Debt Increase (Reduction)	\$16,105,399	\$16,667,069	(\$3,918,842)	(\$5,400,472)	(\$1,708,761)	\$21,744,393

There was a 22.53% increase in assessed value effective January 1, 2023, which is the assessment the Fiscal Year 2025 statutory debt limit is based on. The statutory debt limit effective June 30, 2025 is \$321,926,120. **The City will be at 34.85% of statutory debt limit by June 30, 2025.** In FY 16 the City was at 86.13% of statutory debt limit, so **34.85% in Fiscal Year 2025 is a (51.69)% decrease in use of the statutory debt limit.**

The ten year history of the City's use of the statutory debt limit is as follows:

FY 15	FY 16	FY 17	FY 18	FY 19	FY 20	FY 21	FY 22	FY 23	FY24
83.87%	86.54%	66.06%	59.79%	52.90%	46.91%	43.51%	43.33%	39.36%	40.07%

The five year projection of the City's use of the statutory debt limit from Fiscal Year 2025–2029 including all planned debt issuances subject to the statutory limit and assuming a 2% growth in the City's assessed valuation beginning in Fiscal Year 2025 is as follows:

FY 25	FY 26	FY 27	FY 28	FY 29
34.85%	37.22%	35.31%	34.03%	35.65%

The following chart shows Dubuque's relative position pertaining to use of the statutory debt limit for Fiscal Year 2025 compared to the other cities in Iowa for Fiscal Year 2023 with a population over 50,000:

Fiscal Year 2023 Legal Debt Limit Comparison for Eleven Largest Iowa Cities

Rank	City	Legal Debt Limit (5%)	Statutory Debt Outstanding	Percentage of Legal Debt Limit Utilized
11	Des Moines	\$ 792,697,654	\$ 529,035,000	66.74 %
10	W. Des Moines	\$ 506,339,850	\$ 319,175,000	63.04 %
9	Cedar Rapids	\$ 652,295,825	\$ 366,140,000	56.13 %
8	Waterloo	\$ 216,437,019	\$ 115,999,161	53.59 %
7	Davenport	\$ 409,777,672	\$ 208,650,000	50.92 %
6	Sioux City	\$ 293,887,647	\$ 143,694,902	48.89 %
5	Dubuque (FY25)	\$ 321,926,120	\$ 112,190,028	34.85 %
4	Ankeny	\$ 395,854,796	\$ 104,450,000	26.39 %
3	Ames	\$ 275,808,881	\$ 65,175,000	23.63 %
2	Iowa City	\$ 362,419,812	\$ 63,795,000	17.60 %
1	Council Bluffs	\$ 321,835,908	\$ 50,776,645	15.78 %
	Average w/o Dubuque			42.27 %

Percent of Legal Debt Limit Utilized

Dubuque ranks as the fifth lowest of the use of statutory debt limit of the 11 cities in Iowa with a population over 50,000 and Dubuque is at the average of the other Cities. **The average (42.27%) is 21.30% higher than Dubuque (34.85%).**

Retired Debt Versus New Debt

The total City indebtedness as of June 30, 2025, is projected to be \$274,937,509 (34.85% of statutory debt limit). The total City indebtedness as of June 30, 2015, was \$295,561,181 (69.45% of statutory debt limit). **The City is projected to have \$22,808,589 more in debt as of June 30, 2025, this amount includes \$3.285 million issued for the Chaplain Schmitt Island - Iowa Amphitheater project which will be paid by the DRA.**

The combination of increased debt and increased utility rates partially reflects the movement to a more critical infrastructure funding strategy.

The following chart shows the amount of retired debt as compared to new debt. The new debt includes new debt issuances as well as draw downs on existing state revolving fund loans:

Retired Debt Versus New Debt (In Millions)

*In Fiscal Year 2020, the City had \$5,908,200 forgiven of the Bee Branch Upper Bee Branch Loan on June 30, 2020 which increased principal payments reflected.

**In Fiscal Year 2026, it is projected \$2,494,896 of SRF debt will be forgiven as part of the Private Lead Service Line Replacement project

Statutory Debt and Total Debt

In August 2015, the Mayor and City Council adopted a debt reduction strategy which targeted retiring more debt each year than was issued by the City. The recommended FY 2025 budget will achieve that target in FY 2027, FY 2028, and FY 2029. However, Fiscal Year 2025 and Fiscal Year 2026 will exceed the target due to issuing necessary debt for Five Flags, Water Lead Lines, PFAS, Chaplain Schmitt Island Iowa Amphitheater and other important projects leveraging grants and forgivable State Revolving Fund loans. **You can see that the Mayor and City Council have significantly impacted the City's use of the statutory debt limit established by the State of Iowa. In Fiscal Year 2015, the City of Dubuque used 90% of the statutory debt limit. In this budget recommendation, the Mayor and City Council are currently reviewing for Fiscal Year 2025, the use of the statutory debt limit would be 34.85%, and by the end of the recommended 5-Year Capital Improvement Program (CIP) budget in Fiscal Year 2029, the City of Dubuque would be at 35.65% of the statutory debt limit. The 5-Year CIP includes \$3.285 in FY2025 and \$5.5M in FY2026 for the Chaplain Schmitt Island - Iowa Amphitheater which will be paid by the DRA. Projections out 10 years to Fiscal Year 2034 show the City of Dubuque at 20.47% of the statutory debt limit.** This is an improvement on the debt reduction plan adopted in August 2015, that first began implementation in Fiscal Year 2016.

By the end of the Recommended 5-Year Capital Improvement Program (CIP) budget, the total amount of debt for the City of Dubuque would be \$286.28 million (35.65% of the statutory debt limit), **which includes \$285,000 in FY2025 and \$5.5M in FY2026 for the Chaplain Schmitt Island - Iowa Amphitheater which will be paid by the DRA. Projections out 10 years to Fiscal Year 2034 show the City of Dubuque at 20.47% of the statutory debt limit**, and the projection is to be at \$177.32 million (20.47% of statutory debt limit) within 10 years.

General Fund Reserves

The City maintains a general fund reserve, or working balance, to allow for unforeseen expenses that may occur. Moody's Investor Service recommends a 30% General Fund Operating Reserve for "AA" rated cities.

In July 2023, Moody's Investor Service upgraded the City's outstanding general obligation bonds from Aa3 to Aa2, as well as the outstanding Sales Tax Increment Revenue bonds from A2 to A1. Notable credit factors include strong financial operations and ample revenue-raising flexibility, which has resulted in steadily improved available fund balance and cash. The City serves as a regional economic center and its regional economic growth rate has outpaced the nation over the past five years.

In November of 2022, Moody's Investors Service ("Moody's") released a new rating methodology for cities and counties. Two significant changes result from the new methodology; cities are now assigned an issuer rating meant to convey the creditworthiness of the issuer as a whole without regard to a specific borrowing, and business-type enterprise funds are now being considered together with general fund revenues and balances in the determination of financial performance.

Under the new methodology, there are two metrics that contribute to financial performance. Available Fund Balance Ratio ("AFBR") = (Available Fund Balance + Net Current Assets/Revenue) and Liquidity Ratio ("LR") = (Unrestricted Cash/Revenue). For Aa credits, AFBR ranges from 25-35, and LR ranges from 30-40%.

The City was evaluated by Moody's under the old methodology in May of 2022 in connection to its annual issuance of bonds. At that time, Moody's calculated the City's AFBR to be 45.2%, and its LR to be 59.8%. The balances used in these calculations were likely elevated due to unspent ARPA funds. The change in methodology will now consider revenues and net assets from business-type activities in these calculations. As such, the City's general obligation rating will now be directly impacted by the financial performance of enterprise funds. Establishing rates and charges adequate to provide both debt service coverage and significant liquidity will be necessary to maintain the City's ratings.

In May 2021, Moody's Investor Service upgraded the City's Water Enterprise's outstanding revenue bonds from A1 to A2 and affirmed the Aa3 credit rating on general obligation bonds. Notable credit factors include a sizable tax base, a wealth and income profile that is slightly below similarly rated peers, and increased financial position that will decline in fiscal years 2021 and 2022 and somewhat elevated debt and pension liabilities.

These credit ratings are affirmation of the sound fiscal management of the mayor and city council, put Dubuque in a strong position to capitalize on favorable financial markets, borrow at low interest rate when necessary, and make critical investments in the community.

Fiscal Year	Fund Reserve (As percent of General Fund revenues)	New Moody's Methodology	Reason for change from previous Fiscal Year
FY 2018	23.81%		Increase due to capital projects not expended before the end of the FY and additional contributions to general fund reserve
FY 2019	29.06%		Increase due to capital projects not expended before the end of the FY.
FY 2020	31.24%		Increase due to freezing vacant positions and most capital projects due to the pandemic.
FY 2021	40.72%		Increase due to American Rescue Plan Act funds received (\$13.2 million), frozen positions and capital projects through Feb 2021.
FY 2022	49.16%	45.09%	Increase due to American Rescue Plan Act funds received (\$13.2 million), capital projects not expended before the end of the FY, and vacant positions.
FY 2023	50.18%	45.25%	Increase due to American Rescue Plan Act funds not spent (\$26.4 million), capital projects not expended before the end of the FY, and vacant positions.

**Fund Reserve as a Percent of General Fund and Enterprise Fund Revenue
New Moody's Methodology**

The City of Dubuque has historically adopted a general fund reserve policy as part of the Fiscal and Budget Policy Guidelines which is adopted each year as part of the budget process. During Fiscal Year 2013, the City adopted a formal Fund Reserve Policy which states the City may continue to add to the General Fund minimum balance of 10% when additional funds are available until 20% of Net General Fund Operating Cost is reached. During Fiscal Year 2024, the General Fund minimum balance was increased to 25%.

After all planned expenditures in FY 2024, the City of Dubuque will have a general fund reserve of 41.97% of general fund revenues as a percent of general fund revenues computed by the accrual basis or 40.21% of general fund, debt service, and enterprise fund revenues as computed by the accrual basis methodology now used by Moody's Investors Service. The general fund reserve cash balance is projected to be \$46,304,790 on June 30, 2024 as compared to the general fund reserve balance on an accrual basis of \$29,659,518. The general fund reserve balance on an accrual basis exceeds 27% in FY 2024, which is the margin of error used to ensure the City always has a general fund reserve of at least 25% as computed by Moody's Investors Service.

In Fiscal Year 2017, the City had projected reaching this consistent and sustainable 20% reserve level in Fiscal Year 2022. **In fact, the City met the 20% reserve requirement in FY 2017, five years ahead of schedule and has sustained a greater than 20% reserve.**

	FY2022	FY2023	FY2024	FY2025	FY2026	FY2027	FY2028	FY2029
Contribution	\$—	\$—	\$—	\$—	\$—	\$—	\$—	\$—
City's Spendable General Fund Cash Reserve Fund Balance	\$41,259,518	\$35,459,518	\$29,659,518	\$23,859,518	\$18,059,518	\$18,059,518	\$18,059,518	\$18,059,518
% of Projected Revenue (Moody's)	49.16%	50.18%	41.97%	33.76%	25.56%	25.56%	25.56%	25.56%

State Revolving Fund Sponsorship Projects and Green Project Loans

The City uses State Revolving Fund (SRF) loans for water and sanitary sewer projects whenever possible because of the **very low variable interest rate, currently at a rate of 2.43% with an annual servicing fee of 0.25%.**

In 2009, legislation was passed in Iowa that allows water utilities that issue debt through the Clean Water State Revolving Fund Program to sponsor and help finance other water quality improvement (CWSRF) projects within or outside its service limits. This new funding mechanism, called Water Resource Restoration Sponsored Projects, will provide cities, counties, local watershed organizations, watershed management authorities, county conservation boards, and soil and water conservation districts a funding source to construct improvements throughout a watershed that keep sediment, nutrients, chemicals and other pollutants out of streams and lakes.

Repayment of a standard Clean Water SRF (CWSRF) loan includes the repayment of the original loan amount, the principal, and the cost to finance the loan, interest, and fees. On a CWSRF loan with a sponsored project, the financing costs are reduced by the amount of the cost of the sponsored project improvements. Figure 1 shows a comparison between a standard CWSRF loan and a CWSRF loan with a sponsorship project. As shown, the total cost to the utility (the total of loan repayments) remains unchanged as the cost of funding for the sponsorship project is offset by a reduction in loan financing costs. In essence, two water quality projects are completed for the price of one.

Figure 1. Loan repayment comparison between a standard CWSRF loan and a CWSRF loan with a sponsorship project.

After three years of the State of Iowa being unsuccessful in completing one of these modified loans, the City of Dubuque had the first successful application for the state when, in April 2013, the City was awarded \$9.4 million of the interest paid on the Water and Resource Recovery Center to be used to reconstruct over 70 Green Alleys in the Bee Branch Watershed. The principal for the Water & Resource Recovery Center Upgrade was increased from \$64,885,000 to \$75,145,579 and the interest rate plus annual servicing fee was decreased from 3.25% to 2.00% to add the Green Alley sponsorship project. This reduction allowed for increased proceeds **and resulted in a true interest cost of 1.96% and gross borrowing savings of \$11.4 million.**

The Federal Fiscal Years 2010, 2011, and 2012 State Revolving Fund capitalization grants included requirements for certain percentages of the funds to be allocated for green projects. Each green infrastructure project receives a portion of loan forgiveness not to exceed 30%. In June 2015, the City of Dubuque Upper Bee Branch Creek Restoration Project (Upper Bee Branch Project) qualified for a Green Project Loan from the CWSRF Program in the amount of \$29,541,000. The loan includes a principal forgiveness provision. The amount of the loan to be forgiven is 20% of the total loan disbursements made under the loan agreement. **The amount of the loan that was forgiven in June 2020 was \$5,908,200. The actual true interest cost for total funds received was not the 2.00% borrowing rate (1.75% interest and 0.25% administrative fee), but just 0.07% after reflecting the receipt of interest free funds (forgiven portion).**

Then, in August 2017, the City was awarded \$1.4 million in funding for improvements with the Catfish Creek Watershed through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Upper Bee Branch Creek Restoration Project. The funding for the \$1.4 million in improvements will come from the interest payments on the City's Upper Bee Branch SRF loan. The Upper Bee Branch Creek SRF loan principal was increased to \$30,941,000 and **the interest rate plus the annual servicing fee was reduced from 2.00% to 1.43%. On a gross basis, the borrowing costs for the new loan were \$1.38 million less than the original loan.**

In May 2018, the City was awarded \$1.0 million in funding for pervious green alley improvements with the Bee Branch Creek and Catfish Creek Watersheds through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Upper Bee Branch Creek Railroad Culverts Project. The funding for the \$1.0 million in improvements will come from the interest payments on the City's Upper Bee Branch Railroad Culvert SRF loan. The Upper Bee Branch Creek Railroad Culvert SRF loan principal was increased to \$17,387,000 and **the interest rate plus the annual servicing fee was reduced from 2.00% to 1.43%. On a gross basis, the borrowing costs for the new loan were \$1.05 million less than the original loan.**

In February 2019, the City was awarded \$276,300 in funding for Eagle Point Park Environmental Restoration through the State of Iowa Water Resource Restoration Sponsored Project program as part of the City State Revolving Fund loan for the Kerper Boulevard Sanitary Sewer Project. The funding for the \$276,300 in improvements will come from the interest payments on the City's Kerper Boulevard Sanitary Sewer SRF loan. The Iowa Finance Authority now requires that sponsorship projects are included in the initial loan amount so that the repayment schedule does not have to be adjusted. **On a gross basis, the borrowing costs for the new loan were \$278,000 less than if there was not a sponsorship project included.**

In FY2025, the State of Iowa is ending the sponsored project program.

The five-year CIP adopted through the current year (Fiscal Year 2024) budget process covered Fiscal Year 2024 through 2028 and is \$298,808,622. The recommended five-year CIP for the upcoming budget process (Fiscal Year 2025) will cover Fiscal Year 2025 through 2029 and will be \$354,260,757. This is a \$55,452,135 (18.56%) increase.

FY 2024-2028 Capital Improvement Program (CIP) compared to the FY 2025-2029 Capital Improvement Program is as follows:

	FY 2024	FY 2025	FY 2026	FY 2027	FY 2028	FY 2029	Total
FY24 CIP	\$76,554,143	\$71,087,769	\$75,520,844	\$42,209,517	\$33,436,349	—	\$298,808,622
FY25 CIP	—	\$88,753,825	\$107,070,406	\$54,228,354	\$50,987,905	\$53,220,267	\$354,260,757
\$ Difference	—	+\$17,666,056	+\$31,549,562	+\$12,018,837	+\$17,551,556	—	\$55,452,135
% Change	—	+24.85%	+41.78%	+28.47%	+52.49%	—	18.56%

Further information about the changes to capital improvement projects can be found on pages xix-xxxii.

Fiscal Year 2025 will be the eighteenth fiscal year that the Stormwater Fund is recommended to be fully funded by stormwater user fees. The General Fund will continue to provide funding for the stormwater fee subsidies that provide a 50% subsidy for the stormwater fee charged to property tax exempt properties, low-to-moderate income residents, and a 75% subsidy for the stormwater fee charged to residential farms. The FY 2025 Stormwater User Fee is proposed to increase from \$10.00 per SFU to \$11.50 per SFU, a 15.00% increase.

	Rate Per Single Family Unit (SFU)
Fiscal Year 2021 - Adopted Per Ordinance 21-20	\$ 8.29
Fiscal Year 2022 - Adopted Per Ordinance 10-21	\$ 8.85
Fiscal Year 2023 - Adopted Per Ordinance 13-22	\$ 9.00
Fiscal Year 2024 - Adopted Per Ordinance 14-23	\$ 10.00
Fiscal Year 2025 - Recommended	\$ 11.50

The Stormwater Utility was formed on July 1, 2003, to update and expand the City's aging infrastructure, comply with the National Pollution Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) permit, and implement the various elements of the 2001 Drainage Basin Master Plan Stormwater Management Plan (amended in 2013), which outlined improvements in both the Catfish Creek and Bee Branch watersheds. The flood mitigation improvements in the Catfish Creek Watershed have been completed. The improvements in the Bee Branch Watershed are part of the multi-phased, fiscally responsible, holistic Bee Branch Watershed Flood Mitigation Project which will mitigate flooding, improve water quality, stimulate investment, and enhance the quality of life. The City's has been able to garner support from local, state, and federal partners with over \$169 million in outside funding to help offset the cost of the overall \$250 million project. Since 2001, the City has made steady progress on the various phases of the project.

The phases of the Bee Branch Watershed Flood Mitigation Project are as follows:

Phase	Description	Status
1	Carter Road Detention Basin	Complete
2	West 32nd Street Detention Basin	Complete
3	Historic Millwork District	Complete
4	Lower Bee Branch Creek Restoration	Complete
5	Flood Mitigation Gate & Pump Replacement	Under Design
6	Impervious Surface Reduction	1/3 of alleys converted to “Green Alleys”
7	Upper Bee Branch Creek Restoration/Railroad Culverts	Complete
8	22nd Street Storm Sewer Improvements	Complete from Elm Street to N. Main
9	Flood Mitigation Maintenance Facility	Site Cleanup/Preparation
10	North End Storm Sewer Improvements	Initiate Design in 2028
11	Water Plant Flood Protection	Initiate Design in 2024
12	17th Street Storm Sewer Improvements	Complete from Elm St. to Heeb St.

Each of the 12 phases provides some incremental benefit. But the risk of flash flooding remains until all improvements are implemented. But it is also true that with the completion of each subsequent phase, the threat of flash flood damage is lessened and the resulting damage will be mitigated. When complete, it is expected to prevent an estimated \$582 million in damages over its 100-year design life.

When the City Council adopted Ordinance 21-12 (passed and approved on March 7, 2012), they established that the stormwater utility fee would increase to \$9.00 per month on July 1, 2016 in order to fund the operational and capital costs of the public stormwater management system, including improvements such as the Bee Branch Creek Restoration Project. But later in 2012, the Iowa General Assembly created the Flood Mitigation Program which provides funding for flood mitigation projects undertaken by local governments such as the City of Dubuque. Managed by the Iowa Flood Mitigation Board, the funding source established involves taking a portion of the incremental growth of State sales tax revenue collected within a city and diverting from the State General Fund to cities approved for the funding. Having updated the Drainage Basin Master Plan in the fall of 2013, which outlined the improvements associated with the 12-phase Bee Branch Watershed Flood Mitigation Project, the City was successful in securing \$98.5 million in State sales tax increment funding. With the infusion of funding, the City Council adopted Ordinance 16-14 (passed and approved on March 5, 2014) establishing that the stormwater utility fee did not reach \$9.00 per month until July 1, 2021, five years later than later than previously scheduled.

The CIP budget reflects the **Dubuque Five-Year (2025-2029) City Council Goals and 2023-2025 Policy Agenda, established by the City Council August, 2023.**

Dubuque Five-Year City Council Goals

Robust Local Economy: Diverse Businesses and Jobs with Economic Prosperity
Vibrant Community: Healthy and Safe
Livable Neighborhoods and Housing: Great Place to Live
Financially Responsible, High Performance City Organization: Sustainable, Equitable, and Effective Service Delivery
Sustainable Environment: Preserving and Enhancing Natural Resources
Partnership for a Better Dubuque: Building our Community that is Viable, Livable, and Equitable
Diverse Arts, Culture, Parks, and Recreation Experiences and Activities
Connected Community: Equitable Transportation, Technology, Infrastructure, and Mobility

Policy Agenda 2023 - 2025

Top Priority (in alphabetical order)

- Air Service future Strategy and Action Plan
- City Workforce Retention and Attraction
- Comprehensive Study of Fire Station Locations and Staffing
- Police Department Full Staffing
- Street Maintenance and Rehabilitation Program

High Priority

- Bee Branch Detention Basin Pump Replacement
- Catfish Creek Sanitary Sewer Project Pump Station
- Central Avenue Revitalization Plan
- Leveraging Federal and State Infrastructure Grant Programs
- RAISE Grant and Matching Funds for Construction (14th St. Railroad Overpass and Elm St. and 16th St. Corridor Complete Streets)

Attachment 3 provides a summary of these projects organized by City Council's five-year goals and Fiscal Year 2025 priorities reflect how these goals are addressed.

Finally, **Attachment 4** provides detail on the source of funds and highlights important points about the 5-year CIP Program.

CIP FORMAT

The format for the Fiscal Year 2025-2029 CIP is substantially the same as previous fiscal years. First, an index referencing the 2025-2029 Capital Improvement Budget follows the budget message. The index identifies each capital improvement first by city department and then by all applicable State programs as a subcategory under each department. The index serves as a quick reference for each CIP, and the far right hand column shows the page number of each project. Secondly, a separate project page is provided to show the detail for each individual project. These projects pages are also arranged first by city department and then by State program as a subcategory within each department.

As in previous CIP budget documents, each detailed project page identifies the city department, the state program, project title, account code (consisting of program number, department number, fund and capital project number), and total project cost. The project page then shows any funds expended for the project in Fiscal Year 2023 and the adopted budget in Fiscal Year 2024. In Section A of the project form entitled "Expenditure Items", project costs are shown by major expenditure item (i.e., Design and Engineering, Land and Right-of-Way Purchase, Construction and Other Expense). In Section B, entitled "Project Financing", the project funding is presented by major revenue source (i.e., General Fund, Sales Tax Fund, Water Depreciation Fund, Sanitary Sewer Construction Fund, and Road Use Tax Fund). In Section C, entitled "Impact – Operations," the dollar impact on operations in terms of greater or lesser operating costs and/or greater or lesser revenue is provided when available. Lastly, there is a narrative section, which provides a description of the project, a justification for the project and, where appropriate, how it relates to other projects or plans. A small map may also be provided to further identify the location of the project.

Each detailed project page identifies the budget for each fiscal year in the next five years. There is a sixth column labeled "2030". This column is included to show that the project does not end in the next five years and that additional budget will be needed to fully complete the project. The "2030" column will show the total remaining estimate for the project, unless the project is annual. This column could also be known as "Beyond Fiscal Year 2029." If a project is annual, the "2030" column will only show one years worth of budget.

Lastly, there is a section in the detailed project pages called "First Year Submitted". This information represents the year the capital improvement project was first submitted for consideration. This is not the first year that the capital project was adopted for funding, but instead represents the first year a staff member identified a need for the project and created a CIP to present to the City Manager.

CONCLUSION

The Capital Improvement Program represents the City of Dubuque's commitment to a maintenance and physical development plan for the next five years. The first year of the five-year CIP goes into the budget for next year and deserves the most attention. As you know, the CIP is updated each year so that City Council will have an opportunity in the next year to change Fiscal Year 2026 through Fiscal Year 2029 projects, as well as to add projects for Fiscal Year 2030.

A ranking system was established in Fiscal Year 2019 to more readily identify capital projects that directly meet City Council Goals and Priorities and address City needs. This ranking process also included several collaborative meetings with staff to determine which projects should be recommended for funding with the limited resources available. There are many capital projects that have been added to meet City Council Goals and Priorities and address City needs (\$127,924,873). Those new projects that appear in the five-year CIP are as follows:

Department	New Project	Total CIP
Police	Public Safety Software	\$ 3,000,000
Fire	Station 6 Roof Replacement & Stairwell Addition	\$ 193,000
Fire	Training Burn Tower Improvements- County Training Facility	\$ 466,676
Fire	Wireless Headsets	\$ 53,822
Fire	Fire Station Generators	\$ 100,000
Fire	Community AED Implementation	\$ 33,500
Fire	2026 Fire Engine Replacement #1907	\$ 700,000
Fire	2026 Ambulance Replacement #1914	\$ 400,000
Fire	2027 Fire Engine Replacement #1905	\$ 750,000
Fire	Portable Radio Replacements	\$ 185,000
Parks	AY McDonald Park Pavilion Installation	\$ 200,000
Parks	Eagle Point Park- Riverfront Pavilion Restoration	\$ 118,000
Parks	Ham House Improvements	\$ 75,000
Parks	Murphy Park- Bennett Pavilion Roof Replacement	\$ 165,000
Parks	Pebble Cove Park Development	\$ 295,000
Parks	Storybook Zoo Playground Replacement	\$ 165,000
Parks	Second Dog Park Planning	\$ 60,000
Parks	Bunker Building Remediation	\$ 400,000
Civic Center	Boiler Replacement	\$ 410,000
Recreation	Bunker Hill Golf Course- Material Storage Renovation	\$ 15,000
Recreation	Bunker Hill Golf Course- Tree Removal & Replacement	\$ 10,000
Conference Center	Parking Island & Venue Landscape Renovations	\$ 48,500
Conference Center	Replace Clouds	\$ 98,000

Department	New Project	Total CIP
Conference Center	Dishwasher & Water Softener Replacement	\$ 181,000
Conference Center	Public Restroom Remodels	\$ 770,000
Ice Center	Locker Room Ventilation Replacement	\$ 396,375
Ice Center	TPO Roof Replacement	\$ 181,125
Ice Center	Northwest Corner Service Bar	\$ 241,500
Water	Water Distribution Master Plan	\$ 50,000
Water	Cla-Val Link2Valves Maintenance Program	\$ 29,887
Water	Creek Crossing Restoration	\$ 134,230
Water	Leak Detection Correlator Replacement	\$ 25,000
Water	Maintenance of Public Water Mains During Stone Retaining Wall Repair	\$ 60,000
Water	Southwest Arterial Water Main Extension- Hwy 20 to English Mill Pump	\$ 1,618,527
Water	Vehicle 4904 Utility Truck with Crane Replacement	\$ 90,000
Water	Vehicle 4907 Utility Truck with Tommy Gate/Snow Plow Replacement	\$ 85,000
Water	Vehicle 4911 Tandem Dump Truck Replacement	\$ 174,000
Water	Water Main Relocation for Sanitary Sewer Manhole Project	\$ 80,000
Water	Water Storage Maintenance Program	\$ 2,500,000
Water & Resource Recovery Center	BOD Capacity Upgrades	\$ 1,150,000
Water & Resource Recovery Center	Nutrient Reduction Improvements	\$ 68,654
Water & Resource Recovery Center	Facility Management Plan Update	\$ 315,000
Water & Resource Recovery Center	High Strength Waste Receiving & Storage	\$ 6,626,467
Water & Resource Recovery Center	Industrial Controls Upgrade	\$ 3,000,000
Airport	Terminal Building Modification	\$ 5,000,000
Airport	Terminal Building Exit Lane Modification	\$ 300,000
Airport	Update Airport Pavement Management System	\$ 100,000
Airport	Westside Airfield Development	\$ 100,000
Airport	Taxiway D Extension	\$ 2,940,000
Airport	Taxiway J Improvements	\$ 3,820,600
Airport	Reconstruct General Aviation Apron	\$ 2,000,000
Public Works	Backhoe Loader Purchase	\$ 206,000

Department	New Project	Total CIP
Public Works	Solid Waste Collection Vehicles	\$ 4,616,972
Public Works	Fuel Island Rehabilitation	\$ 80,000
Public Works	Sign Truck, Crane, Welder Replacement	\$ 275,000
Public Works	Aerial Bucket Truck Replacement #3230	\$ 318,000
Public Works	Combination Jet/Vac Sewer Maintenance Truck Replacement	\$ 450,000
Public Works	Landfill Alternative Energy	\$ 50,000
Public Works	Landfill Permit Renewal	\$ 55,204
Public Works	Landfill Organics Management	\$ 75,000
Public Works	Landfill Plan Updates	\$ 27,061
Public Works	Landfill Title V Emission Permit Renewal	\$ 20,000
Public Works	Landfill Waste Minimization Grant	\$ 475,000
Public Works	Landfill Website Redesign	\$ 20,000
Public Works	Landfill Cell 10 Permitting	\$ 400,005
Public Works	Landfill Detention Basin Cleanout	\$ 50,005
Public Works	Landfill Tarpomatic Replacement	\$ 70,000
Public Works	Landfill Half Ton Truck Replacement	\$ 50,000
Public Works	Landfill UTV Replacement	\$ 30,000

Housing	Lead & Healthy Homes Grant	\$ 1,148,500
Housing	Penn Community Living Home Remodel	\$ 41,025
Housing	Acquisition of Land for Emri Apartments	\$ 77,527
City Manager's Office	Downtown Urban Renewal Area Non-Profit Weatherization Improve	\$ 150,000
Information Technology	Network Switch Replacement	\$ 120,000
	TOTAL	\$ 127,924,873

The Capital Improvement requests that were previously funded in the five-year CIP that are not included in this five-year CIP total \$3,044,104. To put these back into the five-year CIP, other projects will need to be removed, property taxes would need to be raised and/or more debt would need to be issued. Of those removed, \$1,599,604 are identified as deferred maintenance items, delineated with an asterisks below. The removed CIPs are as follows:

Department	Existing Project Not Funded	Total CIP
Parks	All Parks- Renovate Water Systems	\$ 71,500 *
Parks	All Parks- Replace Trash Cans	\$ 140,000
Parks	EB Lyons Center- Stain, Patio, Ridge Beam	\$ 60,000 *
Parks	Eagle Point Park- Concrete Improvements	\$ 30,000
Parks	Replace Roof on Eagles View Pavilion	\$ 45,000 *
Parks	Replace Roof on Terrace Room	\$ 38,000 *
Parks	Eagle Point Park- Rest Room Renovation	\$ 55,000 *
Parks	Flora Park- Pave Wilbright, Pool, Tennis Court, Lots	\$ 85,000 *
Parks	Madison Park- Renovate Pavilion	\$ 44,000 *
Parks	Madison Park- Flag Pole	\$ 30,000
Parks	Murphy Park- Replace Roof on Rest Room Building	\$ 16,000 *
Parks	Valentine Park- Land Acquisition	\$ 120,000
Parks	Veterans Park- Pickleball Improvements	\$ 50,000
Parks	Ash Tree Removal and Tree Replacement	\$ 450,000 *
Parks	Ecological Restoration	\$ 30,000
Parks	Street Tree Program	\$ 150,000
Parks	Retaining Walls	\$ 50,000
Parks	Resurface Tennis courts	\$ 412,000 *
Parks	Replace Interpretive Signs	\$ 16,000 *
Parks	Drinking Fountains	\$ 80,000
Parks	Greenhouse-Replace Lexan	\$ 100,000
Parks	Town Clock Lighting	\$ 20,000
Recreation	Sutton Pool Zero Depth Survey & Remediation	\$ 40,000 *
Recreation	Flora Pool Water Slide Assessment & Repairs	\$ 50,000 *
Conference Center	Paint Exterior Metal	\$ 110,000
Conference Center	Overhead Door Replacement	\$ 76,000 *
Library	Water Pipe Replacement	\$ 116,104 *

Department	Existing Project Not Funded	Total CIP
Airport	Terminal Geothermal Heat Pump Replacements	\$ 40,000
Airport	Perimeter Fence Improvements	\$ 25,000
Engineering	Riverfront Leasehold Improvements	\$ 96,000
Engineering	Public Electric Vehicle Chargers	\$ 250,000
Engineering	Federal Building Parking Lot Replacement and Foundation Drainage Improvements	\$ 45,000
Engineering	Materials Testing Lab Renovation	\$ 25,000 *
Engineering	City Annex Window Replacement	\$ 78,500
Total		\$ 3,044,104
<i>Total Deferred Maintenance</i>		<i>\$ 1,599,604</i>

As is the case every year, there were new projects requested that were not able to be included in whole or in part in this five year CIP (\$14,387,131). Of those \$3,372,800 are identified as deferred maintenance, delineated with an asterisks below. CIP requests that were not funded include:

Department	New Project Not Funded	Total CIP
Parks	Eagle Point Park- Accessible Walkway to Log Cabin Pavilion	\$781,000
Parks	Eagle Point Park- Renovate Log Cabin Pavilion	\$40,000 *
Parks	Eagle Point Park- Clear Trees from Bluff	\$50,000
Parks	FDR Park- Native Landscape Installation	\$18,000
Parks	Flora Park- Replace Lights on Tennis Courts	\$112,000 *
Parks	Ham House Masonry	\$125,000 *
Parks	Hilltop Park- Replace Play Unit	\$139,500 *
Parks	Miller Riverview Park- Quick Connects for Pedestals	\$55,000
Parks	Rustic Point Park Development	\$295,000
Parks	Silver Oaks Park Development	\$295,000
Parks	Veterans Park Frisbee Golf Course Improvements	\$30,000
Parks	Greenhouse Shop Roof Replacement	\$65,000 *
Parks	Highway 20 Irrigation	\$25,000
Parks	Parks Fleet Automated Vehicle Location	\$50,000
Parks	Grandview Avenue Boulevard Landscape Renovation Plan	\$55,000
Parks	North Fork Trail Park Development	\$295,000

Department	New Project Not Funded	Total CIP
Parks	South Pointe Park Development	\$150,000
Parks	Jefferson Park Playground Replacement	\$165,000
Parks	Highway 20 Trees/Invasives Removal	\$55,000
Parks	Allison Henderson Storm Water Project	\$27,500
Parks	Paint Light Poles	\$20,000 *
Parks	Chaplain Schmitt Island- Landscaping	\$50,000
Parks	Chaplain Schmitt Island- Entrance Sign	\$72,500
Parks	Forestry Building- Replace Roof	\$65,000
Parks	Marshall Park- Replace Play Unit	\$153,000 *
Parks	Miller Riverview Park- Pave Secondary Roads & Concrete Campsites	\$220,000 *
Parks	Teddy Bear Park- Play Equipment	\$153,000 *
Parks	Maintenance Headquarters- Wash Bay	\$25,000
Parks	Paint Railings	\$70,000 *
Parks	Install and/or Replace Park Name Signs	\$105,000 *
Parks	Granger Creek Nature Trail- Asphalt Trail	\$420,000
Parks	Roosevelt Park Redevelopment	\$38,000
Parks	EB Lyons Center- Roof Rehabilitation	\$60,000
Parks	Eagle Point Park Trail Project- Invasive Remediation	\$70,200
Parks	Eagle Point Park- Light Trolley Line Trail	\$155,000
Parks	Eagle Point Park- Native American Room Restoration	\$122,000
Parks	Eagle Point Park- Develop Wading Pool Replacement Plans	\$422,000
Parks	Usha Park Development	\$127,000
Parks	Valentine Park Pavilion Installation	\$86,000
Parks	Valley High Park- Replace Play Unit	\$153,000 *
Parks	Installation of Flag Poles in Community Parks	\$99,000
Parks	Re-landscape Locust Street Connector	\$30,000
Parks	Irrigation to Planters and Flower Beds	\$150,000
Parks	Greenhouse- Remove Trees on Hillside	\$25,000
Parks	Welcome Sign East	\$75,000
Parks	Welcome Sign North	\$75,000
Civic Center	Standby Emergency Generator Replacement- 5th Street	\$199,500
Civic Center	Marquee Replacement	\$115,500 *

Department	New Project Not Funded	Total CIP
Civic Center	Recirculating Pump Replacement	\$37,000 *
Recreation	Flora and Sutton Swimming Pools Annual Maintenance	\$165,000 *
Recreation	Flora and Sutton Water Playground Replacements	\$315,000 *
Recreation	Flora and Sutton Renovate Locker Rooms	\$726,000 *
Recreation	Bunker Hill #7 Fairway Fencing	\$15,000 *
Recreation	Bunker Hill- Sand Trap Repair/Removal	\$50,000
Recreation	Bunker Hill Golf Course- Range Project	\$107,200
Recreation	POD- Signage Replacement	\$20,000
Recreation	Marina- Dock Fuel & Electrical System Rehabilitation	\$50,000 *
Recreation	Comiskey Building Restroom Expansion	\$112,500
Recreation	Multicultural Family Center 2nd Floor Renovation for City Office Space	\$1,331,000
Conference Center	Repaint Exhibit Hall Airwalls	\$42,500 *
Conference Center	Paint Bridge	\$50,000 *
Conference Center	Paint Interior Rooms and Areas	\$122,500 *
Conference Center	Window Panel Replacements	\$19,800
Conference Center	Replace Exterior Building Sign	\$47,500 *
Conference Center	Rekey Grand River Center	\$20,000
Conference Center	HVAC Commissioning	\$105,000 *
Conference Center	Emergency Light Conversion	\$10,000 *
Ice Center	Water Heater Replacements	\$26,250 *
Ice Center	ASME Storage Tank Replacement	\$11,550 *
Library	Rear Exterior Painting	\$36,750
Library	Refrigerant Leak Detection System Upgrade	\$18,000
Library	Boiler Exhaust Stack Rehabilitation	\$163,500 *
Library	Bookdrop Waterproofing	\$50,000
Library	Server Room Mini Split Replacement	\$47,600
Airport	Construct Land Side Storage Lot	\$123,000
Airport	Terminal Apron Lighting Conversion	\$43,000
Airport	Additional Terminal Parking	\$2,278,825
Engineering	Schmitt Island Trail Network Expansion	\$785,000
Engineering	Bee Branch Greenway Fitness Loop	\$202,500
Engineering	Bee Branch Greenway Park Signage	\$94,000

Department	New Project Not Funded	Total CIP
Engineering	MOB Mobility Improvements	\$144,000
Engineering	Highway 151 Bridge Gateway Lighting	\$142,000
Engineering	Schmitt Island Preliminary Redevelopment Planning	\$260,000
Engineering	City Hall Elevator Replacement	\$240,800
Engineering	Old Engine House- Playground Safety Fence	\$15,000 *
Transportation Services	JOTC and Intermodal Landscaping	\$50,000
Information Technology	Mitel Phone Replacement	\$70,656
Information Technology	Wireless Access Point Controller Upgrade	\$40,000
Information Technology	Microsoft 365 Assessment	\$15,000
Total		<u>\$14,387,131</u>
<i>Total Deferred Maintenance</i>		<i>\$3,372,800</i>

Notable FY2025 Capital Improvement Projects

Department	Project Title	Total City Investment FY2025-FY2029	Page
Police	Public Safety Software	\$3,000,000	1

Housing	Assistance for Homeownership	\$5,143,523	273
Housing	Washington Neighborhood Home Purchase Program	\$1,587,370	275

The CIP budget is the product of the hard work of a large number of people. It begins with department and division managers and their staff who prepared, ranked and updated the CIP requests. It extends to Boards and Commissions who review staff's recommendations and make modifications and establish priorities.

I wish to express my thanks to all who were involved in preparing the Fiscal Year 2025-2029 version of the City's Capital Improvement Program. Special thanks go to Chief Financial Officer, Jennifer Larson; Budget Manager, Laura Bendorf; Budget/Financial Analysts, Nathan Kelleher, Joe Link, and Robyn Hosch; Executive Assistant, Stephanie Valentine; Administrative Assistant Mia Burbach; and Finance Confidential Account Clerk, Kaia Humpal. I am proud of the work completed by City staff and the end-result. I hope after you have had an opportunity to review this document that you feel it is responsive to your priorities.

ATTACHMENTS – PROVIDE OVERVIEW OF THE FISCAL YEAR 2025-2029 CAPITAL IMPROVEMENT PROGRAM

Attachment 1

FISCAL YEARS 2025-2029 CIP SOURCE OF FUNDS

To finance the CIP projects, a variety of funding sources are used. The following table shows the source of funds for each year of the 5 year CIP.

SOURCE OF FUNDS IN CAPITAL BUDGET	2025	2026	2027	2028	2029	TOTAL	PERCENT
Current Revenue							
Rental Dwelling Rehab Loan Repayments	20,000	20,000	20,000	20,000	20,000	100,000	0.03 %
Homeownership Loan Repayments	4,000	5,000	5,000	5,000	5,000	24,000	0.01 %
Historic Preservation Loan Repayments	7,000	7,000	7,000	—	—	21,000	0.01 %
Washington Neighborhood Loan Repayments	30,000	30,000	30,000	30,000	30,000	150,000	0.04 %
Insurance and Other Reimbursements	10,000	10,000	10,000	10,000	10,000	50,000	0.01 %
County Reimbursement	1,500,000	—	—	—	—	1,500,000	0.42 %
Golf Revenue	10,000	35,000	—	20,000	—	65,000	0.02 %
Subtotal Current Revenue	1,581,000	107,000	72,000	85,000	65,000	1,910,000	0.54 %

The State Mandated Budget Program Areas and the City Departments/Activities that fall under each of these areas are as follows:

Public Safety – Includes Police, Emergency Communication Center, Fire, Disaster Services, Health Services: Animal Control, Public Works:

Flood Control, Housing: Code Inspection and Construction Services

Public Works – Includes Airport, Public Works, Engineering

Health and Social Services – Office of Equity and Human Rights, Health Services, Purchase of Services

Culture and Recreation – Parks, Civic Center, Conference Center, Ice Center, Recreation, AmeriCorps, Multicultural Family Center, Library, City Manager: Arts and Cultural Affairs

Community and Economic Development - Economic Development, Housing and Community Development, Planning Services,

Purchase of Services, City Manager: Office of Shared Prosperity and Neighborhood Support

General Government – Engineering: Facilities Management: City Hall/Annex Maintenance/Grand River Center Maintenance, City Council, City Manager, Public Information, Human Resources, Sustainability, City Clerk, Finance, Media Services, Legal, Information Services

Business Type – Water, Water Resource & Recovery Center, Parking, Transit, Public Works: Landfill, Refuse, Salt Operations, Engineering: Sewer, Stormwater

FISCAL YEAR 2025 - 2029 CIP BUDGET HIGHLIGHTS BY CITY COUNCIL GOALS & PRIORITIES
CITY COUNCIL POLICY AGENDA

The City Council Policy Agenda includes items that require major policy direction decision and/or funding. It includes the City Council's Top and High Priorities.

VIBRANT COMMUNITY: HEALTHY & SAFE

Priority: Police Department Full Staffing

Priority classification: Top Priority

CIP projects supporting this Priority: This priority is supported through the proposed FY25 Police Operating Budget.

FINANCIALLY RESPONSIBLE, HIGH-PERFORMANCE CITY ORGANIZATION: SUSTAINABLE, EQUITABLE, AND EFFECTIVE SERVICE DELIVERY

Priority: City Workforce Retention and Attraction

Priority classification: Top Priority

CIP projects supporting this Priority: This priority is supported through the proposed FY25 Human Resources and City Managers Office operating budgets as well as the efforts of all City departments.

Priority: Leveraging Federal & State Infrastructure Grant Programs

Priority classification: High Priority

CIP projects supporting this Priority: Public Lead Line Water Main Replacement ([59](#)), Bee Branch Gate & Pump Replacement Project ([146](#)), 14th Street Overpass ([199](#)), Trail Planning ([218](#)), Bee Branch Creek Trail: 16th to 9th ([219](#)), Transportation Services Vehicle Replacement ([266](#)) .

ROBUST LOCAL ECONOMY: DIVERSE BUSINESSES & JOBS WITH ECONOMIC PROSPERITY

Priority: Air Service Future Strategy and Action Plan

Priority classification: Top Priority

CIP projects supporting this Priority: This priority is supported through the proposed FY25 Airport operating budget and CIPs located on pg 89-99.

LIVABLE NEIGHBORHOODS & HOUSING: GREAT PLACE TO LIVE

Priority: Comprehensive Study of Fire Station Locations & Staffing

Priority classification: Top Priority

CIP projects supporting this Priority: Fire Station Expansion/Relocation ([9](#))

Priority: Central Avenue Revitalization Plan

Priority classification: High Priority

CIP projects supporting this Priority: Central Ave Corridor Streetscape Master Plan Implementation Improvements 11th – 22nd St ([204](#)), Street Light Replacement and New Installation ([227](#)), Traffic Signal Mastarm Retrofit ([229](#)), Greater Downtown Housing Creation Grant Program ([258](#)), Downtown Rehabilitation Grant Program ([261](#)), Central Avenue Housing Forgivable Loan ([263](#))

SUSTAINABLE ENVIRONMENT: PRESERVING & ENHANCING NATURAL RESOURCES

Priority: Bee Branch Detention Basin Pump Replacement

Priority classification: High Priority

CIP projects supporting this Priority: Bee Branch Gate & Pump Replacement Project (Phase 5 of Bee Branch Watershed Flood Mitigation Project) [146](#)

Priority: Catfish Creek Sanitary Sewer Project Pump Station

Priority classification: High Priority

CIP projects supporting this Priority: Catfish Creek Sewershed Interceptor Sewer Improvements ([183](#)), Old Mill Road Lift Station & Force Main ([182](#)), South West Arterial Middle Interchange Sewer Extension ([187](#)), Sanitary Sewer Extensions – Existing Development, Pre-annexation and Annexation Agreements ([165](#))

CONNECTED COMMUNITY: EQUITABLE TRANSPORTATION, TECHNOLOGY, INFRASTRUCTURE & MOBILITY

Priority: Street Maintenance & Rehabilitation Program

Priority classification: Top Priority

CIP projects supporting this Priority: Asphalt Milling Program ([100](#)), ADA Curb Ramp Program ([101](#)), Curb Replacement Program ([102](#)), Concrete Street Section Repair Program ([103](#)), Pavement Management Program ([190](#)), Street Construction General Repairs ([191](#)), Pavement Rehabilitation - Concrete Street Repair, Mill and Asphalt Resurfacing ([194](#)), Pavement Preservation Joint Sealing ([195](#)),

Priority: RAISE Grant & Matching Funds for Construction (14th St Railroad Overpass and Elm St and 16th St Corridor Complete Streets)

Priority classification: High Priority

CIP projects supporting this Priority: 14th Street Overpass ([199](#)), Bee Branch Creek Trail: 16th to 9th ([219](#)), Traffic Signal Interconnect Conduit Replacement ([230](#)), Traffic Signal Controller Replacement ([231](#)),

DIVERSE ARTS, CULTURE, PARKS AND RECREATION EXPERIENCES & ACTIVITIES

(none)

PARTNERSHIP FOR A BETTER DUBUQUE: BUILDING OUR COMMUNITY THAT IS VIABLE, LIVABLE & EQUITABLE

(none)

MANAGEMENT IN PROGRESS AND MAJOR PROJECTS:

The following are projects that were identified as the 2023 - 2025 Management in Progress and Major Projects by the City Council and are included in the 2025 CIP budget according to one of the Council's goals.

2023 - 2025 Management in Progress

Management in Progress are items that were previously a City Council Goal and are now in the implementation phase. These items are included in the existing FY 2024 and proposed FY 2025 Operating budgets unless noted for additional funding. The items are identified under their corresponding City Council Goal:

Vibrant Community: Healthy & Safe

- Comprehensive Police Transparency Annual Report (Public Safety Software, [1](#))
- Diversity, Equity and Inclusion City Action Plan: Departmental Action Plans
- Emergency Communications Accreditation (Public Safety Software, [1](#))
- Emergency Communication Center
- Equitable Fines and Fees Reform
- Fire/Police Culture Action Plan: Development and Implementation – Education and Corrective Measures
- Food Insecurity: Report with Findings and Options, Direction, City Actions and Funding (including Food Desert and Grocery Store Attraction)
- Historic Federal Building: Police Satellite Location (Federal Building Renovation, [249](#))
- License Plate Reader Cameras: Installation
- Traffic and Security Cameras Deployment: Implementation and Upgrade, Fiber Project (APRA Funding) (Traffic Signal Interconnect Conduit Replacement [230](#), Traffic Signal Controller Replacement [231](#), Street Camera Installation [233](#), ITS Traffic Control Equipment, [241](#))

Financially Responsible, High Performance City Organization: Sustainable, Equitable, and Effective Service Delivery

- Downtown City Facilities/Workspace Analysis and Plan
- Enterprise Asset Management System: Direction and Funding (including ADA) (ADA Compliance and Facilities Management Consulting, [255](#))
- Enterprise Resource Planning (ERP) Software Implementation
- Federal and State Legislative Advocacy Agenda and Priorities for 2024
- Human Resource Information System/Payroll: RFP and Implementation
- Human Resources Modernization: One Position
- Organizational Culture Continuous Improvement
 - a) Performance Reviews
 - b) Exit Interviews

Robust Local Economy: Diverse Business & Jobs with Economic Prosperity

- Childcare Initiative Strategy and City Actions
- City Economic Development and Incentives: Policies, Processes, and Practices (Greater Downtown Housing Creation Grant Program [258](#)), Small Business Grant Administration [259](#), Downtown Rehabilitation Grant Program -Includes Central Avenue, Historic Millwork District, and

Washington Neighborhood [261](#), Central Avenue Housing Forgivable Loan [263](#), Low Income Small Business Grant [264](#), Incremental Development and Small Business Storefront Establishment Coaching [225](#))

- Developers Round Table
- Development Process Streamlining
- Field of Dreams Stadium: Next Steps for City
- Job Fair: Implementation and Report
- Low/Moderate Income Small Businesses Grants (Low Income Small Business Grant, [264](#), Small Business Grant Administration, [259](#))
- Minority- and Women- Business Enterprise Procurement Policy, Process Revision, and Recruitment (Incremental Development and Small Business Storefront Establishment, [225](#))
- Poverty Prevention and Reduction Plan Implementation (Incremental Development and Small Business Storefront Establishment, Coaching, [225](#), Small Business Grant Administration, [259](#))
- River Cruise Infrastructure: Environmental Studies/Permitting
- Sports Tourism Development: Response to Opportunities

Livable Neighborhoods: Great Place to Live

- Imagine Dubuque: Annual Update Report
- Multicultural Family Center Youth Programs Expansion
- Multi-Tiered Housing Inspection Program
- Neighborhood Associations Toolkit
- Safe Housing: Housing Inspection Program Enhancements and Software
- Truck Route Ordinance
- Unified Development Code Update

Sustainable Environment: Preserving & Enhancing Natural Resources

- Electric Bus Implementation: Transit Vehicle Replacement ([266](#))
- Electric Fuel Excise Rate Ordinance Adoption
- Emerald Ash Borer Response
- Odor Reduction Analysis and Report: BOD Capacity Upgrades [84](#), W&RRC Facility Management Plan Update [86](#), High Strength Waste Receiving and Storage, [87](#), Industrial Controls Upgrade, [88](#))
- Industrial Center Native Plantings ([33](#))
- Sewer System Infrastructure Asset Master Plan

Connected Community: Equitable Transportation, Technology, Infrastructure & Mobility

- Central Avenue Traffic Corridor Study
- Community Broadband Expansion Project: Traffic Signal Interconnect Conduit Replacement ([230](#)), Traffic Signal Network Communications Program ([240](#)), Grandview Street Light Replacement ([243](#)), INET Fiber Replacement Buildout ([244](#)), Fiber Optic Conduit – Misc ([246](#)), Fiber Infrastructure Management System ([247](#)), Broadband Acceleration & Universal Access ([248](#))
- Neighborhood Speeding Mitigation: Direction and Enforcement
- Roundabout Policy

- Smart Parking and Mobility Study: Smart Parking System ([268](#))
- Traffic Signal Synchronization/STREETS Program: STREETS Traffic Control Program Phase 1 ([238](#)), STREETS Traffic Control Program Phase 2 ([239](#))

Diverse Arts, Culture, Parks, and Recreation Experiences and Activities

- Arts and Culture Master Plan: Revised Community Engagement Strategy Adoption
- Arts Operating Grants Review and Funding
- Comiskey Park Upgrades: Phase 2: Reimagine Comiskey Phase 2 ([26](#))
- Comprehensive Parks Master Plan

Partnership For A Better Dubuque: Building Our Community That Is Viable, Livable, & Equitable

- City Life in Spanish: Implementation

Major Projects

Major Projects are projects that are underway and budgeted. Staff is implementing and providing updates to City Council. These items are included in the existing FY 2024 and proposed FY 2025 Operating budgets unless noted for additional funding. The items are identified under their corresponding City Council Goal:

Vibrant Community: Healthy & Safe

(none)

Financially Responsible, High Performance City Organization: Sustainable, Equitable, and Effective Service Delivery

- Data Center Relocation
- Engine House No 1 Remodel Project

Robust Local Economy: Diverse Business & Jobs with Economic Prosperity

- (none)

Livable Neighborhoods: Great Place to Live

(none)

Sustainable Environment: Preserving & Enhancing Natural Resources

- Lead Water Service Line Replacement : Private Lead Line Replacement ([65](#))
- Supervisory Control And Data Acquisition (SCADA) System Overhaul: SCADA & Comms Improvements ([62](#)), Lift Station Upgrades ([81](#))
- Water Main Extensions – Southwest Arterial: Southwest Arterial Water Main Extension ([75](#)), Dubuque Industrial Center Crossroads Sanitary Sewer Extension ([166](#)), Southwest Arterial Middle Interchange Sewer Extension ([187](#))

Connected Community: Equitable Transportation, Technology, Infrastructure & Mobility

- Fiber Connections to Additional City Locations Project: Engineering Traffic CIPs (245-248)
- Chaplain Schmitt Island Trail Connector Project
- East/West Corridor Roundabouts
- Kerper Boulevard Roundabout Project
- RAISE Planning Grant for Design: 14th St Overpass ([199](#)), Bee Branch Creek Trail: 16th to 9th ([219](#))
- SW Arterial ITS Project

Diverse Arts, Culture, Parks and Recreation Experiences and Activities

- Eagle Valley Subdivision Park: Construction
- English Ridge Subdivision Park: Construction
- Five Flags Short-Term Improvements: Five Flags Building Improvements ([37](#))
- Jackson Park Restrooms: Completion
- Westbrook Subdivision Park

Partnership For A Better Dubuque: Building Our Community That Is Viable, Livable, & Equitable (None)

Source of Funds and Important Details

The Fiscal Year 2025-2029 CIP presents a financial plan that reflects a \$290,069 general fund property tax levy supported annual debt service for the FY 2010 purchase of a replacement pumper truck (\$1,035,000) and the FY 2016 franchise fee litigation settlement judgment bond (\$2,800,000). No other borrowings included in the Fiscal Year 2025-2029 CIP utilize a debt service levy. It is anticipated that other borrowing from non-utility funds can be minimized by using other sources of funds such as future DRA annual distributions of operating surplus and sales tax revenue.

The following important details are about the source of funds:

UTILITIES**Stormwater**

The Stormwater Utility was formed on July 1, 2003, to update and expand the City's aging infrastructure, comply with the National Pollution Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) permit, and implement the various elements of the 2001 Drainage Basin Master Plan (amended in 2013), which outlined improvements in both the Catfish Creek and Bee Branch watersheds. The City has been able to garner support from local, state, and federal partners with over \$163 million in outside funding to help offset the cost of the overall \$254 million project. Since 2001, the City has made steady progress on the various phases of the project.

When the City Council adopted Ordinance 21-12 (passed and approved on March 7, 2012), they established that the stormwater utility fee would increase to \$9.00 per month on July 1, 2016 in order to fund the operational and capital costs of the public stormwater management system, including improvements such as the Bee Branch Creek Restoration Project. But later in 2012, the Iowa General Assembly created the Flood Mitigation Program which provides funding for flood mitigation projects undertaken by local governments such as the City of Dubuque. Managed by the Iowa Flood Mitigation Board, the funding source established involves taking a portion of the incremental growth of State sales tax revenue collected within a city and diverting from the State General Fund to cities approved for the funding. Having updated the Drainage Basin Master Plan in the fall of 2013, which outlined the improvements associated with the 12-phase Bee Branch Watershed Flood Mitigation Project, the City was successful in securing \$98.5 million in State sales tax increment funding. With the infusion of funding, the City Council adopted Ordinance 16-14 (passed and approved on March 5, 2014) establishing that the stormwater utility fee did not reach \$9.00 per month until July 1, 2021, five years later than later than previously scheduled.

The City has been able to provide stormwater management services within the rate structure established by Ordinance 16-14. Due to the uncertain economic impacts of the COVID-19 pandemic, there was no increase in FY2021 as part of the City's Coronavirus relief response. With some minor adjustments to planned Capital Improvement Program projects, reducing some budgets and delaying a few others, the City was able to delay the planned increases for a year such that the rate did not reach \$9.00 per month until FY 2023, six years later than previously scheduled.

The recommended Fiscal Year 2025-2029 Capital Improvement Program Budget includes \$16,838,991 for the Flood Mitigation Gate & Pump Replacement as part of the Bee Branch Creek Restoration Project (Phase 5 of the Bee Branch Watershed Flood Mitigation Project). Additional funding was provided for the project in the Fiscal Year 2024 Capital Improvement Program Budget.

The recommended Fiscal Year 2025-2029 Capital Improvement Program Budget includes \$225,000 for engineering and design in Fiscal Year 2025 and \$3,556,000 for construction in Fiscal Year 2028 for the Flood Control Maintenance Facility as part of the Bee Branch Creek Restoration Project (Phase 9 of the Bee Branch Watershed Flood Mitigation Project).

The recommended Fiscal Year 2025-2029 Capital Improvement Program Budget includes \$650,000 for the North End Storm Sewer Improvements as part of the Bee Branch Creek Restoration Project (Phase 10 of the Bee Branch Watershed Flood Mitigation Project).

Fiscal Year 2025 will be the eighteenth fiscal year that the Stormwater Fund is recommended to be fully funded by stormwater user fees. The General Fund will continue to provide funding for the stormwater fee subsidies that provide a 50% subsidy for the stormwater fee charged to property tax exempt properties, low-to-moderate income residents, and a 75% subsidy for the stormwater fee charged to residential farms. The FY 2025 Stormwater User Fee is proposed to increase from \$10.00 per SFU to \$11.50 per SFU, a 15.00% increase.

	Rate Per Single Family Unit (SFU)
Fiscal Year 2021 - Adopted Per Ordinance 21-20	\$ 8.29
Fiscal Year 2022 - Adopted Per Ordinance 10-21	\$ 8.85
Fiscal Year 2023 - Adopted Per Ordinance 13-22	\$ 9.00
Fiscal Year 2024 - Adopted Per Ordinance 14-23	\$ 10.00
Fiscal Year 2025 - Recommended	\$ 11.50

Water

Water revenue represents a portion of the monthly water bill that goes for maintenance, repair, replacement and improvement of the Eagle Point Water Plant and water distribution system on a pay-as-you-go basis for all projects except the major extensions. The annual payment to the depreciation fund in Fiscal Year 2024 is \$1,000,000. The Fiscal Year 2025-2029 CIP anticipates \$1,072,600 in Fiscal Year 2025, \$1,487,377 in Fiscal Year 2026, \$1,526,450 in Fiscal Year 2027, \$1,809,380 in Fiscal Year 2028, and \$1,780,990 in Fiscal Year 2029.

Water State Revolving Fund Loans will be used to finance sewer projects in FY 2025-2029 as follows: \$4,686,377 FY 2025; \$750,000 FY 2026; \$3,750,000 FY 2027; \$1,750,000 FY 2028; and \$3,000,000 FY 2029. The debt service related to the total 13,936,377 State Revolving Fund Loans over the 5-years will be paid from water fees and offset by reduced payments to Depreciation (Construction Fund). The SRF loans issued for the construction portion of the Public Lead Lines is 49% forgivable, a total of \$2,494,896 is estimated to be forgiven over the 5-year CIP. The State Revolving Fund Loans support SCADA & Communications Infrastructure Improvement Project, Private Lead Line Water Main Replacements, Public Lead Line Water Main Replacement, Source Water PFAS Reduction Project Deep Well, Source Water PFAS Reduction Project Granular Filter, Third Pressure Zone Connection (from Tanzanite Drive to Olympic Heights Pump Station), and South West Arterial Water Main Extension (Highway 20 to English Mill Rd Pump Station).

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager's Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager's Office, Legal, Planning, Economic Development, City Clerk's Office and Workforce Development recharged expenses based upon each enterprise fund's percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Water Fund's share of the City's administrative overhead is 18.75%. In FY 2025, the Water Fund will support 17.88% of administrative overhead.

The water fees in FY 2025 are recommended to increase 12.0%; 12.0% for capital needs.

Sewer

Sewer revenue represents a portion of the monthly sewer bill that goes for the maintenance, repair, replacement and improvement of the Water & Resource Recovery Center Plant; lift stations, and sewer lines on a pay-as-you-go basis. The annual payment to the depreciation fund in Fiscal Year 2024 was \$1,800,000. The Fiscal Year 2025-2029 CIP anticipates \$6,693,560 in Fiscal Year 2025, \$1,515,470 in Fiscal Year 2026, \$1,682,782 in Fiscal Year 2027, \$1,904,491 in Fiscal Year 2028 and \$2,214,982 in Fiscal Year 2029.

Sanitary Sewer State Revolving Fund Loans will be used to finance sewer projects in FY 2025-2029 as follows: \$17,683,900 FY 2025; \$15,531,900 FY 2026; \$8,212,105 FY 2027; \$10,448,695 FY 2028; and \$4,881,286 FY 2029. The debt service related to the total \$56,757,886 State Revolving Fund Loans over the 5-years will be paid from sewer fees and offset by reduced payments to Depreciation (Construction Fund). The State Revolving Fund Loans support such projects as Abbott & Cottage Reconstruction, Catfish Creek Sewer Shed Interceptor Sewer Improvements, CCTV Inspection Cleaning and Assessment, Cedar & Terminal Street Lift Station & Force Main Assessment and Improvements, Cooper Place and Maiden Lane Reconstruction, Harvard Sanitary Sewer Reconstruction, Outfall Manhole Reconstruction, Old Mill Road Lift Station & Force Main, Sanitary Sewer Extensions to Existing Developments, Southwest Arterial Middle Interchange Sewer Extension, W&RRC Bar Screen Replacement, W&RRC Industrial Controls Upgrade, W&RRC High Strength Waste, and W&RRC Biochemical Oxygen Demand Capacity Upgrades.

The sewer fees in FY 2025 are recommended to increase 9.0%; 9.0% for capital needs.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager's Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager's Office, Legal, Planning, Economic Development, City Clerk's Office and Workforce Development recharged expenses based upon each enterprise fund's percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Sanitary Sewer Fund's share of the City's administrative overhead is 18.75%. In FY 2025, the Sanitary Sewer Fund will support 18.35% of the administrative overhead.

Parking

Parking revenue represents three primary sources: (a) the balance of prior year depreciation funds set aside for the maintenance and repair of parking ramps; (b) future payments to the depreciation fund for repair and maintenance of the parking system (there are no budgeted payments to the depreciation fund in future years due to using existing cash balance); and (c) interest income.

A \$10 million Greater Downtown TIF borrowing is anticipated in FY 2025-2029 for smart parking, parking ramp major maintenance, and other downtown projects. New debt service will be paid from the Greater Downtown TIF fund.

The Greater Downtown TIF will support parking related projects in the downtown as follows: \$8,288,000 in FY 2025; \$2,075,500 in FY 2026; \$1,374,500 in FY 2027; \$1,019,500 in FY 2028; and \$1,032,000 in FY 2029.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager's Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager's Office, Legal, Planning, Economic Development, City Clerk's Office and Workforce Development recharged expenses based upon each enterprise fund's percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Parking Fund's share of the City's administrative overhead is 6.93%. In FY 2025, the Parking Fund will support 2.75% of the administrative overhead.

Solid Waste Collection Activities

Solid waste collection activities revenue represents a portion of the monthly refuse bill that goes for the purchase of solid waste collection vehicles. The annual payment to the depreciation fund in Fiscal Year 2024 was \$325,000. The Fiscal Year 2025-2029 CIP anticipates \$192,212 in FY 2025, \$1,840 in FY 2026; \$40,750 in FY 2027; \$451,500 in FY 2028; and \$818,854 in FY 2029.

The Solid Waste Collection will support solid waste related debt for solid waste collection vehicles as follows: \$873,700 in FY 2025; \$585,840 in FY 2026; \$400,000 in FY 2027; \$— in FY 2028 ; \$— in FY 2029.

Prior to FY 2013, the General fund has been subsidizing a portion of the utility funds use of administrative services such as Engineering administration, Engineering Project Management, Finance accounting services, Economic Development, Planning Services, Workforce Development, City Clerk services, Legal services, City Manager's Office including Budget, Geographic Information Systems, Sustainability, Neighborhood Development, Arts and Cultural Affairs and Personnel. Prior to FY 2013, the Engineering department estimated the amount of time spent on projects and allocated that time to an Internal Service Fund which is then allocated to the various capital improvement projects that the personnel work on. The remaining time not allocated to the Internal Service Fund was considered administrative and has been charged to the General Fund. In addition, administrative departments such as the City Manager's Office, Legal, Planning, Economic Development, City Clerk's Office and Workforce Development recharged expenses based upon each enterprise fund's percent of the City-wide operating budget, excluding debt service. The accounting activity of the Finance Department has not been recharged to the other funds with exception of payroll and loan processing, parking tickets and landfill billing.

Beginning in FY 2013, additional overhead recharges to the utility funds is being phased in over several years. Engineering administrative and project management expenses that are not recharged to capital projects will be split evenly between the Water, Sewer, Stormwater and General Funds. Finance accounting expenses and all other administrative departments such as Economic Development, Planning, Workforce Development, City Clerk, Legal Services and City Manager's Office will be split evenly between Water, Sewer, Stormwater, Refuse Collection and General Funds, with overhead costs being shared by the Landfill and Parking. This will be fully implemented over time.

Beginning in Fiscal Year 2018, Neighborhood Development, Economic Development and Workforce Development expenses will not be recharged to utility funds. In addition, the Landfill will not be recharged GIS and Planning expenses.

The Solid Waste Fund's share of the City's administrative overhead is 18.75%. In FY 2025, the Solid Waste Fund will support 18.64% of the administrative overhead.

The solid waste collection fees in FY 2025 are recommended to increase 9.00%.

GENERAL FUND

The current revenue amount of \$1,910,000 (0.54% of CIP Total) during the five-year period represents \$65,000 in golf funds for improvements to the Bunker Hill Golf Course, \$21,000 in Historic Preservation Loan repayments, \$100,000 in Rental Dwelling Rehab Repayments, \$150,000 in Washington Neighborhood Loan Repayments, \$50,000 in insurance and other reimbursements, and \$24,000 in repayments to the Homeownership Loan Program.

LOCAL OPTION SALES TAX (LOST)

The local option Sales and Services Tax approved by the voters on February 2, 1988, provided that 20 percent of the proceeds would be used for: (a) the upkeep of City-owned property such as sidewalks, steps, storm sewers, walks, curbs, traffic signals and signs, bridges, and buildings and facilities; (b) transit equipment such as buses; (c) riverfront and wetland developments; and (d) economic development projects. This portion of the Sales and Services Tax shows up on the CIP Source of Funds Summary as "Sales Tax (20%)" totals \$2,802,994 and represents 0.79% of the total CIP.

The local option Sales and Services Tax approved by the voters on February 2, 1988, provided that 30 percent of the proceeds would be used to: (a) reduce street special assessments by at least 75 percent; and (b) maintain and repair streets. This portion of the Sales and Services Tax shows up on the CIP Source of Funds Summary as "Sales Tax/Street Projects (30 percent)" and totals \$21,437,655, or 6.05% of the total CIP.

GAMING

DRA payments represent 0% in FY 2025 of the projected gaming taxes, rent, and admissions from the race track, slots and riverboat operations (\$0 or 0.00% of the total CIP) over the five-year period. When practical in future years, additional revenues will be moved to capital from operating. To the extent that there is any revenue shortfall in future years, capital projects will be eliminated or deferred. DRA distribution revenue projections (\$3,949,369 or 1.11% of the total CIP) are discounted consistent with the adopted budget guidelines by 5% in FY 2027, 10% in FY 2028 and 15% in FY 2029. **In Fiscal Year 2025, all DRA Distribution is diverted to the operating budget instead of being used in the capital budget. This was also done in Fiscal Year 2024 and is a change in practice.**

On December 14, 2021, an amended lease took effect with the Dubuque Racing Association for lease of the Q Casino. This lease amendment raised the lease payment from 1% of coin-in to 1.5% of coin-in. The amendment increased the amount retained by the DRA for the operating budget reserve from 5% to 10%. The lease amendment eliminates the \$10,000 per month DRA payment to the Depreciation and Improvement Fund for facility maintenance. In addition, the distribution of net profit is now split three ways between the City, charities, and the Schmitt Island Master Plan Implementation from a two-way split between the City and charities. The amended lease has an expiration date of December 31, 2055.

In calendar year 2023, gross gaming revenues were down -9.7% for the DRA and the Diamond Jo was up +3.6% as compared to calendar year 2022. Gross gaming revenue for DRA was impacted by construction disruption as the property underwent redevelopment starting in September 2023. In calendar year 2023, the DRA showed increases, up +15.6%, in sports betting revenue, hotel room revenue, food and beverage sales, entertainment sales and other revenue as compared to calendar year 2022. This resulted in calendar year 2023 total gross revenue being down at -5.0% as compared to calendar year 2022.

FEDERAL FUNDING

Community Development Block Grant (CDBG)

The Fiscal year 2025-2029 CIP anticipates that Community Development Block Grant (CDBG) funds will be \$593,552 in FY 2025; \$375,000 in 2026; \$375,000 in FY 2027; \$375,000 in FY 2028; and \$375,000 in FY 2029 (0.59% of the total CIP). CDBG is budgeted at the same funding level as FY 2024.

Federal Aviation Administration (FAA)

The FAA funding of \$33,761,295 (9.53% of the total CIP) provides 90 percent match on most airfield related improvements. The Fiscal Year 2025-2029 budget includes Extend Runway 18/36, Reconstruct Taxiway A, Terminal Building Modification, Taxiway J Improvements, Taxiway D Extension, Westside Airfield Development, Reconstruct General Aviation Apron, and the Pavement Condition Study.

Federal American Rescue Plan Act Funds (0.50% of Total CIP)

Federal American Rescue Plan Act Funds awarded in FY 2022 with funding budgeted as follows: \$1,765,000 in FY 2025. The Fiscal Year 2025-2029 budget includes Terminal Building Modification, Terminal Building Exit Lane Modification, and Public Safety Software.

Federal Assistance

Federal Assistance funding of \$32,900,000 (9.29% of the total CIP) includes EDA, EPA, Infrastructure grants, and other federal grants. The Fiscal Year 2025-2029 budget includes Bee Branch Creek Gate & Pump Replacement, 14th St Overpass, and Bee Branch Creek Trail 16th to 9th. Implementation.

Federal STP Funds

Federal STP Funds funding of \$14,412,398 (4.07% of the total CIP) includes DMATS funds for STREETS Traffic Control Project Phase 2 and US Highway 20 - Northwest Arterial Intersection Operational and Capacity Improvements.

STATE FUNDING

Road Use Tax

Road Use Tax Funds (RUTF) of \$89,543 (0.03% of the total CIP) over five years represents the balance of annual payments not required for support of the operating budget and funds that had been reserved to finance high priority transportation projects. The Iowa Department of Transportation (IDOT) provides annual projections on the amount of RUTF the City of Dubuque will receive over the next five years based on a per capita amount. The State Road Use Tax Fund consist of revenues from fuel tax, vehicle registration fees, use tax, driver's license fees and other miscellaneous sources and is distributed to cities on a per capita basis. It should be noted that in FY 2010, the Iowa Department of Revenue increased Road Use Tax Funds (RUT) as a result of higher vehicle registration fees passed into law in 2008. The gas tax was increased ten cents beginning in February 2015. The city is estimated to receive \$43,870,059 for FY 2025-2029.

Sales Tax Increment Revenue

The City secured a \$98.5 million grant through the State of Iowa Flood Mitigation program funded by 70% of the sales tax increment revenue received from the State of Iowa's 5% portion of sales tax received from sales in the City of Dubuque. This revenue will fund the debt service payable

on Sales Tax increment Revenue bonds and Iowa Finance Authority State Revolving Fund Loans issued for the Flood Mitigation project known as the Bee Branch Watershed Project. In the five year capital program, \$4,181,000 of sales tax increment revenue will fund pay-as-you-go projects related to the Bee Branch Watershed project.

Other State Grants (2.23% of Total CIP)

State funding includes Iowa Department of Transportation Funding for street projects and trails and Historic Preservation Surveys and Regulations of \$7,901,926 are anticipated over the five-year program.

Iowa Finance Authority funding of \$1,149,870 is anticipated over the five-year program for the Housing Department's Housing Trust Fund to provide permanently affordable housing or assistance to nonprofit organizations providing the same.

TAX INCREMENT FINANCING (TIF)

Dubuque Industrial Center West TIF District

In FY 2006 and 2007, Tax Increment Financing (TIF) funds were committed towards abatement of the 20 year G.O. Bond issue for a Dubuque Industrial Center West (DICW) expansion and Chavenelle Road extension project, thereby delaying payback to the general fund for prior year development costs. In FY 2007, the TIF assessed values increased, allowing for additional increment for projects and cost recovery to continue. In FY 2017, the TIF assessed values increased again from a commercial 12% state equalization order.

The FY 2025-2029 CIP includes \$1,857,500 in land sale proceeds to provide funding for the new campaign by the Greater Dubuque Development Corporation to improve the economy in Dubuque, \$20,000 for native plantings, \$876,987 to provide funding for Development Dubuque Industrial Center: Crossroads, and \$9,549,065 to provide funding for Dubuque Industrial Center McFadden Farm development.

Annexation Initiatives

As annexation and development continues, the City has taken the following initiatives to provide services to annexed areas:

Additional Police Officers (Operating Budget)

With the Police Department's crime strategy, Territory Accountability Design, in full implementation, the department projected the need to increase Dubuque's current six patrol territories to seven as new areas of the city are developed. To add a seventh territory, five additional police officers were needed.

Partly in response to this need, the Police Department developed a Sworn Officer Plan which proposed the addition of 15 sworn police officers over a five-year period, with the first five (four Police Officers and one Police Corporal acting as a Section 8 Investigator) approved in December 2007, four more were approved in FY 2009, three more were approved in FY 2010, two more were approved in FY 2011 and one more was approved in FY 2012. The plan's staff increases created sufficient staffing to establish an additional patrol territory. In FY 2019, an additional sworn police officer was added, an existing position was promoted to Captain and one Corporal position was eliminated in order to create a Specialty Unit Commander. The Fiscal Year 2020 budget approved the expansion of the Dubuque Police Department School Resource Officer Program. To spread the expenses over time, three SRO's were to have been added over three consecutive years: Fiscal Year 2020, Fiscal Year 2021, and Fiscal Year 2022 budget. However, the expansion was frozen in FY21 due to the pandemic causing the final position and was added in FY23 instead of FY22 as

originally planned. The Dubuque Community School District (DCSD) will still gradually pay 50% of the salary of the existing SRO Lieutenant, and the DARE Officer. This DCSD payment will be implemented in increments of 45% of 50% reimbursement in year 1, or Fiscal Year 20, 75% of 50% reimbursement in year 2, or Fiscal Year 21, and 100% of 50% reimbursement in year 3, or Fiscal Year 22. In Fiscal Year 2024, two Crisis Intervention Team Officers are recommended.

Fire Station and Additional Firefighters/Paramedics

An additional west end fire station is currently projected to be designed in FY 2028 and built in FY 2029. In fact, this might not be an additional station but might be a relocation of the Grandview fire station. This station would be approximately 10,000 square feet and house two response apparatus, plus storage for other reserve units. The City of Dubuque currently has an annexation study and not an annexation plan. However, addition of this fire station and associated ambulance and firefighting response capability and capacity positions the City will develop an annexation plan and begin the process of annexation in the near future. The City Development Board, that approves annexation expects services to be provided within 3 years of annexation. For a new station, operating costs include insurance, utilities, equipment, maintenance, furniture, and the cost of twelve new employees. In FY2020, one (1) new employee was added, one (1) additional new employee was added in FY 2021 as well. The position that was to be added in FY2022 was delayed. In FY2023, 4 new employees were added. In FY2024, one new firefighter was added. In FY 2025 and additional EMS Captain and an additional EMS Bureau Chief are recommended, and the remaining employees will be added in future years to reach a total of 12 new positions. In addition, 3 firefighter/paramedic positions were added in FY2023 to provide one additional staff member on each of the three duty shifts. The additional ambulance for the additional fire station was purchased in FY2023. The current minimum staffing per shift is 22, with 28 personnel assigned to cover leave. The additional personnel will reduce the need for overtime as each shift will have more positions available to cover vacations and other leave.

Additional Snow Plow Drivers and Snow Plow Route (Operating Budget)

Dubuque's expansion also increased the number of streets and roads that must be maintained by the City's Public Works Department. In order to maintain the current level of street maintenance, street cleaning, and snow and ice control to all areas of the city, the Public Works Department was approved for the addition of a snow plow driver in FY 2009 and another is expected to be requested in a future year. Two drivers are needed to staff a route 24 hours a day in a snow event. The Public Works Department plans to create another snowplow route with these two employees as annexation and development dictates. In the warm months, this position will be assigned to the Leisure Services Department to maintain City parks and landscaping in the Washington Neighborhood, Port of Dubuque, Iowa Street and the Locust Street connector. In Fiscal Year 2009, the Public Works Department also began using Refuse, Recycling and Yard Waste Collection employees at the end of their collection routes and on overtime to assist in snow removal duties. The City has also developed a plan to use personnel and equipment from other City departments to go from 22 pieces of snow removal equipment to 32 pieces of snow removal equipment in a snow storm that exceeds 5 inches. With the recommendation to eliminate full-time positions in the Engineering Department and create one part-time position, there will be less opportunity to supplement the snow plowing effort.

Water and Sanitary Sewer Service

The City is in the process of extending sanitary sewers and water service into new development areas or recently annexed areas as part of pre-annexation agreements. Requests have been received for sanitary sewer and water service on North Cascade Road near Highway 20 and for water service further North on John F. Kennedy Road.

In 2003, a new water main was activated from Highway 20 north on the east side of the Northwest Arterial to John F. Kennedy Road then west to a new 1.25 million gallon water tower located at the Dubuque Soccer Complex. By constructing this tower and with this water main extension in the fourth pressure zone of the City's water distribution system, it allowed growth to take place for residential, commercial and industry to the west of the community.

To date, both sanitary sewer and water service have been extended through the Dubuque Industrial Center West, along Seippel Road to the north edge of the Callahan subdivision. Additional funds are available to extend water and sewer service to the 643 acres annexed and to other areas under consideration for annexation. The City has spent in excess of \$2 million to replace much of the North Fork Catfish Creek Sanitary Sewer Line. The City extended the Granger Creek Interceptor sewer and the public water main from the Technology Park South along highway 151/61 to the north side of the Dubuque Regional Airport. The Granger Creek sanitary sewer and water main extension provided immediate sanitary sewer and water services to the Dubuque Regional Airport and portions of the annexation areas that are adjacent to the highway 151/61 corridor.

Greater Downtown TIF District

This district was formally the Downtown and Ice Harbor TIF districts but now have been combined to the Greater Downtown TIF district. Many projects, which are City Council priorities, are able to move forward due to the availability of Greater Downtown TIF revenue due to continued growth to further sustain a rejuvenated downtown and port of Dubuque. The following are projects included in the FY 2025-2029 CIP:

Washington Community Gateway (page 34) – This project (\$114,000) provides for developing the vacant lot at 1401 Elm Street as a Washington Community Gateway. The City purchased this property in 2014. The structure has been removed, and the lot is currently grass. This project would provide for such amenities as three flag poles, park lighting, security cameras, a welcome sign to the Washington neighborhood and a drinking fountain.

ABC Supply Building Deconstruction (page 223) – This project (\$457,000) provides for hazardous material remediation and structure deconstruction of a former city-owned leased property along Highway 151 near the South Port. This funding would support the deconstruction of the former ABC Supply building whose lease expired in December 2018. Clearing this site of the existing outdated and obsolete structure will help to prepare it for redevelopment.

Reimagine Comiskey (page 26) – This project (\$3,417,000) provides for funding related to phases 2-4 of the Re-Imagine Comiskey park redevelopment. Phase 1 was completed in FY23. Phases 2-4 includes an additional basketball court, a large turf field, parking lot, additional sidewalks, lighting and pavilions. The construction of a basketball court and parking lot would happen in FY26, and the installation of a large turf field, additional sidewalks, lighting and pavilions would happen in FY29.

Downtown Urban Renewal Area Non-Profit Weatherization Improvements Assistance (page 285) – This program (\$150,000) provides funding for matching grants to assist non-profits in the Greater Downtown TIF area to make energy efficiency improvements to their buildings, including weatherization measures, HVAC system upgrades, alternative energy sources, and other work to decrease their utility bills. This reduction in annual operating costs will allow non-profits to invest more funds in achieving their organization's mission. Energy efficiency improvements not only result in financial savings to the organization but will also help to meet the 50% by 2030 Community Climate Action & Resiliency Plan goals approved by City Council in 2013.

Five Flags Building Improvements (page 37) - This project (\$23,454,000) provides for improvements to the building (arena, theater, lobby areas, exterior) and its equipment. This would be used on the current facility at its current footprint in its current state. The building is in need of air wall replacement, wood window repairs, painting of the steel exterior, resealing the ballroom floor, remodeling/upgrading concession stands, carpet and tile replacement, locker shower upgrades, stage dimmer light replacement, dressing room upgrades, elevator upgrades, placement, refurbishing the stage floor, restoration of theater seats, painting walls and ceilings, satellite ticket booth, theater counter weight and grid system, roof repairs, lighting upgrades and retrofits and other building needs. Equipment replacement needs include the sound system, floor scrubber, tables and portable chairs, water fountains, popcorn popper, concert lighting, pipe and drape, follow spots, lighting consoles, masking equipment, scoreboard and other equipment replacements. New equipment necessary for a venue doing the level of business of Five Flags include wireless internet, technology upgrades, and more. All projects listed have been submitted previously as individual projects with the oldest project continuously submitted since 2003. The majority have been cut from the budget for 12-13 years. Civic Center opened its doors in 1979, alongside the restored theater with a \$3.7 million bond. Additional upgrades and renovations were completed in 2005 for just over \$2.0 million.

Grand River Center Public Restroom Remodels (page 50) - This project (\$770,000) funds a comprehensive remodel and renovation of all public bathrooms for a better guest experience. The current design of these facilities has become outdated and is in need of a look that matches the rest of our venue and better meets the expectations of the guests of today. This project aims to revitalize the appearance of the restrooms and upgrade the existing fixtures, many of which have remained untouched since the facility's initial opening in 2003.

Grand River Center Dishwasher and Water Softener Replacement (page 49) - This project (\$181,000) funds a dishwasher and water softener replacement, as they are original to the venue and reached its industry-standard lifespan. After running dishes through the current dishwasher, they are coming back spotted which leads to concerns when placed in front of the guests.

Replace Carpet at Grand River Center (page 45) - This project (\$65,000) provides for replacing the carpet in various rooms and areas throughout the Grand River Center. Higher use areas of the convention center are on an ten-year replacement cycle. The carpeting establishes a new, fresh look to the room. FY29 will replace the spine carpet, with plans to budget more money in the future to replace carpet in other areas.

Roof Restoration at Grand River Center (page 46) - This project (\$1,427,000) provides for restoration of the Grand River Center roof. The roof was installed in 2002. Restoration is critical in order to avoid very expensive damage if it began leaking. The budget in FY 2025 is for patching with full replacement in FY 2029.

Five Flags Boiler Replacement (page 38) - This project (\$410,000) funds the replacement of three, 2 million BTU boilers which provide heating for the arena. The current boiler system was installed in 2006 and has a replacement schedule of 20 years. Future boilers are more energy efficient, helping to reduce future costs.

Port of Dubuque Flood Wall Dubuque Welcome Sign (page 44) - This project (\$33,000) is for the design, development, and installation of an 8-foot by 200-foot "Welcome to Dubuque" sign located on the flood wall near the Ice Harbor flood gates. There is currently no signage along the river to let patrons know that they have either arrived or are passing by Dubuque. Such a sign on the wall would not only be a welcoming visual for those visiting on cruise ships or other vessels but can create awareness on the river that this is an area they may

approach in order to visit the City. This sign could also indirectly filter boat traffic into the Port of Dubuque Marina to dock and/or fuel. Included in this project would be the purchase and installation of solar lighting with a 5-year replacement cost of \$3,500.

Smart Parking System (page 268) - This project (\$2,737,000) funds the replacement of the City's obsolete parking gate equipment at city parking garages and lots, curbside parking meters, and installation of a parking lot occupancy count system at lots without gate equipment. As part of this project, head end parking management software, cyber-secure payment software, expanded broadband connections, available parking space electronic message boards, and a customer-friendly parking app will be deployed. The new smart parking system will provide parking customers with on-demand space availability and thus maximize traveler convenience, reduce travel time, maximize parking revenues, and help to reduce congestion in the downtown area.

Municipal Parking Lot Maintenance (page 269) - This project (\$225,500) provides for maintaining the surface of 14 off-street municipal parking lots. This project also includes signage, landscaping, and screening improvements to surface lots. Lots include: Lot 2 (9th and Bluff); Lot 3 (5th and Bluff); Lot 5 (City Hall Lot); Lot 6 (Library Lot); Lot 7 (3rd and Main); Lot 10 (5th and Main); Lot 12 (4th and Central); Crescent Community Health Center Parking Lot; Lot 4 (12th and Bluff); Port of Dubuque Surface Lot; Federal Building Parking Lot; Elm Street Parking Lot; Ice Harbor Drive Parking Lot; and Lot 9 (3rd and Locust). The funding for maintenance of municipal parking lots provides for pavement crack sealing, repairs, line striping, and seal coating surfaces.

Ramp Major Maintenance (page 271) - This program (\$10,602,000) funds major renovation work needed at the Iowa, Locust, 5th Street, Five Flags, 10th and Central, and Intermodal ramps. Funding will address structural repair items and needed mechanical, electrical and plumbing repairs.

Downtown Rehab Grant Program - Includes Central Avenue, Historic Millwork District and Washington Neighborhood (page 261) – This program (\$1,000,000) grants for rehabilitation and adaptive reuse of buildings in the Greater Downtown Urban Renewal District. Tax increment proceeds are used to capitalize the pool of funds for these grants. This grant program provides a 1:1 match for eligible expenses for improvements to façades, as well as accompanying costs for financial consulting, planning and design work for the project. Potential projects identified at this time are 1700 Block of Central (multiple buildings) and 3000 Jackson. In addition, we typically receive requests for 5-6 smaller projects annually. This grant program receives the most inquiries and interest of all Economic Development's programs. The program promotes the redevelopment of the downtown, maintains its historic appeal, and complements grant/loan programs provided by our partners at Dubuque Main Street. Revitalization of the Central Avenue Corridor is a top priority of City Council, which is one area where this program can be used.

Port of Dubuque Parking Lot Resurfacing (page 267) - This project (\$225,000) funds the resurfacing of the Port of Dubuque Parking lot, which is adjacent to the McGraw-Hill Building. This parking lot has reached the end of its useful life and is in major need of repair.

Street Camera Installation (page 233) - This project (\$115,000) funds the equipment, installation and software license for the placement of fixed cameras to be installed near roadways, alleys and signalized intersections throughout the City of Dubuque. Currently, the Traffic Operations Center has communication lines throughout the City along major and minor arterials, city streets and near signalized intersections. Engineering uses these cameras to remotely monitor and adjust traffic operations. Over the last few years, Engineering and Police have worked together using these cameras to aid the police in accident and crime investigations on a daily basis, making them an

integral part of public safety. These funds would also be available to add fiber optics communications lines to areas in need of cameras and to replace existing cameras as they age and as technology advances. Each camera costs approximately \$2,500.

Street Light Replacement and New Installation (page 227) - This project (\$25,000) provides for a replacement program of the existing 30-foot white streetlights and some traffic signals located in downtown Dubuque. The project would replace all remaining white poles and install lighting controllers with meters. In certain cases, these would be replaced with historical streetlights. Many of the streetlights in the downtown area were installed in the early 1950's. These are the white, 30-foot style found along Central, Main, Iowa, Locust and Bluff Streets. Many of these streetlights utilize a direct burial style feed and unique service panel which makes it very difficult and costly to maintain. This project would also fund LED replacement luminaries throughout the City. This program would promote the use of highly efficient, long-life LED street lighting throughout the City of Dubuque which saves energy and operating expenses. Current locations of interest include the Port of Dubuque Riverwalk, Bridge Lighting locations and miscellaneous subdivision locations. This project also initiates a scheduled replacement of older streetlights throughout the City and will also include the installation of new streetlights when conditions warrant. In many older subdivisions, the entire light fixture, base, pole, and conduits need replacing. Currently there are around 60 lights in 24 locations outside of the downtown lights that are in need of replacement. Average cost of reconstruction is around \$1,500 to \$2,000 each.

Central Avenue Corridor Streetscape Master Plan Implementation Improvements (page 204) - This project (\$15,536) aims to implement recommendations outlined in the adopted Central Avenue Streetscape Master Plan along Central Avenue between 11th and 22nd Streets, as well as potential recommendations from the traffic study currently underway for the Central and White Street corridors. These funds are intended to be flexible, whether that be for design, construction, amenities (such as transit stops, moveable amenities, and beautification efforts) or other needed improvements. This project would utilize complete street concepts and standards to accommodate pedestrians, bicyclists, transit, and other motor vehicles in the corridor. Special attention would be made to creating a sense of place for this corridor. This project is identified in the comprehensive plan and was a City Council 2022-2024 High Priority.

Federal Building Renovation (page 249) - This project (\$9,681,950) requests additional funding to complete needed renovations to the Historic Federal Building. In 2008, significant updates were completed to improve its overall condition and to ensure it remained as a historic structure anchoring downtown. Now, 14 years later, this historic building requires additional funding to ensure it remains in solid condition. Due to the COVID-19 pandemic, funding over the past two fiscal years has been reduced from this capital improvement project budget. The listed funding request attempts to replenish building components currently in deferred maintenance status and address emerging concerns.

City Annex Roof Replacement Project (page 252) - This project (\$26,500) replaces the back roof on City Hall Annex. The current condition of the roof is poor and is well past the intended service life. Replacement is needed to ensure the building remains water tight and protects the Information Technology equipment housed within the building. Funding is requested in FY25 to complete replacing the last section of roof following the main roof replacement in FY24.

City Hall Tuck Pointing and Foundation Wall Repairs (page 250) - This project (\$75,000) is being requested to address the deteriorating condition of the northern and western foundation walls of City Hall. The west building facade is showing signs of deterioration due to accelerated cracking of bricks and loss of mortar in certain joints. Over the past decade, high moisture content in the lower west facade bricks has been observed.

Multicultural Family Center- Ruby Sutton Building HVAC Replacement (page 253) - This project (\$40,000) replaces the existing HVAC units that are more than 20 years old, which provide conditioned air to the Ruby Sutton building portion of the Multicultural Family Center. The Multicultural Family Center operates year-round providing services to all parts of the community. These units are at an age where they are becoming unreliable. If a unit fails in the summer, hot internal building temperatures may result in disruptions to on-going programs or city staff working in the building.

Multicultural Family Center- Basement Rehabilitation (page 254) - This project (\$30,000) funds the demolition of the partition walls in the basement of the Ruby Sutton Multicultural Family Center building and install modernized storage systems to create more functional storage space. The storage systems are needed to remove several safety concerns that exist in this cramped space.

Downtown Bike Lockers (page 257) - This project (\$45,000) funds the installation of 4-5 weatherproof bike lockers per year at the downtown building facilities. In the past two years, more city employees are biking to work and are parking their bikes inside the building of their assigned work space. On bad weather days, bikes are bringing additional rain and snow into the buildings that can increase risk of slip-and-fall incidents. Bikes stored haphazardly in hallways can also interfere with emergency egress walkways. Some bikers can own bikes costing as much as \$10,000 and, thus, are reluctant to store them in the open air at exterior bike racks. Weatherized bike lockers will provide riders with the needed protection and security to allow bikes not to be stored indoors.

South Port Redevelopment Concept Plan (page 220) - This project (\$60,000) funding will be used to support the planning and design of additional contamination clean-up efforts in the South Port to maximize the redevelopment potential of the area. In the recent past, the City has developed a master plan for this area that includes several updates, yet no redevelopment has materialized. The ongoing United States Environmental Protection Agency Multipurpose Grant will clean up two contaminated sites that are prime for redevelopment; however, the grant funds will not be enough to fully complete the needed remediation. City staff are planning to apply for a \$2 million USEPA clean-up grant in FY25 that will primarily happen in FY26. An additional benefit to cleaning-up the South Port will be improved accessibility to the south port levee trail. This project directly supports the implementation of the Imagine Dubuque Plan.

Iowa Amphitheater on Schmitt Island (page 224) - This project (\$5,784,961) provides for a match to the Destination Iowa grant that would construct the Iowa Amphitheater on Chaplain Schmitt Island in the location of the former dog kennels for the greyhounds. This project relates to the City Council top priority goal of Chaplain Schmitt Island Master Plan Implementation.

Incremental Development and Small Business Storefront Establishment Coaching (page 225) - This project (\$150,000) funds a hired consultant that will work directly with people primarily living in the Washington, North End, and Point neighborhoods. Over a 12-month period, the consultant will be tasked with training small developers, helping citizens establish a self-supporting ecosystem that strengthens their own neighborhoods, and helping local residents get the kind of development they want in their neighborhoods. The coaching format is facilitated through regular group gatherings of those going through the coaching process to build community along with offering one-on-one coaching and mentorship to help review project scopes, zoning code complexities, financing plans, business plans, and designs. For inexperienced small developers, it can be easy to get stuck when unanticipated challenges arise. The key to this program is that it breaks down the basics to give new small developers confidence, knowledge, and support to translate their idea into viable projects and to follow those projects through to completion. The consultant team will be comprised of experienced urban developers with the expertise of redeveloping complex, historic buildings, and neighborhood revitalization type projects.

14th Street Overpass (page 199) - This project (\$2,441,709) provides funding for the planning, design, and construction of a multimodal transportation corridor for proposed improvements to the Elm Street corridor, the 16th Street corridor, the Kerper Boulevard corridor, Chaplain Schmitt Island corridor, and the proposed 14th Street Railroad (vehicular and pedestrian) Overpass bridge project. This improvement will connect vulnerable neighborhoods and low-income residents with economic opportunities, recreational amenities and key community resources. The proposed project will also provide for the elimination of an existing at-grade rail crossing conflict on 14th Street and will provide for the planning and design of a proposed vehicular and pedestrian overpass bridge. Additionally, the project will focus on multimodal transportation corridors with “complete streets” and proposed roundabout intersections along the Elm Street and 16th Street corridors. Lastly, the project would include the design of an improved pedestrian/bike shared-use path along Kerper Boulevard and adjacent to the existing 16th Street Peosta Channel bridge to Chaplain Schmitt Island and strategically plan a roundabout at Captain Sheehy Drive on Chaplain Schmitt Island.

Small Business Grant Administration (page 259) - This project (\$60,000) provides \$5,000 grants to eligible business owners for eligible costs to support and expand their business. The Small Business Grant program began in 2019, which is related to the Low-to-Moderate-Income Small Business Grants Program. The City currently has a contract with the Fountain of Youth to administer the program.

Green Space HMD (page 262) - This project (\$300,000) funds green space in the area north of the Intermodal Parking Ramp and west of the Intermodal Center, per the Historic Millwork District Master Plan. These funds will support an initial step of removing the temporary parking lot and seeding the area. Further planning is needed to identify the exact use and design of this area (to be determined during an updating of the Master Plan through public engagement).

Central Avenue Housing Forgivable Loan (page 263) - This project (\$750,000) aims to accelerate the creation of affordable downtown housing options by creating a more flexible program for projects that propose the rehabilitation of more than one building and a minimum of 4 units. The City Council has prioritized the revitalization of the Central Avenue Corridor, and the Comprehensive Plan calls for encouraging multi-family development near jobs/walkable and mixed-use areas. The program is currently proposed for use along the Central Avenue Corridor between 11th Street and 22nd Street. For this program, a unit could be considered eligible, even if recently occupied, if the project involves a substantial rehabilitation of the unit and buildings. The program provides a loan, forgivable at the 10-year mark, if the developer has maintained the terms of the agreement. Projects cannot discriminate based on the tenant's source of income.

Greater Downtown Housing Creation Grant Program (page 258) - This project (\$2,000,000) provides grants and loans for rehabilitation and adaptive reuse of buildings in the Greater Downtown Urban Renewal District. Tax increment proceeds are used to capitalize the pool of funds for these grants. The program provides grants of \$10,000 for each new housing unit created in the District. The program creates affordable, quality rental housing units for our workforce in areas well-served by public transit. All projects must commit to accepting all sources of income for otherwise eligible tenants. Potential projects identified at this time are: 1195 Central (14 units); 1700 Block of Central (34 units); 3000 Jackson (75 units); 799 Main (36 units); 801 Jackson (113 units). In addition, we typically receive requests for 5-6 smaller projects (10-20 units) annually. Providing housing incentives is a high priority of the City Council.

Washington Neighborhood Home Purchase Program (page 274) - This project (\$287,500) supports and encourages homeownership in the Washington Neighborhood. The program operates under the oversight of the Housing Trust Fund Committee and is capitalized by annual

grants received from the Iowa Finance Authority (IFA). IFA requires a match for the program, and the City provides IFA Trust Match from the Greater Downtown TIF (GDTIF) funds. The primary purpose is to complement homebuyer programs by providing loans to low-to-moderate income homeowners and buyers in the Washington Neighborhood. Homebuyer loans are offered on a sliding scale. Households earning less than 30% of median income (MI) are eligible for \$25,000; less than 50% MI are eligible for \$20,000; less than 80% MI are eligible for \$15,000. All loans are 0% interest and have a monthly payment of \$60 per month until paid in full or it is no longer their principal place of residence. Homeowners are eligible for up to \$25,000 for the rehabilitation of their property. The new boundaries are 11th Street to 32nd Street and Elm Street to Central Avenue.

Downtown ADA Assistance (page 278) - This project (\$150,000) funds the City of Dubuque Downtown Urban Renewal District ADA Assistance Program. The program supports residents and businesses to ensure facilities in the Downtown Urban Renewal Area are fully accessible and inclusive to all persons regardless of abilities. This includes parking lots, retail and wholesale stores, restaurants, cafes, taverns, gas stations, public buildings, lodging, schools, parks, and entertainment venues. The program is designed to assist businesses with the cost of becoming ADA compliant. Qualified applicants can receive up to 50% of the cost of the project from the City of Dubuque, at a maximum amount of \$5,000 per property.

ADA Compliance and Facilities Management Consulting (page 255) - This project (\$100,000) is for consulting services related to ADA Compliance Phase II and further implementation of the City's ADA compliance application, called InVision Facilities Management. In Phase I, we were able to have the floor plans of 2 city buildings added to InVision Facilities Management, as well as buildings and pavilions located in parks. In the second phase, we will add additional building footprints and work with a consultant to fully implement the application and possibly tie it into GIS software. The funding for this phase is spread out over three years. This project is listed in the City Council's Goals & Priorities Management Agenda, under ADA Compliance Funding Phase II and InVision Facility Management Software Implementation.

North Cascade Housing TIF District

In FY 2014 the City created the first housing TIF district in the Timber Hyrst subdivision off of North Cascade Road. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area.

Assistance for Homeownership (page 272) - This project (\$526,239) provides for acquisition activities where the City may purchase abandoned, derelict buildings and houses; or it may purchase housing subject to mortgage foreclosure actions in order to secure City funds previously loaned as part of rehabilitation activities or other housing to accomplish the goals. Certain improvements will be made to the properties in order to make them marketable for resale. In this manner, neighborhood conditions are improved, dwellings are resold to responsible owners and City dollars are returned to the revolving fund.

English Ridge Housing TIF District

In FY 2015 the City created a housing TIF district in the English Ridge subdivision off of Stone Valley Drive. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low

and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area.

Assistance for Homeownership (page 272) - This project (\$1,382,267) provides for acquisition activities where the City may purchase abandoned, derelict buildings and houses; or it may purchase housing subject to mortgage foreclosure actions in order to secure City funds previously loaned as part of rehabilitation activities or other housing to accomplish the goals. Certain improvements will be made to the properties in order to make them marketable for resale. In this manner, neighborhood conditions are improved, dwellings are resold to responsible owners and City dollars are returned to the revolving fund.

South Pointe Housing TIF District

In FY 2017 the City created a housing TIF district in the South Pointe subdivision off of Highway 151 South. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area.

Assistance for Homeownership (page 272) - This project (\$1,751,473) provides for acquisition activities where the City may purchase abandoned, derelict buildings and houses; or it may purchase housing subject to mortgage foreclosure actions in order to secure City funds previously loaned as part of rehabilitation activities or other housing to accomplish the goals. Certain improvements will be made to the properties in order to make them marketable for resale. In this manner, neighborhood conditions are improved, dwellings are resold to responsible owners and City dollars are returned to the revolving fund.

Rustic Point Housing TIF District

In FY 2017 the City created a housing TIF district in the Rustic Point subdivision off of Derby Grange Road. This is a ten year TIF which requires at least 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. The LMI Housing TIF revenue can be used for City initiatives other than the Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Area.

Assistance for Homeownership (page 272) - This project (\$604,544) provides for acquisition activities where the City may purchase abandoned, derelict buildings and houses; or it may purchase housing subject to mortgage foreclosure actions in order to secure City funds previously loaned as part of rehabilitation activities or other housing to accomplish the goals. Certain improvements will be made to the properties in order to make them marketable for resale. In this manner, neighborhood conditions are improved, dwellings are resold to responsible owners and City dollars are returned to the revolving fund.

MISCELLANEOUS SOURCES

Private Participation (0.41% of Total CIP)

Private contributions represents the non-City share of the cost of several projects including private participation, fund raising, loans, grants and future resource allocation of City funds. Private participation funds included in the five year CIP include: Boyd Gaming contribution for the Port of Dubuque Ramp Maintenance (\$449,015); Street Lighting and Traffic Signal Knockdown insurance reimbursements (\$50,000); Dubuque County

contribution for new public safety software (\$1,500,000); Canadian Pacific Kansas City Southern (CPKC) Railroad contribution for 14th Street Overpass project (\$1,000,000); and IDOT reimbursement for the Pavement Marking program (\$125,000).

Special Assessments (0.16% of Total CIP)

Special Assessments represent that portion of street and sanitary sewer improvement projects anticipated to be assessed to benefiting property owners. The \$580,000 amount breaks down: (a) \$370,000 for sanitary sewer special assessments, and (b) \$210,000 for sidewalk lien special assessments.

Cable TV (0.01% of Total CIP)

It is anticipated that Cable TV funds will be used in the five-year CIP of \$26,240 for computer replacements.

PROJECT DESCRIPTION/JUSTIFICATION

This project is for the replacement of the current public safety software, which includes the Records Management System (RMS), Computer Aided Dispatching (CAD) and Jail Management System (JMS) for the Dubuque Police Department, Dubuque Fire Department, Emergency Communications, Dubuque County Sheriff's Department, volunteer fire departments, and other law enforcement agencies in Dubuque County. The existing software purchased in FY 2011 is at the end of its useful life and no longer receives technical support from the vendor. The software will be funded using American Rescue Plan Act funds.

Integrated software is a main component of public safety. Integrated software allows the user to minimize time spent with data entry and redundancy by allowing the various systems of RMS, CAD and JMS to talk to each other. Current public safety software allows for easy access across all systems, such as desktop computers, mobile devices, and mobile computer terminals (MCT's). Additionally, newer software allows for situational awareness for public safety personnel by integrating technology platforms such as the public safety cameras and GIS integration, which shows location and terrain. A key component to a new system is the ability to retrieve data that is complete, accurate, timely, and transparent.

A task force consisting of the above-mentioned entities and led by the City Information Technology Department has created requests for proposals. Initial response shows the cost of the above system will be approximately \$3 million, with Dubuque County paying half (pending Board of Supervisor approval) and the City paying the other half. There is also an annual subscription cost which will be split 50/50 between the City and the County. For years 2-5, the City's portion of the annual subscription cost will be \$185,000, with the Fire Department paying 3.5% of that cost, for a total of \$6,475.

DEPARTMENT: 11 - Police	STATE PROGRAM: 1C - Public Safety	PROJECT TITLE: Public Safety Software	YEAR FIRST SUBMITTED: FY 2024 PROJECT NO:	TOTAL PROJECT COST \$ 3,000,000

PROJECT DESCRIPTION/JUSTIFICATION

This project replaces Heating Ventilation and Air Conditioning (HVAC) components at Fire Headquarters over a three-year period. The heating boiler, air handlers, and associated control system are original to the building (1970). All three components are beyond their expected service life. The HVAC and Lighting System Improvement Study completed in 2015 listed replacement of these components as the top priority. This CIP originally outlined the replacement of the system controls in FY2022 which were carried over into FY 2023 and placed with the boiler replacement. The projects maintain an estimated pay-back in 12 years, and the replacement of the boiler in FY 2023 suggests "dramatic" energy savings. All three air handling units remained in the FY 2024 CIP budget to relieve excess condensation and mold growth, improving the air quality in the building. The Federal Building and Fire Headquarters are currently being evaluated with work to begin once RFP completed. Work on the HVAC Control Replacement did not occur in FY 2022 and was carried to the FY 2023 budget. The FY 2023 budget also includes \$175,748 for boiler replacements at the main fire headquarters. The Engineering department is working with vendors to provide estimates for both the Federal Building and Fire Headquarters, and the RFP process is anticipated to begin soon. The project has not been started as of FY 2024 and emergency repairs to the HVAC system were approved in the summer of 2023. An engineering firm was also approved to begin work on engineering for the appropriate system design for fire headquarters which will take the other approved CIP projects being coordinated at headquarters into consideration, this will eliminate any missed opportunities on system designs for these areas which include the second floor bunkroom, the main floor administration office redesign and the apparatus floor exhaust system. Maintenance costs for HVAC issues at fire headquarters was \$17,000 in 2023. Emergency repairs for 2024 hit \$60,000.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Mechanical and Electrical System Upgrades project (CIP 1315000006), the Fire Station Exhaust Systems project (CIP 1315000009), the Fire Department Bunk Room project (CIP 1315000025), and the Fire Administration Office Upgrade project (CIP 1315000029). All of the CIPs mentioned have an engineering and design component that will be impacted heavily by the HVAC redesign and configuration CIP. Creating individual bunk rooms from an open space will require HVAC engineering, as well as changing the fire headquarters office layout. Ensuring the exhaust system selected works in harmony with the building HVAC design will be critical. Working each of these projects separately will be a duplication of engineering efforts and increase the overall cost.

DEPARTMENT: 13 - Fire	STATE PROGRAM: 1C - Public Safety	PROJECT TITLE: HVAC Replacement at Fire Headquarters 11 West 9th Street	YEAR FIRST SUBMITTED: FY 2020 PROJECT NO: 1315000008 350-2810	TOTAL PROJECT COST \$ 1,291,154
---------------------------------	---	--	---	---

OUTCOME

Sustainable Environment: Reduce the community's carbon footprint (50% by 2030).

PROJECT DESCRIPTION/JUSTIFICATION

This project would implement recommendations from the 2015 Heating, Ventilation, and Air Conditioning (HVAC) and Lighting study. Modus consultants provided a five-year plan (started in FY21) to improve HVAC and lighting at fire stations. This report seeks to identify cost-savings and energy conservation projects among fire stations that will reduce the environmental impact and provide savings in operating costs. This project covers upgrades to lighting and HVAC projects at five satellite fire stations. Three stations have been converted to LED lighting and energy efficient components to reduce energy use. Fire stations 5 and 3 had lighting upgrades completed in FY 2024. The fire department will conduct a final review of all fire stations for efficiencies and wrap up the project with identified efficiencies at fire headquarters which will be closely associated with the HVAC CIP, bunk room remodel CIP, fire administration office upgrade CIP, and final vehicle exhaust system upgrade CIP at fire headquarters. An increase of 3% has been added to 2025 due to cost increases related the current supply demands and delays.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Fire Headquarters HVAC project (CIP1315000008), the Fire Station Exhaust System project (CIP 1315000009), the Fire Department Bunk Room project (CIP 1315000025), and the Fire Administration Office Upgrade project (CIP 1315000029). All of the CIPs mentioned have an engineering and design component that will be impacted heavily by the HVAC redesign and configuration CIP. Creating individual bunk rooms from an open space will require HVAC engineering, as well as changing the fire headquarters office layout. Ensuring the exhaust system selected works in harmony with the building HVAC design will be critical. Working each of these projects separately will be a duplication of engineering efforts and increase the overall cost.

OUTCOME

Sustainable Environment: Reduce the community's carbon footprint (50% by 2030). Sustainable Environment: Reduce the community's carbon footprint (50% by 2030).

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) or DRA Distribution/Gaming.

PROJECT ADDRESS/SERVICE AREA

PROJECT DESCRIPTION/JUSTIFICATION

This project consists of the evaluation, design, architecture, and construction of individualized bunk space in each of the City's Fire Stations. The current layout utilizes one common bunk space for all members on shift for each station. Up to 8 members bunk in one common space within the bunk room. Modern layouts provide for more private options for bunking within fire stations and improve privacy while being progressive and financially responsible in design. The project is closely related to the fire headquarters HVAC CIP due to the configuration, design and engineering needs for the bunkroom, the administration office upgrade and the impacts the HVAC design would have on these spaces. The CIPs listed above, all have an engineering and design component that will be impacted heavily by the HVAC redesign and configuration CIP. Creating individual bunk rooms from an open space will require HVAC engineering as well as changing the fire headquarters office layout. Finally, ensuring the exhaust system selected works in harmony with the building HVAC design will be critical, working each of these projects separately will be a duplication of engineering efforts and increase the overall cost. Budgeting includes \$50,000 to complete the design study of Station 1 and \$125,000 to complete the design study of Stations 2-6. Construction funding is as follows: Station 1: \$450,000, Station 2: \$150,000, Station 3: \$185,000, Station 4: \$185,000, Station 5: 125,000, Station 6: \$125,000

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Fire Headquarters HVAC project (CIP1315000008), the Mechanical and Electrical System upgrade project (CIP 1315000006), the Fire Station Exhaust System project (CIP 1315000009), and the Fire Administration Office Upgrade project (CIP 1315000029). All of the CIPs mentioned have an engineering and design component that will be impacted heavily by the HVAC redesign and configuration CIP. Creating individual bunk rooms from an open space will require HVAC engineering, as well as changing the fire headquarters office layout. Ensuring the exhaust system selected works in harmony with the building HVAC design will be critical. Working each of these projects separately will be a duplication of engineering efforts and increase the overall cost.

PROJECT DESCRIPTION/JUSTIFICATION

This project seeks to make improvements to the main fire headquarters administrative office area. The project would include an evaluation of the main administrative office areas and evaluate the opportunity to move all administrative positions into the main first floor office area. The project entails an evaluation in 2025 with proposals and cost estimates, and construction would begin in 2026. An engineering firm is currently evaluating the HVAC for appropriate design which will also tie this fire administration office design, the bunk room design, the fire station exhaust system needs together for the most appropriate and efficient use of funding. The CIPs listed above, all have an engineering and design component that will be impacted heavily by the HVAC redesign and configuration CIP. Creating individual bunk rooms from an open space will require HVAC engineering as well as changing the fire headquarters office layout. Finally, ensuring the exhaust system selected works in harmony with the building HVAC design will be critical, working each of these projects separately will be a duplication of engineering efforts and increase the overall cost.

RELATIONSHIP TO OTHER PROJECTS

\$ 31,956	\$ —	TOTAL	\$ 52,020	\$ 53,060	\$ 54,000	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project seeks to extend the service life of the City-wide outdoor warning siren system. The components of this system are now over twenty years old and failure of siren components is starting to drive up repair costs. Additionally, any failure of this warning system could have serious safety ramifications. The project is designed to replace and/or repair the system of 17 outdoor warning sirens over a five-year period. This project started with an FY21 request for \$100,000 however, those funds were frozen during much of FY21 and the project was not started.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Vibrant Community: Healthy and Safe: Have residents feeling safe in any neighborhood and throughout the community.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) or DRA Distribution/Gaming.

PROJECT ADDRESS/SERVICE AREA

Various siren sites across the entire city.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the third-party analysis of the City of Dubuque fire station locations and the identification of an additional fire station as development and annexation occurs. It is projected to be completed in FY 2025 or FY 2026. This station would be approximately 10,000 square feet and house two response apparatus, plus storage for other reserve units. The City of Dubuque currently has an annexation study and not an annexation plan. The City Development Board, which approves annexation, expects services to be provided within 3 years of annexation. For a new station, operating costs include insurance, utilities, equipment, maintenance, furniture, and the cost of employees. Based on this CIP, in FY2020, one (1) new employee was added, one (1) additional new employee was hired in FY 2021. In FY2022 no additional personnel were funded. An improvement request for additional staffing was also submitted and approved in conjunction with this fire station expansion/relocation project. The department added 4 personnel in FY 2023 and staffed its third paramedic unit in October of 2023. To accommodate staffing of an additional engine company in FY2026, operating costs also include an increase of two (2) additional staff in each coming year, FY 2024, FY 2025, and FY2026 for a total of 6 positions. These are also shown in the operating costs and would be available to staff any expansion unit. If no expansion unit is funded, the personnel would replace retiring employees. During the buildup of positions, the additional personnel will reduce the need for overtime as each shift will have more positions available to cover vacations and other leave. This advantage will diminish as the new station is placed in service in FY2026. This project does not include costs for an additional fire engine and ambulance, these costs will be listed in separate CIPs. In 2006 a study on Municipal Fire and Emergency Service Response and Deployment was done by Matrix Consulting Group. The study included an evaluation of station needs based on near-term and long-term growth projections and evaluation of alternative station locations. Over 164,000 different scenarios were evaluated. The report states, "As development occurs, the city should add one additional station and relocate one current station to accommodate the increase in fire department workload. This scenario would consist of adding a station at or near Chavenelle & Radford to provide service to the west side of the city."

DEPARTMENT: 13 - Fire	STATE PROGRAM: 1C - Public Safety	PROJECT TITLE: Fire Station Expansion/Relocation	YEAR FIRST SUBMITTED: FY 2007 PROJECT NO: 1315000005 350-1864	TOTAL PROJECT COST \$ 4,773,700
---------------------------------	---	--	---	---

PROJECT DESCRIPTION/JUSTIFICATION (Continued)

This project also provides for the 2006 study to be updated to ensure the proper location and size of station is constructed based on the years of growth that will have occurred since 2006. Should the study show that only the relocation of an existing station should occur in FY 2026, six personnel would move from the station being relocated. The design of this station is estimated to occur in Fiscal Year 2025, with construction in the following year; however, the timing is completely dependent on future development/annexation and could change. This new fire station would provide coverage to several areas identified in the 2018 Annexation Study prepared by the Planning Services Department. This includes areas along the Southwest Arterial corridor identified in sections L, I, and G of the study. As annexation and development occurs in these areas, revenue derived would help support the fire station cost. Additionally, any expansion station would positively impact service within the existing city limits and address current response time weaknesses identified during accreditation review. The cumulative cost for staff and operating the station would be approximately \$1,335,707 per year. Should the study show an existing station could be relocated or consolidated this would reduce operating expenses. Once an expansion fire station and two units are in service the daily minimum will increase to 27, with 34 personnel assigned per shift. The department is currently utilizing a third party software "Darkhorse" to confirm a variety of scenarios and options for fire and EMS service delivery in a growing community. Currently, (2023), the department is working with dispatch to update response plans and evaluate opportunities for improvement in response times which may impact the recommendations for station location. Both call handling and turn out times have been identified as areas of opportunity for improvement. The department expects to leverage these efficiencies and reevaluate the findings for the station location and planning data in Decemebr of 2023.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Healthy and Safe: Have a safe urban environment by providing high-quality emergency services

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) or DRA Distribution/Gaming.

PROJECT ADDRESS/SERVICE AREA

Fire Station coverage area will include all areas from John F Kennedy RD./Cedar Cross RD. & Kelly Lane West and South to City Limits.

DEPARTMENT: 13 - Fire		STATE PROGRAM: 1C - Public Safety	PROJECT TITLE: Zoll Cardiac Monitors			YEAR FIRST SUBMITTED: PROJECT NO:	2024 1315000026	TOTAL PROJECT COST \$300,000

\$ 137,123	\$ —	TOTAL	\$ 193,000	\$ —	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project completes replacement of the roof at Fire Station 6 that was not able to be previously funded. The roof is well beyond its expected service life and is in need of replacement. Updated estimates to replace the roof indicate that current project contingency funds from the on-going external stairwell project will not be enough for the needed roof replacement. The requested funds will supplement existing CIP balances to allow the roofing project to be completed in 2024. This work will also include adding an OSHA compliant roof access hatch & associated safety railings along with rehabilitating the cupola. Additional funds are budgeted for structural slab repair of the truck bay in order to prevent corrosion from road salt infiltration accelerating damage to the concrete slab. Lastly due lack of available funds during the stairwell project, updates are still needed to the flooring in the occupied spaces of the fire house to provide modernized non-slip, low maintenance walking surfaces. This project is a continuation of the same project that was funded in 2021.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Maintain and enhance City Infrastructure and facilities

\$ —	\$ —	TOTAL	\$ 466,676	\$ —	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

The objective of this Capital Improvement Project (CIP) is to replace the outdated and out-of-service live fire simulator at the training center's burn building. The current system has dutifully served the departments for over 17 years but has now become obsolete and unreliable, necessitating a modern, efficient, and compliant replacement.

Dubuque County Firefighters Association worked together in 2003 to design and build a state-of-the-art training facility which leveraged the technologies at the time to create a space for firefighters to receive realistic, hands-on scenario-based training on low frequency high risk events.

The burn building serves as a critical training ground, facilitating the education of more than 400 firefighters across the county annually. This facility plays a pivotal role in the onboarding and continuous development of new firefighters, enhancing their skills and ensuring their preparedness for real-life firefighting scenarios. It also provides for the critical ongoing and advanced training needed for our seasoned members.

The existing live fire simulator has significantly aged and is no longer up to par with modern training requirements. Its replacement is imperative to maintain high training standards, ensuring the safety and proficiency of our firefighters. The buildings' fire protective coating is also worn, in need of inspection and replacement. The current technology utilizes environmentally friendly propane or natural gas and complies with NFPA 1402 standards, reflecting our commitment to safety and environmental responsibility.

A team of fire department training experts representing various ranks and departments meticulously researched available technologies and vendors, taking the initiative to visit and experience firsthand the systems that could potentially replace the existing one. Their findings, alongside the oversight of all chief officers and a dedicated training oversight committee, have guided the decision to pursue this capital improvement.

DEPARTMENT: 13 - Fire	STATE PROGRAM: 1C - Public Safety	PROJECT TITLE: Training Burn Tower Improvements- County Training Facility	YEAR FIRST SUBMITTED: FY 2025 PROJECT NO:	TOTAL PROJECT COST \$ 466,676
---------------------------------	---	---	--	---

PROJECT DESCRIPTION/JUSTIFICATION

The County Fire Departments are committed to allocating \$150,000 for this project, acknowledging the critical need for a state-of-the-art fire simulation system. The minimum costs associated with the structural fire simulator system (Main system components, Industrial controls, safety systems, and logistics and support) will be \$434,930. An additional 5% is being added for potential price increases for labor and materials and miscellaneous costs. (\$21,746) Total City request \$456,676. Optional add on items which could include (an added kitchen simulator, rollover props for kitchen and stairwell, smoke distribution system, smoke generator, relocate old props and platform for storage of props, annual preventative maintenance) would cost approximately \$256,260.00. There will be additional costs for preparing the building, inspecting, and replacing thermal protective material which prevent the high heat from impacting the structure itself. These costs have been estimated at approximately \$150,000. The CIP request being submitted by the Dubuque Fire Department would cover the minimum cost associated with upgrading the structural fire simulator at \$434,930 and the training costs associated with training Dubuque Fire Department members as train the trainer instructors, safety officers and operators of the system, approximately \$10,000. The County Fire Departments would cover the costs of bringing the building up to the appropriate condition prior to burner installation and using any remaining funds to select add on items off the optional add on item list including the annual preventative maintenance.

Once funding is secured, the upfitting of the building with the new fire simulation system is estimated to take approximately four months. The target is to have the simulation system fully operational and in service by the Spring of 2025, reinforcing our commitment to firefighter training excellence and community safety. Maintenance upgrade to current training tower, related to previous investment in 2003.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capitapl projects.

OUTCOME

Healthy and Safe: Have a safe urban environment by providing high-quality emergency services

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) or DRA Distribution/Gaming.

		B. PROJECT FINANCING G.O. Debt (Sales Tax Fund 20%)	\$ 53,822	\$ —	\$ —	\$ —	\$ —	\$ —
\$ —	\$ —	TOTAL	\$ 53,822	\$ —	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This CIP request would provide funding to install wireless headsets in each of our front line fire apparatus. The wireless headsets provide hearing protection to the occupants while allowing streamlined communications. Noise levels inside a fire engine can range from approximately 80 decibels (dB) at idle to well over 100 dB or more when the sirens are activated. Firefighters are frequently exposed to noise levels exceeding this limit during emergency responses, which can lead to long-term hearing damage. The headsets not only facilitate communication but also act as a barrier against excessive noise exposure, reducing the risk of hearing impairment among our firefighters. This CIP would provide for the installation of wireless headsets for the front line responding suppression vehicles only, this includes engines and ladder trucks.

DEPARTMENT: 13 - Fire		STATE PROGRAM: 1C - Public Safety	PROJECT TITLE: Fire Station Generators			YEAR FIRST SUBMITTED: PROJECT NO:	FY 2025 1315000034- 304-67990	TOTAL PROJECT COST \$ 100,000
2023 EXPENSE	2024 BUDGET	PROJECT BUDGET	2025	2026	2027	2028	2029	2030
		A. EXPENDITURE ITEMS Fire station generators - Stations 2-6	\$ 100,000	\$ —	\$ —	\$ —	\$ —	\$ —
\$ —	\$ —	TOTAL	\$ 100,000	\$ —	\$ —	\$ —	\$ —	\$ —
		B. PROJECT FINANCING G.O. Debt (Sales Tax Fund 20%)	\$ 100,000	\$ —	\$ —	\$ —	\$ —	\$ —
\$ —	\$ —	TOTAL	\$ 100,000	\$ —	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This CIP requests funding to replace the departments aged generators with newer, more efficient natural gas generators and relocating them outside. The current generators are 24 years old. Each fire station is equipped with generators which provide critical back up power in the event of a power outage. Maintaining appropriate services to our fire department buildings are critical in ensuring the ability to respond along with maintaining conditions to safely house firefighters and equipment. Two of the older fire stations have gasoline/ diesel generators which require the crews to relocate to the outside of the building in order to use. With newer technology, as we have at fire headquarters, the generators can be placed on exterior pads and equipped with automatic transfer switches as well as wireless monitoring systems to ensure operational readiness at all times. The gasoline generators can be upgraded to include natural gas fed systems and eliminate the dangers of housing gasoline/ diesel generators inside of the stations. The departments safety committee researched the costs associated with upgrading the generators at 5 of the fire stations and moving the systems to the exterior. The general cost for each station is estimated at \$20,000 and includes a new 20KW single phase natural gas generator with an automatic transfer switch, fiberglass generator pad, battery, cold weather kit and limited warranty. The department's safety team would work with the city to ensure the appropriate size and fit for each station, some buildings (fire station 5 and 6) may not require the same generator size to ensure appropriate back up power.

\$ —	\$ —	TOTAL	\$ 33,500	\$ —	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This CIP requests funding to support a community wide Automated External Defibrillator (AED) program within Dubuque. The initiative will utilize 22 donated AED's and partner with other city departments to install these AED at various parks and recreational facilities in Dubuque. The project has an objective of placing 15 interior-rated AED cabinets and 5 outdoor rated AED enclosures throughout the community within the next 2 years. The project will include a partnership with PulsePoint, a 911 connected app that will provide immediate notification to registered members in the immediate area to assist with sudden cardiac arrest incidents within the immediate public area. The App also notifies citizen responders of an AED in the area so it may be used prior to fire department arrival. In summary, the app brings appropriately trained community members and locally installed AEDs together to assist our public safety responders in sudden cardiac arrest events throughout the community. This initiative will improve the survivability of cardiac arrest events and improve the general awareness of bystander CPR.

\$ —	\$ —	TOTAL	\$ 340,000	\$ —	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project requests funds to replace the Fire Department's boat. This project was originally submitted and funded in FY24, and that request planned on securing a FEMA Port Security Grant to help cover the cost of replacement. That grant was not able to be secured, so the FY25 request includes additional City funds to cover the entire cost of the replacement. The FY24 budget included \$100,000 in City funds, so the FY25 request covers the entire cost of replacement less \$100,000. This CIP would replace the 23 year old fire boat. The boat currently provides fire, hazardous materials, water rescue, and EMS coverage for portions of the Mississippi River. This also supports the police department and other waterway partners and would be utilized for special events along the river. The current boat is facing some performance challenges due to its age and has received approval for replacement by vehicle services in the FY24 budget process. The city continues to promote and support increased activities along the Mississippi River including increased tourism and larger cruise vessel traffic. Maintaining an aggressive emergency water response resource is critical for supporting safe recreational activities.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially responsible, High Performance City Organization: Provide City services responsive to the community.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) or DRA Distribution/Gaming.

PROJECT ADDRESS/SERVICE AREA

\$ —	\$ —	TOTAL	\$ —	\$ 700,000	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This CIP requests funding to replace fire apparatus based on a schedule of 20-year service life for pumpers. The current environment of ordering and building fire apparatus has aggressively changed over the past several years. Departments can no longer build, order, and take delivery of fire apparatus in 12 months. The build times, at best, are at least 18 to 24 months. Vendors are also pushing aggressive price increases multiple times in a year. The environment places extreme difficulties on the ability to budget and predict delivery. Identifying vehicles that are scheduled for replacement and receive an approval from vehicle services should be ordered in a staggered manner to prevent large spikes in vehicle replacement requests. This engine would replace the departments 2007 Simon rescue pumper in 2026. The vehicle (1907) served 17 years in front line capacity and another 3 years in reserve and is due for replacement in 2026-2027.

RELATIONSHIP TO OTHER PROJECTS

\$ —	\$ —	TOTAL	\$ 90,000	\$ 95,000	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This capital improvement project is requesting funding to begin to replace the Fire Department's inventory of portable radios. Currently, the Fire Department has 43 portable radios which are kept on each fire response vehicle (this includes each riding position). The portable radios are also issued to staff officers and a small number of radios are maintained in a reserve capacity to issue out for damaged radios and in the event of a larger scale incident. As of now, 95% of the department's radios have reached the end of service life and will no longer be supported for maintenance and repair. The department would like to replace 50% of the end-of-service-life radios this year and the balance of the radios in the following year (FY 2026). This strategy will ensure similar technology is provided to the end users while absorbing the cost over two years. It would be important to provide radios that are the same in design and functionality to ensure responders are familiar with the technology and function. The request includes antennas, P25 trunking, P25 phase 2 features, over the air programming, chargers, belt clips, batteries, radios, speaker mics, and standard programming.

RELATIONSHIP TO OTHER PROJECTS

\$ —	\$ 150,000	TOTAL	\$ 150,000	\$ 150,000	\$ 150,000	\$ 150,000	\$ 150,000	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for the repair and improvement of neighborhood parks located in the low/mod income areas. These improvements would include the addition of safety elements (lighting, fencing, shelter, cameras, etc), address accessibility issues (pathways, non-compliant play features, parking, water, etc.) and the replacement/repair of play amenities that are well beyond their lifecycle. Many of these park spaces are utilized by the department for neighborhood programs. These programs provide safe places and spaces for youth in our community to learn throughout the summer months as well as develop relationships with their peers and City staff. These programs range in time from a couple of hours to full-day activity/supervision. In addition, many of these programs offer 2 free meals per day. Parks with play structures in poor condition or a lack of amenities typically have little to no participants. The result is the need to move City staffing resources to parks with greater participation and need. Parks without suitable shelter are cancelled due to rain. Other than not having that fun place to go, another result of this cancellation is that meals will not be distributed to participants on those days. Investing in these park spaces would encourage participation in programs and promote passive recreation by neighborhood individuals increasing interaction amongst community members and decreasing the opportunity for negative activity within these park spaces.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation: Retain well-built, well-maintained, and upgraded parks and park amenities.

FUNDING RESTRICTIONS

This project may only be funded with Community Development Block Grant (CDBG) funds.

\$ 731,876	\$ —	TOTAL	\$ —	\$ 1,697,000	\$ —	\$ —	\$ 1,720,000	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for funding related to the park development for Phases 2-4 of Re-Imagine Comiskey. Phase 1 was completed in FY23. Phases 2-4 includes an additional basketball court, a large turf field, parking lot, additional sidewalks, lighting and pavilions. Phase 2 would be for the basketball court and parking lot in FY26. FY29 would be for the remainder of the project and include the large turf field, additional sidewalks, lighting and pavilions.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the FY 2022 Comiskey redevelopment capital improvement project.

OUTCOME

Diverse Arts, Culture, Parks and Recreation Experiences and Activities: Retain well-built, well-maintained, and upgraded parks and park amenities.

FUNDING RESTRICTIONS

This project may only be funded by G.O Debt (GDTIF)

PROJECT ADDRESS/SERVICE AREA

255 E. 24th Street

DEPARTMENT: 30 - Leisure Services Park Division		STATE PROGRAM: 4C - Culture & Recreation	PROJECT TITLE: Eagle Point Park - Replace Water Lines			YEAR FIRST SUBMITTED: PROJECT NO:	FY 2018 3043000011 740-2827, 102-2827	TOTAL PROJECT COST \$ 50,000

\$ 45,499	\$ 50,000	TOTAL	\$ —	\$ —	\$ —	\$ 50,000	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for replacing water lines throughout Eagle Point Park. The water system at Eagle Point park is failing. The galvanized piping in the system has begun to fail and there are numerous leaks throughout the park. Replacement of these lines is necessary to not only conserve water but to keep the correct water pressure within the system. A small portion (phase 1) of the water lines were replaced in FY19 with savings from two capital projects and use of other current capital projects related to Eagle Point Park. The remaining phases need to be completed.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation Experiences and Activities: Retain well-built, well-maintained, and upgraded parks and park amenities.

FUNDING RESTRICTIONS

This project is restricted to Water Construction Fund, Sales Tax Fund (20%) and DRA funding.

PROJECT ADDRESS/SERVICE AREA

\$ —	\$ —	TOTAL	\$ —	\$ —	\$ —	\$ —	\$ 118,000	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for historic restoration of the Riverfront Pavilion, including removing the drop ceiling and restoring the original, restoring the plaster on the walls, replacing the light fixtures and re-wiring the building, repairing windows and replacing the doors. This is the most popular pavilion and upgrades are needed, so we would like to restore the building to as close to original as possible. The pavilions in the park are historic and an effort should be made to preserve that history.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation Experiences and Activities: Retain well-built, well-maintained, and upgraded parks and park amenities.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) and DRA funding.

PROJECT ADDRESS/SERVICE AREA

\$ —	\$ —	TOTAL	\$ —	\$ —	\$ —	\$ —	\$ 75,000	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for exterior lighting improvements to the Historic Ham House campus. There is currently only one exterior pathway light close to the Ham House. This project would include the installation of pathway lighting throughout the campus and also provide parking lot lighting. The Dubuque County Historical Society has increased evening programming at the Ham House and lighting and safety are a priority. The agreement with the Historic Society outlines the city is responsible for capital improvements outside the Ham House building itself.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation Experiences and Activities: Retain well-built, well-maintained, and upgraded parks and park amenities.

FUNDING RESTRICTIONS

This project may only be funded with Sales Tax 20, DRA Distribution or DRA Gaming funds.

PROJECT ADDRESS/SERVICE AREA

		Operating Cost (Savings)	\$ —	\$ —	\$ —	\$ —	\$ 3,000	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for developing a mini-park in the Pebble Cove subdivision off Charleston Court (south of the Northwest Arterial and west of John F. Kennedy Road). The developer of the Pebble Cove subdivision has donated property for the development of this park. The Council approved the subdivision in 2008 with no specific timeline commitment. This park would primarily serve the subdivision. The park development would include a playground and park amenities. The parcel currently has a large culvert on the site for stormwater runoff from the Northwest Arterial. This drainage issue will need to be evaluated and properly corrected before a park can be developed.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation Experiences and Activities: Retain well-built, well-maintained, and upgraded parks and park amenities.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), and DRA funding.

PROJECT ADDRESS/SERVICE AREA

Pebble Cove subdivision

\$ —	\$ —	TOTAL	\$ —	\$ —	\$ —	\$ —	\$ 165,000	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for purchasing play equipment for the Storybook Hill Children's Zoo. The Zoo is leased to and operated by a nonprofit organization, Dubuque Children's Zoo Boosters. The group has made many improvements to the Zoo and it has really become a source of pride for the community. One area of improvement still needed is play equipment. Several pieces need to be replaced and the City's assistance is needed. The project includes the installation of a poured in place safety surfacing instead of wood chip safety surfacing. The poured in place surfacing will eliminate weeds in the playground and decrease maintenance costs in future years. This project includes contracted services for the removal of the old equipment.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation Experiences and Activities: Retain well-built, well-maintained, and upgraded parks and park amenities.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) and DRA funding.

		C. IMPACT - OPERATIONS							
		Operating Cost (Savings)	\$ —	\$ —	\$ 2,000	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for native seeding in Industrial Center areas. There are various areas in Technology Park, Dubuque Industrial Center West and Industrial Center South that would benefit from native plantings. The plantings would provide visual appeal as well as pollinator and bee habitat. The plantings would be installed by a certified contractor with a two-year maintenance agreement. Staff would maintain the areas once the agreement has expired. Pollinator Habitat is a City Council 2022-2024 Management in Progress goal.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Increase the visual appeal and beauty of the city with attractive gateways, corridors, neighborhoods, homes, and businesses.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), and DRA funding.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for developing the vacant lot at 1401 Elm Street as a Washington Community Gateway. The city purchased this property in 2014. The structure has been removed and the lot is currently grass. This project would provide for such amenities as three flag poles, park lighting, security cameras, a welcome sign to the Washington neighborhood and a drinking fountain.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Increase the visual appeal and beauty of the city with attractive gateways, corridors, neighborhoods, homes and businesses.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), Greater Downtown TIF, and DRA funding.

\$ —	\$ —	TOTAL	\$ —	\$ —	\$ —	\$ —	\$ 60,000	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for planning a second dog park. A Pet-Friendly Community Committee was formed in 2019 to begin to assess how the City can become more pet friendly. The Playbook for Pet-Friendly Cities assessment was used to complete a Pet-Friendly City Assessment. The assessment is broken into 4 parts: Parks, Housing, Businesses, and Shelters. The assessment was presented to City Council in July of 2019. A next step from the assessment is expansion of opportunities an additional dog park. A second one has been budgeted for various times and been cut in budget cuts. The planning would provide accurate construction costs to be able to budget for construction.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation Experiences and Activities: Become and support Dubuque as a more pet-friendly community.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), and DRA funding.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for remediation of mold and lead at the Bunker administrative/golf facility. Lead paint needs to be remediated in the basement and upper levels. A bowed wall of the basement needs fixed. The increased heavy rainfalls result in water in the basement numerous times a year which has led to the mold problems that drainage on the outside of the building needs to be addressed with drains installed in the basement. New metal shelving would replace old wood shelving that stores all the recreation program supplies and equipment in the basement.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other projects.

OUTCOME

Financially Responsible, High Performance City Organization: Maintain and enhance City Infrastructure and facilities

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), and DRA funding.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for improvements to the building (arena, theater, lobby areas, exterior) and its equipment. This would be used on the current facility at its current footprint in its current state. The building is in need of air wall replacement, wood window repairs, painting of the steel exterior, resealing the ballroom floor, remodeling/upgrading concession stands, carpet and tile replacement, locker shower upgrades, stage dimmer light replacement, dressing room upgrades, elevator upgrades, placement, refurbishing the stage floor, restoration of theater seats, painting walls and ceilings, satellite ticket booth, theater counter weight and grid system, roof repairs, lighting upgrades and retrofits and other building needs. Equipment replacement needs include the sound system, floor scrubber, tables and portable chairs, water fountains, popcorn popper, concert lighting, pipe and drape, follow spots, lighting consoles, masking equipment, scoreboard and other equipment replacements. New equipment necessary for a venue doing the level of business of Five Flags include wireless internet, tech upgrades, and more. All projects listed have been submitted previously as individual projects with the oldest continuously submitted in the budget process since 2003 and the majority have been submitted and cut from the budget for 12-13 years. Civic Center opened its doors in 1979, alongside the restored Theater with \$3.7 million bond. Additional upgrades and renovations were completed in 2005 for just over \$2.0 million.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Service value for taxes and fees.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), Greater Downtown TIF, and DRA funding.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for operational maintenance projects for Sutton pool. Sutton Pool was not operational for the 2022 swim season. Much like Flora Pool, Sutton is consistently in need of operational maintenance due to its age. Each season there is a potential for unforeseen failures to operational equipment like; water pumps, water treatment systems, water heaters, underground piping, etc. This funding will provide staff with the ability to address any emergent operational failures to ensure this amenities availability to the community. Projects will be prioritized based by: 1. Safety 2. Operations 3. Process Improvement/ Efficiencies.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation: Plan, develop, and maintain specialty parks and venues.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) and DRA funding.

\$ —	\$ —	TOTAL	\$ —	\$ 10,000	\$ —	\$ 10,000	\$ —	\$ 10,000

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for construction of asphalt cart paths on areas heavily used by motorized carts. With the increasing use of golf carts, several sections of the golf course, particularly the grass areas, are being damaged. As a result of the grass being destroyed, erosion takes place causing an increase in maintenance expense. Asphalt paths enable the City to regulate usage of carts on the golf course and reduce maintenance costs. Phasing the project as proposed will allow the areas of greatest need to be constructed each year. The paths constructed in previous Fiscal Years greatly improved both the appearance and ability to maintain those areas. Repair of existing cart paths as needed is also included in this project.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation: Plan, develop, and maintain specialty parks and venues.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), Golf Fees, and DRA funding.

\$ 3,400	\$ 10,000	TOTAL	\$ —	\$ 10,000	\$ —	\$ 10,000	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for renovating tee areas. This project will be accomplished by utilizing golf course personnel and golf course revenue. Several tee areas have a shallow dirt layer over rock; thus the health of the tee suffers most years. These will be renovated, and dirt added. Red tee areas will be moved and enlarged on several tees. Enlarging the areas and improving the soil conditions will improve play for our patrons. Seventy-five percent of our players are recreational golfers that have a higher maintenance impact and will benefit from the improved red tees. Tee improvements completed to date have met with very positive comments from our golfers.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation: Plan, develop, and maintain specialty parks and venues.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), Golf Fees, and DRA funding.

PROJECT ADDRESS/SERVICE AREA

2200 Bunker Hill Rd

DEPARTMENT: 34 - Leisure Services / Recreation Division		STATE PROGRAM: 4C - Culture & Recreation	PROJECT TITLE: Bunker Hill Golf Course - Material Storage Renovation			YEAR FIRST SUBMITTED: FY 2016 PROJECT NO:		TOTAL PROJECT COST \$ 15,000

\$ —	\$ —	TOTAL	\$ —	\$ 15,000	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the construction costs to build material collection areas at the Bunker Hill Golf Course. The current collection area for sand, topsoil, etc. is located at the end of the parking lot and in plain sight. This area is not covered or secured. Being able to improve this area will help aesthetically as well as better preserve the material for future use.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks, and Recreation: Plan, develop, and maintain specialty parks and venues.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), Golf Fees, and DRA funding.

PROJECT ADDRESS/SERVICE AREA

\$ —	\$ —	TOTAL	\$ 10,000	\$ —	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for the removal and replacement of over 20 trees located within the field of play at the Bunker Hill Golf Course. There are currently 24 trees throughout the golf course which have been identified by the Departments Urban Forester as either a safety hazard and/or potential detriment to the golf course itself. Due to the location and size of the many of these trees, the department will have to contract with a local tree service for their removal.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation: Plan, develop, and maintain specialty parks and venues.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), Golf Fees, and DRA funding.

PROJECT ADDRESS/SERVICE AREA

2200 Bunker Hill Rd.

\$ —	\$ —	TOTAL	\$ —	\$ 33,000	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the design, development, and installation of an 8 foot by 200 foot "Welcome to Dubuque" sign located on the flood wall near the Ice Harbor flood gates. There is currently no signage along the river to let patrons know that they have either arrived or are passing by Dubuque. Such a sign on the wall would not only be a welcoming visual for those visiting on cruise ships or other vessels but can create awareness on the river that this is an area they may approach in order to visit the City. This sign could also indirectly filter boat traffic into the Port of Dubuque Marina to dock and/or fuel. Included in this CIP would be the purchase and installation of solar lighting with a 5-year replacement cost of \$3,500.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Increase the visual appeal and beauty of the city with attractive gateways, corridors, neighborhoods, homes and businesses.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), Greater Downtown TIF, and DRA funding.

PROJECT ADDRESS/SERVICE AREA

450 E 3rd St

\$ —	\$ 125,000	TOTAL	\$ —	\$ —	\$ —	\$ —	\$ 65,000	\$ 258,000

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for replacing the carpet in various rooms and areas throughout the Grand River Center. Higher use areas of the convention center are on an ten-year replacement cycle. The carpeting establishes a new, fresh look to the room. FY29 will replace the spine carpet. FY 30 will replace the river room and river room pre-function, green room (never replaced), sky bridge and river room stairs, escalator, elevator, ballroom and meeting rooms.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Grand River Center Replace Fabric Wall Covering (CIP 3346000002). This project is also related to Paint Interior Room and Areas (350-2391). The carpet and painting relate to the wall coverings in that all colors, fabrics and patterns are selected to redecorate the room at the time of the project.

OUTCOME

Financially Responsible, High Performance City Organization: Service value for taxes and fees.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), Greater Downtown TIF, and DRA funding.

PROJECT ADDRESS/SERVICE AREA

500 Bell Street

\$ —	\$ —	TOTAL	\$ —	\$ 39,500	\$ 9,000	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project is designed to elevate the visual experience within the Grand River Center's parking lots. Bushes are becoming overgrown and impeding customers as they exit cars. The goal is to create a consistent and aesthetically pleasing ambiance while minimizing the need for constant maintenance of the parking lot islands. The existing landscape will be removed in the island, the islands leveled, and mulch replaced with rock-based design that is seen with the venue's surroundings. The plant schedule would include regional trees, shrubs, perennials, and grass around the venue to enhance the vibrance of the venue. The islands have not seen renovation since opening in 2003.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects however is needed to complete FY28 project as a whole.

OUTCOME

Livable Neighborhoods and Housing: Increase the visual appeal and beauty of the city with attractive gateways, corridors, neighborhoods, homes and businesses.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), Greater Downtown TIF, and DRA funding.

\$ —	\$ —	TOTAL	\$ —	\$ —	\$ —	\$ —	\$ 98,000	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for replacing the cloth "clouds" that hang over the pre-function area on the east side of the building and in the River Room. The clouds were last replaced in 2013. Their life is 9 years due to the UV breaking down the fabric. They are discoloring, stained with cloth beginning to fail due to UV light and need to be updated. Some are taken down due to roof leaks and/or staining. Clouds or acoustical panels assist in sound deadening in the prefunction and river room.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Service value for taxes and fees.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), Greater Downtown TIF, and DRA funding.

\$ —	\$ —	TOTAL	\$ —	\$ —	\$ 181,000	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for a dishwasher and water softner replacement as they are original to the venue and reached its industry standard life span. After running dishes through the current dishwasher, they are coming back spotted which leads to concerns when placed in front of the guests. Oak View Group (OVG) conducted an in-depth review of the venue's kitchen requirements. The examination focused on elevating the culinary experience for the guests to delivering a refined and exceptional food experience.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other projects.

OUTCOME

Financially Responsible, High Performance City Organization: Service value for taxes and fees.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), Greater Downtown TIF, and DRA funding.

\$ —	\$ —	TOTAL	\$ 385,000	\$ 385,000	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for improvement of the overall quality of the guest experience. A comprehensive remodel and renovation of all public bathrooms would be completed. The current design of these facilities has become outdated and is in need of a look that matches the rest of our venue and better meets the expectations of the guests of today. This project aims to revitalize the appearance of the restrooms and upgrade the existing fixtures, many of which have remained untouched since the facility's initial opening in 2003.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other projects.

OUTCOME

Financially Responsible, High Performance City Organization: Service value for taxes and fees.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), Greater Downtown TIF, and DRA funding.

\$ —	\$ —	TOTAL	\$ —	\$ —	\$ —	\$ —	\$ 77,000	\$ 143,000

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for replacing the vinyl-like wall covering. The wall covering in the ballroom was replaced in 2010. The meeting room was replaced in 2013. The air-walls were re-upholstered in 2016. The wall covering will be in need of replacement due to wear, staining, and heavy use from heavy use of the meeting room and ballroom. This replacement schedule will coincide with the re-carpeting and repainting. Additionally, the air-walls will be in need of re-upholstery in FY 30 (\$143,000). This replacement schedule is based on past performance of wall coverings.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other projects at this time.

OUTCOME

Financially Responsible, High Performance City Organization: Service value for taxes and fees.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), Greater Downtown TIF, and DRA funding.

PROJECT DESCRIPTION/JUSTIFICATION

This project requests the replacement of Water Meter Interface Units and Registers used for the purpose of Water and Sewer billing. The costs per year include the replacement of the estimated number of units of MIUs and Registers based on known failure rates and the labor that may be required to replace the units when internal resources are not available. In 2009, the City of Dubuque conducted a city-wide water meter replacement program. All meters were replaced with Neptune brand water meters. Each part and product warranty varied with the meter assemblies. Meter interface units (MIUs) replacement warranty was 100% for the first 10 years. For each year thereafter, the warranty was pro-rated, and the City would be required to pay a portion of the MIU replacement. Starting in year eleven (11) the City pays 30% and each year thereafter the City's percentage goes up 5%, until the warranty is finished in 2034. Having discussed a proactive replacement program with Neptune and local supplier Ferguson Water Works, a cost-effective way to replace the meters at a lower cost to the City would be to conduct a 5-year replacement program, in lieu of replacing the MIUs over the remaining prorated warranty period. This will reset the full warranty on replaced MIUs. The project provides funding for a proactive 5-year MIU replacement program which can be funded through SRF. Note that the project is to be carried by both Water and Sanitary Sewer funding. FY22 Funding reflects the replacement of 4557 MIUs to be replaced at a reduced cost as they would still be under full warranty, and years FY23 thru FY32 reflect the replacement of 5,000 MIUs per year to complete the project for those MIUs no longer under warranty. As part of the program, Ferguson Water Works will be making an investment estimated to be \$240,000 in the necessary infrastructure to support the City's transition from the R450 system to the R900 System. The investment includes new collectors and necessary wiring and conduit at 15 sites to support the new technology. This Project also provides funding for water registers. The Registers carry a 10-year full replacement warranty, after which, the City will be responsible for the costs of replacement parts. There are currently 18,067 Registers that will need to be replaced as they fail. The rate of failure is estimated at 1,350 per year equating to \$130,950 per year.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Maintain enterprise/general fund reserve funds to 20%

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA

City Wide

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding to support design and construction of water main improvements or relocations resulting from roads and street related improvements. This project is an annual program providing for the design and construction of water mains that are to be replaced or relocated as part of the general street construction repairs and related improvements. This project is to be coordinated with street projects developed in the Engineering and Public Works departments.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Street General Repairs Program, (CIP# 5521000012 and 5521000018)

OUTCOME

Financially Responsible, High Performance City Organization: Maintain and enhance City Infrastructure and facilities

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for two (2) fire hydrant assemblies to be relocated/replaced as needed related to the City's sidewalk and curb ramp inspection and replacement program. Replacement of sidewalks, particularly those abutting the curb line at an intersection, will require the installation of curb ramps, typically fire hydrants are also located behind the curb line at an intersection and often conflict with the location where curb ramps will be located or replaced. It is anticipated in future years this program will increase with the installation of curb ramps with detectable warnings required by the Americans with Disabilities Act (ADA).

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Curb and Catch Basin Replacement Program CIP (5521000002), Sidewalk City Owned (CIP 5521000010), and Sidewalk Inspection Program (CIP 5521000006).

OUTCOME

Financially Responsible, High Performance City Organization: Maintain and enhance City Infrastructure and facilities

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for ongoing water main replacement associated with the City sanitary sewer improvement and consent decree program. The water mains for the sanitary sewer and consent decree programs have been evaluated. Several sections of water main, valves and hydrants have reached the end of their design life and should be replaced as part of this project. This project reduces service outages and lessens excavation in newly resurfaced areas. FY24 funds are available for Heeb Street. FY25 funds are available for King Street and Hempstead, FY26 for Harvard, and FY28 for Grove Terrace.

RELATIONSHIP TO OTHER PROJECTS

This project is related to other capital projects. (CIP # 5581500017) Sewer Consent Decree. Heeb Street reconstruction (CIP# 5521000015).

OUTCOME

Sustainable Environment: Provide safe, dependable drinking water for all residents.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for repairs and rehabilitation associated with the City's groundwater supply (wells, pumps, motors) including source water protection of the well field and the raw water transmission lines from the wells to the treatment plant. The City draws from both shallow and deep wells and each well should be inspected every 5 years and 10 years respectively, barring any known issues. The wells should be inspected, and the well screen cleaned to remove sediment or debris that may be reducing well output. FY26 funding provides for the rehabilitation of Wells 2 & 9. FY28 funding provides for the Rehabilitation of Well 5. The outyears provides funding to continue the 5-year program maintenance. The well field from where the City draws its drinking water supply was subject to the Safe Drinking Water Act amendments of 1996, which required a Source Water Assessment. The Assessment included evaluating the level of protection that was in place to protect sources of drinking water. The well field should be evaluated to determine what improvements are necessary to ensure the City is continuing to assess the protective measures in place for the City's drinking water supply.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Sustainable Environment: Provide continue to provide safe, affordable and dependable drinking water for all residents.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the development of a City of Dubuque Water Supply, Process Evaluation, and Distribution Master Plan. Over the past few decades, the City of Dubuque has experienced an increase in development, both residential and commercial, and growth of the community beyond the distribution and storage system original footprint. Most notably, the water infrastructure has expanded to include Twin Ridge to the south and Vernon and Barrington Lakes water systems to the west, and having reliable and dependable water infrastructure is critical to supporting all of the City's customers today and tomorrow. As the City looks to the future outlined in the Comprehensive Plan and with the completion of the SW Arterial, it is increasingly important that the existing water infrastructure is hydraulically analyzed to determine its capacity and capability to serve. FY24 included funding via the current City Wide Improvements SRF loan to complete a master plan. A master plan will serve to provide direction in the development of alternative and additional water supply sources and treatment facilities, improve customer service through the evaluation of the pressure zones serving Dubuque, evaluate the existing aging water treatment plant and its processes, and determine a strategy for systematically replacing/rehabilitating aging infrastructure.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the City Wide Distribution Storage and Pumping Improvements, SW Arterial projects, and the Water Storage Maintenance Program

OUTCOME

Financially Responsible, High Performance City Organization: Have well maintained City infrastructure.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the replacement of existing Supervisory Control and Data Acquisition (SCADA) hardware and software and the installation of replacement radio communications with fiber optic communications at the Eagle Point Water Treatment Plant, wells, pump stations, tanks, and towers. The existing SCADA programming and operating system RSLogix 500 is outdated and the hardware is no longer supported by the manufacturer/vendor and will need to be replaced for continued remote operations from and at the water treatment plant. The existing hardware has reached its capacity for installing new infrastructure controls and devices required to communicate with tanks, towers, and other distribution hardware. This project also provides for the replacement of the existing communications channel. Currently, SCADA data is relayed to and from the water treatment plant from the remote sites via radio, however, the radio path is experiencing significant interference due to other devices transmitting data. The interference results in loss of communications and an immediate response is required by a technician to problem solve and restore communications. Over time this method of communication has become more challenging, continues to be prone to failure, and presents safety concerns as the radio antenna must be inspected by City staff requiring them to climb the tanks and towers. The project also provides funding for the installation of fiber conduit and fiber optic lines as a replacement of the existing radio system to all current remote sites, with improved ability to expand to further locations as the City grows. The fiber optic portion of the project, complements the City's existing fiber optic network and is supported by Information Services and Engineering as an approved solution to improved communications. The enhanced fiber optic network will loop areas currently not connected and will increase the City's opportunities to work with cellular companies that look to install their hardware on tanks and towers and transmit data via fiber optic lines.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth, and redundancy.

FUNDING RESTRICTIONS

This Project may only be funded with SRF funding.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the future of two permanent auxiliary power emergency generators. Two pumping stations, Park Hill and Mt. Carmel, do not currently have auxiliary power supplies, while there are back up pumping facilities in each of the zones where Park Hill and Mt. Carmel are located, it is recommended that each site have a dedicated emergency power supply. The United States Environmental Protection Agency states that "Power loss can have devastating impacts on drinking water and wastewater utilities and the communities they serve." Funding in FY23 & FY24 is for Park Hill pump station and funding in FY26 is for Mt. Carmel pump station.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Maintain and enhance City Infrastructure and facilities

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This request is for the removal and replacement of private lead line service lines using Bipartisan infrastructure Law (BIL) funding via United States Environmental Protection Agency (EPA) and the Iowa Department of Natural Resources (DNR). The project is being presented that the Iowa DNR is offering a tentative plan where Lead Service Line (LSL) applicants would receive 49% loan forgiveness on costs related to replacing LSL qualifying census, i.e. Disadvantaged communities or neighborhoods, which would be defined by census tract levels, and 0% interest on the remaining 51% SRF loan/borrowed amount (which will include areas not eligible for loan forgiveness). This will be a phased project, with the first three phases occurring over fiscal years 2024, 2025, and 2026.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Sustainable Environment: Continue to provide safe, affordable and dependable drinking water for all residents

FUNDING RESTRICTIONS

This Project may only be funded with SRF.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for replacement of the aging boilers at the Eagle Point Water Treatment Plant. FY24 funding was to replace the Sludge Plant boiler that has had numerous repairs and patches to extend longevity. The boiler was installed in 1995 and is deteriorating and has reached the end of its service life. FY25 funding will replace the main Water Plant Treatment's two boilers. The boilers were also installed in 1995 and are at the end of their service life. The new boiler will be more fuel efficient and will contribute to less carbon emissions.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects

OUTCOME

Sustainable Environment: Reduce the community's carbon footprint (50% by 2030)

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

\$ 15,810	\$ 125,000	TOTAL	\$ —	\$ 21,750	\$ —	\$ 116,200	\$ 443,000	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for the systematic replacement of aging roofing systems at the Eagle Point Water Plant. The membrane roofing systems were inspected in September 2020 and noticeable failures were identified. FY26 provides funding for roof replacement over the sludge plant wet well walkway between sludge clarifiers. FY28 funding will replace the roof over the North plant filter bay. FY29 funding will replace the roof over South Plant clarifiers, administration offices and plant filter motor control room, sludge plant, and east clearwell. Roofing systems will be replaced with Thermoplastic Membrane, including new vapor barrier, R30 insulation, and protective hardboard and will carry a minimum 20-year warranty. The new roofing systems provide additional insulation capable of reducing carbon emissions.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Water Treatment Plant Condition Assessment and Master Plan (CIP # 4281000026)

OUTCOME

Financially Responsible, High Performance City Organization: Maintain and enhance City Infrastructure and facilities

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA

Eagle Point Water Plant

DEPARTMENT: 42 - Water Department		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Third Pressure Zone Connection (from Tanzanite Drive to Olympic Heights pump station)			YEAR FIRST SUBMITTED: 2020	PROJECT NO: 740-XXXX	TOTAL PROJECT COST \$ 2,000,000

	\$ 1,004,000	State Revolving Fund Loan	\$ —	\$ —	\$ 2,000,000	\$ —	\$ —	\$ —
\$ —	\$ 1,004,000	TOTAL	\$ —	\$ —	\$ 2,000,000	\$ —	\$ —	\$ —
		C. IMPACT - OPERATIONS						
		Operating Cost (Savings)	\$ —	\$ —	\$ —	\$ (20,000)	\$ (20,000)	\$ (20,000)

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the connection between the 5th pressure zone (Olympic Heights Subdivision) the 2nd Pressure Zone, and the 3rd Pressure Zone. The Roosevelt St Water Tower project was designed to provide effective storage for both the 2nd and 3rd pressure zones. The connection between the two zones is recommended by the Iowa DNR and was stated in the SRF funding commitment letter for the tower project. In addition to the benefits of effective water storage for fire suppression and daily water demand, additional benefits are from the connection of a looped system and the ability to fill the Roosevelt St tower not only from the treatment plant but also from the 3rd Pressure Zone while eliminating the 5th Pressure Zone (Olympic Heights). This connection would also be able to provide water north of the NW Arterial (Sageville Area), and west of Highway 52 North along the N. W. Arterial and Kennedy Road. This project would include the installation of approx. 5,020 feet of 12" diameter water main. There would also be electrical and maintenance savings cost with the removal of Olympic Heights pump station. This project optimizes the full benefits of the Roosevelt Water Tower.

RELATIONSHIP TO OTHER PROJECTS

This project is related to Kennedy Road to Tanzanite Drive Connection (Zone 3 to Zone 4) with Pump Station.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy.

FUNDING RESTRICTIONS

This project may only be funded by SRF Funding.

PROJECT ADDRESS/SERVICE AREA

Olympic Heights, NW Arterial

PROJECT DESCRIPTION/JUSTIFICATION

This request is for PFOA/PFAS reduction at the Eagle Point Water Treatment Plant. This option includes rehabilitating the existing gravity filters with granular activated carbon for PFAS removal instead of a straightforward, in-kind replacement of the existing sand and anthracite media. The rehabilitation of the filter underdrains and related appurtenances is also necessary as identified by performance testing completed in 2022.

RELATIONSHIP TO OTHER PROJECTS

This project is related to Source Water PFAS Reduction Project - Deep Well

OUTCOME

Sustainable Environment: Provide safe, dependable drinking water for all residents.

FUNDING RESTRICTIONS

This Project may only be funded with SRF.

		C. IMPACT - OPERATIONS						
		Operating Cost (Savings)	\$ —	\$ 10,000	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

The project funds the Water Distribution system Combination pressure reducing & Pressure sustaining valves, Pressure relief valves, Altitude valves, Modulating altitude valves, Check valves - flapper type, Swing flex check valve w/. backflow actuator and Electric check valves. These specialty valves require annual maintenance. Dorner Company of Sussex, WI has staff that are trained and certified in these specialty valves along with their Link2Valves maintenance management program. This CIP is to contract with Dorner Company for a two year period for valve cataloging, inspection, functionality, confirm stroke, clean, replace miscellaneous small fittings-if needed, and provide service report with repair suggestions. Cost is \$400.00 per valve cataloged and inspected, additional parts used during inspection will be added to invoice. Currently there are 21 specialty valves in the system.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA

All water customers served by city water.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for the protection of water mains located across and through drainage-ways and creeks. During past storm events, the water main creek crossing protection or erosion control has washed away exposing lengths of the water distribution system. This project provides for the necessary restoration of the water main protection in and around creek crossings to prevent further exposure of the water mains. The locations and cost estimates are as follows:

Cost Estimate	Project Name	Cost estimate	Project Name
\$ 15,900	Fremont Ave. FY28	\$ 13,200	Southern Ave. FY28
\$ 5,000	Seippel Rd. FY28	\$ 15,900	Fremont Ave. FY28

PROJECT DESCRIPTION/JUSTIFICATION

Funding for this project provides for repair or relocation of existing water mains that may be impacted by repair work associated with retaining walls that are owned or are the responsibility of the City of Dubuque. It is necessary for the department to evaluate the water mains adjacent to or crossing retaining walls as they may need to be replaced, supported, or relocated during the retaining wall repair. Access to the water mains in these locations is often difficult and a condition assessment is completed as part of this project to determine if there is strain or issues with the water main. This ongoing program allows for maintenance, repair and reconstruction of the water main in coordination with Engineering.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Stone Retaining Wall Program (CIP #5524000003).

OUTCOME

Financially Responsible, High Performance City Organization: Maintain and enhance City Infrastructure and facilities

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for water main installation along Seippel Rd North of Pennsylvania Ave to Asbury Rd. Along Asbury Rd. to Spruce Wood Drive. A request has been made for part of the agreement area for installation in FY 24. The remainder of utilities have not been requested by property owners for previously annexed areas and the City does not know when it will be necessary to construct the utilities. Due to this uncertainty, design and construction are budgeted in Fiscal Year 2029 . If the utilities are requested prior to Fiscal Year 2028, the City will adjust the budget as necessary to comply with the requests. The City has completed action steps adopted by City Council as a result of the previous annexation study and has either completed or budgeted the balance of utility extensions necessary to serve citizens and businesses within the annexed areas. To maintain the City's ability to meet new growth demands, it is necessary to position ourselves for that future demand by identifying those growth areas and the costs associated with extending City services. As land develops, the City anticipates recovering a portion of costs through connection fees.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides the funding to clean, spot prime and paint the interior and exterior of the Water Storage Tanks. Painting of water tanks is a cyclical program; coatings can last up to 20-25 years. A study was conducted in 2009. College Tower rehabilitation in FY27 \$1.5M, Pennsylvania (FY2029, \$500,00), Park Hill (2029, \$500,000), Westside Water Tower \$500,000 FY31. Tank coatings required to maintain the structure of the tank, the water quality to reduce biofilm, as well as enhancing the aesthetics of the tanks. This project is related to Water Treatment Plant condition assessment and master planning in FY21. Starting in FY21 this project provides funding for the inspection of the former Vernon Water Tower located west on Hwy 20 prior to recoating. This project provides for Annual Tank Inspection for all tanks and towers of \$25,000. Tank maintenance may be adjusted to reflect possible operational and capital improvements recommended in the Water Master Plan. Further analysis following installation of the Roosevelt Street Water Tower will provide the information necessary to determine the prioritization of tank coating work on the other water tanks.

RELATIONSHIP TO OTHER PROJECTS

This project is related to SW Arterial and City Wide Improvements; and Master Plan

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy.

FUNDING RESTRICTIONS

This project may only be funded with Water Construction Funds.

PROJECT ADDRESS/SERVICE AREA

		B. PROJECT FINANCING						
\$ —	\$ 50,000	Sanitary Sewer Construction Fund	\$ —	\$ 50,000	\$ 50,000	\$ 50,000	\$ 100,000	\$ —
\$ —	\$ 50,000	TOTAL	\$ —	\$ 50,000	\$ 50,000	\$ 50,000	\$ 100,000	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for a SCADA connection to all lift stations, including integration with the W&RRC SCADA system. SCADA connection to all stations, including pump status, pump starts, and flow would provide real-time information that would allow staff to respond quickly to lift-station failures. Enhanced monitoring at stations, including bar screen monitoring, vibration sensing, cameras, and audio would allow reduced staff visits to lift stations, lowering operating costs.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Sustainable Environment: Become a resilient city using sustainable and affordable technology for water, energy, transportation, health and wellness, discard, community engagement – a model community for the world so that residents and businesses can make more informed choices with limited resources

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds.

\$ —	\$ —	TOTAL	\$ 300,000	\$ —	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project replaces the current bar screens (motorized fine screens) with updated higher capacity units. Existing bar screens have experienced heavy wear over the past ten years and are approaching the end of their useful life. Replacement screens will be sized and specified to accommodate increased flows and the ability to remove greater amounts of inorganic material. This project will improve removal of inorganic materials, e.g. rags and plastics, which often plug pumps and pipes downstream, hindering treatment efficiency. Project cost estimated at \$1,500,000 (2023 dollars).

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Old Mill Road Pump Station (#5581500006).

OUTCOME

Sustainable Environment: Have clean water – ground and surface.

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds.

PROJECT ADDRESS/SERVICE AREA

		C. IMPACT - OPERATIONS						
		Operating Cost (Savings)	\$ 5,000	\$ 5,000	\$ 5,000	\$ 5,000	\$ 5,000	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project funds the replacement of aging HVAC equipment at the Water & Resource Recovery Center (W&RRC) and sanitary sewer lift stations. The W&RRC and lift station HVAC systems use a number of components including, but not limited to: louvers, fans, gravity roof ventilators, rooftop units, make-up air units, gas-fired unit heaters, electric unit heaters, and water source heat pumps. Corrosive gasses, including hydrogen sulfide, reduce the life expectancy of many of these components. Corrosion of copper and electronic components has resulted in more frequent HVAC repairs over the last several years. The W&RRC Administration Building contains 19 water source heat pumps that provide zoned heating and cooling to spaces throughout the building. Most of these units are now beyond their service life and require replacement with like units, or a conversion to an alternative system. Funding requested for FY25 is higher than what is requested for FY26 - FY29 due to the significant work necessary to update the Administration Building HVAC system.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Maintain and enhance City Infrastructure and facilities

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds.

PROJECT ADDRESS/SERVICE AREA

795 Julien Dubuque Drive/lift stations

\$ —	\$ —	TOTAL	\$ —	\$ —	\$ —	\$ —	\$ 1,150,000	\$ 28,850,000

PROJECT DESCRIPTION/JUSTIFICATION

This project funds the design and construction of additional BOD treatment capacity. BOD (biochemical oxygen demand) is a measure of the amount of oxygen consumed during the biological breakdown of organic wastes. As the City of Dubuque grows, and the organic pollutant load on the treatment system increases, upgrades will be required to meet pollutant discharge limits and pollutant reduction requirements. Estimated project cost is \$30,000,000 (2023 dollars).

RELATIONSHIP TO OTHER PROJECTS

Project is related to the Nutrient Reduction Improvements project.

OUTCOME

Sustainable Environment: Have clean water – ground and surface.

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds.

PROJECT ADDRESS/SERVICE AREA

795 Julien Dubuque Drive

			\$ —	\$ —	\$ —	\$ —	\$ —	\$ —
\$ 68,654	\$ —	TOTAL	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 39,300,000

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the design and construction of modifications to the high-purity oxygen-activated sludge basins for the implementation of the MLE nitrification/denitrification process. The MLE (Modified Ludzack Ettinger) process is used for total nitrogen removal and involves an anoxic zone and an aerobic zone. In this process, there is an internal recycle from the aerobic to anoxic zone, which provides nitrate as an oxygen source at the head of the tank. The bacteria remove the oxygen from the nitrate molecule, leaving a byproduct of inert nitrogen gas. The project was originally planned to begin in FY16 with completion in FY21. The WRRC's NPDES permit has since been amended to require an addendum to the Nutrient Reduction Study submitted in 2015. The permit amendment allows the City to research new or additional treatment technologies for the reduction of nitrogen, including the implementation of practices within the watershed for the most cost-effective nitrogen removal technology. The City is required to submit, by January 1, 2022, an addendum to the 2015 Nutrient Reduction Study. The addendum must include an updated schedule for making operational changes and/or installing new or additional treatment technologies to achieve the goal of 66% reduction in total nitrogen. This project is related to Water & Resource Recovery Center: Nutrient Trading.

RELATIONSHIP TO OTHER PROJECTS

The project is related to BOD Capacity Upgrades and On-Site Oxygen Generation.

OUTCOME

Sustainable Environment: Have clean water – ground and surface.

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds.

PROJECT ADDRESS/SERVICE AREA

795 Julien Dubuque Drive

DEPARTMENT: 43 - Water & Resource Recovery Center		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: W&RRC Facility Management Plan Update			YEAR FIRST SUBMITTED: 2023	TOTAL PROJECT COST \$ 315,000

\$ —	\$ —	TOTAL	\$ 315,000	\$ —	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

The original W&RRC facility plan completed in 2008 was intended to identify required treatment plant capacities through 2030. In select treatment categories, the treatment plant is approaching 70% of its maximum treatment capability. This capital improvement request funds a full update to the treatment plant facility plan that will analyze growing flow trends and needs for biological treatment capacities. National industry best practices call for a facility plan to be underway once 80% of treatment capacity has been reached.

RELATIONSHIP TO OTHER PROJECTS

This capital improvement project is related to the Sewer Utility Asset Management Plan (5581500026).

OUTCOME

Robust Local Economy: Create a resilient, sustainable and diverse regional Dubuque economy

FUNDING RESTRICTIONS

This project may only be funded by State Revolving Funds or Sanitary Construction Funds

PROJECT ADDRESS/SERVICE AREA

795 Julien Dubuque Drive

DEPARTMENT: 43 - Water & Resource Recovery Center		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: High Strength Waste Receiving and Storage			YEAR FIRST SUBMITTED: 2018 PROJECT NO: 710-2701 4381500003	TOTAL PROJECT COST \$ 6,626,467

\$ 415,367	\$ —	TOTAL	\$ 6,211,100	\$ —	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project establishes a receiving and storage system dedicated to accepting high-strength hauled waste, including fats, oils, and grease (FOG). Improvements include new septage/FOG reciving units, high-strength waste storage vessels, and associated plumbing. Construction costs have increased significantly since the improvements were first considered in FY18. Cost estimates as of 2023 is \$5,232,000. The project allows more consistent feeding of high-strength waste to the anaerobic digesters, preventing process upsets and allowing the W&RRC to maximize biogas production. The project allows the W&RRC to continue serving as the preferred high strength, organic waste disposal option for businesses in the tri-state region. The cost of the project, as proposed, will be funded through increased high-strength waste disposal fees.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy.

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds or a State Revolving Fund loan.

PROJECT ADDRESS/SERVICE AREA

Project located at the WRRRC, 795 Julien Dubuque Drive. Service area is the tri-state region.

PROJECT DESCRIPTION/JUSTIFICATION

This project funds the replacement of outdated industrial control components at the Water & Resource Recovery Center. The Center currently relies on a set of programmable logic controllers (PLC) and DeviceNet® systems to gather and disseminate crucial data for process monitoring and control. The existing DeviceNet® systems and PLCs at the Center have become obsolete, posing significant challenges in sourcing replacement parts or conducting necessary repairs. The project entails two major phases: planning and design, followed by construction. These phases are dedicated to modernizing the Center's infrastructure by upgrading 16 PLCs, including their power supplies and other peripheral devices, to the latest models. Additionally, 11 outdated DeviceNet® systems will be replaced with 8 ethernet control networks. Replacing the DeviceNet® systems is a complex task, involving the replacement of digital scanners, power supplies, wiring networks, communication cards, and motor control center electrical buckets. This comprehensive update will ensure the Center's continued operational efficiency, with the replacement of the DeviceNet® systems being a key component of this initiative.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital improvement projects

OUTCOME

Financially Responsible, High Performance City Organization: Maintain and enhance City Infrastructure and facilities

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds or a State Revolving Fund loan.

PROJECT DESCRIPTION/JUSTIFICATION

This will provide for rehabilitating Taxiway Alpha over seven years and six construction phases. The preliminary design phase for the rehabilitation of Taxiway Alpha including planning, schematic design, and environmental assessment, was completed in FY22. Construction has begun on the SE end of the Airport at the end of Runway 31 and is to include all aspects of taxiway reconstruction, including finish grading, drainage, under drains, paving, airfield lighting, marking, and turfing. Each phase will include approximately 1,300 LF of Taxiway A relocation, working to the NW at a standard parallel offset distance of 400 feet from Runway 13/31.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Reconstruct General Aviation Apron capital project.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), DRA or Airport Operating Funds and FAA Funds.

\$ —	\$ —	TOTAL	\$ 5,000,000	\$ —	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project will modify and expand the existing Airport Terminal Building hold room to provide for the up-gauge and current frequency of air carrier aircraft that has taken place since the original construction. The proposed project will expand the existing hold room area from 2,700 sq. ft. to approximately 6,800 sq. ft.. This will provide the necessary space and passenger level of service to support simultaneous operations of two 737-800 aircraft (189 passengers each). The hold room expansion will include the necessary engineering, architectural, mechanical, electrical, and plumbing improvements, including additional passenger furnishings and the relocation of the existing passenger boarding bridge.

RELATIONSHIP TO OTHER PROJECTS

This project isn't related to any other capital projects.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), DRA or Airport Operating Funds and FAA Funds.

PROJECT ADDRESS/SERVICE AREA

\$ —	\$ —	TOTAL	\$ 300,000	\$ —	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project would provide for updating the Airport's current terminal building secure area exit lane technology. There are currently numerous exit lane solutions deployed at airports consisting of a mix of technology, prefabricated devices and employee staffing. Per TSA regulations, we are required to secure this area during active flight times. Dubuque's exit lane is currently staffed with an employee to prevent passengers returning to the secure hold room after exiting through this area. Updating our current technology would provide for the exit lane system's entry and exit door to monitor, detect, alert and isolate passengers. By updating the exit lane, staff currently physically monitoring this area can be utilized at other areas of operations.

RELATIONSHIP TO OTHER PROJECTS

This project doesn't relate to any other capital projects.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), DRA, CSVI, CFC or Airport Operating Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for an Airport Pavement Management System (APMS) update, which is a review and analysis of all airfield pavement to document pavement condition and develop a strategy for airfield pavement maintenance. This study is required by the Federal Aviation Administration as justification for all airfield reconstruction or rehabilitation projects and facilitates capital improvement planning. Formerly airports were required to report runway strength as a pavement condition number (PCN). The FAA has updated this requirement to be in alignment with ICAO and now requires airports to report runway strength as a Pavement Classification Rating (PCR). Aircraft operators and airports use/compare these numbers to Aircraft Classification Ratings (ACR) to determine if a pavement is suitable to operate a given aircraft on. This APMS is required every three years by the FAA.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), DRA Funding or Airport Operating Funds and FAA Funds.

PROJECT ADDRESS/SERVICE AREA

11000 Airport Road/Airfield

DEPARTMENT: 51 - Airport		STATE PROGRAM: 2C - Public Works	PROJECT TITLE: Westside Airfield Development (Environmental)			YEAR FIRST SUBMITTED: FY25 PROJECT NO:		TOTAL PROJECT COST \$ 100,000

\$ —	\$ —	TOTAL	\$ —	\$ —	\$ —	\$ 100,000	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This will provide for completion of the environmental review of the area on the west side of the airfield to allow for future development. The east side of the airfield is nearly completely built out. Environmental review includes, but is not limited to, archeological, wetland, farmland, threatened and endangered species and is required to be completed prior to receiving any FAA funds for development of this area.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to any other capital projects.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) or DRA and FAA Funds.

\$ —	\$ —	TOTAL	\$ —	\$ —	\$ —	\$ 2,940,000	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project will provide for construction of approximately 1,700 feet of taxiway between the terminal building and Runway 31. This project will increase efficiency by allowing aircraft to taxi directly to Runway 31 in lieu of back-taxiing and will significantly increase safety by not requiring aircraft to cross Runway 13/31 midfield. This project will consist of grading, storm sewer drainage and underdrains, concrete paving, taxiway edge lighting and airfield signage, pavement markings, and turfgrass stabilization.

RELATIONSHIP TO OTHER PROJECTS

This project isn't related to other capital projects.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), or DRA and FAA Funds.

\$ —	\$ —	TOTAL	\$ —	\$ 475,000	\$ —	\$ 475,000	\$ —	\$ 475,000

PROJECT DESCRIPTION/JUSTIFICATION

This will provide for asphalt repairs to the aircraft hangar area. These types of projects are coordinated with the Engineering Department to determine which repairs are needed. FY26 and FY28 funds will provide for replacing the pavement in the Corporate Hangar and T-Hangar areas identified in the most recently completed APMS. IDOT AIP funds will also be used for these projects. FY29 funds will provide for repairing the general aviation entrance road.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) or DRA Funding.

PROJECT ADDRESS/SERVICE AREA

11000 Airport Rd

DEPARTMENT: 51 - Airport		STATE PROGRAM: 2C - Public Works	PROJECT TITLE: Corporate Hangar Facilities Maintenance			YEAR FIRST SUBMITTED: FY 2017	TOTAL PROJECT COST \$ 120,000

\$ —	\$ —	TOTAL	\$ —	\$ —	\$ 80,000	\$ —	\$ 40,000	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the rehabilitation of existing corporate hangars and buildings. Rehabilitation includes large corporate hangars as well as existing, leased T-hangars as they continue to age and will need structural repairs such as roofing, heating, flooring, and door repairs/replacement. Tenants of these hangars generate fuel sales for the Dubuque Jet Center. FY27 funds would be used to replace a large corporate hangar door on one of the facilities currently leased by University of Dubuque which is in need of extensive repairs.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), DRA Funding or Airport Operating Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funds for the milling of five (5) centerline miles of asphalt streets in Fiscal Year 2024 and five (5) centerline miles in the following years. This project provides for the hiring of a private milling contractor to grind a full-street-width pass to remove up to 2 inches of old asphalt from the street. The millings are then loaded onto city trucks and hauled to a local asphalt plant to be recycled into new hot mix asphalt. All milling is done by a private contractor with cleanup, hauling, and repaving of the streets completed by Public Works department crews. Keeping road pavement in good shape saves money and energy and reduces greenhouse gas emissions, more than offsetting pollution generated during road construction, according to a new study. Over the past twenty-six years, the Public Works Department has made great progress in maintaining Dubuque's asphalt pavements by completing overlay projects on 247,10 centerline miles of asphalt streets. Since January 1, 2014, the City has been required to construct or reconstruct virtually all curb ramps at all street intersections and crosswalks included in the annual asphalt overlay program forcing a reduction in centerline miles overlayed. While this project has been cut 50% from the ten (10) centerline mile milling program in Fiscal Year 2022 to the five (5) centerline mile program in Fiscal Years 2025 through 2029, this project can be expanded as previous fiscal year savings are identified and become available.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the ADA curb ramp replacement project. CIP # 5421000002

OUTCOME

Financially Responsible, High Performance City Organization: Maintain and enhance City infrastructure and facilities

FUNDING RESTRICTIONS

This project is restricted to Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funds for an annual program to install curb ramps at various locations throughout the city in conjunction with the Public Works 5 centerline mile asphalt overlay program in Fiscal Year 2024 and also in the following years. This program is managed by the Engineering Department and coordinated with the Public Works Department's asphalt overlay program. In July of 2013, the Iowa Department of Transportation (IDOT) received additional information from the Federal Department of Justice further clarifying what constitutes resurfacing. Based on these clarifications, as of January 1, 2014, any alterations to an existing street's crosswalk, including asphalt resurfacing and "mill and fill" projects, require that existing curb ramps adhere to the latest ADA standards. While many of these corners have existing ramps, only a few of Dubuque's streets and alleys have curb ramps that meet current ADA standards. This project ensures that each intersection would be retrofitted with ADA-mandated curb ramps when a street receives a maintenance overlay. With the installation and upgrade to the ADA curb ramps as part of the asphalt overlay program, we improve accessibility for those with disabilities in our community as well as pedestrians seeking to travel the streets and sidewalks safely.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Asphalt Milling Program, CIP # 5421000003.

OUTCOME

Financially Responsible, High Performance City Organization: Maintain and enhance City infrastructure and facilities

FUNDING RESTRICTIONS

This project is restricted to Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for an annual program to replace deteriorated curb and gutter and related pavement at locations throughout the city. Priority is given to streets scheduled for the Public Works Department's asphalt paving program and projects associated with improvements to sidewalks and driveways by homeowners. All work is done by private contractors. This project supplements the Public Works Department's regular curb reconstruction program. There are many streets in Dubuque that have good driving surfaces but have badly deteriorated limestone or concrete curbing. This program provides for hiring private contractors to replace curbing in poor condition on streets that are not scheduled, or anticipated to be scheduled, for reconstruction. Priority is also given to replacing poor curbing on streets where ADA curb ramps are being installed. On any given year, the Public Works Department receives numerous curb replacement requests related to the asphalt overlay program and property owner projects that are not able to be completed due to workloads. This appropriation request is intended to provide funding so timely repairs can be completed.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Asphalt Milling Program (5421000003) and the ADA Curb Ramp Program (5421000000).

OUTCOME

Livable Neighborhoods and Housing: Increase the visual appeal and beauty of the city with attractive gateways, corridors, streetscapes/landscaping neighborhoods, homes and businesses

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

\$ —	\$ —	TOTAL	\$ 50,000	\$ 25,000	\$ 25,000	\$ 50,000	\$ 50,000	\$ 50,000

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for hiring private contractors to remove and replace, or assist the Public Works Department in removing and replacing, deteriorated concrete panels in concrete streets. All work is closely coordinated with, or under the direction of, the Engineering Department and its street reconstruction program. Many concrete streets in the City are in need of full-depth concrete section replacement. Defects such as offset or spalling transverse joints create a poor riding surface. Surface and joint defects usually lead to other pavement deformation, such as pavement blow ups, settlements, cracks, and/or potholes. Timely panel replacements and section repairs extend the life of these concrete streets and usually preclude the need for asphalt overlays or total reconstruction projects.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Maintain and enhance City infrastructure and facilities

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funds to replace traffic and street name signs, along with rusted and/or twisted street and traffic signposts and poles, located along street right-of-way throughout the city. Progress has been made over the past years to replace street name signs with new signs that meet federal requirements for size and reflectivity, as required by the Federal Manual on Uniform Traffic Control Devices. However, regulatory, warning, and ground-mounted guide signs must be more reflective than many of the City's current signs are. While all compliance dates for replacing sub-standard signs have been removed from the Federal Register, the responsibility to upgrade replacement signs to the new standard has not been diminished; therefore, all new signs that are installed must meet the new standards. This project also provides for the replacement of older signposts and poles with new powder-coat-painted channel posts, square tubing galvanized posts or 2" powder-coat-painted poles. Galvanized or powder-coated signposts and poles are much more resistant to corrosion and discoloration due to abrasion, winter weather, exposure to chlorides, and UV rays. Replacing Dubuque's substandard signs, and concurrently replacing the old signposts and poles, would significantly improve public right-of-way aesthetics.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Increase the visual appeal and beauty of the city with attractive gateways, corridors, streetscapes/landscaping neighborhoods, homes and businesses

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT ADDRESS/SERVICE AREA

City Wide

\$ 17,543	\$ —	TOTAL	\$ 10,000	\$ 10,000	\$ 10,000	\$ 10,000	\$ 10,000	\$ 25,000

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for an annual program to perform post-flood repairs and Corps-of-Engineers-required maintenance along the City's flood control protection system. This project supplements the Public Works Department's floodwall operations activity budget by providing funding that would allow for post-flood and Corps-of-Engineers-required infrastructure repairs. As the floodwall's infrastructure age and the frequency of flood events continues to increase, the almost-regular need for extraordinary repairs also has increased. This appropriation request would provide adequate funds to perform timely repairs, which in turn assures the integrity of the flood control system. Repairs may include rip-rap replacement, pump overhauls, gate repairs, floodwall, and levee repairs, dredging, debris removal, and associated storm sewer outlet remedial work.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Sustainable Environment: Reduce potential flooding through flood plain management, mitigation and protection

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Stormwater Construction Fund.

PROJECT ADDRESS/SERVICE AREA

Along the 5.8 mile Flood Control System

DEPARTMENT: 54 - Public Works		STATE PROGRAM: 2C - Public Works	PROJECT TITLE: 58,000 Gross Vehicle Weight Dump Truck Replacement			YEAR FIRST SUBMITTED: FY 2000 PROJECT NO: 5429900010 250-2039, 300-2039	TOTAL PROJECT COST \$ 1,932,932

\$ —	\$ 506,932	TOTAL	\$ —	\$ —	\$ —	\$ 560,000	\$ 866,000	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funds for the replacement of six (6) of the Public Works Department's seven 58,000 gross vehicle weight (GVW) street maintenance/snow and ice control dump trucks. The new trucks will be purchased with 58,000 GVW chassis and equipped with combination dump/spreader boxes, front plow mounts and wing snowplow blades, along with other related snow and ice control equipment.

FY2027 :: 4004 & 3223

FY2028 :: 3233 & 3207

FY2029 :: 3222

These units are used year-round for both street maintenance projects and snow and ice control. In the winter months, these trucks are used to apply deicer material and plow snow accumulations during, and immediately after, winter storms. The trucks are also used to haul snow during cleanup operations after winter storms. During the warm weather months, these units are used to haul asphalt for our street paving program, and stone, rock, curb, and concrete for other street maintenance projects. After eight years of continuous use, the trucks will be due for replacement.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy

FUNDING RESTRICTIONS

This project can only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT ADDRESS/SERVICE AREA

\$ —	\$ —	TOTAL	\$ 200,000	\$ 205,000	\$ 210,000	\$ 215,000	\$ 220,000	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funds for the replacement of seven (7) of the nine (9) Public Works Department's 35,000 - 44,000 gross vehicle weight (GVW) street maintenance and snow/ice control dump trucks. These trucks are equipped in various configurations to provide operators with the tools to meet the goals of Dubuque's snow and ice control program. All trucks are recommended for replacement based on an eight (8) year replacement schedule:

FY2025 :: 3208 due in FY2024 & 3206
FY2026 :: 3241 due in FY2024 & 3204
FY2027 :: 3203 & 3201
FY2028 :: 3212

All units will be replaced with 44,000 GVW and will be equipped with a combination dump/spreader box and front-mounted snowplow. Some will also be equipped with a wing blade plow. All of these trucks are used year-round, with warm weather work dedicated to street paving and repair. They are used in the winter of plowing and deicing operations.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

\$ —	\$ —	TOTAL	\$ —	\$ —	\$ 230,000	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the replacement of the Public Works Department's only mechanical street sweeper. Unit # 4007 is a three-wheel street sweeper and is requested to be replaced after fourteen (14) years of service. A seven-year work life for this type of unit is considered the industry norm, balancing warranties, depreciation, reliability, and trade-in value. However, the Public Works Department has a total of three sweepers in its fleet, two of which are air vacuum sweepers which do the majority of sweeping in the City. This unit is used mainly for the clean-up of asphalt millings from our asphalt paving program and fall leaf sweeping. The City's three street sweepers are used to clean Dubuque's streets, downtown alleys, green alleys, and municipal parking lots. These sweepers clean the downtown every two days, arterial streets every two weeks, and the remaining streets every two months. These sweepers are also used to sweep Dubuque's "green alleys" on a regular basis to ensure that they perform as designed. City streets are swept Monday through Friday, year-round, whenever weather permits. By sweeping litter, dirt, debris, leaves, etc. from city streets and green alleys, Dubuque's air quality and surface waters are protected and aesthetics improved. Replacing this machine will also help Dubuque comply with its Federal Phase II stormwater permit obligations.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Provide City services responsive to the community

FUNDING RESTRICTIONS

This project may only be funded by Sales tax Fund (30%) and Road Use Tax Funding.

\$ —	\$ —	TOTAL	\$ —	\$ —	\$ 50,000	\$ 325,000	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides the necessary funds to repair the underwater section of the municipal boat ramp in AY McDonald Park at the east end of Hawthorne Street. In 1997, this boat ramp was reconstructed above its Mississippi River water line. As part of that project, new concrete panels were joined to the ramp's existing concrete panels below the water line. However, in recent years there has been accelerated deterioration of the underwater section of the boat ramp. On several occasions, sections of steel edging, iron rebar, and broken concrete have been removed to eliminate the underwater hazards they presented to boaters. Also, whenever the Mississippi River experiences low water levels, boaters have been having problems with their boat trailers dropping off the submerged end of the boat ramp. This project will involve installing a cofferdam around the underwater portion of the ramp, replacing the deteriorated and previously submerged concrete panels, and also adding additional panels to extend the ramp further into the river.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Diverse Arts, Culture, Parks and Recreation: Have well-built, well-maintained and upgraded parks and park amenities

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%).

PROJECT DESCRIPTION/JUSTIFICATION

This project would provide for the replacement of one backhoe loader, unit #3214, in FY26. During the warm weather months, backhoe loaders are used to remove pavements on various street and sewer maintenance repair projects. During the winter months they can be used to load snow and salt during or after winter events. After fourteen (14) years of continuous use, this unit will be in need of replacement.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Provide City services responsive to the community

PROJECT DESCRIPTION/JUSTIFICATION

This project will provide funds for the replacement of a total of six of the sixteen vehicle garage entry/exit doors and openers in Fiscal Years 2023 through 2025 at the Municipal Services Center. The doors being replaced are the highest-used doors and openers, which are also the doors with the highest failure rates and maintenance costs. Three doors were replaced in FY 2023. The Municipal Services Center was opened in 2005. The doors and openers will be over 18 years old by the time they are replaced. Replacing the doors and openers will increase reliability and reduce overall maintenance costs on the doors being replaced.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Maintain and enhance City infrastructure and facilities

PROJECT DESCRIPTION/JUSTIFICATION

This project would provide for the replacement of two (2) wheel loaders, unit #3255, a 2007 John Deere 624J wheel loader, in FY2027, and unit # 3209, a 2009 John Deere 624K wheel loader, in FY2028. The replacement wheel loaders will be equipped with a front-mount snow plow with plow gate attachment. During the warm weather months, wheel loaders are used to lift and load stone, asphalt, and demolition materials on various street and sewer maintenance repair projects. During the winter months, wheel loaders are used to not only plow streets and cul-de-sacs during major winter snow storms, but also subsequently remove snow accumulations from downtown streets and residential cul-de-sacs. After twenty (20) years of continuous use, these units will be in need of replacement.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Provide City services responsive to the community

\$ —	\$ —	TOTAL	\$ —	\$ —	\$ —	\$ —	\$ 318,000	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project would provide funds for the replacement of one aerial bucket truck equipped with an electrical-hydraulic boom system. The unit being replaced is unit #3230, a 2019 Ford F 550 4x4 with an aerial bucket unit. This truck is used by our traffic signal technicians to perform necessary maintenance and repairs to all city-owned traffic control equipment, streetlights, security camera equipment, and related electrical systems. It is estimated that this truck will be driven over 100,000 miles before its tentative trade-in date. It is important that this unit is replaced on a timely basis to ensure that it retains fair trade-in value and is always ready to perform timely repairs of Dubuque's growing number of signalized intersections, expanding security camera system, and numerous city-owned street lights.

RELATIONSHIP TO OTHER PROJECTS

\$ —	\$ —	TOTAL	\$ 405,000	\$ 45,000	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funds for the replacement of sewer maintenance unit # 2703. This unit is a 2020 Vactor Jet/Vac unit mounted on a 2020 International chassis. It is used daily to clean sewer pipe manholes for the City's gravity-flow sanitary sewer collection system and the City's stormwater collection systems. The self-contained, high-pressure water jet and vacuum units use various types of cleaner heads to remove debris and roots from Dubuque's sanitary sewer system to prevent basement backups and above-ground overflows. This unit is also used to clean storm sewer pipes, intakes and litter control baskets along the Bee Branch waterway. Replacing this unit in 2030 will provide the Public Works Department with a reliable unit for maintaining Dubuque's sanitary sewer system, as required by the United States Environmental Protection Agency (EPA) and the federal Clean Water Act.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funds to hire a private contractor to chemically treat up to 12,000 lineal feet of sanitary sewer lines throughout the city each year. Tree roots in sanitary sewer lines are one of the major causes of sanitary sewer clogs, backups into homes, and overflows onto streets and private properties. Tree roots are extremely invasive when seeking moisture and typically invade sanitary sewer pipes through cracks and open joints. They then grow into thick natural curtains, collecting solids and greases and eventually causing major clogs, backups, and overflows. In-pipe chemical treatment of roots kills the invasive roots and mitigates future root growth for up to five years. This annual program reduces the number of sanitary sewer overflows and the number of private homes damaged due to sewer backups each year. This program is also noted in the City's Capacity, Management, Operations, and Maintenance (CMOM) Program, which was approved by the United States Environmental Protection Agency in 2012.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Maintain and enhance City infrastructure and facilities

FUNDING RESTRICTIONS

This project may only be funded by the Sanitary Sewer Construction Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This annual project provides for the replacement of ten (10) solid waste collection vehicles from Fiscal Year 2025 through Fiscal Year 2029.

FY2025 :: 3402, 3408 & 3409

FY2026 :: 3401 & 3405

FY2027 :: 3403 & 3413

FY2028 :: 3404 & 3407

FY2029 :: 3412, 3406, 3410

The different styles of trucks will be used to collect customers' garbage, bulky items, recyclables, and yard waste and/or food scraps manually and/or by using a hydraulic lifting system for tipper carts. The city will continue to phase in automated sideloaders. Phasing in automated collection trucks will help improve collection efficiency, improve workers' safety, and increase neighborhood aesthetics through reduced litter associated with the use of garbage bags. These trucks will be eight to ten years old by their proposed replacement years.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Provide City services responsive to the community

FUNDING RESTRICTIONS

This project may only be funded by Refuse Collection Fund.

PROJECT ADDRESS/SERVICE AREA

City wide

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funds to remove silt from the stormwaste detention basins #2 (FY2025) & #3 (FY2026).

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Maintain and enhance City infrastructure and facilities.

FUNDING RESTRICTIONS

This project can only be funded by DMASWA Funds

PROJECT ADDRESS/SERVICE AREA

101 Airborne Road/ DMASWA Landfill Facility

DEPARTMENT: 54 - Public Works		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Landfill Tarpomatic Replacement Project			YEAR FIRST SUBMITTED: FY2024	PROJECT NO: 8284000010-950-67270		TOTAL PROJECT COST \$ 70,000

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funds to replace the Landfill's Tarpomatic, unit #3458. The Tarpomatic machine is used to unspool alternative daily cover tarps, which are used to cover the daily waste delivered to the facility to reduce the use of soil in the landfill cell and increase waste capacity. This equipment is on a 15 year replacement schedule.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Maintain and enhance City infrastructure and facilities

FUNDING RESTRICTIONS

This project can only be funded using DMASWA Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the unanticipated replacement of stormwater management facilities within the City's storm sewer system. While efforts are taken to identify and prioritize and proactively replace storm sewer facilities (intakes, manholes, storm sewer pipes, culverts, ditches, detention basins, etc.), this funding allows for addressing facilities found to have deteriorated to the extent that they are more likely to fail if not replaced in the short term.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Sustainable Environment: Reduce the potential flooding through flood plain management, mitigation and protection.

FUNDING RESTRICTIONS

This project may only be funded by Stormwater Construction Fund.

PROJECT ADDRESS/SERVICE AREA

This project funds improvements at various locations throughout the city.

DEPARTMENT: 55 - Engineering / Stormwater		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Storm Sewer Improvements/Extensions			YEAR FIRST SUBMITTED: FY 2014 PROJECT NO: 5586500020 720-1008	TOTAL PROJECT COST \$ 311,000

\$ 38,402	\$ 38,000	TOTAL	61,000	62,000	62,000	63,000	63,000	64,000

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for various storm sewer improvements such as adding storm sewer and catch basins. It also provides for City participation in the extension of public drainage facilities on private property. The extent of City participation will be limited to the City supplying construction materials on private projects. These monies are used on a case-by-case basis, based on benefit to the City. Priorities are based upon the number and scope of citizen requests and the severity of the problem or issues to be addressed.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Sustainable Environment: Reduce the potential flooding through flood plain management, mitigation and protection.

FUNDING RESTRICTIONS

This project may only be funded by Stormwater Construction Fund.

PROJECT ADDRESS/SERVICE AREA

The location of the various improvements is yet to be determined.

\$ 5,084	\$ —	TOTAL	\$ 52,500	\$ 55,000	\$ 57,700	\$ 60,400	\$ 64,100	\$ 67,000

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the elimination of the City's brick sanitary sewer manholes and replacement/rehabilitation of sewers as needed to eliminate stormwater from entering into the wastewater collection system. Brick manholes are highly susceptible to allowing stormwater into the sanitary sewer system which can overwhelm the system and cause the stormwater/wastewater mixture to overflow into basements, streets, creeks, streams, and rivers. The City's NPDES stormwater permit requires the City to eliminate this discharge in order to protect the biological integrity of the receiving waters. Replacing porous brick manholes with water-tight manholes reduces the flow of stormwater into the sanitary sewer system and supports the city's efforts to comply with the requirements identified in the USEPA/IDNR/City of Dubuque Consent Decree. The City's sanitary sewer system Capacity, Management, Operation, and Maintenance Program (CMOM), established to fulfill a requirement of the Consent Decree, outlines that the City budgets "on average" \$100,000 per year to replace sanitary sewer manholes.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Sanitary Sewer Manhole Replacement project (CIP# 5581500020). The City's sanitary sewer system Capacity, Management, Operation, and Maintenance Program (CMOM) outlines that the City budgets "on average" \$100,000 per year to replace sanitary sewer manholes.

OUTCOME

Sustainable Environment: Have clean water – ground and surface.

FUNDING RESTRICTIONS

This project may only be funded by Stormwater Construction Fund and the Sanitary Sewer Construction Fund.

PROJECT ADDRESS/SERVICE AREA

Project involves improvements in various sanitary sewersheds throughout the city.

DEPARTMENT: 55 - Engineering / Stormwater		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Storm Sewer Outlet Repairs			YEAR FIRST SUBMITTED: PROJECT NO:	FY 2025 5586500038-621-64075/67300/67990	TOTAL PROJECT COST \$ 153,000

\$ —	\$ —	TOTAL	\$ 46,000	\$ 47,700	\$ 49,400	\$ 51,100	\$ 52,800	\$ 54,500

PROJECT DESCRIPTION/JUSTIFICATION

The project provides for improvements to the storm sewer near 1854 Bennett Street. The project was originally scheduled for FY 2018 but it has been shifted to coincide with the planned street work. During heavy rainstorms, the stormwater that collects in the street reaches a depth where it flows over the curb into the adjacent alley.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Bennett Street Reconstruction Project and needs to be scheduled in the same fiscal year as that project.

OUTCOME

Sustainable Environment: Reduce the potential flooding through flood plain management, mitigation and protection.

FUNDING RESTRICTIONS

This project may only be funded by the Stormwater Construction Fund or the Sales Tax Fund (30%) utilized to reconstruct the street.

PROJECT ADDRESS/SERVICE AREA

Improvements to be constructed between N. Grandview and N. Algona Street.

DEPARTMENT: 55 - Engineering / Stormwater		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Catch Basin Reconstruction			YEAR FIRST SUBMITTED: FY 2012 PROJECT NO: 5586500002 720-1081	TOTAL PROJECT COST \$ 276,000

19,859	34,000	TOTAL	54,000	55,000	55,000	56,000	56,000	57,000

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for the reconstruction of catch basins due to their condition and effectiveness. It also provides for the systematic replacement of the approximately 800 older model curb opening style catch basins throughout the city which were the standard prior to 1990. The current standard catch basin is much more efficient at collecting stormwater than the old style catch basins. Old catch basins do not collect the desired amount of street drainage causing unnecessary street flooding. Some old style catch basins have larger openings which can pose a safety risk to pedestrians. Finally, this project provides funding to replace catch basins as needed as part of the City's annual asphalt overlay program.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Sustainable Environment: Reduce the potential flooding through flood plain management, mitigation and protection.

FUNDING RESTRICTIONS

This project may only be funded by Stormwater Construction Funds.

PROJECT ADDRESS/SERVICE AREA

The improvements occur at various locations to be determined.

DEPARTMENT: 55 - Engineering / Stormwater		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Drain Tile Program			YEAR FIRST SUBMITTED: FY 2014	TOTAL PROJECT COST \$ 320,000

\$ 11,542	\$ —	TOTAL	—	—	100,000	104,000	116,000	—

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the installation of drain tile to collect sump pump discharge and direct it to a storm sewer. A significant number of homes in Dubuque utilize sump pumps to prevent groundwater from damaging basements. In many instances, sump pump discharge is directed through the curb into the street. While streets serve as part of the public stormwater drainage system, constant flow of tile discharge can damage streets and, in some instances, result in hazardous, slick street surfaces. This funding provides for addressing trouble spots where icing or algae impact intersections or where icing becomes extreme and its removal is beyond the capability of the average homeowner. When possible, the work is done in conjunction with street resurfacing projects and other Public Works efforts. Since 2007, over thirty of the more severe problem areas have been addressed. The cost per site has varied from \$3,500 to \$45,000. Some sites are more costly because they require the installation of additional storm sewer and catch basins; these are usually funded through unique CIP projects. With approximately \$100,000 budgeted per year, the remaining identified and verified problem areas will be addressed by the end of FY2029. Two higher priority areas (Trygg and Westmore) are to be addresses as unique capitol improvement program projects.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects but can be coordinated with the Public Works Asphalt Overlay Program.

OUTCOME

Livable Neighborhoods and Housing: Have safe, healthy, inclusive neighborhoods citywide.

FUNDING RESTRICTIONS

This project may only be funded by Stormwater Construction Funds.

PROJECT ADDRESS/SERVICE AREA

Project involves improvements at multiple locations.

PROJECT DESCRIPTION/JUSTIFICATION

This project funds the construction of a new stormwater pumping station on Kerper Boulevard so that the City can decommission the existing pump station system installed as part of the John C. Culver Floodwall/Levee system that prevents the Mississippi from flooding the Bee Branch Watershed. The new facility will include a new flood gate, four new 90,000 gallon per minute pumps (roughly double the capacity of the existing facility), new electrical service, and the installation of an back-up generators. The improvements will provide a system that can accommodate the flooding that has been occurring since 1999, flooding that has resulted in six presidential disaster declarations due to public and private property damage, impacting more than 1,300 homes and businesses. It also provides for additional resiliency options as rainstorms increase in both depth and intensity. This project is Phase 5 of the Bee Branch Watershed Flood Mitigation Project.

RELATIONSHIP TO OTHER PROJECTS

This project is one phase of the Bee Branch Watershed Flood Mitigation Project whose phases are as follows: Phase 1 - Carter Road Detention Basin; Phase 2 - W.32nd Street Detention Basin; Phase 3 - Historic Millwork District; Phase 4 - Lower Bee Branch Creek Restoration; Phase 5 - Bee Branch Flood Mitigation Gate Replacement Project; Phase 6 - Impervious Surface Reduction (Pervious Pavement Systems); Phase 7 - Upper Bee Branch Creek Restoration; Phase 8 - 22nd St/ Kaufmann Ave Storm Sewer Improvements; Phase 9 - Flood Maintenance Facility; Phase 10 - North End Storm Sewer Improvements; Phase 11 - Water Plant Flood Protection System; Phase 12 - 17th St/W. Locust Street Storm Sewer Improvements.

OUTCOME

Sustainable Environment: Reduce the potential flooding through flood plain management, mitigation and protection.

FUNDING RESTRICTIONS

This project is restricted to the Stormwater Construction Fund, EDA grant funds, SRF, DRA, and Sales Tax Increment funds.

PROJECT ADDRESS/SERVICE AREA

Project improvements to be constructed on the west side of Kerper Boulevard between 12th and 16th Streets.

PROJECT DESCRIPTION/JUSTIFICATION

This project involves the construction of a maintenance facility near 16th and Elm Streets near the Bee Branch Creek on the former Blum Metal Recycling facility. The Flood Mitigation Maintenance Facility will provide the work space and equipment storage areas necessary to provide adequate maintenance of the Bee Branch Creek and the 16th Street Detention Basin (Bee Branch Pond) to ensure that the facilities are able to function at an optimum level when a flash flood occurs. In addition to providing work space for City employees assigned to maintaining the Bee Branch Creek Greenway, it will provide space for the boat used to access all areas of the creek. It will provide public restrooms which will double as a storm shelter for people within the greenway in the event that severe weather approaches. Parking will also be provided as part of the project. The use of the existing buildings is still under consideration and if the property will be shared with an outside organization. EPA funded cleanup activities were concluded in FY23. Depending on the ultimate use of the property and how it is redeveloped, additional environmental work may be necessary. Design of the facility will begin in FY25 with construction anticipated in FY28 based on available State Flood Mitigation Program funding. This project is Phase 9 of the Bee Branch Watershed Flood Mitigation Project.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Sustainable Environment: Reduce the potential flooding through flood plain management, mitigation and protection.

FUNDING RESTRICTIONS

This project may only be funded by Stormwater Construction Fund and the State Flood Mitigation Funds.

PROJECT ADDRESS/SERVICE AREA

This project will serve the maintenance needs of the Bee Branch Creek from Kerper Boulevard to 24th Street.

DEPARTMENT: 55 - Engineering / Stormwater		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: North End Storm Sewer Improvements (Phase 10 of Bee Branch Watershed Flood Mitigation Project)			YEAR FIRST SUBMITTED: FY2017 PROJECT NO:	TOTAL PROJECT COST \$ 650,000	
2023 EXPENSE	2024 BUDGET	PROJECT BUDGET	2025	2026	2027	2028	2029	2030
		A. EXPENDITURE ITEMS						
\$ —	\$ —	Engineering Services	\$ —	\$ —	\$ —	\$ 180,000	\$ 20,000	\$ 20,000
\$ —	\$ —	Construction	\$ —	\$ —	\$ —	\$ —	\$ 450,000	\$ 450,000
\$ —	\$ —	TOTAL	—	—	—	180,000	470,000	470,000
		B. PROJECT FINANCING						
\$ —	\$ —	Stormwater Construction Fund	\$ —	\$ —	\$ —	\$ —	\$ 250,000	\$ 470,000
\$ —	\$ —	Sales Tax Increment	\$ —	\$ —	\$ —	\$ 180,000	\$ 220,000	\$ —
\$ —	\$ —	TOTAL	\$ —	\$ —	\$ —	\$ 180,000	\$ 470,000	\$ 470,000

PROJECT DESCRIPTION/JUSTIFICATION

This provides for the upgrading of the storm sewers on 25th, 26th, 27th, 28th, 29th, and 30th Streets between White and Elm Streets. Storm sewers will be upsized to handle stormwater runoff from heavy rains. While each street will be considered individually, the storm sewer capacity will be expanded to ten times the current capacity. Typically, storm sewers are designed to handle rain in small quantities. But with the completion of the Bee Branch Creek Restoration Project, upgrading the local storm sewers will significantly decrease localized street flooding that can also lead to basement flooding. To limit the sewer upgrade costs, upgrading the various local street drainage systems will be done when possible in concert with the Street Program and the Public Works Department's annual asphalt overlay program. The funding in FY28 will provide for the design of the improvements.

RELATIONSHIP TO OTHER PROJECTS

This project is one phase of the Bee Branch Watershed Flood Mitigation Project whose phases are as follows: Phase 1 - Carter Road Detention Basin; Phase 2 - W.32nd Street Detention Basin; Phase 3 - Historic Millwork District; Phase 4 - Lower Bee Branch Creek Restoration; Phase 5 - Bee Branch Flood Mitigation Gate Replacement Project; Phase 6 - Impervious Surface Reduction (Pervious Pavement Systems); Phase 7 - Upper Bee Branch Creek Restoration; Phase 8 - 22nd St/ Kaufmann Ave Storm Sewer Improvements; Phase 9 - Flood Maintenance Facility; Phase 10 - North End Storm Sewer Improvements; Phase 11 - Water Plant Flood Protection System; Phase 12 - 17th St/W. Locust Street Storm Sewer Improvements.

OUTCOME

Sustainable Environment: Reduce the potential flooding through flood plain management, mitigation and protection.

FUNDING RESTRICTIONS

This project may only be funded by Stormwater Construction Fund or State Flood Mitigation funds.

PROJECT ADDRESS/SERVICE AREA

25th, 26th, 27th, 28th, 29th, and 30th Streets between White and Elm Streets.

DEPARTMENT: 55 - Engineering / Stormwater		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Windsor Storm Extension (Buena Vista to Strauss)			YEAR FIRST SUBMITTED: FY 2017 PROJECT NO: 720-2414	TOTAL PROJECT COST \$ 136,000	
2023 EXPENSE	2024 BUDGET	PROJECT BUDGET	2025	2026	2027	2028	2029	2030
		A. EXPENDITURE ITEMS						
\$ —	\$ —	Design & Engineering	\$ —	\$ —	\$ 14,000	\$ —	\$ —	\$ —
\$ —	\$ —	Construction	\$ —	\$ —	\$ 122,000	\$ —	\$ —	\$ —

\$ —	\$ —	Stormwater Construction Fund	\$ —	\$ —	\$ 136,000	\$ —	\$ —	\$ —
\$ —	\$ —	TOTAL	—	—	136,000	—	—	—

PROJECT DESCRIPTION/JUSTIFICATION

The project provides for the construction of 265 feet of 15-inch diameter storm sewer on Windsor Avenue from Buena Vista to Strauss. This project was budgeted previously but was delayed as a result of prioritizing other pressing stormwater management needs. The additional storm sewer will reduce the threat of stormwater entering onto private property and causing property damage just south of Buena Vista.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Sustainable Environment: Reduce the potential flooding through flood plain management, mitigation and protection.

FUNDING RESTRICTIONS

This project may only be funded by Stormwater Construction Fund.

PROJECT ADDRESS/SERVICE AREA

Improvements to be constructed along Windsor Avenue from 2757 Windsor to Strauss Street.

DEPARTMENT:		STATE PROGRAM:	PROJECT TITLE:			YEAR FIRST SUBMITTED:		TOTAL PROJECT COST
55 - Engineering / Stormwater						FY 2018		
		8C - Business Type	University Avenue Storm Sewer Reconstruction (Street Project)			PROJECT NO:	720-1811	\$ 175,000

\$ —	\$ —	TOTAL	\$ —	\$ —	\$ 175,000	\$ —	\$ —	\$ —
		B. PROJECT FINANCING						
\$ —	\$ —	Stormwater Construction Fund	\$ —	\$ —	\$ 175,000	\$ —	\$ —	\$ —
\$ —	\$ —	TOTAL	\$ —	\$ —	\$ 175,000	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the relocation, reconstruction, and extension of storm sewer as necessary due to the construction of the three roundabouts on University Avenue outlined in the East/West Corridor Study. The construction of roundabouts requires the relocation and possible improvements to the existing storm sewer system along University Avenue between Loras Boulevard and Pennsylvania Avenue.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the East-West Corridor Study - University Avenue Roundabout Project (CIP # 5521000001) and must be scheduled in the same fiscal year as that project.

OUTCOME

Sustainable Environment: Reduce the potential flooding through flood plain management, mitigation and protection.

FUNDING RESTRICTIONS

This project may only be funded by the Stormwater Construction Fund or the funds utilized to reconstruct the street.

PROJECT ADDRESS/SERVICE AREA

Improvements to be constructed in the vicinity of the University Avenue and Asbury Road intersection.

DEPARTMENT: 55 - Engineering / Stormwater		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: NW Arterial Detention Basin Improvements			YEAR FIRST SUBMITTED: FY2018 PROJECT NO: 720-1086	TOTAL PROJECT COST \$ 252,000	
2023 EXPENSE	2024 BUDGET	PROJECT BUDGET	2025	2026	2027	2028	2029	2030
		A. EXPENDITURE ITEMS						
\$ —	\$ —	Engineering Services	\$ —	\$ —	\$ 5,000	\$ 4,000	\$ —	\$ —
\$ —	\$ —	Construction	\$ —	\$ —	\$ —	\$ 243,000	\$ —	\$ —
\$ —	\$ —	TOTAL	\$ —	\$ —	\$ 5,000	\$ 247,000	\$ —	\$ —
		B. PROJECT FINANCING						
\$ —	\$ —	Stormwater Construction Fund	\$ —	\$ —	\$ 5,000	\$ 247,000	\$ —	\$ —
\$ —	\$ —	TOTAL	\$ —	\$ —	\$ 5,000	\$ 247,000	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the installation of an energy dissipation, let-down structure where stormwater flows into the NW Arterial Detention Basin from the west. Currently, stormwater from the west flows down into the detention basin over a rip-rap (rock) flume. On multiple occasions over the past few years, the stormwater flows have washed away the rip-rap and caused erosion and damage to the detention basin with maintenance and repair costs becoming increasingly excessive. Construction of the energy dissipation, let-down structure will eliminate the recurring erosion and maintenance issues. The project was previously budgeted. However, the cost of the recommended improvements exceeded the established budget.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Sustainable Environment: Reduce the potential flooding through flood plain management, mitigation and protection.

FUNDING RESTRICTIONS

This project may only be funded by Stormwater Construction Fund.

PROJECT ADDRESS/SERVICE AREA

Improvements to be constructed in the vicinity of Teddy Bear Park.

DEPARTMENT: 55 - Engineering / Stormwater		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Bies Drive Storm Sewer (Street Program)			YEAR FIRST SUBMITTED: PROJECT NO:	FY 2019 720	TOTAL PROJECT COST \$ 98,000
2023 EXPENSE	2024 BUDGET	PROJECT BUDGET	2025	2026	2027	2028	2029	2030
		A. EXPENDITURE ITEMS						
\$ —	\$ —	Engineering Services	\$ —	\$ —	\$ 7,000	\$ —	\$ —	\$ —
\$ —	\$ —	Construction	\$ —	\$ —	\$ 91,000	\$ —	\$ —	\$ —
\$ —	\$ —	TOTAL	\$ —	\$ —	\$ 98,000	\$ —	\$ —	\$ —
		B. PROJECT FINANCING						
\$ —	\$ —	Stormwater Construction Fund	\$ —	\$ —	\$ 98,000	\$ —	\$ —	\$ —
\$ —	\$ —	TOTAL	\$ —	\$ —	\$ 98,000	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the extension of storm sewer from the Century Drive/Bies/Sylvan intersection to the north along Bies Drive in conjunction with the reconstruction of Bies Drive. Reconstruction of Bies Drive with a standard curb and gutter will require catch basins and storm sewer to drain the pavement.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Bies Drive Street Reconstruction Project and needs to be scheduled in the same fiscal year as that project.

OUTCOME

Sustainable Environment: Reduce the potential flooding through flood plain management, mitigation and protection.

FUNDING RESTRICTIONS

This project may be funded by the Stormwater Construction Fund or the Sales Tax Fund (30%) that would be utilized to reconstruct the street.

PROJECT ADDRESS/SERVICE AREA

Improvements to be constructed along Sylvan Drive between Century Drive and Pennsylvania Ave.

DEPARTMENT: 55 - Engineering / Stormwater		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Cedar Cross Road Storm Sewer Construction (Street Program)			YEAR FIRST SUBMITTED: PROJECT NO:	FY 2017 5586500035 720-2238	TOTAL PROJECT COST \$ 292,000
2023 EXPENSE	2024 BUDGET	PROJECT BUDGET	2025	2026	2027	2028	2029	2030
		A. EXPENDITURE ITEMS

\$ —	\$ —	Stormwater Construction Fund	\$ —	\$ —	\$ 292,000	\$ —	\$ —	\$ —
\$ —	\$ —	TOTAL	\$ —	\$ —	\$ 292,000	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

The project provides for the construction of a storm sewer system for the section of Cedar Cross Road, from west of Nightingale Lane to Lake Ridge Drive. The project must be done with the planned street reconstruction as the current street section does not have curb and gutter or a storm sewer system to drain the pavement. When curb and gutter is added, catch basins and storm sewer will be required to drain the pavement.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the reconstruction of Cedar Cross Road.

OUTCOME

Sustainable Environment: Reduce the potential flooding through flood plain management, mitigation and protection.

FUNDING RESTRICTIONS

This project may be funded by Storm Sewer Construction funds or the funds used to reconstruct Cedar Cross Road.

PROJECT ADDRESS/SERVICE AREA

Cedar Cross Road from west of Nightengale Lane to Lake Ridge Drive.

DEPARTMENT: 55 - Engineering / Stormwater		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Century Drive Storm Sewer Reconstruction (Street Project)			YEAR FIRST SUBMITTED: PROJECT NO:	FY 2016 720	TOTAL PROJECT COST \$ 242,500

\$ —	\$ —	TOTAL	\$ —	\$ —	\$ 242,500	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for reconstruction and upgrading the storm sewer system along Century Drive from US20 1,200 feet north to the western Kennedy Mall entrance. Upgrading and replacing the existing, aging storm sewer system and catch basins serving Century Drive is warranted and done most cost effectively when done in conjunction with planned street work.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Century Drive Street Reconstruction Project and must be scheduled in the same fiscal year as that project.

OUTCOME

Sustainable Environment: Reduce the potential flooding through flood plain management, mitigation and protection.

FUNDING RESTRICTIONS

This project is can be funded by the Stormwater Construction Fund or the Sales Tax Fund (30%) utilized to reconstruct the street.

PROJECT ADDRESS/SERVICE AREA

Improvements to be constructed along Century Drive between Sylvan/Bies to US HWY20.

DEPARTMENT:		STATE PROGRAM:	PROJECT TITLE:			YEAR FIRST SUBMITTED:		TOTAL PROJECT COST
55 - Engineering / Stormwater		8C - Business Type	Embassy West Storm Sewer Improvements			FY2024	PROJECT NO: 5586500036	
								\$ 153,000
2023 EXPENSE	2024 BUDGET	PROJECT BUDGET	2025	2026	2027	2028	2029	2030

\$ —	\$ —	TOTAL	\$ —	\$ 153,000	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the extension of 380 feet of storm sewer along Embassy West Drive to address a drainage issue on Ambassador Court. The current drainage system for Ambassador Court is tasked with accommodating drainage from parts of Pennsylvania and Embassy West Drive. Due to capacity issues, stormwater overwhelms the existing storm sewer such that stormwater will flow out of the system and flood Ambassador Court from curb to curb and flooding adjacent homes. It would be most cost-effective to construct the improvements along with the Public Works Department's asphalt overlay program.

RELATIONSHIP TO OTHER PROJECTS

This work should be done in conjunction with the City's annual asphalt overlay program.

OUTCOME

Sustainable Environment: Reduce the potential flooding through flood plain management, mitigation and protection.

FUNDING RESTRICTIONS

This project may only be funded by Stormwater Construction Fund.

PROJECT ADDRESS/SERVICE AREA

Ambassador Court

DEPARTMENT: 55 - Engineering / Stormwater		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: 24th St Pervious Paver Stabilization			YEAR FIRST SUBMITTED: 2022 PROJECT NO: 5586500039-621-64075/64070/67990		TOTAL PROJECT COST \$ 153,000

\$ —	\$ —	TOTAL	\$ 90,000	\$ —	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding to modify the brick paver pervious pavement system on 24th Street between Prince Street and Washington Street adjacent to the Bee Branch Greenway. The pavers on have not stood up to higher travel lane speeds. Over the past four years, the pavers have shifted resulting in large gaps between pavers. A revised design has been formulated by the Engineering Department that will have the paver reset within periodic concrete bands in order to prevent future pavement movement.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Sustainable Environment: Have clean water – ground and surface

FUNDING RESTRICTIONS

This project may be funded by the Stormwater Construction Fund or the funds utilized to reconstruct the street such as the Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT ADDRESS/SERVICE AREA

24th Street from Prince Street to Washington Street

55 - Engineering / Stormwater		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Auburn & Custer Storm Sewer Reconstruction			YEAR FIRST SUBMITTED: FY 2025 PROJECT NO: 5586500040-621-64070/67990	TOTAL PROJECT COST \$ 153,000

\$ —	\$ —	TOTAL	\$ 287,500	\$ —	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

The project provides for the removal and replacement of approximately 360 LF of various sized storm sewer and the installation of approximately 1800 feet of drain tile. The improvement will be installed in conjunction with the sanitary sewer replacements required by the Consent Decree Corrective Action Plan, water main replacements, and roadway reconstruction improvements in the same area. The project improvements have been designed and are ready to bid at the start of FY25.

RELATIONSHIP TO OTHER PROJECTS

This project is related to sanitary sewer (Consent Decree), water main, and street improvements in the same area.

OUTCOME

Sustainable Environment: Have clean water - ground and surface.

FUNDING RESTRICTIONS

This project may be funded by the Stormwater Construction Fund or the funds available to reconstruct the street such as the Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT ADDRESS/SERVICE AREA

Custer Street and Auburn Street neighborhood.

DEPARTMENT: 55 - Engineering / Stormwater		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Rockdale Road Storm Sewer Extension (Street Program)			YEAR FIRST SUBMITTED: FY 2025 PROJECT NO:		TOTAL PROJECT COST \$ 153,000
2023 EXPENSE	2024 BUDGET	PROJECT BUDGET	2025	2026	2027	2028	2029	2030

\$ —	\$ —	TOTAL	\$ —	\$ 10,000	\$ 80,000	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

The project provides for the extension of storm sewer as part of the reconstruction of Rockdale Road between South Pointe Drive and Maquoketa Drive. Reconstruction of the street will include the installation of curbing. Therefore, catch basins and storm sewer will be required to drain the street. The improvements are only necessary if the street is reconstructed.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the reconstruction of Rockdale Road as part of the Street Program.

OUTCOME

Sustainable Environment: Reduce the potential flooding through flood plain management, mitigation and protection.

FUNDING RESTRICTIONS

This project may only be funded by Storm Sewer Construction funds or the funds used to reconstruct Cedar Cross Road.

PROJECT ADDRESS/SERVICE AREA

Rockdale Road between South Pointe Drive and Maquoketa Drive.

\$ —	\$ —	TOTAL	\$ —	\$ —	\$ 62,500	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

The project provides for improvements to the storm sewer near 1854 Bennett Street. The project was originally scheduled for FY 2018 but it has been shifted to coincide with the planned street work. During heavy rainstorms, the stormwater that collects in the street reaches a depth where it flows over the curb into the adjacent alley.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Bennett Street Reconstruction Project and needs to be scheduled in the same fiscal year as that project.

OUTCOME

Sustainable Environment: Reduce the potential flooding through flood plain management, mitigation and protection.

FUNDING RESTRICTIONS

This project may only be funded by the Stormwater Construction Fund or the Sales Tax Fund (30%) utilized to reconstruct the street.

PROJECT ADDRESS/SERVICE AREA

Improvements to be constructed between N. Grandview and N. Algona Street.

DEPARTMENT: 55 - Engineering / Stormwater		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Trygg Storm Sewer Extension Project			YEAR FIRST SUBMITTED: PROJECT NO:	FY 2025	TOTAL PROJECT COST \$ 153,000

\$ —	\$ —	Stormwater Construction Fund	\$ —	\$ —	\$ —	\$ 312,500	\$ —	\$ —
\$ —	\$ —	TOTAL	\$ —	\$ —	\$ —	\$ 312,500	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

The purpose of this project is to extend storm sewer and drain tile from Kaufmann Avenue, south along Trygg Drive, to Theda Drive to address a constant icing problem on Theda and icing and alge buildup on Trygg Drive. Private drain tile and sump pump discharge is directed through the curb into both Theda Drive and Trygg Drive. With curb and gutter sections, the streets serve as part of the public stormwater drainage system. However, the constant flow of tile and sump pump discharge can damage streets and result in hazardous, slick street surfaces. This funding provides for addressing the conditons on both Trygg and Theda where icing becomes extreme and removal requires significant efforts by Public Works crews in the winter. It would be best to coordinate the construction to coincide with the Public Works Annual Asphalt Overlay Program.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Have safe, healthy, inclusive neighborhoods citywide.

FUNDING RESTRICTIONS

This project may be funded by the Stormwater Construction Fund or the funds available to reconstruct the street such as the Sales Tax Fund (30%) and the Road Use Tax Fund.

PROJECT ADDRESS/SERVICE AREA

Trygg Drive from Kaufmann Avenue to Theda Drive.

DEPARTMENT: 55 - Engineering / Stormwater		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Carter Road and Westmore Storm Sewer Extension			YEAR FIRST SUBMITTED: PROJECT NO:	FY 2025	TOTAL PROJECT COST \$ 153,000

\$ —	\$ —	TOTAL	\$ —	\$ —	\$ —	\$ 159,000	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the extension of storm sewer on Carter Road from Kane Street to Westmore Drive and the installation of drain tile on Westmore to address a constant icing problem on Westmore. Private drain tile and sump pump discharge is directed through the curb into the street. While streets serve as part of the public stormwater drainage system, constant flow of tile discharge can damage streets and, in some instances, result in hazardous, slick street surfaces. This funding provides for addressing a trouble spot on Westmore where icing becomes extreme and removal requires significant efforts by Public Works crews in the winter. It would be best to coordinate the construction to coincide with the Public Works Annual Asphalt Overlay Program.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Have safe, healthy, inclusive and affordable neighborhoods citywide

FUNDING RESTRICTIONS

This project may be funded by the Stormwater Construction Fund or the funds available to reconstruct the street such as the Sales Tax Fund (30%) and the Road Use Tax Fund.

PROJECT ADDRESS/SERVICE AREA

Carter Avenue from Kane Street to Westmore Drive.

DEPARTMENT: 55 - Engineering / Stormwater		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Loras & Locust Intersection Reconstruction (Storm Sewer)			YEAR FIRST SUBMITTED: PROJECT NO:	FY 2025	TOTAL PROJECT COST \$ 153,000
2023 EXPENSE	2024 BUDGET	PROJECT BUDGET	2025	2026	2027	2028	2029	2030

\$ —	\$ —	TOTAL	\$ —	\$ 84,000	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the reconstruction of the storm sewer within the Loras Boulevard and Locust Street. The work is to be coordinated with street reconstruction, water main reconstruction, and curb ramp reconstruction. The condition of the pavement and storm sewer has deteriorated. A storm sewer structure failed within the last year requiring an emergency repair. This project will provide for the complete replacement of the aging storm sewer and is to be done in conjunction with other utilities and street replacement. There will be cost savings if the utility and street work is performed as one project.

RELATIONSHIP TO OTHER PROJECTS

This project is related to street, curb ramp, and water main improvements and should be budget as one project.

OUTCOME

Sustainable Environment: Reduce the potential flooding through flood plain management, mitigation and protection.

FUNDING RESTRICTIONS

This project may be funded by the Stormwater Construction Fund or the funds available to reconstruct the street such as the Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT ADDRESS/SERVICE AREA

14th Street and Bluff Street intersection.

PROJECT DESCRIPTION/JUSTIFICATION

This CIP provides funding to continue a 1990's council priority to extend sanitary sewer service to existing developments and individual properties. This CIP provides for the extension of sanitary sewer to 22 properties within the City limits. These properties have outdated septic systems that no longer provide adequate wastewater treatment and in most cases are not able to install a new compliant septic system. Planned extensions include funding to serve Nightingale Lane (Orig. FY 11) \$714,000, Eagle Point Drive (Orig. FY 13) \$565,000, and Richards Road (Orig. FY 13) \$545,000.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds or SRF Funds.

PROJECT ADDRESS/SERVICE AREA

The area served are the various neighborhood described in the project description above.

DEPARTMENT: 55 - Engineering / Sanitary Sewer		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Sanitary Sewer Extensions - Existing Development, Pre-annexation and Annexation Agreements			YEAR FIRST SUBMITTED: FY 2019 PROJECT NO: 5581500001 710-1012	TOTAL PROJECT COST \$ 1,453,098

\$ 48,898	\$ 404,200	TOTAL	\$ —	\$ —	\$ —	\$ —	\$ 1,000,000	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This funding provides for the City to meet its contractual obligations for the extension of sanitary sewers into new development areas or recently annexed areas as part of development agreements, pre-annexation agreements, and annexation agreements. The funds in this CIP are for annexation areas along Pennsylvania Ave, and Middle Road (Merkes / Pothoff), Seippel Road (Callahan). Agreement state that the City will provide sanitary sewer service within one year of the filing of the final plat. To date there has been no such request by the property owners along Pennsylvania and Middle Road.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Catfish Creek Interceptor Sewer Improvements Project.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds.

PROJECT ADDRESS/SERVICE AREA

Project improvements will serve multiple locations outlined in project description above.

DEPARTMENT: 55 - Engineering / Sanitary Sewer		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Dubuque Industrial Center Crossroads Sanitary Sewer Extension			YEAR FIRST SUBMITTED: 2023 PROJECT NO: 5581500002 710-1080		TOTAL PROJECT COST \$ 230,000

\$ —	\$ —	TOTAL	\$ —	\$ 230,000	\$ —	\$ —	\$ —	\$ 291,000

PROJECT DESCRIPTION/JUSTIFICATION

This project involves installing sanitary sewer through the 156.25-acre City-owned property located at the northwest quadrant of the intersection of the Southwest Arterial and Highways 151/61 to ready it for industrial park development. The property is currently planned to be developed in three phases. The funding in FY23 provided for the engineering design of the sewer for all three phases and construction of the first phase. Construction of the second and third phases are programmed for FY26 and FY30 respectively but will be shifted in the future to meet development needs.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the previously budgeted Sanitary Sewer Extension to the Tamarack Business Park project and the improvements to the Granger Creek Sanitary Sewer Lift Station (CIP # 5581500009).

OUTCOME

Sustainable Environment: Have clean water – ground and surface.

FUNDING RESTRICTIONS

Project improvements can be funded using sanitary sewer construction funds, GO bonds, and TIF funding. An SRF loan cannot be utilized for this project.

PROJECT ADDRESS/SERVICE AREA

156.25-acre City-owned property at the northwest quadrant of the intersection of the Southwest Arterial and Highways 151/61.

DEPARTMENT: 55 - Engineering / Sanitary Sewer		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Dubuque Industrial Center Chavenelle, Sewer Extension to Pennsylvania			YEAR FIRST SUBMITTED: PROJECT NO:		TOTAL PROJECT COST \$ 234,989

\$ —	\$ —	TOTAL	\$ —	\$ —	\$ —	\$ 234,989	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project involves the extension of sanitary sewer 1,500 feet from Chavenelle Road to Pennsylvania through the northwestern portion of Industrial Center Chavenelle to north of Pennsylvania. Per the terms of an annexation agreement, the City is required to provide service to the property north of Pennsylvania to coincide with its development.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing.

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Fund.

PROJECT ADDRESS/SERVICE AREA

Dubuque Industrial Center Chavenelle former McFadden Farm to Pennsylvania.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for emergency replacement of the City's sanitary sewer system when significant and potentially hazardous defects are discovered. The City has initiated efforts to inspect and characterize the condition of the 300+ mile sanitary sewer system in order to prioritize and address high risk sections (see Sanitary Sewer CCTV Inspection, Cleaning, & Assessment CIP). However, until that process is completed, funding is necessary to replace higher risk sewers discovered during the course of the year. Budget has been increased to reflect the rising cost of sewer improvements each year.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Sustainable Environment: Have clean water – ground and surface.

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds.

PROJECT ADDRESS/SERVICE AREA

This project provides for improvements on a case-by-case basis with locations to be determined.

DEPARTMENT: 55 - Engineering / Sanitary Sewer		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Sanitary Sewer Lining Program			YEAR FIRST SUBMITTED: FY 2010 PROJECT NO: 5581500005 710-1637	TOTAL PROJECT COST \$ 632,706

\$ 681	\$ —	Sanitary Sewer Construction Fund	\$ —	\$ —	\$ —	\$ 195,234	\$ 436,791	\$ —
\$ 681	\$ —	TOTAL	\$ —	\$ —	\$ —	\$ 195,234	\$ 436,791	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for lining and associated grouting of sanitary sewers at various locations throughout the city. Lining a sewer pipe results in a new sewer pipe (inside the old) with a useful life of 50 years or more. Lining a pipe can be far more cost effective as it does not require excavation and associated surface restoration. Pipe lining improves flow characteristics, reduces I&I, and eliminates maintenance issues such as roots and debris buildup. The City's Capacity, Management, Operation, and Maintenance (CMOM) program approved by the U. S. Environmental Protection Agency, indicates that the City will budget and spend approximately \$100,000 lining sanitary sewers and associated manholes.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Sanitary Sewer Asset Management Program (CIP #5581500026) and the Sanitary Sewer CCTV Inspection, Cleaning, & Assessment project (CIP #5581500013), which will identify and prioritize the sewers for lining.

OUTCOME

Sustainable Environment: Have clean water – ground and surface.

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds or SRF Funds.

PROJECT ADDRESS/SERVICE AREA

Project locations to be determined.

		Operating Cost (Savings)	\$ 14,958	\$ 14,958	\$ 29,916	\$ 29,916	\$ 29,916	\$ 29,916

PROJECT DESCRIPTION/JUSTIFICATION

As of Fiscal Year 2019, the City had Closed Circuit Television (CCTV) records and condition assessments of 50% of the gravity sewer system. This project provides for the systematic CCTV inspection, cleaning, and condition assessment of the remaining 50% within a 10-year period (FY20-FY29). Inspecting each sewer pipe will provide the condition of each pipe so that the City can schedule and undertake proactive measures to improve performance levels of the system - identify degeneration that might lead to blockages, collapses, and/or sanitary sewer overflows. While the Public Works Department does inspect several miles of sewer each year, their efforts are rightly concentrated on sewers with known maintenance issues. As a result, there are sections of the City system that have not been televised within the past fifteen years and their condition remains unknown. Although not directly related to other capital projects, it will inform the prioritization of sewer replacement and sewer lining efforts.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Provide City services responsive to the community

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds and SRF Funding.

PROJECT ADDRESS/SERVICE AREA

Project locations to be determined.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the replacement/rehabilitation of aging and deteriorated sanitary sewer manholes. The City sanitary sewer system includes more than 7,500 manholes. With a typical design life of 60 years, over 2,000 have outlived their expected service life. There are 600 that are over 100 years old. Every year, in the course of their daily maintenance activities inspecting manholes and sewer mains, the Public Works Department identifies manholes in need of replacement, either due to structural/safety issues or due to excessive levels of I&I. While some manholes are replaced along with sanitary sewer pipes, this project provides for the timely rehab/replacement of individual sanitary sewer manholes. It also provides for the replacement of manholes in conjunction with the street overlay program undertaken annually by the Public Works Department. Structural defects can lead to collapse. Excessive inflow or infiltration (I&I) of groundwater or surface water into the sanitary sewer can lead to sanitary sewer overflows and basement backups. The replacement/rehabilitation cost of each manhole is approximately \$10,000. This project is related to Stormwater Infiltration & Inflow Elimination Program that is for the replacement/rehab of brick sanitary sewer manholes that are prone to I&I. The City's sanitary sewer system Capacity, Management, Operation, and Maintenance Program (CMOM), approved by the US EPA, outlines that the City budgets "on average" \$100,000 per year to replace manholes.

RELATIONSHIP TO OTHER PROJECTS

This capital project is related to the Stormwater Infiltration & Inflow Elimination Program (CIP #5586500006) and should be funded in the same year as that project to total \$100,000 between the two programs. This also provides for the replacement of manholes in conjunction with the Public Works Department asphalt overlay program (CIP # 5421000003).

OUTCOME

Sustainable Environment: Have clean water – ground and surface.

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds.

PROJECT ADDRESS/SERVICE AREA

This project provides for improvements on a case-by-case basis with locations to be determined.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the reconstruction of 1,200 feet of 8-inch diameter clay sewer with an 8-inch ductile iron sewer. The age of the existing clay sewer runs through a wooded area that has resulted in root intrusions and defects in the pipe. The project will result in a watertight line that will prevent inflow and infiltration (I & I) from getting into the sewer system.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Provide City services responsive to the community

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds or SRF Funds.

PROJECT ADDRESS/SERVICE AREA

Project involves the reconstruction of the sanitary sewer that runs behind the houses on Knob Hill Drive, from 2575 Knob Hill to 2499 Knob Hill.

DEPARTMENT: 55 - Engineering / Sanitary Sewer		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Outfall Manhole Reconstruction			YEAR FIRST SUBMITTED: FY 2015 PROJECT NO: 710-2530		TOTAL PROJECT COST \$ 635,000

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the reconstruction of a section of the effluent line from the Water & Resource Recovery Center (WRRC), including 20 linear feet of 42-inch diameter gravity sewer and 50 linear feet of 54-inch diameter gravity sewer. In June 2011, during the construction of the WRRC, the effluent outfall sewer was inspected and found to be in poor condition and need of rehabilitated.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Provide City services responsive to the community

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds or SRF Funds.

PROJECT ADDRESS/SERVICE AREA

Outfall manhole serves all wastewater delivered to the W&RRC.

PROJECT DESCRIPTION/JUSTIFICATION

This project addresses reliability improvements to the Terminal Street Lift Station and Cedar Street Lift Station, as well as, the associated 30-inch diameter Cedar Street and 42-inch diameter Terminal Street force mains that connect the two lift stations to the Water & Resource Recovery Center (WRRC). The original project was developed in FY 2016 to examine the force mains first and lift stations second. However, the priority order was shifted to first examine Terminal Street Lift Station. Funding provides for new sluice gates, pump gates and repairs to the lift station foundation wall along with dry weather pumps and a new wet well to handle smaller average daily flows that will reduce stress and strain on the larger pumps currently in the lift station which are not designed to operate with current daily/low flows. The funds also provide for ancillary improvements including a new gravity sewer connecting the new wet well to the existing lift station influent manhole, a new magnetic flow meter, and hot-tap to the 42-inch FM to allow routing wastewater to the WRRC without it passing through Terminal Street lift station or the valve house. The project funding is also for the replacement of the wet weather pumps, replace piping in the drywell, replacement piping inside Terminal Street lift station that has deteriorated, complete new hardware and protective paint coatings of the lift station mechanical systems along with replacement plumbing and needed electrical improvements and similar improvements to the Valve House. This project will also install camera and audio monitoring at the lift station to reduce in-person staff inspections.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy

DEPARTMENT: 55 - Engineering / Sanitary Sewer	STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Cedar and Terminal Street Lift Station and Force Main Assessment and Improvements	YEAR FIRST SUBMITTED: FY 2016 PROJECT NO: 5581500023	TOTAL PROJECT COST \$ 4,858,324
--	---	---	---	---

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds or SRF Funds.

PROJECT ADDRESS/SERVICE AREA

The Cedar Street Lift Station is located at 780 E. 15th Street and the Terminal Street Lift Station is located near 85 Terminal Street.

DEPARTMENT: 55 - Engineering / Sanitary Sewer		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Hempstead Sanitary Sewer Reconstruction (Consent Decree)			YEAR FIRST SUBMITTED: FY 2017 PROJECT NO: 5581500042 710-2795	TOTAL PROJECT COST \$ 476,803

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the reconstruction of approximately 1,000 feet (existing alignment) of 8-inch diameter vitrified clay sanitary sewer on Hempstead Street from Kaufmann Street to Lowell Street. The existing clay tile sewer that was installed in 1924 has deteriorated to the extent that cracks and sags in the pipe result in poor performance. The sags and cracks require increased maintenance of the pipe and allow the inflow of extraneous groundwater into the sanitary sewer system. The current alignment places the sanitary sewer close to private property such that realignment of the sewer may be warranted. The sewer is located in Consent Decree Sanitary Sewershed 7.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Sustainable Environment: Have clean water – ground and surface.

FUNDING RESTRICTIONS

This project may only be funded by SRF Funds.

PROJECT ADDRESS/SERVICE AREA

Hempstead Street from Kaufmann Street to Lowell Street

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the reconstruction of approximately 1,000 feet (existing alignment) of 6-inch diameter vitrified clay sanitary sewer along Maiden Lane and Cooper Place. The existing 6-inch sewer will be replaced with 8-inch diameter PVC sanitary sewer. The existing 6-inch diameter vitrified clay sanitary sewer has been identified as a source of inflow and infiltration. There are multiple offset joints and pipe fractures showing the pipe is in need of rehabilitation or replacement. The sewer is not able to be rehabilitated using trench-less methods due to the challenges associated with reinstating services on small diameter line; and is scheduled for removal and replacement with a larger diameter sewer to improve operation and future maintenance. The sewer is located in Consent Decree Sanitary Sewershed 12. The project completion schedule as approved by the United States Environmental Protection Agency, shall be no later than December 2026. However, due to the COVID-19 pandemic, the completion date will be delayed a year.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Sustainable Environment: Have clean water – ground and surface.

FUNDING RESTRICTIONS

This project may only be funded by SRF Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the reconstruction of approximately 800 linear feet (existing alignment) of 6-inch diameter vitrified clay sanitary sewer along Abbott Street and Cottage Street. The existing sanitary sewer is 6-inch diameter and is scheduled for replacement with 8-inch diameter PVC sanitary sewer. The existing 6-inch diameter vitrified clay sanitary sewer has been identified as a source of inflow and infiltration. There are multiple offset joints and pipe fractures showing the pipe is in need of rehabilitation or replacement. The area has also seen multiple water main breaks accelerating the damage to the sanitary sewer as the mains are located within the same area as the sanitary sewer. The sewer is not able to be rehabilitated using trench-less methods due to the challenges associated with reinstating services on small diameter line; and is scheduled for removal and replacement with a larger diameter sewer to improve operation and future maintenance. The sewer is located in Consent Decree Sanitary Sewershed 7 that has exhibited higher levels of I&I than other sewersheds.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Sustainable Environment: Have clean water – ground and surface.

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds.

\$ —	\$ —	TOTAL	\$ —	\$ —	\$ 10,000	\$ 119,000	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the reconstruction of 270 feet of 6-inch diameter sewer with an 8-inch diameter sewer and extending the 8-inch sewer north 165 feet. The existing sewer requires monthly maintenance because of its sub - standard size (6-inch) and poor flow characteristics. The project will result in a standard 8-inch line with improved flow characteristics to eliminate the need to flush and clean the sewer each month.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Sustainable Environment: Have clean water – ground and surface.

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds.

PROJECT ADDRESS/SERVICE AREA

Sewer serves the properties along Brunswick Street from 2930 to 2954 Brunswick Street.

DEPARTMENT: 55 - Engineering / Sanitary Sewer		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: King Street Sanitary Sewer Reconstruction			YEAR FIRST SUBMITTED: FY 2009 PROJECT NO: 710-2407		TOTAL PROJECT COST \$ 177,571

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for a new lift station within the Catfish Creek Interceptor Sewershed near Old Mill Road and 5,100 feet of new force main between the lift station and the Water & Resource Recovery Center. The improvements include a 20 million gallon per day (MGD) lift station, dual force main pipe to the Water & Resource Recovery Center (W&RRC), and improvements at the W&RRC to accommodate the additional flow at the headworks of the treatment system. The existing Catfish Creek Lift Station (CCLS) will remain in place, primarily serving the Granger Creek sewershed and properties along HWY 151-61.

The existing CCLS and W&RRC, were originally constructed in the late 1960's. Since then, the community has grown and expanded. While the W&RRC was updated in 2010, the CCLS was last studied and updated in 1995 based on a 25-year planning period. Based on the actual growth that has occurred since 1995, the wastewater flows to the lift station are slightly higher than what was anticipated. Operating beyond the 25-year planning period, it was time to reevaluate the CCLS. FY22 funding provided for the development of a facility plan to evaluate the existing CCLS and identify the need for potential upgrades. Multiple options were considered, including upgrades to the existing lift station. The engineering analysis ultimately identified a preferred alternative: the Old Mill Road Lift Station and Force Main improvements. Increased construction costs for FY25-26 was included to account for up to date equipment pricing and revised force main alignments required from archeological review.

RELATIONSHIP TO OTHER PROJECTS

This project must be funded prior to, or in conjunction with, the McFadden Farm Sanitary Sewer Extension Project.

OUTCOME

Sustainable Environment: Have clean water – ground and surface.

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Fund, Sanitary Sewer revenue bonds, or ARPA funds.

PROJECT ADDRESS/SERVICE AREA

The improvements improve the Catfish Creek and Granger Creek Sanitary Sewer Interceptor service areas.

\$ —	\$ —	TOTAL	\$ —	\$ 700,000	\$ 4,937,212	\$ 8,240,000	\$ —	\$ 23,014,356

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for systematic upgrades to the Catfish Creek Sanitary Interceptor Sewer system which branches out along the South Fork Catfish, Middle Fork Catfish, and North Fork Catfish creeks. The sewer system will be upsized from Old Mill Road along the South Fork Catfish Creek 6.9 miles to the Dubuque Metropolitan Solid Waste Agency. The system will also be upsized along the Middle Fork Catfish Creek from Old Mill Road 9.9 miles to the Dubuque Industrial Center West.

The Catfish Creek Interceptor Sewer was constructed circa 1960. Extending westward from the Water & Resource Recovery Center, it has allowed for the development of nearly 2,500 acres over the last two decades which includes residential subdivisions, the Dubuque Industrial Center West, and service to the Dubuque Metro Solid Waste Agency. The existing sanitary sewer collection system can accommodate the development to date. In order to accommodate the wastewater flow from an additional 8,500 acres within the city (or possibly more than 20,000 acres in annexation areas) that can be served by the Catfish Creek Sanitary Interceptor Sewer, upsizing the capacity of the sewer system is necessary.

The funding in FY25-26 will provide for the design, permitting, and easement acquisition for the improvements of the interceptor sewer system from Old Mill Road, along the South Fork Catfish Creek to North Cascade Road. The funding in FY26-27 will provide for the construction of the Southfork Catfish Creek Interceptor Sewer from Old Mill Road to North Cascade Road. The funding for the design, permitting, easement acquisition, and construction for the improvements of the interceptor sewer system along the remainder of the South Fork, the Middle Fork, and the North Fork was adjusted to the outyears of the CIP budget based on the prioritization of improvements provided to staff.

The original total estimated cost in 2019 for all of the sewer upgrades was \$66,930,500. The cost of the improvements have been increased by a 2% inflation rate per year since the original CIP recommendation. Projects using State Revolving Fund (SRF) loan proceeds may be eligible for some level of loan forgiveness as a result of the federal Infrastructure Investment & Jobs Act which included a \$300 million SRF allocation, requiring a portion of the loans to be forgivable. Based on information from the State, Dubuque projects may be eligible for 20% loan forgiveness; however, the amount of forgivable loans available across the state is \$14.6 million per year. As a result, the State will likely cap the amount of loan forgiveness available for each project.

DEPARTMENT: 55 - Engineering / Sanitary Sewer	STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Catfish Creek Sewershed Interceptor Sewer Improvements	YEAR FIRST SUBMITTED: FY2023 PROJECT NO:	TOTAL PROJECT COST \$ 7,193,445
--	---	--	---	---

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Sanitary Sewer Master Plan Asset Management (CIP# 5581500026) and the SWA Middle Interchange Sewer Extension projects.

OUTCOME

Sustainable Environment: Have clean water – ground and surface.

FUNDING RESTRICTIONS

Project funding limited to the Sanitary Sewer Construction Fund and SRF loans.

PROJECT ADDRESS/SERVICE AREA

Along the Catfish Creek.

PROJECT DESCRIPTION/JUSTIFICATION

The project provides for the removal and replacement of approximately 1,480 LF of 6-inch diameter vitrified clay sanitary sewer. The project is located in Consent Decree Sewershed 11. The United States Environmental Protection Agency approved schedule for project completion is no later than December 2021. The completion date has been delayed due to the COVID-19 pandemic and available funding for the various infrastructure replacements required for the project. The project improvements have been designed and are ready to bid at the start of FY25. The funding requested in FY25 is additional funding required to construct the improvements. The project is being coordinated with storm sewer, water main, and street improvements in the same area.

RELATIONSHIP TO OTHER PROJECTS

This project is related to storm sewer, water main, and street improvements in the same area.

OUTCOME

Sustainable Environment: Have clean water - ground and surface.

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds or an SRF loan.

PROJECT ADDRESS/SERVICE AREA

Auburn Street and Custer Street neighborhood.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the extension of City sanitary sewer to the northwest quadrant of the Southwest Arterial Middle Interchange development area to serve future developments within the City.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Catfish Creek Sewershed Interceptor Sewer Improvements.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction Funds or an SRF loan.

PROJECT ADDRESS/SERVICE AREA

Northwest quadrant of Southwest Arterial Middle Interchange

DEPARTMENT: 55 - Engineering / Sanitary Sewer		STATE PROGRAM: 8C - Business Type	PROJECT TITLE: Schmitt Island Sanitary Improvements			YEAR FIRST SUBMITTED: FY2025	TOTAL PROJECT COST \$ 2,640,000

\$ —	\$ —	TOTAL	\$ 2,640,000	\$ —	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project addresses reliability improvements to the existing gravity sanitary sewer system and to the Dog Track Sanitary Lift Station located on Chaplain Schmitt Island. This project will also address the maintenance concerns regarding reversed slopes and reduce the inflow and infiltration identified within this Island sewer service area. In addition, this project will provide for the evaluatiuon of the City owned lift stationand pressurized force main system for improvements that would support the anticipated developments that have been identified as part of the Chaplain Schmitt Island Master Plan project.

RELATIONSHIP TO OTHER PROJECTS

This project meets the requirements of the planned developments for the Chaplain Schmitt Island Master Plan.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing.

FUNDING RESTRICTIONS

This project may only be funded by Sanitary Sewer Construction funds or SRF funds.

PROJECT ADDRESS/SERVICE AREA

Sanitary sewer system improvements will be made to the existing system in various locations throughout Chaplain Schmitt Island

PROJECT DESCRIPTION/JUSTIFICATION

This annual recurring budget provides for pavement markings on City streets. Markings typically include centerlines, lane lines, edge lines, curb medians, diagonal gore markings, crosswalks, stop bars, arrows, word messages, railroad crossings, and disability symbols. In 2016 the City entered into an agreement with the Iowa DOT to include pavement markings on DOT designated roadway segments within the City and the Iowa DOT would reimburse the City for actual costs incurred. At one time, the Public Works department owned equipment that allowed City personnel to apply all pavement markings. In the early 1980's the City decided to outsource this activity because of the high cost of new painting equipment. The Engineering Department took over the responsibility of developing plans and specifications for this activity along with administering the pavement marking contract. In 2020, paint material has gone up due to demand and shortage, and it is unknown when that cost would go back down. The Engineering Department has investigated multiple streets on upgrading the centerlines for increased safety based on street geometrics, citizen inquiry and MUTCD guidelines.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Improve traffic flow throughout the city (East-West corridor, roundabouts, light synchronization)

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax (20%), Sales Tax Fund (30%) and Road Use Tax.

PROJECT ADDRESS/SERVICE AREA

Citywide

PROJECT DESCRIPTION/JUSTIFICATION

Pavement management is the practice of planning for pavement repairs and maintenance with the goal of maximizing the value and life of a street network or parking lot network. To accomplish this, a community needs to have several repair techniques in its arsenal and the knowledge of when to apply them. The City's pavement management computer system is a great springboard to help Dubuque plan its street and parking lot repair program for each year and is an excellent method of storing data records of completed repairs. This project is structured so that every two years the Pavement Preservation Program will be updated to include any new streets or parking lots, pavement management data, and pavement repair technology that becomes available and would be beneficial for the city to take advantage of. This will assist Engineering and Public Works in planning their asphalt overlay program.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects

OUTCOME

Connected Community: Improve traffic flow throughout the city (East-West corridor, roundabouts, light synchronization)

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax (20%), Sales Tax Fund (30%), and Road Use Tax

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding for an annual program to perform design and construction for general street construction-related improvements. In prior years, the City had an annual capital improvement budget that would collectively fund all construction-related improvements and the 5-Year Annual Street Construction Program. This policy has been changed, and now the Annual Street Construction Program is budgeted as individual CIP's. As a result, an annual program is needed to provide a funding mechanism to allow for the construction for general street construction repairs and related improvements as miscellaneous projects develop. The Engineering Department routinely works on miscellaneous repair projects that occur, require a quick response and that are both unexpected and not budgeted. This annual program will provide a funding source to cover the construction costs for those unanticipated small repair projects. The FY 24 budget was increased due to anticipated work related to several Sanitary Sewer Consent Decree projects.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Have safe, healthy, inclusive and affordable neighborhoods citywide

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax (20%), Sales Tax Fund (30%) and Road Use Tax.

PROJECT ADDRESS/SERVICE AREA

Various locations based on condition and need.

PROJECT DESCRIPTION/JUSTIFICATION

The US Highway 20 corridor is the primary east-west route in the City of Dubuque and future traffic volume projections indicate US Highway 20 alone will not provide sufficient capacity for east-west travel in the city. Capacity along alternate east-west corridors will need to be improved to provide connectivity between the western growth areas and the downtown urban core.

In February 2012, the City Council formally adopted the East-West Corridor Connectivity Study Final Report and directed City staff to begin implementation plans for the recommendations contained in the East-West Corridor Connectivity Report. The adopted East-West Corridor Connectivity Study report acts as the City's Master Plan for both short-term and long-term capacity improvements or corridor modifications to support growing east-west traffic flow in the City. The study includes recommended improvements supporting complete streets concepts, multi-modal transportation, vehicle, pedestrian, bicycle, and recreational improvements.

In August 2017, the City Council listed the East - West Corridor Capacity Improvement Implementation as a "Top-Priority" in its 2017-2019 Goals and Priorities. In an effort to advance this top priority, the City has already completed the following improvements:

Property Acquisition for \$853,000 in 2016. Grandview - Delhi Roundabout for \$827,000 in 2017. Loras – Grandview Traffic Signals for \$370,300 in 2018. University - Grandview Roundabout for \$1,200,000 in 2019. That totals \$3,250,300 in improvements to-date \$3,250,30.

DEPARTMENT: 55 - Engineering / Street	STATE PROGRAM: 2C - Public Works	PROJECT TITLE: East - West Corridor Capacity Improvements	YEAR FIRST SUBMITTED: FY 2010 ACTIVITY NO: 360-1039 250-1039 300-1039	TOTAL PROJECT COST \$ 12,475,673
--	-------------------------------------	--	---	-------------------------------------

PROJECT DESCRIPTION/JUSTIFICATION (Continued)

In December of 2021, the Mayor and City Council approved the selection of HDR, Inc. as the Consultant to complete the Preliminary Engineering Design and Environmental Clearance Phase to advance the development of East-West Corridor Capacity Improvements along University Avenue.

In March of 2022, with the Infrastructure Investment and Jobs Act (IIJA) funding allocation to the State of Iowa, the Iowa DOT announced the increase in new federal funds will require additional Primary Road Funds (PRF) to be used as the State's local match, which will impact the Iowa DOT's ability to provide SWAP (100%) funds for Local Public Agency (City) projects. As a result, effective January 2023, SWAP (100%) funding will no longer be available and all DMATS STBG allocations will be federal (80%) funds and will require a 20% local match.

Since the East-West Corridor Capacity Improvements are a multi-year, multi-phased project, which transitioned from SWAP (100%) to Federal-aid (80%/20%) in February 2023, the City identified and allocated an additional \$2 million as the City's 20% local match as part of the Fiscal Year 2024 - 2027 adopted budget.

The section of University Avenue, from Pennsylvania Avenue to Loras Boulevard, referred to as the "Overlap Section" was recommended for converting the three intersections along University Avenue to roundabouts. With current available funding, the next steps in the design development process are to complete the preliminary engineering and environmental (NEPA) study phase for intersection capacity improvements along University Avenue at Loras Boulevard, Asbury Road, and at Pennsylvania Avenue.

Once the preliminary engineering and environmental (NEPA) study is completed, corridor impacts will be identified, and property acquisition could begin in approximately FY2025 / 2026 and would take approximately 2 years to complete. Once property acquisition is completed within the Overlap Section, construction to convert the three intersections along University Avenue to roundabouts could begin in FY2026 / 2027 and would take approximately 2-3 years to complete.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Improve traffic flow throughout the city (East-West corridor, roundabouts, light synchronization); 2. Connected Community: Implement "Complete Streets" concept

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax (20%), Sales Tax Fund (30%), Road Use Tax, Greater Downtown TIF, DMATS STBG funding and other eligible State grant funding.

PROJECT ADDRESS/SERVICE AREA

University Avenue, from Pennsylvania Avenue to Delhi

\$ 215,725	\$ 100,000	TOTAL	\$ 700,000	\$ —	\$ —	\$ —	\$ —	\$ 875,000

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding to complete pavement rehabilitation on concrete streets that are in a deteriorating condition. The identified streets were originally constructed in the early 1990's and are exhibiting significant slab and joint deterioration. Public Works staff has performed street patching maintenance; however, the pavements require major rehabilitation to extend the service life and reduce annual maintenance. Citizens have contacted staff to express their concerns and dissatisfaction with the poor condition of the streets. The pavement rehabilitation method recommended is to perform full depth pavement patching as needed, then mill the concrete pavement and resurface the street with asphalt pavement which will extend the life of the pavement and provide a more acceptable surface ride. The project scheduled for FY 2025 will address North Grandview Avenue (Loras to Audubon) which has been determined to be in the worst condition. After FY 2025, the CIP will be re-evaluated to determine where the greatest need is and project feasibility. Potential future streets identified include: North Grandview (Kane to 32nd), Embassy West - Sunnyslope Subdivision (Camelot, Embassy West, Hummingbird), Embassy West - SunnySlope Subdivision (Camelot, Northstar, Sunny Slope), Winnie Court and Loras Blvd (Alta Vista - Central).

RELATIONSHIP TO OTHER PROJECTS

Not related to other capital projects.

OUTCOME

Connected Community: Implement "Complete Streets" concept

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax (20%), Sales Tax Fund (30%) and Road Use Tax.

PROJECT ADDRESS/SERVICE AREA

This project addresses pavement conditions citywide

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funding to contract for the routing, cleaning and sealing of pavement joints around the City of Dubuque. It is very important to seal cracks in asphalt and concrete pavements as a proactive preservation practice to minimize water intrusion to extend the service life of the pavement. This will also include crack sealing of trail pavements as well. This project would be an annual program that would supplement the work Public Works currently performs.

RELATIONSHIP TO OTHER PROJECTS

No relationship to other capital projects.

OUTCOME

Connected Community: Implement "Complete Streets" concept

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax (20%), Sales Tax Fund (30%) and Road Use Tax.

PROJECT ADDRESS/SERVICE AREA

This project addresses pavement conditions citywide

DEPARTMENT: 55 - Engineering / Street		STATE PROGRAM: 2C - Public Works	PROJECT TITLE: Pine Street Extension from 7th to 9th			YEAR FIRST SUBMITTED: FY 2019 PROJECT NO: 250-2797	TOTAL PROJECT COST \$ 1,100,000

PROJECT DESCRIPTION/JUSTIFICATION

With the decommissioning of the Alliant Energy Power Generation Plant on 7th Street and the eventual redevelopment / reuse of the property, this may allow the City an opportunity to evaluate alternatives and the feasibility of developing a roadway through the Alliant site which would extend and connect Pine Street at 9th / Kerper Blvd to 7th Street. The potential extension of Pine Street to 7th Street would allow commercial traffic to use the US 61-151 on / off ramps at 9th Street to access Pine Street to 7th. This would provide commercial vehicles that currently use 7th, 9th, Central, Washington and Jackson Streets through the Historic Millwork District to get to the industrial businesses on 7th / Commercial Street a more efficient, safe, and direct route. The potential extension of Pine Street to 7th Street would allow commercial traffic to bypass the Historic Mill District creating a safer neighborhood for residents, pedestrians, and bicyclists. The FY27 programmed funding would allow for staff to work with Alliant Energy to evaluate alternatives, and if viable, prepare a feasibility study and perform an environmental assessment of potential site development. The FY28 programmed funding would allow for the development and potential construction of a roadway through the Alliant site which would connect Pine Street at 9th / Kerper Blvd to 7th Street.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Improve traffic flow throughout the city (East-West corridor, roundabouts, light synchronization)

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax (20%), Sales Tax Fund (30%) and Road Use Tax, and Greater Downtown TIF.

PROJECT ADDRESS/SERVICE AREA

Pine St extension between 7th to 9th, former Alliant Energy Power Plant site, Port of Dubuque Area

PROJECT DESCRIPTION/JUSTIFICATION

This project would provide for the installation of flashing LED traffic signs and crosswalk warning devices at one location per year. The City receives several requests each year for flashing stop signs and flashing pedestrian crossings. These devices would be solar-powered LED lights which use less power than traditional bulbs. The device utilizes super-bright LED technology and a "stutter flash" that would flash at motorists 190 times in 30 seconds when activated. Results have shown that more than 90% of motorists stop when the LED stutter lights are activated by the pedestrian. When the activation button is pushed, a friendly voice explains to pedestrians how to use the crosswalk. At night the button placards are illuminated so pedestrians can see them. Upon activation, the entire area is illuminated, including where the pedestrian is standing, the pedestrian street signs, and the center of the roadway in divided highways so the motorist can clearly see the entire crossing. The system would be radio-controlled and solar powered for maximum efficiency. On the other years where a flashing crosswalk sign is not installed, funding is shown for flashing yield and stop signs as needed around the City for additional reinforcement for the sign.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Implement "Complete Streets" concept

FUNDING RESTRICTIONS

This project is restricted to Sales Tax (20%), Sales Tax Fund (30%) and Road Use Tax.

PROJECT ADDRESS/SERVICE AREA

Citywide

PROJECT DESCRIPTION/JUSTIFICATION

This project will construct the South Heacock Road Improvements and extend the roadway north to provide access to approximately 43 acres north of Duluth Trading. Previously, the City constructed a connection to Chavenelle Road and extended the roadway to a temporary cul-de-sac. This phase constructs the roadway to the North and provides a temporary connection at Pennsylvania Avenue. The 43 acres of new developable land lies in the McFadden Farm area. Economic Development and Engineering are working on right-of-way acquisition from Theisen's and the Behnke Farm. There is a separate capital improvement project to accomplish the platting and acquisition of right-of-way. The City plans to fund the city match portion through land sales.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the CIP 3602924 Develop McFadden Property project (project #6052000016).

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax.

PROJECT ADDRESS/SERVICE AREA

Chavenelle Road and South Heacock Road

PROJECT DESCRIPTION/JUSTIFICATION

Funding for this project entitled "Building Bridges to Employment and Equity (B2E2)" will provide for the planning, design, and construction of a multimodal transportation corridor project for proposed improvements to the Elm Street corridor, the 16th Street corridor, the Kerper Blvd. corridor, Chaplain Schmitt Island corridor, and the proposed 14th Street Railroad (vehicular and pedestrian) Overpass bridge project.

The improved multimodal transportation corridors will connect vulnerable neighborhoods and low income residents with economic opportunities, recreational amenities and key community resources in the Kerper Boulevard Industrial Park, on Chaplain Schmitt Island, in downtown Dubuque and its Historic Millwork District, and on the west side of the city via the downtown Intermodal Transportation Center.

The proposed project will provide for the elimination of an existing at-grade rail crossing conflict on 14th Street and will provide for the planning and design a proposed vehicular and pedestrian overpass bridge which will connect downtown residents to job opportunities while avoiding train crossing delays that negatively impact the safe and efficient movement of people and goods to and from the Kerper Boulevard Industrial Park and Chaplain Schmitt Island.

The project will also focus on multimodal transportation corridors with "complete streets" and proposed roundabout intersections along Elm Street and 16th Street corridors. The project would also include the design of an improved pedestrian/bike shared use path along Kerper Blvd and adjacent to the existing 16th Street Peosta Channel bridge to Chaplain Schmitt Island and strategically plan a roundabout at Captain Sheehy Drive on Chaplain Schmitt Island.

DEPARTMENT: 55 - Engineering / Street	STATE PROGRAM: 2C - Public Works	PROJECT TITLE: 14th Street Overpass	YEAR FIRST SUBMITTED: FY2023 PROJECT NO: 5521000009	TOTAL PROJECT COST \$ —

\$ —	\$ —	TOTAL	\$ 75,000	\$ 400,000	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project will provide for the complete reconstruction and replacement of the Wildwood Drive Bridge which was originally constructed in 1970. Based on the October 2023 bridge inspection, the bridge was classified as structurally deficient and recommended for replacement. Based on the age of the structure (53 years) and the structural load rating of the existing concrete box culvert bridge (the sufficiency rating of 72.9), the bridge will now require a 12 month inspection cycle until it can be replaced.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Improve traffic flow throughout the City (East-West corridor, roundabouts, light synchronization).

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax.

PROJECT ADDRESS/SERVICE AREA

Citywide bridges

—	—	TOTAL	\$ —	\$ —	\$ —	\$ 2,097,000	\$ 3,400,000	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

In 2022, the Iowa Department of Transportation (Iowa DOT) completed a study to evaluate operational and capacity improvements along US20, between Crescent Ridge and Old Highway, with a specific emphasis on the US20 / Northwest Arterial intersection. Several concepts and design variations were vetted, and a preferred alternative was selected. The proposed improvements recommend closing all at-grade accesses on the south side of US 20 between Old Highway and Crescent Ridge, close the south leg of the NW Arterial intersection, and add a new south side frontage road between Old Highway and Crescent Ridge. The plan also recommends closing all at-grade accesses on the north side of US 20 between Old Highway and Northwest Arterial and provide a new north side frontage road extending east from Old Highway intersection. Additionally, the project proposes adding dual eastbound left turn lanes onto the Northwest Arterial, adding a westbound bypass right turn lane onto the Northwest Arterial, and operational reconfigurations at the Northwest Arterial and Crescent Ridge intersections.

In partnership with the Iowa DOT, the City has identified approximately \$5.5 million to assist in funding the proposed US20 / Northwest Arterial intersection improvements, which will leverage a \$12 million allocation from the Iowa DOT. The \$17.5 million operational and capacity improvements have been recommended by Iowa DOT staff for consideration in the Iowa DOT's FY25-29 Transportation Improvement Program.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Northwest Arterial State of Good Repair Project (5521000035)

OUTCOME

Connected Community: Improve traffic flow throughout the city (East-West Corridor, roundabouts, light synchronization)

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax 20%, Sales Tax 30%, Road Use Tax, DMATS STBG, State and Federal Grants

PROJECT DESCRIPTION/JUSTIFICATION

This project is identified in the comprehensive plan and is a City Council 2022-2024 High Priority. This project will provide funding to implement recommendations outlined in the adopted Central Avenue Streetscape Master Plan along Central Avenue between 11th and 22nd Streets, as well as potential recommendations from the traffic study currently underway for the Central and White Street corridors. These funds are intended to be flexible, whether that be design, construction, amenities (such as transit stops, moveable amenities, and beautification efforts, etc.), or other needed improvements to implement the recommendations of the Streetscape Master Plan and complete streets traffic study. This project would utilize complete street concepts and standards to accommodate pedestrians, bicyclists, transit, and other motor vehicles in the corridor. Special attention would be made to creating a sense of place for this corridor. Requested funding between FY25 and FY29 totals \$800,000 to support incremental improvements along the corridor. However, full implementation of future Central Avenue Streetscape Master Plan improvements is programmed beyond FY29, at a planning level estimated cost of \$16,100,000.

The Corridor is beginning to see private investment in building improvements and business location. The implementation of public infrastructure improvements is needed to support and leverage that private investment by creating a more pedestrian-friendly, complete streets corridor and attracting residents from other areas of the community.

It is anticipated that this project may have an impact on operating costs associated with infrastructure improvements, although those costs are unknown until the specific improvements and amenities in the corridor are identified and implemented. These costs will be integrated into the budgets of departments whose staff will be maintaining these improvements, as progress is made. This effort addresses the Comprehensive Plan goal of creating walkable, mixed-use areas.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the adopted Central Avenue Streetscape Master Plan, the Central Avenue / White Street Traffic Study for 1-Way to 2-Way Conversion (Project #5524000038), Central Avenue Streetscape Design 1-Way to 2-Way (Project #5521000017), and Central Avenue Corridor Streetscape Master Plan Implementation (Project #6051000001).

PROJECT DESCRIPTION/JUSTIFICATION

This project plans and develops a recently-purchased 156 acre property into a development-ready industrial center site. The aggressive schedule allows for a quick turnaround for any company that would need land for development/expansion within the next two years. The schedule also aligns with water and utility work needed to create a development-ready site and improve water service city-wide.

RELATIONSHIP TO OTHER PROJECTS

The schedule presented in this CIP aligns with Water Dept. and Engineering Dept. CIPs for development related to this 156-acre property.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy

FUNDING RESTRICTIONS

This project may only be funded by DICW TIF, DICW land sales, and RISE grant funding.

PROJECT ADDRESS/SERVICE AREA

Dubuque Industrial Center West

PROJECT DESCRIPTION/JUSTIFICATION

This project would continue pre-development work in the Dubuque Industrial Center West (DICW), including grading and paving on the McFadden Farm area, as well as any necessary land acquisition. Several recent business expansions in the DICW have created the need for additional pre-development work in order to facilitate the attraction and expansion of additional businesses in the area by preparing development pads and the access to them. Funding in a companion CIP in FY22 will allow for pumping capacity analysis and master planning of the needed improvements to the pipe system and lift station for the Catfish Creek sanitary line. After the analysis is complete, recommendations for capital improvements for FY23 may be focused on either land development or sanitary improvements based on available funds and which projects need first priority.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy.

FUNDING RESTRICTIONS

This project is restricted to DICW TIF funding only.

PROJECT ADDRESS/SERVICE AREA

Dubuque Industrial Center West

PROJECT DESCRIPTION/JUSTIFICATION

This project would continue construction in Dubuque Industrial Center West, including grading and road construction on the property referred to as Graf Farm. In 2015, the City acquired farmland known as the Graf Farm, as well as the McFadden Farm. The property is being leased for agricultural purposes until it is needed for commercial/industrial growth. The focus to date has been on development in the McFadden Farm area. This project plans for funding that will be needed when the McFadden area is fully developed and/or when a parcel in the Graf area is better suited to a potential development.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy.

FUNDING RESTRICTIONS

This project may only be funded by DICW TIF.

PROJECT ADDRESS/SERVICE AREA

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the replacement of defective sidewalks by private contractors. City Ordinances #41-102 through #41-105 provide that a property owner be given a thirty day notice to replace a hazardous or defective sidewalk and, if they fail to do so, the City will have the repair made and the cost assessed to the property owner. In Fiscal Year 1989, the City began an inspection and reconstruction program for City sidewalks. Reconstruction is required on these walks when defective conditions are found. These funds enable the City to have the reconstruction done by contractors if the property owner does not make the corrections after proper notice and reasonable time. These costs are then placed as liens against the properties and property tax receipts are collected in the next fiscal year in the amount of the original expenditure.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Implement "Complete Streets" concept

FUNDING RESTRICTIONS

This project may only be funded by Special Assessment Funds specific to this project.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for a multi-year program for the installation and reconstruction of public sidewalks adjacent to City-owned property and City-owned infrastructures (i.e., catch basins, hydrants, signals, financial assistance). This appropriation also provides for tree and stump removal when trees need to be removed as part of the reconstruction of the sidewalks. This project may also include the installation and reconstruction of curb ramps which is required by the Americans with Disabilities Act (ADA). The reconstruction of public sidewalks is necessary for the safety of pedestrians and to keep the City's liability to a minimum. ADA requires installation of curb ramps whenever a sidewalk is repaired at an intersection and a ramp is not currently constructed. It should be noted that the City has many stumps in the right-of-way that need to be removed which will affect the adjoining sidewalk. Additionally, there are many ash trees that are potentially going to be affected with emerald ash borer and will be a future liability.

RELATIONSHIP TO OTHER PROJECTS

This project may impact the Water Department due to hydrant relocations, project #4281000018 Fire Hydrant Replacement.

OUTCOME

Connected Community: Implement "Complete Streets" concept

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax (20%), Sales Tax Fund (30%), and Road Use Tax.

PROJECT ADDRESS/SERVICE AREA

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for replacement of curbs and catch basins related to the sidewalk inspection and replacement program. Replacement of sidewalks, particularly those abutting the curb line or an intersection, frequently requires replacement of curbs and catch basins. It is anticipated in future years this program will increase with the installation of curb ramps with detectable warnings required by the Americans with Disabilities Act (ADA). Without funding for replacement of the curbs and catch basins, the program is restricted or delayed until funding can be secured. With funding earmarked for curb and catch basin replacement, the program can move forward on an established schedule. With an increase in curb and catch basin inspections at time of sidewalk inspections, additional curb and catch basins are identified for replacement, especially if the street is to be overlaid in the near future. The anticipated cost for curb and catch basin repairs has been increasing over the past few years and is anticipated to continue when the ramps needing walls, foundations, railings, and special designs are addressed.

RELATIONSHIP TO OTHER PROJECTS

This project is related to City-Owned Sidewalk Replacements (project #5521000010) and needs to be scheduled in the same fiscal years as that project. This project may also impact the Water Department due to hydrant relocations- project #4281000018, Fire Hydrant Replacement.

OUTCOME

Livable Neighborhoods and Housing: Have safe, healthy, inclusive and affordable neighborhoods citywide

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax.

PROJECT DESCRIPTION/JUSTIFICATION

In April 2011, the Dubuque City Council adopted Resolution 124-11, the City's Complete Streets Policy. The resolution states the goal of the policy is to "develop as many street projects as possible in an affordable, balanced, responsible, and equitable way that accommodates and encourages travel by motorists, bicyclists, public transit vehicles and their passengers, and pedestrians of all ages and abilities." Adding new sidewalks to existing city streets and roadways fits within the goals of the Complete Street Policy by accommodating and encouraging travel by bicyclists, transit passengers (bus stop accessibility) and pedestrians of all ages and abilities. Hillcrest Road between Mullin Road and Avalon Road does not have sidewalks on the south side of the street. Additionally, in this stretch of roadway is Hillcrest Park which also is on the south side of the street and is not served by any sidewalks. The City has received a number of complaints that there are no sidewalks along this side of the street. There is not sufficient city right-of-way in this area to install sidewalks. The City would need to purchase right-of-way in order to facilitate the installation of sidewalks in this area.

RELATIONSHIP TO OTHER PROJECTS

1

PROJECT DESCRIPTION/JUSTIFICATION

This project provides annual funding to make spot repairs to the streets, sidewalks, alleys, or public spaces in the City that are constructed with brick pavers. This project will address any settled, irregular or defective pavers in the Historic Millwork District, the Bee Branch, the Grand River Center, along 8th Street, and in Green Alleys as needed and as identified by City staff.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Have safe, healthy, inclusive and affordable neighborhoods citywide

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax.

PROJECT DESCRIPTION/JUSTIFICATION

This project will provide for the removal and replacement of the concrete sidewalk along the lower south side of the 3rd Street Overpass that connects to Main Street. In the fall of 2023, staff was notified by the abutting property owner that the existing sidewalk was undermined and collapsing. In the interest of public safety, the section of sidewalk has been closed. The concrete sidewalk along the lower north and south side of the 3rd Street Overpass is considered a public walkway, and per the maintenance agreement with the Iowa DOT, the City is responsible for the maintenance and repair of the sidewalk.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Have safe, healthy, inclusive and affordable neighborhoods citywide

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) or Sales Tax Fund (30%)

PROJECT DESCRIPTION/JUSTIFICATION

This annual program provides funding to the Decorative Concrete Maintenance Program to perform preventative maintenance, cleaning, sealing and the repair of decorative concrete pavement at the Mississippi Riverwalk, Alliant Amphitheater, River's Edge Plaza, Ice Harbor West Road, Grand River Center, Main Street, Peosta Channel Trail, Flat Iron Park, City Hall, 5-Flags, Federal Building, Washington Park, Chamber Building Plaza Area, and the Locust and 5th Street Gateway Locations to maintain the quality appearance and integrity of the decorative concrete surface. An annual maintenance program is needed to remove dirt, oils, stains and apply a new protective sealer on the surface. The FY2026 funding will allow for the Decorative Concrete Maintenance to take place prior to the Iowa League of Cities Conference that will be hosted in Dubuque in September 2027.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Increase the visual appeal and beauty of the City with attractive gateways, corridors, streetscapes/landscaping neighborhoods, homes and businesses

FUNDING RESTRICTIONS

PROJECT DESCRIPTION/JUSTIFICATION

This annual funding provides for maintenance and repair of existing retaining walls that are owned by or are the responsibility of the City of Dubuque in various locations throughout the City. This annual program will allow for maintenance, repair and reconstruction of city-owned retaining walls as needed. Based on the recommendation of the City's Legal Department, there are a significant number of private-owner retaining walls which are adjacent to City right-of-way in which a mutual benefit could be established through litigation. As a result, the annual funding for retaining wall maintenance, repair and reconstruction has been increased to address this potential liable cost to the City. This annual program would provide for proactive maintenance, reconstruction and emergency repairs to city-owned retaining walls.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Have safe, healthy, inclusive and affordable neighborhoods citywide

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax.

PROJECT DESCRIPTION/JUSTIFICATION

The annual Bridge Repair and Maintenance program allocates funding for the maintenance, inspection, and load rating of bridges & culverts throughout the City. The periodic maintenance efforts are intended to maximize the serviceable life of these structures and mitigate any premature deterioration which would ultimately result in costly replacements. Some of the most common repair efforts include concrete rehabilitation of bridge decks, substructure, barrier rails, and various culvert components. Other activities include the painting of steel elements, sealing of concrete cracks on bridge decks and railings, and expansion joint maintenance and repairs. The installation and reconstruction of erosion and scour countermeasure systems are also included in this program. This funding also provides for the inspection, program management, and load rating efforts required to comply with the federally-mandated National Bridge Inspection Standards (NBIS). The City's bridges are currently inspected on a biennial basis with one structure requiring an underwater inspection every 60 months. The City currently has 27 structures under its jurisdiction, which includes 18 bridges and 9 culverts. The last inspection, dated October 2023, indicated the City has no structures classified as functionally obsolete, or fracture critical, with one structure classified as structurally deficient. The structurally deficient structure will require rehabilitation or replacement within the next five years and several other structures require routine maintenance and repair efforts. The annual Bridge Repair and Maintenance program funding has been increased to account for the changing bridge load rating requirements and to allow for the increased preventative maintenance and repair needs of bridges and culverts throughout the City.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Improve traffic flow throughout the City (East-West corridor, roundabouts, light synchronization).

FUNDING RESTRICTIONS

PROJECT DESCRIPTION/JUSTIFICATION

This project provides annual funding for trail planning to retain a consultant to prepare preliminary plans, engineering cost estimates, and conceptual designs for the Planning Services Department to successfully apply for competitive state and federal grants for multi-use bicycle/pedestrian trails and other recreational trails, such as mountain biking. The 2017 Comprehensive Plan called "Imagine Dubuque 2037: A Call to Action" includes recommendations for trails in the Land Use Chapter. This project also would coordinate with implementation of the Dubuque Metropolitan Area Transportation Study (DMATS) 2045 Long Range Transportation Plan's existing and future regional bicycle/pedestrian plans. The City's current bike/hike network has been created almost exclusively through federal and state grants for trails and related transportation enhancements such as trailheads with parking. To compete for these grants, the City must have sufficient planning documentation meeting the application requirements. There are multiple trails planned for future fiscal years and the increase of funding in FY 25 will help with grant writing for REAP, State Rec Trail and Federal Rec Trail grants. East Central Intergovernmental Association is currently working on a DMATS area bike and pedestrian plan. The FY 2025 funding allows the City to make city-specific recommendations that connect to the DMATS area plan.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Implement "Complete Streets" concept

FUNDING RESTRICTIONS

This project may only be funded with Sales Tax Fund (20%) or DRA Distribution.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides city funds to leverage Iowa Department of Natural Resources and/or Iowa Department of Transportation state and federal pass-through grants for trails and complete streets projects as the City implements capital projects identified as high priorities in the Connecting Downtown Destinations Study, Tri-State Trail Plan and City's Complete Streets Policy. The focus is on the two remaining phases of the Schmitt Island, Historic Millwork District (HMD) Trail connection to the Bee Branch Greenway. These segments will complete off-road, multi-use bike/hike trail that would circle the 16th Street Detention Basin plus link the lower greenway/basin trail to the HMD and Schmitt Island. Phase 2 focuses on creating the off-street trail segment between 12th Street and the existing north side basin trail and will reduce southbound Kerper Boulevard via a road diet. The FY 27 funds create a new trail connection beginning where Phase 1 ends at 12th Street and then heads south towards 11th Street to a point where a safe transition can be made at 11th Street. The trail would then extend past the Jule Operations & Training Center, head west across railroad tracks, near 9th Street, and connect to Elm Street adjacent to the Intermodal Transportation Center. Competitive grant applications will be sought for all phases, and all existing trail grants require a local match.

RELATIONSHIP TO OTHER PROJECTS

This capital project is related to the Bee Branch Pump & Gate Project, #5586500007

OUTCOME

Connected Community: Implement "Complete Streets" concept

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), Greater Downtown TIF, and DRA Funding. REAP and TAP funds are possible outside funding sources.

PROJECT DESCRIPTION/JUSTIFICATION

The South Port of Dubuque is a City-owned land area that is available for redevelopment, yet it remains blighted and underutilized. In the recent past, the City has developed a master plan for this area that includes several updates, yet no redevelopment has materialized. The ongoing United States Environmental Protection Agency Multipurpose Grant will clean up two contaminated sites that are prime for redevelopment; however, the grant funds will not be enough to fully complete the needed remediation. These CIP funds will be used to support the planning and design of additional contamination clean-up efforts in the South Port to maximize the redevelopment potential of the area. City staff are planning to apply for a \$2 million USEPA clean-up grant in FY25 that will primarily happen in FY26. This project directly supports the implementation of the Imagine Dubuque Plan. An additional benefit to cleaning-up the South Port will be improved accessibility to the south port levee trail.

RELATIONSHIP TO OTHER PROJECTS

EPA Multipurpose Grant

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy

FUNDING RESTRICTIONS

This project may only be funded by GDTIF

PROJECT ADDRESS/SERVICE AREA

South Port

DEPARTMENT: 55 - Engineering / Miscellaneous		STATE PROGRAM: 2C - Public Works	PROJECT TITLE: Port of Dubuque - Security Camera Expansion			YEAR FIRST SUBMITTED: FY 2008 PROJECT NO: 5575000014 102-1963	TOTAL PROJECT COST \$ 20,000

\$ —	\$ —	TOTAL	\$ —	\$ —	\$ 20,000	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This annual funding program will provide for the installation of additional security and surveillance cameras within the Port of Dubuque. The locations identified for surveillance coverage include the northerly end of the Riverwalk, Riverwalk shade structures, the Alliant Amphitheater, the Historic Shot Tower, the Bell Street corridor and along Ice Harbor Drive. There are several public parking lots in the Port area that do not have camera coverage, which include; Grand River Center north parking lot, National Mississippi River Museum and Aquarium parking lot, Mississippi Plaza parking lot, River's Edge Plaza parking lot, Brewery parking lot and the McGraw Hill - Special Events parking lot. As camera coverage is expanded in the Port of Dubuque, additional cameras will be added to the network so that each of the Emergency Call Box locations has security and surveillance coverage. This project will expand and enhance security and surveillance coverage within the Port of Dubuque which will compliment the Riverwalk security camera system which was installed in response to the vandalism along the Port of Dubuque's Riverwalk. The expanded security and surveillance coverage will curtail vandalism and will also assist law enforcement officials with crowd control monitoring during large public events.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Vibrant Community: Healthy and Safe: Have residents feeling safe in any neighborhood and throughout the community.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) and DRA Funding.

PROJECT ADDRESS/SERVICE AREA

Port of Dubuque

PROJECT DESCRIPTION/JUSTIFICATION

This project will fund 10 portable speed shields a year to be used along various streets in the community. The speed shields are used to bring awareness to drivers on their speed and helps reduce speeds in areas known to have speeding issues. The speed shields are installed and managed by the Dubuque Police Department to assist in enforcement.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Have safe, healthy, inclusive neighborhoods citywide.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax (20%), and Sales Tax Fund (30%) and DRA Distribution

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for hazardous material remediation and structure deconstruction of a former City owned leased property along Highway 151 near the South Port. This funding would support the deconstruction of the former ABC Supply building whose lease expired in December 2018. Clearing this site of the existing outdated and obsolete structure will help to prepared it for redevelopment.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Retain, expand and grow local businesses, attract new businesses to provide a more diverse tax base and job opportunities.

FUNDING RESTRICTIONS

This project may only be funded by Greater Downtown TIF, and DRA Distribution

PROJECT DESCRIPTION/JUSTIFICATION

Incremental Development grows the capacity of regular people to develop hard-working, loveable small buildings within their own neighborhoods. A healthy incremental development ecosystem is one where locals own, implement, and benefit from reinvestment happening within their community and in the places they live and work. Today's cities need systems to support incremental development which can be messy, slow, and confusing to navigate but this is how great neighborhoods are reborn. This project will build the capacity for locals inexperienced in small development to invest in their own neighborhoods by leveraging already existing local organizations with capacity to help and who are willing to assist this new group of beginner entrepreneurs. For families to fully break the cycle of poverty, children must have hope — and their parents and guardians, who are their primary role models, must be a key source of that hope. Becoming first time real estate owners provides an excellent opportunity to begin building generational wealth and if tenant spaces are involved with the development project it will provide supplemental income and a means to improve lives in long-term ways. This program will also work to connect emerging artists, makers, and entrepreneurs with an e-commerce or mobile retail presence with their first affordable storefront location to help them grow their businesses in a lower risk manner. This small business incubator type approach will have a secondary impact by reactivating vacant storefronts, accelerating urban revitalization efforts, and making neighborhoods more walkable by offering more nearby retail services.

The hired consultant will work directly with people primarily living in the Washington, North End, and Point neighborhoods. Over a 12-month period the consultant will be tasked with training small developers, helping citizens establish a self-supporting ecosystem that strengthens their own neighborhoods, and helping local residents get the kind of development they want in their neighborhoods. This is not a formula for house flipping. In this model the consultant will work to coalesce locals of various backgrounds, disciplines, passions, and skills integral to the development process to begin to create the self-supporting ecosystem. They will teach and mentor local residents about developing real estate in their own neighborhoods via a process that involves finding a place in your neighborhood that you love and are willing to make a long-term commitment to, getting to know your neighbors, finding investors, learning legal & accounting requirements, finding a small project to start with, cleaning up your small project site to immediately improve the neighborhood, building your development & contracting team, planning your project, setting up a construction management system, finding your tenants, learning to manage your property, and growing the ecosystem by helping others through sharing what you learned. While this process is not complicated, it does require steady practice, a strong multidisciplinary team, and local knowledge. The coaching format is facilitated through regular group gatherings of those going the coaching process to build community along with offering one-on-one coaching and mentorship to help review project scopes, zoning code complexities, financing plans and proformas, business plans, designs, etc. For inexperienced small developers it can be easy to get stuck when unanticipated challenges arise. The key to this program is that it breaks down the basics to give new small developers confidence, knowledge, and support to translate their idea into viable projects and to follow those projects through to completion. The consultant team will be comprised of experienced urban developers with expertise redeveloping complex, historic buildings, and neighborhood revitalization type projects.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for a replacement program of the existing 30-foot white streetlights and some traffic signals located in downtown Dubuque. Currently, there are approximately 60 white streetlights remaining. The project would replace all remaining white poles and install lighting controllers with meters. In certain cases, these would be replaced with historical streetlights. Many of the streetlights in the downtown area were installed in the early 1950's. These are the white 30-foot style found along Central, Main, Iowa, Locust and Bluff Streets. Many of these streetlights utilize a direct burial style feed and unique service panel which makes it very difficult and costly to maintain. The new downtown streetlights will be capable of having banners brackets added. This project would also fund LED replacement luminaries throughout the City. Currently when street light fixtures burn out, they are replaced with matching style, high pressure sodium streetlights. This program would promote the use of highly efficient, long life LED street lighting throughout the City of Dubuque which saves energy and operating expenses. Current locations of interest include the Port of Dubuque Riverwalk, Bridge Lighting locations and miscellaneous subdivision locations. This project also initiates a scheduled replacement of older streetlights throughout the City and will also include the installation of new streetlights when conditions warrant. Currently, the City owns approximately 2,500 streetlights. In many older subdivisions, the entire light fixture, base, pole, and conduits need replacing. Currently there are around 60 lights in 24 locations outside of the downtown lights that are in need of replacement. Average cost of reconstruction is around \$1,500 to \$2,000 each.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Increase the visual appeal and beauty of the City with attractive gateways, corridors, streetscapes/landscaping neighborhoods, homes and businesses

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%), Greater Downtown TIF, CDBG, and Road Use Tax Fund.

PROJECT ADDRESS/SERVICE AREA

Varies throughout the City. Mostly in the downtown area

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the improvement of existing traffic signals, replacement of signal controllers, removal of traffic signals where no longer needed, and/or the signalization of additional intersections as the need may arise. This project also covers engineering staff time related to additional signals and is combined with other programs such as the Traffic Signal Intersection Reconstruction and the Traffic Signal Interconnect to make a project viable. Each year appropriations are intended to fund the signalization of intersections through the City as the need may arise. New signals will be given consideration utilizing the warrants established in the Iowa Manual on Uniform Traffic Control Devices. Currently, each new signal installation can cost approximately \$300,000 and there are multiple locations under consideration.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Traffic Signal Intersection Reconstruction (#55240000008) and Traffic Signal Mastarm Retrofit (#55240000004).

OUTCOME

Connected Community: Improve traffic flow throughout the City (East-West corridor, roundabouts, light synchronization)

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT ADDRESS/SERVICE AREA

Citywide

PROJECT DESCRIPTION/JUSTIFICATION

This program would provide for reconstruction of intersection mastarm retrofit for key intersections in the Central Business District. White and Central Avenue contain a mix of different styles of traffic signalization. Some locations have pedestal mounted signal heads, while other locations have mastarm mounted heads. The differing location of the traffic signals sometimes causes motorists to react to the 2nd signal ahead as opposed to their nearer intersection. This program would provide for installing mastarm mounted signals along Loras, White, Jackson, Elm and Central Corridors. Intersections included in this project are: 4th & Locust, 7th & Iowa, 9th & Bluff, 10th & Bluff, 14th at Jackson, 14th and Elm, 16th & Elm. This would standardize the location of the signal heads along the major arterial routes. This project has been extended out to cover increased costs. High priority locations are signals along Loras Boulevard including Jackson, and Elm.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Improve traffic flow throughout the City (East-West corridor, roundabouts, light synchronization)

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for reconstruction of a portion of the underground wiring system for the traffic signal interconnect system. It will also tie in some miscellaneous intersections that were not part of the original interconnect. Although the focus of this program is to connect traffic signals, the conduit will be upsized to a multi-duct conduit system so that it can be utilized as part of the City's Fiber Optic Network that will enhance public safety, improve a wide range of city services and enable equitable and universal access to broadband. During construction of this conduit, the City will collaborate with other public entities and private carriers to leverage private sector investments in Dubuque to reduce right-of-way usage by utilizing a "dig once" policy to install a multipath fiber duct. This will reduce costs and improve services for multiple city agencies and create public assets which can in turn be licensed to private partners to recover costs and support future broadband expansion and innovation. Much of the underground galvanized steel conduit and wiring is in excess of 25 years old and is in need of replacement. Currently, annual repairs are needed to maintain the traffic signal coordination system operating in the downtown area. Much of the system is corroded to the extent that new wiring cannot be pulled through the old conduit, thereby requiring several spotted areas of conduit removal and replacement each year. The majority of the new conduit would be bored under the streets and sidewalks to minimize the need for street patches. When this interconnect fails, traffic lights go out of coordination and run free. Many times the power feed is also interrupted. This fiber conduit allows for the coordination of traffic signals and will also be used to leverage private/public partnerships for broadband expansion. High priority signals to interconnect include: Asbury at Carter and at Chaney and St. Ambrose; 14th at Elm and Jackson; Locust at Charter; and Bryant and Mt. Loretta.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Water System SCADA Buildout (#42810000001), Community Broadband Expansion Project (#6100200044), Traffic Signal Synchronization/STREETS Program (#5524000018), and Traffic Camera System (#5524000016).

OUTCOME

Connected Community: Improve traffic flow throughout the City (East-West corridor, roundabouts, light synchronization)

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project initiates a scheduled replacement of the older traffic signal controllers throughout the City. This project would provide for the replacement of approximately 2-3 of the City's 115 traffic signal controllers per year. The new controllers are needed for signal coordination, traffic cameras, and compatibility with the preemption program for the traffic signals being proposed by the Fire and Police Departments. All new intersections are currently compatible. The cost of a single controller is approximately \$14,000 plus \$6,000 for a battery backup system and \$6,000 for pre-emption. Recently, the cost of these cabinets has increased due to advanced technical equipment within the cabinet. This replacement schedule would also keep up with the replacement needs for the older controllers, purely from a maintenance perspective. High priority intersections in need of new controllers and cabinets include: Iowa at 5th, Iowa at 7th, 10th at Bluff, 5th and Bluff, Loras at Jackson, Loras at Elm, 16th at Elm, Locust at Charter and Carter and Chaney on Asbury Road.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Street Camera Installation (#5524000016).

OUTCOME

Connected Community: Improve traffic flow throughout the City (East-West corridor, roundabouts, light synchronization)

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This capital improvement request will be used to purchase and track replacement traffic control and street lighting equipment and would be used as a depository to track insurance claims. The City of Dubuque replaces equipment that is damaged or destroyed due to accidents and weather-related activities. Many of the new traffic cabinets along the major corridors may contain \$60,000 to \$75,000 of equipment. In some instances, this equipment is purchased to replace equipment that was damaged due to an accident in which there is an insurance claim. Insurance reimbursements are put back into the project to fund expenditures which helps track the costs due to accidents and how much the City spends on hit-and-run or uninsured accidents. Major storm events due to lightning alone can expend the budget.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Improve traffic flow throughout the City (East-West corridor, roundabouts, light synchronization)

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project funds the equipment, installation and software license for the placement of fixed cameras at \$2,500 each, to be installed near roadways, alleys and signalized intersections throughout the City of Dubuque. Currently, the Traffic Operations Center has communication lines throughout the City along major and minor arterials, city streets and near signalized intersections. Engineering uses these cameras to remotely monitor and adjust traffic operations. Over the last few years, Engineering and Police have worked together using these cameras to aid the police in accident and crime investigations on a daily basis making them an integral part of public safety. These funds would also be available to add fiber optics communications lines to areas in need of cameras and to replace existing cameras as they age and as technology advances.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Healthy and Safe: Have a safe urban environment by providing high-quality emergency services

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

In 2001-2002, the city traffic signals were converted from 150-watt incandescent bulbs to 10 watt LED lamps. This conversion also included a large rebate incentive from the local power company along with drastically reduced electrical consumption. These new LED fixtures have a lifespan of 5 - 7 years. This appropriation will provide for the re-lamping of approximately 1/10th of the City-owned traffic signal lamps in each year. Currently the City has 115 traffic signals that with an average of about 40 lamps per intersection. Each lamp runs approximately \$70 each. New LED signal heads can be purchased with a 15-year warranty. This project will reduce maintenance problems (burnouts/failures) with traffic signals in future years. These existing LED's have lasted approximately twice their warrantied lifespan, and instead of burning out, they dim over time and become non-compliant with MUTCD guidelines. This capital improvement program will systematically replace these lamps by corridor starting with the oldest LED's.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Improve traffic flow throughout the City (East-West corridor, roundabouts, light synchronization)

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides needed traffic control at signalized intersections during times of power outages. This project will provide for the purchase and installation of battery backup systems by City traffic signal technicians in existing traffic signal controllers at various locations throughout the City. These battery backups will provide backup power to run each intersection on in full colors for up to eight hours during power outages. When power is restored, the controllers will automatically reset and go back into service. These battery backup units also serve as lighting controllers and can be placed midblock in the Central Business District to serve two intersections with one battery backup system. Each battery backup system costs between \$8,500 to \$11,000. This project will fund the addition of 2 to 3 BBS per year. In the City of Dubuque, there are 115 traffic controllers located at various intersections and crosswalks throughout the city. During times of power outages, crews are dispatched to the signalized intersections to place portable stop signs. Depending on when these power outages occur, the response time for crews to load stop signs and place them averages thirty minutes to one hour. The response time is even longer when outages occur at night and/or on a weekend. During this time, police officers are dispatched to direct traffic until stop signs can be placed. When major outages occur, many intersections at one time can be affected, which endangers public safety and severely interrupts both police and maintenance operations. This project allows the City of Dubuque to provide normal traffic control at intersections during power outages, with the least interruption to the driving public, police and maintenance operations.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Improve traffic flow throughout the City (East-West corridor, roundabouts, light synchronization)

FUNDING RESTRICTIONS

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the reconstruction of one intersection in the downtown every two years or the removal if no longer needed. New findings have prompted the City to accelerate this program. Much of the underground galvanized steel conduit and wiring is in excess of 25 years old and is in need of replacement. Many times when repairs are needed, the conduit at the intersection is corroded to the extent that new wiring cannot be pulled through, therefore requiring several spotted areas of conduit to be removed and replaced each year. Anchor bolts and bases are often times corroded or rusted off, requiring new foundations and equipment during which time the signal remains down or in an "all red" flash status. New findings this year have demonstrated a potentially urgent situation. Mastarms that were installed in the early 1980's as part of a major signalization effort are now in need of replacement. Most of these poles are the white painted signal poles in the area of White, Main, Elm, Iowa and Bluff Streets. These poles and transformer bases are rusting from the inside out, and it was found that many of the transformer bases looked adequate from the outside but were nearly completely rusted through. Many additional intersections are in need of rebuilding. New mastarm equipment is fully galvanized with many of the attached parts composed of plastic, aluminum or stainless steel which virtually eliminates this type of corrosion problem. These newly rebuilt intersections will include standard ITS equipment. Future high priority intersections in the downtown are: Iowa at 7th, Bluff at 9th, Bluff at 10th, 14th Street signals west of White, Charter at Locust and various improvements in the 1-way to 2-way corridors.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Improve traffic flow throughout the City (East-West corridor, roundabouts, light synchronization)

FUNDING RESTRICTIONS

PROJECT DESCRIPTION/JUSTIFICATION

This project would add additional surge protection to the 115 traffic signals and miscellaneous camera systems currently operated by the City of Dubuque. Newer ITS signalized intersections are becoming more complex with advanced communications networks, battery backup systems, preemption equipment, cameras and high-end detection equipment -- a recipe which makes these units more susceptible to lightning, surge and grounding issues. This project would fund the retrofitting of these signals and cameras systems with surge protection ranging from \$500 to \$2000 at each intersection (depending on the degree of equipment at each location). During the summer of 2011, twenty intersections were struck by lightning during two storm events that caused an estimated \$100,000 in damages. All newly installed intersections and camera locations will be designed with this additional surge protection to prevent a similar occurrence. This program has proven successful with a lower rate of damaged equipment after installation of this surge equipment. This surge equipment does require frequent analysis to ensure it continues to protect as it ages and often times will need replacement after multiple storm events. Typically these existing units get replaced as they fail or as they age out with the equipment they are protecting.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Improve traffic flow throughout the City (East-West corridor, roundabouts, light synchronization)

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This project will cover the City staff, engineering, and administrative costs associated with the STREETS (Smart Traffic Routing with Efficient and Effective Traffic Signals) project. This program will also be used to fund match funding required for grants associated with this project. Once STREETS is implemented and US 52 is rerouted, this program will study traffic patterns in the downtown to determine which streets may be converted into two-way streets and if any signalized intersections can be removed. FY 2022-23 costs cover consulting services to improve the efficiency of the STREETS system. FY24 was the starting point for Phase I after delays with the Department of Transportation. Starting in FY26, City staff is applying for a secondary grant for Phase II of the STREETS project, which covers more downtown signals.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Improve traffic flow throughout the City (East-West corridor, roundabouts, light synchronization).

FUNDING RESTRICTIONS

This project may only be funded by state grants, Sales Tax Fund (30%), Road Use Tax Fund, and DRA Distribution/Gaming.

PROJECT DESCRIPTION/JUSTIFICATION

This project will cover the City staff, engineering, and administrative costs associated with the STREETS (Smart Traffic Routing with Efficient and Effective Traffic Signals) project Phase 2. This program will also be used to cover match funding required for grants associated with this project. The City of Dubuque, East Central Intergovernmental Association (ECIA), the Dubuque Metropolitan Area Transportation Study (DMATS) and the Iowa Department of Transportation (Iowa DOT) have partnered to develop the Smart Traffic Routing with Efficient & Effective Traffic Systems (STREETS) project. The goal of the STREETS project is to develop a smart, next generation traffic management and control system that will provide sound information to the stakeholders and serve as a framework for the deployment of similar systems in small urban areas with populations under 100,000. The City of Dubuque is applying for \$1.1 million in Iowa Clean Air Attainment Program (ICAAP) funding to implement Phase II of the streets project after completion of the Phase I in April 2024. This project includes 77 additional signals mostly in the downtown area that were not covered by phase 1 of STREETS.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the STREETS Traffic Control Project Phase 1 (#5524000018).

OUTCOME

Connected Community: Improve traffic flow throughout the City (East-West corridor, roundabouts, light synchronization).

FUNDING RESTRICTIONS

This project may only be funded by state grants, Sales Tax Fund (30%), Road Use Tax Fund, and DRA Distribution/Gaming.

PROJECT DESCRIPTION/JUSTIFICATION

This will be an annual project that provides for the necessary fiber optics communications cabling and equipment to be installed along key corridors. This will allow for the interconnection network of traffic signals via fiber optics back to the Traffic Operations Center at City Hall and the Traffic Shop located at the Municipal Service Center. Fiber to the signals allow for remote management of the signal and allows for the addition of cameras at the signal to feed back to the Traffic Operations Center and Dispatch. It also allows improved security via network monitoring and improves coordination of traffic signals (thus lowering carbon emissions) and will also be used to leverage private/public partnerships for broadband expansion. Although this fiber is installed for traffic operations, it is oversized to accommodate all city department needs in the future. All new traffic signal installations since 2007 have been installed to be fiber ready. Now there are communications standards in place, and the City will be installing fiber optics and communication equipment throughout the City starting with the major traffic corridors including US 20, NW Arterial, Central Ave, White Street, Loras Blvd, Locust Connector, and US 61/151. One of the primary goals of this project is to complete fiber optic communications loops around the City utilizing US 20, NW Arterial, Pennsylvania, Asbury Road and US 52 down to Central to Locust and back onto US 20. Fiber optics communications will also replace the existing Central Business District traffic 7 wire interconnect. This change-out to fiber will occur over the upcoming years. There are many older signals throughout the City that need to be updated prior to going on this new system. These signals will be added to the system as they are updated. Many of these will be in partnership with ImOn Communications as they extend fiber throughout the community over the next 3 years.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Water Department's SCADA Overhaul project (#4281000001).

OUTCOME

Connected Community: Improve traffic flow throughout the City (East-West corridor, roundabouts, light synchronization)

FUNDING RESTRICTIONS

PROJECT DESCRIPTION/JUSTIFICATION

This project provides funds for the maintenance and expansion of the Traffic Management Center's ITS Improvements, including remote management and monitoring of the City's traffic signals along with automated vehicle counters, cameras, classifiers, connected vehicles infrastructure, and roadside units broadcasting Spat data and variable message boards along key city corridors. In addition, funds will be used for ITS equipment located within the Traffic Management Center located at City Hall. This fund would also be used as match money in joint projects which are suggested by the Iowa Department of Transportation. Using state-of-the-art electronics, ITS technologies improve the efficiency of traffic control equipment, congestion, air improvement, travel improvements, citizen concerns, and green communities. Examples of these technologies include traffic counters, traffic monitoring equipment for speeds and occupancy, and variable message boards to inform the traveling public. The I-80 detour through Dubuque in the summer of 2008 used some of the City's existing ITS technologies to aid the flow of traffic through Dubuque. Future funds will support the installation of DSRC radios and updated equipment for connected vehicle equipment. FY 20 funds were used to install roadside units along the signalized intersections of US 20. These devices broadcast signal phasing and timing data to newer cars that have this technology built in. Dubuque is the first city in the state to install this technology.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Improve traffic flow throughout the City (East-West corridor, roundabouts, light synchronization).

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT ADDRESS/SERVICE AREA

Citywide

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for the conversion of two signalized intersections per year to a new vehicle detection system and stop bar video cameras. Traffic signals require vehicle detection to minimize delay. Some older installations did not have vehicle detection or have faulty loop detectors (loops cut into the roadway that measure inductance to detect if a car is waiting or not). Microwave detection is an easy, safe alternative that the City has been using at new installations. FY 21 and FY 22 locations targeted intersections along Asbury Road including Sam's South entrance, JFK, Carter, Chaney and St. Ambrose. Locations that currently are in need of maintenance and potential candidates include Locust at 151, Locust at Locust Connector, Hwy 151 at Jones, Locust at Charter, Elm at 16th, and University at Pennsylvania. The newest model of equipment allows this technology to be installed at more existing locations. This technology and equipment upgrade offers some of the best performance enhancements to a signal for the dollar spent.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Improve traffic flow throughout the City (East-West corridor, roundabouts, light synchronization).

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This capital improvement project would fund the replacement of 60 concrete streetlights along Grandview Avenue with historic LED fixtures. The project boundaries include Grandview at Delhi to the North to Grandview at 151 to the South. The existing streetlights along Grandview Avenue are constructed from concrete poles which require yearly maintenance and replacement due to rebar rusting from within. The Engineering Department buys replacement poles, but the newer poles seem to be breaking down quicker than the older poles. This capital improvement request would fund the replacement of these 60 poles with a lower maintenance nostalgic-style light pole. New conduit and lighting cabinets would also be part of this project. The concrete poles removed would be used to replace weathered poles in the older section until they are fully replaced. The Grandview Avenue corridor is a great opportunity to connect fiber optic lines between major roadways. Included in this project is 12,000 feet of fiber optic cable and 20 security cameras at key locations along Grandview, which will be completed with previous fiscal year funding. This fiber line will tie US 61/151 into US 20 fiber optics and provide future feeds to neighborhoods along the way. This fiber will create a redundant route between US 20 and Hwy 151 and be used for private/public partnerships with broadband carriers during FY 23. All the underground improvements have been installed north of US 20. FY 21 funds used to install the new light pole equipment on the section North of US 20. FY 22-24 funding along with a private/public construction project with ImOn during their fiber to the home construction allowed all of the underground infrastructure to be installed between US 151 and US 20 during the summer of 2023. FY 25 funds will be used to install new light poles between US 151 and US 20.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Increase the visual appeal and beauty of the City with attractive gateways, corridors, streetscapes/landscaping neighborhoods, homes and businesses

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT ADDRESS/SERVICE AREA

Grandview Avenue Corridor from US 20 to Southern

PROJECT DESCRIPTION/JUSTIFICATION

In 2005 the City entered into a franchise agreement with Mediacom. Part of that agreement was to install “dark fiber” to 77 city, county, non-profit, schools and medical sites. Although that agreement was converted to a State of Iowa franchise in 2008, I-Net fiber optic cabling is supported through 2020 by Mediacom, and the contract will be extended by Mediacom for two years. At the expiration of the extension, the City has the option to purchase the I-Net contract. The fiber is 15+ years old, is mostly aerial and is co-located with Mediacom residential/business fiber in termination cabinets. This makes it a less than reliable and difficult to maintain asset. Since 2016, the City of Dubuque undertook its Broadband Acceleration Initiative. The Initiative focuses on public/private collaborations and includes a comprehensive strategy to reduce the cost and time required for broadband expansions in Dubuque. Although many of the sites served originally by I-Net fiber have now been converted to city fiber, some still remain that will need connectivity for data, phones and other devices. It is recommended to leverage existing telecommunications public/private partnerships in addition to building out the City’s own fiber to ensure connectivity. The locations impacted for voice/data/device connectivity are: Leisure Services/Bunker Hill, EOC (public/private partnership with CS Tech), Fire Station 6 Rhomberg (+Solar Collector) (public/private partnership with ImOn), Fire Station 2 JFK (+Solar Collector), Fire Station 5 Grandview (+Solar Collector), WRRRC. In addition, connectivity at the following sites will need connectivity to serve water meter collectors: Key West St. Joe School, Wartburg, Wahlert, Table Mound. There are still a number of the 77 sites that need fiber connectivity installed to them with this capital improvement program.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Increase availability and affordable bandwidth and redundancy through public-private partnerships

FUNDING RESTRICTIONS

This project may only be funded by DRA Distribution/Gaming, Road Use Tax and Sales Tax (20%) & (30%).

PROJECT ADDRESS/SERVICE AREA

Citywide

DEPARTMENT: 55 - Engineering / Traffic		STATE PROGRAM: 2C - Public Works	PROJECT TITLE: Emergency Preemption Expansion and Upgrades			YEAR FIRST SUBMITTED: FY 2020 PROJECT NO: 300-1023 5524000001		TOTAL PROJECT COST \$ 81,900

\$ 11,900	\$ 10,000	TOTAL	\$ 10,000	\$ 10,000	\$ 10,000	\$ 10,000	\$ 20,000	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

Emergency Preemption equipment was originally started in 2000, but this project request is for the installation of GPS-based equipment at new locations and the replacement of equipment at older intersections. This system can be used by fire, ambulance and police units responding to emergencies to provide for quicker response times by removing stopped traffic due to red signals at busy intersections. It will also improve safety for the community and emergency personnel. The optical system provides the capability of placing this on other vehicles, such as snow plows, allowing them to hold green lights to expedite the task of snow removal, but does not allow the snowplow driver to change the light from red to green. It also has the capability of supervision so that there is a record of units using the preemption system. The priority can be set into this system which would allow emergency vehicles to have priority over non-emergency vehicles using the system. The City of Dubuque is currently using Optical Preemption while new GPS technologies are now more popular and minimize roadway delays by only preempting the direction (straight or left) as needed. Current optical preemption disrupts the opposing lane because it always brings up both the left and the through for the direction of travel. New equipment is tied to the direction on the vehicle and will not disrupt the left turn if not needed. New replacement equipment for the older optical equipment can operate both optical or GPS-based communications.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Have the infrastructure and amenities to support economic development and growth: industrial/business parks, streets and utilities, air service and housing, bandwidth redundancy.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This capital improvement project provides an annual program for installing conduit for fiber optic in miscellaneous projects throughout the community. Installation of fiber conduit into existing infrastructure typically ranges from \$25 to \$35 a linear foot when installed in a stand alone project. When combined with other projects, the cost can drop to around \$10 to \$20 a linear foot. This improvement item funds the installation of fiber conduit along other unscheduled city projects and in conjunction with other private utility projects where it is convenient and at a cost savings to the community. This conduit will be upsized to a multi-duct conduit system so that it can be utilized as part of the City's Fiber Optic Network project that will enhance public safety, improve a wide range of city services and enable equitable and universal access to broadband. During construction of this conduit, the City will collaborate with other public entities and private carriers to leverage private sector investments in Dubuque to reduce right-of-way usage by utilizing a "dig once" policy to install a multipath fiber duct that reduces costs and improves services for multiple city agencies and creates public assets which can in turn be licensed to private partners to recover costs and support future broadband expansion and innovation. This budgeted item would extend fiber optic conduit as part of the city-wide effort to create a network of city-owned fiber optic systems and will also aid linking adjacent projects together and can be shared with public/private partnerships. This fiber, once installed, is used by many city entities including the Information Services, Fire, and Police Departments.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Water SCADA Overhaul (#4281000001) and the Broadband Acceleration and Universal Access projects (#5524000019).

OUTCOME

Connected Community: Increase availability and affordable bandwidth and redundancy through public-private partnerships

FUNDING RESTRICTIONS

This project is restricted to Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT ADDRESS/SERVICE AREA

Citywide

PROJECT DESCRIPTION/JUSTIFICATION

This program would fund the purchase and implementation of a fiber infrastructure management program. Currently fiber infrastructure is documented on spreadsheets and drawings located in various locations throughout the City. This program will consolidate all this information into one software program with the ability to include network information that documents failover redundancy paths and Virtual Local Area Networks within the City. This program would also be used to document and assist in the exchange of assets to grow broadband in the Dubuque area via public/private partnerships to help cover underserved neighborhoods. Documentation of this information is crucial for the maintenance and operation of a fiber communications network that will be used to serve all departments along with public/private partnerships. Fiber communications is becoming a critical driver of economic growth in the City of Dubuque. This request would also help cover employees' time with fiber data collection.

RELATIONSHIP TO OTHER PROJECTS

This project is related to Broadband Acceleration and Universal Access (#5524000019), Water SCADA Overhaul (#4281000001) and City Information and Network Security projects (#77699000006).

OUTCOME

Connected Community: Increase availability and affordable bandwidth and redundancy through public-private partnerships

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (30%) and Road Use Tax Fund.

PROJECT DESCRIPTION/JUSTIFICATION

This program will fund the expansion of communication duct and fiber that will significantly enhance public safety, improve a wide-range of city services and enable equitable and universal access to broadband (high-speed internet). The City will collaborate with other public entities and private carriers and specifically target its funds to "last block" undertakings, ranging from connecting widely-dispersed city facilities and assets to specifically connecting low income or geographically stranded neighborhoods that the private sector cannot/will not connect.

This program will leverage significantly larger private sector investments in Dubuque (usually 5X to 7X city investment), provides City infrastructure that reduces costs/improves services for multiple City agencies and create public assets which can in turn be leased or licensed to private partners to recover costs and support future broadband expansion and innovation. Incorporated into this project are several traditional, stand-alone CIP's such as extending the City's fiber backbone from 27th and Elm up to Jackson and 32nd and over to Central and 32nd. This brings broadband and surveillance infrastructure to this area of the City. These types of projects have been folded into this request in order to be positioned to reduce costs through public/private partnerships.

RELATIONSHIP TO OTHER PROJECTS

This capital improvement project is related to the Water SCADA Overhaul (project #42810000001).

OUTCOME

Connected Community: Increase availability and affordable bandwidth and redundancy through public-private partnerships

FUNDING RESTRICTIONS

This project may only be funded with Sales Tax Fund (30%), Road Use Tax, and TIF funding in TIF districts.

PROJECT ADDRESS/SERVICE AREA

This project spans the City but includes many low/moderate income areas and will promote broadband access to these areas.

PROJECT DESCRIPTION/JUSTIFICATION

In 2008, significant updates to the Historic Federal Building were completed to improve its overall condition and to ensure it remained as a historic structure anchoring downtown. Now, 14 years later, this historic building requires additional funding to ensure it remains in solid condition. Due to the COVID-19 pandemic, funding over the past two fiscal years has been reduced from this capital improvement project budget. The listed funding request attempts to replenish building components currently in deferred maintenance status and address emerging concerns. In FY24 funding is budgeted for major HVAC upgrades to replace existing equipment that is beyond its expected service life and subject to frequent or catastrophic breakdown. FY25 provides funding for the second phase of HVAC upgrades.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Healthy and Safe: Become an inclusive and equitable community in which all feel welcome, included, and leave no one behind

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), Greater Downtown TIF, and DRA Funding.

PROJECT DESCRIPTION/JUSTIFICATION

The west building facade is showing signs of deterioration due to accelerated cracking of bricks and loss of mortar in certain joints. Over the past decade high moisture content in the lower west facade bricks has been observed. Previous funding in this capital improvement project will diagnose the moisture and repeated brick cracking problem and begin reactive maintenance repairs. This would allow corrective actions to be taken on the cause of the repeating brick cracking and complete any unfinished maintenance. FY25 funding is being requested to address the deteriorating condition of the northern and western foundation walls.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Maintain and enhance City infrastructure and facilities

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) or DRA Distribution/Gaming.

PROJECT ADDRESS/SERVICE AREA

PROJECT DESCRIPTION/JUSTIFICATION

This project replaces the back roof on City Hall Annex. The current condition of the roof is poor and is well past the intended service life. Replacement is needed to ensure the building remains water tight and protects the IT equipment housed within the building. Funding is requested in FY25 to complete replacing the last section of roof following the main roof replacement in FY24.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital improvement projects.

OUTCOME

Financially Responsible, High Performance City Organization: Maintain and enhance City infrastructure and facilities

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) or DRA Distribution/Gaming.

PROJECT ADDRESS/SERVICE AREA

1300 Main Street, Dubuque

DEPARTMENT: 55 - Engineering / Facilities Management		STATE PROGRAM: 6C - General Government	PROJECT TITLE: Multicultural Family Center - Ruby Sutton Building HVAC Replacement			YEAR FIRST SUBMITTED: FY 2023 ACTIVITY NO: 5565000019-305-67500	TOTAL PROJECT COST \$ 40,000

\$ —	\$ —	TOTAL	\$ 40,000	\$ —	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project replaces the existing HVAC units that are more than 20 years old, which provide conditioned air to the Ruby Sutton building portion of the Multicultural Family Center. The MFC operates year-round providing services to all parts of the community. These units are at an age where they are becoming unreliable. If a unit fails in the summer, hot internal building temperatures may result in disruptions to on-going programs or city staff working in the building.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Maintain and enhance City infrastructure and facilities

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax 20%, Sales Tax 30% and Downtown TIF.

PROJECT DESCRIPTION/JUSTIFICATION

This funding request is for consulting services related to ADA Compliance Phase II and further implementation of the City's ADA compliance application, called InVision Facilities Management. In Phase I, we were able to have the floor plans of 2 city buildings added to InVision Facilities Management, as well as buildings and pavilions located in parks. In the second phase, we will add additional building footprints and work with a consultant to fully implement the application and possibly tie it into GIS software, ArcGIS Indoors. The funding for this phase is spread out over three years. With a full-time facilities manager now employed, it is expected this project will progress significantly with funding and professional resources.

This project is listed in City Council's Goals & Priorities Management Agenda, under ADA Compliance Funding Phase II and InVision Facility Management Software Implementation. While there are currently no related project requests for this, implementation of this project will allow for future budgeting of required maintenance to city property where there are accessibility deficiencies.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Provide City services responsive to the community

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) or DRA Distribution/Gaming.

\$ —	\$ —	TOTAL	\$ 15,000	\$ 15,000	\$ 15,000	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project funds the installation of 4-5 weatherproof bike lockers per year at the downtown building facilities assigned to the Facilities Management Team. In the past two years, more city employees are biking to work and are parking their bikes inside the building of their assigned work space. This is causing several problems for the Facilities Team. On bad weather days, bikes are bringing additional rain and snow into the buildings that can increase risk of slip-and-fall incidents. Bikes stored haphazardly in hallways can also interfere with emergency egress walkways. Some bikers can own bikes costing as much as \$10,000 and thus are reluctant to store them in the open air at exterior bike racks. Weatherized bike lockers will provide riders with the needed protection and security to allow bikes not to be stored indoors.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Increase the visual appeal and beauty of the City with attractive gateways, corridors, streetscapes/landscaping neighborhoods, homes and businesses

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax 20%, Sales Tax 30% and Downtown TIF.

PROJECT DESCRIPTION/JUSTIFICATION

This program provides grants and loans for rehabilitation and adaptive reuse of buildings in the Greater Downtown Urban Renewal District. Tax increment proceeds are used to capitalize the pool of funds for these grants. The program provides grants of \$10,000 for each new housing unit created in the District. The program creates affordable, quality rental housing units for our workforce in areas well-served by public transit. All projects must commit to accepting all sources of income for otherwise eligible tenants. Providing housing incentives is a high priority of the City Council.

Potential projects identified at this time are: 1195 Central (14 units), 1700 Block of Central (34 units), 3000 Jackson (75 units), 799 Main (36 units), 801 Jackson (113 units). In addition, we typically receive requests for 5-6 smaller projects (10-20 units) annually.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Downtown Rehab Grant Program (project #6052000002). These grants are typically used on the same properties simultaneously.

OUTCOME

Livable Neighborhoods and Housing: Have strong vibrant 24/7 residential/central business core (Dubuque Main Street Service Area Downtown, Central Avenue Corridor and Dubuque Millwork District, North End including residential opportunities, retail, jobs, recreation and entertainment)

FUNDING RESTRICTIONS

This project may only be funded by Greater Downtown TIF funding.

PROJECT ADDRESS/SERVICE AREA

PROJECT DESCRIPTION/JUSTIFICATION

The Small Business Grant program began in 2019, which is related to the LMI Small business Grants Program (project # 61002000051). The LMI Small Business Grants Program provides \$5,000 grants to eligible business owners for eligible costs to support and expand their business. That program utilizes Community Development Block Grant funds. Due to CDBG restrictions, another funding source must be identified to pay for supporting work for the program such as administration costs and other ancillary expenses (i.e., event costs). The City currently has a contract with Fountain of Youth to administer the program.

RELATIONSHIP TO OTHER PROJECTS

This project is related to LMI Small Business Grants (capital project # 61002000051).

OUTCOME

Robust Local Economy: Create a resilient, sustainable and diverse regional Dubuque economy

FUNDING RESTRICTIONS

May not be funded with CDBG.

PROJECT DESCRIPTION/JUSTIFICATION

The Greater Dubuque Development Corporation (GDDC) has embarked on the Greater Dubuque 2027 Campaign, which will conclude in 2027. FY25 is the 2nd year of the campaign. The main focus during the five-year campaign is the retention, recruitment and creation of workforce in the Greater Dubuque area. The creation of workforce includes connecting to the unemployed and underemployed population, disproportionately minority, and connecting those citizens with educational opportunities through Opportunity Dubuque in partnership with Northeast Iowa Community College. Upon completion of the participants' certificate of training, GDDC will work with community employers and provide livable wage employment. The five-year goals for the initiative include: population growth to 105,000 from 99,266; employment growth to 64,000 from 58,733; median household income increased to \$76,000 from \$63,031; residential and commercial construction of \$1 billion; reduce the number of households below the Dubuque County Supplemental Poverty Measurement by 5 percent.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Create a resilient, sustainable and diverse regional Dubuque economy

FUNDING RESTRICTIONS

This project may only be funded by Dubuque Industrial Center West land sales and TIF funding.

PROJECT DESCRIPTION/JUSTIFICATION

This program provides grants for rehabilitation and adaptive reuse of buildings in the Greater Downtown Urban Renewal District. Tax increment proceeds are used to capitalize the pool of funds for these grants. This grant program provides a 1:1 match for eligible expenses for improvements to façades, as well as accompanying costs for financial consulting and planning & design work for the project. This grant program receives the most inquiries and interest of all Economic Development's programs. The program promotes the redevelopment of the downtown, maintains its historic appeal, and complements grant/loan programs provided by our partners at Dubuque Main Street. Revitalization of the Central Avenue Corridor is a top priority of City Council, which is one area where this program can be used.

Potential projects identified at this time are: 1700 Block of Central (multiple buildings) and 3000 Jackson. In addition, we typically receive requests for 5-6 smaller projects annually.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Greater Downtown Housing Creation Grant (project #6052000004). These grants are typically used on the same properties simultaneously.

OUTCOME

Livable Neighborhoods and Housing: Increase the visual appeal and beauty of the city with attractive gateways, corridors, streetscapes/landscaping neighborhoods, homes and businesses

FUNDING RESTRICTIONS

This project may only be funded by Greater Downtown TIF funding.

PROJECT DESCRIPTION/JUSTIFICATION

The Historic Millwork District Master Plan calls for green space in the area north of the Intermodal Parking Ramp and west of the Intermodal Center. These funds would support an initial step of removing the temporary parking lot and seeding the area. Further planning is needed to identify the exact use and design of this area (to be determined during an updating of the Master Plan through public engagement).

RELATIONSHIP TO OTHER PROJECTS

This project complements the increasing mixed-use of the Millwork District as called for in its Master Plan. It also serves the residents and patrons of the adjacent rehabilitated historic buildings. The buildings are rehabilitated using grants from project # 6052000004, Greater Downtown Housing Creation Grant Program and project # 6052000002, Downtown Rehabilitation Grant Program - Includes Central Avenue, Historic Millwork District, and Washington Neighborhood.

OUTCOME

Livable Neighborhoods and Housing: Have strong vibrant 24/7 residential/central business core (Dubuque Main Street Service Area Downtown, Central Avenue Corridor and Dubuque Millwork District, North End including residential opportunities, retail, jobs, recreation and entertainment)

FUNDING RESTRICTIONS

PROJECT DESCRIPTION/JUSTIFICATION

The current Housing Creation Grant of \$10,000/unit supports the creation of downtown rental, residential inventory. Eligibility for that program is determined by whether the building is creating housing where none has existed before (such as the adaptive reuse of a warehouse) or where units have been vacant for at least 3 years. As the City Council has prioritized the revitalization of the Central Avenue Corridor, and the Comprehensive Plan calls for encouraging multi-family development near jobs/walkable, mixed-use areas, this program aims to accelerate the creation of affordable downtown housing options by creating a more flexible program for projects that propose the rehabilitation of more than one building and a minimum of 4 units. The program is currently proposed for use along the Central Avenue Corridor between 11th Street and 22nd Street. For this program, a unit could be considered eligible, even if recently occupied, if the project involves a substantial rehabilitation of the unit and buildings. The program provides a loan, forgivable at the 10-year mark, if the developer has maintained the terms of the agreement. Projects cannot discriminate based on the tenant's source of income.

RELATIONSHIP TO OTHER PROJECTS

This is similar to the Greater Downtown Housing Creation Grant Program (Project # 6052000004). It can be combined with the Downtown Rehabilitation Grant Program - Includes Central Avenue, Historic Millwork District, and Washington Neighborhood (Project # 6052000002).

OUTCOME

Livable Neighborhoods and Housing: Expand quality affordable housing options for all, including workforce housing

FUNDING RESTRICTIONS

Greater Downtown Urban Renewal District

PROJECT ADDRESS/SERVICE AREA

Central Avenue Corridor between 11th Street and 22nd Street.

PROJECT DESCRIPTION/JUSTIFICATION

Funds are used to support operations for small businesses owned by low- to- moderate-income individuals. Grants in the amount of \$5,000 are awarded to eligible businesses for eligible expenses, including but not limited to: business storefront/office space rent, permanent signage, marketing, supplies, and training/technical assistance. Small businesses are able to stabilize operations while undertaking personal and professional development sessions, with the outcome being both short-term and long-term success of the business.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Robust Local Economy: Embrace diverse populations to support a diverse multi-cultural workforce with equitable job opportunities

FUNDING RESTRICTIONS

This project may only be funded by Community Development & Block Grants (CDBG).

PROJECT DESCRIPTION/JUSTIFICATION

This project requests funds to add bus shelters at various bus stops throughout the City, as well as improve existing bus shelters at various bus stops. This project would upgrade and replace bus shelters with solar-powered lighting, as well as ensure compliance with Federal Transit Authority ADA bus stop requirements. In addition, this project will enhance rider experience by providing safe boarding and debarking of Jule passengers, and this project will also improve the appearance of Jule bus stops.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Healthy and Safe: Become an inclusive and equitable community in which all feel welcome, included, and leave no one behind

FUNDING RESTRICTIONS

This project is restricted to Sales Tax Fund (20%), and DRA funding. Purchase of the vertical infrastructure items/equipment are eligible for the Public Transit Infrastructure grant program, however, there is no guarantee that funds will be received.

PROJECT DESCRIPTION/JUSTIFICATION

This CIP requests funds to replace City busses. Vehicle reliability is essential in securing choice riders, and the City's bus fleet is notably aged. Bus replacements are based on vehicle assessment scores, as well as year of eligibility for state and federal funding. Eligibility does not guarantee funding, only that vehicles are beyond an age or mileage where funding could be requested. As grant funding is unlikely because of the age of the City's fleet when compared to other Iowa cities, it is important to budget for the cost of replacement. This CIP requests funds in FY25 for the purchase of three new light duty ADA accessible low floor mini buses, as well as one medium duty ADA accessible low floor fixed-route bus. Funds are requested in subsequent years for additional bus replacements as the fleet surpasses the FTA useful life guidelines. Maintenance costs have increased as old buses are requiring major component replacements. It is important for the City to have a funding plan for vehicle replacement that does not assume large grants will be received. Minibuses transport individuals with disabilities who are unable to utilize the fixed-route service for ADA compliance, The Jule fixed-route service must provide equally reliable service. Replacing these vehicles at the end of their useful life is essential to avoid delays in service. As the Jule continues to improve and provide additional services, the quality and efficiency of its vehicles will continue to be a priority. Vehicles beyond their useful life increase maintenance costs and the likelihood of breakdowns causing interruption of service. As vehicles age, their fuel efficiency is also reduced. As new vehicle technologies develop, newer buses offer increased fuel efficiency or utilize alternative fuels.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Connected Community: Enhance public transportation service responsive to our community needs.

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), and DRA funding. The project may be eligible for state and federal grant funds.

PROJECT DESCRIPTION/JUSTIFICATION

This project funds the replacement of the City's obsolete parking gate equipment at city parking garages and lots, curbside parking meters, and installation of a parking lot occupancy count system at lots without gate equipment. As part of this project, head end parking management software, cyber secure payment software, expanded broadband connections, available parking space electronic message boards, and a customer-friendly parking app will be deployed. The new smart parking system will provide parking customers with on-demand space availability and thus maximize traveler convenience, reduce travel time, maximize parking revenues, and help to reduce congestion in the downtown area. Expenditures in FY25 include \$1.4 million for PARCS ramp gate equipment for 6 ramps, \$450,000 for PARCS equipment at the POD Ramp/M-H parking lot + one other large lot, \$600,000 for on-street complete parking meter replacement with kiosks, \$600,000 for new parking ramp and parking lot wayfinding and entrance signs, \$145,000 for mobile LPR enforcement vehicles, engineering dept. services \$42,000 and on-call consultant services of \$50,000 + \$25,000 for on-street consulting services. Expenditures in FY26 include \$600,000 for on-street complete parking meter replacement with kiosks, \$80,000 for mobile app space counting integration, engineering dept. services \$25,000 and on-call consultant services of \$50,000 + \$25,000 for on-street consulting services.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for maintaining the surface of 14 off-street municipal parking lots. This project also includes signage, landscaping, and screening improvements to surface lots. Lots include: Lot 2 (9th and Bluff), Lot 3 (5th and Bluff), Lot 5 (City Hall Lot), Lot 6 (Library Lot), Lot 7 (3rd and Main), Lot 10 (5th and Main), Lot 12 (4th and Central), Crescent Community Health Center Parking Lot, Lot 4 (12th and Bluff), Port of Dubuque Surface Lot, Federal Building Parking Lot, Elm Street Parking Lot, Ice Harbor Drive Parking Lot, and Lot 9 (3rd and Locust). The funding for maintenance of municipal parking lots provides for pavement crack sealing, repairs, line striping, and seal coating surfaces.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital improvement projects

OUTCOME

Financially Responsible, High Performance City Organization: Maintain and enhance City infrastructure and facilities

FUNDING RESTRICTIONS

This project is restricted to Parking Fees and Greater Downtown TIF funding.

PROJECT DESCRIPTION/JUSTIFICATION

This project covers major repairs and maintenance issues for the Port of Dubuque Parking Ramp. The Diamond Jo contributes an annual amount as determined by their development agreement with the City and adjusted annually by Consumer Price Index. Prioritized projects will be identified in the CIP budget, and major ramp maintenance projects will be budgeted on an as-needed basis. Although there is no impact on the operating budget, operating revenue is manufactured by an ongoing maintenance program. Maintenance and repairs extend the life of the ramps and reduce costs by repairing degraded areas prior to damage becoming serious. Major repair maintenance programs are funded on an annual basis. All expenses related to the ramp are reimbursed to the City by the Diamond Jo. The capital improvement project balance accumulates to fund future parking maintenance projects.

Available funding in FY24 was used to conduct a major concrete slab crack-sealing investigation and the associated repairs. Due to the ramp being permanently classified as an open structure, an investigation of the sprinkler system will be conducted to see if some sections can be taken off line in order to save on long-term system maintenance and replacement costs. Additionally, repairs will be made to the mechanical, electrical, and plumbing systems.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Maintain and enhance City infrastructure and facilities

FUNDING RESTRICTIONS

This project is restricted to Private Participant funding.

PROJECT DESCRIPTION/JUSTIFICATION

The Comprehensive Housing Activities for Neighborhood Growth and Enrichment or CHANGE Initiative is a holistic approach to sustainability that addresses ecological, environmental integrity, economic prosperity, and social/cultural vibrancy. CHANGE is a campaign of neighborhood revitalization and an extension of sustainability to specifically address marginal properties, affordable housing, and homeownership. Under the umbrella of CHANGE, this initiative provides funding towards the City's strategy of revitalization for the downtown neighborhoods and centers on increasing homeownership. The City administers a number of programs of federal and state-provided financial assistance for low-moderate income households (earning less than 80% of area median income) to achieve this. This Program also provides for acquisition activities where the City may purchase abandoned, derelict buildings and houses; or it may purchase housing subject to mortgage foreclosure actions in order to secure City funds previously loaned as part of rehabilitation activities or other housing to accomplish the goals. Certain improvements will be made to the properties in order to make them marketable for resale. In this manner, neighborhood conditions are improved, dwellings are resold to responsible owners and City dollars are returned to the revolving fund. The program offers loans up to \$25,000 for down payments and closing costs and approximately \$30,000 to subsidize rehabilitation.

DEPARTMENT: 61 - Housing & Community Development	STATE PROGRAM: 5C - Community & Economic Development	PROJECT TITLE: Assistance for Homeownership	YEAR FIRST SUBMITTED: FY 2017 PROJECT NO: 6100200005 101-1595, 360-1595	TOTAL PROJECT COST \$5,143,523
--	--	---	--	--

PROJECT DESCRIPTION/JUSTIFICATION (Continued)

This program is offered to households below 80% of median income as an incentive to purchase and improve properties citywide. Consideration will be given to increasing the amounts for purchase of rental properties converted to owner-occupied. Beginning in 2008, selective purchases have been made. Certain properties are targeted to be voluntarily acquired, for reason of poor maintenance and the inability or refusal of the owner to make improvements. These are then resold to qualifying owner-occupied households committed to the restoration of the home. This program helps support the Four Mounds HEART program partnership. This is a ten-year TIF which requires 38.1% of the income generated to be used for Low and Moderate Income residents anywhere in the City of Dubuque. The percentage to Low and Moderate Income residents can be higher than the required 38.1%. This Housing TIF revenue can be used for City initiatives other than Homeownership Grants in Targeted Neighborhoods & Purchase/Rehab/Resale and can be used outside the Greater Downtown TIF Urban Renewal area.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other projects.

OUTCOME

Livable Neighborhoods and Housing: Have the availability and connectivity of affordable housing throughout the city, not in concentrated areas of poverty and low-income housing

FUNDING RESTRICTIONS

This project may only be funded by Housing TIF and General Fund loan repayments.

PROJECT DESCRIPTION/JUSTIFICATION

The Comprehensive Housing Activities for Neighborhood Growth and Enrichment, or CHANGE, is an initiative with a holistic approach to sustainability that addresses ecological, environmental integrity, economic prosperity, and social/cultural vibrancy. CHANGE is a campaign of neighborhood revitalization and an extension of sustainability to specifically address marginal properties, affordable housing, and homeownership. Under CHANGE, the Washington Neighborhood Homebuyer Program supports and encourages homeownership in the Washington Neighborhood. The program operates under the oversight of the Housing Trust Fund Committee and is capitalized by annual grants received from the Iowa Finance Authority (IFA). IFA requires a match for the program and the City provides IFA Trust Match from the Greater Downtown TIF (GDTIF). The primary purpose is to complement homebuyer programs provided through the CDBG program by providing loans to low-to-mod income homeowners and buyers in the Washington Neighborhood. Homebuyer loans are offered on a sliding scale. Households earning less than 30% of median income (MI) are eligible for \$25,000; less than 50% MI are eligible for \$20,000; less than 80% MI are eligible for \$15,000. All loans are 0% interest and have a monthly payment of \$60 per month until paid in full or it is no longer their principal place of residence. Homeowners are eligible for up to \$25,000 for the rehabilitation of their property. The new boundaries are 11th Street to 32nd Street; Elm Street to Central Avenue.

RELATIONSHIP TO OTHER PROJECTS

This project is related to Assistance for Homeownership (CIP #6100200005)

OUTCOME

Livable Neighborhoods and Housing: Have strong vibrant 24/7 residential/central business core (Dubuque Main Street Service Area Downtown, Central Avenue Corridor and Dubuque Millwork District, North End including residential opportunities, retail, jobs, recreation and entertainment)

FUNDING RESTRICTIONS

This project may only be funded by Iowa Finance Authority Trust Fund, Greater Downtown TIF, Housing TIF, or General Funds

PROJECT ADDRESS/SERVICE AREA

11th Street - 32nd Street; Elm to Central

PROJECT DESCRIPTION/JUSTIFICATION

The Comprehensive Housing Activities for Neighborhood Growth and Enrichment, or CHANGE Initiative is a holistic approach to sustainability that addresses ecological, environmental integrity, economic prosperity, and social/cultural vibrancy. CHANGE is a campaign of neighborhood revitalization and an extension of sustainability to specifically address marginal properties, affordable housing and homeownership. Under the umbrella of CHANGE, the Homeowner Rehabilitation Program provides Community Development Block Grant (CDBG) funding for loans to owner-occupied single family or duplex properties for comprehensive rehabilitation of their homes, including the Homeowner Rehabilitation Loan Program, Home Repair Program and the Accessibility Program. The Homeowner Rehabilitation Loan Program provides loans up to \$25,000, at 0% interest. For households below 30% median income loans will be deferred until sale of property; households below 50% median income loans will be \$40/mo. repayment and households below 80% median income \$60/mo. repayment. Loans may be made for greater amounts if approved on a case-by-case basis by the Community Development Advisory Commission. This program has been in operation since 1978. The total portfolio of all housing lending programs is now 460 loans with a current balance of \$5million.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Have the availability and connectivity of affordable housing throughout the city, not in concentrated areas of poverty and low-income housing

FUNDING RESTRICTIONS

This project may only be funded by Community Development Block Grant, Housing TIF, or General Funds.

PROJECT DESCRIPTION/JUSTIFICATION

The Comprehensive Housing Activities for Neighborhood Growth and Enrichment, or CHANGE Initiative is a holistic approach to sustainability that addresses ecological, environmental integrity, economic prosperity, and social/cultural vibrancy. CHANGE is a campaign of neighborhood revitalization and an extension of sustainability to specifically address marginal properties, affordable housing and homeownership. Under the umbrella of CHANGE, this City-wide project provides loans to income-qualifying homebuyers for down payment and/or closing costs. Assistance is offered as up to \$25,000 or half of the down payment required, whichever is less, interest-free loans. Buyers make principal-only payments, deferred payments loans for five years for below 30% median income; \$40 per month for below 50% median income for three years, then increase to \$60 for the remaining five years; or \$60 per month for 51-80% median income.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Have the availability and connectivity of affordable housing throughout the city, not in concentrated areas of poverty and low-income housing

FUNDING RESTRICTIONS

This program may only be funded with Community Development Block Grant, Housing TIF or General Funds.

PROJECT DESCRIPTION/JUSTIFICATION

This program was created as revolving loan fund available on a competitive basis to property owners in the Jackson Park, Cathedral, W 11th Street, Old Main and Langworthy Historic Preservation and Conservation Districts. Low interest loans are made to support exterior rehabilitation projects that result in saving, restoring or reconstructing original building elements using original materials that reflect the architectural character or significance of the building. This program provides a valuable financial resource to property owners in the city's historic district and acts as an incentive to maintain and improve the community's architectural heritage.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Livable Neighborhoods and Housing: Increase the visual appeal and beauty of the city with attractive gateways, corridors, neighborhoods, homes and businesses.

FUNDING RESTRICTIONS

This project may only be funded by UDAG Loan Repayments

PROJECT DESCRIPTION/JUSTIFICATION

This program funds the City of Dubuque Downtown Urban Renewal District ADA Assistance Program. The program supports residents and businesses to ensure facilities in the Downtown Urban Renewal Area are fully accessible and inclusive to all persons regardless of abilities. This includes parking lots, retail and wholesale stores, restaurants, cafes, taverns, gas stations, public buildings, lodging, schools, parks, and entertainment venues. The program is designed to assist businesses with the cost of becoming ADA compliant. Qualified applicants can receive up to 50% of the cost of the project from the City of Dubuque, at a maximum amount of \$5,000 per property.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Healthy and Safe: Become an inclusive and equitable community in which all feel welcome, included, and leave no one behind

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%), DRA Distribution/Gaming, or TIF.

\$ 218,235	\$ 1,075,000	TOTAL	\$ 1,148,500	\$ —	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

The Lead and Healthy Homes Program seeks to help eliminate lead hazards and create healthier and safer homes.. The Lead and Healthy Homes Grant was awarded to the City in 2021. This grant allows for the removal of lead hazardes in 106 units within the City of Dubuque. Eligibility is reserved for specific target homes, which are homes that were built prior to 1978, have children under 6 living or visiting, and have been identified as having lead hazards. Match funding for 20 units completed will come from CDBG Funding.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Healhty Homes Production Grant (CIP 6100100015) and the Older Adult Home Modification Program (CIP 6100100052).

OUTCOME

Livable Neighborhoods and Housing: Have safe, healthy, inclusive and affordable neighborhoods citywide

FUNDING RESTRICTIONS

This project may only be funded by Federal Grants provided by HUD.

PROJECT DESCRIPTION/JUSTIFICATION

This Program takes a comprehensive approach to addressing multiple diseases and injuries for those who are low to moderate income and at high risk in the home by focusing on housing-related hazards in a coordinated fashion using the Eight Healthy Homes Principles: 1. Keep it dry, 2. Keep it clean, 3. Keep it Safe, 4. Keep it well-ventilated, 5. Keep it pest-free, 6. Keep it contaminant-free, 7. Keep your home maintained, 8. Thermally controlled. The high risk population contains but is not limited to children, older adults and families with persons with disabilities. Creating healthier housing promotes the healthy growth and development of children and has the potential to save billions in health care costs. All units served must be the residence of families with income at or below 80% of the AMI. All addresses within the City of Dubuque are eligible. This program seeks to Complete construction on 126 units.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Lead and Health Homes project (CIP #6100100016). If healthy homes funding is exhausted in the Lead and Healthy Homes grant, this grant may be utilized in partnership with that grant to provide both the removal of lead hazards and healthy homes principles to the same unit.

OUTCOME

Livable Neighborhoods and Housing: Have safe, healthy, inclusive and affordable neighborhoods citywide

FUNDING RESTRICTIONS

This project may only be funded by Federal Grants provided by HUD.

\$ 66,872	\$ 200,000	TOTAL	\$ 278,690	\$ —	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

The overall purpose of the Older Adult Home Modification Program is to make safety and functional home modifications and limited repairs to meet the needs of low to moderate income elderly homeowners, age 62 and above. The goal is to enable the elderly person to remain in their homes through low-cost, low barrier, high impact home modifications to reduce the older adults' risk of falling, improve general safety, increase accessibility, and to improve their functional abilities in their home. This will allow older adults to remain in their homes to "age in place", rather than move to nursing homes or other assisted care facilities. All units served must be the primary residence of the homeowner, who must be at least 62 years of age with an income that is equal to or less than 80% of the AMI. This project seeks to complete construction on 184 units.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Lead and Healthy Home Program (CIP #6100100016) and the Healthy Homes Production Grant (CIP #6100100015). All units participating in this grant are eligible to apply for either the Lead and Healthy Homes grant or the Healthy Homes Production grant.

OUTCOME

Livable Neighborhoods and Housing: Have safe, healthy, inclusive and affordable neighborhoods citywide

FUNDING RESTRICTIONS

This project may only be funded by Federal Grants provided by HUD.

PROJECT DESCRIPTION/JUSTIFICATION

Funding is being requested to acquire the land needed to develop the Emri Apartments. The Emri Apartments will bring 48 new, low-to-moderate-income housing for families to Dubuque. These apartments will be either 1, 2 or 3 bedroom units. 12 units are specifically for residents who are income-qualified at or below the 40% mark of the area median income, and 36 units are for residents who are at or below the 60% mark of area median income. 10 units will also be fully accessible. Developing this area will bring more affordable housing to Dubuque without displacing current residents.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital improvement projects.

OUTCOME

Livable Neighborhoods and Housing: Have safe, healthy, inclusive and affordable neighborhoods citywide

FUNDING RESTRICTIONS

There are no funding restrictions for this project.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for a phased program of historic and architectural surveys of Dubuque's older neighborhoods to identify cultural resources for planning and program implementation as well as neighborhood revitalization and sustainability. This project also supports registrations through nomination and listing of local historic districts, sites, and properties to the National Register of Historic Places, which facilitates access to historic tax credits and other preservation funding sources. This project can also assist with historic structure reports or surveys to facilitate rehab and adaptive reuse. City funds would be used to leverage state grants where feasible; state grants are highly competitive and can extend project timeline. This project helps to maintain status as a Certified Local Government (CLG) with the State of Iowa. The CLG program requires that historic and architectural surveys and registrations be conducted on a periodic basis. Between 2000 and 2016, nearly 5,800 structures in Dubuque's historic districts, conservation districts, and conservation planning areas were surveyed. These surveys and registrations assist Planning Services staff with conducting mandated Section 106 reviews of potential impacts to cultural resources for federally funded housing rehab and other City projects. CLG status allows the City to conduct these reviews in-house, which streamlines project review. These surveys and registrations also assist with federal and state tax credit applications and disaster assistance. This project implements the Historic Preservation Commission's annual work plan, a key component of the City's Historic Preservation Program.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Partnership for a Better Dubuque: Advocate for the Dubuque community and City at state and federal levels. Livable Neighborhoods and Housing: Increase the visual appeal and beauty of the city with attractive gateways, corridors, streetscapes/landscaping neighborhoods, homes and businesses

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) or DRA Distribution.

PROJECT ADDRESS/SERVICE AREA

Dubuque's older neighborhoods, generally east of John F. Kennedy Road.

PROJECT DESCRIPTION/JUSTIFICATION

This project will provide funding for matching grants to assist non-profits in the Greater Downtown TIF area to make energy efficiency improvements to their buildings, including weatherization measures, HVAC system upgrades, alternative energy sources, and other work to decrease their utility bills. This reduction in annual operating costs will allow non-profits to invest more funds in achieving their organization's mission. Energy efficiency improvements not only result in financial savings to the organization but will also help to meet the 50% by 2030 Community Climate Action & Resiliency Plan goals approved by City Council in 2013. The program builds on the success of the Energy Efficiency Revolving Loan Fund (EELF) that is currently available to private businesses. EELF was created using funds the City received from the 2009 American Recovery & Reinvestment Act and the Grants to Green program- a Community Foundation of Greater Dubuque program which invested over \$1.2 million in energy efficiency projects for non-profits. Ongoing community conversations have demonstrated a continued need to fill the gap between available utility rebates and the amount non-profits are able to pay for energy efficiency improvements. Similar to the existing EELF, non-profits may be able use funds for renewable energy installation, if all reasonable efficiency improvements have been made, in order to further reduce their utility costs and reduce their negative environmental impact. Additional criteria and an application have been developed.

RELATIONSHIP TO OTHER PROJECTS

This project is related to the Downtown URA Non-Profit Accessibility Assistance Program (CIP #3602802).

OUTCOME

Sustainable Environment: Reduce the community's carbon footprint (50% by 2030).

FUNDING RESTRICTIONS

This project may only be funded by Greater Downtown TIF.

PROJECT DESCRIPTION/JUSTIFICATION

This project provides for replacement of computers and printers for all enterprise-type City departments. This reflects a four-year replacement schedule for computers, a five-year replacement schedule for printers and a two-year replacement schedule for computer tablets. Software capabilities continue to outpace hardware and also provide continued opportunity for productivity enhancement. In the past we tried to maintain a five-year replacement schedule. However, this has been ineffective and is at least a year too long, based on the pace of hardware and software industries.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Easy, convenient access to City information and services.

FUNDING RESTRICTIONS

This project may only be funded by City enterprise funds.

PROJECT ADDRESS/SERVICE AREA

Citywide

PROJECT DESCRIPTION/JUSTIFICATION

This project would address the outcome of secure city information and data using "best practices" to ensure secure City information, including personal information. According to the IBM Security and Ponemon Institute's "Cost of Data Breach 2023," stolen or compromised credentials were not only the most common cause of a data breach, but at 204 days, took the longest time to identify. Phishing, e-mail compromise are also major contributors to the threat landscape. This attack vector continues to show a steady increase in cost of incidents A majority of malicious attacks can be attributed to human error and issues with systems such as lack of security patching. This project would include services for full network penetration testing of existing network assets every three years. Follow-up assessments and testing of effectiveness of changes made are recommended for future years.

RELATIONSHIP TO OTHER PROJECTS

This project is not related to other capital projects.

OUTCOME

Financially Responsible, High Performance City Organization: Maintain and enhance transparent City government and decision making using available technology

FUNDING RESTRICTIONS

This project may only be funded by Sales Tax Fund (20%) or DRA Distribution/Gaming.

PROJECT ADDRESS/SERVICE AREA

City wide (data centers)

DEPARTMENT: 77 - Information Technology		STATE PROGRAM: 6C - General Government	PROJECT TITLE: Network Switch Replacement			YEAR FIRST SUBMITTED: FY2025	PROJECT NO: 7769900017-304-65045	TOTAL PROJECT COST \$ 120,000
2023 EXPENSE	2024 BUDGET	PROJECT BUDGET	2025	2026	2027	2028		
		A. EXPENDITURE ITEMS						
\$ —	\$ —	Network Switches	\$ 120,000	\$ —	\$ —	\$ —	\$ —	\$ —
\$ —	\$ —	TOTAL	\$ 120,000	\$ —	\$ —	\$ —	\$ —	\$ —
		B. PROJECT FINANCING						
\$ —	\$ —	Sales Tax Fund (20%)	\$ 120,000	\$ —	\$ —	\$ —	\$ —	\$ —
\$ —	\$ —	TOTAL	\$ 120,000	\$ —	\$ —	\$ —	\$ —	\$ —

PROJECT DESCRIPTION/JUSTIFICATION

This project would complete the final phase of network switch replacements including locations at WRRRC, Dubuque Regional Airport, and the Federal Building. These switches were schedule for replacement in FY 2021-22 however due to COVID-19 and additional costs for switch replacements at City Hall, City Hall Annex and DLEC the replacement of these switches were deferred. All of the equipment is at or nearing end of support so risk of failure is high. Updates to firmware are no longer offered. Security threats and vulnerabilities are continually evolving. Manufacturers release firmware updates to patch known vulnerabilities and enhance the security of the switches. Failing to update switches can leave the network susceptible to potential security breaches. Users have a high dependance on high availability equipment that does not present a risk of failing.
